LEADING CHURCHES IN THE CITY OF NEW YORK.

In the City of New York there are over 1,600 churches, attended each Sunday, it is estimated, by more than a million worshippers, of which 100,000, at least, are strangers visiting the metropolis.

MANHATTAN.

There are three cathedrals: St. Patrick's (Roman Catholic), Fifth Ave. and 50th St.; the Cathedral of St. John the Divine (Protestant Episcopal), located on W. 111th St., between Amsterdam and Morningside Aves.; and St. Nicholas (Greek Orthodox), located at 1 E. 97th St., near Fifth Ave.

The leading houses of worship, by chief denominations, follow:

Baptist—Calvary, W. 57th St., between Sixth and Seventh Aves.; Central, 92d St., and Amsterdam Ave.; Fifth Ave., formerly at 8 W. 46th St., and now named First Park Ave. Baptist Church, situated at Park Ave. and 64th St.; the First, W. 79th St., corner Broadway; Judson Memorial, 55 Washington Sq., So.; Madison Ave. Church, cor. E. 31st St.; Metropolitan, W. 128th St. and 7th Ave., and the Mount Morris, 5th Ave., near W. 127th St.

The Hellenic Eastern Christian Orthodox Church of the Holy Trinity is on E. 72d St., near 3d Ave.

Christian Science (Church of Christ, Scientist)—First, Central Park West and 96th St.; and the Second, 10 W. 68th St.

Congregational—Tabernacle, Broadway and 56th St.; and Manhattan, Broadway and W. 76th St.

Disciples of Christ—Central Church, W. 81st St., near Columbus Ave.

Friends' (Quakers)—Meeting Houses: (Hicksite), E. 15th St. and Rutherford Pl.; and (Orthodox), 144 E. 20th St.

Jewish—Temple Israel, W. 91st St., near B'way; Free Synagogue, Carnegie Hall; Shearith Israel, Central Park West and 70th St.; Temple Beth-El, 5th Ave. and 76th St.; Temple Emanu-El, 5th Ave. and 43d St.

Lutheran—Advent, Broadway and 93d St.; Grace, 123 W. 71st St.; Holy Trinity, Central Park West and 65th St.; and Immanuel, Lexington Ave. and E. 88th St.

Methodist Episcopal—Calvary, 129th St. and 7th Ave.; Church of All Nations, 9 2d Ave.; Grace, 131 W. 104th St.; John St., 44 John St.; Madison Ave., at E. 60th St.; Metropolitan Temple, 58 7th Ave.; St. Andrews, 126 W. 76th St.; St. Paul's, West End Ave. and 86th St.; and Union, W. 48th St., near Broadway.

Presbyterian—Brick, 5th Ave. and 37th St.; Broadway, at W. 114th St.; Central, Madison Ave. and 57th St.; Fifth Ave., at 55th St.; First, 5th Ave. and 11th St.; Fourth, West End Ave. and 91st St.; Madison Ave., at 73d St.; Park Ave., at E. 85th St.; Rutgers, Broadway and W. 73d St.; Scotch, Central Park West and 96th St.

Protestant Episcopal—Ascension, 5th Ave. and 10th St.; Christ Church, Broadway and 71st St.; Epiphany, 259 Lexington Ave.; Grace, Broadway and 10th St.; Heavenly Rest, 551 5th Ave.; Holy Trinity, 316 E. 88th St.; Incarnation, 205 Madison Ave.; "Little Church Around the Corner" (Transfiguration), 5 E. 29th St.; St. Andrew's, 127th St., near 5th Ave.; St. Bartholomew's, Park Ave. and 52d St.; St. George's, Stuyvesant Sq.; St. James's, Madison Ave. and 71st St.; St. Luke's, Convent Ave. and 141st St.; St. Mark's-in-the-Bouwerie, 2d Ave. and 10th St.; St. Paul's Chapel, Broadway and Vesey St.; St. Thomas's, 5th Ave. and 53d St.; Trinity Church, Broadway and Wall St.

Reformed Church in America—Marble (Collegiate, 5th Ave. and 29th St.; St. Nicholas (Collegiate), 5th Ave. and 48th St.; West End (Collegiate), West End Ave. and 77th St.

Roman Catholic—Ascension, 107th St., near Broadway; Holy Trinity, 205 W. 82d St.; Notre Dame, Morningside Drive and 114th St.; St. Agnes's, 143 W. 43d St.; St. Andrew's, Duane St. and City Hall Place; St. Brigid's, 123 Ave. B; St. Cyril, St. Mark's Pl.; St. Francis Xavier, 42 W. 16th St.; St. Ignatius Loyola's, Park Ave. and E. 84th St.; St. Leo's, 11 E. 28th St.; St. Patrick's, Mott and Prince Sts.; St. Paul the Apostle's, Columbus Ave. and W. 60th St.; St. Peter's, 20 Barclay St.

Seventh Day Adventist—First, Lenox Ave. and 120th St.

Unitarian—All Souls', 4th Ave. and 20th St.; and the Community Church, 61 E. 34th St.

Universalist—(Fourth), Church of the Divine Paternity, Central Park West and 76th St.

Among other places of worship in Manhattan are: All Night Mission, 8 Bowery; Bowery Mission, 227 Bowery; Broome St. Tabernacle, 395 Broome St.; Church of the Strangers (Deems Memorial), 307 W. 57th St.; De Witt Memorial, 280 Rivington St.; Divine Inspiration (Spiritualist), 20 W. 91st St.; Doyers St. Midnight Mission, 5 Doyers St. Eighth Ave. Mission, 290 8th Ave.; Gospel Tabernacle, 44th St. and 8th Ave.; Labor Temple, 2d Ave. and 14th St.; McAuley Cremorne Mission, 216 W. 35th St.; McAuley's Water St. Mission, 316 Water St.; New Church (Swedenborgian), 35th St., near Park Ave.; Pentecostal Nazarene, 210 W. 14th St.; Progressive Spiritualists' Church, 325 W. 59th St.; Salvation Army (see Index); Seamen's Christian Association, 399 West St.; Seventh Day Christian, 151 W. 125th St.; Society of Ethical Culture, 2 W. 64th St.; Temple of International Bible Students' Ass'n, Inc., 22 W. 63d St.; Theosophical Society, 25 W. 45th St.; Vedanta Society, 236 Central Park West; Volunteers of America (see Index).

BROOKLYN.

Baptist—Temple, 3d Ave. and Schermerhorn St.; Emmanuel, Lafayette Ave. and St. James Pl.; Hanson Place, at So. Portland Ave.; Sixth Ave., at Lincoln Pl.; Washington Ave., at Gates Ave.; First, New York Ave. and Dean St.

Christian Scientist—First, New York Ave. and Dean St.

Congregational—Central, Hancock St., near Franklin Ave.; Clinton Ave., at Lafayette Ave.; Flatbush, Dorchester Rd. and E. 18th St.; Pilgrims, Henry and Remsen Sts.; Plymouth, Orange St., near Hicks St.; South, President and Court Sts.; St. Paul's, New York Ave. and Sterling Pl.; Tompkins Ave., at McDonough St.

Disciples of Christ—Flatbush, Dorchester and Marlborough Roads.

Friends—(Hicksite), 110 Schermerhorn St.; (Orthodox), Lafayette and Washington Aves.

Jewish—Beth-El, 12th Ave. and 41st St.; Beth Judah, 904 Bedford Ave.; Beth Sholaum, 399 9th St.; Eighth Ave., at Garfield Pl.; Mt. Sinai, State and Hoyt Sts.; People's Temple, Bay P'kway and 85th St.; Temple Israel, Bedford and Lafayette Aves.

Lutheran—Emmanuel, 421 7th St.; Evangelical, Schermerhorn St., near Court St.; Good Shepherd, 4th Ave. and 75th St.; Redeemer, Lenox Rd. and Flatbush Ave.; St. Luke's, Washington Ave., near DeKalb Ave.; St. Peter's, Bedford Ave., near DeKalb Ave.; Zion, Henry St., near Clark St.

Methodist Episcopal—First, Henry and Clark Sts.; Grace, 7th Ave. and St. John's Pl.; Hanson Pl., at St. Felix St.; New York Ave., at Dean St.; Simpson, Clermont and Willoughby Aves.; Summerfield, Washington and Greene Aves.

Methodist—(Primitive), Park Pl., near Nostrand Ave.

Moravian—Jay St., near Myrtle Ave.

Presbyterian—Bedford, Dean St. and Nostrand Ave.; Central, Marcy and Jefferson Aves.; First, Henry St., near Clark St.; Lafayette Ave., at So. Oxford St.; Memorial, 7th Ave. and St. John's Pl.; Spencer Memorial, Clinton and Remsen Sts.; Westminster, Clinton St. and 1st Pl.

Protestant Episcopal—Christ, Clinton and Harrison Sts.; Grace, Hicks St. and Grace Court; Holy Trinity, Clinton and Montague Sts.; Messiah, Greene and Clermont Aves.; Redeemer, Pacific St. and 4th Ave.; St. Ann's, Clinton and Livingston Sts.; St. Bartholomew's, Pacific St., near Bedford Ave.; St. James's, Lafayette Ave. and St; James Pl.; St. John's, 7th Ave. and St. John's Pl.. St. Luke's Clinton Ave., near Fulton St.; St. Paul's, Clinton and Carroll Sts.

Reformed Church in America—Bethany, Clermont Ave., near Willoughby Ave.; First, of Williamsburgh, Bedford Ave. and Clymer St.; First, Flatbush and Church Aves.; Heights, Pierrepont St., near Henry St.; Old First, 7th Ave. and Carroll St.

Roman Catholic—Holy Name of Jesus, Prospect Ave. and Prospect Park West; Our Lady of Lourdes, De Sales Pl., near Broadway; Our Lady of Mercy, Schermerhorn St., near Bond St.; Queen of All Saints, Lafayette and Vanderbilt Aves.; St. Agnes's, Hoyt and Sackett Sts.; St. Augustine's, 6th Ave. and Sterling Pl.; St. Charles Borromeo, Sidney Pl. and Livingston St.; St. Francis Xavier's, 6th Ave. and Carroll St.; St. James Pro-Cathedral, Jay and Chapel Sts.; St. John the Baptist's, Willoughby Ave., near Lewis Ave.; Sts. Peter and Paul, Wythe Ave., near So. 2d St.; St. Saviour's, 6th St. and 8th Ave.

Swedenborgian—Church of the New Jerusalem, Monroe Pl. and Clark St.

Unitarian—Saviour, Pierrepont St. and Monroe Pl.; Second, Clinton and Congress Sts.

Universalist—All Souls', Ditmas and Ocean Aves.

Miscellaneous—Brooklyn Spiritualist Soc., 28 Irving Pl.; Brooklyn Tabernacle, 17 Hicks St.; Christian and Missionary Alliance, 1560 Nostrand Ave.; Ethical Culture Soc., Academy of Music; Reformed Presbyterian, 452 Monroe St.; St. Nicholas Greek Orthodox, 301 Pacific St.

CATHEDRAL OF ST. JOHN THE DIVINE.

The Cathedral Church of St. John the Divine on Morningside Heights in the City and Diocese of New York, in its present unfinished condition, represents an outlay of $5,311,538 and fifty years of preparation and planning. In about ten years more when, if the work of construction continues steadily, it will be complete, the cost of the Cathedral proper, exclusive of the many buildings in the Close, will have mounted to about four times the present outlay, or $20,000,000. The grounds cost $884,315; the foundation, $319,989; nave foundation, $375,-973; choir and crossing, $2,201,859; chapels, $1,250,-000; choir school, $166,000, and deanery, $113,402.

Work was resumed in May, 1924, when the building of a baptistry, the gift of the Van Stuyvesant family of New York, was begun. It will cost $250,000. Bids for the construction of the Nave were called for in October, to cost approximately $5,375,000.

When finished, it will seat 7,000, with accommodations for several thousand more standing. Its dimensions are thus expressed in figures:

Of Area (square feet)	109,082
Of Length:	Feet
Western Towers (square)	50
Nave	225
Crossing	100
Choir	170
St. Saviour's Chapel	56
Total Length	601
Of Width:	
West Front (including buttresses)	220
Nave and Aisles (exterior)	132
Transepts (exterior)	315
Nave (interior)	56
Aisles (each)	34
Crossing	100
Choir	56
Ambulatory	20
Of Height:	
Western Towers	265
Ridge of Nave Roof	175
Nave Vaults (above floor)	130
Choir " " "	127
Crossing " " "	200
Central Fleche " "	470
Finial Cross (30 feet) "	500
Finial Cross above tidewater	631

The charter was granted in 1873 by the Legislature. Acting upon it, the second Bishop Potter had secured sufficient funds between 1886 and Oct. 31, 1891, to purchase from the Leake and Watts Orphan Asylum the land between Amsterdam Avenue and Morningside Park and between 110th and 112th Streets, which is now the Close. The grounds comprise 11½ acres and cost $850,000. Besides the Cathedral proper other buildings costing about $1,000,000 have been erected on the Close. These include the Bishop's House, the Deanery, the Choir School, the Synod House, about $350,000, and St. Faith's House.

The architects of the Cathedral have been George L. Heins and C. Grant La Farge from July, 1891, until Mr. Heins's death in September, 1907; Mr. La Farge from that latter date until the completion of the Choir in April, 1911, and Cram & Ferguson from then on to the present time. Besides these, in the Chapels of the Tongues, as the seven chapels are known although some of these are as commodious as many individual churches, are the works of Heins and La Farge (in two), Henry Vaughan (in three), Cram & Ferguson (in one), and Carrere & Hastings (in one).

The prevailing style of the architecture chosen is French Gothic. The loftiest features of the west front are the two towers which will rise to a height of 265 feet and the great central tower above the crossing of the Nave and Transepts. The latter will consist, when completed, of an octagonal lantern carried up from a square crossing in two stages, the upper smaller than the lower, surmounted by a fleche rising to a height of 500 feet, including the Cross, above the ground.

The material is Peekskill golden granite, faced inside with buff Indiana limestone.

Besides the architectural features, present and planned, there are already many works of art and carving installed within the building. The Potter Memorial Pulpit is one of these. This is made in Knoxville marble, designed by Henry Vaughan, executed by John Evans & Co. of Boston, and cost $30,000. The Eagle Lectern of bronze was the gift of Mrs. James Herman Aldrich.

The choir stalls, rising in four tiers on either side of the Choir proper, are of carved American oak. The canopies are copied from those in the Chapel of Henry VIII, in Westminster Abbey used as the Chapel of the Knights of the Garter. The finials of the stalls are figures, twelve great musicians and composers of church music. The high altar is white Vermont marble. The statue of Our Lord, the central carving in the reredos, is 7 feet high, and those of Moses and St. John the Baptist are 6 feet 5 inches high. The great rectangular panel in the lower part of the reredos is filled with a rare Spanish embroidery of arabesque design, 200 years old.

The eight great columns in a semicircle around the sanctuary are among the marvels of the Cathedral. They are approached in size only in St. Isaac's Cathedral in Leningrad. The shafts in light gray granite from Bear Island, near Vinal Haven, in Maine, were quarried as monoliths and turned on a special lathe which itself, specially built, cost $50,000. After many attempts it was found the weight in the centre was too great for any stone to withstand and the contractor obtained permission to make the shafts in two pieces. The lower stone in each is 38 feet high and weighs 90 tons. The upper stone is 17 feet high and weighs 40 tons, the total height between base and capital being 55 feet and the weight 130 tons. Each column cost $25,000, exclusive of the cost of erection.

The organ, seen in the upper arches on either side of the Choir, contains 7,000 pipes and a chime, connected by electric wires with the console located in the gallery on the south choir screen. The console has four manuals and two octaves of pedals, 106 speaking stops, 31 couplers and 33 pistons. It was built by E. M. Skinner Company of Boston and was the gift of former Vice President Levi P. Morton and Mrs. Morton.

Perhaps the most sentimental interest centres about the Barbarini tapestries. These were woven in the first half of the 17th century on the papal looms founded by Cardinal Barbarini, under the patronage of his uncle, Pope Urban VIII. They were executed under the direction of the master weaver Jacques Della Riviera from cartoons painted by Jean Francois Romanelli. The cartoons are now in the Vatican. The tapestries, originally designed for the throne room of the Barbarini Palace in Rome, were presented to the Cathedral by Mrs. Elizabeth U. Coles. The price said to be paid for the twelve was $45,000.

SANDY HOOK LICHT AND FORT HANCOCK.

Chaplain William R. Arnold in an article for the Recruiting News says:

"Before 1778, Sandy Hook was connected with the Highlands of Navesink by a narrow isthmus which separated Sandy Hook Bay from the Navesink and Shrewsbury Rivers.

"The mouth of the Shrewsbury River changed back and forth between ocean and bay at intervals of twenty or thirty years until finally railroad and Government engineers built a stone dike nearly four miles long, which compels the Shrewsbury to run parallel to the ocean for three miles.

"The Government made its first purchase of land for military purposes in 1807. Additional purchases in 1817 and 1892 brought the entire peninsula into possession.

"In 1890, the Government built Fort Hancock. Ruins of an unfinished older fort, dating from 1857 and built of granite blocks, can still be seen nea the end of the hook.

"Sandy Hook Light is the oldest lighthouse in the United States.

"It is a white stone tower, 90 feet high, and shows a third order fixed white light visible fifteen nautical miles.

"It was erected by New York merchants and was first lighted on Monday, June 18, 1764.

"In 1776, Capt. John Conoon, acting under orders, destroyed the lantern in order that the British fleet might not be guided into New York Bay; on July 2, 1778, the army of Sir Henry Clinton retreated to Sandy Hook, crossing the Navesink on a pontoon bridge.

"Sandy Hook Light and the old dwelling of the keeper was known during the Revolution as the Light House Fort, or Refugees' Tower.

THE NEW YORK PUBLIC LIBRARY.

(Prepared for The Almanac by Edmund L. Pearson, Editor of Publications of the Library.)

The corporate existence of the New York Public Library began May 23, 1895, by the consolidation of the Astor Library, the Lenox Library and the Tilden Trust. The Astor Library, incorporated 1849, owned at the time of consolidation a fund of $941,000 and 266,147 books. The Lenox Library, incorporated 1870, owned in 1895 a fund of $505,000 and 86,000 books. The Tilden Trust (founded by Samuel J. Tilden, who died in 1886), brought to the library $2,000,000. In 1901, the New York Free Circulating Library, with 11 branches, was consolidated with the new system. Between 1901 and 1904, the New York Free Circulating Library for the Blind, the Aguilar, St. Agnes, Harlem, Tottenville, Washington Heights, University Settlement, Webster, and Cathedral Libraries all joined the corporation. In 1901 Andrew Carnegie gave $5,200,000 to Greater New York for library buildings, on condition that the city provide the land and maintain the libraries when built. With the part of this sum which was assigned to the New York Public Library, 37 branch libraries have been built. (The Boroughs of Brooklyn and Queens have their own libraries. The New York Public Library serves the Boroughs of Manhattan, the Bronx and Richmond.) There are in the New York Public Library 43 branches in all. In addition there are six sub-branches, in buildings not owned by the library.

In 1909 John S. Kennedy left the library $3,000,000 and in 1923 J. D. Rockefeller jr., Payne Whitney, and Edward S. Harkness gave $6,000,000.

The Central Building of the library, Fifth Avenue and 42d Street, built by the city, was opened May 23, 1911; cost $9,000,000; architects, Carrere and Hastings; hours, week days, including holidays, 9 A. M. to 10 P. M.; Sundays, 1 P. M. to 10 P. M.

It contains the Reference Department, the descendant of the Astor and Lenox Libraries, and the headquarters of the Circulation Department (the branch libraries).

The Reference Department has 1,598,369 books and pamphlets, the Circulation Department has 1,154,225 books. The library is exceeded in size only by the Library of Congress in this country, and by two or three European libraries. It is the first library in the world in point of use.

The number of persons recorded as using the Reference Department in 1923 was 1,257,919. The actual use is much larger; the count includes only those who apply on written slips for books. The number of books loaned for home use by the Circulation Department in 1923 was 9,543,426. From 6,000 to 11,000 persons enter the Central Building daily.

To maintain the Reference Department in 1923 the library disbursed $1,067,799.41, chiefly from its own endowments. In 1923 the disbursement for the Municipal Reference Branch in the Municipal Building was $21,331.24, of which sum the city gave $21,045.46.

For the Circulation Department in 1923 was expended $1,163,854.80, of which the city gave $1,051,931.59.

No public funds are spent for books, salaries or other costs of the Reference Department in the Central Building, or for the Central Circulation Branch and Central Children's Room in that building.

The branch library buildings usually contain lending and reference departments for adults, similar departments for children, lecture rooms used for meetings for educational purposes and for organizations for social betterment. The branch libraries work in concert with the schools and pay special attention to the Americanization of foreign-born citizens. The Reference Department, in the Central Building, in addition to its main reading room, with seats for 768 readers, has special rooms devoted to art and prints, American history, maps, manuscripts, music, genealogy, Slavonic literature, Jewish literature, Oriental literature, economics and public documents, books for the blind, current periodicals, science and technology, and current newspapers. There are three exhibition rooms, and two galleries which are devoted to the Lenox and Stuart art collections, with portraits of Washington by Gilbert Stuart, paintings by Reynolds, Raeburn, Copley, Turner, &c. The Avery collection of prints is notable. Valuable books include the Astor and Lenox collections, particularly strong in Americana, with many early printed Bibles, first folio Shakespeares, &c.; and the Spencer collection of illustrated books in fine bindings.

The library has 1,274 employees, counting both departments. A training school for librarians is maintained in the building. Director of the Library, Edwin H. Anderson. Chief Reference Librarian, Harry M. Lydenberg. Chief of Circulation Department, Franklin F. Hopper.

Branches of the New York Public Library—MANHATTAN, Chatham Square, 33 E. Broadway; Seward Park, 192 E. Broadway; Rivington Street, 61; Hamilton Fish Park, 388 E. Volumes in library, Jan. 1, 1923—309,749; volumes circulated in 1922—2,016,812.

HOW TO FIND ANY STREET NUMBER IN NEW YORK.

To find what street is nearest, take the number, cancel last figure, and divide by 2, add the key number found below. The result will be the nearest street. The key numbers are: Avenue A, 3; Avenue B, 3; Avenue C, 3; Avenue D, 3; First Avenue, 3; Second Avenue, 3; Third Avenue, 9 or 10; Fourth Avenue, 8; Fifth Avenue to Central Park, 18 or 17; above Mount Morris Park, 24; Sixth Avenue, 6; Seventh Avenue, 12; Eighth Avenue, 9; Ninth Avenue, 13; Tenth Avenue, 14; Eleventh Avenue, 15; Lexington Avenue, 22; Madison Avenue, 26; Park Avenue, 34 or 35; Columbus, Amsterdam, and West End Avenues, 59 or 60; Broadway above 14th Street (subtract), 30 or 31; Central Park West, divide house number by 10, and add 60; Riverside Drive, divide house number by 10, and add 72.

The decimal system of numbering—100 numbers to a block—has spread throughout most of Greater New York on the cross streets, so that it is comparatively easy to locate a building thereon.

In Manhattan, for example, the numbers start east and west from Fifth Avenue.

On blocks facing parks the numbers for both sides are concentrated on one side.

On the long blocks the number of dwellings on either side varies generally from thirty to forty.

MONUMENTS AND STATUES IN NEW YORK CITY.

(Revised by Municipal Art Commission; name of sculptor or designer in parentheses.)

IN MANHATTAN.

Arthur, Chester A. (G. E. Bissell), Madison Square.
Bartholdi Statue, see "Liberty."
Bear and Faun Fountain (Edgar Walter), Morningside Park and 116th St.
Beethoven, L. von, bronze bust, on a granite pedestal, fifteen feet high (Henry Baerer), Central Park on the Mall; unveiled 1884.
Bolivar, Gen. Simon (Mrs. Sally Farnham), Bolivar Hill, Central Park West; unveiled 1921.
Brownson, Orestes A., bronze bust of (Sam'l J. Kitson), Riverside Park and 104th St.
Bryant, William Cullen (Herbert Adams), Bryant Park, W. 42d St. and 6th Ave.
Burns, Robert, bronze statue (Sir John Steell), Central Park, on the Mall; unveiled 1880.
Butterfield, Gen. Daniel, bronze figure on marble pedestal (Gutzon Borglum), Claremont Ave. and 122d St.
Carrere, John M., memorial to (Thos. Hastings), Riverside Drive and 99th St.
Civic Virtue, fountain statue (Frederic MacMonnies), City Hall Park, 1922.
Columbus Monument (Gaetano Russo), Eighth Ave. and 59th St. (Columbus Circle).
Columbus, marble statue (J. Sunol), south entrance to Mall, Central Park; unveiled 1892.
Commerce, bronze figure (Jules Fesquet), Central Park, near the Eighth Ave. and 59th St. entrance; unveiled 1865.
Conkling, Roscoe, bronze statue (J. Q. A. Ward), Madison Square Park, cor. Madison Ave. and 23d St.
Cooper, Peter, statue (Augustus Saint-Gaudens), in front of Cooper Union.
Cox, S. S., bronze statue (Louise Lawson), erected by letter carriers, Astor Place.
Dante, bronze statue (Ximenes), Broadway, 63d St. and Columbus Ave., 1921.
De Peyster, Abraham, statue (G. E. Bissell), Bowling Green.
Dodge, William E. bronze statue of (J. Q. A. Ward), at Broadway, Sixth Ave. and 36th St.; unveiled 1885.
Eagles and Prey, bronze group (Christian Fratin), Central Park, west of Mall.
Ericsson, John, statue of the inventor (J. S. Hartley), on the Battery.
Falconer, The (Geo. Simonds), Central Park, near W. 72d St. entrance.

Soldiers' Monument, simple granite obelisk (Unknown), in memory of Volunteers from Flushing in Civil War, Flushing Park.
Soldiers' Monument, winged figure of woman in bronze on granite pedestal (Ruckstuhl), Bergen and Hillside Aves., Jamaica.

THE ZONING LAW.

(From a Bulletin of the Merchants' Association.)

Zoning has nothing to do with private restrictions. It is the method by which the community protects itself against harmful invasions of buildings and uses under the community power, commonly called the police power, the same as it protects itself against fires by fire laws and disease by health laws.

This power rests in the State Legislature, but the Legislature can grant it to cities.

The Legislature has granted to the Board of Estimate of Greater New York the power to regulate the height, area and use of buildings.

The Board of Estimate, pursuant to this grant, enacted the zoning resolution in 1916. It consists of a resolution defining the regulations and three maps, one showing allowable heights in different parts of the city, one showing allowable cover of lots, and one showing allowable uses.

The height districts run from three-fourths to two and one-half times the width of the street.

The area allowances run from 100 per cent. in A districts to 25 per cent. in F districts.

Use districts are residence, business and unrestricted.

The resolution is not retroactive; consequently buildings and uses in existence prior to July 25, 1916, are not affected.

Every borough is zoned on the three maps.

The Board of Estimate can amend the resolution and maps, and does so on petition at almost every meeting.

The Building Commissioners will not issue permits unless the plans of proposed buildings or alterations conform to the zoning resolution.

As many exceptional situations exist in the diverse field of buildings, and as no words or maps could provide for all these exceptions, the City Charter provides that a Board of Appeals can, after a hearing and in accordance with prescribed rules, vary the strict letter of the law regarding particular permits. Its decisions are subject to court review.

TRINITY'S INCOME IN YEAR $1,248,681.

The income in 1923 of the Corporation of Trinity P. E. Church was $1,248,681 and its assets were $13,329,053, according to its Year Book.

Of the income, $1,131,258 came from rents of real estate, $48,291 from rents of steam power, electricity and water, $35,555 from interest, and $10,900 from the support contributed by the chapels.

The largest item was for the salaries of the clergy on the regular staff, $87,704.17.

The music in Trinity Church and its chapels cost $50,965.

Management of the churches and real estate cost $42,918, repairs and alterations, operation of steam plants and taxes, $282,334.

Gifts and allowances to churches outside the parish were $65,253 and annuities and pensions $30,410.

The communicants number 9,205, Sunday school pupils 2,324 and officers and teachers in the Sunday schools 267.

There were 314 baptisms, 318 confirmations, 448 marriages and 299 burials.

PARKS IN THE CITY OF NEW YORK.

(Acreage of each park is shown in black face figures.)

The total area of improved parks in Manhattan is 1,275 acres; unimproved parks, 209 acres; playgrounds, 5 acres; parkways, streets, etc., under jurisdiction of Department of Parks, 40,929 feet long, width varying from 90 to 168 feet.

Of the parks in Manhattan named in the above list, Fort Washington, Highbridge, and Isham are unimproved. The Harlem River Driveway is 11,562 feet long and 100 to 150 feet wide; Morningside Drive is 3,538 feet long and 90 feet wide; Riverside Drive is 17,000 feet long and 90 to 168 feet wide, and the extension, 135th to 158th Street, is 6,560 feet long.

FACTS ABOUT CENTRAL PARK.

The great park of New York extends from 59th St. to 110th St., being over 2½ miles long, and from 5th Ave. to 8th Ave., being over half a mile wide. It covers 843 acres, of which 185 are in lakes and reservoirs and 400 in forest wherein over half a million trees and shrubs have been planted. There are 10¼ miles of roads, 5½ of bridle paths, and 31 of walks. The landscape architects of the park were Frederick Law Olmsted and Calvert Vaux. Work was begun on the park in 1857.

The following fanciful names have been officially applied to the several entrances to the park: 5th Ave. and 59th St., Scholar's Gate; 6th Ave. and 59th St., Artist's Gate; 7th Ave. and 59th St., Artisan's Gate; 8th Ave. and 59th St., Merchant's Gate; 8th Ave. and 72d St., Woman's Gate; 8th Ave. and 81st St., Hunter's Gate; 8th Ave. and 85th St., Mariner's Gate; 8th Ave. and 96th St., Gate of All Saints; 8th Ave. and 100th St., Boy's Gate; 8th Ave. and 110th St., Stranger's Gate; 5th Ave. and 67th St., Student's Gate; 5th Ave. and 72d St., Children's Gate; 5th Ave. and 79th St., Miner's Gate; 5th Ave. and 90th St., Engineer's Gate; 5th Ave. and 96th St., Woodman's Gate; 5th Ave. and 102d St., Girl's Gate 5th Ave. and 110th St., Pioneer's Gate; 6th Ave. and 110th St., Farmer's Gate; 7th Ave. and 110th St., Warrior's Gate.

UNION SQUARE.

Union Square was purchased by the city in 1833 for $116,051; Madison Square, in 1847, for $65,952; Tompkins Square, in 1834, for $93,358; Washington Square, in 1827, for $77,970; and Manhattan Square, in 1839, for $54,657.

BOWLING GREEN.

The first park space in the City of New York was that now called Bowling Green Park. In 1732 this plot of ground was leased by citizens for playing the game of bowls. The plot was originally square and in the middle there was erected, in 1770, a lead statue of George III. After the Declaration of Independence the statue was torn down by a mob and the lead used for making bullets for the American Army. In 1786 Bowling Green was first laid out as a park. At that time it was the centre of the fashionable residential district.

THE BATTERY.

Open water existed originally where the Staten Island Ferry houses now stand, and the site of the Aquarium was under water until about 1800. State Street was not laid out until 1789, and was then bounded by the Bay on one side. A ledge of rocks stretched across Manhattan Island, and facing these rocks along the edge of the water there was built in the early days a line of defensive works known as "The Battery." These works extended from Whitehall Street to what is now Rector Street, and cannon were mounted behind them. About 1723 the first steps were taken to fill in to the present water line, but many years passed before this was actually accomplished.

CITY HALL PARK.

The present City Hall Park constitutes a part of what was known in the latter half of the seventeenth century as "The Common Lands," which stretched from the site of the Post Office northward toward the Tombs and from the line of Broadway across what is now Park Row. This land was originally used for the grazing of cattle, and at its northeasterly end was what was known as "Fresh Water Pond." The land originally comprising The Commons was gradually reduced by the laying out of streets and the construction of buildings. At the close of the Revolutionary War improvements were begun in City Hall Park.

The erection of the present City Hall was authorized in 1803 and it was ready for occupancy in 1811. During the Civil War the present site of the Post Office Building was occupied by sheds where the soldiers were supplied with food. After the war it was ceded to the United States Government as a site for the Post Office.

1,000,000 TREES IN CITY.

There are in Manhattan Borough, according to Park Commissioner Francis D. Gallatin, about 130,000 trees, of eighty varieties, of which 90,000 are in Central Park, 25,000 in other parks, and 15,000 in the streets. These trees die at the rate of 3,500 a year, and 2,500 new trees are planted. In the entire city there are, it is estimated, over 1,000,000 trees.

PARKS IN THE BRONX.

(Total acreage, 3,929; headquarters, Zbrowski Mansion, Claremont Park.)

Bronx, E. 182d St. and Southern Boulevard, **719.12.**
Crotona, 3d and Tremont Aves., **154.60.**
Claremont, Webster Ave. and 171st St., **38.**
Devoe, Fordham Road and 182d St., **5.87.**
Drake, Hunt's Point, **2.80.**
Echo, Burnside and Tremont Aves., **4.**
Fort Independence, North end Jerome Park Reservoir, **2.97.**
Fort No. 4, Reservoir Ave., 1,500 feet north of Kingsbridge Road, **6.71.**
Fulton, 169th St. and Fulton Ave., **0.94.**
Macomb's Dam, Jerome Ave. and 162d St, **27.**
Melrose, 161st St. and Courtlandt Ave., **0.83.**
Pelham Bay, northeast corner of Bronx Borough, **1,756.**
Poe, Kingsbridge Road and E. 192d St., **2.33.**
Rose Hill, Pelham and Park Aves., **0.72.**
St. James, Jerome Ave. and 191st St., **11.83.**
Sigel (Franz), Walton Ave. and 158th St., **17.47.**
St. Mary's, St. Ann's Ave. and 149th St., **34.20.**
University, Cedar Ave. and 181st St., **2.75.**
Van Cortlandt, Broadway and Van Cortlandt Ave., **1,132.35.**

There are golf courses in Pelham Bay Park and in Van Cortlandt Park.

PARKS IN BROOKLYN.

(Total acreage, over 1,315; headquarters, Litchfield Mansion, Prospect Park.)

Amersfort, Ave. J and E. 38th St., **3.56.**
Bensonhurst, Cropsey Ave. and 21st St., **13.**
Betsy Head Memorial, Douglas St. and Dumont Ave., **10.50.**
Borough Hall, Court and Fulton Sts., **1.70.**

Westerleigh, Maine and Neal Dow Aves. **1.43.**

ALTITUDES IN NEW YORK CITY.

The highest natural elevation of land in the City of New York—430 feet—is on top of Todt (Toad or Iron) Hill, Staten Island. This hill rises from the Richmond Road at Garretson's station on the rapid transit railway, and overlooks New Dorp and the Moravian cemetery where the Vanderbilts lie buried.

HIGHEST POINT ON THE COAST.

A point near the summit referred to, where the altitude is 409.24 feet, is indicated by a bench mark eight feet from the east side of David J. Tysen's dwelling, near the southeast corner of Ocean Terrace and Todt Hill Road. The house is about 100 feet south of Ocean Terrace, and about 200 feet east of Todt Hill Road.

This is the highest point on the Atlantic Coast, south of Maine.

Other high road points in Richmond Borough are: Manor Road (244.35 ft.) at Castleton Corners, near the Eckstein brewery; and Manor Road (233.43 ft.) near the N. Y. City Farm Colony. There are several hills on Staten Island over 300 feet high. The elevation at the Fort Wadsworth Post-Exchange building is 107.15 feet above sea level.

LOFTIEST POINT IN MANHATTAN.

The highest natural altitude in Manhattan—267 feet, 9 inches—is near the site of old Fort Washington, a little west of Fort Washington Avenue, approximately 900 feet north of W. 181st St. The hill at Inwood rises to a height of 232 feet, 9 inches. Other elevations in Manhattan above sea level, expressed in feet and decimals thereof, are—Custom House, 17.06; Bowling Green, 21.75; Pine St. and Broadway, 40.78; Municipal Building, 41.61; City Hall, 44.74; Astor Place, 43.01; Union Square, 45.73; Columbus Circle, 86.64; Central Park near W. 93d St., 114.14; Amsterdam Ave., at Trinity Cemetery, 148.73; Audubon Ave., at W. 174th St., 185.92; Wadsworth Ave., near W. 182d St., 188.33; High Bridge water tower, at the street level, 203.25.

THE PINNACLE OF THE BRONX.

The highest natural elevation in the Bronx—284 feet, 6 inches—is on the hill bounded by Iselin Ave., Highland Ave., and W. 250th St., Riverdale Hill. Other Bronx altitudes are—Jerome Ave., near E. 233d St., 210.73; Jerome and Mosholu Aves., Van Cortlandt Park, 193.39; Riverdale Ave., and Spuyten Duyvil Parkway, 178.49; Grand Boulevard and Concourse, and E. 199th St., 148.64; Hall of Fame Terrace, at University Ave., 170.32; Poe Park, E. 192d St., 140.22; east approach to Washington Bridge, at University and Aqueduct Aves., 141.63.

CEMETERY TOPS BROOKLYN.

The highest natural elevation in Brooklyn—210 feet— is in Greenwood Cemetery, near the 9th Ave. entrance. Other Brooklyn altitudes are—Base of the Museum on Eastern Parkway, at Washington Ave., 163.44; 9th Ave. (Prospect Park West), 32 feet south of 14th St., 155.34; Prospect Park West and 5th St., 162.16; Union St., Plaza, at Flatbush Ave., 146.29; 59th St., and 5th Ave., 116.96.

The highest elevation in Queens Borough—266.48 feet—is on Little Neck Hill, 800 feet east of Little Neck Road and 435 feet south of 61st Ave. (Hyde Park Road) near the Vanderbilt estate.

HIGHEST POINT IN SUBWAY.

The highest track elevation (altitude above sea level at base of rail) in the Interborough tubes—133.5 feet—is at the Museum station, Eastern Parkway and Washington Ave. The tracks in the lowest part of the Queensboro (42d St.) Interborough tube under the East River are 105 feet below sea level.

THE WATER SUPPLY OF NEW YORK CITY.

(Prepared for THE ALMANAC by Merritt H. Smith, Chief Engineer.)

Manhattan and Bronx—The Boroughs of Manhattan and Bronx, prior to the introduction of Catskill water, were supplied entirely from the Croton watershed and from the Bronx and Byram watershed, the latter being now part of the Catskill system. Croton water was first introduced in 1842. Water from the Bronx River was introduced in 1854, and from the Byram River in 1896. The Croton watershed furnishes about half of the present supply for Manhattan and Bronx, the other half being supplied from the Esopus watershed.

The Catskill supply, introduced in 1917, is obtained from the Schoharie and Esopus watersheds in the Catskills.

The Schoharie watershed lies north of the Esopus, in the heart and higher section of the Catskill Mountains. The flow of Schoharie Creek is intercepted by a temporary diverting dam pending the completion of the new Gilboa dam which will form the Schoharie reservoir with a capacity of 20,000,000,000 gallons.

The water is diverted through the 18.1 mile Shandaken tunnel under the Shandaken mountain range which divides the Schoharie and Esopus watersheds. At the outlet of the tunnel the water thus diverted joins the water of the Esopus Creek and finds its way into the Ashokan reservoir, where it is available for the main Catskill aqueduct.

The Ashokan reservoir lies about fourteen miles west of the Hudson at Kingston, N. Y., and about ninety-two miles from the northern city boundary. It has an available storage capacity of 130,400,000,000 gallons and serves as a storage reservoir for the combined Schoharie and Esopus watersheds.

The available supply from the Schoharie and Esopus watersheds is increased by the rainfall and run-off on some twenty-two square miles of watershed (the Bronx and Byram watershed) tributary to Kensico reservoir, which lies east of the Hudson River, and about seventeen miles from the northern city boundary.

It is conservatively estimated that even during a series of extraordinary dry years, more than 500 million gallons of water daily can be drawn from the combined Schoharie and Esopus watersheds, and from the Bronx and Byram watersheds 15 million gallons daily, making the safe yield of the Catskill system more than 515 million gallons daily.

Under average rainfall and run-off conditions the amount of water that can be drawn from the Catskill system is about 650 million gallons daily, the probable capacity of the Catskill aqueduct.

The Croton watershed, which lies some twenty-two miles north of the city line, has an area of 375 square miles and a safe yield of 336,000,000 gallons daily. Under average rainfall and run-off conditions the yield of this shed is 400,000,000 gallons daily. The water from the Croton watershed is collected in twelve reservoirs and six lakes and ponds.

Brooklyn—The Esopus watershed together with the old Brooklyn system furnish the entire supply for the Borough of Brooklyn, with the exception of the Twenty-ninth Ward, which is supplied by the Flatbush Water Works Company, a private water company, the source of supply being ground water collected from driven wells. The supply from the old Brooklyn system, which yielded about 140,000,000 gallons, and which is now for the greater part held in reserve, was obtained from driven wells, infiltration galleries, and small streams along the south shore of Long Island. This supply was first introduced in 1859.

Queens—The city supplies only the First, Second and Third Wards in the Borough of Queens. The Esopus watershed furnishes about 70 per cent. of the supply to these wards. The First Ward was formerly supplied from the Brooklyn system, supplemented by a small amount derived from the municipal driven well pumping stations in the First and Third Wards. The Third Ward was supplied by two pumping stations, now held in reserve, one station drawing its supply from driven wells and the other obtaining about half its supply from wells and one-half from a small lake, the water being filtered. The supply to the Second Ward was formerly furnished by the Citizens' Water Supply Co. This plant was taken over by the city in April, 1922. The combined yield of the municipal pumping stations in Queens is about 20,000,000 gallons daily. The Fourth and Fifth Wards, Queens, are supplied by private water companies, the source of supply being entirely ground waters, collected by means of driven wells. There are three of these private companies, with three others serving special customers.

Richmond—The Borough of Richmond is supplied from the Esopus watershed, supplemented by a small amount derived from local wells pumped at one or more of the pumping stations which yield about 12,000,000 gallons daily. Silver Lake reservoir, the terminal reservoir for the Catskill system, is located in this borough.

The average daily consumption of water by gallons is:

WATER CONSUMPTION IN NEW YORK CITY—GALLONS PER DAY.

YEAR.	Manhattan and Bronx.	Brooklyn.	Queens.	Richmond.	Private Companies, All Boroughs.	Total, Including Private Companies.
1898.....	226,000,000	93,600,000	4,800,000	100,000	23,600,000	348,100,000

Catskill water was introduced into the city in 1917. Before that the supply in Manhattan and the Bronx was drawn from the Croton watershed, with a little from the Bronx and Byram watershed; the supply in Queens and Richmond was drawn from local Long Island sources; and Brooklyn got most of its water from wells, ponds, and springs out on Long Island, in Southern Nassau County. Private water companies still supply water in the Boroughs of Brooklyn and Queens.

OTHER DATA ON THE WATER SUPPLY.

The new Catskill Mountain water supply is a gravity system. For New York City's Catskill Mountain water system there are two contiguous drainage areas, or watersheds, occupying the central portion of the Catskill Mountains lying between 85 and 125 miles from New York. The Schoharie watershed has an area of 314 square miles. Esopus has an area of 257 square miles. These two watersheds have a total area of 571 square miles, from which more than 500,000,000 gallons of water daily can safely be drawn throughout each year. Along the aqueduct provision has been made by the construction of Kensico reservoir for storing a large quantity of water. From the Ashokan reservoir it is almost a three days' journey for the water to flow through the aqueduct to the Silver Lake terminal reservoir on Staten Island.

For surveys, real estate, construction, engineering and general supervision, and all other items except interest on the bonds, the total cost of the completed Catskill system will be about $180,000,000, of which $26,000,000 is for the Schoharie works.

Ashokan reservoir, about fourteen miles west of the Hudson at Kingston, was built at a cost of nearly $30,000,000. The water which the reservoir holds would cover all Manhattan Island to a depth of thirty feet; the area of its surface is equivalent to that of Manhattan below One Hundred and Tenth Street. The water surface of the west basin when full is at an elevation of 590 feet above mean tide in New York Harbor.

Kensico reservoir, east of the Hudson, and thirty miles from the City Hall, contains enough Catskill water to supply New York several months if carefully husbanded.

The reservoir is formed by the Kensico dam across the valley of the Bronx River, about three miles north of White Plains and fifteen miles north of the Hill View reservoir. The total cost of Kensico reservoir and appurtenant works was about $15,000,000. It is 355 feet above tidewater.

Hill View reservoir is located in the City of Yonkers, just north of the New York City line, and fifteen miles south of Kensico reservoir. Its function is to equalize the difference between the use of water in the city as it varies from hour to hour and the steady flow in the aqueduct. It is an uncovered, artificial reservoir of the earth embankment type. It holds 900,000,000 gallons of water, with a depth of 36¼ feet, and has a water surface of 90 acres. The total cost of Hill View reservoir was about $5,800,000. It was first filled Dec. 29, 1915. It is 295 feet above tidewater.

The Hudson River is crossed by means of a tunnel wholly in granite rock, at a depth of 1,114 feet below sea level, between a shaft at Storm King Mountain on the west bank and another shaft on the east side of the river at Breakneck Mountain.

At the Ashokan reservoir, and also at Kensico reservoir, aerators have been built. The aerators are substantially alike and are great fountain basins, approximately 500 feet long by 250 feet wide, each containing about 1,600 nozzles, through which jets of water are thrown vertically into the air, permitting thorough admixture of oxygen from the atmosphere and removal of undesirable gases and other matters causing tastes and odors.

Within the screen chamber downstream from Kensico reservoir chlorine is introduced into the water flowing in the aqueduct for the destruction of germ life. The gas is delivered at the chamber compressed to a liquid state in steel containers holding 100 pounds each. Chlorine is used to insure the practical sterilization of the water before it goes to the city and is wholly neutralized or dissipated before the water reaches the distribution pipes.

From Hill View reservoir, Catskill water is delivered into the five boroughs by a circular tunnel in solid rock reducing in diameter from 15 to 14, 13, 12, and 11 feet. The total length of the tunnel is eighteen miles. From two terminal shafts in Brooklyn, steel and cast iron pipe lines extend into Queens and Richmond. A 36-inch flexible-jointed cast iron pipe, buried in a trench in the harbor bottom, has been laid across the Narrows to the Staten Island shore, whence a 48-inch cast iron pipe extends to the Silver Lake reservoir, holding 435,000,000 gallons. The total length of the delivery system is over thirty-four miles. The tunnel is at depths of 200 to 750 feet below the street surface, thus avoiding interference with streets, buildings, subways, sewers and pipes.

The waterway of the tunnel is lined throughout with Portland cement concrete.

The city tunnel was constructed from twenty-five shafts, including the downtake shaft at Hill View reservoir, about 4,000 feet apart, located in parks and other places where they interfered very little with traffic. Through twenty-two of these shafts the water is delivered into the street mains. These connections from the tunnel to the mains are made by means of vertical riveted steel pipes (called risers) embedded in concrete in the upper part of each shaft and lined with concrete to prevent corrosion inside. Concrete fills all spaces outside the risers, sealing the shafts against the escape of water excepting through the pipes. Provision is made at Shaft 11, in Morningside Park, and at Shaft 21, on the shore of the East River, at Clinton and South Streets, Manhattan, for unwatering the tunnel, whenever necessary, for inspection, cleaning or repairs. Unusual features in connection with the operation of the tunnel are the bronze riser valves in the shafts. The former are located about 100 feet below the top of sound rock and are designed to close automatically in case of an important break in the valve chamber. They can also be closed by hand from within the chambers at the shaft tops.

The cost of the portions of the Catskill aqueduct within the city limits, including the tunnel, pipe lines, appurtenances and Silver Lake reservoir, was about $27,000,000.

Additional steel conduits from the terminal shafts of the tunnel, including a flexible-jointed 42-inch cast iron siphon across the Narrows, will be completed in 1925 at an estimated cost of $5,000,000.

The terminal Silver Lake reservoir for the Catskill water system, located on Staten Island, is about 2,400 feet long and 1,500 feet wide. It holds 435,000,000 gallons, and is 228 feet above tidewater.

GIVING NEW YORK CITY FIRE PROTECTION.

High Pressure Fire Service System—The high pressure fire service system in Manhattan is bounded by Thirty-fourth Street, Madison Avenue, Twenty-fourth Street, Lexington Avenue, Fourteenth Street, Third Avenue, Bowery, Houston Street, East River, Battery, North River. There are two pumping stations—Gansevoort and West Streets, and Oliver and South Streets. Each station has six electrically driven centrifugal pumps. Either fresh or salt water may be used. Each pump can deliver 3,000 gallons a minute. The combined capacity of the two stations is equal to about fifty fire engines. The distributing system consists of 128 miles of mains, eight to twenty-four inches in diameter, and about 2,750 four-nozzle hydrants. There are approximately 696 telephones communicating with Fire Department headquarters and with the main and subsidiary stations of the New York Edison Company, from which the necessary electric power is obtained. The present system cost about $9,380,000.

In Brooklyn there are two high pressure fire service systems. The one for the business and manufacturing districts is bounded by the Navy Yard, St. Edward's Street, St. Felix Street, Fort Greene Place, Fifth Avenue, Twenty-fourth Street, Fourth Avenue, Thirty-ninth Street and the water front, covering an area of 4.8 square miles. The supply is furnished by two stations, one located at the foot of Joralemon Street, and the reserve at Willoughby and St. Edward's Streets. Both draw their supply from the Ridgewood mains. The main station is connected to the East River. The pumps are electrically operated in both stations, and have a combined rated capacity of 24,000 gallons per minute. The distributing system consists of about forty-five miles of mains, eight to twenty inches in diameter.

The Coney Island high pressure system protects an area of 470 acres. The pumping station is located at West Twelfth Street and Coney Island Creek. The total capacity is 4,500 gallons per minute. The water is distributed through six miles of mains.

Legislation has been enacted creating a commission from each of three States interested looking toward a joint consideration of the uses of the waters of the Delaware River basin, an interstate matter involving New York, Pennsylvania and New Jersey.

MISCELLANEOUS DATA FOR 1923.

Barometric Pressure (reduced to sea level)—Mean, 30.03 inches; highest, 30.85 inches, December 15; lowest, 29.04 inches, March 7.

Temperature—Greatest daily range, 36°, April 23; least daily range, 5°, December 23. Greatest monthly range, 71°, April; least monthly range, 33°, October. Highest mean of three consecutive days, 82°, June 19-21; lowest mean of three consecutive days, 17°, February 16-18.

Precipitation—Longest period without a measurable amount of precipitation (0.01 inch or more), 16 days, September 24-October 9. Greatest number of consecutive days with precipitation (0.01 inch or more), 5, February 10-14.

Snow—Greatest amount in 24 hours, 8.5 inches, January 3-4. Greatest depth of snow on the ground, measured at 8 P. M., 7.0 inches, January 4. Last snow in Spring occurred March 28; first snow in Autumn occurred December 14.

Frost—In Spring: Last killing frost occurred April 9; last light frost occurred May 11. In Autumn: First light frost occurred October 5; first killing frost occurred November 1.

Thunderstorms—First, March 23; last, September 21.

Hail—June 3.

Auroras—March 24.

Postal Information.

(Revised officially as of November 1, 1924.)

Domestic Letter Rate—2 cents an ounce or fraction thereof. Includes letters or other first-class matter addressed for local delivery or for transmission from one place to another within the United States or to or from or between the possessions of the United States, Hawaii, Porto Rico, Virgin Islands of the United States, Canal Zone, the Philippines, Guam, Tutuila, (U. S. Samoa), United States naval vessels, United States Naval Hospital and United States Navy Depot at Yokohama, Japan.

The limit of weight for first-class matter is the same as for fourth-class parcel post, 70 pounds, local, or in the first, second or third zone; 50 pounds in the other zones.

First-class matter includes written matter, matter sealed against inspection, postal cards, and private mailing cards

Airplane (air mail) rates—*Domestic*—Eight cents an ounce or fraction thereof for each air route zone or part of zone, fully prepaid; such charge includes transportation to or from the Air Mail route as well as the transportation by air.

There are three zones (1), New York to Chicago; (2) Chicago to Cheyenne; (3) Cheyenne to San Francisco. The zone lines run north and south through Chicago and Cheyenne. All the country east of the Chicago zone line is in Zone 1; all west of the Cheyenne line is in Zone 3; all the country between the two zone lines is in Zone 2.

Foreign—Same as domestic Air Mail rate for those countries having 2-cent postal conventions with the United States; for all other countries, 3 cents in addition to Air Mail rate.

Registry Service—Any registered matter of nominal value and non-negotiable securities and commercial paper, not easily realized upon by others than the rightful owners regardless of value, are acceptable for transportation by Air Mail Service. Other registered matter is not acceptable for transmission by Air Mail Service.

Special Delivery—The use of special delivery stamps in addition to the Air Mail postage will insure prompt delivery at office of address.

Special Air Mail Stamps are issued, but any stamps good for postage may be used.

Indorsement—All mail matter intended for dispatch "via Air Mail" should be indorsed with those words to avoid possible errors in handling and despatch.

Any mailable matter except that liable to damage from freezing will be carried by airplane, including sealed parcels, not exceeding 50 pounds in weight and not exceeding 84 inches in length and girth combined, with postage at the rate of 8 cents an ounce or fraction thereof for each zone or part of zone in which mail is carried by airplane.

Domestic Postal Card Rate—1 cent as to each country and place in the above paragraph; reply card, 2 cents. The rate for private mailing cards is 1 cent each.

Second-Class Matter—Periodical publications, no limit of weight. The rate to the public is 1 cent for each 4 ounces or fraction thereof, for complete copies. Incomplete copies are subjected to third-class or fourth-class rates, according to their physical character.

Third-Class Matter—Printed paper matter other than books, and other than such periodical publications as are entitled to second-class rates. The limit of weight is 4 pounds. The rate is 1 cent for each 2 ounces or fraction thereof. Packages over 4 pounds in weight go as fourth-class parcel-post matter. Third-class matter may be insured or sent C. O. D.

Fourth-Class Matter (domestic parcel post)—Includes all mailable matter not in the preceding classes. It may be insured or sent C. O. D.

Rates of postage on fourth-class or parcel-post matter—to be fully prepaid—unsealed—are as follows: (a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance; (b) Parcels weighing 8 ounces or less, containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance; (c) Parcels weighing more than 8 ounces, containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 pounds, and all other parcels of fourth-class matter weighing more than 4 ounces, are chargeable, according to distance or zone, at the pound rates shown below, a fraction of a pound being considered a full pound:

Local rates—1 lb., 5 cts.; 2-3 lbs., 6 cts.; 4-5 lbs., 7 cts.; 6-7 lbs., 8 cts.; 8-9 lbs., 9 cts.; 10-11 lbs., 10 cts.; 12-13 lbs., 11 cts.; 14-15 lbs., 12 cts.; 16-17 lbs., 13 cts.; 18-19 lbs., 14 cts.; 20-21 lbs., 15 cts.; 22-23 lbs., 16 cts.; 24-25 lbs., 17 cts.; 26-27 lbs., 18 cts.; 28-29 lbs., 19 cts.; 30-31 lbs., 20 cts.; 32-33 lbs., 21 cts.; 34-35 lbs., 22 cts.; 36-37 lbs., 23 cts.; 38-39 lbs., 24 cts.; 40-41 lbs., 25 cts.; 42-43 lbs., 26 cts.; 44-45 lbs., 27 cts.; 46-47 lbs., 28 cts.; 48-49 lbs., 29 cts.; 50-51 lbs., 30 cts.—and so on up to 70 lbs., 1 cent additional for each 2 lbs. or fraction.

1st zone (up to 50 miles)—1 lb., 5 cts., and 1 cent extra for each added pound, up to 74 cts. for 70 lbs.

2nd zone (50 to 150 miles)—1 lb., 5 cts., and 1 cent extra for each added pound, up to 74 cts., for 70 lbs.

3rd zone (150 to 300 miles)—1 lb., 6 cts., and 2 cents extra for each added pound, up to $1.44 for 70 lbs.

4th zone (300 to 600 miles)—1 lb., 7 cts., and 4 cents extra for each added pound, up to $2.03 for 50 lbs.

5th zone (600 to 1,000 miles)—1 lb., 8 cts., and 6 cents extra for each added pound, up to $3.02 for 50 lbs.

6th zone (1,000 to 1,400 miles)—1 lb., 9 cts., and 8 cents for each added pound, up to $4.01 for 50 lbs.

7th zone (1,400 to 1,800 miles)—1 lb., 11 cts., and 10 cents for each added pound, up to $5.01 for 50 lbs.

8th zone (over 1,800 miles)—1 lb., 12 cts., and 12 cts. for each added pound, up to $6 for 50 lbs.

Registered Mail—The registry fees on both domestic and foreign mail must be prepaid by stamps affixed in addition to the regular postage at the following rates: For domestic articles of the first class, indemnified for $50 or less, 10 cts.; for over $50 and not in excess of $100, 20 cts.; for domestic articles of the second class, for which no indemnity is provided, and for domestic articles of any class without intrinsic value for which indemnity will not be allowed, 10 cts.; for domestic articles of the third class indemnified for not exceeding $25, 10 cts.; for sealed parcels prepaid at the first class rate of postage, the same as for first class; for all articles of whatever class addressed to foreign countries, 10 cts. International indemnity is limited to $9.65 (50 francs), except for registered mail exchanged with Canada which is limited to $25.

Any mailable articles, except unsealed fourth-class matter (parcel post) for domestic destinations, may be registered. Domestic parcels containing fourth-class matter may also be registered if sealed and the required fee, and postage at the first-class rate, are paid.

Letters, prints, samples of merchandise and commercial papers may be registered to practically all foreign countries.

International parcel post mail may be registered to some, but not all, foreign countries. In the case of a few foreign countries only indemnity is paid for the loss, rifling or damage of international parcel post articles.

Insured Mail—Domestic third and fourth-class matter, mailed at or addressed to any post office in the United States or its possessions (except parcels mailed in the Philippine Islands), or on or to United States naval vessels, may be insured against loss, rifling, or damage in an amount equivalent to its value or the cost of repairs, but not to exceed $5, upon payment of a fee of 3 cents, $25 for 5 cents, $50 for 10 cents, or $100 for 25 cents, in addition to the postage, both fee and postage to be prepaid.

Insured International Mail—International insurance service is provided for Canada, Great Britain and Northern Ireland only. Negotiations are pending for the introduction of this service with other foreign countries.

Canada—Mailable merchandise addressed to Canada may not be registered unless sealed and prepaid at the letter rate of postage but may be insured under the conditions and for the fees within the limits of indemnity prescribed for domestic fourth-class (parcel post) insured mail. Certain articles of considerable intrinsic value, usually of small size, such as jewelry, coins, precious stones, etc., cannot be insured to Canada, but may be registered when sealed and prepaid at the letter rate of postage in addition to the registry fee.

Great Britain and Northern Ireland—International parcel post packages for Great Britain and Northern Ireland may not be registered but may be insured when sealed and prepaid at the ordinary parcel post rates of postage for the following insurance fees in addition to the postage, within the limits of indemnity prescribed for the fees received. *Fees*—15 cts. on $10 indemnity; 20 cts. on $25; 30 cts. on $50; 50 cts. on $100.

C. O. D. Mail—Domestic third and fourth-class matter may be sent C. O. D. between money order offices of the United States, its possessions, except the Philippines, and United States naval vessels having money order service, on payment of a fee of 10 cents when the amount to be remitted does not exceed $50, or upon payment of a fee of 25 cents when the amount to be remitted does not exceed $100. Such parcels are insured against loss, rifling or damage in an amount equivalent to the actual value or the cost of repairs, but not to exceed $50 and $100, according to whether a 10 or 25 cent fee was paid.

Money Orders—The maximum is $100, but there is no limit to the number that can be issued in one day to the same remitter. The fees for domestic orders are: $2.50 or less, 3 cents; $2.51 to $5.00, 5 cents; $5.01 to $10.00, 8 cents; $10.01 to $20.00, 10 cents; $20.01 to $30.00, 12 cents; $30.01 to $40.00, 15 cents; $40.01 to $50.00, 18 cents; $50.01 to $60.00, 20 cents; $60.01 to $75.00, 25 cents; $75.01 to $100.00, 30 cents. International money orders cost 10 cents for $10.00 or less, and 10 cents extra on each additional $10.00 up to $100.00. Domestic money orders are payable within 30 days at any United States post office (continental); after that, only at the office designated. In the United States insular possessions, colonies of Great Britain, etc., the orders are payable only at the office drawn upon.

Unmailable Matter—Includes not only all legitimate matter not conforming to the rules as to legibility of address, size of package or certificates of inspection, but also game, etc., killed out of season, poisons, explosive or inflammable articles, or bad smelling; all spirituous and malt liquors; all liquor advertisements to or from prohibition localities, indecent matter, written or otherwise; dunning postals and lottery, endless chain and fraud matter. In addition, sealed mail to a *foreign country*, except it be obviously letters, cannot be sent, nor can publications in violation of the copyright laws of the country of destination.

Postal Savings — The limit of an individual deposit has been increased from $1,000 to $2,500. No sum of less than $1 will be accepted for a deposit. Interest is allowed at the rate of 2 per cent.

Foreign Letter Rates—2 cents an ounce or fraction thereof, to the following countries:

Argentina, Bahamas, Barbados, Bermuda. Bolivia, Brazil, British Guiana, British Honduras, Canada, Colombia, Cook Islands, Costa Rica, Cuba, Dominican Republic.

Dutch West Indies (Aruba, Bonaire, Curacao, Saba, St. Eustatius, and the Dutch part of St. Martins); Ecuador, Great Britain, Guatemala, Ireland, Haiti, Honduras, Republic of.

Jamaica (including Turks, Caicos, and Cayman Islands).

Leeward Islands (Antigua with Barbuda and Redonda, St. Kitts, or St. Christopher, Nevis with Anguilla, Dominica, Montserrat, and British Virgin Islands). Mexico, Newfoundland, New Zealand, Nicaragua, Panama, Paraguay, Peru, Salvador, Spain (including the Spanish colonies), Trinidad (including Tobago).

Uruguay, Western Samoa.

Windward Islands (Grenada, St. Vincent, the Grenadines, and St. Lucia).

Members of the United States Navy in foreign waters, when addressed care of postmaster at New York, San Francisco or Seattle, as the case may be.

The rate to all other foreign countries and places in foreign countries for letters is 5 cents for the first ounce or fraction thereof, and 3 cents for each additional ounce or fraction thereof.

Foreign Postal Card Rate—1 cent each to Argentina, Bolivia, Brazil, Canada, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, and Spain and her colonies. The rate is 2 cents each to other foreign countries.

Rates on other matter for foreign countries—Postal cards, double (with paid reply), 2 cents to one-cent countries, and 4 cents to two-cent countries.

Newspapers and periodicals, each 2 ounces or fraction, 1 cent.

Commercial papers, first 10 ounces or less, 5 cents; each additional 2 ounces or fraction, 1 cent; (limit of weight, 4 pounds 6 ounces).

Samples of merchandise, first 4 ounces or less. 2 cents; each additional 2 ounces or fraction, 1 cent; (limit of weight, 18 ounces).

MASCULINITY IN HUMAN BIRTHS.

(Data by the U. S. Bureau of the Census.)

The masculinity of live births varies considerably for the different race stocks. For example, in 1922, for the white in the birth registration area, the greatest masculinity (1,062) appears for children of mothers born in the United States and Ireland, while the lowest (1,021 and 1,025) are for children of mothers born in country not stated and Italy, respectively.

MALE LIVE BIRTHS PER 1,000 FEMALE LIVE BIRTHS, BY COLOR, AND FOR WHITE CHILDREN, BY COUNTRY OF BIRTH OF MOTHER, IN THE BIRTH REGISTRATION AREA, 1918 TO 1922, EXCLUSIVE OF STILLBIRTHS.

Country of Birth of Mother.	Male Live Births Per 1,000 Female Live Births.						Country of Birth of Mother.	Male Live Births Per 1,000 Female Live Births.

Canada	1,060	1,061	1,038	1,055	1,075	1,076							
Denmark, Norway, Sweden	1,053	1,057	1,039	1,037	1,032	1,055	Negro	1,029	1,030	1,030	1,027	1,024	1,033
							Indian	1,073	1,084	1,086	1,089	1,072	978
England, Scotland, Wales	1,059	1,034	1,095	1,045	1,043	1,056	Chinese	1,084	1,143	1,087	1,010	934	1,269
							Japanese	1,065	1,073	1,063	1,035	1,080	1,122
Ireland	1,046	1,062	1,047	1,037	1,054	1,048	Other colored	1,092	1,395	1,142	1,000	1,233	909

Almost invariably wherever birth records exist the number of live male births exceeds the number of live female births.

Stillbirths of the seventh, eighth, and ninth months have greater masculinity than do live births, and stillbirths of the early months of gestation have still greater masculinity.

For the year 1922 the masculinity figures (1,034 for the colored and 1,030 for the Negro) are in marked contrast with 1,058 for the total white.

The Negro, year after year, shows the same comparatively low masculinity, the greatest for this race in any of the five years from 1918 to 1922 being 1,033 in 1918.

The Italians also show low masculinity, the lowest being 1,025 in 1922 and the highest, 1,043, in 1918 and 1920.

The masculinity of Negro live births is comparatively low for each of the last five years. These masculinity figures range from 1,024 in 1919 to 1,033 in 1918, while the masculinity figures for white live births range from 1,058 in 1922 to 1,061 in 1921.

On the other hand, the masculinity of Negro stillbirths in 1922 is 1,368 against 1,358 for white stillbirths, and the 1922 masculinity of deaths under 1 day for Negroes is 1,277 against 1,416 for white children under 1 day.

Now, in view of the fact that the tendency to succumb, whether before birth or in the first year of life, is greater among males than among females, is it not possible that, in the case of Negroes, either as a result of disease or other factors, this tendency may have been accentuated and have partially spent itself before birth, so that not only is the masculinity of Negro live births comparatively low, but also the masculinity of Negro deaths under 1 day?

Certain it is that the masculinity of Negro stillbirths and live births combined is, again in 1922, as great as the masculinity of some of the white race stocks and very nearly as high as that shown for total whites.

The same reasoning would also account for the figures presented for children of mothers born in Germany.

For stillbirths masculinity is invariably very much greater than for live births and varies greatly for the different race stocks.

As infant mortality among males is universally higher than among females in the early days of life, and as the line between stillbirths and live births may not be observed with the same accuracy everywhere, it was thought that possibly more accurate figures of masculinity would be obtained by summing stillbirths and deaths under 1 day. It is evident, however, from the figures presented that this procedure lessens the difference of masculinity for some of the race stocks but not for all.

REHABILITATION OF FISHERIES IN THE UNITED STATES.

Secretary of Commerce Hoover in an address before the Sixth Annual Convention of the United States Fisheries Association, at Atlantic City, Sept. 5, 1924, reviewed the serious situation confronting many parts of the American fisheries.

"Blindly, without regard to the stability of the industry in our generation, without sense of responsibility to future generations, we are recklessly destroying out littoral fisheries—that is, the species of seafood in our bays and adjacent to the coast," Mr. Hoover declared. "A constantly depleted species will ultimately reach a point of exhaustion from which there is no recovery. It is true that as a result of a conference on fisheries which I called in Washington three years ago, in which you participated, we have stopped some of the destruction. We have secured some start in a positive national policy of conservation of our fish supply. We have a long distance further to go. We must not only halt other forms of destruction but we must start rehabilitation.

"I do not discuss now the deep sea fisheries, from which come such a large part of our fish supply, the halibut, cod, herring, and mackerel. Their large and increasing production has obscured the depletion of our coastal varieties. Sea fisheries have been protected to a large extent by their situation, and to some extent by international agreement. Their supplies are capable of still further expansion. But if our littoral fisheries are permitted to go further toward extinction, an additional burden to make up this lost supply will fall upon the deep sea species, with consequent additional danger. Nor shall we have that wonderful variety in seafood which has been our national heritage. Indeed, this situation already confronts us. Our deep sea fisheries are not in the long view unlimited.

"The fisheries are the most precious of our primary food supplies. They will become more precious in the future. Our agricultural expansion is rapidly approaching its limits and our population will double. To protect the industry is an obligation to our own generation; to maintain it is a primary duty we owe to future generations.

"Our littoral and inland fish are far less than they were seventy-five years ago; they are less to-day than even twenty years ago. In the mean time, the number of fishermen has vastly increased. Our Atlantic and Pacific littoral waters once teemed with huge runs of salmon, shad, sturgeon, and mullet; they contained great stocks of lobster, crab and oysters and clams. But littoral fish were easy of capture because they run right up to the fishermen's hands once a year. Shellfish may be had by the first comer.

"I can perhaps lend emphasis to this situation if I remind you that our great supplies of salmon on the Atlantic Coast have totally disappeared as a food supply. They have been diminished over one-half on the Pacific Coast, and only recently have measures been taken there to halt their destruction; and it is only within a few months that we have sought to save the last great salmon fishery of the world—Alaska—where reckless exploitation threatened their complete destruction within half a generation.

"The sturgeon fisheries of the Great Lakes have declined 98% in forty years. They are almost gone on our coast. Our shad fisheries have decreased in their yield by over 70%. Seventy-five years ago 22,000,000 shad a year were taken in the Potomac River alone. To-day 800 fishermen operating 500 nets take with difficulty 600,000 fish per annum in this river, the best of the remaining rivers for shad. We now supply 'Potomac shad' to the market by hauling them 3,000 miles from California on ice.

"Other littoral fishes—river herring, striped bass, sea run trout—are decreasing with great rapidity. Crabs, lobsters, oysters, and clams are on the same road to destruction. As late as 1915 our crab fisheries in the Chesapeake and Delaware waters yielded over 50,000,000 lbs. They yield less than one-half of that to-day. The oyster fisheries of the Chesapeake have decreased by 50% in as short a period as twenty years. Our lobster catch is less than one-third that of thirty years ago. Even some deep sea fisheries, such as the great halibut fisheries, in the North Pacific have been overfished.

Mr. Hoover estimated that each summer finds 2,000,000 anglers upon our streams and coasts.

"We are literally destroying our littoral and inland fisheries at a rate that promises the end in a generation unless we accomplish further reform," he continued. "More has been done in the last three years in actual accomplishments than in the two generations before." These accomplishments he summarized as follows:

"First: Congress enacted in 1924 Federal legislation controlling oil pollution of coastal waters by oil burning and oil carrying ships. This measure was vital to the existence of our fisheries and the protection of our shellfish. It is only a beginning at solution of the pollution problem.

"Second: We secured by negotiation with Canada, the Pacific Coast halibut treaty and the enactment of legislation under which the two nations are now able to halt the depletion and destruction of that great fishery and to start its recuperation.

"Third: Congress, after three years of controversy, enacted the Alaskan Salmon Fisheries Conservation Bill, and we have to-day vigorously stopped destruction and started the rejuvenation of these fisheries.

"Fourth: Congress enacted the Upper Mississippi Fish and Game Refuge Bill, through which the streams of the Upper Mississippi will be preserved for the breeding of fish and game.

"Fifth: We have had some success in bringing about co-operation between different States for the protection of fisheries.

"The important steps now before us are:

"1. To cultivate a sense of national responsibility toward the fisheries and their maintenance; to make conservation of those priceless resources a part of the national instinct; to let the whole country understand that we can no more overfish and expect to have seafood than we can outcut the growth of our forests and expect to have timber.

"2. To make a vigorous attempt to restore the sturgeon, salmon, shad, lobster, crab, oyster, and clam and other littoral fisheries on the Atlantic Coast.

"3. To secure the prevention of pollution from sources other than ships both in coastal and inland waters.

"4. To undertake the reinforcement of stocks of game fish throughout the United States.

"We must have centralization of control. I am not urging the extension of federal power. The Constitution itself furnished the method I would adopt. It is in the permitted power of the States to enter into agreements and compacts with Congressional consent.

"We should proceed upon that basis, the thought being the joint control of the protection and conservation of each species by the States of its habitat. Interstate commissions could be set up consisting of representatives from each of the States interested in a given problem with power to act in its determination. An agreement, for instance, could be made between the States from Maine to New York vesting the entire subject of the rehabilitation of the Atlantic salmon and taking of the necessary measures to bring it about in a joint commission composed perhaps of their own fishery officials, and whose regulation could be carried out through their own officers. The shad could be restored by the States from New York to Georgia if they would."

Mr. Hoover announced that some time during 1925 he proposed to call a series of conferences of State authorities to consider this proposal.

POWDER BLAST MOVES A MOUNTAIN.

The world's largest blast, a Southern Pacific Railway bulletin says, was exploded near Lakeside, about fifty miles from Ogden on the western shore of the Great Salt Lake, in 1924.

The purpose of the blast was to obtain material to maintain the fills that are approaches to the Great Salt Lake trestles. The face of a great bluff 275 feet high and about 1,000 feet in length was lifted up, separated into millions of fragments in the air and spread over an area of 260,000 square feet.

It is estimated that 550,000 cubic feet of rock and dirt were torn loose from the mountain.

Work in preparation for the huge blast was started in 1923. It included construction of six tunnels, varying in length from 110 feet to 180 feet and having crosscuts at the end and centres varying in length from 50 to 90 feet. The tunnels aggregated 4,100 feet in length.

The tunnels were loaded with a special powder of which the 301,200 pounds used was equivalent to 600,000 pounds of ordinary black powder. It required twenty-five men forty days to properly place the powder. The blast was exploded by means of a direct electrical circuit supplied by a dynamo car, after an attempt to explode it with local current was unsuccessful.

Railroad officials and engineers who witnessed the explosion expected a large amount of vibration, but reported only a dull rumbling and a slight tremor of the earth.

GREAT PORTS OF THE WORLD.

ANCIENT LIBRARIES.

Four thousand years ago the firm of Murashu Sons, bankers and brokers at Nippur, Assyria, comparable in their status in that country to the Rothschilds in England and the house of Morgan in the United States, stacked in their business archives clay tablets written before the era of Abraham which recorded hundreds of their transactions, says a bulletin of the National Geographic Society.

Ashurbanipal, who died in 626 B. C., had at Nineveh a library which had been classified and arranged according to the subject matter of the tablets, each series being given a number and a title composed as a general rule of the first words of the first tablet. The king sent out his scribes to all the temples and schools of Babylonia and Assyria and had them make copies of the tablets in the then modern Assyrian language. The story of the Deluge, now in the J. Pierpont Morgan library in New York City, which is dated about 2000 B. C., is said to be a copy of an older version.

The Egyptians had their libraries. Behind the hall of columns of the Rameseion at Thebes, was the Sacred Library called the "Dispensary of the Mind." It had an astronomical ceiling on which the twelve Egyptian months were represented and its wall showed a procession of priests carrying the sacred arks. Its circle of 365 cubits, each representing a day of the year, was carried off by the Persians and is lost except through the description of Diodorus.

The Greeks probably had a few private libraries during the fifth and fourth centuries B. C., but nothing of their character is known now.

The first of the Ptolemies collected the twin libraries at Alexandria containing 700,000 volumes, arranged and catalogued, which were burned when Julius Caesar set fire to the shipping in the harbor. The library of Pergamum in Asia Minor, which Plutarch says contained 200,000 volumes, was sent to Alexandria as a gift to Cleopatra from Antony, with the view to making good the loss.

Under the Greeks the parchment used in making the scrolls was improved and by Roman times many varieties were on the market, and the Egyptian ink then in use has much of its ancient gloss and freshness to-day. Inkstands for two colors of writing fluid, much like those of to-day, have been excavated from the ruins of Pompeii and Herculaneum, and one from the latter city contained ink, which, though thick, could still be used for writing.

Constantine the Great founded in 336 B. C. a library at Constantinople which grew under his successors until it contained over 100,000 volumes, among the manuscripts being an account of the Council of Nice and a manuscript of Homer written in letters of gold on serpents' skin which measured 120 feet in length.

The library collected by Matthias Corvinus, King of Hungary, in 1460, contained over 50,000 manuscripts. The Turks in 1527 rifled it in the castle of Buda and scattered its contents over the continent.

The Arab libraries, consisting for the most part of works on theology, jurisprudence, and philology are attached to their mosques, are seldom read and rapidly fall into decay. The leaves of the books are not often sewed together, but usually are placed loose in a leather or pasteboard cover. Several persons can use the same book at the same time, each taking out a handful of leaves.

The Buddhist writings in the temples of eastern Thibet are printed from blocks such as were first used in China, or are written by hand. The Buddhist scriptures of Siam were written with brass or iron stiles upon the leaves of the talipot palm, and each leaf wrapped in yellow cloth or silk.

Among the mediaeval manuscripts of the library at Vatopethi on Mount Athos, Greece, there is a geography of the eleventh century after Strabo and Ptolemy, containing some maps.

LOST—THIRTEEN DAYS.

"On October 13, 1923, millions of Christians, members of the Greek Orthodox Church, lost thirteen perfectly good days. By doing so they are also surrendering a heritage of their ancestors dating back to 46 B. C. and correcting a mistake made by Julius Caesar," says a bulletin from the Washington, D. C. headquarters of the National Geographic Society.

"In fact, when England, in 1750, corrected the same calendar error the Greek Orthodox Church is now correcting and lost 11 days, mobs thronged through the streets of London shouting 'Give us back our eleven days.'

Julius Caesar, dominant figure of Roman civilization, must, however, be credited with good intentions. It is not his fault that the millions of members of the Greek Orthodox Church must mark time to get in step with the world. Along about 47 B. C., due to politics and manipulation, the Roman official calendar had mid-winter coming in the fall.

"This roused great Caesar's indignation, so he engaged Sosigenes, an Egyptian, to make a new model, which was brought out in 46 B. C. Sosigenes did a fairly scientific piece of work considering the astronomical instruments available in his day, but he missed calculating the right length of the year by 11 minutes and 14 seconds, a small difference, indeed, but it amounts to a day in 128 years.

"Caesar ruled with a strong hand and he saw to it that his new calendar was used all over the Roman Empire. Because of the error, however, the equinoxes kept slipping back until in the century 1500 they fell on the eleventh of the month instead of on the twenty-fifth, where Caesar put them.

"Pope Gregory decided this could not be, so he once more revised the calendar, dropping out an additional new day in every century except those whose first two figures are divisible by four.

Thus 1900 was not a leap year, but 2000 will be. But woe to us, even Pope Gregory was not right, since he missed the exact length of the year by 26 seconds, which will make us one day ahead of time by the year 3325. This must be corrected, but it is not exactly an immediate problem.

"In May, 1923, prelates of the Greek Orthodox Church, meeting in Constantinople, decided to accept the Gregorian calendar. Only the Ruthenians in the Carpathian Mountains and the Ukraine still cling to the Julian calendar. All other Christian peoples use the Gregorian standard.

"Back of the cold figures of the calendar on the wall are some very human stories.

"Few people realize that the Christian world annually celebrates the whim of an ancient Roman Emperor. Our modern indifference to the honor he insisted upon must hurt his feelings terribly if his ghost is in tune with the world.

"Caesar, it seems, had an orderly mind, and planned to alternate the long and short months, the first, third, fifth, seventh, ninth and eleventh months having 31 days, with the others, February excepted, having 30.

"But when Augustus, for whom August is named, heard that his month was to be a day shorter than July, the month named for Julius Caesar, he felt insulted and as a result the alternation originally planned was readjusted.

"One day accordingly was taken from February and given to August; and in order that three months of thirty-one days might not come together, September and November, were reduced to thirty days, and thirty-one was given to October and December.

"Before Caesar, the Roman calendar had been intrusted to the pontiffs for correction, but for reasons of their own and often for political reasons they shortened or lengthened a month. Through ignorance and deliberate changes the Roman calendar had finally become three months ahead of sun time.

"When the famous conqueror had his calendar finally prepared he ordered tha the three months should be inserted into that current year so the new calendar could begin exactly on January 1.

"Therefore the year 47 B. C. is the longest on record in the Christian calendar; it had 445 days."

WIDTH OF STANDARD GAUGE RAILWAYS.

The *standard gauge* of railways is 4 feet 8½ inches in the United States, Great Britain, Canada, France, Germany, Austria, Holland, Belgium, Denmark, Hungary, Italy, Switzerland, Sweden and European Turkey. That is to say it is 56½ inches from the top centre of one rail to the top centre of the other rail.

In general, a single track railway of standard gauge requires 12 feet of roadway; a double track, 23 feet.

A narrow gauge railroad is one where the distance is 3 feet or 3½ feet between the top centres of the rails. They are used in mining and lumbering.

A passenger engine, on good roads, averages approximately 35,000 miles a year; a freight engine, 25,000 miles.

The average resistance of cars to motion is 6 to 8 pounds per long ton, when the track and the train are in good order.

NATIONAL STATUARY HALL.

The National Hall of Statuary, formerly the Hall of the United States House of Representatives in the Capitol at Washington, was established by Congress July 2, 1864. Each State was invited to contribute marble or bronze statues of her two most distinguished deceased citizens. The following is a list of statues presented by the States and the dates of the works:

STATE.	Name.	Date.	STATE.	Name.	Date.
Alabama	J. L. M. Curry	1906	Missouri	Thomas H. Benton	1899
Arkansas	Uriah M. Rose	1917	New Hampshire	John Stark	1894
"	James P. Clarke	1921	"	Daniel Webster	1894
Connecticut	Roger Sherman	1872	New Jersey	Richard Stockton	1886
"	Jonathan Trumbull	1872	"	Philip Kearny	1875
Florida	John W. Gorrie	1914	New York	Robert R. Livingston	1874
"	Gen. E. Kirby Smith	1918	"	George Clinton	1873
Idaho	George L. Shoup	1909	North Carolina	Zebulon Baird Vance	1916
Illinois	James Shields	1893	Ohio	James A. Garfield	1885
"	Frances E. Willard	1905	"	William Allen	1887
Indiana	Oliver P. Morton	1899	Oklahoma	Sequoyah	1917
"	Lew Wallace	1909	Pennsylvania	J. P. G. Muhlenberg	1881
Iowa	James Harlan	1909	"	Robert Fulton	1881
"	Samuel J. Kirkwood	1913	Rhode Island	Nathaniel Greene	1869
Kansas	John J. Ingalls	1904	"	Roger Williams	1870
"	George W. Glick	1914	South Carolina	John C. Calhoun	1909
Maine	William King	1877	Texas	Stephen F. Austin	1904
Maryland	Charles Carroll	1901	"	Samuel Houston	1904
"	John Hanson	1901	Vermont	Ethan Allen	1875
Massachusetts	Samuel Adams	1873	"	Jacob Collamer	1879
"	John Winthrop	1872	Virginia	Washington	1908
Michigan	Lewis Cass	1889	"	Robert E. Lee	1908
"	Zachariah Chandler	1913	West Virginia	John E. Kenna	1901
Minnesota	Henry Mower Rice	1916	"	Francis H. Pierpont	1903
Missouri	Francis P. Blair	1899	Wisconsin	James Marquette	1895

Works of art in the Capitol have been acquired by gift, from private individuals and from States.

A group of bust portraits of Lucretia Mott, Susan B. Anthony, and Elizabeth Cady Stanton was placed in the crypt of the Capitol in February, 1921.

NOTE—The House of Representatives met in what is now Statuary Hall until Dec. 16, 1857, when the present Chamber of the House was ready for occupancy.

NATIONAL GRANGE. PATRONS OF HUSBANDRY.

Master—L. J. Taber, Columbus, Ohio. *Secretary*—C. M. Freeman, Tippecanoe City, Ohio. Washington, D. C., Office, 630 Louisiana Avenue N. W., T. C. Atkeson in charge.

OFFICERS OF STATE GRANGES.

MASTERS.	SECRETARIES.
California, Geo. R. Harrison, Sebastopol.	California, Mrs. Martha L. Gamble, Santa Rosa, 753 Slater St.
Colorado, John Morris, Golden.	Colorado, Rudolph Johnson, Boulder.

Wisconsin, Herman Ihde, Neenah.	West Virginia, F. M. Brown, Pliny.
West Virginia, O. H. Johnson, Boaz.	Wisconsin, J. G. Seyfert, Eagle River.
Wyoming, G. H. Peake, Douglas.	Wyoming, Miss Margaret Bundy, Hilisdale, Box 157

National Superintendent, Juvenile Granges—Mrs. Harriet Dickson, Piqua, Ohio.

THE NATIONAL HEALTH COUNCIL.

The National Health Council is an organization composed of the fourteen leading national voluntary health agencies of this country, together with the U. S. Children s Bureau and the U. S. Public Health Service as conference members.

The members are as follows: Amer. Child Health As oc., Amer. Public Health Assoc., Amer. Red Cross, Amer. Social Hygiene Assoc., Amer. Soc. for the Control of Cancer, Conference of State and Provincial Health Authorities of No. Amer., Nat'l Committee for Mental Hygiene, Nat'l Committee for the Prevention of Blindness, Nat l Organization for Public Health Nursing, Nat'l Tuberculosis Assoc., and Amer. Assoc. Industrial Physicians and Surgeons, Women's Foundation for Health (associate members).

The officers of the Council are: Chairman, Dr. L. K. Frankel; Vice Chairman, Dr. W. F. Snow; Recording Secretary, James L. Fieser; Treasurer, Dr. Linsly R. Williams; Executive Officer, Dr. A. J. Lanza; Admin. Sec., James A. Tobey.

Each member organization elects a representative and alternate to serve on the Council. The Surgeon General represents the U. S. Public Health Service. Headquarters are at 370 Seventh Ave., New York.

MOTION PICTURE FACTS.

The motion picture film manufacturers in the United States turn out 65,000,000 feet a month, or over 150,000 miles a year.

Into the manufacture of film goes nearly 5,000,000 pounds of cotton per year.

And into the sensitizing of motion-picture film and other photographic material over 156 tons of pure silver bullion are used each year, over three tons per week and approximately one-twelfth of all the silver mined in the United States.

In 1895, the first year of commercial motion picture film production, the total production was only 21,663 feet.

Every motion picture film that is rented pays to the United States Government a 5 per cent. rental tax which, in the year ended June 30, 1920, amounted to $3,972,852, and in that ending June 30, 1921, $5,951,188.

The tax is levied on the film distributers, and indicates that, in 1921, the distribut rs rented their films to exhibitors for $119,023,746. This tax was repealed in 1922.

The 10 per cent. theatre admission tax, in the year ended June 30, 1921, yielded $90,683,651, indicating that the people who attended theatres in that year paid over $906,000,000 for their tickets, of which over one-third went to the movie houses.

There are 17,900 motion picture theatres in this country.

In 1922 there were 700 program features produced, including over 40 super-features and 500 comedies. Miscellaneous releases used in both the theatrical and non-theatrical field totaled 200. There are 47 important distributers of non-theatrical pictures.

There are approximately 17,836 motion picture theatres in the United States, divided as follows: Maine, 191; New Hampshire, 109; Vermont, 94; Massachusetts, 438; Rhode Island, 66; Connecticut, 185.

New York, 1456; New Jersey, 422; Pennsylvania, 1397; Delaware, 38; District of Columbia, 58; Maryland, 194; Virginia, 238; West Virginia, 280; Ohio, 1040; Indiana, 565; Illinois, 1307; Kentucky, 300; Michigan, 614; Minnesota, 566; Wisconsin, 543; North Dakota, 218; South Dakota, 203; Iowa, 729; Nebraska, 414; Missouri, 618; Kansas, 494; No. Carolina, 234; So. Carolina, 120; Tennessee, 186; Georgia, 192; Florida, 167.

Alabama, 150; Mississippi, 116; Louisiana, 237; Oklahoma, 482; Arkansas, 220; Texas, 709; New Mexico, 72; Colorado, 233; Wyoming, 80; Montana, 159; Arizona, 79; Utah, 141; Nevada, 35; Idaho, 157, California, 775; Oregon, 209; Washington, 306.

Of these about 1,720 are first-run theatres. Some show 6 or 7 days a week, some once or twice, some are closed during certain months of the year. Small houses are largely in majority. There are only 35 houses with more than 3,000 seats in the United States.

About 1,142 theatre chains control 4,342 theatres. There are 471 combined vaudeville and motion picture theatres. There are 12,700 neighborhood theatres and about 3,140 downtown theatres.

New York City has more than 600 motion picture theatres, Chicago more than 350, and Philadelphia more than 200

It is estimated that one-fifth of the total population of the United States go to the movies each day. About 68.2% of the population of the United States attend more or less regularly.

The program changes daily in 14,000 theatres; in 1,500 theatres it changes weekly; 1,400 theatres have orchestras and 12,000 only pianos.

The length of the average feature film is between 5,000 and 6,000 feet.

About 5% of the pictures made in the United States are successes; 50% failures, and 45% "average."

There are 47,000 picture theatres in the world. Of the European countries, Germany leads, for in that country there are 3,731 picture theatres, and Russia follows with 3,500; Great Britain, 3,000; France, 2,400; Italy, 2,200; Austria, 800; Belgium, 778; Scandinavia, 703; Poland, 300; Holland, 227; Hungary, 180; Spain, 156; Czechoslovakia, 23; Switzerland, 123; Jugo-Slavia, 117; Turkey, 32; the Balkans, 23.

Africa, Australia and Asia have together 1,361; Canada, 750; South America, 500; and Central America, 500.

In 1919, according to the United States Census returns, $2,417,233 capital was invested in the manufacture of motion-picture machines, $44,448,942 in the making of motion-picture films (not exposed), and $37,254,232 in the manufacture of motion-picture projection films.

The value of products was: motion-picture machines, $3,431,749; motion-picture films (not exposed), $71,245,991; motion-picture projection films, $36,705,207.

The total asset of four leading producing corporations in 1922, according to their financial statements, was $98,124,120.

MOTION PICTURES IN 1921.

The Department of Commerce announfces that according to reports made to the Bureau of the Census in connection with the census of manufactures relating to the year of 1921, there were 127 establishments engaged primarily in the production of motion pictures during that year, with products valued at approximately $77,397,000. This does not include establishments which reported production value at less than $5,000 each.

Of the 127 establishments, 83 have been classified as producers of motion pictures, and 44 as producers of projection films (positive), the latter classification including the development of exposed films and other laboratory work. In the first-mentioned class the majority were engaged exclusively in the production of the pictures, their laboratory work being done by independent companies or, in the case of some of the larger concerns, in separate plants of their own. The "cost of materials" reported by these establishments included amounts paid for the unexposed films; for building materials for the construction of scenery, etc.; for wardrobe, purchased or rented; expenses for locations, light and storm effects, titles and inserts, scenarios, stories etc. A few establishments did both kinds of work

FLOUR MILLING IN THE UNITED STATES.

In the United States, in 1921, according to the Bureau of the Census, 35,378 wage earners were employed in making flour-mill products—flour or meal from grains. The data covers merchant mills which buy, grind, and sell, but do not include custom mills (grist mills), which latter turn out products valued at about 4½ per cent. of those of the merchant mills.

Grain milled in 1921 totaled 713,592,625 bushels.

The value of flour mill products manufactured in 1921 was $1,179,740,000, not including grist mills.

The three chief milling States are Minnesota, Kansas, and New York.

Of the grain milled in 1921, wheat comprised 521,233,509 bu.; corn, 122,168,474 bu.; rye, 7,707,541 bu.; buckwheat, 3,685,747 bu.; oats, 41,079,652 bu.; other grains, 17,717,702 bu.

The products (values in parentheses) in 1921 were: Wheat flour, 110,846,277 bbls. ($871,731,990); corn meal, 10,932,155 bbls. ($39,704,222); rye flour, 1,334,883 bbls. ($8,907,929); buckwheat flour, 65,438,319 lbs. ($2,569,600); bran and middlings, 4,041,084 tons ($105,537,778); feed, screenings, etc., 4,895,838 tons ($139,777,266).

In addition, flour, meal, and other products normally belonging to the flour-mill industry were reported as subsidiary products by establishments classified in other industries (principally the manufacture of breakfast foods), as follows: For 1921, $5,596,421; for 1919, $17,431,368; for 1914, $9,046,449.

In addition, a large amount of live-stock feed is manufactured by establishments classified in other industries, principally "food preparations, not elsewhere specified."

UNITED STATES PRODUCTION OF FOOTWEAR OTHER THAN RUBBER.

Classes.	1921.	1922.	1923.

ARE VENUS, MARS AND MERCURY HABITABLE?

(From an article by C. G. Abbot, Director of the Astrophysical Observatory, Smithsonian Institution.)

The answer requires us to consider for a moment the most important requisites of life.

Animals live on plants. Plants require warmth, light, water, carbon compounds, and certain inorganic salts.

But are we justified in supposing that in a climate where water would be changed to ice or steam, life would be impossible? It is difficult to conceive that water in the rigid form of ice could serve a living being as a prime part of his make-up.

Where would be the flexibility of motion required to circulate the food and carry on the functions of the body?

It may, indeed, be urged that other liquids might take the place of water. But the properties of water are unique.

An almost universal solvent, its solutions possess electrical and chemical properties so far more wonderful than any others that comparison is impossible.

Aside from water, one must insist on the element carbon as indispensable to life.

The spectroscope teaches us that all the heavenly bodies are of the same chemical elements.

Our earth has samples of all of the star-building materials and we know well their combinations.

Among all these elements there is none that has the versatility of carbon. Its compounds are innumerable and of the most bewildering complexity.

It only can be the basis of life, which seems to require the most complex of the mysterious intricacies of carbon chain building for its simplest creatures.

These complex life substances, however, are broken down by temperatures like that of steam, and are mostly rigid at temperatures like that of ice.

Within this temperature range, from freezing to boiling, we must believe lies all the theatre of animal and vegetable life.

Light, too, is necessary, but its requirements are more elastic. Planets grow and animals thrive where the light is a thousandfold less than daylight, and the full sun is far from being too strong for most of them.

All three planets would satisfy the requirements as to light.

We must test their qualifications as to temperature.

The water vapor, and clouds, in the earth's atmosphere, seem to be responsible for maintaining our average temperature fully 50 degrees Fahrenheit above what it would be if, notwithstanding their absence, the sun shone no more intensely on the earth than now.

Besides this, the range of temperature between day and night, shade and sunlight, would be enormously increased if the moist atmospheric blanket were removed.

The sunlight available on Mercury, Venus, and Mars is, respectively, 12, 1.1, and 0.6 times the intensity of that which is available to us upon the earth.

As shown by the reflecting power, Mercury, like the moon, is an airless, waterless waste, and being besides baked by a twelvefold torrid heat, there can be no thought of life upon Mercury.

Many popular writers have claimed great things for Mars as the abode of life. I cannot accept this view.

Director Campbell, of Lick Observatory, in two widely different and extremely beautiful and thorough researches, satisfied astronomers that the water vapor in the Martian atmosphere is less than one-fifth of the trifling quantity which prevails over Mount Hamilton in the coldest clear nights of winter.

Thus, without the earth's moist atmospheric blanket, and with only 0.6 the solar heat, the average Martian temperature should be 60° below zero Fahrenheit. Telescopic observations reveal no clouds on Mars.

Its most-talked-of features are dimly visible markings called fancifully by some "canals," but by observers like Barnard, Hale, and others, studying under ideal conditions, regarded merely as irregularities in the planet's contour and soil composition, which at the immense distance are on the limit of telescopic vision and take on one shape or another, according to the observer's interpretation.

All observers, of course, are agreed as to the existence of markings and shadings of color on Mars, but to suppose that we see there the engineering works of intelligent beings is merely fanciful.

As for the polar caps which form and melt with the Martian seasons, the best opinion is in doubt whether these may be thin deposits of hoar frost from the traces of water vapor in the atmosphere, or frozen carbonic acid gas, which in view of the low temperature of Mars, is perhaps as probable

Mercury being surely uninhabitable, and Mars most certainly inhospitable, there remains only Venus among the planets as a probable abode for intelligent life.

Here we must be struck by the favorable prospect. A twin planet to the earth in size and mass, its high reflecting power seems to show that Venus is largely covered by clouds indicative of abundant moisture; probably at almost identical temperatures to ours, our sister planet appears lacking in no essential to habitability.

Some writers have said that owing to the supposed period of rotation of Venus on its own axis being equal to its period of revolution around the sun, just as occurs in the case of the moon with respect to the earth, Venus must always present the same side toward the sun, and that therefore the one-half would be in extremest cold and the other in a most blistering heat.

Dr. A. Graham Bell has pointed out to me in conversation, however, that this view of things is most improbable.

The reflecting power of Venus has been carefully determined and lies in the neighborhood of 60 per cent. So high a reflecting power demands apparently the existence of clouds, and these clouds can hardly be of any other substance than water.

If it were a fact that the rotational period of Venus is equal to its period of revolution around the sun, all of the water would be distilled from the hot side to the cold side and these clouds would disappear.

These evidences alone seem to me to be sufficient to overcome the observational evidence which indicates the equality of periods of rotation and revolution.

That is dependent on spectroscopic observations to some extent, and these are not competent to indicate more than that the period of revolution is large as compared with our day.

They are not accurate enough to show that the period is 225 days, equal to the year of Venus, but it may be anything above 10 of our days, as far as the present spectroscopic observations would be accurate enough to indicate.

As for the reported observation of markings upon the planet which were said to rotate in 225 days, this observation can only be regarded with the greatest doubtfulness.

It is only because the clouds have always prevented a telescopic view of its surface that Venus excites no popular interest like that aroused by Mars.

WIRELESS COMMUNICATIONS.

It will be recalled that a good deal of discussion has appeared in the press as to the possibility of communicating with other planets by wireless telegraphy and even accompanied by the suggestion that we are already receiving wireless signals from intelligent beings outside of the earth which may in time be interpretable.

The best information seems to be that the wireless indications referred to are merely disturbances introduced by solar or terrestrial causes as yet imperfectly understood and not the work of intelligent beings trying to communicate with us.

At the same time, computations have been published which seem to make it within the limits of possibility that wireless communications might be exchanged with the nearer planets, if it were worth while to do so, although at immense cost.

Proposals have also been made from time to time of communicating by searchlights or mirrors in the ordinary methods of heliographing.

Certainly for a planet like Venus which is almost wholly covered by fogs the chance of a beam of sunlight or a searchlight beam penetrating to the surface where it could be observed by the supposed inhabitants, notwithstanding the glare of their own atmosphere and the glare of the whole relatively immense surface of the earth as compared to the surface of the reflectors or searchlights employed, is quite beyond probability.

If it were a case of communicating with the moon, there would be little doubt but that it could be accomplished.

If it were Mars or one of the still more distant planets that was being considered, there seems to be not the slightest probability of success.

So far as we know, then, any communications which can be made with other intelligent beings, if there are any, must be by means of wireless telegraphy or some as yet undiscovered means of communication.

If we could talk freely with intelligences existing on another world, having a history, social customs and laws, and religious faiths developed absolutely independently from those of this world our conversation would be not only one of surpassing interest to science and the humanities, but what a guide it might prove to statesmen and sociologists!

Marriage figures for 1923 do not include Bennett County, S. D., where there were 18 marriages in 1922.

Divorce figures for 1923 do not include Sarasota County, Fla. (3 in 1922), or Surry County, N. C. (13 in 1922), or Bennett County, S. D. (none in 1922).

There are no divorces granted in South Carolina, the law having been repealed in 1878.

The large increase in divorces in 1923 in Washington State is due to a change in the 1921 law.

All the figures in the table are preliminary, the Census Bureau says, and may be subject to slight changes.

THE MULE--WATCH HIS EARS!

(From a Farmers' Bulletin, U. S. Dept. of Agriculture.)

The mule is a hardy work animal. While this humble creature responds to good treatment and gives best service under favorable conditions of feeding and management, it is his ability to endure hardship and to perform sterling service under adverse conditions that has established him so firmly in American agriculture.

Those who are stanch supporters of the mule say that, in comparison with the horse, he will live longer, endure more work and hardship, require less attention and feed, is less liable to digestive disorders, lameness, and disease, is more easily handled in large numbers, is less irritable, and is more capable of performing work in the hands of a mediocre or poor horseman.

The mule is an animal with possibly more eccentricities and undeniable virtues than any other domestic animal. One would naturally expect from his heritage a rather unusual temperament requiring the most thoughtful treatment. The difficulty is to know how to handle the mule in order to keep the desirable qualities of his maternal ancestry in the foreground and to keep subservient the latent donkey characteristics.

To treat consistently a conglomeration of stubbornness and willingness, temper and sullenness, contentment and restlessness, slyness and docility, faithfulness and waywardness, with no knowledge of which virtue or vice is going to assert itself next, is a problem which may well tax the qualities of the best horseman.

Yet the virtues of the mule have been so evident in times of peace and war that many ardent horse lovers who have been prejudiced against him have come to admire the animal which has no "pride of ancestry or hope of posterity."

There are some peculiarities which belong to the mule alone. He does not like to be hurried, worried, or cuffed about; to try to force him to do things against his will is practically impossible and only makes matters worse.

The mule must be understood and gently but firmly persuaded to do things out of the ordinary. He is naturally suspicious of everybody who comes around him, and it can be readily observed that he never takes his eye off a person nearby, and when the ears begin to wag a little the person watched had better be on the lookout.

There seems to be a code system of ear signaling among mules that they all understand.

A mean mule can deftly handle his hind legs, and his forelegs are not to be ignored. He has been known to handle his "mits" in a clever fashion.

The mule seems to have an uncanny way of detecting whether a person is going to treat him harshly or kindly, and his reception is usually in like manner, nor does he forget the person who inflicts harsh treatment.

There is a wrong and a right way to lead a mule. A man who looks at a mule and lugs at his head will never make any progress. The mule will not be pulled. He will usually follow quietly, however, if a man will walk away in the direction he desires to go.

Neither can you "bully" mules into going through tight places; they are somewhat like sheep, and if the leader can be induced to go the rest will follow.

Next to satisfying a hearty appetite, the height of mule joy is to roll. A mule will roll at every opportunity and often at inopportune times.

He dislikes mud holes or water holes in the road, and is what is known as a sure-footed animal.

The size of the bone is usually determined by measuring the cannon bone about half-way between the knee and the fetlock joint. This circumference should be 8½ inches in a jack of 15 hands' height. It is very desirable to have large, well-shaped feet.

The head should be well proportioned, with the profile of the nose straight or slightly roman.

The ears should be long, well set, and alert on a mature animal and should measure, horizontally, 33 inches or more in length from tip to tip.

38,000,000 ACRES MORE NEEDED FOR CROPS IN 1955.

The problem of feeding the country's growing population has been occupying the attention of the United States Department of Agriculture's economists, who in 1924 announced that about 38,000,000 acres would have to be added to the Nation's present actual crop lands to support a population of 150,000,000 persons.

Allowing for that probability, the experts figure that the total area of land needed to sustain a population of 150,000,000 people with no greater dependence on imports than now exists, will be 403,000,000 acres.

There are available a little more than 600,000,000 acres of potential crop land, but much of it is of poor quality.

It should be possible, the agricultural experts state, by careful selection to get much of the required new crop acreage either from the heavy land of the cutover region, from the best of the 162,000,000 acres of available medium-textured soils or from land suitable for dry farming.

These possibilities, they say, should make it unnecessary to reclaim a very large area by drainage or irrigation.

VALUE OF FARM PRODUCTS IN THE UNITED STATES IN 1923.

The following estimate represents the value of farm products in 1923, based upon preliminary estimates of production and average prices at the farms:

Total cereals	$3,793,000,000
Cotton lint and seed	1,769,000,000
Flax fibre and seed	37,000,000
Total fruits and fruit products	681,000,000
Hay and forage	1,480,000,000
Total legume seeds	175,000,000
Seeds for planting	38,000,000
Total sugar crops	142,000,000
Tobacco	299,000,000
Total vegetables	1,089,000,000
Farm forest products	318,000,000
Other crops	$132,000,000
Total crops	$9,953,000,000
Total animals raised	$2,397,000,000
Bee products	11,000,000
Total dairy products	2,566,000,000
Total poultry products	1,007,000,000
Wool	87,000,000
Other animal products	3,000,000
Total animal products	$6,111,000,000
Total farm products	16,064,000,000

The value of crops fed to live stock in 1923 is estimated at $3,861,000,000, which amount is included in the figure for "total crops" shown in table above.

AVERAGE WHEAT PRICES IN ENGLAND SINCE 1800.

(Compiled by the U. S. Bureau of Crop Estimates. The figures represent cents per bushel.)

THE HUMAN MACHINE IN INDUSTRY.

(By Dr. F. S. Lee, of Columbia University, in the *Atlantic Monthly.*)

The human machine differs from other industrial machines in several important particulars.

In the first place, it can perform a great variety of work.

Then, too, it has a large capacity for training.

But with all its possible work and possible training most human machines possess innate qualities difficult to analyze, but becoming less and less difficult to detect, by which they can do certain kinds of work more readily than other kinds; and thus the possibility arises of classifying the workers and assigning them to appropriate jobs

In the past this has usually been a rather haphazard affair. The employment manager, or his representative, looked the applicant over, asked him a few questions and "sized him up;" but to-day, from careful studies of the various occupations and their specific requirements, tests have been devised for stenographers, typists, computing and other machine operators, toolmakers, inspectors of various manufactured products, moulders, mechanical engineers, salesmen, telephone operators, clerical workers, and others.

Such tests endeavor to determine, and express in mathematical terms, the fitness of the applicant for the specific work in question.

The validity of many of them has been demonstrated by rigid trials. They are constantly being improved and added to.

No tests are infallible; but there can be no question of the superiority of a test that has been intelligently devised, wisely given, and successfully employed in numerous cases over the old method of "hire and fire."

Vocational guidance, by means of such tests, is gradually overcoming scepticism, prejudice, and opposition, and is aiding innumerable human beings to find their proper setting.

Another peculiarity of the human machine is that it cannot work long before becoming fatigued. Fatigue is usually manifested by certain characteristic feelings—a disinclination to continue work, a feeling that greater effort is required, a desire to work more slowly.

If the person refuses to be guided by these feelings, the original pace may be kept up for a considerable time; but if he yields to them the pace slackens, and gradually less is accomplished.

Sooner or later he must yield to them, unless his machinery is to be seriously injured.

Thus, fatigue is a signal of ultimate danger to the mechanism.

I am inclined now to believe that there is nothing specific about the condition which, for convenience, we call fatigue; that it has no single or even simple causative factors; but that the fatigued body is in a very different chemical, and perhaps physical, state from that of the unfatigued body, and that to restore the non-fatigued condition there are needed profound chemical, and perhaps physical, changes.

As to the manifestations of fatigue, and tests for its presence, we are almost equally in the dark. It is simple enough under the easily controlled conditions of a laboratory, where one can take apart a living mechanism and make its organs and tissues work separately, to demonstrate the progressively diminishing working capacity of active cells.

A muscle fatigues rapidly; a nerve-ending fatigues rapidly; a nerve-fibre resists fatigue. But with the fatigue of the body as a whole, the problem of its analysis becomes infinitely more intricate.

There are certain differences in the chemical activities of the resting and the working body; but definite amounts of chemical change have not been correlated with definite amounts of work accomplished. The same is true of physical changes.

The output of the human machine, unlike that of the non-living mechanism, is increased by occasional rests. The benefits of the luncheon hour are obvious; but many facts demonstrate that other resting-periods are not, in the end, mere lost time.

The working of the human machine is affected by various physical factors in its environment.

One of these is air, and the modern science of ventilation shows what qualities good air possesses. In extreme cases air may be rendered impure by poisonous chemical substances produced in manufacturing operations, which men and women cannot long breathe without detriment.

But under ordinary circumstances the bad air of crowded rooms is not due to chemical contamination but to a rise of temperature, a rise of humidity, and a lack of motion.

The human motor, like other motors, generates much heat, and must be continually air-cooled if its temperature is not to rise to a detrimental degree.

There are dangers in the elimination of unnecessary motions.

There is the danger of excessive speed and drive and overfatigue.

There is the danger of spoiled work.

There is the danger of assuming that the fewest motions necessarily constitute the most effective method.

There is the danger of assuming that all workers can most profitably perform a given operation in exactly the same manner.

There is the danger of crushing initiative.

But all these may be avoided by an intelligent, sympathetic director, who realizes that a misuse of the newer method will, in the end, defeat the object of improving the efficiency of the human machine.

Time-and-motion study, properly conducted, will greatly aid this object.

A paramount distinction of the human machine, in comparison with machines of metal, is that it is the seat of instincts and emotions, and its reaction toward the call of its work is modified by them.

Suspicion and distrust of employers, whether justified or not, are often habitual.

In the many phases of what has unfortunately been named "welfare work," some workers find real and physical blessings, while others see only paternalism, an invasion of private rights, and diabolical devices for drive.

To one worker sabotage is justifiable, while another respects his tools as he does himself.

One may be a dull plodder, capable or incapable; another may be emotionally unstable, quick to respond to good and to bad influences.

Instincts are mainsprings of human industrial action, and a sagacious analyst has classified them into instincts of workmanship, ownership, self-assertion, submissiveness, curiosity, play, pugnacity, sex, the parent, and the herd.

Wisely directed, they may become forceful aids to efficiency; led astray, they may disorganize and obstruct.

It is probable that emotional instability is one of the potent factors in the industrial unrest that has followed the war.

With a machine of soulless steel, decreased hours mean decreased production; with a machine of flesh and blood, decreased hours, within limits, mean increased production.

It is difficult to make people believe this seeming paradox.

Long hours maintained by a worker mean, in the end, one of two things: either a slow pace, or overfatigue of his organism. If a slow pace occurs, the object of long hours is defeated.

It was shown in the laboratory long ago that fatigue does not increase in arithmetical proportion to the increase in work done—twice the work, twice the fatigue—but that additional work imposed upon an already fatigued individual is disproportionately more fatiguing, and a disproportionately longer time is then required for recuperation.

The human machine is, it is true, constructed with a large margin of safety and can often endure for a considerable time more than the usual calls on its working capacity.

But if over-fatigue occurs the certain result of a maintenance of long hours is the laying aside of the machine.

Yet change of personnel, labor turnover, is one of the most costly features of industrial administration.

I cannot conceive that a twelve-hour day of continuous labor continuously repeated can ever be physiologically economical. Nor can I conceive that a six-hour day would ever make excessive physiological demands upon those who are physiologically fitted to maintain their places in industry.

Vernon, an English physiologist of wide experience in the study of factory laborers, and of wide knowledge of the present status of industrial physiology, has suggested as a tentative scheme that, from the point of view of maximum output, the working day of the textile worker, whose occupation is largely connected with machine operations, might be fixed at nine or ten hours; that of the worker who combines manual skill and strength with machinery, at eight hours; and that of such a manual laborer as the coal miner at seven hours.

Exact measurements of the output of day workers and of night workers on similar jobs show that the latter habitually produce less—two, six, ten, twelve, and seventeen per cent. in different groups under observation.

Where workers shift every fortnight from day to night, and again from night to day, the depressing effect of the night's labor is more evident in the second week of the night shift than in the first, and is even carried over into the subsequent first week of the day shift.

COTTON GRADE COMPARISONS.

(By E. B. Norman & Co., of New Orleans.)

Official Cotton Standards of U. S.	Liverpool Standards.	Official Cotton Standards of U. S.	Liverpool Standards.
No. 1. Middling fair	= Fair	No. 7. Low middling	= Low middling to fully low middling
No. 2. Strict good middling	= Middling fair	No. 8. Strict good ordinary	= Fully good ordinary to low middling
No. 3. Good middling	= Fully good middling	No. 9. Good ordinary	= Good ordinary to fully good ordinary
No. 4. Strict middling	= Good middling		
No. 5. Middling	= Barely fully middling*		
No. 6. Strict low middling	= Fully low middling to middling		

* The Liverpool standard on fully middling Texas cotton allows for a little more leaf than the standard on Atlantic cotton; therefore:

Liverpool fully middling Texas is equal to American middling.

Staple Comparisons.

American (Inches—Actual Lengths).	Liverpool (Inches—Nominal Lengths).	Continent (Havre) (Millimetres—Nominal Lengths).
7-8"	Good staple	Good staple
* 15-16" (full 7-8 to 1")	1 1-16"	28 millimetres
1"	Commercial 1 1-8"	Barely 28-29 millimetres
† 1 1-32" (full 1 to 1 1-16")	1 1-8"	28-29 millimetres
1 1-16"	Good 1 1-8"	28-30 millimetres
‡ 1 3-32" (full 1 1-16 to 1 1-8")	Full 1 1-8"	29 millimetres
1 1-8"	1 1-8 to 1 3-16"	29-30 millimetres

Staples above 1 1-8" (American lengths) partake of the nature of specialties, which are mostly dealt in on the basis of private types, and this to some extent also applies to staples from full 1 1-16" to 1 1-8".

† 15-16" has been used to some extent in practice.

‡ 32nds have not been used so far in commercial practice in the United States.

LOSSES OF FARM ANIMALS IN U. S. FROM DISEASE AND EXPOSURE.

AVERAGE INCOME PER FAMILY IN THE UNITED STATES.

The average total annual income per white family among wage earners and salaried persons in the United States is $1,513 (of which the husband earned $1,349), according to data gathered in ninety-two cities and localities in 1918-1919 by the Bureau of Labor Statistics of the United States Department of Labor, made public in May, 1924, by the Government.

The highest annual average family income—$2,407—was found in the mining city of Bisbee, Ariz.

The average family income in chief cities was as follows:

City.	Ave. Income.	City.	Ave. Income.	City.	Ave. Income.	City.	Ave. Income.
Atlanta	$1,366	Detroit	$1,541	Newark	$1,490	Richmond, Va.	$1,363
Baltimore	1,259	Fall River	1,315	New Orleans	1,275	St. Louis	1,401
Boston	1,423	Indianapolis	1,372	New York	1,493	Salt Lake	1,556
Buffalo	1,514	Kansas City	1,401	Omaha	1,503	San Francisco	1,477
Chicago	1,457	Los Angeles	1,347	Philadelphia	1,506	St. Paul	1,386

Dallas	1,352	Milwaukee	1,399	Portland, Ore.	1,558	Trenton, N. J.	1,505
Denver	1,347	Minneapolis	1,386	Providence	1,366	Wilmington, Del.	1,760

BIRD CENSUS IN THE UNITED STATES.

(By the Chief of the Bureau of Biological Survey, United States Department of Agriculture.)

It has been ascertained through these counts that birds in the agricultural districts in the Northeastern United States average slightly more than a pair to the acre, though in parts of the arid West and on the treeless plains this number dwindles to an average of half a pair, or even less, to the acre.

By far the most abundant birds in the United States are the robin and the English sparrow, but several others are common enough to make their total numbers run well into the millions. The counts so far show that the most abundant bird on farms in the Northeastern States is the robin; next to this is the English sparrow, and following these are the catbird, brown thrasher, house wren, kingbird and bluebird, in the order named. The densest bird population anywhere recorded is on the suburban estate of Gilbert Grosvenor, near Washington, D. C, where a careful count showed, in 1915, one hundred and thirty-five pairs of forty species on five acres. Two city blocks, well furnished with trees, in the city of Aiken, S. C., harbored sixty-five pairs on ten acres.

HENRY FORD'S EMPLOYEES NUMBER 162,792.

Henry Ford employs in his major industries at Detroit, Mich., and throughout the world 162,792 persons, the Ford company announced on Feb. 12, 1924.

Of this number, 121,214 are employed in manufacturing plants in the United States and 24,323 in the American branches.

Employees in foreign lands number 11,028.

In addition to those employed by the Ford company—a total of 156,565—2,525 men are employed on Mr. Ford's D., T. & I. Railroad; 2,282 in the Fordson coal mines; 720 at the Henry Ford Trade School; and 700 at the Henry Ford Hospital.

The Highland Park (Detroit) plant is the greatest of the Ford industries, employing 68,285 men.

THE DRUG INDUSTRIES IN THE UNITED STATES.

The drug industries in 1921 employed 30,476 wage earners, in 2,266 establishments, not including small plants with output of less than $5,000 apiece a year; and paid out $30,979,000 in wages; the output was valued at $330,137,156.

The drug industries fall into three main branches, the value of whose output in 1921 was—Druggists' preparations, $81,697,922; patent medicines and compounds, $175,898,330; perfumery and cosmetics, $72,540,904.

Druggists' preparations are products used mainly by druggists in compounding medicines to be dispensed upon physicians' prescriptions or orders.

Patent medicines and compounds are those sold under the protection of patents, copyrights, or trade marks, or prepared according to secret formulas, including medicines of a proprietary character, not necessarily patented, and compounds not intended for medicinal use, such as insecticides, disinfectants, boiler compounds, and fire-extinguishing compounds.

Perfumery and cosmetics include perfumes, toilet waters, toilet preparations, cold cream, face powders, etc.

Included in the industries are biologic products—serums, vaccines, etc., valued at $10,856,924.

New York State stands first in the drug industries, with products in 1921 valued at $81,642,556; Illinois, second, $37,495,026.

Exports in the calendar year 1921 were, in value—Medicinal and pharmaceutical preparations, $12,724,430; perfumery, cosmetics, toilet preparations, $4,736,946.

Imports in 1921 of all the goods included in the drug industries were valued at $8,210,676, of which perfumery, etc., totaled $5,790,262.

SOAPS, PERFUMES AND TOILET ARTICLES.

Soaps made in the United States in 1921 were valued at $240,194,619; perfumes and toilet preparations at $15,115,334.

Production of hard soaps totaled 1,752,136,000 lbs., of which toilet soaps aggregated 197,274,000 lbs.

Powdered soaps totaled 580,371,000 lbs.; liquid soaps, 10,529,000 lbs.; paste soap, 19,631,000 lbs.; soft soap, 63,275,000 lbs.

In 1921 exports of other than fancy or toilet soaps totaled 73,952,439 lbs., imports totaled 3,199,448 lbs.

COMMERCIAL FAILURES IN THE UNITED STATES.

R. G. Dun & Co. estimated the number of failures in the United States in 1923, based on reports of their agents, at 18,718, as against 23,676 in 1922, and 19,652 in 1921. The 1923 failures were, by States, as follows:

State.	No. of Failures.	Assets of Failed Concerns.	Liabilities of Failed Concerns.	State.	No. of Failures.	Assets of Failed Concerns.	Liabilities of Failed Concerns.

THE LIBRARY OF CONGRESS.

The Library of Congress was established in 1800, destroyed in 1814, by the burning of the Capitol, afterward replenished by the purchase by Congress of the library of ex-President Jefferson, 6,760 volumes (cost, $23,950); in 1851, 35,000 volumes destroyed by fire; in 1852, partially replenished by an appropriation of $75,000; increased (1) by regular appropriations by Congress; (2) by deposits under the Copyright Law; (3) by gifts and exchanges; (4) by the exchanges of the Smithsonian Institution, the library of which (40,000 volumes) was, in 1866, deposited in the Library of Congress with the stipulation that future accessions should follow it. One hundred sets of Government publications are at the disposal of the Librarian of Congress for exchange, through the Smithsonian, with foreign Governments, and from this source are received about 12,000 volumes annually. Other special accessions have been: The Peter Force collection (22,529 volumes, 37,000 pamphlets), purchased 1867, cost $100,000; the Count de Rochambeau collection (manuscript), purchased 1883, cost $20,000; the Toner collection (24,484 volumes, numerous pamphlets), the gift in 1882 of Dr. Joseph M. Toner; the Hubbard collection (engravings).

The collection is now the largest in the Western Hemisphere, and third in the world. It comprises over 3,179,000 printed books and pamphlets (including the law library, which, while a division of the Library of Congress, still remains at the Capitol), maps and charts, pieces of music, and photographs, prints, engravings and lithographs numbering about two million.

The collection is rich in history, political science, in official documents, National, State, and foreign, and in Americana, including important files of American newspapers and original manuscripts (Colonial, Revolutionary, and formative periods).

Among the special book collections are the Yudin, of Russian literature (80,000 volumes); the Schiff, of Judaica (about 20,000); the Weber, of Indica; the Huitfeid-Kaas (Scandinavian); the John Boyd Thacher of Incunabula (930 tities). The Orientalia include some 5,000 volumes (fascicules) of Japanese books and about 40,000 volumes (fascicules) of Chinese. The Division of Prints includes certain collections given or lent, besides a large mass of material received by copyright and some by purchase. The manuscript collections are especially noteworthy for material on American history, some of the most distinguished of which has been received by transfer from the executive departments, the library being now regarded as the main custodian of the historical archive material in the possession of the Government. It has the papers of seventeen Presidents and of various American statesmen, Franklin, Morris, Hamilton, &c.

The library is copying largely documents in foreign archive offices and other institutions of concern to American history. It has already a large body of transcripts from such sources. This policy of transcribing and copying, where necessary by facsimile, is applied also to maps and to music. Through it the collection of music, in bulk one of the largest in the world, is especially strengthened in full scores of orchestral and operatic music.

In 1897 the main collection was removed from the Capitol to the building erected for it under the Acts of Congress approved April 15, 1886, October 2, 1888, and March 2, 1889, at a cost of $6,347,000 (limit by law, $6,500,000), exclusive of the land, which cost $585,000.

The building was completed in February, 1897, and opened to the public November, 1897. It occupies three and three-quarter acres upon a site ten acres in extent at a distance of 1,270 feet east of the Capitol, and is the largest and most magnificent library building in the world. In the decorations some forty painters and sculptors are represented—all American citizens. The floor space is 326,195 square feet, or nearly eight acres.

The library is maintained by annual appropriations by Congress for various purposes, including the purchase of books and printing and binding. Total appropriation (1924) $958,315. For service and contingent expenses, $648,065; purchase of books, $100,000; building and grounds, $107,191.

Entitled by statute to draw books for home use are various officials at Washington. In addition, special permits are freely issued by the Librarian to persons engaged in research.

Inter-Library Loans—While not a lending library but primarily a reference library, the Library of Congress maintains an inter-library loan system by which special service is rendered to scholarship by the loan to other libraries for the use of investigators engaged in serious research of books.

Copyright Office—The Copyright Office is a distinct division of the Library of Congress and is located on the ground floor, south side; open 9 to 4.30. It is under the immediate charge of the Register of Copyrights, who, by the acts of February 19, 1897, and March 4, 1909, is authorized "under the direction and supervision of the Librarian of Congress" to perform all the duties relating to copyrights. Copyright registration was transferred to the Librarian of Congress by the act of July 8, 1870. Of most articles copyrighted two copies, and of some one copy, must be deposited in the Library of Congress to perfect copyright.

During the year ending June 30, 1924, 162,694 copyright registrations were made.

Hours—The library building is open to the public all days in the year excepting 4th of July and Christmas. The hours are from 9 A. M. to 10 P. M. weekdays, from 2 P. M. to 10 P. M. Sundays and holidays and 9 A. M. to 1 P. M. on Saturdays from June 15 to September 15.

Librarians Since the Inception of the Library—1800-1815, the Clerk of the House of Representatives (for the time being); 1815-1829, George Watterston; 1829-1861, John S. Meehan; 1861-1864, John G. Stephenson; 1864-1897 (June 30), Ainsworth R. Spofford; 1897-January 17, 1899, John Russell Young; 1899 (April 5), Herbert Putnam. *Chief Assistant Librarian*, Appleton P. C. Griffin; *Chief Clerk*, Allen R. Boyd; *Secretary*, Jessica L. Farnum.

Figures in column under "Patents" caption include reissues.

The first patent issued in the U. S., in 1924, was numbered 1,478,996.

Up to Jan. 1, 1922, Great Britain had issued 594,146 patents; France, 645,482; Germany, 365,884; Belgium, 321,998; Canada, 211,627; Italy, 166,065; Austria, 115,350; Switzerland, 94,610; Hungary, 81,145; Spain, 69,681; Sweden, 53,914; Russia, over 32,000; Denmark, 36,600; Japan, 39,453; Norway, 35,293; Australia, 26,179; New Zealand, 21,935; Mexico, 21,076; Argentina, 18,380.

In the United States, one patent or design has been issued for every 35,515 of population; in England, one to each 1.188 of population.

THE UNITED STATES CENSUS.

(From data supplied by the Bureau.)

The Constitution requires that a population census of the United States be taken decennially. The First Census was taken in 1790, and the most recent, the Fourteenth, in 1920. The Census Bureau was made a permanent organization in 1902, and since 1913 has been a branch of the Department of Commerce.

The scope of the decennial census, which at first was little more than a simple count of the population by family groups and by sex and color, has been extended from time to time until in 1920 it covered in detail the following subjects: (1) Population, including occupations; (2) Agriculture, including irrigation and drainage; (3) Manufactures; (4) Mines, quarries, and oil and gas wells. Approximately $7,000 enumerators, together with a large number of supervisors, clerks, and other employees, were engaged in the task of collecting the data, compiling the statistics, and preparing the reports for publication. A decennial census of the United States is the most extensive investigation of its character undertaken by any governmental or other agency in any country; and the Bureau of the Census is the largest statistical organization in the world.

In addition to the comprehensive decennial censuses, the Bureau carries on numerous other statistical inquiries of greater or less magnitude at intervals ranging in length from 10 years to one week. Of these inquiries, the most important are the following: Decennial—the blind and the deaf; institutional population (the dependent, defective, and delinquent classes); wealth, public debt, and taxation; transportation by water. Quinquennial—agriculture (decennial prior to 1920); electrical industries (electric light and power plants, electric railways, telephones, and telegraphs). Biennial—manufactures. Annual—births; deaths; marriages and divorces; financial statistics of states and cities; forest products, clay and other refractory products, farm equipment; glue and gelatin. Many other inquiries are made at semiannual, quarterly, monthly, and more frequent intervals. For each intercensal year *estimates* of the population of states, counties, and cities are made with some detail as to sex, color, nativity, and age periods.

One of the important features of the Census Bureau's work is the monthly publication of the Survey of Current Business, which gives indices of current and past business conditions for the more important industries.

The Director of the Census is appointed by the President. His salary is $7,500 per annum during the three-year decennial census period and $6,000 per annum during the seven intercensal years. The present Director is William M. Steuart, of Michigan; the Assistant to the Director, Joseph A. Hill, of New Hampshire. The permanent organization includes five chief statisticians, namely: for Population, William C. Hunt; for Manufactures, Eugene F. Hartley; for Statistics of States and Cities, Starke M. Grogan; for Agriculture, Cotton and Tobacco, William L. Austin; for Vital Statistics, William H. Davis. The regular force of the Bureau at Washington during intercensal periods comprises about 700 persons, and in addition approximately 700 special agents are employed intermittently in the South for the collection of data in regard to cotton and cottonseed. During a decennial census period the office force in Washington reaches a maximum of about 6,000 employees.

THE NATIONAL PARKS AT A GLANCE.

(Number, 19; total area, 11,372 square miles.)

National Parks in Order of Creation.	Location.	Area in Sq. Miles	Distinctive Characteristics.
Hot Springs, 1832...	Middle Arkansas.....	1¼	46 hot springs possessing curative properties.
Yellowstone, 1872...	No'western Wyoming.	3,348	Geysers; boiling springs; mud volcanoes; petrified forests; Grand Canyon of the Yellowstone.
Sequoia, 1890.....	Middle eastern California.	252	12,000 sequoia trees over 10 feet in diameter, some 25 to 36 feet in diameter; cave.
Yosemite, 1890.....	Middle eastern California.	1,125	Valley of world-famed beauty; lofty cliffs; many waterfalls of extraord'y height; 3 groves of big trees.
General Grant, 1890.	Mid. east'n California.	4	Created to preserve Gen. Grant Tree, 35 ft. in diam.
Mount Rainier, 1899	W. central Washington	324	28 glaciers; 48 sq. miles of glacier, 50 to 500 ft. thick.
Crater Lake, 1902...	Southwestern Oregon..	249	Lake of extraordinary blue in crater of extinct volcano; sides 1,000 feet high; lava; fishing.
Wind Cave, 1903....	South Dakota.....	17	Miles of galleries and chambers containing peculiar formation.
Platt, 1904.....	Southern Oklahoma...	1⅛	Many sulph. and oth. springs possess medicinal value.
Sullys Hill, 1904...	North Dakota.....	1⅛	An important wild animal preserve.
Mesa Verde, 1906...	So'western Colorado..	77	Most notable, best preserved prehistoric cliff dwellings.
Glacier, 1910.....	No'western Montana..	1,534	250 glacier-fed lakes; 60 small glaciers; precipices thousands of feet deep.
Rocky Mount'n, 1915	North middle Colorado	397½	Heart of the Rockies; snowy range, peaks 11,000 to 14,255 feet altitude.
Hawaii, 1916.....	Hawaii.....	186	Kilauea & Mauna Loa on Hawaii, Haleakala on Maui.
Lassen Volcano, 1916	Northern California...	124	Only active volcano in U. S. proper; hot springs; mud geysers.
Mt. McKinley, 1917.	South central Alaska..	2,645	Highest mountain in North America.
Grand Canyon, 1919.	North central Arizona.	958	Greatest example of erosion in the world.
Lafayette, 1919.....	Maine coast.....	8	Group of granite mountains on Mt. Desert Island.
Zion, 1919.....	Southwestern Utah...	120	Zion Canyon 800 to 2,000 feet deep.

There are also seven national military and other parks under the jurisdiction of the Secretary of War. They are as follows: Chickamauga and Chattanooga, Georgia and Tennessee; Shiloh, Tennessee; Gettysburg, Pennsylvania; Vicksburg, Mississippi; Antietam Battlefield, Maryland; Lincoln's birthplace, Kentucky; Guilford Court House, North Carolina.

The national parks and national monuments, unless otherwise stated, are under the supervision of the Secretary of the Interior. Congress, by act of August 25, 1916, created a National Park Service and placed the administration of the national parks and monuments under the Department of the Interior in charge of a director of such service. General information, the annual administrative reports and copies of the rules and regulations relating to the parks may be obtained from the Director of the National Park Service, Washington, D. C., or the Superintendents of the parks.

NATIONAL MONUMENTS.

Under the Act of Congress, approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretaries of the Interior, Agriculture, and War. Application for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior. The following have been preserved from entry and set aside as national monuments: Devil's Tower, Wyoming; Montezuma Castle, Arizona; Petrified Forest, Arizona; El Morro, New Mexico; Chaco Canyon, New Mexico; Muir Woods, California; Natural Bridges, Utah; Lewis and Clark Cavern, Montana; Tumacacori, Arizona; Navajo, Arizona; Shoshone Cavern, Wyoming; Gran Quivira, New Mexico; Katmai and Sitka, Alaska; Rainbow bridge, Utah; Pinnacles, California; Colorado, Colorado; Papago Saguaro, Arizona; Capulin Mountain, New Mexico; Dinosaur, Utah; Verendrye, North Dakota; Casa Grande, Arizona; Scott's Bluff, Nebraska; Yucca House, Col.; Fossil Cycad, So. Dak.; Carlsbad (limestone) Cave, N. Mex.; Aztec Ruin, N. Mex.; Hovenweep, Utah-Col.; Pipe Springs, Ariz.; Craters of the Moon, Idaho.

Twelve other national monuments in national forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed. Two other national monuments (Big Hole Battlefield, in Montana, and Cabrillo, in California) are under the jurisdiction of the Secretary of War.

"	Dr. K. Theodor Dumba, amb	1912
"	Count Adam von Tarnow Tarnowski, amb	1916

Dumba was recalled in 1915.

On the separation of Austria and Hungary and the return of peace, the United States sent and received separate envoys in the cases of the Republic of Austria and the Kingdom of Hungary, Albert H. Washburn being the first United States Minister to *Austria*, and Theodore Brentano the first to *Hungary*, which latter country sent as its first Minister to the United States, Count Laszlo Szechenyi, in 1922.

UNITED STATES ENVOYS TO ITALY.

"Greater London"	443,449	5,633,806	6,581,402	7,251,358	7,476,168

"Registration" London is the County of London, with an area of 74,850 acres.

UNITED STATES COAST GUARD.

The United States Coast Guard was created by Act of Congress of Jan. 28, 1915, by combining therein the Revenue Cutter Service, organized by Act of Congress approved Aug. 4, 1790, and the Live Saving Service, which latter was operated in connection with the Revenue Cutter Service, but on June 18, 1878, was erected into a separate organization under the Treasury Department. At the close of the fiscal year ended June 30, 1924, there were in commission in the Coast Guard 22 cruising cutters, 19 inshore patrol cutters, 20 harbor cutters, and 16 harbor launches. The shore stations in an active status numbered 237. Briefly, the principal duties of the Coast Guard are:

Rendering assistance to vessels in distress and saving life and property.

Destruction or removal of wrecks, derelicts, and other floating dangers to navigation.

Extending medical aid to American vessels engaged in deep sea fisheries.

Protection of the customs revenue.

Operating as a part of the navy in time of war or when the President shall so direct.

Enforcement of laws and regulations governing anchorage of vessels in navigable waters and quarantine and neutrality.

Suppression of mutinies on merchant vessels.

Enforcement of navigation and other laws governing merchant vessels and motor boats, and the laws to provide for safety of life during regattas and marine parades.

Protection of game and the seal and other fisheries in Alaska, etc.; enforcement of sponge-fishing law.

International ice patrol in the vicinity of the Grand Banks, off Newfoundland.

The Coast Guard patrol system guaranteeing early assistance to vessels and persons in distress is maintained along the coast. A communication system, linking by telephone all Coast Guard stations and a number of lighthouses, navy radio stations and radio compass stations, is also maintained.

The commissioned line and engineer officers of the service are appointed by the President, by and with the advice and consent of the Senate, from cadets who have completed a course of instruction at the Coast Guard Academy, New London, Conn. The course of instruction for cadets of the line and of the engineer corps is three years.

GOVERNMENT OF THE BRITISH EMPIRE.

The British Empire covers about one-fourth (13,406,103 square miles) of the world's habitable land surface; this excludes the Arctic regions. Its population in the aggregate, according to the best obtainable estimates, is some fifteen millions more than one-fourth of the inhabitants of the world—a total of 441,595,965.

The Capital of this vast empire is London, the largest city in the world—the "Greater London" population, census of 1921, being 7,476,168.

The Ruling Sovereign is George V., the first of the House of Windsor, whose title is "by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions Beyond the Seas, King, Defender of the Faith.

Emperor of India." He was born June 3, 1865, the second son of King Edward VII. and Queen Alexandra, daughter of King Christian IX. of Denmark, and he succeeded to the throne on the death of his father May 6, 1910, and was crowned, June 22, 1911. He married, on July 6, 1893, Princess Victoria Mary, born May 26, 1867, daughter of the late H. S. H. Duke of Teck and H. R. H. Princess Mary of Cambridge. They have five living children. *His Heir*, H. R. H. Edward, Prince of Wales, born June 23, 1894; H. R. H. Prince Albert, Duke of York, born Dec. 14, 1895; married in Westminster Abbey, April 7, 1923, Lady Elizabeth Bowes-Lyon (born 1900), daughter of the Earl of Strathmore and Kinghorne; H. R. H. Princess Mary, born April 25, 1897, married Viscount Lascelles, K. G., son of the Earl of Harewood, Feb. 28, 1922 (issue, George Henry Hubert, born Feb. 7, 1923, and Gerald David, born Aug. 21, 1924); H. R. H. Prince Henry, born March 31, 1900; and H. R. H. Prince George, born Dec. 20, 1902.

The Premier is the Rt. Hon. Stanley Baldwin, (born Aug. 3, 1867), Conservative, took office Nov. 4, 1924, on the resignation of the Rt. Hon. J. Ramsay MacDonald, Labor, after defeat at the polls on Oct. 29, 1924.

The Cabinet.

The Conservative Cabinet—Stanley Baldwin's second Cabinet, announced Nov. 1, 1924, is as follows, he being the leader of the House of Commons, with Austen Chamberlain as deputy leader, and Marquis Curzon being leader of the House of Lords:

Prime Minister, Stanley Baldwin.
Lord President of the Council, Marquis Curzon.
Lord Privy Seal, Marquis of Salisbury.
Lord Chancellor, Viscount Cave.
Chancellor of the Exchequer, Winston S. Churchill.
Home Secretary, Sir William Johnson-Hicks.
Foreign Secretary, J. Austen Chamberlain.
Colonial Secretary, Lieut; Col. L. C. M. S. Amery.
War Secretary, Sir Laming Worthington-Evans.
Secretary for India, Earl of Birkenhead.
Secretary for Air, Sir Samuel J. G. Hoare.
First Lord of the Admiralty, W. C. Bridgeman.
President of the Board of Trade, Sir Philip Lloyd-Graeme.
Minister of Health, Neville Chamberlain.
Minister of Agriculture, Edward Frederick Lindley Wood.
Secretary for Scotland, Sir John Gilmour.
President of the Board of Education, Lord Eustace Percy.
Minister of Labor, Sir Arthur Steel-Maitland.
Attorney General, Sir Douglas M. Hogg.
First Commissioner of Works, Viscount Peel.
Chancellor of the Duchy of Lancaster, Viscount Cecil.

In the Ministry but not in the Cabinet are:

Parliamentary Secretary to the Board of Education, the Duchess of Atholl.
Postmaster General, Sir William Mitchell-Thompson.
Minister of Transport, Lieut. Col. Wilfred Ashley.
Minister of Pensions, Major G. C. Tryon.
Under Secretary for War, Earl of Onslow.
Under Secretary for Air, Sir Philip Sassoon.
Civil Lord of the Admiralty, Earl Stanhope.
Solicitor General, Sir Thomas Inskip.
Under Secretary for Foreign Affairs, Ronald McNeill.
Financial Secretary of the Treasury, Walter Guinness.
Under Secretary for India, Earl Winterton.

The Labor Cabinet—J. Ramsay MacDonald's Labor Cabinet, in office from Jan. 22, 1924, to Nov. 4, 1924, was as follows, Mr. MacDonald being leader of the House of Commons, with Mr. Clynes as deputy leader:

Prime Minister and Foreign Secretary, J. Ramsay MacDonald.
Lord Privy Seal, John Robert Clynes.
Lord President of the Council, Lord Parmoor.
Lord Chancellor, Viscount Haldane.
Chancellor of the Exchequer, Philip Snowden.
Home Secretary, Arthur Henderson.
Colonial Secretary, James Henry Thomas.
War Secretary, Stephen Walsh.
Secretary for India, Lord Olivier.
Secretary for Air, Lord Thomson.
First Lord of the Admiralty, Viscount Chelmsford.
President of the Board of Trade, Sidney Webb.
Minister of Health, John Wheatley.
President of the Board of Education, Charles Trevelyan.
Minister of Labor, Tom Shaw.
Attorney General, Sir Patrick Hastings.
Minister of Agriculture, Noel Buxton.
Secretary for Scotland, William Adamson.
Postmaster General, Vernon Hartshorn.
Chancellor of the Duchy of Lancaster, Col. J. C. Wedgwood.
First Commissioner of Works, F. W. Jowett.

The British Ambassador to the United States is Sir Esme Howard, G. C. M. G., K. C. B., born Sept. 15, 1863, who succeeded Sir Auckland Geddes, March 5, 1924. The diplomatic affairs of the entire British Empire in the United States are cared for by the Embassy at Washington. The Irish Free State has accredited to Washington a Minister, Prof. Timothy A. Smiddy.

British Consuls General in the United States are, at New York, Sir H. Gloster Armstrong; at Boston, Edward Francis Gray; at Philadelphia, Frederick Watson; at Chicago, Herbert Arthur Richards; at New Orleans, Victor Henry St. John Huckin; at San Francisco, Gerald Campbell; at Manila, P. I., Thomas Joseph Harrington.

British Consuls are, at Los Angeles, Cal., Godfrey Arthur Fisher; Jacksonville, Fla., Walter Mucklow; Savannah, Ga., Wentworth Martyn Gurney; Honolulu, Hawaii, William Massy Royds; Portland, Me., John Bernard Keating; Baltimore, Md., Guy Basil Gilliat Smith; Detroit, Mich., John Alexander Cameron; St. Louis, Mo., Godfrey Edward Procter Hertslet Portland, Ore., John Elliot Bell; Pittsburgh, Pa., Charles Edward Eardley; San Juan, Porto Rico, Arthur Henry Noble; Galveston, Tex., Julius Basil Browne; Norfolk, Va., James Guthrie; Virgin Islands, Edward Goler Larkin; Seattle, Wash., Bernard Pelly.

There are Vice Consuls at Birmingham and Mobile, Ala.; Skagway, Alaska; San Diego, Cal.; Denver, Col.; Hartford, Conn.; Washington, D. C.; Key West, Miami, Pensacola, Tampa, Fla.; Brunswick and Darien, Ga.; Duluth, Minn.; Kansas City, Mo.; Omaha, Neb.; Buffalo, N. Y.; Wilmington, N. C.; Cleveland, O.; Astoria, Ore.; Cebu and Iloilo P. I.; Arecibo, Arroyo de Guayama, Humacao, Mayaguez and Ponce, Porto Rico; Providence, R. I.; Charleston, S. C.; El Paso, Laredo and Port Arthur, Tex.; Salt Lake City, Utah; Newport News and Richmond, Va.; Frederiksted, Virgin Islands, and Port Townsend and Tacoma, Wash.

The United States Ambassador to Great Britain is Frank B. Kellogg of St. Paul, Minn., former Senator from Minnesota, born Dec. 22, 1856, commissioned Dec. 11, 1923.

The United States Consuls General and Consuls will be found listed under the various subdivisions of the British Empire, which follow, according to their stations.

Parliament is the legislative governing body for the empire. It consists of two Houses; the House of Lords, made up of the peers of the United Kingdom, to wit: the Royal Dukes, the Archbishops, the Dukes, the Marquises, the Earls, the Viscounts, 36 Bishops, and the Barons; also 28 Irish peers elected for life, and 16 Scottish peers elected for the duration of Parliament. The full membership of the House of Lords consists of about 740 members. There are about 30 women who are peeresses in their own right, but their status as sitting and voting members of the House, though claimed by some, is still unsettled. The House of Lords has a limited veto power only in legislation. A peer of the United Kingdom is ineligible to a seat in the House of Commons, but a non-representative Irish peer may be elected.

The House of Commons, elected Oct. 29, 1924, and which met in November, 1924, numbers 615 members elected by direct baliot in the several constituencies for the duration of Parliament. Of this House England has 492 members; Wales, 36; Scotland, 74; and Northern Ireland, 13. Clergymen of the Church of England, ministers of the Church of Scotland and Roman Catholic clergymen are disqualified from sitting as members, also certain Government officers, Sheriffs, and Government contractors. Members of the House of Commons are paid, since 1911, £400 a year. The franchise was extended to women by the Act of 1918. There are certain qualifications. The total number of persons qualified for registration in 1920 was estimated at 21,776,000, of which 8,856,000 are women.

The standing of parties in the House of Commons in the last three elections is as follows:

	Oct. 1924.	Dec. 1923.	Nov. 1922.
Conservatives	412	257	347
Laborites	152	192	142
Liberals	42	158	118
Independents	6	8	8
Constitutionalists	3	...	...

In the election of Oct. 29, 1924, the Conservatives polled in round numbers 8,000,000 (an increase of 800,000); the Laborites, 5,550,000 (an increase of 1,000,000), and the Liberals, 3,000,000 (a loss of 7,000,000). The Conservatives have won a seat for every 20,000 votes, the Laborites 1 for every 36,000, and the Liberals, 1 for every 76,000. Three women were re-elected, all Conservatives: Lady Astor, the Duchess of Atholl, and Mrs. Hilton Philipson, and one new woman member, Miss E. Wilkinson, Laborite. 41 women were candidates.

The political progress of the Labor Party is sum-

marized in this table for the last eight general elections.

General Election.	Seats Contested.	Members Returned.	Labor Vote.
1900	15	2	62,898
1906	50	29	323,195
1910 (Jan.)	78	40	505,690
1910 (Dec.)	56	42	370,802
1918	361	57	2,244,945
1922	414	142	4,236,733
1923	427	192	4,348,379
1924	500	142	5,550,000

The Independent Labor Party was founded under the chairmanship of J. Keir Hardie, at Bradford, in 1893. At the general election of 1895, 28 candidates contested seats and all were unsuccessful. In 1900, when two members were elected, the membership of the party numbered 375,931, affiliated trade unionists and socialists, the latter numbering 22,861. Three other members were returned to this Parliament in bye-elections. The name Labor Party was taken after the election in 1906.

More than 80 per cent. of the electorate went to the polls in 1924. A general election costs candidates about $5,000,000.

The British Empire has seven members of the League of Nations. To wit: United Kingdom, Commonwealth of Australia, Dominion of Canada, India, New Zealand, the Union of South Africa, and the Irish Free State.

1920	1,932,648,881	1,334,469,269	222,753,331	1,557,222,600	3,489,871,481
1921	1,085,500,061	703,399,542	106,919,306	810,318,848	1,895,818,909
1922	1,003,098,899	719,507,410	103,694,670	823,202,080	1,826,300,979
1923	1,098,015,585	767,328,656	118,572,694	885,901,350	1,983,916,935

In the calendar year 1923 customs duties on imports totalled £132,512,263, of which £58,680,384 were from unmanufactured tobacco, £34,848,231 from sugar, £11,036,429 from tea, £8,404,756 from spirits, and the rest from cocoa, sugar derivatives, wine, coffee, automobiles, matches, etc. The figures, however, are subject to correction and exclude, as from April 1, 1923, those relating to the Irish Free State.

From April 1, 1923, the particulars include the trade of Great Britain and Northern Ireland with the Irish Free State. From the same date the direct foreign trade of the Irish Free State has been excluded.

TONNAGE AT BRITAIN'S HOME PORTS.

The tonnage of the British and foreign vessels in foreign trade that entered and cleared with cargoes at the ports of the United Kingdom during ten years was:

Year.	Entered with Cargoes.			Cleared with Cargoes.		
	British.	Foreign.	Total.	British.	Foreign.	Total.
	Tons.	*Tons.*	*Tons.*	*Tons.*	*Tons.*	*Tons.*
1913	32,292,343	16,771,890	49,064,233	40,101,232	27,718,469	67,819,701
1914	28,928,893	14,131,890	43,060,783	32,515,814	23,452,755	55,968,569
1915	22,861,738	10,862,166	33,723,904	20,380,530	19,148,832	39,529,362
1916	20,217,334	9,842,214	30,059,548	17,751,953	17,843,941	35,595,894
1917	18,795,045	4,433,501	23,228,546	16,926,662	9,149,162	26,075,824
1918	19,819,519	3,414,145	23,233,664	14,965,692	7,771,639	22,737,331
1919	22,064,874	7,491,078	29,555,952	21,962,895	12,599,212	34,562,107
1920	25,506,999	10,986,320	36,493,319	23,532,459	13,193,076	36,725,535
1921	25,123,899	11,999,435	37,123,334	24,282,304	12,115,137	36,397,441
1922	28,473,881	14,920,714	43,394,595	36,817,495	22,864,635	59,682,130
1923	33,079,445	18,012,594	51,092,039	42,139,130	28,551,848	70,690,978

United States ships with cargoes entering British ports totalled 486,897 tons in 1918, 1,625,498 tons in 1919, 2,366,123 tons in 1920, 2,750,739 tons in 1921, 2,915,639 tons in 1922, and 2,871,137 tons in 1923.

As from April 1, 1923, trade between Great Britain and Northern Ireland on the one hand, and ports in the Irish Free State on the other hand, has been regarded as *foreign* trade. From the same date the trade of ports in the Irish Free State with ports outside Great Britain and Ireland ceased to be recorded in the navigation returns of the United Kingdom.

POPULATION OF THE BRITISH ISLES.

Census Year.	England and Wales.	Scotland.	Ireland.	Total for United Kingdom.		
				Males.	Females.	Total.
1801	8,892,536	1,608,420	.....	.....	.....	.....
1811	10,164,256	1,805,864	.....	.....	.....	.....

1921	37,885,242	4,882,288	No census.	*20,430,623	*22,336,907	*42,767,530

Of the Jan. 19, 1921 (census), population of England and Wales there were 18,082,220 males and 19,803,022 females. In Scotland there were 2,348,403 males and 2,533,885 females. England (1921) 35,678,530; Wales (1921) 2,206,712.

The estimate of the Registrar General for England and Wales for 1922 is 38,158,000; for Scotland for 1922 is 4,907,900, and for 1923, 4,915,500.

*The 1921 figures for males and females and total (last 3 columns), exclude Ireland.

The census of Ireland in 1821 is the first which was made on such a basis as to afford a comparison with those of subsequent decades.

Since 1831 the total included army, navy and merchant service at home.

POPULATION OF CITIES OF OVER 100,000 IN ENGLAND AND WALES.

Cities.	Population, Census of 1921.	Cities.	Population, Census of 1921.	Cities.	Population, Census of 1921

Belgium	9,000,000
Armenia	865,000
Other	962,000
	£30,463,000
Grand total	£2,162,881,000

THE UNITED KINGDOM

AREA, 95,041 square miles: England, 50,874; Wales, 7,466; Scotland, 30,405; Northern Ireland, 5,263; Isle of Man, 227; Channel Islands, 75.

POPULATION, census of 1921, 44,147,601: England, 35,678,530; Wales, 2,206,712; Scotland, 4,882,288; Northern Ireland (1911), 1,230,219; Isle of Man, 60,238; Channel Islands, 89,614.

United States Consul General, at London, Horace Lee Washington. *Consuls*, at Belfast, Henry P. Starrett; at Birmingham, John F. Jewell; at Bradford, Frank C. Lee; at Bristol, Samuel R. Thompson; at Cardiff, James E. Parks (V. C.); at Dundee, Maxwell K. Moorhead; at Dunfermline, Howard D. Van Sant; at Edinburgh, Wilbert L. Bonney; at Glasgow, George E. Chamberlin; at Hull, Albert W. Scott (V. C.); at Leeds, John Skelton Williams jr. (V. C.); at Liverpool, Leo J. Keena; at Manchester, Ross E. Holaday; at Nottingham, Samuel T. Lee; at Plymouth, Ralph C. Busser; at Sheffield, William J. Grace; at Southampton, John M. Savage; at Stoke-on-Trent, Renwick S. McNiece; at Swansea, Arthur B. Cooke.

The United Kingdom, or British Isles, lie off the northwest corner of Europe, with the North Atlantic Ocean on the north and west, the North Sea on the east and the English Channel separating it from the mainland on the south. The Straits of Dover, 18 miles wide, divide it from France. The northern end of Scotland lies due west from the southern end of Norway.

The climate of the British Isles is equable, mild and somewhat warmer than that of the continent opposite, because of the Gulf Stream modifying the temperature of the Isles, which is mean at 49 degrees. Rainfall is abundant, averaging 34 inches annually, but is seldom heavy at a given time, so that the precipitation covers longer periods, and often fogs prevail in many parts, "London Fog," holding much soot in suspension, being peculiarly dense at times.

The coastline is tortuous, giving very many harbors for shipping, and numerous rivers up which deep sea craft may go. The northern ends are more rugged than the southern. Peculiar geological features are the chalk formation along the English Channel, the chalk stratum running under the waters of the channel into France; and the same "hardpan" sub-stratum recurring as in many parts of France, which prevents the super-imposition of modern "skyscrapers" such as geologically are permitted in American cities, where usually rock strata afford a firm foundation.

The soil is of varied natural fertility. It is more sterile in the north, notwithstanding the figures show that the Scotch have attained a relatively high per acre production by intensive cultivation. But centuries of tillage have rendered necessary the elaborate and large use of artificial fertilizers. The coastlines are generally of bluff formation.

The prevalent precipitation of moisture, together with the mild climate, has induced profuse growth of vegetation of all sorts. The Isles were naturally covered with forests, which have been largely cut off to accommodate so large a population on so small an area, a total less than the American State of New Mexico, and only about twice that of all New England.

AGRICULTURE A GREAT INDUSTRY.

Crop yields in Great Britain (England, Wales and Scotland) for the last three years, as compared with the pre-war year were:

Crop.	1923.	1922.	1921.	1913.
	(*In Thousands of Short Tons.*)			
Wheat	1,714	1,915	2,170	1,662
Barley	1,368	1,393	1,452	1,739
Oats	3,374	3,384	3,558	3,331
Beans	201	205	191	226
Peas	72	63	75	102
Potatoes	3,577	5,203	3,998	3,866
Turnips	17,389	17,788	13,740	20,124
Mangold	6,981	8,595	6,287	7,647
Hay	8,583	6,691	6.125	9,999

The yield of wheat to the acre in Great Britain, in 1923, was 31.8 bushels; the wheat acreage was 1,799,000. The acreage of all corn crops—wheat, barley, oats, rye, beans and peas—in Great Britain in 1923 was 6,808,884; of all green crops—potatoes, turnips and swedes, mangold, cabbage, kohlrabi, rape and vetches—was 2,794,017, of hops, 24,900, of small fruits, 70,635; of fallow land, 443,000; of clover and grass, 4,108,844; and of pasture, 16,188,000. The rough grazing land was about 14,510,000 acres (two-thirds of which was in Scotland), and the woods and plantations, 2,737,000; this out of a total acreage of 56,392,000 acres of land.

Land actually under the plough decreased by about 308,000 acres in 1922 from the previous year, and there was further decrease of 129,378 acres in 1923. The average price for farm products in 1922 was 24 per cent. below that of 1921. Farm wages were about 150 to 160 per cent. of pre-war figures, while cost of supplies and materials averaged even higher than that. There were 869,000 agricultural workers in 1921 and 772,000 in 1923.

The number of farm animals in Great Britain in 1922 was: Horses, 1,308,000; cattle, 6,869,000; sheep, 20,122,000; and swine, 2,450,000.

The aggregate number of small holdings in England and Wales in 1922 was: Above one and not exceeding five acres, 79,364; above five and not exceeding 20 acres, 114,001; above 20 and not exceeding 50 acres, 80,165; total, 273,530. Under the Land Settlement Scheme, between December, 1918, and July 31, 1922, 17,511 applicants were provided with small holdings aggregating 247,000 acres. The number of holdings from one to five acres in Scotland was 17,202; and from five to 50 acres, 33,076; total, 50,278; grand total for Great Britain, 323,808.

Of the imports in 1923, 47% were of food, drink and tobacco, as against 40% in the last pre-war year, 1913; 30% were of raw materials, as against 35% in 1913; and 23% were of manufactured articles, as against 26% in 1913. The value of these imports for the years 1923, 1922 and 1913 was:

Imports.	1913. £.	1922. £.	1923. £.
Foods, etc.	295,149,630	471,881,370	510,532,556

Total	525,253,595	719,507,410	767,328,656
Re-Exports			
Foods, etc.	16,256,082	21,757,353	24,543,604
Raw mat'ls	63,699,566	55,063,197	66,773,626
Mfd. articles	29,504,972	26,821,234	27,171,075
Animals not for food	106,111	52,886	84,389
Total	109,566,731	103,694,670	118,572,694

Trade activity in 1923 showed an increase of 7 per cent. over the level of 1922, which was 20 per cent. above 1921. Imports increased 9½ per cent. (£94,927,637) over 1922, and exports, 6 per cent. (£47,821,057), and re-exports, 12 per cent. (£14,878,292). To the imports should be added £6,200,000 to cover the value of diamonds from South Africa not included in the official record. The result is an approximate adverse balance of £203,000,000, as contrasted with £170,000,000 in 1922, £343,000,000 in 1920 and £158,000,000 in 1913. It must be remembered that the trade between the Irish Free State and Great Britain (imports £32,737,702, and exports £24,674,046 for nine months) has been included in the figures of overseas trade since April 1, 1923. The so-called invisible items are estimated by the *Board of Trade Journal* to be: Net income from overseas investment, £150,000,000; net income from shipping, £110,000,000; commissions, £30,000,000; other services, £10,000,000; total, £300,000,000. Deducting the excess import charge from this leaves a surplus income of £97,000,000 as compared with £155,000,000 in 1922, and £252,000,000 in 1920, and £181,000,000 in 1913.

In 1923 foreign countries took 62.1 per cent. of the British products and the outlying parts of the empire, 37.9 per cent. Imports of meats in 1923 were 54 per cent. greater than the annual average of the five pre-war years, 1909 to 1913, and over 16 per cent. greater than in 1922. The fact that British soldiers were placed upon a heavy meat diet during the war and so acquired an increased taste for meat products is believed to be the principal cause of the larger present consumption.

Great Britain's wheat crop provides for only 20 per cent. of local needs; approximately 188 million bushels of wheat were imported in 1923, of which 60 million bushels were from the United States (a decrease of 10 million from 1922) and 115 million from Canada, Argentina and India, (an increase of 35 millions). Of the 6,450,000 bushels of flour imported in 1923, 2,187,000 were from the United States, a decrease of 100 per cent. from 1913; and 3,185,000 were from Canada, an increase of 30 per cent. from 1913.

The raw materials importations cover the needs of the extensive manufacturing industries of the Isles, developed very highly in England, parts of Scotland and in the north of Ireland, centring in Belfast—textile mills, steel and iron mills, wood working mills, chemical factories, earthenware works, cutlery, hardware, electrical goods, leather, and all important modern industrial products, which go to the ends of the earth, output by industrial leaders and mechanics acknowledged as efficient parts of a remarkably complete industrial development.

The prevailing policy of the British Empire for the greater part of the last century has been not to impose trade barriers on entrance of goods into the British Isles or the outlying holdings of the empire. This free trade policy has been modified by certain attached countries, which at times have even imposed import duties on goods from the mother country. And since the World War, under the dislocation of world industry and commerce and the unsettlement of the fiscal affairs of the Allies and their enemy countries, certain preferential arrangements have been made, and some barriers have been erected.

MANUFACTURING AND TRADE.

Great Britain's strength, however, is largely in manufacturing, mining and trade. Coal, cotton textiles, woolen and worsted tissues, iron and steel, machinery and vehicles (including locomotives and shipping) are the key industries supplying the bulk of the exports. The figures for the exports of these groups for 1922 and 1923 were:

Exports.	1922.	1923.
Coal	£72,529,500	£99,835,646
Cotton goods	186,882,805	177,330,268
Woolen goods	58,487,559	62,643,661
Other textiles	47,227,540	52,167,843
Iron and steel	60,958,557	76,201,990
Cutlery, machin'y, &c.	65,461,820	62,150,392
Vehicles (incl. ships)	49,953,074	27,780,256

Raw cotton imports for 1923 amounted to 3,231,464 bales of 400 pounds, of which 1,872,757 came from the United States.

The new Empire Cotton Growing Corporation in 1922 was successful in getting the contract let for the Gezira Irrigation Dam in the Soudan, whereby an increase of 100,000 bales in the cotton supply is expected in 1925. The financing of the Kassala railway project, which is part of the programme, was made possible by the assistance of the Trade Facilities Committee of the British Government, which guaranteed a loan of £1,500,000. The British Cotton Growing Association (Manchester) marketed 165,000 bales of its own cotton in 1922, and expected to sell in 1923 225,000 bales grown largely in Uganda, the Soudan and Nigeria.

India is still far and away Great Britain's best customer for cotton goods, with China second, Australia third, Egypt fourth and Switzerland fifth, in 1923. Canada, Japan, the United States, Australia and China, in that order, were her best customers for woolen goods.

Great Britain ranked second to the United States in the world's production of pig iron and of steel ingots and castings in 1923, replacing Germany, which had that rank in 1922. The production of pig iron in 1923 was 7,360,000 tons, and in 1922, 4,902,000 tons, and in 1923, 8,480,000 tons of steel ingots and castings, and in 1922, 5,881,000 tons.

The imports of iron ore in 1923 were 5,871,006 tons, and in 1922, 3,472,645 tons, and of manganese ore in 1923 were 502,975 tons, and in 1922, 337,312 tons. Exports of iron and steel manufactures in 1923, was 4,319,571 tons, valued at £76,202,000, and in 1922, 3,397,185 tons, valued at £60,862,000.

There were 222 blast furnaces and 316 open hearth furnaces in operation on June 30, 1923.

COAL AND SHIPBUILDING.

Coal mining, after a disastrous year, marked by a three months' strike in 1921, showed an improvement in 1922 and 1923, as seen by these figures:

Year.	Production. *Tons.*	Exported. *Tons.*	Value of Exports.
1920	229,532,000	24,931,853	£99,627,146
1921	163,500,000	24,660,552	42,951,591
1922	252,000,000	64,198,384	72,529,500
1923	278,501,000	79,450,000	99,835,646

The average weekly output reached in Jan.-Feb., 1924, was 5,432,525 tons, greater than the average in 1913. More men (1,200,000) were employed, the output per man remaining stationary.

Shipbuilders found 1922 a disastrous year, with a serious problem in the unemployment of workers. The total number of insured workers in the industry was 358,640. At no time was there less than 30 per cent. idle, the number reaching 40 per cent. by Dec. 31. Strikes and other factors made 1923 one of acute depression, with launchings of only 361,327 tons or 35 per cent. less than in 1922. Of the vessels under construction 55 were steel motor vessels of 323,641 tons, double the number of the year before.

The shipbuilding figures for 1918-23 are:

Year.	United Kingdom. *Gross Tons.*	World Total. *Gross Tons.*
1918	1,800,000	5,447,400
1919	1,741,800	7,144,500
1920	2,031,200	5,861,600
1921	1,538,000	4,341,700
1922	1,043,590	2,983,635
1923	682,263	2,053,959

The volume of Great Britain's re-exports should be noted because of her position as a vast clearing house through which the products of her dominions and colonies (rubber from the East Indies and Malaya, wood from Australia and New Zealand, wheat from Canada and Australia, cotton from Africa and India, gold from Africa) reach the world at large. In value this trade for the last four years was: In 1920, £222,919,303; in 1921, £106,919,306; in 1922, £103,777,871; in 1923, £118,572,694.

RAILWAY CONSOLIDATION.

The railways which had been taken over by the Government during the war were returned to their owners under the Decontrol Act in August, 1921. The Railways Act of 1921 provided for a consolidation of the existing 120 systems into four large geographical systems, to secure uniformity, efficiency and economy of operating conditions. These four groups are:

The Southern Railway Company (Group I), consisting of the London & South Western, the London, Brighton & South Coast, the South Eastern, the London, Chatham & Dover, and the South Eastern & Chatham, as the five amalgamated "constituent" companies that have absorbed fourteen smaller "subsidiary" lines, in total a main-line trackage of 2,200 miles and an approximate capital of £145,000,000;

The Great Western Railway Company (Group II), comprising the Great Western, the Alexandra Docks and Railways, Barry, Cambrian, Cardiff, Rhymney and Taff Vale constituents, which have absorbed 28 subsidiary lines, a total main-line trackage of 3,800 miles and an approximate capitalization of £150,000,000;

The London, Midland & Scottish Railway Company (Group III), composed of the London & North Western, Midland, Lancashire & Yorkshire, North Staffordshire, Furness, Caledonian, Glasgow & South Western, and Highland constituents amalgamated and absorbing twenty-seven smaller companies, with a total trackage of 7,790 miles and an approximate capitalization of £240,000,000; and

The London & North Eastern Railway Company (Group IV), made up of the North Eastern, Great Central, Great Eastern, Great Northern, Hull & Barnsley, North British, and Great Northern of Scotland, seven constituents amalgamated and absorbing twenty-six other subsidiary roads, this group totaling about 6,590 miles of main track, capitalized at approximately £348,000,000.

Grand total of mileage is 20,380 miles; and of capitalization approximately £883,000,000.

The first and last groups were in operation from Jan. 1, 1923. Consolidation was completed on Oct. 1, 1923. The rolling stock of all lines is in process of modernizing and standardization; larger and more powerful locomotives built, also larger freight cars. New non-stop, long distance runs have been introduced and long runs speeded up. There was but one railway accident involving loss of life in 1923—two passengers being killed.

For the four groups an entirely new issue of corporate securities supersedes the numerous previous individual issues; instead of some two hundred separate railway stocks on the market, the Stock Exchange now deals in less than forty. In place of some 1,350 railway directors, requiring the expenditure annually of some £200,000 in fees, there are now 102 positions only (21 in the Southern Group, 25 in the Western, 28 in the London-Midland, and 28 in the North Eastern for the present).

The act further provided for a periodical revision of traffic charges through the Railway Rates Tribunal, a permanent board of three "experienced" men, the chairman, a lawyer, one in commercial affairs and the other in the railway business, appointed for seven years. This court has already reclassified merchandise into twenty-one groups. Substantial reductions in freight rates were made in 1922 and passenger rates were cut to first-class 2½d. per mile, and third-class 1½d. per mile, making a uniform basis of 50 per cent. over the pre-war rates. The act stipulates that charges shall be levied sufficient to provide annual net standard and revenue equivalents to the net revenue of 1913, allowance being made for additional capital outlay. In this way the rate fixing powers of the Tribunal are legally limited. If a surplus develops, 20 per cent. goes to the companies and 80 per cent. must be applied under supervision of the Tribunal to betterments or reduced rates.

The third major provision of the act aims to give easy and final decision to railway labor matters by a definite procedure from local through to national wages boards. There are about 75,000 railway employees. The National Union of Railwaymen and the Transport and General Workers Union decided at a joint meeting on Aug. 18, 1923, to make common cause against the employment of non-unionists.

The British Isles have many canals—total mileage 4,673, of which 3,641 are in England and Wales, 184 in Scotland, and 848 in Ireland.

In 1921 tonnage originating on the principal canals of the United Kingdom totaled 11,893,000 tons.

In harbor development, the United Kingdom has made broad strides. The improvement of the banks of the Thames River, which flows through London, has been extensive.

Tidal gates for the Liverpool docks and piers are not duplicated. They enable the accommodation of deep draught craft regardless of the stages of the tides. A ship canal makes Manchester the third seaport of the Kingdom. Constructed in 1887-94, at a cost of £17,000,000, it accommodates steamers up to 12,850 tons.

BRITISH WAR STOCKS LIQUIDATED.

The British Disposal and Liquidation Commission in charge of the disposal of surplus war supplies and equipment finished its work March 31, 1924, after five years during which more than 3,000,000 transactions involved sales that exceeded $3,000,000,000. In addition nearly 1,000,000 tons of ammunition were broken down, 170,000 tons of poison gas and explosives were burned or sunk at sea, and 22,000 tons of unsalable cardite were burned in Government magazines.

The sales were productive of a profit. Receipts of £335,000,000 from the sale of raw materials, including wool, flax, hemp, jute, and leather, gave a profit of nearly £78,000,000, which was divided between the home Government and certain dominions. Other sales included the following:

Real estate and factories	£13,000,000
Rolling stock and industrial plant	24,000,000
Mechanical transport, road plant	17,500,000
Small craft	2,600,000
Metals	70,000,000
Huts, buildings, furniture, timber, etc.	14,500,000
Horses and other animals	21,000,000
Textiles	32,250,000
Medical stores, food stocks	8,200,000
Aircraft and material	7,200,000

Claims numbering 750,000 were adjusted.

UNEMPLOYMENT.

Unemployment has presented a serious problem. The amount paid out for unemployment benefits from the Armistice to June 30, 1923, was £130,000,000, plus £62,000,000 donations to ex-service men paid out previous to the date when the benefit scheme was made to include all classes of unemployed. Among the 11,750,000 work people insured against unemployment in Great Britain and Northern Ireland, the proportion registered as unemployed was 16.1 per cent. on Jan. 1, 1922, and 12.2 per cent. on Jan. 1, 1923, when the total applicants for employment on the Government registers was 1,542,000, of which 1,199,000 were men, 255,000 women, and 88,000 boys and girls. On Jan. 10, 1922, the corresponding figures were 1,882,000, 1,440,000, 332,000 and 110,000.

Considerable improvement was shown in 1923. The number decreased steadily during the first half year and the year closed with the lowest figure (1,174,000 on Dec. 17) recorded since 1921. The number fell to 1,013,500 on June 23, 1924, but rose to 1,180,000 on Sept. 22. The highest point was reached on June 24, 1921, 2,044,639, of which 1,459,639 were men. Wages which had shown an excess and decrease during the first half of 1913 showed a marked advance in the first half of 1924.

The Unemployment Insurance Act (1920) was again amended in 1923 and became operative April 12. It is administered by the Board of Trade. The amendments prolong benefit periods and in addition provide that benefit years shall be fixed to run from Oct. 15 to Oct. 15. In the year October, 1923-October, 1924, benefits will be paid for twenty-six weeks and, if necessary, irrespective of contributions; for subsequent benefit years the period of benefits is limited to 26 weeks, payable only if contributions are made.

The rates of contribution from employers, employed, and the state at the present time and the rates set out in the first schedule of the bill are as follows:

	Present Rates.		Maximum Rates in New Bill.	
	Men.	Women.	Men.	Women.
—	*Pence.*	*Pence.*	*Pence.*	*Pence.*
Employers	10	8	6	5
Workers	9	7	6	4
State	6¾	5¼	3	2¼
Total	25¾	20¼	15	11¼

The weekly rates for boys and girls are approximately half those for men and women respectively.

The state contributes one-fourth of the joint contribution of employers and employed, instead of one-third, as before. It is estimated that the state's share will be about £6,000,000 ($29,199,000 par) annually, as compared with £12,500,000 ($60,831,250 par) heretofore. The amount of benefit payable from April 19, 1923, to October, 1924, under the provisions of the bill is estimated at £62,500,000, assuming that the number of persons unemployed (including an allowance for short-time workers) may be, on the average, 1,250,000. It is estimated that on this basis the deficiency on the unemployment fund, which will be approximately £18,500,000 on April 19, 1923, will increase to the following figures: October, 1923, £20,000,000; April, 1924, £22,500,000; October, 1924, £20,700,000. The maximum borrowing power, as fixed by the Act of 1922, is £30,000,000.

COST OF UNEMPLOYMENT DOLES.

The Minister of Labor, Sir M. Barlow, informed Parliament in July, 1923, that from Jan. 1, 1919, to June 2, 1923, the total contributions under the Unemployment Insurance Acts were:

Employers of insured persons	£42,700,000
Insured persons	36,700,000
Exchequer	25,800,000

In addition, the Exchequer had, up to June 2, 1923, made advances to the unemployment fund on loan at interest to a net amount of £15,630,000. With regard to the amount expended on relief works, the Ministry of Transport on road works, from the winter of 1920 to date, have approved schemes costing approximately £23,600,000, to which the Government and local authorities have made, roughly, equal contributions. The Unemployment Grants Committee, including schemes for 60 per cent. of the wages bill and loan schemes, have approved schemes costing in all about £43,000,000. The provisional estimate of the Government's contribution was £14,300,000 and the local authorities' contribution, £28,700,000.

Schemes under the Ministry of Agriculture costing £670,000 have been approved, of which about £177,750 will be repaid by the drainage authorities or landowners concerned, the balance of £492,250 representing the net Government contributions

Similar schemes under the Scottish Board of Agriculture amount to approximately £100,000. The Forestry Commission had spent £200,000 by direct contributions.

As regards light railways, schemes costing £325,000 had been approved, toward which the Government is providing half the capital, while local authorities are also making substantial contributions. The total amount of credit sanctioned to May 28 under the Export Credits Scheme was £26,701,914. The total amount actually in use is £15,353,364. The total amount of guarantees under the Trade Facilities Act, which the Treasury has stated its willingness to give, is £26,019,645. Considerable work has also been accelerated on contracts for Government departments with a view to providing employment.

Estimated rates collected for local assistance, 1923-1924, in England and Wales, £144,000,000; in Scotland, £17,591,000. Of this there was spent in England and Wales for relief of the poor, £3,900,000; in Scotland, £358,000; for education in England and Wales, £30,300,000; in Scotland, £4,463,000 on police in England and Wales, £8,700,000; in Scotland, £903,000.

OLD AGE PENSIONS.

Every British subject and resident of the United Kingdom over 70 years of age, under certain qualifications, whose yearly means do not exceed £50 (broadly speaking $250) is entitled to a pension. The weekly amount is 10 shillings if the pensioner's yearly means do not exceed £26 5s.; above that sum the pension decreases by 2s. for every £5 5s. until at £47 5s. it becomes 1s. a week. On March 25, 1921, there were 1,002.342 pensions payable in the United Kingdom (353,794 to men, 648,548 to women). Total amount paid out in 1920-21 was £25,997,000. The budget estimate for 1923-24 was £23,200,000, and for 1924-25, £24,201.000.

The estimated cost of war pensions and allowances in 1923-24 was £73,655,000, and in 1924-25, £66,948,000.

Compulsory insurance against loss of health and for the prevention and cure of sickness is provided under the National Insurance Acts (1911-1921) under the Ministry of Health. Estimated number insured July, 1920, 15.850,000, of which 10,850,000 were men and 5,000,000 women. The average payments for nine years (1913-21) in England and Wales for sickness benefit was: Men, £3,368,620; women, £1,548,933; for disablement benefit: Men, £840,100; for women, £447,710. Average annual time lost: Men, 9,163,913 weeks; women, 5.212,461 weeks; total, 14,476,000 weeks (or 27,000 years).

British subjects emigrating to British countries from the United Kingdom in 1921 were 130,000; in 1922, 113,000; to foreign countries, in 1921, 43,000; in 1922, 40,000; excess of emigrants over immigrants in 1921, 106.000; in 1922, 90,000. Under the British Government's overseas settlement plan, which was in operation from April, 1919, to Dec. 21, 1922, 82,196 British ex-service men and women with their children (37,199 men, 21,672 women and 23,325 children) were given free passage to overseas dominions; 34,763 chose Australia; 26,560 Canada; 12,890 New Zealand, and 5,894 South Africa.

The number of births registered in 1923 was 758,131; in 1922, 780,124. The birth rate was 20.4 per thousand.

Deaths in 1923 numbered 444,768; in 1922, 486,780, and in 1921, 465,629. The death rate in 1923 was 11.6 per 1,000, the lowest in recorded history. Infant mortality was the lowest, 69 per thousand births, representing a saving to the nation of 45,000 babies. Cases of infectious diseases during epidemics numbered 344,000, a decrease of 78,000, another record.

The expectation of life at birth in Great Britain is now 11 years greater for males and 13 years greater for females than it was sixty years ago.

Marriages registered in 1922 numbered 299,360; in 1921, 322,852; in 1920, 379,982. Suits for divorce in 1923 numbered 2,468.

The authorized strength of the police force in England and Wales in September, 1923, was 56,845, including 19,235 Metropolitan Police.

ARMY, NAVY AND AIR FORCE.

The regular army numbered, March 31, 1923, 10,197 officers and 144,034 men; total 154,231 (total strength of the cavalry arm, 7,532 of all ranks; of Royal artillery, 25,072; of infantry, 76,608). British garrison in India, 71,357; total strength for empire, 225,588. The strength of the territorials in the United Kingdom, December, 1923, was 180,213.

The budget estimate for the army in 1923-24 was £52,000,000; and in 1924-25, £45,000,000.

The navy, as adjusted to the Washington Conference Treaty, is shown in the following summary:

Class.	Completed by the End of 1921.	1922.	1924.
Dreadnoughts	39	29	22
Light cruisers (incl. seven seaplane carriers)	80	71	60
Destroyers	190	205	207
First-class torpedo boats.	?	47	.....
Submarines	98	89	66

The personnel, Jan. 1, 1914, numbered 144,871; the estimates for 1923-24 provide for 100,500. Officers were reduced to 8,497 in 1922, and will be brought below 8,000.

The budget estimate for the navy in 1923-24 was £58,000,000; and in 1924-25, £55,800,000.

The keels of two new battleships, the Nelson and the Rodney, of 35,000 tons each, with 16-inch guns, to cost £12,500,000, allowed under the Washington Naval Treaty, were laid down in December, 1922. When finished, four old battleships, the Thunderer, King George, Ajax and Centurion, of an aggregate of 91,500 tons, will be scrapped. The Admiralty announced March 8, 1923, that practically all the capital ships to be scrapped under the treaty had been sold or broken up. (See THE WORLD ALMANAC for 1923 for the treaty and the lists.)

The House of Commons, on May 1, 1923, by a vote of 253 to 94, approved the Government's plan to establish a great naval base at Singapore at a cost of £11,000,000. The Labor Government, however, decided to abandon the plan.

The Royal Air Force was created in April, 1918, by the amalgamation of the army and navy wings. At the close of the war, November, 1918, it was composed of 30.122 officers, 263,410 airmen, and 3,300 service airplanes. On March 15, 1924, it was composed of 3,500 officers, 31,500 airmen and 460 first-line airplanes (exclusive of reserve and training machines). The French had in November, 1918, 3,600 service machines and on March 15, 1923, 1,260, three-fourths of which were in France. The French program provides for 2,180 service planes in 1925, and the English home defense fleet is to number 624. Two-thirds of the British planes were overseas; 18 squadrons of the 39 (of 12 planes each) were in Egypt, the Iraq and Palestine, and six in India. Five squadrons were allocated to naval work and one to the army. Of the five service squadrons for home defense, one was a fighter and four were bombers. In France were 32 fighting squadrons and 32 bombers.

The budget estimates for the air forces were: 1923-24, £12,011,000; and in 1924-25. £14,511,000.

The most celebrated of British universities are Oxford and Cambridge, each with colleges founded in the thirteenth century, and inextricably intertwined in the fabric of British history. But there are many others in England, London, Durham, Manchester, Birmingham, Liverpool, Leeds, Sheffield, and Bristol; in Scotland, St. Andrews, Edinburgh, Glasgow and Aberdeen; and one in Wales.

At these fifteen universities there were, in 1924, 4,045 professors and 42,120 resident students.

The trade with the United States as reported by the United States Department of Commerce for the last three years has been as follows:

England and Wales.		
Imports,	1920-21	$1,205,259,154
"	1921-22	771,180,530
"	1922-23	760.818.669
"	1923-24	842,130,765
Exports,	1920-21	271,726,066
"	1921-22	213,910,230
"	1922-23	373,442.716
"	1923-24	284,393,637
Scotland.		
Imports,	1920-21	$82,452,731
"	1921-22	47,055,736
"	1922-23	43.896,839
"	1923-24	39,484,734
Exports,	1920-21	29.789,051
"	1921-22	28.563,555
"	1922-23	36,562,844

NORTHERN IRELAND.
(Ulster)

AREA, 5,263 square miles.
POPULATION, census of 1911, 1,250,531. Estimated, 1922, 1,284,000.
CAPITAL, Belfast, population, estimated, 1922, 425,000.
Governor, The Duke of Abercorn (born, Nov. 30, 1869); appointed, Dec. 11, 1922.
Prime Minister, Sir James Craig, Bart.
Minister of Finance, H. M. Pollock.
Minister of Home Affairs, Sir Dawson Bates.
Minister of Education, Marquis of Londonderry.
Minister of Labor, J. M. Andrews.
Minister of Agriculture and Commerce, E. M. Archdale.
Speaker, Hon. Hugh O'Neill.
Secretary to Cabinet, Col. W. B. Spender.
Chairman of Senate, Marquis of Dufferin and Ava.
United States Consul, at Belfast, Henry P. Starrett.

Six of the nine counties of Ulster, the northeast corner of Ireland, constitute Northern Ireland, together with the parliamentary boroughs of Belfast and Londonderry; they are Antrim, Armagh, Down, Londonderry, Fermanagh and Tyrone. The last two returned two Nationalist-Sinn Fein Members of Parliament at the November, 1922, election on a pro-Free State platform by a majority of about 7,000. The elected members did not take their seats in the Imperial Parliament, nor have the nine elected Nationalist members to the Northern Irish Parliament (which is wholly Unionist without them) taken theirs. In area it is a little larger than Connecticut.

A separate parliamentary and executive government for Northern Ireland was established in 1920 and "contracted out" of the newly established Irish Free State in December, 1922. The Parliament consists of a Senate of 26, and House of Commons of 52, both elected with power to legislate in local matters except such as are of Imperial concern or specifically reserved to the Imperial Parliament. Northern Ireland returns 13 members to the House of Commons.

The bulk of the taxation is imposed and collected by the Imperial authorities, which makes certain deductions and remits the remainder to the local exchequer; the contribution to the Imperial exchequer being tentatively paid at £7,920,000 a year. The revenue in 1923-24 was £12,178,000; and expenditures, £7,361,000, leaving a balance of £4,817,000, of which £4,770,000 was paid to Imperial Government. The budget for 1924-25 was: Revenue, £11,032,000; and expenditures, £7,720,000.

Ulster in 1922 had 410,630 acres in corn crops; 168,567 acres producing 1,251,709 tons of potatoes; 55,383 acres in other green crops; 29,117 acres in flax producing 4,699 tons; 481,710 acres producing 782,557 tons of hay; and 10,379 acres producing fruit. There were 126,817 agricultural holdings.

Linen and shipbuilding are the chief industries, both controlled in Belfast. The linen factories have 1,000,000 spindles and 40,000 looms, employing 85,000 hands, and of the product, linens to the value of £11,595,161 were exported in 1922. The shipyards employ about 30,000 workers, with an output of 250,000 tons a year.

There are 765 miles of railways. In 1921, there entered the port of Belfast, 5,923 vessels of 2,614,784 tonnage.

The religious census in 1911 was: Roman Catholics, 430,161; Protestant Episcopalians, 327,076; Presbyterians, 395,039; and Methodists, 45,942; of other professions, 52,313.

IRISH FREE STATE.
(Saorstat Eireann.)

AREA, 26,592 square miles.
POPULATION, census of 1911, 3,139,688. Estimated population, June 30, 1922, 3,160,000.
CAPITAL, Dublin; population, census of 1911, 403,030; estimated population of the registration area, 1922, 427,000.
Governor General, Timothy M. Healy, K. C. Appointed, Dec. 6, 1922.
President of the Executive Council, William T. Cosgrave (Defense).
Minister of Home Affairs, Kevin O'Higgins.
Minister of Finance, Ernest Blythe.
Minister of Industry and Commerce, Joseph McGrath.
Minister of Education, Prof. John MacNeill.
Minister of External Affairs, Desmond Fitzgerald
Ministers outside the Cabinet: Minister of Local Government, James Burke.
Minister of Agriculture, P. J. Hogan.
Postmaster General, J. J. Walsh.
Minister of Fisheries, Finian Lynch.
Attorney General, John O'Byrne, Jr.
Speaker of Dail, Prof. Michael Hayes.
Chairman of the Senate, Lord Glenavy.
Secretary to Cabinet, Diarmuid O'Hagarty.
Minister to the United States, Prof. Timothy A. Smiddy.
United States Consuls, at Dublin, Charles M. Hathaway, Jr.; at Queenstown, John A. Gamon.

The Irish Free State took its place among the world's commonwealths on Dec. 6, 1922, by proclamation of King George, the swearing in of Timothy M. Healy as Governor General and the meeting of the permanent Parliament which succeeded the provisional regime. William T. Cosgrave was chosen President of the Executive Council and named the six Ministers and the thirty nominated Senators. The Union Jack was furled and the Irish tricolor, orange, green and white, raised over the Viceregal Lodge. It was the anniversary of the signing of the Anglo-Irish Treaty. The Constitution had been adopted by the Dail on Oct. 11, and enacted by the Imperial Parliament on Dec 4. The last British troops, 3,000 men, under the command of Gen. Sir Nevil Macready, handed over the barracks and posts to the Free State soldiers on Dec. 17 and sailed from Dublin for England amid scenes of the greatest good will. (The history of the events leading up to the establishment of the Irish Free State may be found in the World Almanac for 1923, pages 142-144.)

President Cosgrave dissolved the Dail Eireann on Aug. 9, and the electing of a new Dail took place on Aug. 27. With the franchise held by all men and women over twenty-one the electorate numbered 1,789,293 voters, whose ballots were cast on system of proportional representation with this result, announced Sept. 3:

PARTY.	Seats.	Votes Cast.
Government	65	415,143
Republican	44	286,161
Independents	15	94,291
Farmers	15	135,972
Labor	14	142,388
Total	153	1,073,955

At the head of a delegation, President Cosgrave went to Geneva, when, amid scenes of enthusiasm, on Sept. 10 the Irish Free State was admitted to membership in the League of Nations.

The Dail Eireann convened Sept. 19, and William T. Cosgrave was re-elected President of the Executive Council and named his old associates as the new Cabinet, relinquishing, however, the portfolio of Finance Minister, which he had held, to Ernest Blythe, formerly Minister of Local Government.

During 1924 most if not all of the political prisoners were freed.

Under Article XII., of the Anglo-Irish treaty, provision was made, in event of Northern Ireland "contracting out" of the Free State, which she did on Dec. 12, 1922, for the appointment of a commission "to determine, in accordance with the wishes of the inhabitants so far as may be compatible with economical and geographical conditions, the future boundaries between Northern Ireland and the rest of Ireland." Northern Ireland refused to appoint a member of the commission, and Parliament passed an act coincidentally with the Dail in October, 1924, to establish the commission without such action, which is to have Justice Richard Feetham of the South African Supreme Court as Chairman, and the Government named J. R. Fisher, Belfast editor and barrister, to represent Ulster.

The Irish Free State consists of the three Southern provinces: Leinster, Munster and Connaught, and three counties: Cavan, Donegal and Monaghan of Ulster. Two of the remaining six counties of Ulster, Fermanagh and Tyrone (population exceeding 200,000), have pro-Free State majorities as shown by the election for members of Parliament on Nov. 15, 1922, when the Nationalists and Sinn Fein candidates were elected over the two Conservatives by a majority of about 7,000. The Free State is about equal in size to the States of New Hampshire, Vermont and Massachusetts. No census has been taken since 1911, when the population of the Free State counties was 3,129,688; the population was estimated officially in 1922 as 3,160,000.

The census of 1911 returned 2,812,509 Roman Catholics; 249,535 Protestant Episcopalians; 45,486 Presbyterians; 16,440 Methodists; and 15,718 of other professions.

Trinity College, Dublin (founded 1591), had in 1922, 1,400 students, and the three constituent colleges of the National University of Ireland (founded 1909), at Dublin, Cork and Galway had 1,220, 570 and 220 students respectively.

Agriculture is the chief industry. In 1922 the production was: Wheat, 32,232 tons from 34,469 acres; oats, 573,248 tons from 813,970 acres; barley, 151,581 tons from 167,747 acres; rye, 3,965 tons

from 6,142 acres; potatoes, 2,179,532 tons from 400,982 acres; and hay, 3,843,361 tons from 2,062,094 acres. Farm animals numbered in 1922: Horses, 429,101; mules and asses, 247,267; cattle, 4,326,294; sheep, 3,067,473; swine, 919,449; goats, 192,295.

The number of small holdings in Ireland, excluding all Ulster, in 1918 were: Not exceeding 1 acre, 80,929; from 1 to 5 acres, 29,381; from 5 to 10 acres, 37,047; from 10 to 15 acres, 34,443; from 15 to 30 acres, 74,476; from 30 to 50 acres, 44,227; total, 300,503. Holdings of above 50 acres were 77,015, making the grand total of holdings, small and large, 377,518.

The Irish Free State Land Purchase Bill, put before the Dail, May 28, 1923, to enable the Government to acquire, compulsorily from landlords, lands for distribution to tenants and to present holders of uneconomic tracts in congested districts, affects about 70,000 tenants, and requires about $120,000,000 for the operation of its provisions.

The bill provides that rents accruing up to the first gale (rent) day of 1920 shall be remitted. Arrears since that date, however, shall be paid, subject to a discount of 25 per cent. One year's arrears become payable on the passage of the bill.

The passage of the bill will continue that process of land distribution which has been in progress since 1870. Between that year and the present about 400,000 tenants have become owners of their holdings. About 70,000 tenancies remain, and these will be converted into proprietorships by the new measure. In addition, the condition of members of the agricultural tenant class now in possession of unproductive holdings will be improved.

The breaking up of large grazing areas will probably result in a diminution in cattle production, and a corresponding increase in the production of tillage crops, poultry, and eggs. Such a change in agricultural methods will tend to decrease unemployment, to increase economic stability, to raise the standard of living, and to increase the purchasing power of the agricultural community as a whole.

The fiscal autonomy of the Irish Free State was completed on April 1, 1923. Then the collection of all duties from taxes was undertaken, a customs system was established, and taxes separate and distinct from those imposed by the British Government were levied. Revenues for the fiscal year April 1, 1922, to March 31, 1923, amounted to £27,863,000 with expenditures of £29,596,000. Due, however, to certain adjustments with Great Britain, the real deficit was about £4,000,000, and the amount borrowed was £2,531,000. The budget for 1923-24 estimated revenues at £26,096,000, and expenditures at £42,217,000, leaving a deficit nearly equal to the £21,000,000 which had been estimated as necessary for the maintenance of the army and to provide for property compensation claims. The revenue returns were £31,614,376, and the expenditures £36,846,273. The total debt on March 31, 1924, including a national loan of £10,000,000, was £14,167,000. The budget for 1924-25 is: Revenue, £27,687,300; expenditures, £36,846,273. To meet the deficit another loan of £10,000,000 was under consideration.

Imports, 1923-24, were £45,262,852, and exports, £43,934,358. Of these, Great Britain took £32,737,702 of the exports and sent £24,674,040 of the imports.

The Free State customs tariff is practically identical with the British tariff.

The Government announced on June 28 that it had entered into an agreement with the railways covering their claims for compensation, for damages sustained by them between July 11, 1921, and March 30, 1923. Under the terms of the agreement the railways agree to abandon all their rights to compensation under the Malicious Injuries Act during the period specified. On the other hand, the Government agrees to compensate them in accordance with certain broad principles which were laid down, for the injuries sustained. The agreement applied to damaged and destroyed bridges, rights of way, works, stations, buildings, hotels, equipment, plants, tools, stores and rolling stock, and is a step toward the rehabilitation of the railways.

The Free State has 2,705 miles of railways. Shipping in 1921 totals, arrivals, 210,910 vessels of 3,655,243 tons.

Gibraltar, the rock at the southernmost point of the Iberian Peninsula, guards the entrance to the Mediterranean. The width of the strait dividing Europe from Africa is fourteen miles. The Rock has been in British possession since 1713. It has been elaborated, tunneled and armed until it is considered impregnable. A large and secure harbor has been constructed at its foot. As a naval base its position is of the greatest strategic importance. The Rock is 2¾ miles long, ¾ of a mile wide and 1,396 feet in height; the area is nearly 2 square miles; a narrow isthmus connects it with the Spanish mainland. Its population, census of 1921, was 17,600. The military establishment numbers about 6,000 men. Gibraltar is a Crown Colony and the Governor and Commander-in-Chief, at present Gen. Sir Charles Monro, G. C. B., exercises all the governmental functions. The revenue for 1922 was £291,592 and the expenditures £276,733. In 1922 there entered 4,876 vessels of 6,010,314 tonnage.

The United States Consul at Gibraltar is Richard L. Sprague.

Malta, an island 17 miles long by 8 wide and 58 miles due south of Sicily in the Mediterranean Sea and about 180 miles from the African coast, has had centuries of stormy history. It was annexed to the British Empire in 1814 following the Napoleonic wars and has been greatly strengthened and made into a base for repair and refitment for the British fleet. The harbor of Valletta (population 24,189) has been improved with a breakwater, but it is not large. The area of the island is 92 square miles, and the total area, including the neighboring islands of Gozo and Comino, is 118 square miles. The civil population, by census of 1921, was 211,864.

The Governor, at present Gen. Sir Walter N. Congreve, V. C., K. C. B., has an elected Legislature to care for purely local affairs. The revenue of the colony in 1922-23 was £728,287; expenditures, £664,330. Imports in 1922 were valued at £3,673,356 and exports at £858,534.

The United States Consul at Malta is Philip Adams.

The Dominion of Canada.

(From data compiled by R. H. Coats, Dominion Statistician.)

NOTE.—Revised figures are given for 1911 to agree with boundary changes made in 1912.

The special census of the Prairie Provinces (1916) showed—Manitoba, 553,860; Saskatchewan, 647,835; Alberta, 496,525.

Of the population in 1921 there were 4,529,945 males and 4,258,538 females; population per square mile, 2.44. The densest average per square mile was 141.47, in Beauharnois, Quebec. Of the males, 2,698,754 were single, 1,698,395 were married, 119,708 were widowed, 3,670 were divorced, and 9,418 were not given. Of the females, 2,378,844 were single, 1,631,761 were married, 236,522 were widowed, 3,731 were divorced, and 7,680 were not given.

Of the total population in 1921 of 8,788,483, 7,321,654 were of British or French origin. There remain 1,466,823, comprehending the following main classes: German, 294,636; Scandinavian, 167,359; Hebrew, 126,196; Dutch, 117,814; Ukrainian, 106,721; Russian, 100,064; Italian, 66,769; Chinese, 39,587; Japanese, 15,868.

Other 1923 agricultural yields—Beans, 1,041,700 bushels; buckwheat, 9,743,700 bushels; mixed grains, 29,750,500 bushels; flaxseed, 7,139,500 bushels; hay and clover, 14,844,900 tons; potatoes, 55,497,000 cwt.; peas, 2,898,200 bushels.

Of the 1923 Canadian grain crop the three Prairie Provinces of Manitoba, Saskatchewan and Alberta, raised 452,260,000 bushels of wheat, 391,756,000 bushels of oats, 59,778,200 bushels of barley, and 7,044,800 bushels of flax.

Canadian grain exports in the year ended March 31, 1924, were, in bushels—Wheat, 256,870,237; oats, 23,348,698; barley, 15,001,492; rye, 6,823,416; peas, 235,687; beans, 30,679; buckwheat, 589,471; corn, 19,745.

CANADA, DOMINION OF

AREA, 3,729,665 square miles (see tables).

POPULATION, census of 1921, 8,788,483 (see tables).

CAPITAL, Ottawa; population, 1921, 107,843; other cities, Montreal, population 1921, 618,506; Toronto, 521,893; Winnipeg ,179,087; Vancouver, 117,217; Hamilton, 114,151; Quebec, 95,193; Halifax, 58,372; Victoria, 38,727; Edmonton, 58,821; Calgary, 63,305; London, 60,959; St. John, 47,166.

Governor General—General Lord Byng of Vimy, G. C. B., G. C. M. G., M. V. O., appointed by the British Crown, Aug. 2, 1921.

Prime Minister—W. L. Mackenzie King (Foreign Affairs.)

Minister of National Defense—E. M. Macdonald.

Postmaster General—Charles Murphy.

Minister of Railways and Canals—George Perry Graham.

Minister of Justice—Ernest Lapointe.

Minister of Immigration, etc.—James A. Robb.

Minister of Labor—James Murdoch.

Minister of Trade and Commerce—Thomas A. Low.

Minister of Customs—Jacques Bureau.

Minister of Marine and Fisheries—P. J. A. Cardin.

Secretary of State—Arthur Bliss Copp.

Minister of Finance—William Stevens Fielding.

Minister of Soldiers' Civil Re-establishment and Minister of Health—Henri Severin Beland.

Minister of Agriculture—W. R. Motherwell.

Minister of the Interior and Mines—Charles Stewart.

Minister of Public Works—Dr. J. H. King.

Solicitor General—E. J. McMurray.

Ministers Without Portfolios—John Ewen Sinclair, Raoul Dandurand, H. G. McGiverin.

The boundaries of Canada are, on the north, the Arctic Ocean; on the east, Baffin Bay and the Atlantic; on the south, the St. Lawrence and the United States; and, on the west, Alaska and the Pacific Ocean. Canada has 24,500 miles of coastline. The Canadian boundary stretches for 3,000 miles along the north of the United States, an unique example of non-fortification for more than 100 years.

Canada has a very varied topography—mountains in the West, then foothills and prairies, the barrier north of Lake Superior, the open lands of Ontario, the rocky Laurentian district in Quebec, with the fertile Eastern Townships to the south of it, and then plains sloping down to sea level in the East. The mountains of New England extend north into Canada, where they attain to practically the same heights as in the United States.

The once common misconception that Canada is almost Arctic has been almost dispelled. The climate of the southern parts of Canada corresponds to that of the northern States. The mean daily temperature was, in 1921, 49.40° at Victoria; 34.8° at Winnipeg; 44.4° at Toronto; 40.4° at Fredericton; and 44.1° Fahrenheit at Yarmouth. These figures show only slight variations from West to East, but the extremes are much greater in the prairie and eastern provinces than in British Columbia.

The St. Lawrence River, for many miles the boundary between Canada and the United States, is navigable to ocean-going vessels as far as Montreal, which is, by virtue of its Great Lakes connections and its proximity to London and Liverpool, the greatest grain exporting harbor on the continent. Montreal exported 60,342,395 bushels of wheat in the year ended March 31, 1924.

Montreal has deep-draught berths capable of accommodating 100 modern ocean steamships simultaneously; four large fireproof elevators, with a conveyer system to twenty-six steamship berths, at which nineteen vessels can be loaded with grain at the same time; twenty-four fireproof cold-storage warehouses; sixty miles of harbor railway tracks, and a total wharfage of 8.56 miles. There were 1,117 arrivals and departures of ocean-going ships in 1923, representing a net tonnage of 3,726,740.

Of the other great rivers, the Mackenzie, flowing into the Arctic Ocean, has a length of 2,525 miles, and the Yukon, of 1,765. The rivers of Canada have an available force of 18,255,316 horse power as against approximately 28,000,000 in the United States. The total installed capacity of hydro-electric plants in 1923 was 3,227,414 horse power.

The Department of the Interior has under its administration an area exceeding 2,000,000 square miles. Specialized management of the varied natural resources of these territories is furnished through ten major divisions of the department, including the Dominion Lands Branch, Forest Service, National Parks, Water Power and Reclamation Service, Northwest Territories, Topographical, Geodetic, and Boundary Surveys, Dominion Observatories, Natural Resources Intelligence Service, together with the financial and general administrative units. In addition to the direct management of the Federally-controlled territories and resources, the several services of the department provide the necessary facilities for broad national co-operative action, where such is required to promote the efficient development and conservation of the Dominion's natural assets.

There are 3,604,000 square miles land area in Canada, of which, it is estimated, 400,000 square miles are capable of yielding merchantable timber. An equal area has been burned over and is only now growing up to merchantable size again. Forest resources were estimated in 1922 at 482,076 million board feet of saw material, and 1,280 million cords of pulpwood. The great forests are in the areas of heaviest precipitation, but in the West the heavy rains come in the non-growing winter season, so that 99 per cent. of western timber is coniferous. For the year 1922 Canada had a lumber production of 3,138,598 thousand board feet, valued at $84,554,172, and a pulpwood production in 1923 of 4,648,663 cords, valued at $57,029,212.

Out of 306,000,000 acres of arable land only 57,230,534 were under field crops in 1923. Agriculture accounted for $7,365,013,000 of the total wealth of the Dominion and occupies between 2,500,000 and 3,000,000 persons. The net value of production was $1,520,000,000.

Canada ranks second among the wheat producing countries of the world, and was the leading wheat exporting country in the crop years 1922-23 and 1923-24. In 1923 the Canadian production was 474 million bushels, 46 per cent. of the production of the United States. Over 90 per cent. of the Canadian yield was grown in the three Prairie Provinces, Manitoba, Saskatchewan and Alberta. Of the other grains, the largest crops are in oats and barley.

Fine fruits are grown in the valleys of British Columbia and in the Niagara district of Ontario. In Nova Scotia and Ontario apples are an important crop.

Dairy product exports during 1923 were: Butter, 13,179,000 pounds; cheese, 116,202,000 pounds (nearly all to the United Kingdom); powdered milk, 4,986,000 pounds; condensed milk, 41,056,000 pounds; fresh cream, 26,908,000 pounds; fresh milk, 22,016,000 pounds.

Meat exports in 1923 were valued at $23,096 859; in 1922, at $27,956 015.

The production of furs for the 1922-23 season amounted to 4,963,996 pelts valued at $16,761,567. There were 979 fox farms in 1922.

Canadian fisheries are an immensely valuable resource The waters are cold, the fish are of the most desirable species, salmon, cod, trout and whitefish, and the extent of the fisheries is very great. The value of the catch for 1922 was $41,800,210.

The importance of Canada's mineral production has been sufficiently shown in the foregoing tables.

Manufactures have increased greatly, both because more Canadian firms are operating and because American firms have set up branches in Canada. The latter movement has been encouraged by the desire to sell in the Canadian market free of duty and to enjoy tariff preferences throughout the British Empire. The industrial census of 1922 shows that there were 22,184 manufacturing establishments in Canada, with a capital of $3,125,772,761, employing 74,884 persons and paying $133,850,436 in wages and salaries. The value of the materials used was $1,280,527,079, and the value of the product, $2,439,843,766.

The production of motor vehicles during 1923 was 147,582, valued at $97,369,814 The number in 1922 was 101,007. Canada imported from the United States in 1923 11,104 passenger cars and 2,092 trucks.

Canada is the second best foreign market ($610,374,865 in the calendar year 1923) for American produce and manufactures and has the highest per capita consumption of American goods; it is also the chief source of supplies for the United States, sending over the border $422,041,789 worth of goods in 1923. The United Kingdom is Canada's best customer, taking $436,475,790 worth of goods in 1923.

At the beginning of 1924 foreign investments in Canada exceeded $4,500,000,000, of which the United States held more than 50 per cent. Recent statistics compiled by the Dominion Bureau of Statistics gave the total foreign investments in 1915 as $2,420,000,000 and in 1923 they were $4,640,000 000. Of these the United States accounted for about $420,000,000 and the United Kingdom $1 860,000,000 in 1915, while in 1923 the United States investments had increased to $2,425,000 000 and the British to $1,890,000,000. Approximately 15 per cent of all American foreign investments are in Canada. It is estimated that United States capital now owns about one-third of the mines, large portions of the timber and water power, one-third of municipal, provincial and Dominion bonds and debentures, and a great and increasing share in Dominion manufactures. There are about 1,000 branch factories from the United States now operating in Canada.

Canada has considerable shipping on both ocean fronts. On Jan. 1, 1923, there was a registered tonnage of 1,241,524, and for 1923 seagoing and coastwise clearances of 34 730,037 tons.

Among railways in Canada, the Canadian Pacific is the great privately owned corporation. The Canadian National Railway System operates practically all other important lines in the Dominion.

Canada has spent $191,000,000 in building good roads in the last five years.

NATIONAL WEALTH OF CANADA, 1921.

Provinces.	Estimated Wealth.	Percentage Distribution.	Wealth Per Capita.
Prince Ed. Island	$119 912,060	0.5	$1,353

Total	22,195,302,443	100.0	$2,525

There is no state church in Canada. On account of the great number of French in Quebec, there are more of the Roman Catholic than of any other one denomination. The figures of the 1921 census showed 3,383,663 Roman Catholics, 1,408,812 Presbyterians, 1,407,959 Anglicans (Protestant Episcopal), 1,158,744 Methodists, 421,730 Baptists, and 287,484 Lutherans.

Parliament, on July 15, 1924, passed a law providing for the incorporation of the United Church of Canada—to include the Presbyterian Church in Canada, the Methodist Church and the Congregational Church. The union, however, is not to be

effective until June, 1925. The act provides that, during the six months previous to its coming into effect, voting by ballot may take place in any congregations, to determine whether the union shall be entered or not. Should a majority decide not to gregations, to determine whether the union shall be entered or not. Should a majority decide not to enter the union, the non-concurring congregation and its property shall remain unaffected by the act.

There were, in 1922, 23 universities with 3,142 professors and 31,792 students. The 65 colleges had a staff of 1,520 with approximately 20,000 students not also registered in universities. Post-elementary, technical and special schools had 199,981 pupils, and elementary schools 1,860,760, the grand total (excluding duplicates) registered in educational institutions being 2,124,254.

The increasing movement of settlers artisans and tourists between the United States and Canada, as well as the great volume of international trade, are furthering the good understanding arising out of similar social and economic conditions and the common heritage of language, religion and English common law.

Canada maintains its own military forces and controls the use of these forces, the same applying to its small naval and air force.

At the Versailles Peace Conference, Canada, Australia, New Zealand, South Africa and India were separately represented within the British Empire delegation. Thereafter each of them became in its own right, side by side with Great Britain, original members of the League of Nations. In the Assembly of the League of Nations they vote quite independently of Great Britain.

An unofficial announcement was made on Nov. 2, 1922, following a conference held in Ottawa between Premier Mackenzie King and Sir Auckland Geddes, British Ambassador at Washington, whereat it was decided a Canadian representative, either as a Minister or as a High Commissioner, would be appointed to serve at Washington in connection with the British Empire, and would be charged especially with responsibility for Anglo-Canadian relations.

Canada, like the United States, is a Federation with provincial governments similar on the whole to the State governments of the United States. The Dominion Government, however, possesses the residual powers in legislation, and even has the power of disallowing provincial legislation, though this power is rarely exercised.

Since 1858 the Canadian unit of currency has been the gold dollar, of the same weight and fineness as the United States dollar. During and since the World War, 1914-18, the paper dollar has not been redeemable in gold, but it is expected that gold payment will shortly be resumed.

The Sales Tax, provided for by the Special War Revenue Act, 1915, as amended 1923, has been in force in Canada since Jan 1, 1924. It now provides, in essence, for a consumption or sales tax of 6 per cent. to be levied on the sale price of all goods produced or manufactured in Canada, *payable by the producer or manufacturer at the time of sale.* In the case of imported goods a like tax is payable on the duty paid value of goods by the importer at the time the goods are taken out of warehouse for consumption. The tax is not payable on goods exported nor on goods to be made into articles for sale. Certain specified articles are exempt from the tax. The revenue in the fiscal year 1923-24 from taxes on sales of domestic goods was $71,834,937; that from taxes on imported goods during the same period was $29,155,140.

Tourist travel is increasing to the St. Lawrence route and the Maritime Provinces in the East as well as to the scenic beauties of the Canadian Rockies.

NEWFOUNDLAND.

AREA, 42,734 square miles. Dependency, Labrador, 120,000 square miles.

POPULATION, census of Dec. 31, 1920, 263,383. Labrador, population, 1919, 3,647.

CAPITAL, St. John's; population, 34,045 (in 1918); other cities, Harbour Grace, 4,279; Bonavista, 3,911.

Governor General, Sir William L. Allardyce, K. C. M. G.

Premier, Walter Monroe.

United States Consulate General, at St. John's.

Newfoundland, at the eastern end of British America, in the Atlantic Ocean, is an island the size of Virginia and a little larger than Cuba. It is separated from Canada by the Straits of Belle Isle, the Gulf of St. Lawrence and Cabot Straits.

Newfoundland is the oldest English colony. Discovered by John Cabot, June 24, 1497 (Cape Bonavista), it was, in August, 1583, formally occupied by Sir Humphrey Gilbert, and by the Treaty of Utrecht, 1713, acknowledged to be British. A Governor was appointed in 1728, and in 1855 "responsible government" was accorded to the island. It is administered by an appointed Governor, aided by an Executive Council, with a Legislature of two Houses, the Assembly elected by manhood suffrage. Newfoundland has steadfastly refused to join the Dominion of Canada. Labrador is a dependency; it has 850 miles of coastline, and is chiefly inhabited by Eskimos engaged in fishing and hunting.

Newfoundland is rugged in topography, climate and the stern and peculiarly serious character of the people, whose employment is mostly fishing and sealing, next to agriculture and livestock. The colony contributed 11,922 men to the British armies in the World War, and 3,000 others enlisted in the Canadian contingent.

By legislative enactment on Aug. 15, 1924, prohibition, in effect since 1915, gave way to a law allowing the purchase of one bottle of spirits a day by any one person and permitting hotels to supply guests with beer and wine.

Besides the foodstuffs producible in that northern latitude, there are resources of minerals which are not yet much developed, including iron ores, copper and gold. The forests are a great source of revenue. Paper pulp is taken from there to England. It had, in 1922, 904 miles of railroad.

Imports in 1921-22 totalled nearly $17,000,000 chiefly textiles, flour, coal, hardware and machinery, and exports more than $18,000,000, chiefly dried cod and paper and pulp.

Foreign trade is heaviest with Canada, the United States following, Britain being next.

Trade with the United States was:

Imports, 1920-21	$9,698,622
" 1921-22	5,874,984
" 1922-23	7,284,512
" 1923-24	9,096,010
Exports, 1920-21	1,758,934
" 1921-22	1,921,151
" 1922-23	2,261,305
" 1923-24	2,308,769

BRITISH WEST INDIES.

JAMAICA.

AREA, 4,207 square miles; Turks and Caicos Islands, *224; total, 4,431 square miles.

POPULATION, census of 1921, 858,188 (white, 14,476; colored, 157,223; black, 660,420; East Indian, 18,610; Chinese, 3,696); not stated, 3,693. Turks and Calcos Islands, 1921, 5,612, of which 210 were white. Total, 863,800.

CAPITAL, Kingston; population, 1921, 62,562. Other cities: Spanish Town, 8,694; Port Antonio, 7,074; Montego Bay, 6,616.

Governor, Gen. Sir Samuel H. Wilson, K. C. M. G., K. B. E., C. B., R. E.

United States Consul, at Kingston, Jose de Olivares.

Jamaica is situate in the Caribbean Sea, 90 miles south of Cuba, and is the largest and most valuable of the British West Indies. It is about the size of the State of Connecticut. It has a rather mixed population, West Indians predominating. In 1922 there were 1,214,214 acres cared for, of which 296,778 were tilled, and 917,436 pasture. Products are tropical. Imports from the United States are larger than from any other country, and exports to this country second to those to Britain. There are 200 miles of railroads.

The climate has attractions for winter tourists, and many citizens of this country visit the island. The island figures largely in the history of the Buccaneers of the West Indies before and during the time of Sir Henry Morgan, once its Governor. The old haunt of the pirate, Port Royal, at the entrance of the harbor, was destroyed and sunk under the sea by an earthquake.

Trade with the United States was:

Imports, 1920-21	$15,524,778
" 1921-22	8,238,928
" 1922-23	8,133 301
" 1923-24	8,087,051
Exports, 1920-21	6,294,991
" 1921-22	7,128,854
" 1922-23	6,871,454
" 1923-24	6,240,821

BERMUDA.

AREA, 19 square miles.

POPULATION, census of 1921, 20,127 (7,006 white).

CAPITAL, Hamilton; population, 2,578.

Governor, Lt. Gen. Sir Joseph John Assar, K. C. M. G., K. C. V. O., C. B.

United States Consul, Robertson Honey.

Bermuda, a crown colony, is a group of 360 small islands of coral formation, about 20 inhabited,

in mid-Atlantic, 677 miles southeast of New York and 580 miles east of North Carolina. To Americans, the main island, capital Hamilton, population 2,578, is a favorite winter resort, fully 25,000 visiting it annually. It ships to New York quantities of Easter lilies, early potatoes and onions. Of its 12,360 acres 4,000 are under cultivation.

The Governor is aided by two Councils and an elected House of Assembly of 36 members. The franchise is limited to men owning property valued at $300 a year; in 1918 there were 1,408 electors, of whom 934 were white and 474 colored.

Bermuda is an important naval base with a well equipped dockyard. Food supplies are mostly imported from the United States and Canada. The imports in 1922 were valued at £1,266,696, and exports at £233,296. The revenue in 1922 was £214,082; expenditures, $220,476; debt, £85,000. Tonnage entering the port in 1922 amounted to 2,178,562 tons.

Trade with the United States was:

Imports,	1920-21	$4,311,331
"	1921-22	3,353,162
"	1922-23	3,360,4 0
"	1923-24	4,158,050
Exports,	1920-21	1,098,682
"	1921-22	1,092,054
"	1922-23	1,105 350
"	1923-24	1,166,724

BARBADOS.

AREA, 166 square miles.
POPULATION, census of 1921, 156,312.
CAPITAL, Bridgetown; population, 13,486.
Governor, Lieut Col. Sir C. R. M. O'Brien, K. C. M. G.
United States Consul, John J. C. Watson.

Barbados is the most eastern of the Windward Islands, in the West Indies, lying out in the Atlantic at 13° north latitude.

Of the total 106,470 acres, 74,000 are tilled, producing chiefly sugar and cotton. Imports are heaviest from the United States, and exports heaviest to Canada. Tonnage entered in 1920 was 3,201,535. There are 28 miles of narrow gauge railroad.

These islands, together with others in the Caribbean Sea, were factors in the celebrated freebooting days of Morgan and other notorious pirates.

Revenue in 1922-23 was £519,210; expenditures, £402,524; debt, £662,400; imports, £2,480,320 and exports, £1,259,109.

Trade with the United States was:

Imports,	1920-21	$3,912,907
"	1921-22	1,617,203
"	1922-23	1,542,450
"	1923-24	1,427,284
Exports,	1920-21	1,945,816
"	1921-22	211,807
"	1922-23	575,326
"	1923-24	260,931

TRINIDAD AND TOBAGO.

AREA, 1,863 square miles. Tobago, 114 square miles.
POPULATION, census of 1920, 391,279.
CAPITAL, Port au Spain: population, 70,146.
United States Consul, Henry D. Baker.

Trinidad, the most southerly of the West Indies, lies off the north coast of South America. Trade is heaviest, both import and export, with the United States. Total areas are 1,191,678 acres, of which 517,538 are cultivated. Products are mostly asphalt, oil, with derivatives therefrom. The great asphalt lake, 110 acres in extent, on the island is immensely valuable and seems inexhaustible. During 1923, 106,804,098 gallons of crude oil were extracted by the 20 companies operating, and in 1922, 139,433 tons of asphalt valued at £339,824, from which the colony derived a revenue of £59,471.

There are 123 miles of railroad in operation.

Port au Spain is one of the finest towns in the West Indies.

Tobago is an island governed by Trinidad.

Revenue in 1922 was £2,186,330; expenditures, £1,939,215; debt, £3,432,424; imports, £4,604,880; exports, £429,403.

Trade with the United States was:

Imports,	1920-21	$14,238,171
"	1921-22	4,882,268
"	1922-23	4,502,770
"	1923-24	4,207,334
Exports,	1920-21	7,295,120
"	1921-22	4,565,575
"	1922-23	5,477,679
"	1923-24	4,752,668

THE BAHAMAS.

AREA, 4,404 square miles.
POPULATION. census of 1921, 53 031.
CAPITAL, Nassau; population, about 12,000.
Governor General, Major Sir H. E. S. Cordeaux, K. C. M. G., C. B.
United States Consul, William A. Smale, (V. C.)

The Bahama Islands number twenty, part of them uninhabited, and are in the Atlantic Ocean, off the coast of America. Nassau, on the Island of New Providence, near the Florida coast, is an attractive winter resort for Americans.

Sponges and sisal are the chief sources of revenue. Fruit growing is being developed. Trade with the United States is three times as heavy as with any other country.

Revenue in 1922-23 was £852,573; expenditures, £377,164; debt, £23,465; imports, £1,963,152; exports, £1,827,735.

WINDWARD ISLANDS.

AREA, 133 square miles.
POPULATION, census of 1911, 66,750.
CAPITAL, St. George's, on Grenada Island.
Governor, Sir F. S. James, K. B. E., C. M. G.

The Windward Islands lie at the eastern side of the Caribbean Sea, west from Martinique. They are Grenada and the Grenadines, St. Vincent and St. Lucia. Each has its own local government.

In 1916 there were under cultivation 30,200 acres. Products mostly are sugar, cocoa, nutmegs, cotton, mace and fruits.

LEEWARD ISLANDS.

AREA, 715 square miles.
POPULATION, census of 1911, 127,103.
CAPITAL, Antigua.
Governor, Sir Eustace Fiennes, Bart.

The Leeward Islands, of the West Indies, are part of the Lesser Antilles, forming Froude's "Bow of Ulysses." They comprise in one administration five Presidencies, and include the Islands of Antigua, Barbuda, Redonda, St. Christopher, Nevis, Anguilla, Dominica, Montserrat, and the (British) Virgin Islands, with Sombrero, under Commissioners, and all except the latter having their own local Legislature.

Their chief products are sugar, molasses, cocoa and tropical growths. Trade with the United States is growing.

Revenue in 1922-23 was £260,671; expenditures, £303,575; debt, £250,850; imports, £1,059,212; exports, £970,694.

The trade of the Bahamas, the Windward Islands and the Leeward Islands with the United States was:

Imports,	1920-21	$6,124,861
"	1921-22	4,620,118
"	1922-23	6,694,100
"	1923-24	5,032,542
Exports,	1920-21	4,013,120
"	1921-22	1,690,929
"	1922-23	2,056,812
"	1923-24	2,606,840

BRITISH HONDURAS.

AREA, 8,592 square miles.
POPULATION, census of 1921, 45,317.
CAPITAL, Belize, population, 12,660.
Governor, Sir E. Hutson, K. C. M. G.
United States Consul, William W. Early.

British Honduras is situate on the Caribbean Sea, south of Yucatan, and produces chiefly tropical fruits, mahogany, logwood, chicle, and cedar, much of which comes to the United States. Of the imports, a considerable trade is with this country and Canada, and comprehends things produced both in this country and Britain.

Revenue, 1922-23 was £234,059; expenditures, £226,114; debt, £220,815; imports, £692,716; exports, £593,178.

Trade with the United States was:

Imports,	1920-21	$2,622,217
"	1921-22	1,823,553
"	1922-23	1,853,082
"	1923-24	1,853,530
Exports,	1920-21	3,720,142
"	1921-22	2,309,003
"	1922-23	2,229,134
"	1923-24	2,105,634

BRITISH GUIANA.

AREA, 89,480 square miles.
POPULATION, census of 1921, 297,691; including 124,900 East Indians.
CAPITAL, Georgetown; population, 55,490.

Governor, Sir Graeme Thomson, K. C. M. G.
United States Consul, Gaston Smith.

British Guiana is on the north shore of South America, with Venezuela on the west, Dutch Guiana on the east, and Brazil on the south. It is administered by a Governor, assisted by a Court of Policy, seven appointed and eight elected, these with six others constituting the Combined Court that rules.

Areas tilled are 177,000 acres, producing in 1920 sugar cane from 69,530 acres, rice from 55,250 acres, cocoanuts from 24,450 acres, coffee from 5,050 acres, rubber from 2,800 acres. Sugar production in 1923 was 90,569 tons, of which 83,145 tons, valued at $10,234,735, were exported.

The placer gold mining industry is important, the 1923 production being $166,663; total production, 1884-1921, being £9,544,247. The production of diamonds in 1923 was 214,747 carats, valued at $4,956,410.

There are 98 miles of railroads and 450 miles of river navigation. In 1923, 1,574 vessels of 537,396 tons entered the ports.

Revenue, 1923, was $5,330,401; expenditures, $5,044,421; debt, $10,845,000. Imports in 1923 were valued at $12,811,011; and exports at $18,036,707.

Trade with the United States was:

Imports,	1920-21	$6,246,348
"	1921-22	1,956,532
"	1922-23	1,728,653
"	1923-24	1,662,500
Exports,	1920-21	$2,369,877
"	1921-22	301,201
"	1922-23	478,264
"	1923-24	947,121

FALKLAND ISLANDS AND SOUTH GEORGIA.

AREA, 6,500 square miles, including more than 100 islands. South Georgia, estimated, 1,000 square miles.

POPULATION, Falkland Island, census of 1919, 3,255 (2,271 males, 984 females). South Georgia, estimated, 1,000; only 3 females.

Governor, Sir J. Middleton, K. B. E., C. B.

The Falkland Islands lie 300 miles east from the Strait of Magellan, at the southern end of South America. Their main value is in their strategic location, although there are large sheep farms and whaling interests. It was off the Falkland Islands the British war fleet under Admiral Sturdee defeated the troublesome German fleet in the late war, completing the elimination of the naval force of the Central Powers in the South Pacific.

Revenue, 1922, was £174,437; expenditures, £51,391; imports, £501,561; exports, £2,608,566. There is no debt.

Trade with the United States was:

Imports,	1922-23	$225
"	1923-24	14,655
Exports,	1922-23	1,272,299
"	1923-24	411,158

INDIA.

AREA, of British provinces, 1,093,074 square miles; area of protected native states or agencies 709,555 square miles. Total India, 1,802,629 square miles.

POPULATION, of British provinces, census of 1921, 247,138,396; native states and agencies, 71,936,736; total India, 319,075,132.

CAPITAL, Delhi; population, 304,420.

Viceroy and Governor General, The Earl of Reading, P. C., G. C. B., G. M. S. I., G. M. I. E.
United States Consul General, at Calcutta, Julius G. Lay. *Consuls*, at Bombay, Wilbur Keblinger; at Karachi, vacant; at Madras, Alfred R. Thomson; at Rangoon, Charles J. Pisar.

India is bounded on the north by Afghanistan and China; on the east by China, Siam and the Bay of Bengal, on the south by the Bay of Bengal, the Indian Ocean and the Arabian Sea; on the west by the Indian Ocean, the Arabian Sea, Persia and Afghanistan. Its territory is as large as that of the United States east of the Rocky Mountain States.

The climate ranges from the extremely hot in the southeast to cooler elevations of the northwest mountains, the whole being tropical in general character

Approximately 25 per cent. of the area is forested, among the timber products being sandalwood, teak, ironwood, deodar, sissu, satinwood, date palm, cocoanut, sago, banyan and acacia.

The country is essentially agricultural, 70 per cent. of the people living therefrom. By the 1921 figures, there were in all of India, British India and the native states, 316,068,000 persons, of which about 229,045,000 were supported by soil tillage, forestry and livestock husbandry. Agriculture is crude, although improvement of method is being attained through the efforts of the British Department of Agriculture, which maintains staffs of experts to inculcate modernity among the natives. They also teach better ways of caring for domestic animals, and encourage the introduction of high-bred grades.

In 1920 there were 254,990,536 acres in crops in British India, with 23,197,000 acres irrigated by canals, 7,337,000 by tanks, 12,692,000 by wells and 5,737,000 by various other ways.

In 1923, rice on 81,535,000 acres yielded 33,135,000 tons; wheat, 10,764,000 tons from 30,492,000 acres; cotton, 5,196,000 bales from 21,154,000 acres—an exceedingly low per acre yield.

Other important products were linseed, rape, mustard, jute, indigo, sugar cane, coffee, and tea.

Livestock in 1920 numbered 117,000,000 oxen, 28,493,000 buffalo, 21,984,000 sheep, 24,134,000 goats, 1,698,000 horses, 75,000 mules, 1,372,000 donkeys and 408,000 camels.

INDUSTRY, MINING AND COMMERCE.

India in 1922 had 5,312 industrial establishments, employing 1,367,136 persons. The cotton industry is the most important, there being, June 30, 1923, 333 spinning and weaving mills, having 7,927,938 spindles, and 144,794 looms, and employing 347,380 hands; cotton consumption was about 2,100,000 bales of 400 pounds. The mills produced 1,700,-

000,000 yards of cotton cloth, and home weavers about 1,030,000,000 yards while 1,410,000,000 yards were imported, nearly all from England.

Jute mills come next, with 75 establishments employing 264,373 persons; cotton ginning and baling, 1,775 establishments employing 133,323 persons. Other industries employing 11,000 persons or more are transport, rice mills, engineering, manufacture of arms and ammunition, machinery, lumber, woolen goods, sugar, oil, tobacco, lace, and rubber.

To give effect to the ratification by India of the Draft Conventions approved by the International Labor Conference at Washington, a bill to amend the Indian factories Act was passed and came into force July 1, 1922. The principal features are:

Further protection for children working in factories by raising the maximum age from 14 to 15 and the minumum age from 9 to 12 years. The maximum number of hours during which a child may work in any one day shall not exceed six, and definite provision is made for intervals of rest. The limitation of the hours of adults in all classes of factories to sixty per week and eleven per day, lengthened intervals for rest and provisions for weekly holidays. Factories include establishments employing not less than ten persons a day.

In minerals, India has an unusually wide range of products. Coal produced in 1922 amounted to 19,010,986 tons; iron ore, 625,274 tons; manganese ore, 474,401 tons; wolfram, 943 tons; mica, 1,578 cwts; copper ore, 30,766 tons; lead, 172,967 tons; gold, 438,015 ounces; silver, 4,244,304 ounces, and precious stones, 231,160 carats. About 266,000 work in the mines.

India produced 7,575,000 barrels of petroleum in 1923, and 7,450,000 barrels in 1922.

Shipping entering Indian ports in 1922-23 numbered 3,534 vessels, of 7,298,339 tons, of which 2,037 of 5,419,050 tons, were British.

India had open for traffic, on March 31, 1922, 37,265 miles of railway, of which 7,698 miles were state lines operated by the state; 19,107 state lines operated by companies; 2,951 Indian state lines operated by Indian states, and 1,483 operated by the Main Line. Much of the other privately owned mileage was operated under guarantee and rebate terms, or under subsidies. Railway development is not modern, four gauges being employed, preventing the interchange of cars from one line to another. Navigable waterways inland amount to 4,000 miles, and there are about 200,000 miles of highways. The number of motor vehicles in use in 1923 was about 50,000.

The Sukkur Barrage in the Sind—one of the great irrigation schemes in the world—and the Sutlej Valley irrigation project, in the Punjab have both received the sanction of the Indian Government and the Bombay Legislative Assembly. The Sukkur Barrage will cost £18,500,000 and will be financed by loans aggregating $50,000,000. It provides for an extensive system of canals on both banks of the Indus River to supply perennial irrigation and it is expected that during the next ten years the cotton acreage in the Punjab will be trebled and between two and three million acres will be added to the wheat producing area. The Government will also stimulate sugar-cane production in the Sind.

THE BRITISH ARMY IN INDIA.

The British regular forces in India are paid by the Indian Exchequer. The expenditure in 1923-24 was £57,176,700. They are organized in brigades and divisions with the native army, the normal proportion being one British battalion to 3 native. In October, 1922, there were 44 British infantry battalions, 126 native; 6 British cavalry regiments, 20 native. The horse (5 batteries), field (6 batteries) and garrison (9 batteries) artillery, the tank corps (6 companies) and Royal Air Force are wholly British. A native army has 19 pack artillery batteries, 24 engineer companies and 14 signal companies. In addition there is an auxiliary force organized in 1920 for volunteers of British extraction, which numbers 23 infantry battalions, 20 garrison artillery batteries, 11 cavalry regiments, 19 railway battalions, 5 engineer companies and 1 signal service company. Eight regiments in 1923 were wholly officered by Indians as to company or squadron officers.

A reorganization of the Indian Government has consolidated the departments under three heads: Commerce; Industries and Labor; Education, Health and Lands, together with a Board of Revenue to shape a definite taxation policy.

The budget for 1923-24 for the Central Government only was: Revenue, 1,295,200,000 rupees. ($397,496,800 converted at 1 rupee = .3069 current exchange); expenditures, 1,299,000,000 rupees ($388,763,100). The debt on March 31, 1924, totaled 9,175,300,000 rupees ($2,815,898,570.)

In 1922 returns show that 19,396 persons died from snake bite, tigers killed 1,454, leopards, 560; wolves 556; bears 69; elephants, 70 and hyenas, 10. During the year nearly 25,000 wild animals were killed and 200,000 rupees paid in reward. The plague caused 36,900 deaths in India up to March 31, 1923. The average for four years of deaths for the plague had been 14,400.

Great Britain officially defines British India as that part of the Indian peninsula which is directly under British rule, but the technical delimitation of British India shades off into other areas, where British influence predominates and is virtually complete. The British imperial status was given when Queen Victoria was proclaimed Empress of India in 1876.

Government there by Britain is declared to be based on the principle which has obtained in other colonies and dominions since the time the United States separated from the mother country—that of advancing the people as far as possible along the pathway toward autonomy and complete self-government. The ultimate objective is said to be that absolute self-government which the Dominion of Canada, the Commonwealth of Australia, the Union of South Africa and other areas have. The backward status of the people has prevented the realization of such an end so far, according to British authoritative statements.

Although the efforts of Britain to introduce better methods have accomplished much and have held loyal a large proportion of the people, there has lately been an arousal of extreme nationalism, with resistance by the agitators and their followers to British rule, taking, under the leadership of Gandhi, the form of non-co-operation.

India is a member of the League of Nations.

It is said that there are 45 races, speaking 170 languages, and 2,400 castes and tribes, divided, 217,000,000 Hindus, 60,000,000 descendants of Turanian tribes, 66,000,000 Mohammedans, and there are 700 feudatory states. Each cult, caste and tribe adheres strongly to its religious beliefs and social rules, many of them with fanaticism, especially the Mohammedans, who even in far-off India look quite as faithfully toward Mecca each sundown as do those nearer to the capital of Islam for 1,000 years. The stability of these conditions, touching all classes, is probably the more assured because of all the population only about 11 per cent. is urban.

POPULATION OF THE CITIES OF INDIA.

The principal cities of above 100,000 inhabitants with their population, by the census of 1921, are:

Town.	Popular'n	Town	Popular'n
Calcutta (with suburbs)	1,327,547	Allahabad	157,220
Bombay	1,175,914	Mandalay	148,917
Madras	526,911	Nagpur	145,193
Hyderabad	404,187	Srinagar	141,735
Rangoon	341 962	Madura	138,894
Delhi	304 420	Bareilly	129,459
Lahore	281,781	Meerut	122,609
Ahmedabad	274,007	Trichinopoly	120,422
Lucknow	240,566	Jaipur	120,207
Bangalore	237,496	Patna	119,976
Karachi	216,883	Sholapur	119,581
Cawnpore	216.436	Dacca	119,450
Poona	214,796	Surat	117,434
Benares	198,447	Ajmer	113,512
Agra	185,532	Jubbulpore	108,793
Amritsar	160,218	Peshawar	104,452
		Rawalpindi	101,142

There are also 51 with a population of between 30,000 and 100,000.

RELIGIOUS STATISTICS OF INDIA.
(Census of 1921)

Sects.	Number.
Total population	318.942,480
Hindus	216,734,586
Sikhs	3,238,803
Jains	1,178,596
Buddhists	11,591,268
Parsees	101,778
Mohammedans	68,735,233
Christians	4,754,079
Roman Catholics	1,490,863
Anglicans	492,752
Presbyterians	181,130
Baptists	337,226
Lutherans	218,500
Methodists	171,844
Congregationalists	135,265
Salvationists	52,407
Other Protestants	45,894
Syrian (Romo-Syrian)	413,142
Syrian (others)	315,162
Armenians, Greeks, etc	4,064
Jews	21,778
Animistic	9,774.661
Others, about	18,000

The detailed figures for the Christians are those of the 1911 census and are given to indicate the relative strengths of the several denominations. The number of Europeans was 176,031 (males, 125,229; females, 50,802) and of Anglo-Indians, 113,090 (males 56,668, females, 56,422.)

ILLITERACY IN INDIA.

The following statistics of illiteracy are those of the census of 1911.

	Able to Read and Write.	Unable to Read and Write.	Total.
Males	16 938,668	143,480,620	160,419,288
Females	1,600,763	151,397,030	152,997,793
Total	18,539,431	294,877,650	313,417,081

In 1921 the literates were 22,600,000.

The number per 1,000 over 5 years old able to read and write is males 139, females 21; the proportion literate in English is males 16, females 2.

In 1919-20 there were 168,358 public schools of various kinds with 7,612,839 pupils, and 34,623 private schools with 593,386; the expenditure in public education was £14,889,696. There are eight universities.

The problem in India is always how to get enough food for the people; that is, enough to stave off starvation. Famines and scourges are frequent, and obstacles to efficient use of the natural resources are ever present in the conservatism of the people and disinclination to change.

Imports in 1923-24 were valued 2,276,265,000 rupees ($707,818,415); and exports at 3,485,960,000, ($1,084,133,560). The British Empire supplied 64 per cent. of the imports and bought 40 per cent. of the exports.

Trade with the United States was:

Imports, 1920-21	$92,549,584
" 1921-22	35,723,466
" 1922-23	27,920,796
" 1923-24	34,134,610
Exports, 1920-21	122,850,161
" 1921-22	78,560,413
" 1922-23	121,674,631
" 1923-24	107,935,683

Beluchistan is in the extreme western part of the Indian Empire, with 54,228 square miles of area, and, in 1921, 421,679 of population, practically all Mussulmans or Hindus. It is governed by British Residents under long-standing agreements.

Barren mountains and deserts render it comparatively unimportant economically, with some cereals produced, and little development of any kind. Minerals have been explored, and will some time afford wealth. Foreign trade totals about $1,000,000.

Sikkim is a state of India in the Himalayas, south from Thibet. The area is 2,818 square miles, and population in 1921 was 81,722, composed of Bhutias, Lepchas and Nepalese. It is governed by a Maharajah, H. H. Tashi Namgyal, under a British protectorate.

Cereals, fruits and woolen cloth are the products. The country is undeveloped.

The Andaman Islands 204 in number, are in the Bay of Bengal, 120 miles from the mainland of Burma. Area is 2,260 square miles, and population, 26,833. Timber wealth is large, but the use of the islands for a penal settlement, a self-supporting community of 11,500, is the chief interest. The natives are pigmy jungle-dwellers, experts with spear and arrow, and very savage.

The Nicobar Islands, 75 miles from Andaman Islands, have 635 square miles of area, and population of 10,000.

OTHER BRITISH ASIATIC POSSESSIONS.

ADEN, PERIM, SOKOTRA, AND BAHREIN ISLANDS.

United States Consul, at Aden, A. G. Watson (V.C.)

Aden, a peninsula on the Arabian coast, is on the southern end of the Suez Canal, and has 75 square miles of area, in Aden proper, and 9,080 square miles including protectorate areas. The population, including Perim, in 1922 was 56,571, mostly Mohammedans. In 1923, imports were valued at $22,529,610—cotton goods, grains, coal, sugar and foods, and exports at $18,652,001—salt, coffee, gum, hides, cotton goods and foods.

Manufacturing is chiefly of cigarettes and salt.

There are about 30 miles of narrow gauge railways.

Aden is a free port, an important coaling station and has an excellent harbor. In 1923 merchant vessels numbering 1,060 of 4,046,530 tonnage called there.

Sokotra is an island off the African coast under British protection, and the Kuria Muria Islands, off the Arabian coast—all attached to Aden. Area in all is 1,382 square miles, and population 12,000, mostly engaged in livestock husbandry.

Trade of Aden with the United States was:

Imports, 1920-21	$1,221,230
" 1921-22	1,584,376
" 1922-23	1,763,061
" 1923-24	670,132
Exports, 1920-21	1,696,940
" 1921-22	1,541,368
" 1922-23	2,447,243
" 1923-24	2,185,862

The Bahrein Islands lie off the Arabian coast, in the Persian Gulf, the total area being 280 square miles, and the population 110,000, mostly Mohammedans. Pearl fishing is the chief interest. The foreign trade in 1920-21 totalled about $5,900,000 of imports, chiefly rice, coffee, sugar, tea, and cotton piece goods, and exports about $6,250,000, mostly rice, coffee, sugar.

CEYLON.

Governor, Sir Hugh Clifford, K. C. M. G.

United States Consul, at Colombo, M. Turner (V. C.)

Ceylon is an island as large as the State of West Virginia off the southern tip of India in the Indian Ocean, with 25,481 square miles of area and 4,497,599 of population, divided: Buddhists, 2,770,000; Hindus, 982,000; Mohammedans, 302,000; Christians, 444,000. Colombo (population, 1921, 244,110), is the chief city.

Of the total 16,212,000 acres, 3,106,000 are tilled, and 1,000,000 pastureland. Products are cocoanuts, rubber, cinnamon, tea, and grains. Tea is the most important, 183,501,928 pounds being exported in 1923. 121,010,033 to the United Kingdom. Rubber exportations in 1923 were 79,331,782 pounds as against 104,706,000 in 1922. Total imports in 1920 were valued at $108,018,955, in 1921, $65,639,775; exports, 1920, $89,487,394, 1921, $64,150,103.

Trade with the United States was:

Imports, 1921-22	$411,108
" 1922-23	831,986
" 1923-24	1,868,202
Exports, 1921-22	9,723,851
" 1922-23	26,607,234
" 1923-24	23,794,471

The Maldive Islands are 400 miles west from Ceylon, with 70,000 population, almost all Mohammedans. Cocoanuts, millet, palms, fruit and nuts are the products.

CYPRUS.

Cyprus is an island, third largest in the Mediterranean Sea, 40 miles from Asia Minor and 60 from Syria. Its area is 3,584 square miles, and population in 1921 was 274,108 Mohammedans (Ottoman Turks), 310,709; Christians, 245,287; others, 4,000.

Nicosia is the capital, population, 18,461; other towns, Larnaca, 10,652; Linasol, 11,843.

The island is agricultural, with wheat, barley, vetches, oats, olives and cotton chief products. 30 per cent. of the land area is cultivated.

Revenue, 1921-22 was £644,416, expenditures, £645,912; debt, £211,566 (for public works); imports, 1922, £1,411,561; exports, £871,211.

STRAITS SETTLEMENT.

AREA, Singapore Island, 217 square miles; Penang Island, 108 square miles; Wellesley, 280 square miles; Malacca, 840 square miles; Pangkor, 155 square miles; total, 1,600 square miles.

POPULATION, census of 1921, 883,769.

CAPITAL, Singapore, population, 1922, 441,457.

Governor, Sir Laurence N. Guillemard, K. C. B., K. C. M. G., also *High Commissioner* for the Federated Malay States; *High Commissioner* for Brunei, and *British Agent* for North Borneo and Sarawak.

United States Consul General, at Singapore, Ernest L. Harris; *Consul*, at Penang, vacant.

The Straits Settlement is a Crown Colony in which Singapore, an island twenty-seven miles long by fourteen wide, area, 217 square miles, is the chief port. Singapore just misses being the southernmost point of Asia by a half-mile water channel. The Johore Causeway has just been completed joining it with the mainland and affording through train service between Bangkok and Singapore. It is at the funnel point of the Strait of Malacca, which extends between the Malay Peninsula and the Island of Sumatra, the great water highway between India and China.

The British House of Commons voted in 1923 to spend £11,000,000 to make it an impregnable naval base. It is already heavily fortified and in strategic position as the Gibraltar and Aden of the Far East. The project was held up later.

A hundred years ago the island, owned by the Sultan of Johore on the mainland, was a deserted jungle safe for a little fishing village. Sir Stamford Raffles in 1819 obtained it for the East India Company for a small fee and in two years the little trading centre he established had a population of 10,000. Singapore has been developed and maintained as a free port and is now a huge city of over 440,000 population, carrying on trade valued at $1,000,000,000 annually, with a shipping of all sorts amounting to 17,000,000 tons yearly, and is primarily a transshipping point. Its population has been drawn from all Asia, Oceania, the Malay Archipelago, Africa, Europe and America. Chinese predominate, making up one-half the population. Europeans, Americans and Australians number less than 10,000; and there are as many Japanese.

Revenue in 1922 was £3,978,737; expenditures, £2,892,993; debt, £6,913,352.

Imports for 1923 were about 588,000,000 Straits dollars (Straits dollar = $0.51); and exports, 672,000,000 Straits dollars. Total exports of rubber were 282,258 short tons, and of tin, 78,250 tons.

In 1922 there entered the ports, 8,715 ships of 13,456,428 tons, exclusive of native craft, which numbered 25,877 of 1,004,332 tons.

Trade with the United States was:

Imports,	1920-21	$14,927,449
"	1921-22	4,545,796
"	1922-23	6,783,236
"	1923-24	7,156,113
Exports,	1920-21	107,504,102
"	1921-22	71,819,493

The Federated Malay States lie in the Malay Peninsula, and have 27,506 square miles, and population in 1919 was about 1,315,000. Products are cocoanuts, rice, rubber, tapioca, pepper, gambier, and nipah palms. In 1920 imports were about $100,000,000, and exports about $165,000,000.

The area under rubber cultivation in 1922 was 1,177 590 acres; rubber exports amounted to 128,462 tons in 1922 and 94,552 tons in 1921. Tin to the amount of 34,489 tons was exported in 1921 and 35,288 in 1922; in 1921, 14,674 ounces of gold was produced.

The Unfederated Malay States, area, 23,486 square miles, and estimated population, all Mohammedans, of about 1,123,000, are five in number, each under a native Sultan and with a British adviser.

British North Borneo has 31,106 square miles area, with 208,183 population in 1911, chiefly Mohammedans on the seacoast, and aboriginal tribes inland.

Major Gen. Sir W. H. Rycroft is Governor of the Protectorate, and the British North Borneo Company has jurisdiction.

Exports are mainly timber, sago, rice, gum, and the tropical products.

Revenue in 1922 was £361,044; expenditures, £241,784; imports, £800,933; and exports, £957,333.

Brunei has been since 1888 a protected sultanate on the north side of the Island of Borneo, between Sarawak and British North Borneo. Its area is about 4,000 square miles, and population, census of 1921, 25,454, of which 35 were Europeans. The revenue for 1920 was about £23,500 and expenditures about £26,000; debt £50,100. A British Resident is in control.

Sarawak, the land of the white Rajah, is along the northwest coast of Borneo, between the mountains and the China Sea. Its coast line is 400 miles long and its area 42,000 square miles. Its population is estimated at about 600,000. The chief towns are the capital, Kuching, 20 miles up the Sarawak River, and Sibu, 60 miles up the Rejang River, which is navigable for large steamers. The chief exports are sago, pepper, gold, plantation rubber, gutta percha, gutta jelutong, cutch, petroleum, birds' nests, fish, oil nuts and sugar. The Rajah is H. H. Charles Vyner Brooke, great-nephew of James Brooke, the Englishman to whom the Sultan of Brunei gave the Government in 1842.

HONGKONG.

Governor General, Sir R. E Stubbs, K. C. M. G.
United States Consul General, Algar E. Carleton (C.).

British Hongkong is a crown colony acquired in 1841. and lies at the mouth of the Canton River 60 miles from Canton. It is 11 miles long by from two to three wide. The population in 1920 was estimated at 625,166, non-Chinese being 14,000.

Hongkong is an important British station of great strategic value commercially as well as naval.

Hongkong is the gateway between the east and the west and one of the greatest trans-shipment ports in the world. The movement of shipping in 1923 was the largest in its history. Combined entrances and clearances, including junks and steam launches, totalled 778,222 vessels of 53,402,239 tons. Steamers entering the port numbered 6,321 of 12,979,033 tonnage. Over 65 per cent. of the tonnage was in the foreign trade, nearly one-half of it being British, nearly one-fourth Japanese, and one-tenth American. Imports in 1923 were valued at £61,954,498; and exports at £61,372,331, of which rice was valued at £12,689,553.

Revenue in 1922 was £2,809,602; expenditures, £2,339,711; and debt, £341,800.

Trade with the United States was:

Imports,	1920-21	$22,042,197
"	1921-22	19,569,408
"	1922-23	19,055,359
"	1923-24	19,253,102
Exports,	1920-21	28,210,902
"	1921-22	11,036,422
"	1922-23	20,216,496
"	1923-24	20,357,335

WEIHAIWEI.

Weihaiwei is in the Chinese Province of Shantung, and includes islands and the ba,, which were leased in 1898. The area is 285 square miles, and the population was 154,416 in 1921. Under agreement made at the Shantung Settlement at the Washington Conference, January, 1922, Great Britain will restore the territory to China. Imports in 1922 were valued at $Mex.5,890,367; exports, $Mex.3,999,748.

UNION OF SOUTH AFRICA.

AREA, 473.089 square miles; divided, Cape of Good Hope, 276,966; Natal, 35,284; Orange Free State, 50,389; the Transvaal, 110,450.

POPULATION, census of 1921, 6,928,580; divided, Cape of Good Hope, 2,781,185; Natal, 1,234,000; Orange Free State, 628,360; the Transvaal, 2,085,337.

CAPITALS, Cape Town (seat of Legislature), population, census of 1921, 207,404; Pretoria (seat of Government), 74,052; other cities, Johannesburg, population, 288,131; Durban, 146,324; Port Elizabeth, 45,927; Kimberley, 39,320; Bloemfontein, 38,865, and six others having more than 10,000 but less than 21,000 whites.

Governor General, the Earl of Athlone, G. C. B., G. C. M. G.

Premier, Gen. J. B. Hertzog (Native Affairs).

United States Consul General, at Cape Town, De Witt C. Poole; *Consuls*, at Durban, Natal, Harry M. Lakin; at Port Elizabeth, Reed Page Clark; at Johannesburg, George K. Donald.

The Union of South Africa, referred to by some Britons as "The flower of British democratic development," includes the former colonies of the Cape of Good Hope and Natal, and the one-time Boer republics, the Transvaal and the Orange Free State. These were all united May 31, 1910, under self-governing privileges. Legislative power rests with a Senate of 40 members, each with a £500 property qualification, eight appointed and 32 elected; and a House of Assembly of 134 elected members. Voters must be British subjects of European descent.

The Government, to which the British Parliament granted broadest powers, is on a very advanced platform of expression of the people's will. There is an elected provincial council in each state with an administration appointed by the Governor General which deals with local matters.

The Union of South Africa is a member of the League of Nations.

The census of 1921 returned 1,519,488 whites and 5,409,092 colored; 4,697,813 were Bantu natives, 165,731 Asiatics and 545,548 of other races. Of the cities, Johannesburg, Cape Town, Pretoria, Port Elizabeth and East London alone returned a majority of white inhabitants.

The defense force of the Union has been entirely responsible for the military administration since Dec. 1, 1921, and the imperial soldiers have been withdrawn.

The railways owned by the several colonies prior to the Union were, in May, 1919, merged into one system, the South African Railways, under control of the Union Government. The total mileage in operation March 31, 1922, was 10.987 (Cape, 4,254; Natal, 1,416; Orange Free State, 1,342; the Transvaal, 2,644; and Southwest Africa, 1,331). The capital expenditure up to March 31, 1922, was £103,335,073; gross earnings, 1921-22, were £20,807,359; expenditures, £17,214,275. The mileage of privately owned lines was 571 (Cape, 453; Natal, 50; Orange Free State, 4; Transvaal, 7; and Southwest Africa, 74).

The overseas shipping entering the ports in 1922 was 1,216 vessels of 4,430,456 tons; coastwise, 2,711 vessels of 7,028,095 tons. Under the two-year extension of its mail carrying contract the Castle-Vail Steamship Line received a subsidy of £171,000 a year until Sept. 3, 1924.

The output of gold and diamonds from South Africa from the earliest dates of discovery to Dec. 31, 1922, is given in the following table, the value of gold being calculated at £4.2477 per ounce.

Province.	Gold.	Diamonds.
Cape of Good Hope	£21,886	£170,893,131
Natal	84,210	.....
Transvaal	749,234,347	31,426,595
Orange Free State	.....	19,847,693
Total	£749,340,443	£222,167,219

The value of the coal output for the Union in the same time was £22,962,626, chiefly from the Cape; and of tin, £1,633,844, chiefly from Transvaal.

The agricultural and dairying industries have been well developed for African areas, and such produce is even shipped to the London market.

The Transvaal and Natal have each 2,000,000 acres suitable for growing cotton. In Natal 5,200 acres were under cultivation in 1922-23 and the total yield there and in the Transvaal was about 4,000 bales.

Progress is being made in development of manufacturing to use the country's raw materials, more than $200,000,000 being already invested therein.

The Union of South Africa spent out of its loan funds for war services in the six fiscal years, 1915-21, £22,940,555.

The primary and secondary schools numbered, in 1920, 4,746 with 303,255 pupils for whites, and 3,129 with 238,137 pupils for colored; the teachers numbered 19,759 and the expenditures £5,940,037. There are nine universities with 173 professors and 3,292 students.

Budget 1924-25 balanced at £23,891 000, revenue, 1923-24, £24,911,000; expenditures, £24,434,102; expenditures on loan account, £12,229,000; extraordinary expenditure to combat plague of locusts, £240,000. Debt, March 31, 1924, £208,244,000.

Imports, 1923, £57,836,761; 1922, £51,413,450; exports, 1923, £78,639,849; 1922, £64,978,524.

Trade with the United States was:

Imports,	1920-21	$46,925,067
"	1921-22	18,059,700
"	1922-23	25,599,052
"	1923-24	32,667,705
Exports,	1920-21	10,838,040
"	1921-22	5,282,140
"	1922-23	15,203,259
"	1923-24	7,408,655

Southwest Africa, formerly German territory, annexed 1884, occupies the Atlantic Coast from the Orange River to Angola It was conquered by the armed forces of the Union in the World War, and surrendered on July 9, 1915, at Khorab. It is now administered by the Union under a mandate from the League of Nations, dated Dec. 17, 1920. It covers about 322,400 square miles and the native population is estimated at 218,000 with 19,000 Europeans, between 7,000 and 8,000 of whom are Germans and the rest South African farmers.

It has a very healthful climate, dry and temperate with variety, as the country rises to mountainous elevations inland. It is essentially a stock-raising country. There are 1,065 miles of railroads.

Budget, 1923-24—Revenue.....£753,300
Expenditures.....£786,020

Imports, 1922, were £1,147,637, exports, £1,247,229, principally diamonds (297,606 carats), £791,213; and copper (34,351 tons), £274,808.

SOUTH AFRICA.

SOUTHERN RHODESIA.

Governor, Lieut. Col. Sir John R. Chancellor K. C. M. G.

Premier, Sir Charles Coghlan.

Southern Rhodesia lies in the central part of South Africa, extending from the Transvaal Province northward to the Zambesi River, with Portuguese East Africa on the east and Portuguese West Africa and Bechuanaland on the west. It has an area of 149,000 square miles; European population, census of May, 1921, 33,500; native population, estimated, 770,000. The country is rich in gold reefs and other minerals, but has proved to be a rich agricultural country, especially adapted to European settlers. Fruit trees thrive, and regular shipments of oranges are exported. Acreage under crops in 1920 was, European, 211,094; native, 1,223,915. From 7,504 acres of tobacco there was an estimated yield of 3,000,000 pounds. Stock raising is an important industry. The output of gold from 1890 to 1923 inclusive is valued at £57,522,243. In 1923 the output of gold was 647 500 ounces (£2,909,159); silver, 172,209 ounces; copper, 3,388 tons, chrome ore, 93,475 tons, coal, 515,650 tons, asbestos, 14,249 tons. Value of the total mineral output being £4,300,652. Imports in 1922 were valued at £3,764,160, and in 1921 at £5,091,116; exports in 1922, at £4,627,693, and in 1921 at £4,815,155, of which gold in 1922 was £2,604,508, and in 1921, £2,298,596.

The total mileage of the railways in the two Rhodesias in 1922 was 2,468.

The two Rhodesias, Southern and Northern, have been under the administration of the British South Africa Company, who secured a Royal Charter Oct. 29, 1898.

Southern Rhodesia, on Nov. 6, 1922, voted in favor of responsible government and in consequence was formally annexed to the British Empire. A Governor, Cabinet and Legislative Assembly, with limited powers, took the reins of government on Oct. 1, 1923. Women vote.

The British South Africa Company gave up its claims to all public works and buildings for £3,750,000 and its claims to certain monopoly rights but retains its commercial rights and assets, its mineral rights, its railways and railway rights and 3,800.000 acres of land in Southern Rhodesia and 4,500,000 acres of land in Northern Rhodesia.

Revenue in 1921-22 was £1,532,000; expenditures, £1,277 000. There is no debt.

The Victoria Falls in Southern Rhodesia on the Zambesi River are the greatest natural spectacle in South Africa. They are a mile wide and from 250 to nearly 350 feet high. The river forces itself through a hundred foot outlet into a yawning gorge that winds away for forty miles. The railroad bridge crosses this gorge nearly 400 feet above the water level.

Northern Rhodesia, now has the status of a Crown Colony. It extends from the Zambesi River north to the border of the Congo State and Tanganyika Territory. It has an area of about 291,000 square miles with a permanent European population (1920) of 3,500 and native population estimated at about 928,000. The country is mostly high pleatau covered with thin forest. Much of it is suitable for farming and grazing. The lead mines yielded in 1922, 22,961 tons, valued at £344,417.

Basutoland, with 11,716 square miles, and, by the census of 1921, 498,781 population, of which 1,603 were Europeans, lies in South Africa northeast from the Cape of Good Hope Province on an elevated plateau. It is well watered and has a fine climate. Stock raising is most important. Products are wool, wheat, cereals, with beginning of iron workings and coal production promised. The territory is governed by a resident Commissioner under the High Commissioner for South Africa.

It is in fact a reservation set apart for the natives who are the most enlightened in South Africa and have increased from 40,000 to 500,000 in a century. Whites are not permitted to own land in it.

The revenue for 1922 was £212,538 and expenditures £224,547. Under the new Native Tax Law every adult male native pays £1 5s. per annum and if he can afford more than one wife he pays £1 5s. per annum for his wives up to a maximum of £3 15s.

Imports in 1922 were £702,125; in 1921, £556,645; exports in 1922, £669,330; in 1921, £510,448.

Bechuanaland, area, 275,000 square miles and population, by the census of 1921, 152.983, is in the middle of Southern Africa, between Southwest Africa and the Union of South Africa and Rhodesia. It is utterly undeveloped, but cattle growing and agriculture have gained momentum, and the livestock already totals more than 600,000 head. Gold is mined, the 1921 output being in excess of $100,000. It is a protectorate governed by a resident Commissioner.

Khama, its famous native King, died in February, 1923, at the age of about 100 years, having ruled his people for eighty years. He was converted to Christianity by David Livingstone.

Swaziland, with 6,678 square miles, and a population, by census of 1921, of 133,563, lies at the southeast side of the Transvaal, in South Africa, and produces chiefly tobacco, corn, vegetables, sweet potatoes, and livestock. Some gold is yielded. The country is undeveloped. It is governed by a resident Commissioner under the authority of the High Commissioner for South Africa.

BRITISH WEST AFRICA.

NIGERIA.

AREA, estimated, 332,000 square miles.
POPULATION, estimated, 16,250,000.
CAPITAL, Lagos.
Governor, Sir Hugh Clifford, G. C. M. G.

Nigeria lies in Western Africa, between Cameroon and Dahomey (French) on the Gulf of Guinea. The hinterland stretches back 600 miles to French West Africa. The tin, lead and iron ore industries are old and valuable. Other products are palm oil, rubber, nuts, ivory, hides, livestock, ostrich feathers, drugs and tobacco.

The growth of cotton is being carefully promoted, the 1922-23 crop exceeding 10,000 bales of long staple.

Nigeria is a country, like most of Africa, of vast natural resources, with barely initial exploration done up to this time. The people, as in all Mohammedan countries, are backward, but Europeans with capital have gone in and are bringing resources into play. Slavery was abolished by ordinance in 1917, and slave-dealing suppressed.

Commerce is mostly by the trading stations common to such lands, at which simple manufactures are exchanged for native products. There are (1920) 1,126 miles of railroad.

The revenue for 1921-22 was £4,876,746, expenditures, £7,171,997; debt, £13,609,209.

The value of the imports in 1921 was £10,768,812 and of exports, £8,028,412.

Cameroon, 31,000 square miles, and 400,000 population, lies between British Nigeria and the French Congo in Western Africa. It is part of the former German colony Kamerun, the eastern and larger part of which went to France (which see). It is a region of fertile soils, and progress is rapid toward building up valuable agricultural production—cloves, vanilla, ginger, pepper and palm oil Ivory is a large product.

The seat of Government is Buea and the administrator is the Governor of Nigeria.

Gambia, area, 4,130 square miles, and population, estimated at 240,000, is an independent West African British crown colony, from which nuts, hides and palm kernels are exported, and the usual supply of manufactures imported from developed countries.

Its imports in 1922 were valued at £653,421 and exports at £807,844. The tonnage of vessels entering the ports in 1921 was 339,999.

It is administered by a Governor as a crown colony. The revenue for 1922 was £204,244; the expenditures, £430,312.

THE GOLD COAST.

(The Gold Coast, Ashanti and the Northern Territories and mandate for Togoland.)

AREA—about 80,000 square miles; area of that part of Togoland under British mandate, 12,600 square miles.

POPULATION, census of 1921, 2,078,043; Europeans, 2,206. Togoland, estimated, 350,000.

CAPITAL, Accra; population, estimated, 38,000.

Governor, Brig. Gen. Sir F G. Guggisberg, K. C. M. G.

The Gold Coast lies along the Gulf of Guinea for 334 miles. The French Ivory Coast is on the west, and on the east is Togoland, formerly a German colony, and now divided by mandate of the League of Nations between Great Britain and France. The French portion, about 21,100 square miles, is attached for administrative purposes to Dahomey, in the east (which see), and the British, about 12,600 square miles, is administered by the Governor of the Gold Coast.

Under his administration also falls Ashanti, due north of the Gold Coast, and the Northern Territories, due north of Ashanti. These countries have enormous wealth in their forests, and the cultivation of cacao and rubber is being fosted. Palm kernels and oil are among the chief products.

There is a Government railway, 168 miles, from Seccondee to Kumasi, and a line from Accra to Anyinam (85 miles), the extension of which to Kumasi was to be pushed in 1922.

SIERRA LEONE.

AREA of colony, 4,000 square miles; of protectorate, 27,000 square miles; total, 31,000 square miles.

POPULATION of colony, census of 1921, 85,163; Europeans, 1,161; of Protectorate, census of 1921, 1,456,148.

CAPITAL, Freetown; population, 1921, 44,124.

Governor, A. R. Slater, C. M. G.

Sierra Leone lies on the west coast of Africa for 180 miles, between French Guinea and Liberia. In its capital, Freetown, it has the greatest seaport in West Africa, with an excellent harbor and a naval coaling station. The colony has been in British possession since 1767. The hinterland forms the protectorate, which extends inland about 180 miles. The chief exports are palm kernels, kola nuts and palm oil; the chief imports, textiles, spirits, tobacco and hardware.

Revenue, 1922, £786,540; expenditures, £816,977; imports, £1,511,496; exports, £1,372,862; debt, £1,729,848.

Tonnage entering Freetown, 2,474,226.

The trade of all British West Africa with the United States was:

Imports,	1920-21	$9,300,348
"	1921-22	6,077,715
"	1922-23	7,626,052
"	1923-24	7,733,796
Exports,	1920-21	7,051,365
"	1921-22	9,338,098
"	1922-23	14,897,266
"	1923-24	14,048,428

BRITISH EAST AFRICA.

Governor, Sir Robert T. Coryndon, K. C. M. G. appointed 1922.

United States Consul, at Nairobi, Avra M. Warren.

Kenya, crown colony and protectorate, extends from the Indian Ocean northeast to Italian Somaliland, north to Abyssinia, west to Uganda, and south to Tanganyika; its boundaries are the Umba, Juba and Uganda Rivers. Its area is 245,060 square miles and estimated population of about 2,500,000 natives. It had in 1923 about 11,000 Europeans, chiefly British, 36,000 East Indians and 10,500 Arabs.

In the northeast, stretching across the Equator, there is a tract of 200,000 square miles lying at an elevation of more than 4,000 feet, with a climate like that of California, vast rolling plains, crossed by rivers, dotted with lakes, where cotton and rubber can be grown, and two crops a year of food staples. Experts claim that enough cotton can be grown there to make the British textile industry independent of American supply. It is inexploited, occupied only by roving natives and thronged with wild game. White men can live there in health as nowhere else in Central Africa.

The Europeans of Kenya passed laws reserving the highlands for white settlement, restricting the Indians to the lowlands and less healthy regions. The Indian settlers complained bitterly of the discrimination practised against them, shutting them out from desired land and demanding political representation according to number, as equal citizens of the empire. The British colonists insisted that Kenya should remain a European colony in which their power should be dominant, and the British Government gave decision in their favor on July 25, 1923, in a Parliamentary paper to the effect that responsible self-government for the colony is out of the question; that the Indian demand for equal franchise cannot be granted, but that the Government is prepared to grant the Indians and Arabs representation on the Legislative Council through the communal system of election; that the elected members of the council shall comprise five Indians, one Arab and eleven Europeans. This leaves the franchise unchanged as regards white settlers. The policy of segregation as between Europeans and Asiatics in townships must be abandoned, but the existing practice of reserving agricultural land in the highlands for British and Europeans must be maintained.

Nairobi, a famous centre for big game hunting, is the capital. A government railroad runs from Mombasa, on the coast, through Nairobi to Lake Victoria Nyanza, 618 miles. The budget for 1925 was: Revenue, £2,093,460; expenditures, £2,091,679. The debt was £5,000,000 for railway construction and public works. Imports (including Uganda) in 1923 were £4,257,843; exports, £3,996,432. Exports were chiefly raw cotton, coffee, hides, ivory and sesame seed.

Tanganyika was formerly German East Africa, and was taken by the British in 1918, the Urundi and Ruanda districts going to Belgium, and the "Kionga Triangle" to Mozambique (Portuguese East Africa). It reaches from the coast to Lake Tanganyika and from Lake Nyassa to Victoria Nyanza. It is administered under a mandate from the League of Nations, by a Governor, with headquarters at Dar-es-Salaam.

The area is 365,000 square miles, estimated, and the native population, by census of 1921, 4,122,000. Whites are negligible, numbering less than 2,500.

Forest wealth is large, and there is much land susceptible of agricultural development for the production of tropical fruits and other foodstuffs. Domestic animals figure in the wealth of the people, who are extremely crude and uncivilized.

The western part of Tanganyika is a paradise for big game. There are many huge extinct craters, about 125 in number west of the gorilla country, Kilimanjaro; that of Ngoro Ngoro is surrounded by escarpments 2,000 feet high; is 35 miles wide and is crowded with game. Announcement was made in 1923 that it had been bought by Sir Charles Ross, of Scotland, who will protect it as a game preserve.

Revenue, 1923-24, £1,257,540; expenditures, £1,914,966.

The Uganda Protectorate, in East Africa, has

110,000 square miles, and the population in 1921 was estimated at 3,200,000. The country is well advanced in civilization, 750,000 of the people belonging to the intelligent class. Cotton is the chief product; the crop in 1922-23 exceeded 120,000 bales. Since the British took it over there has been expansion of foreign trade by 200 per cent.

The trade of all British East Africa with the United States was:

Imports,	1920-21	$2,600,642
"	1921-22	1,487,399
"	1922-23	1,566,582
"	1923-24	2,196,558
Exports,	1920-21	4,340,333
"	1921-22	1,204,997
"	1922-23	1,423,870
"	1923-24	1,298,318

Nyasaland, formerly known as British Central Africa, is situate on the southern and western shores of Lake Nya sa, and extends as far as Zambesi. It has 39,573 square miles, and in 1921 had 1,200,000 population, estimated. Coffee, tobacco, cotton, tea and livestock are the principal industries, foreign trade, revenue, 1922-23, £257,000; expenditures, £333,000; imports, £522,119; exports, £442,164.

ZANZIBAR.

Zanzibar is an island of 640 square miles, 23 miles off the eastern coast of Africa, having 196,733 population in 1910. Lord Salisbury, in 1890, traded Heligoland in the North Sea with Germany for it.

It is governed by a Sultan, Seyyid Khalifa ibn Harub, K. C. M. G. (succeeded Dec. 9 1911), but is administered by a British High Commissioner, Sir R. J. Coryndon, K. C. M. G., C. B., and a British Resident, J. H. Sinclair. The Island of Pemba, 30 miles to the northeast, area 380 square miles, is included in the government.

The people are Mohammedans, and their clove industry yields the bulk of the world's supply, there being, estimated, 48,000 acres, with 4,750,000 trees devoted to that product, with an output in 1921 of 16,700,000 pounds and 5,200,000 pounds of clove stems. The copra industry is next, with 55,000 acres, on which 2,500,000 cocoanut trees produce.

Manufactures are pottery, rope, soap, oil, jewelry and mats.

Revenue, 1923, £445,594; expenditures, £545,121; debt, £100,000; imports, £1,893,612; exports, £2,027,690.

Shipping entered, 832,404 tonnage.

Zanzibar, population, 35,000, has one of the finest ports in Africa.

MINOR AFRICAN POSSESSIONS.

Mauritius, an island in the Indian Ocean, 500 miles east from Madagascar, has 720 square miles, and in 1921, 385,074 population, of which 265,884 were Hindus. Port Louis, population, 50,308, is the capital and chief seaport.

Of the total of £10,526,655 exports in 1921, £10,306,000 was sugar. The sugar crop in 1922-23 was 227,600 tons and in 1921-22 it was 200,589 tons.

Seychelles and tributary dependencies include 90 islands of 156 square miles, and a 1920 population of 24,500, estimated, lying in the Indian Ocean near Mauritius. The capital is Victoria, a port with an important coaling station. From 23 000 acres, in 1920, there were 23,000,000 cocoanuts produced, other products being phosphates, mangrove bark, livestock and fish.

Somaliland, a protectorate, with 68,000 square miles, and 300,000 population, all Mohammedans, is in Northeast Africa, on the Gulf of Aden, with Abyssinia to the south and west and Italian Somaliland on the east. The chief town is Berbera, population 30,000, and the products skins, resin, gum, cattle and sheep.

St. Helena, the island made famous by the exile of the Emperor Napoleon, is 1,200 miles off the west coast of Africa, has 47 square miles, and, 1921, 3,658 population. Fruits, nuts, timber, flax, lace making, flax the chief, are the industries. Imports, 1922, were £44,636, exports, £24,418; the revenue, 1922, was £16,282, expenditures, £11,621. It is an important naval coaling station, and, although volcanic and small, has large strategic value.

Ascension Island is in the South Atlantic off the coast of Africa, containing 34 square miles and 250 population. It was under the jurisdiction of the Admiralty as a warship until Nov., 1922, when it was transferred to the Colonial office and annexed to the Colony of St. Helena. It was valued for the green turtles it supplied to the Admiralty, regularly since 1771.

Tristan da Cunha is a group of three islands with 127 inhabitants which lie in the South Atlantic, 1,500 miles due west of the Cape of Good Hope. The islands are rarely visited, yet the inhabitants, who have suffered great privations and loss of cattle and crops, are devoted to their home and refuse to leave it.

AUSTRALIA, COMMONWEALTH OF

AREA, 2,974,581 square miles, divided: New South Wales, 309,432; Victoria, 87,884; Queensland, 670,500; South Australia, 380,070; West Australia, 975,920; Tasmania, 26,215, Northern Territory, 523,620; Federal Territory, 940.

POPULATION, census of April, 1921, 5,496,794, divided: New South Wales, 2,099,703; Victoria, 1,531,529; Queensland, 757,634; South Australia, 495,336; West Australia, 332,213; Tasmania, 213,877; North Territory, 3,870; Federal District, 2,572; full blooded aborigines, not enumerated, estimated 60,000. Estimated population, March 31, 1924, 5,777,262 (excluding aborigines). Excess of births in 1922, 86,185; excess of arrivals over departures, 38,138.

CAPITAL, Melbourne; population, 1921, including suburbs, 795,100; chief cities, Sydney, population, including suburbs, 905,947; Brisbane, 209,699; Adelaide, 260,542; Perth, 154,866; Hobart, Tasmania, 52,163.

Governor General, Lord Forster of Lepe, P. C., G. C. M. G.

Prime Minister, Stanley M. Bruce (Foreign Affairs).

Commisstoner for the Commonwealth in the United States, A. M. Elder. Australian diplomatic interests are represented in Washington by the British Ambassador, and consular interests are cared for by the British Consuls.

United States Consul General, at Melbourne, Maxwell Blake; *Consuls,* at Sydney, Ezra M. Lawton; at Newcastle, N. S. W., Romeyn Wormuth; at Adelaide, Henry H. Balch.

Australia, itself a continent, is situate between 10° and 40° south latitude and 113° to 153° 40′ east longitude in the Pacific Ocean, with the Indian Ocean on the west. The states of the Commonwealth are: New South Wales Victoria, Queensland, South Australia, West Australia, the Northern Territory, and Tasmania, formerly known as Van Dieman's Land, an island the size of the States of Vermont, New Hampshire and Massachusetts, which lies off the southeast corner of the mainland. Altogether the Commonwealth is very nearly as large as Continental United States. Its development has been made in 150 years. The Commonwealth was proclaimed on Jan. 1, 1901.

Australia is one of the important parts of the British Empire, with that complete self-government that obtains in Canada. In the east mountains rise to about 7,000 feet altitude; the central portion extends westward in rolling plains, becoming sandy and in places desert, until higher elevations are reached along the west coast. The Murray River, rising on the slopes of the mountains, is navigable inland for 2,000 miles.

The climate, being in the South Hemisphere, is temperate in the south, and in the north tropical. The interior portions are subject to high temperature, and in all parts the climate is regarded as healthful, being dry. Rainfall is normal only on the north, northeast and southeast coasts.

Australia is governed on the Federal plan, with a Parliament, of Senate and House of Representatives. Like Canada, it accedes to imperial requests voluntarily in all economic matters, as well as military and naval, has been loyal, but "with a mind of its own." Australian troops in the late war served with distinction.

The federal territory, Canberra, of 940 square miles, has been set up midway between Sydney and Melbourne, 70 miles inland but connected with a fine landlocked harbor on Jarvis Bay by a corridor. Parliament and administrative buildings have been begun and a carefully planned city laid out.

The Commonwealth of Australia is a member of the League of Nations.

AGRICULTURE, MINING AND INDUSTRY.

Products are not dissimilar to those of the United States. The 1920-21 reports showed the total tilled areas to be 15,069,858 acres. The wheat acreage was 9,072,167, production 145,873,850 bushels, 16.08 bushels to the acre. In 1921-22 the acreage was 9,727,000, production 128,972,000 bushels. The oat crop in 1920-21 was 18,521,077 bushels from 936,996 acres; barley, 7,155,376 bushels from 334,747 acres; and maize, 7,258,782 bushels from 284,283 acres. The production of sugar in 1920-21 was 183,000 tons; in 1921-22, 299,000 tons and in 1922-23, 300,000 tons. From 81,165 acres of vineyards in 1920-21 141,339 tons of grapes were gathered, from which 11,014,220 gallons of wine were made. The yield of the 278,551 acres of orchards was 6,007,461. Hay was cut from 3,233,189 acres, yielding 4,686,366 tons, and 140,195 acres produced 373,056 tons of potatoes.

The number of horses in 1920 was 2,415,500, of cattle 13,499,700, of sheep 77,897,000, and of swine 764,400. The production of wool was 547,503,000 pounds, valued at £32,856,000, of which 486,000,000 pounds were exported. The export of wool in 1921-22 was 819,231,171 pounds, valued at £47,975,498. The butter product in 1920-21 amounted to 208,082,000 pounds, of which 92,421,000 were exported; the export in 1921-22 was 127,579,797 pounds, valued at £7,987,558.

Forests cover 92,500,000 acres, of which 17,670,000 have been reserved for timber.

There are now 12 cooperative distributing companies in Australia handling produce, including wheat, of a value exceeding £25,000,000 annually; eleven joined in a federation opened an office in London in 1920 with a turnover that year of £2,000,000.

The total mineral output up to the end of 1921 was valued at £1,020,440,000; of this £609,300,000 was gold. The output for 1921 was: Gold, 758,000 ounces; silver, 5,304,950 ounces; lead, 62,777 tons, zinc, 21,297 tons; copper, 18,634 tons; tin, 2,990 tons; pig iron, 352,365 tons; coal to the value of £11,015,000.

The Queensland government has guaranteed 5½ pence per pound for seed cotton and under this stimulant in 1920-21, 13,500 acres were planted to cotton, producing 3,477,222 pounds; and in 1921-22, 14,970 acres, producing 4,400,000 pounds of a standard 25 to 50 per cent. higher than Middling American. In 1923-24 70,000 acres were planted.

The estimated values of Commonwealth production in the various industries for the year 1920-21 were as follows: Agricultural, £112,796,000; pastoral, £93,824,000; dairy, poultry, etc., £52,613,000; forestry and fisheries, £10,490,000; mining, £22,457,000; manufacturing, £110,028,000. Total, £402,208,000.

The increase in manufacturing industries for the pre-war year of 1913 and the year 1922-23 is shown in this table.

	1913.	1922-23.
Number of factories.....	15,536	19,169
Number of employees.....	337,101	412,349
Salaries & wages paid.....	£33,606,087	£71,113,897
Value of raw materials worked up.....	96,407,477	186,052,465
Total value of output.....	161,560,763	326,448,189
Value of land & buildings.	37,099,232	74,465,254
Val. of plant & mach'y ...	37,054,302	86,048,375

EXPERIMENT WITH MERCHANT MARINE.

The Commonwealth's fleet of merchant ships on June 30, 1923, was made up of 49 steam vessels of 252,524 gross tons at an original cost of £11,818,938. The cost of ships still under construction was estimated at £2,338,000, making the total cost of the fleet when completed according to the program, £14,156,938. The present book value was given at £12,766,588, but the current market appraisal of the fleet is put at £4,718,150.

The operating account shows that the large profits of £2,304,448 made during and immediately after the war have been swallowed up in the heavy losses during the past two years amounting to £2,797,719, so that the whole period of Government operation shows a net loss on that account of £493,271.

Besides the "write off" of £8,000,000 to cover the difference between the book value of the fleet and its present market value and the loss of nearly £500,000 on operations, the Government also lost £2,300,000 on its contract for 14 American wooden steamers, of which five were delivered and operated for a short time. The total losses on the Australian Government's venture in shipbuilding and shipowning are thus close to £11,000,000.

The fleet had been under the direction of a managing owner representing the Administration. In August, 1923, a Federal Shipping Board of three members was created to take over the fleet at the valuation of £4,718,150, the Government accepting losses hitherto incurred. The board proposes to dispose of about 25 vessels, retaining only about 15 of the best ships.

Ships entering ports in the year 1922-23 numbered 1,750, of 4,643,316 tons.

The total mileage of Government railways open for traffic in 1922-23 was 23,888. The cost of construction and equipment was £250,000,000. The deficit in working the Commonwealth railways in 1920-21 was £455,200 and of working state railways of the six several states, £4,013,146; total deficit, £4,468,346. Railroad mileage under construction in that year totalled 1,562 with an additional 1,793 authorized. There are 994 miles privately owned railroads opened for general traffic and 1,912 not so opened. The Premiers have adopted 4 feet 8½ inches as the standard gauge on the recommendation of a royal commission, and to make all the varying railroads uniform will cost, it reports, £57,200,000. This will be done, the first step being to convert the whole of the broad gauge line of Victoria and South Australia at an estimated cost of £21,600,000, spread over eight years.

The Commonwealth's revenue in 1922-23 was £64,720,635; expenditures, £63,700,485. Estimates for 1923-24 were: Revenue, £61,943,250; and expenditures, £61,896,098, but the surplus reached £2,657,093, making the accumulated surplus £10,000,000, so the Government announced on Aug. 15, 1924, that taxes for current fiscal year would be scaled down by £2,000,000.

Invalid and old age pensions allowed by the Commonwealth Government were increased from 15 shillings per week to 35 shillings fortnightly, on Sept. 13, 1923. The number of persons receiving old age pensions on June 30, 1923, was 107,389, and invalid, 40,064; war pensioners numbered 232,155.

COST OF WAR TO AUSTRALIA.

The total cost of the war, including interest, etc., to the Commonwealth Government, from August, 1914, to March 31, 1923, was £457,322,768, of which £302,015,319 were met by loans and £155,307,449 by revenue. To these amounts, however, are to be added a portion of the indebtedness to the British Government (about £42,000,000) and war gratuity indebtedness (war bonus paid in bonds to soldiers), outstanding amounts to £20,786,033, which would increase the bonded debt to about £365,000,000 and the total to approximately £520,000,000, which sum includes practically the grand total direct cost of the war and of the war gratuity, together with a larger part of the repatriation expenditures.

The net public debt of the Commonwealth on June 30, 1923, was £885,792,191; the total of the public debts of the several states at that date were £538,325,959, making a grand total (less duplications) of £885,792,191. The revenue and expenditure of the several states for the fiscal year 1922-23 including railway receipts and expenditures and the public debts of the states on June 30, 1923, were:

State.	Revenues.	Expenditures.	Public Debt.
	Pounds.	*Pounds.*	*Pounds.*
New South Wales.	36,145,944	35,342,436	187,879,491
Victoria.....	21,298,000	20,926,000	118,562,029
Queensland ...	12,599,403	12,784,382	88,005,001
South Australia ..	8,431,700	8,426,517	62,496,585
West Australia...	7,207,492	7,612,856	58,943,677

Totals.....	87,856,601	87,464,714	538,325,969

Imports, 1923-24, were £140,569,853; 1922-23, £131,757,835; 1921-22, £101,063,661; exports, 1923-24, £119,567,407; 1922-23, £117,870,147; 1921-22, £127,846,535.

Free trade rules between the states of the Commonwealth, but £22,597,306 in customs dutles were collected in 1922-23.

Next to Great Britain the United States took the largest proportion of the exports, and more than half as much was imported from the United States as from Britain.

In 1918 there were 3,424 public schools, and there are several technical schools and six State Universities.

As in all parts of the Empire there is religious freedom, and the Church of England predominates.

Australia is insufficiently explored and is expected to develop rapidly in the ensuing years. Its possibilities seem boundless.

Its economic life is tied with the distant North Hemisphere, and its political life with Britain; and its prevailing policy appears to be to erect barriers to the entrance of Asiatics.

Trade with the United States was:

Imports, 1920-21		$120,985,720
"	1921-22	64,776,548
"	1922-23	96,310,785

"	1921-22	19,193,614
"	1922-23	54,718,560
"	1923-24	31,989,715

NEW ZEALAND, DOMINION OF

AREA. 103,568 square miles, divided, Auckland Province, 25,364; Taranaki, 3,732; Hawke's Bay, 4,241; Wellington, 10,807; Marlborough, 4,225; Nelson, 10,875; Westland, 4,881; Canterbury, 13,858; Otago, 13,957; Southland, 11,355.

POPULATION, census of 1921, 1,218,913, divided, Auckland, 369,618; Taranaki, 61,911; Hawke's Bay, 60,925; Wellington, 248,801; Marlborough, 17,788; Nelson, 47,628; Westland, 14,181; Canterbury, 199,034; Otago, 137,038; Southland, 61,989. These figures are exclusive of Maoris, who numbered 52 781.

CAPITAL, Wellington; population, estd. April 1, 1922, 110,680. Chief cities, Auckland, population, 160,450, Christchurch, 110,201, Dunedin, 73,470.

Governor General, Gen. Sir Charles Fergusson, Bart., K. C. B., K. C. M. G.
Prime Minister, the Rt. Hon. W. F. Massey (Finance, Railways, Mines, Stamp Duties, Land and Income Tax, State Advances and Imperial Supplies).
United States Consul General, at Wellington, Edwin N. Gunsaulus. *Consul*, at Auckland, Karl de G. MacVitty.

New Zealand lies 1,200 miles east of Australia, in the Pacific Ocean. The group is 1,000 miles long and 180 across at the broadest part, with a coast line of 3,000 miles. It extends north and south from 35 degrees of southern latitude to 46. It consists of two principal islands, North Island (44,130 square miles) and South Island, (58,120 square miles). and Stewart Island, (662 square miles). Auckland Islands (about 330 square miles) 200 miles south and uninhabited, Chatham Islands (375 square miles) 536 miles east; the Cook Island group (280 square miles) 1,500 miles northeast, with a population of 13,209 and of which Rarotonga is the largest, and some small uninhabited islands, are also under the New Zealand flag. New Zealand proper is about the size of New York, Pennsylvania and New Jersey.

The agricultural possibilities are very great, two-thirds of the area being tillable, with 17,000,000 acres forested. The actual tilled area in 1922 was 18,381,363 acres, of which 16,102,598 were sown to grass; 426,245 acres of Crown land were opened to settlement on March 31, 1921. In 1922, production was 10,626,807 bushels of wheat from 354,446 acres; 6,744,545 bushels of oats from 170,177 acres and 1,181,828 bushels of barley from 34,062 acres, and 482,514 bushels of maize from 10,416 acres. In addition, 345,000 acres were planted to grains for use as ensilage, etc. In order to encourage the growing of wheat and thus avert a shortage, the Government during the last few years has agreed to purchase all the wheat grown at a price fixed before the season. The price for the 1921-22 season was from 5s 6d to 6s 3d per bushel. A surplus resulted which the Government has had to dispose of and considerable shipments have been made to Japan. Wheat averages were twice per acre that of the United States, and the other crops were on a relatively high level of productivity.

On April 30, 1923, the number of sheep was 23,081,439; horses, 331,855, cattle, 3,272,126; swine, 380,026. Wool export in 1923 was £10,904,658.

The total number of farm holdings was 84,899 (acres 43,528,337). The small holdings, under 50 acres, numbered 29,527, (476,213 acres); holdings of 640 acres and above, numbered 11,167, of acres, while there were 59 holdings of over 100,000 acres, (total, 5,042,065 acres). In 1922, 135,395 persons were engaged in agriculture, cattle raising and dairying.

The total arrivals of immigrants for the year ending March, 1922, was 15,606.

Manufacturing establishments in 1921 numbered 4,804 with 70 255 employees, capital of £39,564,837 and an output valued at £82,473,569, nearly half of which was food products. The production of coal was 1,809,095 tons of which 53,183 were exported. Gold exported amounted to 149,595 ounces, valued at £612,168

The available water power is estimated at a total of 4,076,700 H. P. of which 3,317,000 is in South Island, and the bulk of it located near the deep water sounds of the west coast with many sites especially suitable for industries. Development is under way in North Island involving an expenditure of £15,000,000 by the state for plant and transmission line to Auckland.

In 1923 there were 3,037 miles of railways Government-owned, and 135 miles privately owned. The total expenditure on construction on all Government lines up to March 31, 1922, was £44,689,748. Net earnings 1922-23 were £1,225,305, an increase of 200 per cent. over the previous year and representing 3.04 per cent. on capital invested. Gross revenue was £6,727,802.

Vessels entering the ports in 1921 numbered 678 with a total tonnage of 1,940,236, of these 633 were British.

By the law enacted in 1898, and later amended, every person not an alien or an Asiatic who fulfils certain conditions is entitled to a pension of £26 a year. The joint income of a married couple in receipt of pensions must not exceed £100 a year, (including pension) Pensions in force July 1, 1922, were, old age, 20,611, annual value, £762,607; average pension, £37; widows, 3,325, annual value, £206,150; average pension, £62; war, 28,400, annual value, £1.476,800; average pension, £52.

The revenue for 1923-24 was £29,760,000; expenditures. £26,148,000. Debt, March 31, 1923, was £218,953,324, of which £80,563,885 was for war expenditure.

Imports in 1923 were £43,486,544 (approximately $208,742,000); in 1922, £35,005,440 ($155,102,000); exports, 1923, £45,967,119 ($219,011,000); 1922, £42,726,249 ($186,247,000).

Imports are chiefly textiles and clothing, iron, steel and their products, oils, sugar, tobacco, paper and chemicals. Exports were frozen meat, butter, cheese, milk (preserved), wool, and hides and skins.

New Zealand is politically organized along very broadly democratic lines, with tendency to advance rather rapidly into the realm of economic and sociological experiment.

Its Government is by Legislative Council of 39 members, shortly to be enlarged by popular election to 64, and a House of Representatives of 80 members elected for three years.

The Dominion of New Zealand is a member of the League of Nations.

Trade with the United States was:

Imports	1920-21	$47,605,552
"	1921-22	17,419,616
"	1922-23	23,788,442
"	1923-24	27,020,981
Exports	1920-21	22,237,914
"	1921-22	9,896,813
"	1922-23	15,367,149
"	1923-24	12,983,490

AUSTRALASIAN POSSESSIONS.

In the Pacific reaches of Australasia, of the other areas under the British Empire these are the most important:

Papua, or British New Guinea, on the Island of New Guinea north from Australia, with 250,000 estimated population, and 90,540 square miles, the people being crude tribes. The interior of the great island is unexplored.

The soil is very fertile, the rainfall abundant, the rivers navigable, the harbors excellent and the known mineral deposits valuable. It seems destined to become Australia's richest dependency. The white population June 30, 1921, was 1,343, revenue £98,175, expenditures £146,827, imports £484,770, exports, £172,672.

New Guinea, formerly German New Guinea, has been mandated by the League of Nations to Britain. It has about 70,000 square miles and a native population estimated at about 200,000.

Bismarck Archipelago, 15,752 square miles, and with a native population of about 188,000, and the **Solomon Islands**, 3,800 square miles, and with a population of about 17,000, both formerly German possessions, have been placed under Britain by the League of Nations.

Nauru Island, formerly German, mandated by the League of Nations to Britain. It has valuable guano deposits; 236,435 tons were exported in 1921.

WESTERN SAMOA.

German Samoa, which included Savaii and Upolu, the largest of the Samoan Islands in the Western Pacific, were occupied by the British on Aug. 29, 1914, immediately on the outbreak of the World War. This territory was assigned as a mandate from the League of Nations to New Zealand under date of Dec. 17, 1920, and is now called Western Samoa.

Savaii is 48 miles by 25 and has an area of about 660 square miles. Upolu has an area of about 600 square miles. Both are mountainous, fertile and well watered. The population of the two aggregated by the census of June, 1922, 37,791, of which 1,035 were British and 292 Americans. The chief product is copra.

Fiji Islands, 250 in number, area, 7,083 square miles, population, census April 24, 1921, 157,266. Europeans, 3,878; Fijians, 34,475; Indians, 60,634; Its products tropical fruits, vegetables, sisal hemp and domestic animals.

The revenue for 1921 was £569,722 and the expenditures £752,038; the imports were valued at £1,509,732, exports, £2,457,851.

The Governor, Sir Cecil Hunter Rodwell, is also High Commissioner for the Western Pacific.

Tonga Islands, or Friendly Islands, about 385 square miles, with a population of 23,562, export copra and livestock.

The New Hebrides, area, 5,500 square miles; population about 60,000, are under the joint administration of Great Britain and France.

The trade of British Oceania with the United States was:

Imports,	1920-21	$841,701
"	1921-22	355,192
"	1922-23	386,423
"	1923-24	648,647
Exports,	1920-21	2,131,849
"	1921-22	635,584
"	1922-23	910,231
"	1923-24	953,650

Other Foreign Countries.

ABYSSINIA, KINGDOM OF
ETHIOPIA.

AREA, estimated, 350,000 square miles.
POPULATION, estimated, 10,000,000.
CAPITAL, Addis Ababa; pop., estimated, 70,000.
Empress, Waizeru Zauditu, daughter of the late Emperor Menelik, born in 1876; elected Empress Sept. 27, 1916, after her nephew Lij Yaser was deposed. *Heir*, Ras Taffari, born July 17, 1891.

Abyssinia is a mountainous, volcanic country in northeast Africa, bounded by Eritrea (Italian) on the north, British Somaliland (Berbera) and Italian Somaliland on the east, Kenya and Uganda on the south, and the Sudan on the west. The agricultural and mineral resources of the country are comparatively undeveloped, and its wealth of water power is unused. In the lower country and deep valleys, which are very hot, sugar cane, cotton, coffee and rubber are produced, while grain, fruit, tobacco, potatoes, etc., are grown in the higher temperate country. The upper slopes are given over to cattle raising. Hides, skins, coffee and beeswax are the chief exports, and cotton goods the chief imports. The total trade is estimated at about $12,000,000. A railroad 495 miles long, built under French auspices, runs from Jibuti to the capital.

German scientists describe the Abyssinians as "a mixed Hamito-Semitic people," and other ethnologists assert that the "true Abyssinian type contains no Negro blood whatever and none of the Negro qualities, either physical or mental." The royal family claims descent from Menelik, the son of King Solomon and the Queen of Sheba. Abyssinia is the only country in Africa that was neutral in the World War. Abyssinia applied for membership in the League of Nations in 1923. After an investigation into the existence of slavery in the kingdom and the promulgation of a decree in June, 1923, making slave trading punishable by death, Abyssinia was admitted to the League, Sept. 28, 1923.

Trade with the United States was:

Imports,	1920-21	$19,477
"	1921-22	2,051
"	1922-23	5,227
"	1923-24	18,229
Exports,	1920-21	336
"	1921-22	9,500
"	1922-23	172
"	1923-24	2,511

AFGHANISTAN

AREA, estimated, 245,000 square miles.
POPULATION, estimated, 6,330,500.
CAPITAL, Kabul; population, estimated, 150,000; other cities, Kandahar, population, 31,000, and Herat, 20,000.
Amir, Amanullah Khan, born June 1, 1892, succeeded on the assassination of his father, Amir Habibullah Khan, Feb. 20, 1919. *Heir*, his son, born June 5, 1921.

Afghanistan occupies a mountainous country in Asia between 61° and 72° east longitude and 29° and 38° 20′ north latitude. Its extreme breadth northeast to southeast is about 700 miles, and from the Herat frontier on the west to the Khyber Pass on the east it is 600 miles. It is bounded on the north by Transcaspia (Russia) and Bokhara, on the east by British India, on the south by Beluchistan (British India), and on the west by Persia. The elevation is generally over 4,000 feet. There are three great river basins, the Oxus and the Kabul in the northeast, and the Helmund, which runs southwest through the middle of the country. It lacks 20,000 square miles of being as large as Texas.

Afghanistan has been called "the land of rocks and stones and sanguinary feuds." Its people are nearly all Mohammedans. The Afghans have been the dominant race for 200 years, the Tajiks, aborigines, being cultivators and traders. Along the frontier are warlike and independent tribes of Pathans and others with a fixed habit of raiding across the border and receiving punishment. Disturbances have been frequent. The languages spoken are Pushtu and Persian.

There are many fertile plains and valleys in the mountains, and good irrigation makes available all profitable soil. There are two harvests a year, one of wheat, barley or lentils, and the other of rice, millet, maize and dal. Fruits of the temperate zone are plentiful. Sheep and transport animals are raised. The fat-tailed sheep is native to the country. Its tail is of immense weight and size, formed of masses of fat, a store of nourishment drawn on by the animal in winter. These sheep furnish the Afghans their chief meat diet, and the fat of the tail is a substitute for butter. Wool and skins are the main articles of export, together with fruits, nuts and ghi. The imports are textiles, metals and hardware, leather goods, tea and sugar. Transfrontier trade with India amounts to about $15,000,000 annually. Copper, lead and iron are found.

There are no railroads in the country, but plans have been developing looking toward the building of railroads across the country in the northeast to connect Termez, the rail head of the road from Bokhara, with Peshawur, in British India, via Kabul, and another to connect with the railroad from Merv at its rail head at Kuska, via Herat, in the west, and Kandahar, in the south, to New Chaman and Quetta, in Beluchistan. Merchandise is now transported on camel or pony back along the seven important trade routes.

The Government is monarchical and the laws and customs those of Islam. The late Amir was recipient of a subsidy from the British Government, but that was ended by a new treaty signed on Nov. 22, 1921, in which Great Britain recognized the complete independence of Afghanistan, established the frontiers, and withdrew the privilege Afghanistan had enjoyed of importing arms and ammunition through India. The Afghan army was reported to number 100,000 well armed men.

ALBANIA

AREA, estimated, 17,374 square miles.
POPULATION, census of 1921, 831,877.
CAPITAL, Tirana; pop., estimated, 12,000; other cities, Durazzo, pop., 5,000; Scutari, pop., 32,000; Elbasan, pop., 13,000; Valona, pop., 7,000.
Premier, Bishop Fan Stylian Noli.
United States Minister, Ulysses Grant-Smith.

Albania, after centuries of Turkish domination and of contention between its Balkan neighbors and Italy during and after the World War, has had its independence assured under a treaty with Italy, Aug. 2, 1920, and was formally admitted into the League of Nations in January, 1921.

The country is mountainous, bounded by Jugo-Slavia on the north and east, Greece on the south, and the Adriatic Sea on the west. It is an agricultural and cattle and sheep raising state. There are no railroads, banks or currency and few schools. It is about the size of New Hampshire and Vermont.

The latest census, 1921, returned the population as: Mohammedans, 584,675; Greek Christians, 158,215; Roman Catholics, 88,987; total, 831,877.

Legislative power rests in a Diet of 120 members, elected in January, 1924. At the head of the state is a Council of Regents composed of a representative of each of the four religious bodies of the country, a Bektashi Moslem, a Sunni Moslem, a Greek Catholic and a Roman Catholic.

Revolution in May and June, 1924, resulted in the overthrow of the Premier, Ahmed Zogu, and the establishment, on June 12, of a nationalist provisional government with Bishop Fan Stylian Noli, former foreign minister, at the head. He was educated at Harvard University, 1909-12, and is the head of the Albanian Orthodox Greek Church.

The budget as passed by the National Assembly on June 18, 1923, provides for an expenditure of 21,664,073 gold francs, of which 5,280,620 is appropriated for the Ministry of War, 2,838,120 for the gendarmerie and 2,000,000 for the Ministry of Public Instruction.

The trade of the country was:

Imports,	1920,	gold francs		17,530,000
"	1921,	"	"	17,659,000
Exports,	1920,	"	"	1,522,000
"	1921,	"	"	2,190,000

ANDORRA, REPUBLIC OF

AREA, 191 square miles.
POPULATION, 1921, 5,231, scattered in 30 villages.
President, Don Bonaventura Vilarruble.

Andorra is a republic in a valley of the Pyrenees under the suzerainty of France and the Spanish Bishop of Urgel. It is governed by a Council of 24, elected for 4 years by heads of families in each of the six parishes. The inhabitants speak Catalan and are Roman Catholics. Sheep raising is the chief industry. Andorra is not a member of the League of Nations.

ARABIA

AREA, estimated, 1,200,000 square miles.
POPULATION, estimated, 5,000,000.

The Arabians occupy a peninsula in the southwest corner of Asia between Palestine on the west, Syria on the north and Mesopotamia on the northeast (an

indeterminate line), the Persian Gulf, the Gulf of Oman, the Arabian Sea and the Red Sea, with the exception of Aden, a strongly fortified coaling station of 75 square miles with a protectorate of adjacent territory of 9,000 square miles, pop. 54,923, held by Great Britain. Nearly one-half of Arabia is desert. It is, roughly, as large as that portion of the United States stretching east of California to the Mississippi and north from Texas to the Canadian line. Maps are very deficient. The boundaries of the native states of Arabia are undefined. Turkey, in the treaty of peace, renounced all rights to Arabia. The organization of the native states is to be developed under British auspices, the principal rulers (the King of the Hejaz and the Iman of Yemen) being subsidized on condition that they maintain internal peace and place the control of foreign affairs in the hands of British advisers. These states are:

THE KINGDOM OF THE HEJAZ.

King of the Hejaz, Ali ibn Husein, succeeded his father, Husein ibn Ali, who abdicated, Oct. 3, 1924 (Grand Sherif of Mecca).

Husein ibn Ali, Grand Sherif of Mecca, who had been proclaimed King of the Hejaz in 1916, when he cast off allegiance to the Sultan and joined the Allies against the Turks in March, 1924, was proclaimed Caliph of Islam by the Moslems of much of Arabia and the Iraq, when the Grand National Assembly of Turkey deposed the Caliph and declared the Caliphate abolished. This did not suit Adb el-Aziz es-Saud, Emir of Nejd and warlike leader of the Wahabis, the extreme fanatic austere Moslem zealots. In August, he invaded Transjordania, ruled by Husein's son, Emir Abdullah, but was driven back by British air forces. In September, he captured Taif, 60 miles east of Mecca, and threatened the Holy City. King Husein abdicated both the throne and the Caliphate on Oct. 3. His eldest son, Emir Ali, accepted the throne but not the Caliphate. Ibn Saud captured Mecca by assault on Oct. 14, King Ali and his forces retreating to Jeddah, the port on the Red Sea.

The Wahabis apparently did not loot the town, but after praying in the mosque and casting out the "apostates" returned to their desert homes.

(See Chronology for developments.)

The Hejaz was represented at the Peace Conference by the Emir Feisal, third son of Husein, now King of Iraq, and was admitted to the League of Nations in 1920. Its area is about 112,500 square miles, and population (estimated) of about 900,000

The importance of the Hejaz is due to its possession of the holy cities of Islam, Medina, where the Mosque of the Prophet enshrines the tomb of Mohamet, who died in the city June 7, 632, and Mecca, his birthplace, containing a great mosque sheltering the sacred shrine, the Kaaba, in which is the black stone given by Gabriel to Abraham. As many as 200,000 of the faithful have made the pilgrimage in a year. Medina (pop. 20,000) is 820 miles from Damascus, and is the terminus of the Hejaz railroad. Mecca (pop. 60,000), the capital, is 200 miles further south, and is 55 miles from Jeddah (pop. 20,000), the chief port on the Red Sea. The chief product is dates. Some hides, wool and gum are exported.

TRANSJORDANIA.

Emir, Adbullah, second son of King Husein of The Hejaz, and brother of King Feisel of the Iraq; became ruler April, 1921.

Transjordania is an Arab state set up within the Palestine Mandate yet separate from Palestine (Sept. 1, 1922). It is under the responsibility of the High Commissioner for Palestine, Sir Herbert Samuel, who has a British agent there, H. St. J. B. Philby. The Emir administers the country under a council of advisers.

The boundaries have not been determined, but roughly on the west the line separating it from Palestine runs from the Lake of Tiberias down the Jordan to the Dead Sea and thence south across Wadi el Araba to Marashash on the Gulf of Sinai; on the north it is separated from Syria by the river Yarmuk, thence eastward to Imtar and thence a straight line northeast toward Abu Kamal on the Euphrates; on the east the boundary between it and the Iraq runs south from Abu Kamal to the junction of the boundaries of the Iraq and Nejd; on the south lies Nejd and the Hejaz. No estimate of the area is available, but the population is roughly placed at between 300,000 and 500,000, mostly Arabs and Moslems, about half being nomads. The Christian population is estimated at 30,000.

The King of the Hejaz, in 1924, transferred Akaba and Tebuk to Transjordania.

The country is largely desert except for a thirty-mile strip between the Jordan and the Hejaz railroad which traverses the country from Dera to Maan, its present terminus. A road fit for motor traffic runs from Jerusalem to the capital, Amman, where there is a British acrodrome and air-force detachment.

The estimated revenue for 1923-24 is £160,000 and the British grant-in-aid is £150,000. For schools in the towns and larger villages £18,000 was set aside in 1922-23.

THE EMIRATE OF NEJD AND HASA.

Emir, Abd-el-Aziz es Saud ibn Saud.

Known as "the true home of the Arabs," this province stretches east from the Hejaz across the oases of Central Arabia to the Persian Gulf. Its estimated population is 400,000, mostly nomadic Bedouins, and its capital is Ridyadh, a "forbidden city."

Great Britain has for several years subsidized the Emir with $300,000 yearly to preserve peace in Arabia. The Arabs are of the Wahabi sect, austere, fanatical. (See the Hejaz.)

THE EMIRATE OF JEBEL SHAMMAR.

Emir, Abdullah ibn Mitab, born 1907; succeeded his father Saud ibn Rashid, assassinated May, 1920.

A Bedouin desert country to the north of Nejd, with an estimated population of 200,000. Capital, Hail; population 12,000.

THE PRINCIPATE OF ASIR.

Imam, Ali ibn Mohammed el-Idrisi; succeeded March 31,1923.

Asir is on the west coast of Arabia, south of the Hejaz and north of Yemen, with a population of about 1,000,000; capital, Sabia. Its area is between 30,000 and 40,000 square miles. The lowlands are barren but inland is a high plateau well watered, with mountains 6,000 to 8,000 feet high and fertile valleys. Hides and livestock are exported.

THE IMAMATE OF YEMEN.

Imam, Yahya Mohammed Hamid ed-Din.

Yemen is in the southwest part of the peninsula between Asir and the British protectorate Aden. Its area is estimated at 75,000 square miles and population 700,000. Capital Sanaa (pop. 20,000); chief port Hodeida (pop. 40,000) On the plateau of El Jebel, the most fertile part of Arabia, grain and coffee are grown. Hides and coffee are exported. Mocha, once a flourishing coffee port, no longer counts.

THE SULTANATE OF KUWEIT.

Sultan, Hamed ibn Jobar; succeeded March, 1921.

Kuweit (pop. est., 50,000), extends along the Persian Gulf from Mesopotamia to Nejd. Its capital, Kuweit (pop. 25,000), is an important port on the Persian Gulf, and had been selected as the seaport terminal of the German Berlin to Bagdad railroad. Horses, wool, dates and pearls are exported.

THE SULTANATE OF OMAN.

Sultan, Seyyid Faisal ibn Turki; succeeded his father, 1924.

Oman occupies the southeast portion of the Arabian peninsula with a coast line about 1,000 miles long, extending from El Katar on the Persian Gulf to Ras Sajir on the Arabian Sea. It has an estimated area of 82,000 square miles and a population estimated at 500,000, chiefly Arabs. The nomadic tribes of the interior after seven years of rebellion have completely thrown off the control of the Sultan and by an agreement, October, 1920, have entire home rule and freedom of trade. The Sultan has for years been subsidized by the Government of India which maintains there a political agent, Major M. E. Rae (1921). The capital is Muscat (pop. estimated, 20,000). The best camels in Arabia are bred in the interior. The chief exports are dates.

Food supplies and textiles are imported. Trade is mostly with India.

The trade of the Hejaz, Arabia and Mesopotamia with the United States is returned by the United States Department of Commerce collectively for the fiscal year 1921-22:

Imports,	1921-22	$291,229
"	1922-23	322,596
"	1923-24	326,853
Exports,	1921-22	734,523
"	1922-23	1,388,385
"	1923-24	3,202,958

ARGENTINA, REPUBLIC OF

AREA, 1,153,418 square miles.

POPULATION, official estimate, Dec. 31, 1923, 9,548,092.

CAPITAL, Buenos Ayres, pop., Dec. 31, 1923, 1,811,475; chief cities, Rosario, pop., 265,000; Cordoba, 156,000; La Plata, 151,000; Tucuman, 91,216; Santa Fe, 59,574; Mendoza, 58,790; Avellande, 46,277; Bahia Blanca, 44,143.

President, Dr. Marcelo T. de Alvear (1922-1928). Inaugurated, Oct. 12, 1922.
Premier, Jose Nicolas Matienzo (Interior).
Ambassador to the United States, Honorio Pueyrredon.
Consuls General, at New York, Enrique Hayton; at San Francisco, Santos Goni; at New Orleans, Antenor Gerez. *Consulates* also at Mobile, Los Angeles, Apalachicola, Fla., Pensacola, Jacksonville, Savannah, Chicago, Seattle, Baltimore, Boston, Charleston, Detroit, Portland, Ore, Pascagoula, Miss., St. Louis, Philadelphia, Port Arthur and Norfolk.
U. S. Ambassador, John W. Riddle.
U. S. Consul General, at Buenos Ayres, Henry H. Morgan; *Consul*, at Rosario, Robert Harnden.

Argentina extends from Bolivia 2,300 miles to Cape Horn and from the ridge of the Andes to the South Atlantic, occupying the greater part of southern South America. Its greatest breadth is about 930 miles. In area it is about equal to the eleven Mountain and Pacific States of the United States. It is bounded by Bolivia on the north, Paraguay on the northeast, Brazil, Uruguay and the South Atlantic Ocean on the east and Chili on the west.

East of the Andes are great plains, heavily wooded and called the Gran Chaco in the north, and vast treeless pampas, given over to wheat and cattle raising, stretching south down to the plains of Patagonia. Vast tracts of land amounting to 237,768,000 acres are public domain land, opened by the Federal Government to colonization. In the years 1857-1920 the number of immigrants by sea was 5,121,958. Immigration comes principally from Spain and Italy. A law passed in 1919 requires each intending immigrant to produce a certificate of good character and ability to work. Immigrants in 1922 numbered 139,953, of which 58,970 were Italians and 44,738 Spaniards.

Wheat, maize, flax and oats are the principal crops. The sugar and wine industries are making great progress. Sheep, cattle, horses, goats and pigs form the chief wealth on the ranches. Packing houses have been established and the export of frozen beef and mutton and other livestock products has become a great industry.

The livestock census of Dec. 31, 1922, returned 37,064,850 head of cattle, 30,671,841 sheep and 1,436,638 hogs.

According to the official figures received by the U. S. Department of Commerce the slaughter at the Argentine packing houses during 1922, compared with the previous two years, was as follows:

	1922.	1921.	1920.
Cattle	2,199,000	1,625,000	1,482,000
Sheep	4,770,000	3,768,000	2,870,000
Hogs	287,000	280,000	321,000

The exports of beef in 1923 totaled 6,755,419 quarters, and of mutton and lamb 3,411,415 carcasses; and in 1923, 6,543,000 quarters of beef and 3,229,000 carcasses of mutton and lamb.

On an acreage of 4,110,000 in 1922-23 there was produced 5,145,031 metric tons of wheat; of which 3,726,000 tons were exported; the 1923-24 crop was 7,057,949 tons. Cotton production was over 55,000 bales from 90,900 acres. Sugar output was 256,900 metric tons.

There is little mining, but 3,399,651 barrels of petroleum was produced in 1923, an increase of 18.6 per cent. over 1922. Textiles, oils and chemicals, iron, agricultural implements and machinery, glassware and crockery, and foodstuffs are the principal imports. Manufacturing is on the increase. Factories in 1916 numbered 48,779, employing 410,201 persons.

In 1923 there were entered to all Argentine ports 2,231 vessels with a tonnage of 7,672,521. Argentina has 23,712 miles of railroads of which 5,465 are owned by the state; the privately owned railroads are almost entirely in the hands of English companies.

The total receipts of the state-owned railroads in 1923 were $18,650,200 as compared with $13,393,400 in 1922. The proportion of operating expenditures to revenues was very high, reaching 128 82 on the Central Norte Argentino. The private lines all showed a profit, total receipts being $119,148,900 in 1923 compared with $111 854,800 in 1922.

Argentina proclaimed its independence of Spain July 8, 1816, and the years until 1852 were years of disturbance and civil war. The Constitution then adopted and under which, somewhat amended, the republic is governed to-day is modeled closely after that of the United States. There are 14 provinces, with a very high measure of home rule, electing their own Governors and Legislatures, and 10 territories administered by Governors appointed by the President, also a Federal District (Buenos Ayres, area 72 square miles), whose Mayor is appointed by the President and who is assisted by a deliberative council elected by the tax-paying inhabitants.

The President of the republic, who must be a Roman Catholic and Argentine by birth, is elected by an Electoral College for a six-year term and is ineligible for re-election. Congress consists of a Senate of 30 members, chosen by a special body of electors for six years, one-third retiring each two years; and a House of Deputies, numbering 158, elected by direct vote for four years, one-half retiring every two years. The Roman Catholic religion is supported by the state, but all creeds are tolerated. Primary education is free, secular and compulsory, but the percentage of illiteracy is still high. There are national universities at Cordoba, founded in 1613, with 1,603 students in 1920; Buenos Ayres, with 10,404 students; La Plata, 2,979, and Rosario. There are also three provincial universities.

Service in the national militia is compulsory, the peace strength of the army being 1,750 officers and 25,600 men, with a reserve of 759,000. The navy consists of two dreadnoughts of 27,940 tons each, mounting twelve 12-inch guns; two pre-dreadnoughts, four armored cruisers and one light cruiser.

President de Alvear, on July 23, 1923, sent to the Senate for secret consideration a request for authorization to spend 155,000,000 gold pesos to modernize the army, with plans for a strong air force, modern machine guns and artillery, sanitary equipment and machinery to manufacture guns and ammunition and projectiles. Her two battleships Rivadavia and Moreno (built in the United States ten years ago) and four scout cruisers will be modernized on the lines of the battleships in the United States.

Argentina is a member of the League of Nations.

Par of Exchange pesos, paper 42.44 cents.
pesos, gold 96.48 cents.

Rate of Exchange, Oct. 15, 1924, gold, 84.35.

ARMENIA.

(See under Russia.)

AUSTRIA, REPUBLIC OF

AREA, 32,396 square miles.
POPULATION, census of March 7, 1923, 6, 526,661.
CAPITAL, Vienna; population, census of March 7, 1923, 1,863,739 (in 1910 it was 2,031,489). Other cities, Graz, population, 152,731; Linz, 101,347; Innsbruck, 56,365; and nine others of more than 10,000.
President, Dr. Michael Hainisch, born 1858, elected Dec. 9, 1920.
Chancellor, Dr. Rudolph Ramek.
Minister to the United States, vacant; Edgar L. G. Prochnik, Counsellor and Charge d'Affaires.
Consuls General in the United States, at New York, Friedrich Fischeraur; at Chicago, Ludwig Kleinwachter.
United States Minister, Albert Henry Washburn.
United States Consul, at Vienna, Robert W. Heingartner.

The Austria of to-day—mere remnant of the former Austrian Empire—is now a republic in Central Europe, with Germany its neighbor to the west and the north, Czechoslovakia on the north and east, Hungary on the east, and Serbia and Italy on the south. It is about the size of the four New England States of Vermont, New Hampshire, Massachusetts and Connecticut, and has only about 200,000 more inhabitants than the four together.

Austria is not only vastly reduced in area and population, but is in an economic plight equalled by few countries in world history. In the pre-war days of Emperor Francis Joseph of the Hapsburg dynasty the Austro-Hungarian Empire had 261,259 square miles and about 51,000,000 popula-

tion. The Dual Monarchy included Austria proper, with Vienna, one of the brilliant political, commercial, industrial, financial and art centres of the world; Hungary, Transylvania, Czechoslovakia, Polish Galicia, the Trentino, Slavonia, Croatia, Bosnia, Herzegovina, the Banat, territories which gave it access to the Adriatic, and control of practically all the Danube River. Next to Russia, it was the most populous in Europe. Hungary is an independent kingdom now. All the provinces mentioned have gone and Austrian territory reduced to 32,396 square miles, which however includes Burgenland (pop. 329,906), 1,660 square miles ceded by Hungary in 1922 under the peace treaty.

The ill-fated Hapsburgs—Francis Joseph and then Charles, his successor — maintained a court in Vienna which was in some respects the most inaccessible socially of any in the world.

Although politically held together by the bonds of empire, Austria-Hungary and the very many components contained so many diverse racial strains with such tenacious nationalistic tendencies that the non-progressive policies of the imperial rulers finally released centrifugal forces which tore the empire apart.

The World War was precipitated by the assassination of the heir presumptive to the throne, the Archduke Franz Ferdinand, by a Serbian in Sarajevo, Bosnia, on June 28, 1914.

Austria was proclaimed a republic on Nov. 12, 1918, the day after the armistice; a National Assembly assumed the government and appointed a Cabinet. On Feb. 16, 1919, the National Constitutional Assembly, consisting of one Chamber, was elected by the direct vote of all men and women over 20 years of age.

A Constitution was adopted Oct. 1, 1920, which provides for a Parliament of two Houses, a Bundesrat of 46 members, chosen indirectly, and a Nationalrat, elected by direct vote for four years. These two Houses elect a President to serve for four years. All special privileges are abolished. There are seven provinces and the city of Vienna, each with a large measure of home rule on local affairs, by elected Provincial Assemblies. The army is limited to 30,000 men.

REHABILITATION OF AUSTRIA.

Austria was forced to seek foreign assistance shortly after it was proclaimed a republic, and the European Allies, and to a large extent the United States, responded by advancing relief and food credits amounting approximately to $72,000,000 during 1919 and 1920. By the fall of 1920 the food credits had been exhausted, and in March, 1921, Austria again sought foreign assistance, this time through the League of Nations. Austria wanted an international loan, but this was refused, as its assets were burdened by relief liens and, in addition a reparation sum to be fixed by the Reparation Commission as soon as Austria's resources and capacity permitted.

In February, 1922, Great Britain consented to lend Austria £2,350,000 (approximately $10,440,000, at the rate of exchange prevailing at the end of 1922), France, 55,000,000 francs (approximately $3,850,000); Italy, 70,000,000 lire (approximately $3,500,000), and Czechoslovakia, 500,000,000 crowns (approximately $15,000,000). The British loan was paid over in March on security of the State Gobelins and as an advance on the larger credits to follow after the settlement of the lien question.

On July 21 the Reparation Commission agreed to release certain Austrian assets from the general lien, and in August 20,000,000 francs (approximately $1,400,000) of the French loan and the entire Czechoslovakian loan were paid over. The latter loan, however, was earmarked by the application of most of the proceeds to the repayment of previous debts by Austrian nationals to Czechoslovakian nationals. Austria appealed again to the Allied powers at the London conference in August and was referred to the League of Nations for consideration when it convened on August 31. Subsequently the Austrian Chancellor, Mgr. Seipel, held conferences in neighboring countries, indicating the extreme gravity and international political significance of the Austrian problem. A loan instalment of 36,000,000 lire (approximately $1,800,000) was made during September.

WORK OF THE LEAGUE OF NATIONS.

The Austrian question was immediately taken in hand by the League's finance committee, which obtained consent to the release of Austria's liquid assets by the Governments to which reparations and relief payments were due and recommended an international loan. Three protocols were drawn up and signed, Oct. 4, 1923, by which Austria's independence, territorial integrity and sovereignty were secured, an international loan of 650,000,000 gold crowns (approximately $126,000,000) guaranteed, and certain obligations imposed. Austria needed funds immediately and authorized at the end of October the flotation of interim loans amounting to 130,000,000 gold crowns ($26,000,000), to be repaid from the proceeds of the international loan. The first instalment of these loans, amounting to 30,000,000 gold crowns ($6,000,000) was subscribed to by Austrian banks during November.

The League of Nations' rehabilitation plan was finally accepted by the Austrian Parliament on Dec. 3, 1922, and is embodied in five laws, briefly summarized as follows:

1. Authorization for interim loans to enable the Government to meet its current expenses without further printing of paper currency until funds from the international loan become available.
2. Authorization for the creation of a new national bank entirely independent of Government control.
3. Ratification of the Geneva protocols.
4. Authorization for creation of a superparliamentary government.
5. The reconstruction law providing for increased taxation, strict economics, administrative and tariff reform, reduction of the number of civil employees, and other measures by which the Government is to balance its budget within two years.

The guaranty of the international loan by the League of Nations was ratified during the latter part of December by Great Britain, France, and Czechoslovakia, each country guaranteeing 24.5 per cent. of the loan; and by Italy, which guaranteed 20.5 per cent. Belgium and Sweden each guaranteed 2 per cent. and Holland and Denmark each 1 per cent.

The new National Bank was established on Jan. 1, 1923, following the receipt of subscriptions to its entire capital of 30,000,000 gold crowns ($6,000,000) from Austrian banks. The bank took over the business and dividends of the Austrian section of the Austro-Hungarian bank. Dr. Richard Reisch was made President.

In accordance with the provision for a superparliamentary government, twenty-six members were elected to the superparliamentary committee by the National Assembly on Dec. 7, 1922, with a majority of four votes in the Government parties (Christian Socialist and Pan-German). The committee functions under the Federal Chancellor or Vice Chancellor, together with the Cabinet Ministers, and has been given full power over the Government until Dec. 31, 1924, in directing the reform program. The committee is subject to the General Commissioner, Dr. Alfred Zimmerman of the Netherlands, representing the League of Nations.

In carrying out the reconstruction plan the Government, according to its budget for the first four months of 1923, made only urgent expenditures, consistent with the reconstruction measures and not exceeding revenues received, together with portions of loans placed at its disposal; the maximum for this period has been fixed at 200,000,000 gold crowns ($40,000,000). At this rate the budget for 1923 was 600,000,000 gold crowns, which at the rate of 15,000 paper crowns to one gold crown is 9,000 billion paper crowns.

The Government personnel in October, 1921, had numbered 253,211; with their families the total number of persons living on the Central Government was about 675,000 or over 10 per cent. of the population. If the extensive provincial bureaucracy and municipal employees be added, nearly one family in six was maintained out of the public funds. The overstaffing of the railways was heavy. The number of State employees was reduced by 67,000 on July 1, 1924, though the program called for 400,000. To reach this figure a reform in the system of administration is necessary. Ministers also reduced, overlapping eliminated and organization simplified. The President's salary was fixed at $7,500 a year; the Chancellor, $3,750; Cabinet Ministers, $3,250; and Assemblymen, $1,750.

EFFECT OF THE PLAN.

The first stage of the reconstruction of Austria was virtually completed by July 1, 1923. The international loan of 650,000,000 gold crowns (approximately $126,000,000) in twenty-year 7 per cent. bonds, in the United States (to which was allotted $25,000,000) England, Sweden, Holland, Belgium, Czechoslovakia and Switzerland, was oversubscribed in each country and the bonds advanced when put on public sale. The Austrian share of the loan was substantially all subscribed to by the public. The National Bank's sound money reserve had increased steadily and covered on that date, at the legal rate of conversion, 46 per cent. of the note circulation which had reached 5,000 billion paper crowns.

Agriculture showed improvement in the years 1919, 1920 and 1921, and in 1922, 2,447,000 acres

were seeded to cereals, while the pasturage increased about 400,000 acres to 2,737,000 acres. The yield in 1922 was, wheat and rye, 22,200,000 bushels; barley, 5,680,000; oats, 18,780,000; and maize, 3,265,000. The import of flour in 1921 was 427,829 short tons, equivalent to about 20,000,000 bushels of grain. About 30 per cent. of the people depend on the cultivation of the soil.

The census of livestock in 1923 showed a return nearly to pre-war figures, viz: Horses, 282,480; cattle, 2,163,022; goats, 382,204; sheep, 597,414; swine, 1,472,821.

The cotton spinning industry had 1,100,000 spindles, with 80 per cent. in operation during 1923, producing 42,000,000 pounds of yarn valued at $24,000,000; 18,300,000 were exported. Cotton looms numbered 14,000.

The pig iron product in 1923 was 323,172 tons, and steel 499,442 tons.

It is proposed to harness more of the 1,700,000 water horse power in the Austrian Alps and the Danube, 170,000 being already in use.

The main industries are the making of machinery, agricultural and industrial, with considerable making of automobiles; textiles, cotton and wool, which are exporting yarns to Germany; leather and fancy goods, which have always had world-wide repute; woodwork, furniture and paper.

In 1923 Austria had 4,274 miles of railroads, of which 2,964 were operated by the state.

From 1910 to 1920 the population decreased 3.8 per cent., the men decreasing 6.53 per cent. in the war losses.

In 1910 the present Austrian territory had 5,979,667 Roman Catholics, the Austrian Empire being the most powerful Catholic unit in Europe. The Catholics were 94.11 per cent. of all; Jews, 2.99 per cent.; and Protestants, 2.60 per cent.

The unit of the currency is the gold crown, worth at par of exchange 20.26 cents.

Exchange, paper crown, Oct. 15, 1924, .0014 cents.

New silver coins were introduced in June, 1924, called the schillinge, equal to 10,000 paper crowns, equal to 14.2 cents.

The National Bank in its first year and a half has maintained the exchange rate of the crown at a level of between 70,000 and 71,000 to the dollar, the most stable currency in Europe.

The Austrian National Assembly adopted the measure by which the Government relinquished the management of the railroads, turning them over to a newly formed body to be operated on commercial lines.

Dr. Zimmerman reported to the League of Nations on Aug. 21, 1924, that Austria's industrial difficulties are chiefly due to traffic barriers raised by neighboring states, inability to obtain and to grant long credits, difficult banking conditions, the corporation tax and social laws greatly favoring employees.

Unemployment continued to decrease. The number had reached 161,225 on Jan. 1, 1923, but by Aug. 25, unemployed receiving aid numbered 71,338 as compared with 109,000 on June 1; of this number 57,546 were in Vienna. On June 30, 1924, the unemployed in Vienna had decreased to 45,600.

The budget for 1925, adopted June 6, 1924, provides for revenues of 510,000,000 gold crowns and expenditures of 545,000,000 gold crowns. The deficit in 1923 was but one-half of what had been allowed for, due to increased revenue from taxes.

The total debt on Dec. 31, 1923, was 26,227 billions of paper crowns, and the pre-war and war debts had been reduced from 1,523 billions to 338.9 billions, the government having called in and paid off the internal debt with paper currency worth about $19,000,000.

The visible trade balance is adverse, that for 1923 being 814,233,000 gold crowns and for 1922, 645,867,000 gold crowns. The foreign trade figures were:

	1922.	1923.
Imports, gold crowns	1,757,284,000	1,850,144,000
Exports, gold crowns	1,111,417,000	1,035,921,000

The heaviest increase in imports was in food and drinks, while the decrease in exports was in finished goods.

Trade with the United States was:

Imports,	1920-21	$8,168,485
"	1921-22	1,317,628
"	1922-23	1,764,037
"	1923-24	2,643,174
Exports,	1920-21	2,085,040
"	1921-22	2,603,807
"	1922-23	3,548,249
"	1923-24	4,756,308

AZERBAIJAN.

(See under Russia.)

BELGIUM, KINGDOM OF

AREA, 11,752 square miles.

POPULATION, census of Dec. 31, 1920, 7,465,782 (including Eupen and Malmedy); estd. Dec. 31, 1922, 7,600,000 (648 to the square mile).

CAPITAL, Brussels, pop., 1922, with suburbs, 783,522. Chief port, Antwerp; pop., with suburbs, 333,882. Important cities, Ghent, pop., 165,910; Liege, 165,117; Malines, 60,118; Bruges, 54,308; Ostend, 48,073; Verviers, 42,289; Louvain, 39,255.

King of the Belgians, Albert, born April 8, 1875, succeeded his uncle Leopold II. Dec. 17, 1909; married Oct. 2, 1900, the Duchess Elizabeth of Bavaria. *Heir Apparent*, Prince Leopold, Duke of Brabant, born Nov. 3, 1901; other children, Prince Charles Theodore, Count of Flanders, born Oct. 10, 1903; Princess Marie-Jose, born Aug. 4, 1906.

Premier, Col. Georges Theunis (Finance).

Minister for Foreign Affairs, Paul Hymans.

Ambassador to the United States, Baron de Cartier de Marchienne.

Consuls, at New York, J. Mall; at Portland, Ore., S. Hill; at San Francisco, G. J. Simon (C. G.).

Consulates, at Boston, Baltimore, Philadelphia, Pittsburgh, Norfolk, Richmond, Va.; Charleston, S. C.; New Orleans, Galveston, Memphis, St. Louis, Birmingham, Ala.; Mobile, Atlanta, Savannah, Chicago, Dubuque, Detroit, Omaha, Kansas City, Cincinnati, Cleveland, Green Bay, Minneapolis, Seattle, San Francisco, Denver, Los Angeles, Jacksonville, Pensacola, Moline, Louisville, and Oklahoma City.

United States Ambassador, William Phillips.

United States Consuls, at Brussels, Herbert O. Williams; at Antwerp, George S. Messersmith; at Ghent, Clinton E. MacEachran.

Belgium is bounded on the north by the Netherlands, on the east by Germany and Luxemburg, on the south by France, and on the west by the North Sea. It has a frontier of 831 miles and a seaboard of 62 miles. It is not quite as large as the State of Maryland. The Scheldt and the Meuse are the principal rivers. Below Antwerp the Scheldt flows to the North Sea through the Netherlands and the Belgian Government is spending 350,000,000 francs dredging the channel as far as Flushing and improving the port of Antwerp, which has become the greatest port of Continental Europe. The western part is low, level and fertile; the eastern, the tableland of the Ardennes, has a poor soil.

Belgium formed part of the Low Countries from the readjustment of Europe in 1815 following Napoleon's downfall, until Oct. 14, 1830, when following a revolution which broke out Aug. 25, a National Congress proclaimed its independence. The Constitution of 1831 proclaimed it a "Constitutional, representative and hereditary monarchy," and the National Congress elected Prince Leopold of Saxe-Coburg King of the Belgians on June 4 of that year. He died in 1865 and was succeeded by his son, Leopold II., who died in 1909. By the Treaty of London, April 19, 1839, the famous "scrap of paper," separation from the Netherlands and the neutrality and inviolability of Belgium were guaranteed by Austria, France, Great Britain, the Netherlands, Prussia and Russia. The Germans invaded the kingdom on Aug. 2, 1914, and held nearly all of Belgium throughout the war, evacuating it immediately after the Armistice. Under the Treaty of Versailles, Eupen and Malmedy and Moresnet were ceded by Germany, adding 382 square miles and 64,520 inhabitants to the kingdom.

The work of reconstruction in the devastated area is nearing its end. On Jan. 1, 1923, 38,386 houses had been built or restored at a cost of 629,000,000 francs. In addition 320 public buildings have been restored, and 250 temporary barracks put up for schools and communal offices at a cost of 95,000,000 francs. Most of this work has been done by the Government through the Devastated Regions Office.

The Societe Nationale de Credit a l'Industrie made advances on war damage claims to industrial, agricultural and commercial undertakings up to July 1, 1923, of 1,933,560,000 francs at 5½ per cent., and the Federation des Co-operative pour dommages de guerre had advanced 1,688,958,303 francs, with 1,040,309,586 francs on hand Sept. 30, 1923, to care for 15,000 more claims.

In all, from the Armistice to Jan. 1, 1923, Belgium paid for her own reconstruction 16,000,000,000 francs, which at the average exchange for that time exceeds $1,500,000,000. This sum under the Treaty of Versailles is to be repaid Belgium from the German reparations.

Reconstruction expenditures after 1924, which it is estimated will not exceed 1,500,000,000 francs

yearly, are to be limited to such sums as may be recovered from Germany.

Belgium is the most densely populated country in Europe, having 648 inhabitants to the square mile. In the province of Brabant the ratio is 1,216. In 1922 the excess of births was 46,996, the divorces were 3,718, and the marriages 82,806. Emigration in 1922 was 32,604, and immigration, 30,610.

The population is divided into two well defined groups, the Flemish and the Walloons. The former, who speak Dutch, are somewhat in the majority, preponderating in Flanders, Limburg and Brabant, including Antwerp. French and Flemish are joint official languages. The Roman Catholic is the religion of the great majority, but complete religious toleration prevails. The state does not interfere with the intimate affairs of the churches and part of the income of the ministers of all denominations is paid from the national treasury.

Belgium has four universities, those of Ghent (1,277 students in 1921) and Liege (2,303) are state institutions, and those of Brussels (2,501) and Louvain (3,248) are free. Attached to them are various technical schools with 3,034 students. There are 134 state high schools, 44 of which are for girls, and many private schools under ecclesiastical control. Schools are supported by local taxation and each commune must have at least one primary school. The percentage of illiteracy has been decreasing rapidly.

Belgium has 6,856 miles of railways, of which 2,996 are state-owned.

The annual deficit of the Belgian State railroads in 1922 was cut to 33,000,000 francs, as the result of increased receipts, according to official estimates; the deficit in 1913 was 15,404,861 francs.

Strenuous efforts to reduce the personnel resulted in only 100,906 officials and employees being provided for in the budget for 1922, compared with 115,000 in 1921. The eight-hour law requires a larger number than in 1913, when there were 75,000 employees.

Freight and passenger traffic for 1922 was as follows: Number of passengers, 238,096,000; metric tons heavy freight, 58,221,686.

Plans for the electrification of the system are under consideration. The country has 9,177 miles of roads, the majority paved with stone (Belgian blocks), and 1,231 of navigable waterways—rivers and canals. The number of vessels entering Belgian ports in 1922 was 11,961; tonnage, 17,166,304; of this tonnage 15,047,634 entered at Antwerp. In 1923 at the port of Antwerp alone there entered 9,351 vessels of 17,349,098 tons, a record year.

The chief imports in 1920 were wool, cotton, flax, hides, building wood, iron and steel, machinery, coal, chemical products, bitumen, zinc ore, wheat and wine. The chief exports were manufactures of wool, cotton, flax, leather and glassware, iron, steel and zinc products and sugar. Agriculture and forestry are important industries, the chief crops being wheat, oats, rye, potatoes and sugar beets, yet it is eminently a manufacturing country and is dependent on foreign supplies for its food. The coal, iron and quarry industries are very valuable, as are the glass, textile and sugar, and the lace of Brussels, Malines and Bruges is famous.

Exports of iron and steel from the economic union of Belgium and Luxemburg in 1923 aggregated 2,578,700 metric tons, an increase of 60 per cent. over 1922. The output of coal in 1923 exceeded that of 1913, 22,847,070 tons being produced; also a record amount of coke, 4,056,700 metric tons. Zinc output was 143,680 tons.

Imports in 1923 amounted to 26,434,000 tons, valued at 12,563,000,000 francs, and exports, 16,936,482 tons, valued at 8,889,776,000 francs.

There were in 1923 4,403,000 acres under cultivation.

Unemployment has been under 3 per cent. in 1923-24.

Parliament consists of a Senate of 120 and a House of Representatives numbering 186, all of whom are directly elected by the people (except 27 Senators who are elected by provincial councils). Senators for 8 years and Representatives for 4. Universal male suffrage with plural voting up to three by property and educational qualification was introduced in 1894. Proportional representation was introduced in 1900. By an emergency measure the present Parliament was elected in 1919 on a one-man-one-vote basis and the law was revised to establish that franchise in 1921. Parliament must meet annually, in November, and must sit for at least 40 days. The party strength of the present Parliament is:

Senate—Catholic, 73; Socialists, 52; Liberals, 28.

House—Catholics, 80; Socialists, 67; Liberals, 33. miscellaneous, 6.

The Belgian Army on Jan. 1, 1923, numbered 190,000.

Belgium is a member of the League of Nations.

Par of exchange, franc.....19.3 cents
Rate of exchange, Oct. 15, 1924, franc... 4.80 cents

The budget estimates for 1924 were: Revenue, 6,687,031,833 francs; expenditures, 8,332,491,485 francs, showing a deficit of 1,645,439,652 francs.

A $30,000,000 loan (25-year, 6½ per cent.) was floated in New York on Sept. 3, 1924, at 94, the proceeds being used to retire $27,000,000 Government notes. This left the external debt at approximately $161,000,000 at exchange rates current September 4, excluding advances made by the United States Government. The public debt on Sept. 30, 1923, was reported as 39,907,000,000 francs.

Trade with the United States was:

Imports,	1920-21	$184,472,230
"	1921-22	103,449,034

"	1923-24	69,591,468

BELGIAN CONGO.

AREA, 909,654 square miles.

POPULATION, estimated, 1921, 10,000,000. The white population on Jan. 1, 1923, was 10,037.

CAPITAL, Kinshasa (replaced Boma as capital December, 1921). Provincial capitals, Elizabethville (Katanga), Leopoldville (Congo-Kasai) Coquilhatville (Equator), and Stanleyville (Eastern).

Governor General, M. Rutten, appointed Jan. 24, 1923.

The Congo Free State had its origin in the vision of King Leopold II. of Belgium, who, roused by Stanley's discoveries, realized the great economic possibilities in the development of the vast territory reached by the Congo. The International Association of the Congo, which he founded and largely financed, sent Stanley back in 1879. He founded the first station, Vivi, in February, 1880, and in all twenty-four before he returned in 1884. Leopold pushed the work with the aid of a handful of men, mostly officers, and in 1885 the powers, in convention at Berlin recognized the Association as an independent state under his sovereignty—"the trade of all nations to enjoy complete freedom." The indeterminate boundaries were held to include the basin of the Congo and Lake Tanganyika, with its eastern tributaries. From 1895 the Belgian Government associated itself with this work, opening credits, although Parliament was hostile. The administration of affairs later provoked violent agitation to secure the amelioration of the condition of the natives. The Congo Free State was ceded to Belgium by the treaty of 1907, becoming by the law of Oct. 18, 1909, Belgian Congo under control of the newly created Ministry of the Colonies.

In territory it is about the size of the fifteen Southern States of the United States.

Belgian Congo has a short coast line on the South Atlantic at the mouth of the Congo, where is situated the village of Banana on a fine natural harbor. Equatorial French Africa lies to the north and west, and Angola (Portuguese) to the south, beyond which and to the east is North Rhodesia; to the east Tanganyika, now British, but formerly German East Africa, and Uganda (British); to the north it also touches the Soudan. Vast, sunless and well-nigh impenetrable tropical forests fill the upper reaches of the river, covering about 25,000 square miles. The lianas yield 3,000 to 4,000 tons of rubber yearly. The oil-palm is cultivated, and palm kernels and palm oil to the value of 49,000,000 francs were exported in 1921. The export of copal in 1921 was valued at 13,870,254 francs. Ivory exports amounted to about 668,590 pounds, valued at 10,385,603 francs. Coffee, cocoa, rice, cotton and tobacco grow freely. Cattle thrive where there is no tsetse fly.

The chief industry is copper mining in Katanga, where the copper bearing belt is 250 miles long by 25 to 50 miles wide. The output in 1922 was 43,332 tons. Placer mining in Welle produced gold in 1922 to the amount of 12,311 kilograms. Small diamonds are found in the Vasai Basin, the output in 1922 being 250,038 carats. Coal, iron and tin are present, but are undeveloped. A large deposit of pitchblende, a radium-bearing ore, has been discovered.

The Congo is navigable for large vessels for 95 miles to Matadi. A railroad 249 miles long transships freight around the series of falls and rapids to Leopoldville on Stanley Pool. From here the river and its branches are navigable for about 5,000 miles. Railroads have been built around the falls on the upper river, and to connect important points. The total mileage in 1922 was 2,663. There are

5,609 miles of roads, partly suitable for automobiles. At Boma, the former capital, 60 miles up the Congo from its mouth, 148 seagoing vessels of 454,019 tonnage entered in 1922.

Belgian Congo's territory was increased as a consequence of the war by the transfer of 19,000 square miles, the Ruanda and Urundi territories, from the former German East Africa. Both are in the high plateau region, are rich in cattle and of great economic value.

Budget, 1923—Receipts, francs..... 85,907,210

BHUTAN, KINGDOM OF

AREA, about 20,000 square miles.

POPULATION, estimated 250,000.

CAPITAL, Punakha (a strong natural fortress).

Ruler, Maharajah Sir Ugyen Wangchuk, chosen hereditary Maharajah 1907.

Bhutan is a semi-independent native state having control of its internal affairs (treaty of 1910), lying on the southern slope of the Himalayas between Thibet on the north and British India on the south, with Sikkam on the west. It is 190 miles long from east to west and 90 miles extreme breadth. The people are Mongolians, the original inhabitants having been subjugated about two centuries ago by Thibetans. Their religion is Buddhism of the Thibetan form. Agriculture and stock raising (sturdy ponies especially) are the chief industries. Trade with India in 1920-21 amounted to £152,200.

BOLIVIA, REPUBLIC OF

AREA, 514,595 square miles.

POPULATION, estimated, 1920, 2,820,074.

CAPITAL, La Paz, pop., 1923, 115,252.

President, Dr. Bautista Saavedra, 1921-25.

Premier, Sr. Ramon Paz (Foreign).

Minister to the United States, Sr. Dr. Don Ricardo Jaimes Freyre.

Consul General, at New York, Ramon Pando. *Consuls*, at Boston, Baltimore, New Orleans, San Francisco, Seattle, San Diego, Mobile, Chicago, St. Louis, Kansas City, Philadelphia and Norfolk.

United States Minister, Jesse S. Cottrell.

United States Consul, at La Paz, Dayle C. McDonough.

Bolivia, the only country in South America without a seaport, lies between Peru and Chile in the west, Brazil on the north and east, Paraguay on the east and Argentina on the south. It lies across the Andes, and its chief topographical feature is the great central plateau at an altitude of 12,000 feet, over 500 miles long, lying between two great cordilleras having three of the highest peaks in America. Its area equals that of Oregon, California, Nevada, Arizona and New Mexico together. Over 50 per cent. of the population are Indians speaking their own dialects only and 25 per cent. are of mixed blood. The percentage of illiteracy is very high. Farming, grazing and mining are the chief occupations. The chief exports are tin, copper, antimony, bismuth, silver, lead, tungsten, rubber, cocoa, hides and alpaca wool. Under the Spaniards from 1540 to 1750 the mines produced gold to the value of $2,000,000,000. The annual production now is less than $500,000.

An American corporation, the Patino Mine and Enterprises, Consol'd., in which the National Lead Co. is dominant, bought for $30,000,000 in August, 1924, the Llaleagua and Unica mines, thereby secured control of 80 per cent. of the tin production of Bolivia.

La Paz is connected by a railroad (264 miles) with Arica on the Pacific. The principal railroad line runs from Antofagasta to La Paz (735 miles).

The total railroad mileage in 1922 was 1,401, with 256 miles under construction.

Bolivia is vitally interested in the disputes submitted in 1922 to arbitration by Secretary Hughes in Washington, between Peru and Chile over the provinces of Tacna and Arica on the Pacific, seized by Chile during the war of the Pacific, 1879-83, for she claims a commercial outlet at the port of Arica. She has also a serious boundary dispute with Paraguay over Gran Chaco, a potential valuable grassland. The peace strength of the army is 7,100 with reserves of 230,000. Bolivia is a member of the League of Nations.

BRAZIL, UNITED STATES OF

AREA, 3,276,358 square miles.

POPULATION, Census of Sept. 1, 1920, 30,635,605 Native born, 29,045,227; Italian born, 558,405; Portuguese, 433,577; Spanish, 219,142; German, 52,870; Japanese, 27,976; U. S., 3,439.

CAPITAL, Rio de Janeiro, pop., 1920, 1,157,873. Chief Cities, Sao Paulo, pop. 579,033; Bahia, 283,422; Pernambuco, 238,843; Para, 236,402; Porto Alegre, 179,263: Nietheroy, 86,238; Curytiba, 78,986; Manaos, 75,704; Bello Horizente, 55,653.

President, Dr. Arturo da Silva Bernardes (1922-26), inaugurated Nov. 15, 1922.

Premier, Dr. Joao Louis Alves (Justice).

Ambassador to the United States, Augusto Cochrane de Alencar.

Consul General, at New York, Helio Lobo. *Consuls*, at New Orleans, Norfolk, St. Louis, Chicago, Baltimore, Richmond, Va., Philadelphia, Mobile, San Francisco, Fernandina, Jacksonville, Pensacola, Louisville, Boston, Gulfport, Pascagoula, Buffalo, Portland, Ore., Charleston, Galveston, Port Arthur and Seattle.

United States Ambassador, Edwin V. Morgan.

United States Consul General, at Rio de Janeiro, Alphonse Gaulin. *Consuls*, at Bahia, Homer Brett, at Para, Jack D. Hickerson; at Pernambuco, Elliot V. Richardson; at Port Alegre, Jon R. Bradley; at Sao Paulo, Arminius T. Haeberle; at Santos, Herndon W. Goforth.

Brazil is the largest state in South America, exceeding the size of continental United States (exclusive of Alaska) by 250,000 square miles. It has a coast line on the Atlantic Ocean of 4,106 miles and extends 2,691 miles from north to south and 2,500 miles east to west. It is bounded on the north by Colombia, Venezuela, the Guianas and the Atlantic Ocean, on the east by the Atlantic, on the south by Uruguay, Paraguay and Bolivia, and on the west by Argentina, Paraguay, Bolivia, and Peru. The northern half is the great heavily wooded basin of the Amazon (about 4,000 miles long, the longest river in the world), which rises in the Peruvian Andes, and with its tributaries drains 2,000,000 square miles and empties into the Atlantic at the Equator. It is navigable in Brazil for vessels of deep draft for 2,300 miles; and in all its rivers Brazil possesses 40,000 miles of navigable waterways. Mountain ranges, interspersed with fertile valleys, traverse the eastern and southern states. The majestic falls of the Iguassu, one of the natural wonders of the world, are in the southernmost state, Rio Grande do Sul.

The mineral wealth of Brazil is vast and but little developed. Manganese is exported (340,700 tons in 1922) also the greater part of the world supply of monozite. The gold production is $3,000,000 a year. Coal deposits are extensive but of inferior quality. But a small part of the rich agricultural land has been brought under cultivation. Four-fifths of the world's coffee supply is grown in the states of Sao Paulo, Rio de Janeiro, Espirite Santo and Minas Geraes. The average annual crop is about 12,000,000 sacks of 132 pounds each; production in 1921-22 was 8,030,000 sacks; in 1923 there were exported 14,466,000 bags, valued at $216,712,056 or 64.3 per cent. of the total exports; over one-half went to the United States. Other chief exports are sugar, 153,175 tons valued at $14,474,106 in 1923; cotton, 19,170 tons valued at $12,152,000 in 1923; cocoa, tobacco, rubber, yerba, leather, hides and meat.

Manufacturing of all kinds is being fostered. In 1921 there were 242 cotton factories with 1,521,500 spindles in operation. The census returns of 1920 showed there were in all 11,335 factories with

151,841 employees, capital of 665,676,000 milreis, and an annual output of 741,536,000 milreis. The vast forests are practically untouched. Stock raising is important. The chief imports are textiles, hardware, machinery, crockery, glassware, etc.

In 1922 there entered the ports of Brazil 25,264 steam and sailing vessels, of 27,460,000 tonnage. Brazil on Jan. 1, 1923, had 18,143 miles of railroads in operation. Of this, 10,513 miles were owned by the Federal Government (3,980 of which were Government operated); 4 468 owned by the states and 3,162 miles privately owned. The principal system, the Central Brazil Railway (1,563 miles), is Government owned. The system is joined up with the railroads of Paraguay, Argentina, and Uruguay.

The government floated a loan of $25,000,000 in the United States in 1922 for the purpose of equipping the Central of Brazil railway with electricity. The project was not carried out. Brazil has developed but one per cent. of its potential 25,000,000 hydro-electric horsepower.

Brazil, discovered in 1500 by Cabral, a Portuguese navigator, was developed as a colony of Portugal until the royal house of Braganza, fleeing from Lisbon before Napoleon's army in November, 1807, transferred the seat of Government to Rio de Janeiro in March, 1808. In 1815 Brazil was proclaimed a kingdom, and in 1822 Dom Pedro, son of King John VI., who had been left as Regent on his father s return to Portugal, was crowned Constitutional Emperor and Brazil freed from Portugal. He abdicated in 1831 in favor of his son Dom Pedro II., who was then five years old. Crowned in 1841, he ruled with varying fortune until Nov. 15, 1889, when he was driven from the throne into exile by a revolution which established a republic, the United States of Brazil. The Constitution was adopted July 24, 1891, and is modelled largely on that of the United States. There are 20 states, largely autonomous, one territory (Acre), bought from Bolivia in 1902, and a Federal District. All males over 21 who can read and write have the franchise. The President is elected by direct vote for four years. Congress consists of a Senate of 63 members chosen by direct vote for nine years, one-third retiring every three years, and a Chamber of Deputies, of 212 members, elected by direct vote for three years, representation of the minority being provided for. The Cabinet is responsible to the President only.

Immigrants numbered 34,821 in 1922, and 86,767 in 1923. Of the latter, 31,866 were Portuguese, 15,-839, Italians, 10,141, Spaniards; and 8 254 Germans

All but 100,000 of the inhabitants are Roman Catholics, but religious toleration is guaranteed. Education is free in the primary grades but not compulsory save in some progressive cities. In recent years. however, great progress has been made. The University of Rio de Janeiro was founded Sept. 7, 1920. Military service is compulsory. The standing army numbers 35,000, with a reserve of 560,000. The navy has two dreadnoughts and in 1918 a personnel of 693 officers and 9,650 men. Brazil declared war against Germany on Oct. 26, 1917, following the torpedoing of three merchant ships.

In receipt of an invitation in 1922 from the Government of Brazil the United States Navy Department assigned Rear Admiral Vogelgesang, with a staff of sixteen commissioned officers and twenty petty officers of the navy, to undertake the task of reorganizing and expanding the Brazilian Navy. The work was finished in May, 1924.

Owing to a revolutionary uprising in the Sao Paulo and neighboring states, seven states were declared in state of siege on July 5, 1924, to continue to Dec. 31, 1924.

Brazil is a member of the League of Nations.

President Bernardes has declared for a strict policy of economy in Government expenses, with a proper balance of revenues and expenditures. He has pledged the Government's continuance of the public works already initiated, because he believes that their discontinuance would bring about serious difficulties. On April 23, 1923, he issued a decree authorizing the Minister of Finance to make regulations covering the establishment of the Banco de Brazil as a bank of issue. Dr. Cincinnato Braga, president of the bank, who initiated the new system, is in charge.

According to the report of the Minister of Finance, made on Nov. 30, 1922, the general condition of the public debt of Brazil is as follows: Total, of foreign debt, internal debt. and floating debt, 6,638,628,732 milreis; paper currency in circulation, 2,226,275,997 milreis; British loans, £111,930,834, American loans, $74,403,000, French loans, 332,249,-500 francs; interest on public debt. 307,504,427 milreis. This does not include the deficit faced by the new administration, which, it is stated, will not be less than 200,000,000 milreis.

The budget for 1924 estimated revenues at 102,-890,000 milreis gold and 921,898,000 milreis paper, an increase over 1923 of 20,031,000 milreis gold and 200,320,000 milreis paper, due to increase in taxation and institution of an income tax. Expenditures were estimated at 87,351,641 milreis gold and 916,320,303 milreis paper; giving a surplus of 15,538,359 milreis gold, and 5,577,697 milreis paper. The deficits have been, 1920, 296,409,751 milreis paper; 1921, 424,515,-318 milreis paper; and 1922, 314,738,829 milreis paper. But 1923 showed a surplus of 27,606,233 milreis paper.

BULGARIA, KINGDOM OF

AREA, 40,667 square miles.

POPULATION, census of Dec 31, 1922, 4,958,400, of which 4,500,000 were Bulgarians, Turks about 400,000.

CAPITAL, Sofia, pop., 154,431; other cities, Philippopolis, pop., 63,418; Warna, 50,819; Ruschuk, 41.574; Slivno, 28,695; Plevne, 27,779; Stava Zagore, 25,491, and ten of more than 15,000 population.

King (sometimes known as Czar), Boris III., born Jan. 30, 1894, succeeded on abdication of his father, Ferdinand, Oct. 3, 1918.

Premier, Alexander Zankoff (Education).

Minister to the United States, Stephan Panaretoff.

Consuls in the United States—Consular affairs in charge of the Bulgarian Legation at Washington. *Honorary Consuls*, at New York, Neal Dow Becker; at Chicago, Marquis Eaton.

United States Minister, Charles S. Wilson.

United States Consul, at Sofia, Stuart K. Lupton.

The Principality of Bulgaria was created by the Treaty of Berlin on July 13, 1878, as an autonomous and tributary principality under the suzerainty of the Sultan of Turkey. Bulgaria declared its independence on Oct. 5, 1908. Eastern Rumelia joined Bulgaria on Sept. 18, 1885, after revolution against the Sultan.

In the first Balkan War, Bulgaria, with Serbia, Greece and Montenegro, fought Turkey, the war ending in the Treaty of London on March 30, 1913, when Turkey ceded to the allied Balkan nations all territory west of the line from Midia on the Black Sea to Enos on the Aegean Sea, and also Crete. The Balkan League broke up soon after the treaty was signed, war breaking out between the allies—the second Balkan War. Roumania intervened and procured an extension (part of the Dobrudja) of her frontier at Bulgaria's expense. Peace came again with the Treaty of Bucharest on July 26, 1913, all signing.

Bulgaria was an ally of the Central Powers in the World War. By the Peace Treaty of Neuilly (Paris) of Nov. 27, 1919, Bulgaria ceded Thrace to Greece and the "Strumnitza Line" and a strip of territory on the northwest to Serbia. The treaty deprived Bulgaria of the Aegean Sea front. The Treaty of Lausanne (1923) giving Thrace to Turkey fixes the boundary between Bulgaria and Turkey just west of Adrianople.

By an agreement concluded in June, 1924, Greece allows Bulgaria a commercial outlet to the Aegean in the part of Kavala joined to the frontier by a narrow corridor under the supervision of the League of Nations.

Bulgaria is bounded on the north by Roumania, on the west by Serbia, on the south by Greece, on the east by the Black Sea, and on the southeast by Turkey. It is about the size of the State of Kentucky.

The Government of Alexander Stambuliski, the peasant leader who became Premier when King Ferdinand fled in 1918, was overthrown and his Agrarian Party crushed by a revolution supported by the army on June 9, 1923, and Stambuliski was shot after his capture on June 14 near his home village of Slavovitza. A new ministry, headed by Prof. Zankoff, assumed control and put down sporadic rioting. In September a serious Communist-Agrarian uprising was crushed by the Government with casual-

ties of 20,000. The Allies gave permission to increase the military forces to cope with disorder.

Amnesty was voted on July 17, 1924, by the Sobranje for the Cabinet of former Premier Rodosteroff, who was convicted in October, 1921, and sentenced to life imprisonment for bringing Bulgaria into the World War.

Bulgaria's language is Slavonic of Indo-European influence, allied to the Russian. The state church, Orthodox Greek, is governed by a Synod of Bishops, the clergy being paid by the state.

Two-thirds of the people are engaged in agriculture. Although lands are held in fee, pastures and woodlands are held in perpetuity by the communes. Small holdings run from one to six acres. Methods are very primitive, although gradually machinery is being brought in.

The cultivated area is 9,290,175 acres of the total of 18,019,840 of the country. Production is low because of crude methods. The annual production of cereals, 2,345,207 tons from 5,282,707 acres (census of 1923) indicates slightly more than one-half ton to the acre. Domestic animals number 10,100,000. There is little other industry. Although there are coal deposits, 1922 production was only 1,021,327 tons and in 1923, 1,063,662 tons, of which all but 99,586 tons were from State mines. Iron, lead copper, gold, silver and manganese are found. The production in 1922 was: Copper, 24,473 tons; lead, 3,022 tons.

Industry is not much developed. In 1922 there were 1,540 manufacturing establishments employing 63,000. Unemployment has practically disappeared.

Forests cover 30 per cent. of the total area—fir, beech, oak and pine.

Exports are tobacco, maize, hides, wheat, barley, petroleum and attar of roses, and textiles, metals, machinery and oils are the chief imports.

Bulgaria had in 1923, 1,614 miles of railroads owned and operated by the state. River navigation giving access to the Danube—a great traffic route—is important. In 1921, 1,268 vessels of 1,404,432 tons entered the ports of Varna and Bourgas.

By the Constitution, adopted in 1870 and amended in 1893 and 1911, legislative authority is vested in a single chamber, the Sobranje or National Assembly, of 227 members, elected for four years by universal suffrage. The King must give assent to all laws enacted before they become effective. Executive power is vested in the Council of Ten Ministers nominated by the King.

Elementary education is obligatory for children from 7 to 14 years of age. The state maintains 5,400 schools with about 680,000 pupils, besides 33 special state institutions and other private schools. Illiteracy is indicated by the 17.3 per cent. of it in the Bulgarian Army.

Pre-war Bulgaria's army was composed of 3,900 officers and 56,000 men, with a war mobilization strength of 500,000. The Treaty of Neuilly limits it to 20,000 men, who must be volunteers, obligatory military service having been abolished. Bulgaria is a member of the League of Nations.

The trade of Bulgaria in 1923 was: Imports, 5,153,784,240 leva ($45,544,000 at the average exchange rate of $0.008837 for 1923); and exports at 2,896,420,548 leva ($25,596,000), leaving an unfavorable balance of 2,257,363,692 leva ($19,948,326), the heaviest in the history of the country. Imports for the year were 28 per cent. greater and exports 33 per cent. less than in 1922. The foreign trade in 1922 showed a favorable balance of $2,011,000.

In January, 1924, there went into effect a new tariff prohibiting the import of some 150 articles not of the first necessity.

Turkey, Italy, Greece and Germany were the chief buyers, and the heaviest imports were from Italy, Germany, England, France and Austria.

The leva is the unit of currency; its gold par being $0.195; rate of exchange, Oct. 15, 1924, $0.007331.

The amount of reparations to be paid by Bulgaria was fixed in 1923 at 550,000,000 gold francs, probably payable in sixty years. The first instalment, 2,500,000 gold francs, was paid Oct. 1, 1923. The bill for the Army of Occupation was fixed on March 23, 1924, at $4,825,000, to be paid in ten annual instalments.

The national debt on June 30, 1923, was: Foreign debt, consolidated, 1,067,086,318 gold francs; non-consolidated, 446,057,500 gold francs, and 27,967,047 gold leva. Internal debt: Consolidated, 245,849,100 leva; non-consolidated, 3,892,234,700 leva.

The budget for the financial year 1922-23 was estimated as follows: Expenditure, ordinary, leva, 3,970,780,997; execution of peace treaty, leva, 144,500,000; total, leva, 4,115,170,997. Revenue, leva, 4,033,120,000; deficit, leva, 82,050,997. This budget was continued in force for 1923-24. The extraordinary budget included 364,000,000 (about $2,650,000) for railway and port construction.

Trade with the United States was:

Imports,	1920-21	$1,312,526
"	1921-22	1,242,992
"	1922-23	915,109
"	1923-24	344,015
Exports,	1920-21	3,014,386
"	1921-22	1,144,868
"	1922-23	730,383
"	1923-24	1,945,550

CHILE, REPUBLIC OF

AREA, 289,796 square miles.

POPULATION, census of Aug. 1, 1921, 3,774,485 (est., May 1, 1922, 3,805,000).

CAPITAL, Santiago, pop. 1920, 507,296; chief port, Valparaiso, pop. 182,242; other cities, Concepcion, pop. 66,074; Antofagasta, 51,531; Iquique, 37,421; Talca, 36,079; Vina del Mar, 33,441; Orillan, 30,881.

Vice President and Head of the Military Government Council, Gen. Luis Altamarino.

Premier, Alcibiades Roldan (Interior).

Ambassador to the United States, Dr. Beltran Mathieu.

Consul General, at New York, Gustavo Munizaga Varela. *Consuls*, at Boston, Baltimore, Philadelphia, San Francisco, Chicago, Detroit, Newark, Buffalo, Cincinnati, Portland, Ore., Seattle, Norfolk, St. Louis, and New Orleans.

United States Ambassador, William M. Collier.

United States Consul General, at Valparaiso, Carl F. Deichman. *Consuls*, at Antofagasta, Stewart E. McMillan; at Arica, E. C. von Tresckow; at Concepcion, vacant; at Iquique, Harry Campbell; at Punta Arenas, George T. Colman.

Chile lies on the west coast of South America, occupying the strip of land between the Andes and the South Pacific, from Peru to Cape Horn, having an extreme length of about 2,800 miles with a coast line of 2,485 miles. The average breadth north of 40° is 100 miles. Its area is slightly greater than that of the eight South Atlantic States of the United States. The Andes have many lofty peaks, notably Corcoputi (alt. 22,162 feet), El Muerto (21,227 feet), the Baya (19,993 feet), the Guallatiri (19,882 feet). The land in the north part is arid, but the two provinces Tacna and Arica, taken from Peru in the war of the Pacific 1879-82, produced 95 per cent. of the world's supply of nitrates until the process of producing nitrate from the air was made commercially profitable. The production of nitrate in 1920 was 2,606,571 metric tons, valued at $172,800,000, but was stagnant in 1921. The output in 1922 was 10,717,973 metric quintals (one metric quintal = 220.46 pounds) and in 1923 was 19,035,271 metric quintals. Nearly all is exported. The export tax in 1923 brought a revenue of $27,677,775.

Chile is the world's second largest producer of copper, the amount in 1920 being 91,226 metric tons. Shipments of copper bars from the Antofagasta district alone in 1922 amounted to 73,532 metric tons; and exports of copper ore in 1922 amounted to 33,363 metric tons, as compared with 30,031 in 1921. There are also enormous iron ore deposits in the Provinces of Altocama and Coquimbo estimated at a billion tons. Much gold and silver is produced. There are large deposits of coal south of Valparaiso, over a million tons being mined in 1920.

Agricultural land area is 43,000,000 acres in about 100,000 farms. The wheat acreage is about 1,250,000, which produced in 1923, 705,899 metric tons. The harvest of barley was 109,982 metric tons; of oats, 40,962; of corn, 42,592; of beans, 51,137, and of potatoes, 308,086.

The chief exports are nitrates, iodine, copper, silver, cereals, flour, hides and wool; the chief imports are textiles, food products, agricultural and mining machinery.

The population is almost entirely of European origin; there are about 100,000 Araucans (natives) in the Andes and an indeterminate number of nomadic Fuegans in Terra del Fuego.

Chile has 5,642 miles of railroads, of which 2,472 are privately owned. The state owns the Longitudinal railroad traversing the republic from north to south for a distance of 2,862 miles; with spurs its mileage is 3,133. Electrification of the railroad between Valparaiso and Santiago, 117 miles, was begun in 1920. At the ports in 1921 there entered 14,679 vessels of 14,525,761 tons.

The operation of the state railroads, which represent an outlay of about $150,000,000, netted a surplus of 12,840,981 paper pesos ($1,373,985) in 1923.

Chile threw off the Spanish yoke in 1810-18,

and in 1833 adopted the Constitution under which the people are now governed. Electors must be able to read and write. The President is elected for 5 years, Congress is composed of a Senate with 37 members, elected by popular vote for six years, and a Chamber of Deputies, with 118 members, elected for three years. Education is free, supported by the state, and since 1920 is compulsory. The percentage of illiteracy is high. The University of Chile (state) at Santiago had 4,502 students in 1920 and the Catholic University, 614. The Roman Catholic religion is maintained by the state, but by the Constitution all religions are protected.

An income tax law was put into effect Jan. 1, 1924.

All able-bodied citizens are liable for service in the state militia. The peace strength of the army is 23,782, with 609,734 in the reserve. In the navy are one dreadnought—the Almirante Latorre (formerly H. B. M. S. Canada), 28,000 tons, mounting 10 14-inch guns; one pre-dreadnought, the Captain Prat, 6,966 tons; two armored cruisers and four protected cruisers. The strength of the navy is 6,000 men. An air force was formed in 1918 under British instruction, with a nucleus of 14 seaplanes and 80 aeroplanes, bought in Great Britain.

Chile had a bloodless revolution on Sept. 5, 1924, when a military junta of 43 officers demanded of President Alessandri the resignation of the Cabinet, the veto of the salary-grab bill in Congress, the prompt passage of the budget law, and of the labor reforms. Senatorial obstruction in holding up the budget had also held up the salaries of the civil servants and the pay of the soldiers, and as well the putting into effect of a tax on profits. The President readily accepted the petition and at a special meeting of Congress the united Houses accepted it. A non-political Cabinet took office Sept. 6.

A military government council took charge—Gen. Luis Altamarino at the head with the title of Vice President, Gen. Juan Pablo Bennett, and Vice Admiral Juan Neff. President Alessandri found his position untenable and resigned. He left Santiago for Buenos Ayres on Sept. 10, with his family. Gen. Altamarino and the military council took complete charge then with an entirely new Cabinet headed by Alcibiades Roldan, a lawyer, as Minister of the Interior, and Carlos Solar as Minister of Foreign Relations.

Chile was neutral during the World War; on specific invitation she joined the League of Nations Nov. 4, 1919.

(See Peru for boundary dispute.)

Par of exchange (peso, paper).....20.0 cents
Rate of exchange, Oct. 15, 1924.....11 04 cents

CHINA, REPUBLIC OF

AREA, 4,277,170 square miles; divided, China Proper, 1,532,420; Sinkiang (Eastern Turkestan), 550,340; Manchuria, 363,610; Mongolia, 1,367,-600; Thibet, 463,200.

POPULATION, estimated 1920, for China proper, 375,000,000; Sinkiang, 2,000,000; Manchuria, 20,-000,000; Mongolia, 1,800,000; Thibet, 2,000,000; total for all China, 400,800,000.

Foreigners resident in China, according to the customs authorities in 1922, numbered 282,491, of whom 9,153 were Americans; 11,855, British; 152,-848, Japanese; and 96,727, Russians

CAPITAL, Peking, pop. (estd.) 1,200,000; Peking metropolitan area, 4,200,000; other cities, Canton, pop. (estd.), 950,000; Changsha, 550,000; Chungking, 440,000; Foochow, 650,000; Hanchow, 700,000; Hankow, 1,500,000; Hongkong (British Crown colony), 561,000; Nanking, 390,-000; Ningpo, 700,000, Shanghai, 1,100,000; Swatchow, 550,000.

President, Gen. Tsao Kun, deposed Oct. 23, 1924.

Premier, Gen. Huang Fu (Acting, Oct. 31, 1924).

Minister of Foreign Affairs, Dr. Wang, Chen-ting.

Minister to the United States, Sao-Ke Alfred Sze.

Consuls General in the United States, at New York, Ziangling Chang, at San Francisco, Koliang Yih. *Consuls*, at Seattle, Goon Dip; at Portland, Ore., Moy Back Hin

United States Minister, Dr. Jacob Gould Schurman.

United States Consuls General, at Shanghai, Edwin S. Cunningham, at Hankow, P. Stewart Heintzleman; at Mukden, Samuel Sokobin (C.); at Canton, Douglas Jenkins; at Tientsin, Clarence E. Gauss. *Consuls*, at Amoy, Leroy Webber; at Antung, William R. Langdon; at Changsha, vacant; at Chungking, vacant; at Harbin, George C. Hanson; at Chefoo, John R. Putnam, at Nanking, John K. Davis; at Foochow, Ernest B. Price; at Tsinan, vacant; at Yunanfu, Myrl S. Myers; at Swatow, Clarence G. Spiker, at Kalgan, vacant, at Tsingtao. Walter A. Adams.

The official estimates of Chinese population between 1740 and 1920 can be considered only rough indications of those years, says Ta Chen, sometime fellow of Columbia University, in his monograph "Chinese migrations with special reference to labor conditions," published July, 1923, by the United States Bureau of Labor Statistics. Mr. Ta Chen presents, the table printed herewith.

CHINESE POPULATION, 1749 TO 1920, AND EMIGRATION.

(Figures in Thousands.)

PROVINCE.	1749.	1760.	1780.	1812.	1842.	1882.	1885.	1910.	1920.

a Figures are for 1879. *b* Up to 1780, data are for Kiangnan. *c* Now known as Manchuria, but data for 1749 to 1885 are incomplete. *d* Not including the Province of Szechwan, figures for which are omitted as too confusing. An estimate printed in the Far East, June 30, 1923, however, was 49,782,821.

Data for 1749 to 1780 are taken from China (by imperial edict), Ta Tsing Hui Tien (Constitution of the Tsing dynasty). Those for 1812 are quoted by Zarkharov in Numerical Relations of Population of China during 4,000 Years of its Historical Existence, and originally from the same Chinese document. The figures for 1842, 1882 and 1885, supplied by the Chinese Ministry of Revenue, are quoted by W. W. Rockhill in "Inquiry Into the Population of China." The figures for 1910 are taken from the official estimate of the Mingchengpu (Ministry of the Interior) and those for 1920 from the estimate of the Chinese Post Office; they also appear in the China Yearbook for 1921-22.

Mr. Ta Chen notes the estimated loss of population in recent years, not including the famine of 1920-21, for which trustworthy figures are not available (though estimates in press despatches were about 500,000).

Year.	Calamity.	Loss.
1846	Famine	225,000
1849	Famine	13,750,000
1854 to 1864	T'ai-p'ing rebellion	20,000,000
1861 to 1878	Mohammedan rebellion	1,000,000
1877-78	Famine	9,500,000

He holds that the population is too great for the arable land of the country, his figures showing 59,223,984 farmers enumerated as cultivators of 269,553,076 acres of land, an average of 4.5 acres to a farm; the average size of the family being 5.5 in China proper, and 8.3 in Manchuria; 75 per cent. of the native population living on farms. Uncultivated land is estimated at about 160,500,000 acres. Chinese emigration, he holds, arises from pressure of population, and gives these figures of the Chinese resident abroad in 1922.

Country.	Chinese.	Country.	Chinese.
Anam	197,300	Java	1,825,700
Australia	35,000	Korea	11,300
Brazil	20,000	Macao	74,560

Hongkong	314,390	Continental U.S.	61,639
Japan	17,700		
		Total	8,179,582

PHYSICAL CHARACTERISTICS.

China, the home of a highly civilized nation when Europeans were still in the bronze age, and with a history reaching back to 2205 B. C., occupies a territory in the eastern part of Asia, about one-third larger than continental United States. To the north and northeast lies Siberia; to the west Russian Turkestan; to the southwest and south the well-nigh impassable barrier of the Himalayas forms the Thibetan-Indian frontier. French Indo-China borders it on the south; and the China Sea and Yellow Sea on the east separate it from the Philippines, Formosa (now Japanese), the Japanese Empire and Korea. The country is of rolling topography, rising to high elevations in the north in the Kinghan and Tarbagatal Mountains in Mongolia; the Himalayan and Kwenlun Mountains in the southwest, in Thibet, and the Hinghan Mountains of Manchuria. Its length from north to south is 1,860 miles, and its breadth from east to west is about 1,500 miles.

China Proper—China of the 18 Provinces—occupies the rich fertile southeastern part of the country, an area nearly twice the size of the United States east of the Mississippi. There the population on the generally accepted estimates has a density of 174 to the square mile. China Proper is one of the best watered countries of the world. From the mountains on the west four great rivers run in general course eastward to the sea, through great alluvial plain stretching for hundreds of miles along the ocean and inland to a depth of 300 miles. These rivers drain four-fifths of the country. The Yangtsekiang, 3,158 miles long, rises in the centre of the high plateau of Thibet, 16,000 feet in altitude. At Pingshenhsien, 1,215 miles from its source, it becomes in part navigable, but with dangerous rapids, to the vicinity of Ichang, 2,193 miles from its source. From Ichang to Hankow it is navigable by small river steamers and from Hankow to its mouth, 595 miles, by sea-going vessels. The Hanho, a tributary from the north at Hankow, is navigable for 600 miles. The Yellow River (Hwang-ho), 2,700 miles long, and also rising in Thibet, is navigable only in part. It is called "China's Sorrow" because of the devastation it causes in flood time, when it overflows its banks, bursts its dikes and sweeps over the farm lands. In 1898, when a disastrous flood occurred, salt and sand were deposited over an area of 200 square miles, below Lokow, to a depth of 2 to 10 feet, amounting to over sixteen billion cubic feet. The Sikiang, over 1,250 miles long, waters South China, its branches reaching the sea in the Canton delta from Hongkong to the west of Macao. It is navigable for steamers for 200 miles, and for smaller craft for another 100 miles. The Paiho waters the plain of North China, and empties into the Gulf of Chihli at Taku. The Amur River, 2,920 miles long, and navigable for 1,500 miles, which forms the boundary between Manchuria and Siberia; the Yalu, navigable for 600 miles, the boundary between Manchuria and Korea, and the Liao in Manchuria, are also highly important. A network of canals helps to care for the inland navigation.

China's coast line is 2,150 miles long, or with indentations about 5,000. China has 56 so-called treaty ports, 8 voluntarily opened ports, and 25 ports of call. The climate compares favorably with that of countries in similar latitudes.

China is essentially agricultural, and intensively so. The average holdings are small, and the implements are crude, but there is much irrigation, crops are rotated, and fruit, cereal and vegetable production is regarded by scientists as relatively efficient, food values having for many years been replaced in the soils regularly. Deforestation of the mountain slopes and hills has resulted in great erosions. Large forests are rare. Bamboo is widely used. The amount of cultivated land is estimated at 341,163,500 acres. Cotton is produced chiefly in the Yangtsekiang Valley, the 1922 yield having been estimated by the China Cotton Association as 8,301,355 piculs (picul = 133 1-3 pounds). Tea is produced exclusively in the west and south, the tea area being about 520,000 acres. Production is not officially indicated, but exportation is said to have declined from 248,757,333 pounds in 1895 to 76,809,733 in 1922, competition of Ceylon and Indian teas and the cessation of Russian purchases in late years being responsible.

The silk industry has flourished for 4,000 years. China is now producing 27 per cent. of the world's supply, having in this century yielded first place to Japan. In 1919 production was valued at $139,624,755. In 1923 China exported to the United States 12,261,561 pounds of silk valued at $83,395,432. Wheat, barley, corn, millet, peas and beans are chiefly cultivated in the north, and sugar, indigo and several cereals in the south. Rice, the staple food of the Chinese, is grown in all but three provinces, the average annual production being 3,750,000 tons. Besides the thousands of looms in private dwellings, in 1921 there were 17 silk filatures, 57 cotton mills, with 1,747,312 spindles, 4 woolen mills, 125 modern flour mills, 445 glass factories, and some iron and steel works.

China's 350,000,000 hens, it is estimated, lay 26,250,000,000 eggs annually, of which 1,182,000,000 are exported in the shell; 36,812,000 pounds of frozen eggs also are exported and 57,642,000 pounds of egg yolk and albumin; export value, $25,000,000.

Mah Jongg sets exported to the United States in 1923 were valued at $1,522,644.

Practically all of the 18 provinces of China Proper and 3 in Manchuria contain immense stores of coal, China being one of the world's chief coal countries. The known fields cover 133,500 acres, annual production running now at about 25,000,000 tons, of which 8,000,000 is from modern mines.

Iron ores are abundant near the anthracite coal fields of Shansi, where, it is asserted, is the oldest iron industry in the world; and in Chihli, Shantung and Manchuria. There is estimated to be in China 600,000,000 tons of the ore, annual production being about 1,500,000, of which nearly two-thirds are smelted in China.

Petroleum also is abundant, but the industry has not been developed. American oil interests have done much exploration there, and driven many wells, most of which are not active. Copper ore abounds, the Yunnan deposits being of the world's richest. Tin, antimony, gold, silver, lead, mercury, tungsten, bismuth and molybdenum are also present.

In 1922, 34,164 vessels of 18,157,385 tons in the foreign trade entered Chinese ports; of these, 549, of 1,724,735 tons, were American.

The first railway was opened in 1876. At present there are more than 7,000 miles, including 1,857 miles in Manchuria, with 2,000 under construction. About one-half are under the Government.

A NEW CONSTITUTION.

Up to Feb. 12, 1912, when China became a republic, it was one of the most ancient monarchies. According to the Provisional Constitution the Government comprises a President, Vice President and a two House legislative body—the Senate of 264 members and the House of 596. The Central Government has not yet obtained full control.

there being Military Governors in several provinces who refuse to obey. The executive authority is in a Premier named by the President, and nine Ministers nominated by the Premier, all to be confirmed by the Parliament. The Parliament, however, failed to function up to late 1922, owing to the disturbed state of the country. In October, 1923, it convened in Peking and on Oct. 15 elected Gen. Tsao Kun President to succeed Li Yuan-hung, twice President, who, yielding to the pressure of the northern military leaders, fled to Tientsin and resigned his post on June 14, 1923.

A new Constitution was promulgated October 10, on the inauguration of Gen. Tsao Kun. It provides for the replacement of provincial armies with a national army, whose strength shall be determined by Parliament. While the Constitution gives wide latitude to the provinces in the matter of self-government, it stipulates that no province shall keep any standing army or establish any military officers, academy or arsenal. It directs that the "military expenses of the nation shall not exceed one-quarter of the national annual expenditure, except in the event of a foreign war."

China and Russia reached an agreement in May, 1924, by which the former recognized Soviet Russia and acknowledged that title to the Chinese Eastern Railway, built with Russian money but running for 1,100 miles through Chinese territory, accrues to Moscow. The countries agreed to exchange Ambassadors, the negotiator of the treaty, L. K. Karakhan, being named Russia's representative at Peking.

Civil war broke out anew in China in September, 1924, when Gen. Chi Hsieh-yuan succeeded in capturing Shanghai from Gen. Lu Yung-hsiang. On Sept. 7 Gen. Chan Tso-lin, the Manchurian war lord, who had protested in vain against the attack on Gen. Lu, declared war on the Peking Government, charging President Tsao Kun and his Commander in chief, Gen. Wu Pei-fu, with treason. The Peking Government sent troops against him and there was severe fighting near the Great Wall. Suddenly Gen. Feng Yu-hsiang (the Christian General), supposed to be supporting the Government, turned against it and by a forced march of 100 miles on Oct. 23 surprised and captured Peking without bloodshed, deposed President Tsao Kun and ordered Gen. Wu into exile. He placarded the country with a proclamation that he proposed to enforce peace and harmonize the warring factions. Foreign military forces were landed to guard the legations in Peking. Gen. Wu turned back on the capital with his troops, reaching Tientsin on Oct. 26. Finding his position hopeless he fled. A provisional government was established on Oct. 31.

(See Chronology for later developments.)

Confucianism, Buddhism and Taoism are the religions of China, although there are also between 5,000,000 and 10,000,000 Moslems in the country; about 1,994,000 Catholics and 618,600 Protestant Christians.

In 1905 there began the new movement toward education of the masses, and since then progress has been marked. While the number of schools, 135,000, and pupils, 4,500,000, is small relative to the total population, the number is growing rapidly. There are seven universities and many technical institutions of learning.

The army numbers between 1,400,000 and 1,800,000 men, and is being wrought into a more modern organization. The navy is negligible—a protected cruiser of 4,300 tons, two cruisers of 2,600 tons and three 3,000-ton cruisers, with auxiliary vessel complement. The whole tonnage is about 40,000, with 8,000 men. China is a member of the League of Nations.

There is "unparalleled currency confusion," says an authority. The unit is the tael, which varies in gold par value from 67.08 cents in Shanghai to 74.86 in Taku. Mexican dollars are used in all the treaty ports.

Trade for the calendar year 1922 reached new high points, imports amounting in American gold to $774,657,198 and exports $536,814,917. The revised import tariff was made effective Jan. 17, 1923. It was drawn up in accordance with the agreement of the powers at the Washington Conference of 1921-22 and is designed to assure the Chinese Government an effective 5 per cent. revenue on the value of goods imported.

Imports in 1923 amounted to $756,030,000; and exports to $631,620,000.

China's foreign trade is but one-fiftieth of that of the United States per capita.

Receipts of the Chinese Maritime Customs in 1922 reached the highest figure ever recorded, 58,634,200 Haikwan taels ($48,666,400 gold at the average exchange rate of the year), and receipts of the Salt Gabelle, $85,739,000 Mex., were $7,800,000 greater than in 1921.

Both these sources of revenue are under foreign administration, the customs originally for protection of the revenues during the Taiping rebellion and later as security for foreign loans and the Boxer indemnity, the Salt Gabelle for security and service of the Reorganization Loan of 1913.

Interest and amortization of foreign loans are a first charge on the Maritime Customs and Salt revenues, and the surplus is turned over by the foreign administrator (the chief of each service is English and subordinate officials are of various nationalities, including Chinese) to the Chinese Government for service of domestic loans and administrative expenses. In the disturbed conditions of recent years the surplus Maritime Customs and Salt revenues have been the principal item of China's official income.

The Central Government did not profit as largely as usual from the heavy Salt receipts, as provinces retained some $40,000,000 of the $85,000,000 for their own expenses.

The Chinese postal service, which was developed by the Maritime Customs administration, but is now an independent Chinese department under foreign direction, also produced a surplus in 1922, and the Postal Savings System (started in July, 1919) showed a large excess of deposits over withdrawals. For the first six months of 1922 deposits aggregated 2,439,759 Chinese silver dollars (value about $0.54 U. S.), and withdrawals were about 1,680,697 silver dollars, leaving a deposit balance of $759,062 for the period. Figures for October, 1922, gave the total number of depositors as 24,976, and the total deposits as 3,471,060 silver dollars. Post offices numbered 11,306 in 1922.

STATUS OF BOXER INDEMNITY ACCOUNT.

The Boxer indemnity payments were suspended on Dec. 1, 1917, and resumed on Dec. 1, 1922. The following table, compiled by the Far Eastern Division of the Department of Commerce, is a statement of the status of the Boxer indemnity account of Dec. 1, gathered from official Chinese sources, the conversions to United States currency being made at current rates of exchange on that date:

Countries to Which Due.	Amt. in Original Currency.	Equivalent in U. S. Currency.
France.....francs	391,581,529	$27,489,023
Gt. Britain..pounds sterling	11,186,547	50,560,958
Japan.....yen	72,121,578	34,986,177
United States (a)....dollars	12,455,507	12,455,507
Italy.....francs	147,051,159	10,322,991
Belgium.....francs	46,873,522	3,290,521
Portugal....pounds sterling	20,386	92,141
Russia.....gold roubles	254,343,251	(Nofigures)

(a) Balance due amounting to $6,137,553, remitted by Congress May 21, 1924, to be used by China for educational purposes.

The Commission for the readjustment of Chinese Government Finances reported in April, 1925, that the Central Government revenues are nominally 209,000,000 dollars Mex., but are actually only 158,000,000. Debt service claims 98,000,000; military subsidies and redemption of Treasury Notes, 42,000,000; others amount to 11,000,000; leaving a net balance of but 7,000,000 to cover administrative expenditures of 128,000,000; resulting in a deficit of 121,000,000 dollars Mexican.

China's national debt as compiled by the Government Bureau of Economic Information in 1922 is as follows, amounts being stated in Mexican dollars ($1 Mexican is worth about $0.57 United States currency at present rate of exchange):

	Dollars Mexican.
General foreign loans	268,979,252
Foreign railway loans	334,802,631
Foreign indemnities	482,841,744
Internal long-term loans	275,226,738
Internal short-term loans	69,101,978
Treasury notes, etc	18,640,000
Total	1,449,592,343

The last items do not contain all the short-term loans and treasury notes issues, as the amounts of some of these cannot be ascertained. The floating foreign debt on Jan. 1, 1923, was 486,741,512 dollars Mexican.

The chief exports of China are silk, beans and products, tea, skins and furs, cotton, sesamum seed, tin, cereals, medicines, peanuts and peanut oil, animals, wool, antimony and copper.

China's trade with the United States was:

Imports,	1920-21	$138,455,178
"	1921-22	100,901,052
"	1922-23	96,851,718
"	1923-24	124,426,852
Exports,	1920-21	113,185,707
"	1921-22	109,410,796
"	1922-23	169,619,408
"	1923-24	157,881,756

MANCHURIA.

AREA, 363,610 square miles.

POPULATION, 1916, estimate of the Southern Manchurian railway, 20,112,100.

CAPITALS, Mukden, pop. 158,132, of Shengking Province; Kirin of Kirin; Tsitsihar, of Amur.

Manchuria is the extreme northeast territory of China, with Siberia on the northwest, north and east, Korea on the southeast, and Mongolia on the west. The Amur River flows along the northern border, the Ussuri on the east, and the Yalu forms the boundary with Korea.

Its topography is extremely varied. Much of the eastern portion is intensively agricultural. The soya bean, cultivated on about 5,000,000 acres, is a source of enormous wealth. The Chamber of Commerce at Dairen estimates that 22,744,000 acres are cultivated for all crops, 19,460,000 persons being employed. Wheat, beans, millet, rice and products of the soya bean are the chief crops. There are 50 flouring mills. Forests are extensive. There are rich deposits of coal, iron, lead, gold, silver and asbestos.

The Trans-Siberian railroad runs through Manchuria from Lake Kulun to Suirenko, the border for about 100 miles northwest of Vladivistok. From Harbin the railroad runs to Mukden and branches to Peking on the west, Port Arthur and Dairen on the south, and through Korea to Moppo, and Fusan on the southeast. Railway mileage is about 1,000.

In 1922, direct imports were 128,315,112 taels; exports, about 239,558,826 taels.

MONGOLIA.

AREA, 1,367,600 square miles.

POPULATION, estimated, 1,800,000.

CAPITAL, Urga.

Mongolia, although nominally of China, was somewhat shaken loose from Chinese adherence during the late war, the status of Outer Mongolia being now that its autonomy is recognized by China, and it is recognized by Russia as under Chinese suzerainty. It is bounded on the north by Siberia, on the south by Sinkiang, on the southwest by Turkestan, on the east by China Proper and Manchuria.

There is little agriculture, the great plains between the Tarbagatai and Kinghan Mountains being desert, with camels, horses and sheep as principal interests. The religion of the people is Buddhist Lamaism.

Motor transportation from Kalgan on the Great Wall of China, northwest of Peking, and at the terminus of the Kalgan-Peking railroad, with Urga, the capital of Mongolia, a distance of 650 miles across the plains, was established in 1921. In the last three months of the year goods to the value of $2,000,000 silver were taken to Urga. The trip takes three to four days.

Mongolia has its own legal currency, adopted in 1915, equal to the gold par of the Russian ruble—50 cents.

SINKIANG (*Chinese Turkestan*).

AREA, 550,340 square miles.

POPULATION, estimated, 2,000,000.

CAPITAL, Ili.

Sinkiang, known as the New Dominion, comprises Chinese Turkestan, Kulja and Kashgaria and includes all Chinese dependencies between Mongolia on the north and Thibet on the south. There are Turki, Mohammedan and Chinese people resident there. Along the Kashgar and Yarkand Rivers there is much irrigation, and cereals, fruits and vegetables are grown, with wool, cotton and silk production.

It is from Sinkiang that much of the jade comes.

THIBET.

AREA, 463,200 square miles.

POPULATION, estimated, 2,000,000.

CAPITAL, Lhasa; pop. 15,000 to 20,000.

Thibet, in Western China, is a country little known, situated between the Himalaya and Kwenlun Mountains, and hitherto practically shut to strangers. The trade is with India mostly, being carried on through lofty passes, some of which are 14,000 to 18,000 feet high, which are impassable in winter. China's hold on Thibet was visibly loosened when the 1911 revolution broke in China. The Thibetans expelled the Chinese garrisons, and the status of that country is more or less indeterminate, although nominally part of the Chinese Republic.

The religion is Lamaism, a modified form of Buddhism, and also a faith known as Shamanistic. All economic phases are affected by the non-progressive character of the people, who are immersed in their religious traditions. Some agriculture is carried on, and livestock husbandry.

The highest grade musk is obtained from the musk-deer, now becoming very scarce, in Tsarung mountains in Southeastern Thibet.

Exports to India, mostly raw wool, in 1921-22 were valued at £231,100; and imports from India, mainly cotton piece goods, were valued at £551,300.

COLOMBIA, REPUBLIC OF

AREA, estimated, 476,916 square miles. Boundary on Peru and Venezuela frontiers undetermined.

POPULATION, 1923, estimated, 6,300,000.

CAPITAL, Bogota, population, census, Oct. 14, 1923, 166,148; chief cities, Medellin, pop. 79,146; Barranquilla, 64,543; Cartagena, 51,382; Cali, 45,825; Cucuta, 29,490; Bucaramanga, 24,919.

President, Gen. Pedro Nel Ospina, Conservative (1922-26). Inaugurated Aug 7, 1922.

Premier, Dr. Jorge Velez (Foreign).

Minister to the United States, Dr. Enrique Olaya.

Consul General, at New York, Ignacio Marino (in charge); *Consuls*, at Boston, Philadelphia, Newark, Chattanooga, Mobile, Baltimore, New Orleans, Detroit, Chicago, San Francisco, Los Angeles, Seattle, St. Louis, Milwaukee, Berkeley, Cal.; Gulfport, Rochester, Cincinnati and Norfolk.

United States Minister, Samuel H. Piles.

United States Consuls, at Barranquilla, Maurice L. Stafford; at Cartagena, Lester L. Schnare; at Santa Marta, John E. McArdle (V. C.).

The Republic of Colombia, situated in the extreme northwest of South America, extends up the Isthmus of Panama to the Republic of Panama—boundary line undetermined. It has a coast line of 465 miles on the Pacific Ocean, and 640 miles on the Caribbean Sea. It has as neighbors Venezuela and Brazil on the east, and Ecuador and Peru on the south. Its area is equal to that of California, Oregon, Washington and Montana combined.

Three great ranges of the Andes, the Western, Central and Eastern Cordilleras, run through the country from north to south. The eastern range consists mostly of high table lands, cool and healthy, the most densely populated part of the country. The Magdalena River, in the east, rises in the high Andes and flows north into the Caribbean Sea, 18 miles from Barranquilla. It is navigable for river steamers for 900 miles, as far as Jirardot. Steamers ascend to La Dorado, 590 miles. Railroads serve to transport freight and passengers around the rapids and from Jirardot to Bogota. The total mileage of railroads is 850, and the bulk of the transportation in the interior is on mule back.

The population is mainly whites and half castes, only 158,428 Indians being returned. Bogota, the capital, situated 8,600 feet above the sea, has a university, founded in 1572, a large library, a museum and observatory. The Roman Catholic is the prevailing religion, but all are tolerated. The standing army consists of about 6,000 men, with a reserve of 362,700. Military service is compulsory. There is no navy.

The country is divided into 14 departments, 2 intendencias and 7 comisarias, with Governors appointed by the President. The Federal Congress consists of a Senate of 34 members, elected for a term of 4 years, and a House of Representatives of 92, elected directly by the people every two years.

The forests are extensive, much mahogany, cedar and dyewood being exported. Colombia contains the great emerald mines of the world, the chief mines being owned by the state. The country is rich in minerals—gold, silver, platinum, copper, iron, lead and coal are mined. The Government-owned salt mines at Zipaquira are a great source of revenue. Coffee, cotton, bananas, cocoa, vegetables, ivory, tobacco, and wheat are the chief agricultural products. Cattle raising is extensive. Some woolen and cotton stuff is manufactured for home consumption, also iron. The chief exports are coffee, hides, bananas, Panama hats, rubber, and precious metals.

Coffee production in 1922 was 1,674,212 bags of 138 pounds each.

The production of crude petroleum in 1923 was 424,883 barrels of 42 gallons; in 1922, 322,786 barrels; and in 1921, 102,097 barrels. Export of gold in 1921-22 was valued at $3,551,100.

The country, originally conquered by Spain and ruled by her for 300 years, won its freedom in the revolt of the Spanish-American colonies in 1811-24, the liberator, Simon Bolivar, establishing the Republic of Colombia in 1819. Venezuela and Ecuador withdrew in 1829-30, and there were frequent uprisings during the century, culminating in the secession of Panama in 1903, since which the republic has been tranquil. Under the treaty with the United States adjusting the loss of Panama (ratified by the United States Senate April 20,

1921, and by the Colombian Congress Dec. 24, 1921), Colombia is to receive in compensation $25,000,000 from the United States, to be paid in yearly instalments of $5,000,000. This sum of money it is planned to use in stabilizing the currency of the country, and in improving its transportation facilities.

An advisory commission of North American financial experts visited Colombia on invitation of President Ospina, and Congress put into effect in 1923 the reforms they suggested. The gold standard was adopted, the Bank of the Republic, a central issue bank, created with an authorized capital of 10,000,000 pesos (7,263,600 paid up on June 30, 1924), which has the exclusive privilege of issuing bank notes; new laws on banking and negotiable instruments; and a new model for the budget. This was followed by a law on Dec. 12, 1923, for the conversion and unification of the national debt to the great advantage of Colombia's credit abroad.

The budget for 1924 estimated revenues at $38,285,397; and the expenditures at $42,965,903. The deficit is not real, however, as it includes expenditures of $4,568,414 to amortize treasury bonds and will be covered by a loan of $5,000,000.

The budget for 1925 estimates revenues at 34,441,655 pesos and expenditures at 38,150,655 pesos.

The foreign debt, March 1, 1924, was $22,447,607 and the internal debt, $21,050,775.

Colombia is a member of the League of Nations.

COSTA RICA, REPUBLIC OF

AREA, 23,000 square miles.

POPULATION, census of Dec. 31, 1922, 485,049.

CAPITAL, San Jose, pop., 40,347. Other cities, Cartago, 18,599; Limon, 11,123.

President, Sr. Don Ricardo Jimenez (1924-28). Inaugurated May 8, 1924.

Premier, Sr. Don Tomas Soley Guell (Finance).

Minister to the United States, Sr. Don J. Rafael Oreamuno.

Consuls General, at New York, Manuel Antonio Bonilla; at San Francisco, Ruben Gonzalez Flores; *Consuls*, at Boston, New Orleans, Baltimore, Chicago, Mobile, Milwaukee, Los Angeles, Norfolk, St. Louis and Galveston.

United States Minister, Roy T. Davis.

United States Consuls, at San Jose, Henry S. Waterman; at Port Limon, John J. Meily.

Costa Rica, the southern state of Central America, has Nicaragua for its neighbor on the north and Panama on the south. The latter boundary has been a subject of arbitration and was fixed in 1900 by decision of President Loubet of France—a decision that by mutual consent was interpreted by the late Chief Justice White of the United States in 1914. Panama objected strenuously to this decision and in 1921 started troops to occupy the territory she claimed and which Costa Rica had occupied; but yielded to diplomatic pressure from the United States.

The United States and Costa Rica signed a protocol on Feb. 8, 1923, which in effect, admits such rights as Costa Rica has in the territory through which the proposed Nicaraguan Canal would go and which provides for negotiations with Costa Rica as to the terms on which her permission will be forthcoming.

The lowlands by the Caribbean have a tropical climate. Bananas are cultivated, 7,671,619 bunches being exported in 1922. The interior plateau, with an altitude of about 4,000 feet, has a temperate climate. Coffee is the chief crop. The forests are extensive but little lumbering is done. Agriculture and stock raising are the chief industries. Gold and silver mining is an important industry on the Pacific slope. Port Limon is the centre of the banana trade. In 1922 601 vessels, tonnage 848,775, entered the ports. There are 430 miles of railroads, the line from Port Limon to San Jose, 103 miles, has unusual scenic charm.

The Constitution, adopted Dec. 7, 1871, has been many times modified. The legislative power is vested in a Chamber of Deputies, 43 in number, with four-year terms, one-half elected directly every two years by manhood suffrage. The President, elected for 4 years, appoints a Ministry of six. The Roman Catholic is the religion of the state. Primary education is compulsory and free. The National Police have taken over the duties of the army.

Costa Rica is a member of the League of Nations.

CUBA, REPUBLIC OF

AREA, 41,634 square miles; including the Isle of Pines (1,180 square miles) and surrounding keys, about 44,164 square miles.

POPULATION, census of Dec. 31, 1922, 3,123,040. By Provinces; Pinar del Rio, 272,209; Havana, 783,014; Matanzas, 326,588; Santa Clara, 692,134; Camaguey, 235,895; Oriente, 813,197. White, 2,193,936; Colored, 809,886; (immigrants unclassified, 118,034).

CAPITAL and chief port, Havana, population, census Dec. 31, 1923, 432,353; other cities, Camaguey, population, 98,193; Cienfuegos, 95,865; Santiago, 70,232; Guantanamo, 68,883; Santa Clara, 63,151; Matanzas, 62,638; Sancti Spiritus, 58,843; Manzanillo, 56,570; Pinar del Rio, 47,858; Trinidad, 40,602.

President, Dr. Alfredo Zayas, 1921-25.

President-Elect, Gerardo Machado (Liberal) 1925-29, elected Nov. 1, 1924, to take office May 20, 1925.

Premier, Dr. Carlos Manuel de Cespedes (State).

Minister to the United States, Dr. Cosme de la Torriente; Dr. Arturo Padro, Charge d'Affaires.

Consul General, at New York, Felipe Taboada y Ponce de Leon. *Consuls*, at Boston, Philadelphia, Baltimore, Norfolk, Newport News, Charleston, New Orleans, Mobile, Jacksonville, Key West, Tampa, Pensacola, Galveston, St. Louis, Chicago, Detroit and San Francisco.

United States Ambassador, Major Gen. Enoch H. Crowder.

United States Consul General, at Havana, Carlton Bailey Hurst. *Consuls*, at Antilla, Horace J. Dickinson; at Cienfuegos, Frank Bohr; at Nuevitas, Lawrence P. Briggs; at Santiago, Francis R. Stewart; at Nueva Gerona, Isle of Pines, Charles Forman.

Cuba, the "Pearl of the Antilles," largest island of the West Indies, lies between the Gulf of Mexico, the Strait of Florida and the Atlantic Ocean on the north and the Caribbean Sea on the south. Key West, Fla., is about 100 miles a little to the east of north of Havana. The Windward Passage, 50 miles wide, separates it from Haiti to the east, and Jamaica (British) lies 85 miles to the south. Yucatan is 130 miles to the west. From San Antonio, the western extremity, to Cape Maysi, the eastern, the length is 730 miles, and the breadth averages 50 miles, with a maximum of 160 miles. Its area nearly equals that of Pennsylvania. The coast line, including the larger keys, is about 2,500 miles in length. It has numerous safe and commodious harbors, notably that of Havana, one of the finest and safest in the world. Other first-class harbors are Bahia Honda, Matanzas, Cardenas, Nuevitas and Nipe on the north shore, and Santiago and Cienfuegos on the south; also Guantanamo, now a United States naval station.

Mountains rise in Pinar del Rio province in the west, and in Camaguey and Oriente in the east, where they reach a general elevation of about 3,000 feet, with Monte Turquino (8,320 feet) as the highest point. Santa Clara is rough and broken, but Matanzas and Havana are flat and rolling. The uplands and mountains are covered with magnificent forests, the scenery is wild and very beautiful, and many points are inaccessible. Broad intervals of low upland are frequent. Near the coast runs a continual belt of plantations. Grazing, tobacco

and general farm lands cover the lower slopes of the hills. There are 13,000,000 acres of uncleared forest land.

The soil is alluvial, and under the tropical heat and humidity the vegetation is of rare richness. It is estimated officially that 8,628,434 acres are covered with dense forest, mostly primeval. The royal palm is the most characteristic tree, rising to 75 feet, sometimes 100 feet in height, dominating every landscape. All tropical fruits and vegetables flourish. At Havana the mean temperature is 76° and the mean rainfall 40.6 inches. Hardly a decade passes without a destructive hurricane. The population is about 60 per cent. native white, 30 per cent. colored, and 10 per cent. foreign white.

Each winter 200,000 tourists visit the islands.

Sugar has been the dominant crop for 150 years and its price is the barometer of prosperity for the island. Cuba exported raw sugar to the value of $724,150,000 in 1920; $231,740,256 in 1921; and $276,062,549 in 1922. The United States takes about 90 per cent. of the crop. The sugar acreage in 1921 was 3,794,133; and the 1921-22 crop, was 27,962,627 bags or 4,038,455 tons. The 1923-24 crop is estimated as 4,062,000 tons. Rum, molasses and alcohol are important by-products.

Tobacco raising and the manufacture of cigars and cigarettes is the second industry of the island. The total value of the crop is between $40,000,000 and $50,000,000 annually; the tobacco manufactured in Cuba in 1919-20 was valued at $2,373,966. Cuba's exports of tobacco to the United States in the year 1920-21 were 18,292,521 pounds, valued at $22,278,840; and in the year 1921-22 were $21,401,-159 pounds, valued at $20,578,009; the value of cigars exported to the United States for the same periods was $4,000,000 and $3,214,000 respectively. Banana raising is increasing in importance.

According to the Department of Commerce figures there are about $110,000,000 of Cuban Government bonds held in this country with other investments of United States capital in Cuba as follows:

Sugar properties	$750,000,000
Railroads	110,000,000
Public utilities, telephone and telegram companies	100,000,000
Hotels, office buildings and other urban real estate	80,000,000
Miscellaneous manufacturing	40,000,000
Tobacco and cigars	50,000,000
Miscellaneous agricultural lands other than sugar and tobacco	35,000,000
Independent docks, warehouses and terminal facilities	10,000,000
Merchandising	30,000,000
Banking	20,000,000
Total	$1,250,000,000

Total of British investments in Cuba is officially estimated at £14,000,000.

From the Isle of Pines 229,621 cases of grapefruit were shipped to the United States in 1922-23.

Stock raising is an important industry, though proportionately less so than in previous years. Mahogany and other valuable cabinet woods are produced and much cedar for the manufacture of cigar boxes. In the iron mines 50,000 tons of ore are exported monthly to the United States. Copper is a valuable product, also asphalt.

Cuba had in 1922, 3,020 miles of railroads, excluding the private lines connecting the sugar plantations with the trunk lines.

In 1922, steam vessels of 5,498,850 net tons and sailing ships of 405,502 net tons entered the ports in the foreign trade.

The Cuba Northern Railroad, the Cuba, and the Camaguey & Nuevitas were amalgamated (under the Tarafa bill), as the Consolidated Railroads of Cuba, with Horatio Rubens as President and Thomas S. Clear as Treasurer.

The island has over 1,500 miles of automobile roads.

Cuba, discovered by Columbus in 1492 and first settled by the Spanish in 1511, attained independence of Spain by the Treaty of Paris, Dec. 1, 1898, which ended the Spanish-American War. A Constitution, modeled after that of the United States, was adopted Feb. 21, 1901. It provides for a President and Vice President, elected for four years by direct vote; a Senate of 24 members (four from each of the six provinces) and a House of Representatives of 115 members. The provinces and municipalities have a large measure of home rule. The Congress of the United States authorized the President to hand over the Government to the Cuban people on the condition that the so-called Platt amendment, adopted by Congress March 2, 1901, be accepted. This provided that the Cuban Republic should never enter into any compact with a foreign power that would impair her independence; that she would contract no excessive debt; that the acts of the United States in Cuba during and after the war be validated; that the Cuban Government should carry out certain plans for the sanitation of the island; that certain lands necessary for coaling or naval stations be leased to the United States, and "that the Cuban Government consents that the United States may exercise the right to intervene for the preservation of Cuban independence and to maintain a Government capable of protecting life; property and individual liberty, and for discharging the obligations with respect to Cuba imposed by the treaty of peace on the United States, now to be assumed and undertaken by the Government of Cuba." This was made, on June 12, 1901, a part of the Constitution. On Feb. 24, 1902, the election of President (Thomas Estrada Palma) took place and the United States formally transferred control of the island to the National Government. The coaling stations, Guantanamo Bay and Bahia Honda, were leased to the United States on July 2, 1903, at an annual rental of $2,000,000.

Notable work was accomplished by the United States Military Government under Gens. Brooks and Wood, especially the stamping out of yellow fever.

Political disturbances occasioned intervention by the United States in August, 1906, which continued until Jan. 28, 1909, when the National Government was resumed after the institution of electoral reforms, and the last American soldiers left the island April 1, 1909. A new electoral law, drawn with the assistance of Major Gen. Enoch H. Crowder, U. S. A., was passed in August, 1919. The election of Nov. 1, 1920, was very stormy, and interpretations put on the new laws brought about a deadlock. Gen. Crowder was sent to Cuba in January, 1921, again as personal representative of President Wilson to straighten matters out, the result being the inauguration of Dr. Alfredo Zayas on May 20, 1921.

Under the influence of Gen. Crowder the Congress has passed during the summer session of 1922, five reform measures—the reorganization of the Federal system of accounting, the suspension of certain provisions of the civil service law to permit the President to shift the personnel of various Government departments in the interest of economy and efficiency, certain judiciary reforms, the clearing up of current indebtedness, and the flotation of a foreign loan of $50,000,000, the latter authorized Oct. 7. The issue in 30-year 5½ per cent. bonds was floated in New York in January, 1923, at 96.77. The war debt of 1917, amounting to $18,352,400, was called and paid on June 30, 1924.

Cuba is a member of the League of Nations.

The Education Act of 1899 established a system of primary and secondary schools, with compulsory attendance, under which education has progressed greatly. A wide system of kindergartens and night schools has been added. In 1919, 334,671 children were enrolled, with 6,151 teachers. In that year 223 new schools were established. The University of Havana (founded 1721) in 1919 had 2,272 students. The Roman Catholic religion is dominant.

Cuba's army numbers 12,500 men, with a reserve of 300,000.

CZECHOSLOVAKIA, REPUBLIC OF

AREA, 54,877 square miles; viz.: Bohemia, 20,333; Moravia and Silesia, 10,438; Slovakia, 19,148; Carpathian Russinia, 4,958.

POPULATION, census of Feb. 15, 1921, 13,613,172; viz.: Czechoslovaks, 8,760,937; Germans, 3,123,-568; Magyars, 745,431; Ruthenians, 461,849; Jews, 180,855; Poles, 75,853; others, 25,871; and 238,808 non-citizens.

CAPITAL, Praha (Prague); pop., 676,657; other cities, Brno (Brunn), pop. 221,758; Plzen (Pilsen), 88,416; Bratislava (Pressburg), 93,189, Olomouc, 57,206; Kosice, 52,898; 78 others from 10,000 up.

President, Dr. Thomas G. Masaryk, born 1850; took office Nov. 14, 1918; re-elected May 28, 1920.

Premier, Antonin Svehla, Agrarian.

Minister for Foreign Affairs, Dr. Eduard Benes, National Socialist.

Minister to the United States, Dr. Frantisek Chvalkovsky.

Consuls in the United States, at New York, Borivoj Prusik (acting); at Chicago, Jaroslav Smetanka; at Cleveland, Bohuslav Bartosovsky; at Pittsburgh, Milan Goetting; at Omaha, Stanley Serpan.

United States Minister, Lewis Einstein.

United States Consul, at Prague, Charles S. Winans.

Czechoslovakia is a Central European republic, about the size of the State of Illinois, bounded on the north by Germany and Poland and on the south by Roumania, Hungary and Austria. Its extreme length from east to west is 600 miles and its width varies from 50 to 100 miles.

It comprises the territories of the ancient Bohemian kingdom (Bohemia, Moravia and a part of Silesia), and the upper parts of former Hungary known as Slovakia and Carpathian Russinia, the latter forming an autonomous part.

Czechoslovakia is one of Europe's richest countries agriculturally. It is becoming a land of peasant holdings, the number of farms being 3,791,621. Farming is unusually highly developed and is intensive as indicated by the production in 1923 of 17,117,311 metric tons of wheat, oats, barley, rye, potatoes and sugar beets from about 3,866,752 hectares. Beet sugar produced in 1922-23 was 7,360,277 tons, of which in 1923 4,712,421 tons were exported; 600 breweries output 5,700,000 hectolitres of beer, and in 1922-23 905 distilleries 455,803 hectolitres of spirits. Livestock number 9,226,417.

Forests cover 32 per cent. of the total, 4,655,976 hectares are in Czechoslovakia in 1923, the annual lumber yield being in 1920, 13,315,232 cubic metres. Immense quantities of foodstuffs are exported, the net food surplus being larger than for any other country in Europe. Agriculture has been restored to almost normal.

Sequestration of the land to be partitioned off began in earnest in 1923, when 465,000 acres, entirely agricultural, were partitioned; in 1924 350 estates were to be broken up and more than 500,000 acres distributed.

Mineral wealth is great—coal, iron, graphite, copper, lead, gold, silver and garnets being abundant. Coal production in 1922 was: Anthracite, 10,464,990 metric tons; bituminous, 19,174,296 metric tons from 462 mines employing 138,647 men.

The production of iron ore, 1922, is about 313,149 metric tons and of petroleum, 1922, 18,299 metric tons.

Radium deposits of great promise were reported in 1924 as discovered in Durrmane, west of Marienbad.

Unemployment reached its peak in January, 1923, with a total of 441,075. The situation steadily improved, the number on Nov. 1, 1923, being 176,000.

Factories number 11,054; textile, 2,005; glass and imitation precious stones, 2,042; foodstuffs, 1,831; furniture and wood, 1,160; machinery, 765, metal, 849; paper, 355; chemicals, 620.

The railroad mileage was in 1921 8,718, 5,305 state owned, 3,413 privately owned. The peace treaty gave Czechoslovakia, which has no outlet to the sea, 200 miles distant, the right to certain wharves in Hamburg and Stettin. The Dunaj (Danube) is the principal waterway, its chief port being Bratislava (Pressburg). On the Labe (Elbe), which flows from Czechoslovakia through Germany, the main ports are Usti (Aussig) and Decin (Tetschen).

The Czechoslovaks is a term for two branches of the same Slav nation. The beginning of the independent kingdom of Bohemia in Central Europe reaches in the fifth century. In 1526 the Hapsburgs were elected to the throne of Bohemia, which thus became united through a common dynasty to Austria and Hungary. Religious persecution in the seventeenth century led to unsuccessful rebellions and to the loss of independence. The persecution of the Czechs by the Hapsburgs left great bitterness. In its present form Czechoslovakia is a creation of the war coming into existence Oct. 28, 1918, on the break-up of the Austro-Hungarian Empire, of which it was the northwest portion bordering on Germany and Poland. The Constitution of the republic was adopted by the National Assembly on Feb. 29, 1920, providing for a National Assembly with legislative authority over the whole country, Carpathian Russinia to have autonomy. The Assembly, elected by universal suffrage, and with proportional representation, is composed of a Chamber of Deputies, six-year tenure, 300 members; of which Social Democrats 74, Agrarian 40, Catholics 33, National Socialists 24, Liberals 19, others 9 German Social Democrats 31, other German 41; Magyars 10; women members are 16; and a Senate eight-year tenure, 150 members, of which Social Democrats 41; Agrarian 20, Catholics 18, National Socialist 10, Liberals 10, others 3, German Social Democrats 16, other German 21, Magyars 3; women members 3. Both in joint session to elect the President of the republic for a seven-year term; the President to be the head of the army, authorized to declare war with consent of the Assembly, and appoint Ministers and officials. Freedom of speech and religion are guaranteed.

The religious distribution of the population by the census of 1921 was: Roman Catholics, 10,384,833; Protestants, 990,319; without confession, 724,507; Czechoslovak Church, 525,333; Jews, 354,342; Greek Catholics, 535,450, Russian Orthodox, 73,097; others, 25,291.

In 1920 the Reformed Clergy of Czechoslovakia decided to withdraw from the jurisdiction of the Pope and found a national church, called "Czechoslovak church."

Education is compulsory between the ages of six and fourteen. Literacy is almost universal, excepting in Slovakia and Carpathian Russinia. There are 13,633 elementary schools with 1,912,343 pupils, and 1,564 advanced schools with 273,977 pupils. High schools were, in 1923-24, 382 with 103,479 students. There are four polytechnics with university rank, colleges of mining engineering, veterinary science, agriculture and fine arts. The Czech University of Prague is celebrated. Founded in 1348, students number 8,814; the German University at Prague having 3,539 and two other universities 1,789.

Universal military service for men between 20 and 50 was enacted in 1920, service to be for 14 months. When mobilization is decreed, all from 17 to 60 are liable for service. Peacetime army strength is according to the new law, 150,000 men in the period from Oct. 1 to March 31, and only 90,000 men from April 1 to Sept. 30. Reserve number 1,524,000. The budget of the Ministry of National Defense for 1922, was fixed at 3,190,000,000 crowns; for 1923, 2,775,000,000, for 1924, 2,299,973,630; and for 1925, 15,974,000,000.

With Jogo-Slavia and Roumania, Czechoslovakia formed the "Little Entente," designed for protection against Magyar aggression, as a defense against Bolshevism should the Soviet armies pass the Russian frontier, and to promote trade on the Danube. In February, 1924, France and Czechoslovakia signed a treaty to "safeguard their common interests in case they are threatened." Czechoslovakia is a member of the League of Nations.

Par exchange, crown.....20.3 cents
Rate of exchange, Oct. 15, 1924.....2.97 cents

The budgets for three years follow:

	1922, Crowns.	1923, Crowns.	1924, Crowns.
Rec'pts	18,884,209,544	18,812,390,860	16,391,293,591
Exp'dit	19,671,970,479	19,377,880,639	16,993,976,905

The total indebtedness of the republic is estimated at 40 billions Czech-crowns.

Statistics of foreign trade are:

	Metric Tons.	Czech-Crowns.
Imports, 1921	3,991,174	22,433,293,319
" 1922	3,194,215	12,695,515,701
" 1923	4,195,650	10,222,283,089
Exports, 1921	9,742,735	27,311,585,557
" 1922	9,490,263	18,086,348,590
" 1923	11,309,599	12,573,315,309

The chief exports are sugar, lumber, wool, glass, and metal goods; the chief imports are foodstuffs, iron, rubber and dyes.

Trade with the United States was:

Imports, 1920-21	$1,988,340
" 1921-22	824,789
" 1922-23	1,292,652

" 1921-22	12,501,554
" 1922-23	15,279,910
" 1923-24	20,029,811

DANZIG, FREE CITY OF

AREA, 729 square miles.

POPULATION, 1923, 364,380; 93 per cent. German, 6 per cent. Poles.

Senate President, Heinrich Sahm.

High Commissioner, Lieut. Col. M. S. Macdonnell, appointed by the League of Nations; assumed office Feb. 2, 1923.

United States Consul, Edwin Carl Kemp. Diplomatic and consular representatives of Poland have charge of the interests of the Free City of Danzig in the United States.

The Free City of Danzig, the history of which goes back nine centuries, covers a territory of 729 square miles on the Baltic Sea, with the Polish corridor to the west, Poland to the south, and East Prussia, of which it was formerly a part, to the east. The river Vistula, coming from the extensive Polish hinterland, runs through the district to the Baltic. The bay is sheltered by a peninsula, and the port is of great importance because of its connection through waterways and railroads with the neighboring states. To the west the land is hilly and well wooded; to the east, flat and very fertile. The municipal part of Danzig, with its incorporated suburbs, had on Nov. 1, 1923, a population of 201,752. The shipyards are important. There are 16,312 farms, with 47,375 farmers and agricultural workers.

The Free City of Danzig was established under the Treaty of Versailles (Article 102) to create a port for Poland, on Nov. 15, 1920. It is a sovereign and independent city and state, and in peace and in war is under the protection of the League of Nations, which guarantees her constitution that was proclaimed in its final form on July 12, 1922. This provides for a Volkstag of 120 members elected by proportional representation for four years. The vote is direct and secret, suffrage being exercised by all men and women over twenty. The Senate consists of twenty-two members elected from the Volkstag; the President and seven of these are Chief Senators, form the Ministry, and are elected for a four-year term. The Vice President and remaining Senators are elected for the life of the Volkstag. The Senate takes part in the passage of laws, but is at the same time the supreme authority and government of the Free City. It directs the policy of the state; is responsible to the Volkstag, and if a member should lose its confidence by an expressed resolution of the House, he must resign his office. Each administrative department is under a Senator.

The Polish Republic has no sovereign rights in the Free City. The relations between the two states are determinted by three treaties. Under the Treaty of Versailles Poland is charged with the conduct of the foreign affairs of the Free City; the two states have also formed, by treaty, a common customs and economic union under the Polish law; but the administration of the customs within the territory of the Free State is performed by Danzig authority. The management of the railways, save in purely local requirements, has also been undertaken by Poland, and is conducted by a special administration in which a Danzig delegate represents the city's requirements. The administration of the harbor and waterways is given over to a special board of Harbor Administration, consisting of an equal number of Danzig and Polish members, whose President is a Swiss subject.

The Polish Government has a diplomatic representative in Danzig to mediate between his country and the Free City. The League of Nations maintains a High Commissioner in Danzig, who, on appeal, decides all disputes which may arise between Danzig and the Polish Republic owing to their neighborly relationships or economic connections. Both parties have the right of appeal against his decisions to the Council of the League of Nations in Geneva.

Danzig suffered severely because of the collapse of the German mark and the disorganization in that country in 1923, as the German mark was legal tender in the Free City. In September, in agreement with Poland, the Free City adopted a new currency backed by a reserve fund consisting of pounds sterling with a unit known as the gulden to equal in value one-twenty-fifth of the English pound. The money was introduced provisionally in October and the permanent gulden currency put into circulation in January. By the same law a new bank of issue was established. The year passed without incurring a deficit and the budget for 1924 was balanced at 86,054,570 gulden ($15,489,822, converted at one gulden equals 18 cents). The Free State has neither funded nor floating debt

In 1923, 2,913 vessels of 1,701,742 tons entered the port. The foreign trade in 1923 was: Imports, 7,151,339 double cwts., valued at 299,614,544 gulden; exports, 11,621,202 double cwts., valued at 383 851,281 gulden. Exports to the United States, chiefly furs, were valued at $2,538,440; imports, $1,512, of which relief goods made up $300; the rest were cigarettes.

The chief exports are now lumber and furs. Before the war much grain was shipped. Now grain is imported. Sugar exports amounted to 100,712 metric tons in 1913. None was exported in 1919, but 50,742 metric tons were shipped in 1921 and 59,260 tons in 1923. The export of petroleum has assumed importance, 52,086 metric tons in 1921.

DENMARK, KINGDOM OF

AREA, 17,144 square miles.

POPULATION, official estimate, July 31, 1923, 3,352,000. Denmark gained 164,500 of population by the people of Schleswig voting in 1920 in the plebiscite to return from German rule to adherence to Denmark.

CAPITAL; Copenhagen, 1922, pop. without suburbs, 565,000; with suburbs, 675,000.

King, Christian X., born Sept. 26, 1870; succeeded his father, Frederick VIII., May 14, 1912; married, April 26, 1898, Princess Alexandria of Mecklenburg; *Heir*, Crown Prince Christian Frederick, born, March 11, 1899. The King of Denmark is also King of Iceland (which see).

Premier, Thorvald A. M. Slauning (Labor party).

Minister to the United States, Constantin Brun.

Consuls in the United States, at New York, George Bech; *Consulates*, at Mobile, Chicago, Boston, New Orleans, Seattle, San Francisco, Los Angeles, Denver, Pensacola, Savannah, Baltimore, Detroit, St. Paul, St. Louis, Omaha, Grand Forks, Portland, Ore., Philadelphia, Charleston, Galveston, Port Arthur, Salt Lake, Newport News and Norfolk.

United States Minister, John Dyneley Prince.

United States Consul General, at Copenhagen, Marion Letcher.

Denmark occupies the peninsula of Jutland, thrusting out to the north from Germany, which is its only land neighbor, between the North Sea and the Baltic Sea, with the adjacent islands. The Skagerrak separates it from Norway, and Cattegat from Sweden. It is a little smaller than the States of Massachusetts and New Hampshire together. The country consists of low, undulating plains.

The Faroe Islands in the North Atlantic, about 300 miles northwest of the Shetlands, with an area of 540 square miles and a population (1921) of 21,364, belong to Denmark.

Denmark has attained enormous agricultural productivity, annually (census of 1923) taking 2,800,000 tons of wheat, rye, barley, oats and mixed grains from 3,015,000 acres, and 1,240,000 tons of potatoes from 210,000 acres. 80 per cent. of the whole land is productive; 4.8 per cent. forest covered; and 35 per cent arable, with large supplies of peat. Domestic animals in 1921 numbered 5,191,000. Denmark sends agricultural products all over the world, notably from her dairies.

Normally there are about 82,000 industrial and shop plants, about 15,000 using power, employing 350,000, of whom 240,000 are skilled. In 1921 beet sugar production was 141,300 tons, and the Danish fishing fleet of 15,350 boats took fish to the value of 35,956,800 kroner in the same year.

There are 2,662 miles of railroads, of which 1,283 are state-owned. All showed a profit. In 1922 Denmark had 797 vessels of 975,295 tonnage, and in 1923 the tonnage entering Danish ports was 8,170,000, Copenhagen alone registering 16,700 vessels of 4,500,000 tonnage.

Danish activity of all kinds has been largely dependent on the purchasing power of the German people, whose normal purchases of 60 per cent. of their foodstuffs afforded Denmark a valuable market. Prostration of German buying power has reduced Denmark to a current governmental budget deficit of the equivalent of about $7,500,000.

Industry is normally stable in Denmark, attributed by many in part to the Permanent Court of Arbitration and the Public Mediation Institution. The first is representative of employers and employees and interprets agreements and legal points involved therein. The second anticipates industrial troubles, and when stoppage of work such as will affect the whole community is threatened takes steps to intervene and seeks to prevent it. The Court of Arbitration is national and no appeal lies against its findings to any superior court, being in themselves final and valid in law.

Unemployment, which amounted to 56,000 in January, 1924, dropped to 14,000 in July, 1924, and is no longer considered a serious factor.

A Labor ministry came into power April 23, 1924, following the general elections, which returned 55 Laborites, 44 Liberals, 27 Conservatives, 20 Independents (liberals) and 3 unattached. The ministry includes one woman, Mrs. Nina Bang (Education), and all are Laborites except Count Moltke (Foreign).

Denmark is a constitutional monarchy, the succession being hereditary. The King and the Rigsdag (Diet) jointly hold legislative power. Executive authority vests in the King through his ten Ministers The Rigsdag is of two bodies—the Folketing (House of Commons), with 149 members, and the Landsting (Senate), with 75 members. Men and women of 25 years of age and a fixed abode have the franchise.

The Evangelical Lutheran is the established religion. By the census of 1921 there were 3,221,843 Protestants, 22,137 Catholics and 5,947 Jews. The population is almost entirely Scandinavian.

Education is compulsory between seven and fourteen years of age. Intelligence is widely diffused. By the census of 1922 there were 4,50.) lower schools, instruction mostly gratuitous, with 505,448 pupils, and 70,000 students in the higher institutions. The University of Copenhagen, founded 1479, has 3,300 men and women students.

Old age pensions are granted at 60 years of age to persons of good character, the number relieved in 1920-21 being 80,495 principals and 22,075 dependents at a total expenditure of 59,555,000 kroner, of which the Government contributed one-half.

The army is in the form of a national militia, every able-bodied male Dane being liable for service, excepting only those living in the Faroe Islands. Even clergymen must serve. About 11,500 recruits train annually. The effective strength is 60,000, with 55,000 available on mobilization. The navy, for coast defense only, is mostly monitors.

The Socialist Cabinet in October, 1924, placed before Rigsdag bills to abolish conscription, the army and navy and War Office and Admiralty. A corps of 7,000 trained frontier guards or constabulary enlisted for twelve years and a force of six armed vessels, three motor boats and twelve seaplanes, for policing Danish waters, will be set up. The annual cost is estimated at 11,000,000 kroner as against 60,000,000 now spent.

Denmark is a member of the League of Nations.

Par of exchange for the kroner is 26.8 cents; exchange on Oct. 1, 1924, was 17.21 cents.

The chief exports are dairy products, eggs, provisions and fodder, animals and animal products, fuels, metal and wood manufactures and textiles.

GREENLAND—COLONY.

AREA, 46,740 square miles. Interior a lofty plateau of 9,000 to 10,000 feet altitude, covered with a glacier.

POPULATION, census of Oct. 1, 1921, 14,355, of which 274 were Danes, and 14,081 Eskimos.

CAPITAL and largest settlement, Sydproven; population, 901.

Greenland, a huge island between the North Atlantic and the Polar Sea, separated from the North American continent by Davis Strait, Baffin Bay, etc. It extends from 60°-86° N. lat.

Greenland trade is a state monopoly for Denmark. Imports from Denmark in 1921 were valued at 1,798,000 kroner and exports at 2,283,000; chiefly fish, furs, whale oil and graphite. The deposits of cryolite are the largest in the world.

Trade with the United States was:

DOMINICAN REPUBLIC

(SANTO DOMINGO.)

AREA, 19,325 square miles.

POPULATION, census of 1921, 897,405.

CAPITAL, Santo Domingo (founded 1495), pop. 1921, 26,500. Chief port, Puerto Plata, pop. 7,200; Santiago de los Caballeros, 21,000.

President, Sr. Don Horacio Vasquez, 1924-28, inaugurated July 12, 1924.

Secretary of Interior, Police, War and Navy, Angel Morales.

Secretary of Foreign Relations, Angel Maria Soler.

Secretary of Finance and Commerce, Jose Dolores Alfonseca.

Secretary of Justice and Public Instruction, Pedro A. Lluberes.

Secretary of Development and Communications, Andres Pastoriza.

Secretary of Agriculture and Immigration, Rafael Espaillat.

Secretary of Public Health and Beneficence, Pedro A. Ricart.

Minister to the United States, Sr. Don Jose del Carmen Ariza.

Consul General, at New York, Rafael Diaz. Consul, at Philadelphia, Rodman Wanamaker. *Consulates*, at Mobile, San Francisco, Chicago, New Orleans, Baltimore, Boston, Kansas City, Beaumont, Fort Worth and Norfolk.

United States Minister, William W. Russell.

United States Consuls, at Santo Domingo, Charles Bridgham Hosmer; at Puerto Plata, William A. Bickers.

The Dominican Republic occupies the eastern portion, about two-thirds of the Island of Santo Domingo, the second largest of the Greater Antilles, situated between Cuba on the west and Porto Rico on the east. The boundary between it and the Republic of Haiti, which occupies the western part of the island, is 193 miles long. It has a coastline of 1,017 miles. The land is very fertile, about 15,500 square miles being cultivable; agriculture and stock raising are the principal industries. Sugar, cacao, and tobacco are the chief products and exports. The amount of sugar produced in 1924 was 237,809 short tons. The country has gold, copper, iron, salt, coal and petroleum, but the mining industry is little developed. There are 153 miles of railroads, besides 255 of private lines on large estates. In 1922, 1,060 steamships, of 1,265,728 tonnage, entered the ports. The population is a race of mixed European, African and Indian blood. Spanish is spoken. The religion of the state is Roman Catholic, but religious toleration prevails. Education is free and compulsory, and great advance in methods of instruction has been made by the Military Government. The Dominican Republic is not a member of the League of Nations.

Continental internal disturbances from the "war of the restoration" (1863-65 to 1904), left the Dominican Republic under a crushing debt of $32,000,000. Her annual revenues were about $1,850,000 and her annual expenditures $3,900,000. Rumors were rife that European nations would intervene to collect debts due their citizens. To forestall armed and indefinite intervention Secretary of State John Hay, in February, 1905, negotiated a protocol with the republic, which provided that the United States should adjust her debts and administer her custom house receipts. Because a clause in the convention was interpreted as establishing a protectorate, the United States Senate refused to ratify the treaty. President Roosevelt, however, made an executive arrangement with the President of the bankrupt republic essentially on these lines, and on April 1, 1905, put that modus vivendi into force, and placed an agent of the United States in charge of her fiscal administration. Marked improvement followed; her debt was adjusted and credit restored.

A treaty was signed on Feb. 8, 1907, which provided that the United States Government should administer the customs of the Dominican Republic for the service of her debt, practically a receivership. Eight years of honest administration reduced the total debt to $21,500,000.

It was inevitable that the administration of the finances of the Dominican Republic by the United States could not proceed without friction and interference with the government of that country. Political troubles and serious disturbances followed, to suppress which the Dominican officials incurred fresh debts without the approval of the United States, which demanded a supplementary convention be arranged. The Dominicans refused to consent. A coup d'etat by Arias, deposing President Jimenez in April, 1916, was followed by disorders. The United States landed a detachment of marines and suppressed the insurrectionists; and on Nov. 29, 1916, Capt. Knapp, U. S. N., issued a proclamation announcing that the Dominican Republic was under the military administration of the United States, and declaring that his Government did not intend to destroy the sovereignty of the republic, but wished to enable her to restore internal order so that she might observe her international obligations.

A Dominican commission, headed by Provisional President Henriques Carvaljal, in 1919 visited Paris and later Washington, seeking the restoration of individual liberty in the republic. Acting under

orders from Washington, the Governor, Admiral Snowden, issued a proclamation outlining the plan of the United States Government for the conditional withdrawal of its military forces, the transfer of administrative responsibility to a native government duly elected, and the continuance of the fiscal arrangements of 1907 enlarged so as to include arrangements for a new loan.

Rear Admiral Samuel S. Robison, U. S. N., Military Governor of the Dominican Republic, installed on Oct. 21, 1922, a provisional government, headed by Provisional President J. B. Vicini Burgos, for the purpose of promulgating legislation, to regulate the holding of elections and to provide for the reorganizing of the provisional and municipal governments. This followed the plan for ultimate evacuation by the American force of occupation, which had been tentatively agreed upon in Washington June 30, 1922, by the Government of the United States and a commission headed by Dr. Adolfo A. Nouel.

Sumner Welles of the State Department was sent to the republic as personal representative of the President. A Congress was elected which had a strong Nationalist majority; a convention recognizing the acts of the Military Government was ratified; and on March 19, 1924, Gen. Horacio Vasquez was elected President for four years. On July 12 he was inaugurated; and simultaneously the evacuation of the military forces of the United States followed.

The customs receivership (William E. Pulliam, general receiver) remains in force. From its commencement, April 1, 1905 to Dec. 31, 1923, it collected in all $71,056,842. The customs revenues for 1923 were $3,625,621, collected at an expense of 4.29 per cent., and the reduction in the national debt for 1923 was $1,389,509. The outstanding bonded indebtedness on Dec. 31, 1923 was $13,412,-210; consisting of the 5% loan of 1908, $5,382,510; 5% loan of 1918, $1,329,700; and the 5.5% loan of 1922, $6,700,000. The receivership is to continue so long as bonds of the last two issues remain unpaid.

The military administration has built 400 miles of macadamized national highways, modernized the port of Santo Domingo, improved other ports, built schools, increased the enrolment of school children from 18,000 to more than 100,000.

The revenue for 1922 was $12,164,142; and the expenditures $11,353,686. The revenue for 1923 was $6,171,292 and expenditures $7,241,988. The budget for 1924 estimated expenditures at $5,617,-485 and revenue at $5,804,941.

The Dominican monetary standard is the United States gold dollar. Except for about $200,000 in Dominican coins (there is no Dominican gold or paper money) all currency in circulation is United States currency. The Dominican peso is legal tender at 23 cents.

Foreign trade for the last three years was:

Imports,	1921	$24,585,327
"	1922	14,317,197
"	1923	18,245,082
Exports,	1921	20,614,048
"	1922	15,231,355
"	1923	26,042,821

Trade with the United States was:

Imports,	1920–21	$32,248,123
"	1921–22	10,652,700
"	1922–23	11,808,262
"	1923–24	14,454,804
Exports,	1920–21	19,514,039

"	1922–23	5,166,754
"	1923–24	8,755,320

ECUADOR, REPUBLIC OF

AREA, estimated, 118,627 square miles; boundaries in dispute and extreme claim is 275,000 square miles.

POPULATION, about 1,500,000.

CAPITAL, Quito, pop., 80,700; chief port, Guayaquil; population, estimated, 100,000.

President, Sr. Dr. Don Gonzalo Cordova (1924-28), inaugurated Sept. 1, 1924.

Premier, Sr. Francisco Ochoa Ortiz (Interior and Public Works).

Minister to the United States, Sr. Dr. Don Rafael H. Elizalde.

Consuls General, at New York, Gustavo R. de Ycaza; at San Francisco, Manuel Cabeza de Vaca; at New Orleans, Ismael Aviles. *Consuls*, at Philadelphia and Chicago.

United States Minister, Gerhard A. Bading.

United States Consul General, at Guayaquil, Richard P. Butrick (C.).

Ecuador, on the Pacific Coast of South America, extends from about 100 miles north of the Equator to 400 miles south of it. It is larger than Texas by 10,000 square miles. It is bounded by Colombia on the north and Peru on the south. The boundary in the east is in dispute, much territory being claimed by each of these three countries. Two cordilleras of the Andes cross the country, with a dozen peaks above 16,000 feet in height, of which Chimborazo (alt., 20,702 feet) and Cotopaxi (19,498 feet) are the highest.

Mining has been but little developed, though the country is known to be rich in minerals. Most of the land is covered with virgin forest. Rubber abounds in the upper reaches of the Amazon in the disputed eastern territory. Panama hats are manufactured, cacao, ivory, nuts, coffee, hats, hides and rubber are the chief exports. Textiles, foodstuffs, machinery and clothing are the chief imports.

Ecuador produces about one-fifth of the world's supply of cacao; of this she exported to the United States in 1923, 36,293,516 pounds, valued at $3,-614,794; and in 1922, 44,436,269 pounds, valued at $6,495,596. In 1923 she exported to the United States 170,484 Panama hats, valued at $170,270.

Guayaquil, the seaport, was long a hotbed of yellow fever. After a survey made by the Rockefeller Foundation in 1916, a scientific fight was made under the direction of Gen. Gorgas and May 27, 1920, the Director General of Public Health announced that the disease had been stamped out. Guayaquil is connected with Quito by a railroad (280 miles), a two-day journey. In all, Ecuador has 413 miles of railroads.

In 1922-23 there entered the port of Guayaquil 432 steam vessels of 973,844 tons.

Ecuador's independence dates from the Battle of Pichincha, May 29, 1822, but its history has been stormy even for a Latin-American republic. It is estimated that three-fourths of its population are Indians, one-fifth mixed and only a small fraction white. Education is very backward. Only adults who can read and write can vote. The Constitution now in force was promulgated Dec. 28, 1906, and provides for a President, elected by popular vote for four years, a Senate of 32 members, elected for four years and a House of 48 members, elected for two years.

Ecuador has not joined the League of Nations.

EGYPT, KINGDOM OF

AREA, estimated, about 347,840, exclusive of the Soudan (which see). Cultivable land area, 12,226 square miles; Sinai desert, 11,614; Libyan and Arabian deserts, 324,000.

POPULATION, estimated, 1922, 13,551,000.

CAPITAL, Cairo, pop. census of 1917, 790,939; other cities, Alexandria, pop. 444,617; Port Said and Ismailia, 91,090; Suez, 30,996; Damietta, 30,984; Tanta, 74,195; Assiut, 51,431; and thirteen others between 20,000 and 50,000.

King, Fuad I., born March 26, 1868, son of the late Khedive Ismail Pasha, succeeded his brother Hussein Kamil on his death as Sultan Oct. 9, 1917, proclaimed King March 16, 1922, on termination of British protectorate and recognition of the independence of Egypt. He married Princess Nazli, May 24, 1919.

Heir, his son Prince Farik, born Feb. 11, 1920.

Premier, Said Zaghlul Pasha (Interior), Nationalist, Jan. 29, 1924.

British High Commissioner for Egypt and the Soudan, Field Marshal Viscount Allenby.

Minister to the United States, Seifullah Yousry Pasha.

Consul, at New York, Ramses Chaffey Bey.

United States Minister, J. Morton Howell.

United States Consuls, at Cairo, George Wadsworth; at Alexandria, Ernest L. Ives; at Port Said, John L. Bouchal.

Egypt occupies the northeast corner of Africa with the Mediterranean Sea on the north and the Red Sea on the east. Beyond that, between the

Gulf of Suez and the Canal and the Gulf of Akabah, lies the Sinai peninsula, 150 miles long, flat and sandy, on the north, like the Egyptian coast line, but with granitic mountains rising to an altitude of 8,680 feet in the southern third. Along the west coast of the Red Sea is the Eastern or Arabian desert with a great backbone of rugged mountains (highest altitude 7,150 feet) reaching to Abyssinia On the south is the Soudan, the parallel of the 22° north latitude forming the boundary. To the west is the vast Libyan desert, which begins a few miles west of Cairo, where stand the Pyramids of Giza, of which the great pyramid is 451 feet high, and the Sphinx. This desert stretches to Tripoli, a vast monotonous limestone plateau with a few depressions where wells and springs furnish water to irrigate small areas. These oases support a population of several thousands. Egypt is about the size of Arizona, New Mexico and Colorado, but its fertile territory is about the size of Massachusetts and Connecticut.

The Valley of the Nile and the delta are the real Egypt of sixty centuries. Here are 12,226 square miles of cultivated area; 1,900 square miles are taken up by canals, roads, date plantations etc., and 2,850 by the surface of the Nile, its marshes and lakes. The great river runs between sandstone cliffs from Haifa to Esna, with a stretch of granite near Aswan where the valley narrows to half a mile and limestone from there through Luxor to Cairo, the valley widening to over 10 miles. The fertile lands occupy the floor of the valley between the river and the cliffs, and north of Cairo they spread out in a silt-created delta, forming the richest soil of the country. The Nile has a total length of 3,470 miles from the Victoria Nyanza to the Mediterranean. In the 960 miles of its course through Egypt it receives no tributary stream. The river has a regular yearly rise and fall, attaining its maximum the end of May. The average rise at Cairo is 13 feet. The great dam at Aswan (or Assouan), completed Dec. 10, 1902, and since then raised in height, stores up the surplus water and regulates its flow, a task shared by smaller barrages at Esna, Assiut, Zifta and at the head of the delta. Irrigating canals distribute the silt-laden water to the fields. Sixty miles south of Cairo to the west of the river is the fertile province of Fayum, with an area of 500 square miles, watered by the canal Bahr Yusef (built by Joseph, the son of Jacob), over 100 miles long, which takes its water from the river at Deirut.

The Nile irrigates 5,400,000 acres and this number may be increased to 7,600,000 by engineering improvements. King Mena (circa 4000 B. C.) is credited with being the founder of the first scientific system of using the water of the Nile for irrigation purposes, and that plan, the basin system, is still used for all the land south of Deirut in Upper Egypt.

By this system the land is divided into rectangular areas from 5,000 to 50,000 acres in size and surrounded by banks; water is admitted to these basins during the flood period (August) to an average depth of 3 feet and is left on the land for about forty days; it is then run off and the seed sown broadcast on the uncovered land. A system of perennial irrigation by digging deep canals was introduced in 1820 by Mohammed Ali Pasha; this was restored and greatly improved during the British occupation. Two million acres of cultivable land were added, and under the basin system, cereals, beans and lentils are grown; under the new perennial system cotton, cereals, beans, sugar cane, vegetables and fruit are the chief crops. Two and three crops a year are grown. The yield of cotton in 1920-23, acreage and value of exports was:

Year.	Acres.	Pounds.	Value of Exports.
1920-21.....	1,760,951	603,505,400	£E28,375,249
1921-22.....	1,244,598	435,295,800	39,714,845
1922-23... ..	1,734,161	671,300,000	49,516,369

Approximately 2,125,000 acres were under cotton cultivation in 1923-24

The agricultural population (Fellaheen) forms about 62 per cent. of the whole, a large proportion of them (1,776,446 in 1923) being small land owners holding up to 5 acres each. The total number of land owners in 1923 was 1,931,417, of which only 8,021 were foreigners. In 1921 the amount of sugar exported was 37,548 metric tons.

Petroleum has been found in both the Arabian desert west of the Red Sea, and on the Mt. Sinai peninsula. To what extent, however, no announcement has been made. Drilling is going on. The reports for 1923 showed a production of 152,892 metric tons. 132,384 metric tons of manganese iron ore was produced in 1923, also 25,370 tons of phosphate rock.

The chief imports are textiles and yarns, machinery and hardware, tobacco (none is allowed to be raised in Egypt), chemicals and perfumes, coal, oil, cereals and animal food products and leather.

Egypt, on March 31, 1923, had 2,335 miles of railroads owned and operated by the state, and 723 miles of light agricultural railroads owned by private companies, mostly in the delta. Cairo was connected by railroad with the Palestine system by the opening of the swing bridge over the Suez Canal. The first train left Jerusalem for Cairo on June 15, 1918. This bridge was removed in 1921 and is to be replaced by a tunnel. Passengers on the through train from Cairo to Jerusalem, "The Milk and Honey Express," now break their journey at Kantara to walk across a floating bridge.

Commerical steamers entering Egyptian ports of Alexandria in 1922 numbered 1,574, with a tonnage of 3,107,966. Commercial steamers passing through the Suez Canal (103 miles long) in 1923 numbered 4,621 of 22,730,162 net tonnage.

Tourist traffic broke all records in 1923-24.

Four-fifths of the people are of the ancient Egyptian stock, whose forbears by their labor built the pyramids for alien Kings, and whose physical characteristics were pictured in the mural paintings of the temples and tombs and on the papyrus scrolls six thousand years ago. The Copts embraced Christianity in the first century of the Christian era, and hold the orthodox Patriarch of Alexandria as the successor of St. Mark. They numbered 854,778 in 1917. There are 155,168 Christians of other sects, and 59,581 Jews. The far larger part of that ancient stock embraced Mohammedanism on the conquest in the seventh century, and speak Arabic to-day. With the 32,663 Bedouins and 107,360 Soudanese and Berberins (of whom one-seventh are nomads), and including also some Nubians, the Mohammedans numbered in 1917 11,658,148. They have a famous seat of Moslem learning in the University at El-Azhar, in Cairo, founded in 972. In 1914 it had 405 professors and 9,749 students, and affiliated with it were the Mosque of El-Ahmed; at Tanta with 2,860 students the Mosque of Damietta with 411, and the Meshia Kabir Jama at Alexandria with 1,854. However, the percentage of illiteracy shown by the census of 1917 was 92 per cent. The Ministry of Education has under its direct management 209 schools of all grades, with 40,471 pupils. The Maktab schools care for about 200,000.

By the census of 1917 the foreign residents numbered 209,998, of whom 30,796 were Turks, 56,735 Greeks, 40,198 Italians, 24,356 British, and 21,270 French and Tunisians.

During the forty-two years of British rule the population has doubled (census of 1882, 6,831,131). The irrigation system has been enormously improved and another great dam is being built far up in the Blue Nile to impound water. In the last seven years land has trebled in value. Motor trucks crowd camels from historic caravan trails. "Egypt," says one writer, "waxed fat off the World War. It is said that England paid out over a billion dollars in Egypt for foodstuffs, camels, mules and supplies for use of her armies in the Middle East." Tourist travel up the Nile to the great monuments of ancient Egyptian civilization, interrupted by the war, is heavier than ever.

The present King of Egypt is the eighth of the line founded by Mohammed Ali, who was appointed Governor (Vali) of Egypt by the Sultan of Turkey in 1805, made himself absolute master of the country, and became hereditary Governor by force of arms in 1811. Under the rule of Khedive Ismail revenues were wasted and debts were heaped up until bankruptcy resulted. Great Britain and France in 1879 assumed dual control, forced Ismail (1863-1879) to abdicate and appointed his son Tewfik (1879-92) to succeed him. Reforms were instituted. In 1882 Arabi Pasha headed a military revolt, which was quelled by a British expedition, the French Government declining to intervene. The dual control was abolished by decree Jan. 18, 1883, and Great Britain carried on alone, the expeditionary force remaining as an army of occupation, Egypt being technically a semi-independent tributary state of the Ottoman Empire.

In January, 1884, Major Sir Evelyn Baring (created, 1901, Earl of Cromer), who had served as Comptroller-General, was made British Agent and Consul General, a position which he filled with extraordinary ability until he retired in 1907. He was succeeded by Sir John Gorst, and on the latter's death Lord Kitchener filled the post. This period of British occupation lasted until the World War broke out. The Khedive, Abbas II., was absent and declared himself for Turkey. He was deposed and his brother, Hussein Kamil Pasha, made Khedive. With a Turkish army headed for Gaza, on Nov. 18, 1914, Great Britain declared a protectorate over Egypt, which was thereupon taken from

the suzerainty of Turkey, and Hussein assumed the title of Sultan. In the unrest following the war disturbances were many and serious. Great Britain, following a promise of an increased measure of self-government, sent a commission under Lord Milner there in December, 1919, to investigate the reforms needed and the demands of the Nationalists for complete independence. Much negotiation followed, in which the High Commissioner, Lord Allenby (appointed October, 1919), took a prominent part, and to him is due the credit for effecting the peaceful arrangements announced by Premier Lloyd George in the House of Commons on Feb. 28, 1922, whereby the British protectorate was abolished. The British Government reserved to its discretion four subjects: Safety of the British Empire's communications; defense of Egypt against foreign aggression, direct or indirect; protection of foreign interests in Egypt and of minorities; and guarantees for British interests in the Soudan. The House sustained this policy later by a vote of 202 to 70.

On March 27 Marquis Curzon, the British Foreign Secretary, sent despatches to all British Ambassadors saying that the termination of the protectorate involved no change in Egypt's status toward other powers, and the British Government would regard as unfriendly any attempted interference in the affairs of Egypt by another power, and would repel any aggression upon Egyptian territory.

Sarwat Pasha formed a Cabinet on March 1, and Fuad was proclaimed King on March 16. The United States recognized the new Government on April 27, but declined to accept the abolition of the capitulations and made this refusal a condition of recognition.

Drafting a constitution by a Government Commission, headed by Rushdi Pasha, a former Prime Minister, was slow work, but produced an instrument that was signed by King Fuad on April 19, 1923. It declares Egypt a sovereign state, free and independent; succession hereditary in the family of Mohammed Ali; the official religion Islamic, and the official language Arabic. It specifies that nothing in it affects Egypt's rights in the Soudan, the definite status of which will be fixed later.

The constitution declares that all powers shall emanate from the nation. The legislative power is to be exercised by the King, concurrently with the Senate and Chamber, but the King and the Chamber alone will have the right to create and increase taxes. The King may return any bill to Parliament for renewed examination, but if then approved by two-thirds majority in each House it will become law.

The King is empowered to dissolve the Chamber and to nominate and dismiss Ministers. He can also nominate and dismiss diplomatic representatives on the proposals of the Minister of Foreign Affairs.

The King signed, on April 30, 1923, a law providing universal suffrage for Egyptian men and a secret ballot. The Lower House of Parliament is to consist of one member for each 60,000 voters, and the Senate of one Senator for each 180,000. All political articles or reports must be signed by the authors or editors.

The withdrawal of the capitulations remains to be discussed.

King Fuad opened the first Parliament March 15, 1924.

The new flag is green charged with a white crescent and three white stars.

The debt, which has been handled by Caisse de la Dette, a body representing the creditors of the Treasury, was as follows on Dec. 31, 1923:

Guaranteed loan, 3 per cent.	£5,368,900
Privileged debt, 3½ per cent.	31,127,780
Unified debt, 4 per cent.	55,971,960
Total	£92,468,640

Of this sum the Government and the Debt Commission held £E8,612,020 of the bonds, leaving the net debt of £E83,856,620.

Charges on debts of all kinds £E3,596,766.

Revenue and expenditures were:

Fiscal Year.	
1920-21—Receipts	£E46,446,921
Expenditures	62,051,182
1921-22—Receipts	41,863,166
Expenditures	37,742,112
1922-23—Receipts	35,763,766
Expenditures	28,247,171

The budget for 1923-24 is: Receipts, £E34,905,000; expenditures, £E34,355,000. The budget for 1924-25 is balanced at £E34,000,000.

The Egyptian pound is worth £1 0s. 6.15d. or $4.943 at par of exchange.

Imports and exports for 1921 and 1922 were:

Imports, 1921	£E55,507,984
" 1922	43,333,938
" 1923	45,276,941
Exports, 1921	£E36,356,062
" 1922	48,716,418
" 1923	58,337,327
Trade with the United States was:	
Imports, 1920-21	$29,530,047
" 1921-22	9,454,116
" 1922-23	6,584,256
" 1923-24	6,048,688
Exports, 1920-21	26,437,350
" 1921-22	32,161,501
" 1922-23	46,486,771
" 1923-24	28,164,918

ESTHONIA, REPUBLIC OF

AREA, 18,355 square miles.

POPULATION, census of Dec., 1922, 1,110,538; 95 per cent. native.

CAPITAL, Revel (Tallinn); population, 126,500.

State Head, Konstantin Paets.

President of the State Assembly, John Kukk.

Premier, Dr. Ackel.

Minister to the United States, Antonius Piip.

Consul, at New York, Hans Leoke.

United States Minister, Frederick W. B. Coleman, also accredited to Latvia and Lithuania.

United States Consul, at Revel, Harold B. Quarton.

Esthonia, formerly under the Russian Empire, known as the Government of Estland, is situate on the Gulf of Finland, with Russia on the east, Latvia and the Gulf of Riga on the south, and the Baltic Sea on the west. It is about the size of the States of Vermont and New Hampshire. The Esthonians are of Finnish origin.

Agriculture is the chief occupation. Over 1,700,000 acres were under cultivation in 1922. The chief output being: wheat, 20,400 metric tons; rye, 141,100 tons; barley, 143,200 tons; oats 143,700 tons; potatoes, 706,700 tons; flaxseed 8,200 tons; and flax fibre, 9,300 tons. The state owns 2,600,000 acres of forests.

There are large beds of oil shale, of which 205,454 acres were under lease in 1923, and the production of oils that year was 210,000 metric tons.

Revel has a fine harbor. It freezes over for six or seven weeks in winter but is kept open by ice breakers.

During 1922, 8,201 vessels of 1,071,000 tons entered her ports. The state-owned railway mileage is 769.

Esthonia declared her independence Feb. 24, 1918, after the Bolshevist coup d'etat. The republic, on June 15, 1920, adopted its Constitution, by which power is vested in the Legislative Assembly of 100 members, chosen for three years, with proportional representation by universal direct equal suffrage. The initiative and referendum to the people is an important feature. The state head and Ministers are chosen by the Assembly and are responsible to it. The state head has no power of veto. Military service is compulsory.

Esthonia is a member of the League of Nations.

There is no state religion, and 80 per cent. of the people are Lutherans. In 1919, illiterates above 10 years of age numbered 3 per cent.

The Esthonian mark is worth $0.193 at par of exchange; exchange rate, Oct. 15, 1923, $0.00294.

The foreign debt on Jan. 1, 1923, was: To the United States, $14,500,000; to France, 6,500,000 francs; and to Great Britain, £353,600; to the American Relief Administration, $2,100,000; to Denmark, 463,900 kronen. The internal debt was 2,800,000,000 Esthonian marks.

The budget for 1924 was: Receipts, 7,088,481,400 Esthonian marks; expenditures, 7,061,604,200. Paper money in circulation, Jan. 31, 1924, totaled 3,260,300,000 Esthonian marks.

The foreign trade of Esthonia was, in 1922: Imports, $16,438,000; exports, $14,117,000; in 1923, imports, $27,050,000; exports $16,560,000.

The chief exports are flax, paper, potatoes, dairy products and timber; the chief imports are machinery and coal.

Trade with the United States was:

Imports, 1921-22	$5,064,091
" 1922-23	1,653,333
" 1923-24	1,567,077
Exports, 1921-22	494,355
" 1922-23	540,620
" 1923-24	397,867

FINLAND, REPUBLIC OF

AREA, 132,510 square miles.

POPULATION, census of Dec. 31, 1920, 3,366,507. Of this number 2,754,228 spoke Finnish; 340,963, Swedish; 4,806, Russian; 2,378, German; and 1,603, Lapponic.

CAPITAL, Helsingfors; population, 1921, 200,208. Other cities: Abo, 58,694; Tammerfors, 48,475; Viborg, 30,748; and five others with more than 10,000.

President, Dr. Kaarlo Juho Stahlberg, born 1865, elected July, 1919.
Premier, Prof. D. A. K. Cajander, Jan. 18, 1924.
Minister to the United States, Axel Leonard Astrom.
Consul General in the United States, at New York, Kaarlo Fredrik Aaltio; *Vice Consuls*, at Boston, Ashtabula Harbor, Ohio; Calumet, Duluth, Seattle, Portland, Roberts, Mont., and San Francisco.
United States Minister, Charles L. Kagey.
United States Consul, at Helsingfors, Joseph F. McGurk.

Finland, formerly an autonomous Grand Duchy of the Russian Empire, is bounded on the north by Norway, a narrow strip of land separating it from the Arctic Ocean, on the east by Russia, on the south by the Gulf of Finland, an arm of the Baltic Sea, and on the west by the Gulf of Bothnia, Sweden, and Norway. In territory it is as large as New England, New York and New Jersey.

Although extending far north into very cold latitudes, with rugged climate and topography, Finland has developed considerable agriculture. with 284,000 farms, of which about 130,000 are of less than 30 acres, producing in 1923 651,460 tons of cereals from 1,951,000 acres and 430,000 tons of potatoes from 168,000 acres; also 1,010,800 tons of hay, of butter 8,063 tons were produced, of which 6,566 tons were exported, and 1,335 tons of cheese. There were 1,886,000 cattle and 404,000 horses. Forests cover half the area, and the lumber industry is most important. Lumber exported reached a record in 1923 of 898,000 standards (1,778,040,000 board feet).

Figures for 1920 show a total of 2,921 large factories with 117,230 workers and an output valued at 6,168,031,100 marks, of which wood industries furnished 1,030,163,900 marks; paper, 1,235,692,600; textiles, 867,279,500; and machinery, 772,735,960.

The Evangelical Lutheran Church is the state religion, although there is absolutely free worship. All but 2 per cent. of the people are Lutherans.

Two universities have 2,700 students, and about 33,000 are in secondary schools. There were on Jan. 1, 1924, 2,821 miles of railroads, all but 186 being owned by the state. Canal transportation is highly developed.

Finland had in 1921 716 sailing vessels of 95,576 tons and 873 steam vessels of 98,836 tons. There entered Finnish ports in 1923, 7,647 ships of 3,459,573 net tons.

Finland, after the downfall of the Czar, had representative government restored to her by the Provisional Government. Following the Bolshevist coup d etat the Diet and Senate on Dec. 6, 1917, proclaimed the independence of the republic. Civil war between the "Reds" and "Whites" followed, with German intervention. The "Reds" were defeated and driven back into Russia in two battles at the end of April, 1918, and the German troops went home in December of that year. On July 17, 1919, the Finnish Diet resolved to establish a republic, and a peace treaty acknowledging the independence of Finland was signed with Russia at Dorpat, Oct. 14, 1920.

Finland made remarkable progress in 1922. Her exports for the first time exceeded her imports, and by a surplus of 508,000,000 Finnish marks. The value of the mark has steadily risen. In September the Government floated a loan of 200,000,000 Finnish marks with a syndicate of Scandinavian and Finnish banks, the money to be used principally for the building of new railways by the state. Owing to increased taxation introduced after the war, the revenue exceeded expenditures. The national debt was gradually decreased and at the close of 1922 the floating debt of the Bank of Finland was entirely wiped off. Unemployment was rare and wages remained high, as there was no reduction in the cost of living.

This progress slowed down in 1923 because of a less satisfactory harvest. Unemployment was small and the cost of living receded 20 points.

Finland is governed under the constitutional law of 1906 by a Legislative Chamber of 200 members elected directly on a proportional representative basis. Men and women of 24 years of age have the suffrage. The President is chosen for six years by direct vote and appoints the Cabinet.

Finland, on March 10, 1923, through Minister Astrom, reached an agreement on funding its debt to the United States of $9,000,000 on a basis of payment spread over sixty-two years with interest at 3 per cent. for the first ten years and 3½ per cent. thereafter. The balance, $9,315.27, was paid in cash.

The Finnish mark is $.193 at par of exchange. Rate of exchange, Oct. 15, 1924, was $.0251.

Finland began 1923 with a surplus, much of which was used on development of state railways, highways and waterways. Total expenditures in 1923 were 3,402,800,000 Finnish marks. The budget for 1924 was: Revenues, 2,910,800,000 Finnish marks; expenditures, 2,936,200,000 Finnish marks. The budget for 1925 is balanced at 3,278,582,190 Finnish marks.

FRANCE, REPUBLIC OF

AREA, pre-war, 207,054 square miles; present area, including Alsace-Lorraine (5,605), 212,659 square miles. This included the Island of Corsica, 3,367 square miles. *Colonies*—In Asia, 317,074 square miles; in Africa, 5,245,727; in America, 33,166; in Oceania, 9,190. Grand total, 5,817,797 square miles.

POPULATION, census March, 1921, 39,209,766; military and naval forces and seamen abroad, 192,973. Total, 39,402,739. *Colonies*—In Asia, 23,012,819; in Africa, 35,604,820; in America, 522,398; in Oceania, 82,263. Grand total, 99,525,039.

CAPITAL, Paris, population, census 1921, 2,906,471; cities above 100,000: Marseilles, 586,341; Lyon, 561,592; Bordeaux, 267,409; Lille, 200,952; Nantes, 183,704; Toulouse, 175,434; St. Etienne, 167,967; Strasburg, 166,767; Nice, 155,839; Le Havre, 163,374; Rouen, 123,712; Roubaix, 133,265; Nancy, 113,226; Toulon, 106,331; there are 33 cities in addition having a population exceeding 50,000.

President, Gaston Doumergue, 1924-31, born Aug. 1, 1863; elected June 13, 1924.
Premier, Edouard Herriot (Foreign Affairs).
Minister of Justice, Rene Renoult.
Minister of the Interior, Camille Chautemps.
Minister of War, Gen. Maurice Nollet.
Minister of Marine, Jacques Dumesnil.
Minister of Finance, Etienne Clementel.
Minister of Colonies, Edouard Daladier.
Minister of Public Instruction and of Fine Arts, Francois Albert.
Minister of Public Works, Victor Peytral.
Minister of Commerce, M. Raynaldy.
Minister of Labor and Health, Justin Godart.
Minister of the Liberated Regions, Victor Dalbiez.
Minister of Pensions, Edouard Bovier-Lapierre.
Ambassador to the United States, J. J. Jusserand, appointed Feb. 7, 1903 (Dean of the Diplomatic Corps at Washington), to be succeeded in 1925 by Emile Daeschner.
Director of the French Bureau of Information, 598 Madison Ave., New York. Gaston Ernest Liebert.
Assistant Director, Roger Drouin.
Consuls General in the United States, at New York, Charles C. M. P. Barrett; at San Francisco, Hippolyte Charles Julien Neltner; at New Orleans, Ernest Maurice Simonin. *Consuls*, at Chicago, Antonin Barthelemy; at Philadelphia, Maurice E. A. Paillard (V. C.). There are consular agents at Birmingham, Mobile, Los Angeles, San Diego, Denver, Pensacola, Tampa, Savannah, Louisville, Baton Rouge, Portland, Me., Baltimore, Boston, Detroit, St. Paul, Gulfport, Kansas City, St. Louis, Buffalo, Cincinnati, Cleveland, Portland, Ore., Pittsburgh, Brownsville, Dallas, El Paso, Galveston, San Antonio, Norfolk, Seattle and Tacoma.
United States Ambassador, Myron T. Herrick.
United States Consul General, at Paris, Robert P. Skinner; *Consuls*, at Bordeaux, Lucian Memmiger; at Calais, Thomas D. Davis; at Cherbourg, John Corrigan jr.; at Dunkirk, George D. Hopper; at Havre, Lester Maynard; at La Rochelle, William W. Brunswick; at Lille, Paul C. Squire; at Limoges, vacant; at Lyon, Hugh H. Watson; at Marseilles, Wesley Frost; at Nancy, George N. Iiff; at Nantes, Fred D. Fisher; at Nice, Otis A. Glazebrook; at St. Etienne, William H. Hunt; at Strasburg, Chester W. Davis; at Algiers, Edward A. Dow; at Guadeloupe, W. I., Shelby F. Strother; at Saigon French Indo-China, Leland L. Smith; at Tahiti

Society Islands, Lewis V. Boyle; at Tananarive Madagascar, James G. Carter; at Tunis, Tunis, vacant; at Dakar, Senegal, William J. Yerby.

France, a republic in Western Europe, is slightly smaller in area than a group of five Middle West States—Illinois, Indiana, Ohio, Kentucky and Tennessee. Belgium and Luxemburg are its neighbors on the north. On the east Germany lies beyond the Rhine, the boundary; the Jura Mountains and Lake Geneva separate it from Switzerland, and the Graian Alps and the Maritime Alps from Italy. On the south is the Mediterranean Sea and Spain, with the crest of the Pyrenees for the boundary line. On the west lies the Bay of Biscay and the North Atlantic Ocean, and on the north again the English Channel and the Straits of Dover separate it from England. From north to south its length is about 600 miles, and from the western extremity near Brest to Strasburg on the Rhine it is about 560 miles wide. The coastline on the north is 700 miles long; along the Atlantic and the Bay of Biscay, 865; on the Mediterranean 384 miles.

In the French Alps it has the highest mountain in Europe, Mont Blanc (alt. 15,781 ft.). On the French side of the Pyrenees are several peaks of over 10,000 feet in height. Forming the western border of the Rhone valley rise the Cevennes, highest point being Mont Lozere (alt. 5,584 ft.). The Massif Central continues north as the mountains of Auvergne, where the Plomb du Cantal attains a height of 6,096 feet, to the Cote d'Or, containing Puy de Sancy (alt. 6,188 ft.). Further north are the Vosges, which run parallel with the Rhine; their crest formed the boundary line between France and Alsace. Thence the wooded highlands of the Argonne and the Ardennes bear off to the frontier. The western and northwestern part of France consists of fertile plains save for the hills of Normandy and the picturesque cliffs of Brittany.

On the North Sea and the Channel are the seaports of Dunkirk, Calais and Boulogne, with the great port of Havre at the mouth of the Seine, and Cherbourg, between Cape Hague and Cape Barfleur. In the extreme northwestern projection, sheltered by Cape St. Marthieu, is the roadstead of Brest, the great naval station. Further down the coast is Lorient, St. Nazaire, at the mouth of the Loire, with Nantes further up the river, Rochefort and La Rochelle. Up the estuary of the Garonne is the important port of Bordeaux, fourth city of the republic; and at the mouth of the Adour, in the extreme southwest corner, is Bayonne with its neighboring seaside resort of Biarritz. On the Mediterranean coast, which on the west is low, with lagoons and sand dunes, there is no great port till the mouths of the Rhone are passed and Marseilles, the second city of the country, is reached. Beyond is the great naval base, Toulon, and from there by Nice and Monaco to the Italian frontier and beyond runs the beautiful Riviera—the cote d'Azure.

France has four important rivers, the Seine, the Loire, the Garonne and the Rhone, the left bank of the Rhine from Basle, Switzerland, to Lauterbourg, and a dozen others, some with new fame from World War battles, but all of great value because of canalization, which binds them together. The waterways total 7,543 miles in length, of which canals cover 3,031. They are the property of the state and are free from tolls. Traffic in 1923 amounted to 33,883,848 metric tons, an increase of 3,510,447 tons over 1922.

THE FRENCH RAILROADS.

France has six great railway systems constructed under various concessions which expire at various dates, from 1950 to 1960, when they revert to the state. They represent an instalment cost of 25,000,000 francs. These lines with their mileage in 1922 were: Nord, 2,380; Est, 3,124; Paris-Orleans (P. O.), 4,641; Paris-Lyon-Mediterrane (P. L. M.), 6,078; Midi, 2,560; Ouest-Etat, 5,599; total, 24,382. The Alsace-Lorraine system of railway has a mileage of 1,384, making the grand total of the mileage 25,766. The Ouest-Etat and the Alsace-Lorraine system are operated by the state, through the Ministry of Public Works.

Of the main lines, 1,030 miles were destroyed in the war. All had been rebuilt by May 1, 1921. Of the local lines, 1,400 miles were destroyed; 1,262 were rebuilt by May 1, 1921; and now all have been restored. In addition, there were in 1922 the Paris Belt Line, 20 miles; the Grand Belt Line, 78 miles; secondary lines, 839 miles, and non-concessionary road, 20 miles.

Electrification of the Paris-Orleans, the P. L. M. and the Midi is under way, the plans providing for completion in 15 to 20 years. Part of the Midi is now electrically operated, the Soulom plant now furnishing 22,000 H. P., with an additional instalment of 35,000 already available in the same region.

The deficit of the six great railway systems in 1920 was estimated as not less than 3,300,000,000 francs. Legislation consolidating the French railroads was passed on June 21, 1921, became operative Jan. 1, 1922. The financial reports for 1922 show that the operating deficits of 1912 and of 1920-21 have given place to a surplus of 400,000,000 francs. The Ouest-Etat, however, operated by the state, still shows a large deficit. The summary is:

Railroad.	Receipts.	Expenses.	Surplus (+) or Deficit (—).
	Millions of francs.		
Nord	1,158.6	1,050.7	+107.9
Est	1,037.3	848.1	+189.2
Paris-Lyon-Medit. (P.L.M.)	1,805.0	1,598.6	+207.4
Paris-Orleans (P. O.)	941.0	910.9	+30.1
Midi	442.9	458.7	—15.8
Ouest-Etat	1,041.7	1,194.2	—152.5
Alsace-Lorraine	521.0	484.0	+37.0
Total	6,948.5	6,545.2	+403.3

The improvement during 1922 was the combined result of a 10 per cent. increase in receipts (600,000,000 francs) and a 9 per cent. reduction in expenses (700,000,000 francs). The showing would have been even better had not the railroads been obliged to take over certain expenses heretofore borne by the Public Treasury, the chief one being the indemnity for increased cost of living, assumed by the railroads after Jan. 1, 1922, which formerly had been paid to them by the state. Furthermore, they have been obliged to set apart additional amounts for pensions, since the new pensions have to be reckoned on the new salary basis. Increases of 50 per cent. in passenger rates and 12½ per cent. in freight rates were allowed by the Chamber of Deputies in February, 1924.

Capital charges, however, have grown, and as a result for important companies the 1923 balance is still on the wrong side, although much less unfavorable. For the five great railroads under private operation, the charges on capital account in 1922 reached 1,198,300,000 francs, compared with 948,300,000 francs in 1921 and with 693,700,000 francs in 1913.

The total capital account deficit of the seven roads for 1923 amounted to 1,253 millions of francs, as against 1,178 in 1922 and 2,088 in 1921.

GOVERNMENT SHIPPING EXPENSE.

The French Government by the end of July, 1923, succeeded in disposing of its fleet of merchant ships which had been bought or built during the war and had been supplemented by German reparations until it reached a total of over 800,000 tons in 1920. The effects of this fleet on the restoration of the French merchant marine, and its expense culminated in the passage of a bill in August, 1921, directing the sale of the fleet within two years. The only conditions were that the sale should be "for the interests of the Treasury," that the contracts should be approved by the Chamber of Deputies, that the purchaser could not resell a ship without the approval of the Government, and that he must pay the Government half the profit from such a sale.

The cost to the Government for the purchase and construction of ships stands at over 1,300,000,000 francs, and the proceeds from the sale of ships to be applied to the cost was about 136,000,000 francs, showing a loss of nearly 1,200,000,000 francs under this head. The operating losses up to Sept. 30, 1922, were 600,000,000 francs, showing a total loss of 1,800,000,000 francs.

The French merchant marine on June 30, 1924, was approximately 1,700 steamers and motor vessels (3,674,000 tons) and 365 sailing ships (287,000 tons).

There entered French ports in 1923, 29,746 vessels of 41,764,014 tons register, of which 8,850 vessels of 11,686,253 tons were French; and in 1922, 27,797 vessels of 35,457,579 tons, of which 8,108 of 9,822,685 tons were French.

INDUSTRIAL CAPACITY.

France has made great advances in industrial power since the war. The industrial reconstruction of the devastated areas is fast approaching completion. Twenty-two thousand factories have been reconstructed, new and larger scale factories are everywhere gradually replacing those destroyed, with technical equipment of the latest type.

The industrial population is fully employed and output in most fields of production is limited only by the dearth of man power. Agricultural reconstruction has been great, although France suffers

from an acute lack of agricultural labor, which has been partially met by the introduction of a considerable number of foreign workers and the extensive application of machinery.

The production, imports, exports and consumption of coal, including lignite, for the last three years is shown in this table:

	1923.	1922.	1921.
	(In Metric Tons.)		
Production....	38,576,815	31,841,000	28,976,495
Imports.....	26,268,187	28,897,000	22,044,591
Total supply	64,845,002	60,738,000	51,021,086
Less exports...	2,275,083	2,261,000	2,313,265
Consumption..	62,569,919	58,477,000	48,707,821

Steel production (pre-war, 4,687,000 tons) fell to 1,375,000 tons, rose to 2,231,000 tons during hostilities and in 1923 was 4,976,869 tons, which is about 55 per cent. of the capacity of the plants to-day. The production of iron ore in 1923 was 23,225,564 tons, and of pig iron, 5,299,581 tons On July 1, 1924, France had 135 blast furnaces active

Since the war the machine tool industry has been greatly expanded and is producing a better grade of equipment over pre-war days. The importation of heavy machinery, which was very large during the war years, amounted, in 1922, to 412,790,406 pounds, valued at 890,897,000 francs (equivalent to $73,053,554), while her exports of heavy machinery, in 1922, reached 185,444,558 pounds, valued at 573,945,000 francs (equivalent to $47,063,490).

New plants with modern installations of the newest and most improved types have brought to the textile industries in the northern district a considerably enhanced production, in some instances exceeding pre-war figures.

The number of spindles in 1923 was 10,593,000: mechanical looms, 176,000; hand looms, 25,000. The production was 220,000 metric tons of cotton yarn and 11,200,000 pieces of cloth averaging 100 metres in length.

Unemployment, which reached 90,000 in March, 1921, was non-existent throughout 1923.

In 1922 through state agencies 180,000 alien industrial and agricultural workers were brought in. 262,877, in 1923, and 68,840 during the first five months of 1924, and in May alien workers were entering the country at the rate of 6,000 a week The permanent settlement of these immigrants appears to be on the increase. Italians formed the largest contingent in 1923 (112,500). There were 55,000 Poles, 36,500 Spaniards, 34,000 Belgians, and 12,000 Portuguese. Efforts to attract the unemployed from England failed.

The potential hydro-electric power, estimated to amount to eight or nine million horsepower, has been utilized to the extent of 2,700,000 horsepower by Jan. 1, 1924, which will be increased by 300,000 horsepower by the end of 1926. Four great projects for which governmental assistance is considered assured are those of the Rhone, the Dordogne, the Truyere, and the Rhine The cost of the Rhone project is put at 3,250,000,000 francs Sixteen stations are planned with a total average power of 1,156,000 horsepower. The Dordogne plan includes four power stations, total capacity 250,000 horsepower, at cost of 2,900,000 francs The Truyere provides for two power stations with 40,000 and 70,000 horsepower respectively, to cost 210,000 francs The plan for the utilization of the Rhine between Huningue and Strasburg includes power stations at each of the eight sluices of the Rhine Lateral Canal with a total average power of 450,000 kilowatts Under the Finance Act of 1921 the Ministry of Public Works is authorized to grant every year subsidies or advances to promote hydro-electric undertakings, etc.

The extension of electrical service to rural communities it is believed will partly offset shortage of farm labor caused by the depletion of man power during the war years The law places at the disposition of the National Office of Agricultural Credit a maximum sum of 600,000,000 francs to be employed in rural electrical development through advances of cash made to the smaller political units or associations of individuals.

AGRICULTURE.

The returns of 1920 show that of the total area of France, including Alsace-Lorraine, 136,101,760 acres, 99,095,049 (of which 55,821,029 are arable), were under crops, fallow or grass, 25,521,108 were under forests, and 11,485,603 moorland or uncultivated

The wheat crop for 1923 was 7,905,508 metric tons, and in 1922, 6,622,032, which is below the amount necessary to supply food requirements estimated at 9.4 million tons. The acreage was 13,656,500. Other crops of 1923 were, in metric tons: Rye 937,675 from 2,171,400 acres; barley, 1,023,169 from 1,744,900 acres; oats, 5,479,038 from 8,544,900 acres; maize, 301,190 from 795,800 acres. The crop of buckwheat was 334,003 metric tons; potatoes, 9,534,091 metric tons; sugar beets, 3,222,453 metric tons.

The year 1922 produced an abundant vintage of excellent quality from an acreage of 3,412,127, the production being 69,250,000 hectolitres; the 1923 production was 56,982,933. In addition Alsace-Lorraine produced 956,825 hectolitres. The output of cider in 1921 was 576,356,000 gallons; apples, 144,188 metric tons; pears, 52,067 tons; olives, 72,613 tons; cherries, 27,476 tons; plums, 20,904 tons; peaches, 19,511 tons; apricots, 8,344 tons; oranges, 983 tons: tangerines. 516 tons; lemons, 580 tons; strawberries, 7,374 tons; currants, 1,199 tons; gooseberries. 1,581 tons; raspberries, 647 tons; figs. 2,241 tons; chestnuts, 165,557 tons; walnuts. 22,201 tons: almonds, 7,429 tons; truffles, 73 tons, and filberts. 94 tons.

Engaged in silk culture in 1923 were 60,755 producers, and the output of cocoons was 3,129,000 kilos; the output in 1922 was 2,585,000 kilos

There were on Jan. 1, 1923, of farm animals: Horses, 2,848,000; mules, 192,000; asses, 284,000; cattle, 13,769,000; sheep, 9,925,000; goats, 1,353,000; and swine, 5,406,000.

RECONSTRUCTION.

A few figures will set forth the burden the war laid upon France Her pre-war population, census of 1911, was 39,601,509. During the war the birth rate was less than one-half the normal, and in 1919 deaths (736,541) exceeded births (503,606) by 232,935.

The figures for the last four years in contrast with 1913 are (population 1913, 41,486,272; for other years, 39,209,518):

Year	Marriages.	Living Births.	B'th R'te	Deaths.	D'th R'te	Exc's of Births.
1913....	312,036	790,355	19.1	731,441	17.6	58,914
1920....	623,869	834.411	21.3	674,621	17.2	159,790
1921....	456,221	813,396	20.7	696,373	17.7	117,023
1922....	383,220	759,846	19.3	689,267	17.6	70,579
1923....	356,501	761,861	19.4	666,990	17.0	94,871

The number of men from 19 to 50 mobilized for the defense of France was 8,400,000; the number of men killed, 1,364,000; the number mutilated, 740,000: the number wounded, 3,000,000.

Alsace-Lorraine, redeemed, brought back to the tri-color, as shown by the census of 1921, 1,709,749. Yet this census of 1921 returned the total population of enlarged France as 39,209,766, a loss of 391,743. Moreover, France, always a most attractive country to foreigners, counted as residents in 1911, 1,152.096 foreigners, and in 1921, 1,550,449, an increase of 398,353. This would indicate a net loss of French citizens amounting to 790,696. Moreover, the loss to France was almost wholly of her workers.

The invading German army for nearly five years occupied ten departments in the most populous part of France, where industrial plants were most numerous, mines highly important, and fields intensely cultivated. The invaders sent machinery and movables across the Rhine. Battle trenches, high explosive shells, mines, and all the might of war left these regions devastated. But as the invaders were driven back the refugees, stout-hearted and undaunted, returned to what had been their homes, their fields, their factories.

France went steadfastly and courageously at work. The Ministry of the Liberated Regions was established The district covered ten departments: The Aisne, Ardennes, Marne, Meurthe-et-Moselle, Meuse, Nord, Oise, Pas-de-Calais, Somme and Vosges; comprised roughly by a line south from Dunkirk to Senlis, east to St. Die, thence north to the Belgian frontier.

The progress of the work is told in The World Almanacs for 1923 and 1924.

The 1,030 miles of main railroads, 1,490 miles of local railroads, bridges, canals and 26,300 miles of highways were rebuilt first of all.

By July 1, 1924, over 80 per cent. of the devastated area of France had been restored to its former condition, approximately 80 per cent. of the houses destroyed rebuilt; 90 per cent. of the damaged canals reconstructed; 80 per cent. of the trenches filled in; and 90 per cent. of the damaged factories (20,872 of 22,900) put in operation. While to a great extent the repairing of damages done in these regions was executed with Government aid, nevertheless, much is due to the energy and industry of private individuals and owners.

Great strides were made in reconstruction up to the beginning of 1924, at which time official reports indicate that two-thirds of the areas had been restored. Agricultural lands had been reclaimed, populations had been returned to their original dwellings, and manufacturing and mining

industries had been put into operation. The work has gone forward at an increasingly rapid rate.

The pre-war population of 4,690,183, at the close of the war had been reduced to 2,075,067. On Jan. 1, 1924, the population amounted to 4,253,677, or only 436,506 less than at the opening of the war. In 3,239 out of 3,255 communes the local administration has been fully reorganized, and the number of public schools and post offices in these districts exceeds those of pre-war years.

Shortly before the close of the war the Credit National was organized to facilitate the repair of damages caused by the war. It was formed by a group of the most important French banks, with a capital of 100 million francs, and its decided object was the payment in cash of compensation due to those who had suffered damage from the war and to arrange for the payment of interest on such advances. Capital required to pay for war damages was raised by the issue of bonds, on which interest, redemption, and premium charges were guaranteed by the state, the money for such payments being included in the French budget. Up to April 30, 1924, claimants had been paid 54 billion francs. Various methods of payment were adopted—some in cash, some in kind, others in Government securities.

On Jan. 1, 1924, the total state liabilities definitely recognized on claims to individuals within the devastated regions amounted to 62.5 billion francs, and there was a further sum of over 3.5 billion francs connected with contested decisions. It is expected that an additional 16 billion francs will be awarded, bringing the total damages up to approximately 82 billion francs. Approximately therefore, 28 billions still remain due to sufferers of the war, after deduction of the 54 billions already paid.

The French Treasury at the end of 1923 had furnished almost 22 billion francs, while the Credit National had provided another 22 billion. At the end of April, 1924, the Credit National had increased its cash payments to a total of over 24 billion, and this, added to the amounts furnished by the Government and to certain annuity certificates, made a total of 54 billion francs paid.

At the close of the war 3,306,305 hectares (8,170,000 acres) of land had been devastated, of which crop lands comprised 2,125,087 hectares (5,250,990 acres), and pasture lands 426,609 hectares (1,054,151 acres). With the opening of the war more than 2,200,000 hectares (5,447,200 acres) of land were under cultivation; at the beginning of January of this year, 1,700,000 (4,200,700 acres) were already under plough.

The livestock in the farming districts under consideration, including cattle, horses, sheep, goats, and pigs, which numbered over 2,600,000, had been reduced to less than 174,000. This number by Jan. 1, 1924, had been brought up to more than 1,400,000. Almost 120,000 farm buildings had been entirely rebuilt or completely repaired, while nearly 22,000 had been made serviceable for temporary use. Temporary buildings to the number of almost 32,000 had been constructed.

The 200 coal mines of the Nord and the Pas-de-Calais Departments were all damaged. On Jan. 1, 1924, there were 145 of these again in operation, with workers numbering nearly 96,000, or 4,000 more than in pre-war days. The output of these mines in January, 1924, amounted to 1,222,000 tons, or 76 per cent. of the average monthly output in 1913, as against a monthly average of only 1,535 tons in 1919.

The 34 iron mines also were all damaged. At the beginning of this year all but one had been restored.

Improved plants have in many cases been built, electric-power stations erected, and new, modern coke ovens installed.

The industrial capacity of Northern France will be greatly strengthened on the completion of reconstruction work during this or next year. Particularly in the textile industry, great improvement is shown in the enlargement of factories and the installation of new machinery.

Of factories employing not less than 10 workmen, 9,332 were wrecked; of this number only 4,819 were in full operation at the beginning of the year, although 3,144 were partially working. The number of workers in these factories had decreased from 745,000 in pre-war years to 557,000 in the first part of the present year. In the textile industry 1,385 factories were in operation in 1914, and of these all but 31 were either completely destroyed or damaged. On January 1 of this year 1,147 were again in operation.

The housing shortage problem now presents the greatest difficulties. The number of buildings existing in the devastated regions prior to the war was 1,190,066. Of these, 893,792 were either completely destroyed or damaged to such an extent as to be incapable of use. At the beginning of the present year 303,181 were completely restored, 183,000 had been provisionally repaired, and approximately 151,000 temporary houses constructed.

ALSACE-LORRAINE REDEEMED.

Alsace-Lorraine had been taken from France after the Franco-Prussian War by the Treaty of Frankfurt, May 10, 1871. Redeemed by the great war, the provinces at present are administered by a High Commission, assisted by a Consultive Council at Strasburg. The present General Commissioner is M. Gabriel Alapetite, who succeeded M. Millerand in January, 1920. The law of Oct. 17, 1919, maintains in force the legislative arrangements and local regulations until French laws can effectively replace them. The Concordat therefore remains; also denominational schools.

As before 1871, the departments now are Bas-Rhin (Lower Alsace, capital Strasburg), Haut-Rhin (Upper Alsace, capital Colmar), and the Moselle (Lorraine, capital Metz). The territory restored to France and its population by the census of 1921 was Lower Alsace (again the Department Bas-Rhin) 1,848 square miles, population 651,586; Upper Alsace (Haut-Rhin), 1,354 square miles, population 468,943; and Lorraine (the Moselle), 2,403 square miles, population 589,120: total, 5,605 square miles; population 1,709,649. By the German census of 1910 the population was 1,874,014; of these the Germans and Austro-Hungarians domiciled there were 301,764. After the war, up to April, 1921, German citizens had left to the number of 76,467. Alsace-Lorraine lost 45,000 men in the war. The pre-war religious figures were: Catholic, 1,428,343; Protestants, 408,274; Jews, 30,483.

Alsace has rich potash fields, discovered in 1904, which gave Germany a monopoly of this product. The output under French hands for 1923 was 1,026,731 metric tons as against 845,098 in 1922. Petroleum output near Woerth in 1923 was 70,000 metric tons. The state acquired these deposits in 1921 and turned them over to a private company for exploitation.

Lorraine is rich in iron and coal. The output of each reached its maximum in 1913, with 21,133,676 tons of iron and 3,795,262 tons of coal. The 1923 production of iron ore was 22,078,980 tons.

The exclusive rights of exploitation of the coal mines of the Saar Valley were given to France by the Treaty of Versailles as a compensation for the destruction of the coal mines in the north of France. The Saar Valley lies north of Lorraine and contains about 503 square miles and 657,870 population. For 15 years it is to be governed by a commission of five, appointed yearly by the League of Nations, to whom as trustee Germany in the treaty renounced government of the territory. Then a plebiscite will decide whether it will have a continuance of that rule in a semi-autonomous form, union with France, or union with Germany. Free trade with Germany is assured the district until Jan. 10, 1925. France becomes the sole owner of the coal fields and mining concessions and the value of the mines thus ceded was credited to Germany in the reparation account. The average pre-war production of the basin was 12,000,000 tons a year. The basin, it is estimated, will yield 12,000,000,000 tons. The output in 1920 was 9,198,714 tons; for 1921, 9,336,493 tons; for 1922, 10,943,311 tons, and for 1923, 13,000,000 tons. These figures are for the mines operated by the French state and are exclusive of the Frankenholz mine, which has an output of 1,000 tons daily. The number of miners employed at the end of 1923 was 74,948.

The production of iron in 1923 was 1,021,391 metric tons, and of steel 996,820 metric tons.

The French took possession on Jan. 18, 1920, the Treasury advancing 39,325,000 francs as a working capital, which was paid back in March, 1922. The value of the property to be credited to Germany on the reparation account is likely to be put at about 350,000,000 gold marks, and on that estimate the experts figure that the mines have paid 7.25 per cent. in 1920; 6.68 per cent. in 1921, and 10.9 per cent. in 1922—the French Government having made about 250,000,000 francs in three years.

FOREIGN TRADE.

The foreign trade of France for 1923, 1922, 1921 and 1920, compared with that of 1913, the last year before the war, expressed both in francs and in dollars at the average exchange rate for the year, was:

	Francs.	*Equivalent in Dollars.*	*Exchange Rate.*
IMPORTS.			
1923	32,608,012,000	1,989,089,000	16.39
1922	23,930,328,000	1,962,287,000	12.20
1921	22,068,000,000	1,634,667,000	13.50
1920	49,904,897,000	3,441,717,000	14.50
1913	8,421,332,000	1,625,317,000	5.18
EXPORTS.			
1923	30,431,510,000	1,856,322,000	16.39
1922	21,378,943,000	1,753,073,200	12.20
1921	19,772,000,000	1,461,639,600	13.50
1920	26,894,332,000	1,854,823,300	14.50
1913	6,880,217,000	1,327,881,900	5.18

Imports of gold, silver, and bullion in 1923 reached 65,346,000 francs, against 125,178,000 francs in 1922, 662,366,000 francs in 1921, and 974,980,000 francs in 1913, and exports thereof amounted to $2,755,000 francs in 1923, to 77,446,000 francs in 1922, to 873,769,000 francs in 1921, and to 431,359,000 francs in 1913.

The comparison of imports and exports by weight for the three chief groups for these years follows:

Imports.	1923.	1922.	1913.
		(In Metric Tons.)	
Food products...	5,715,099	5,063,713	5,511,932
Raw materials..	47,706,510	44,606,848	37,160,735
Manufactures ..	1,499,928	1,696,145	1,547,719
Total.....	54,921,537	51,366,706	44,220,386
Exports.			
Food products...	1,311,927	948,264	1,456,676
Raw materials ..	20,403,042	19,144,962	18,299,163
Manufactures...	3,042,037	2,494,542	2,283,324
Postal pkgs.....	32,014	27,920	35,350
Total	24,789,020	22,615,688	22,074,513

The imports of cereals, of fresh and refrigerated meats and of sugar show a steady progress toward pre-war domestic supply. The figures are:

Imports	1923.	1922.	1921.	1913.
		(In Metric Tons.)		
Cereals.....	2,241,456	1,636,156	1,722,404	2,929,720
Meats.....	86,887	54,077	65,857	3,189
Sugar.....	488,140	584,964	364,794	134,957

Imports of wool, silk, cotton, and copper were:

Imports	1923	1922	1921.	1913.
		(In Metric Tons.)		
Raw wool ..	269,152	315,669	156,286	285,570
Raw silk ...	12,097	14,028	9,719	19,788
Raw cotton.	261,520	263,074	211,527	329,136
Copper.....	128,661	96,392	60,321	116,682

The United States was in 1922 and 1921 France's principal source of supply, with Great Britain a close second, Belgium third, and Germany fourth; but Great Britain took first place by a small margin in 1923 Belgium was France's best customer in 1921, as in 1920, followed by Great Britain, Germany and the United States in that order. In 1922 and 1923, however, Great Britain led Belgium by a slight margin, the United States was third, and Switzerland fourth

The pre-war figures and those of the last three years of French imports and exports, by countries, are:

IMPORTS.

Countries of Origin.	1923.	1922.	1921.	1913.

"	1922-23	151,480,834
"	1923-24	144,211,415

GOVERNMENT OF FRANCE.

The constitutional law under which France is governed was adopted in 1875 and was partially modified in 1879, 1884, 1885, and 1889. Legislative power rests in a Senate and a Chamber of Deputies. The 584 Deputies are elected by direct vote by manhood suffrage every four years; a form of proportional representation is in effect. The 314 Senators are elected for nine years, one-third retiring every three years; the election is indirect and made by an electoral body in each district made up of delegates chosen by the municipal councils of each commune, and of the Deputies, councillor-generals and district councillors of the department. The two Houses meet yearly on the second Tuesday in January and must remain in session at least five months out of the twelve.

The complexion of the Senate after the election of Jan. 6, 1924, was: Radicals, 120; Republicans of the Left, 58; Progressives, 23; Conservatives, 20; Liberal Republicans, 14; Socialist Republicans, 2; Unified Socialists, 2.

The Chamber of Deputies, elected May 11, 1924: Republican Entente (three groups), 137; Left Republicans, 92; National Radicals, 34; Radical Socialists, 127; Independent Socialists, 39, Unified Socialists, 101; Communists, 29; Conservative Royalists, 29; from the Colonies, 14.

The new proportional representation electoral is very complicated and an analysis of the popular vote indicates that candidates on the National Bloc tickets received 30,419,847 votes, while those of the Left Bloc received 28,139,831, and the Communists, 8,584,007.

M. Poincare's government, which had been reconstructed on March 28 after a defeat, was thus defeated, having lost more than 100 seats to the Radical Socialists and United Socialists, and he resigned on the day, June 1, that the Chamaber of Deputies met. The Left Bloc found that it numbered 307, and in caucuses made a unanimous demand that M. Millerand, the President of the Republic, resign, holding that in siding with the National Bloc he had participated in partisan politics contrary to the spirit of the constitution. M. Millerand could find no one of the majority to accept his invitation to form a Cabinet; he summoned Frederic Francois-Marsal, Minister of Finance in Poincare's government, who formed a stop-gap Cabinet on June 8 that lasted just one week—long enough to present M Millerand's refusal to resign to the Chamber. On a technical vote the Chamber declared against the President by a vote of 329 to 214, and the Senate by a vote of 154 to 144. The next day, June 11, M. Millerand resigned. The Left Bloc in caucus declared for M. Painleve, who had been elected President of the Chamber, but at the election at Versailles on June 12, Gaston Doumergue, the President of the Senate, was elected President of the Republic, receiving 515 votes to 309 for Painleve, 32 for Camelina (Communist), and a scattering. He sent on June 14 for M. Edouard Herriot, who formed a government that day.

The two Houses, united as a National Assembly, elect a President of the republic to serve seven years, meeting immediately whenever a vacancy occurs. The President selects a Ministry, generally from the two Chambers, but may go outside the membership. In practice the President summons a leader who can obtain a majority in the Chambers in support of his policies as President of the Council (Premier) and he makes up his list of Ministers and submits it for approval. The number of portfolios varies, numbering fourteen in the present Ministry. Each Minister is responsible to the Chambers for his acts and the Ministry as a whole is responsible for the general policy of the Government.

The unit of local government is the commune, of which the 90 departments (excluding the three in Algeria) had, in 1921, in all 37,963. Of these 22,024 have less than 500 inhabitants; 11,962 have between 500 and 1,500; 140 only have more than 20.000. Each commune elects by universal suffrage a municipal council which in turn elects a Mayor, who is both the representative of the commune, the agent of the central government, and the head of the police. Each department has representatives of all the Ministries and is placed under a Prefect nominated by the Government and having wide functions. The elected Conseils d'arrondissement (385 in France) are charged with allotting the direct taxes.

France has not extended the franchise to women, although in May, 1919, the Chamber of Deputies voted a bill recognizing the full political rights of French women.

Diplomatic relations with the Vatican, broken off June 30, 1904, were restored in May, 1921, when M. Jonnart was sent there as Ambassador, but are likely to broken off again as the budget for 1924-25 carries no appropriation for the maintenance

of the embassy, though over a strong protest from Alsace-Lorraine and the Catholics. No religion is recognized by the state.

France has an act passed in 1905 for the relief of the aged, poor, infirm, and incurable. The age limit, first placed at 70, was five years later reduced to 65. This act was supplemented by the Old Age Pensions act of April 5, 1910, which provides a system by which both employers and workers contribute. On July 1, 1920, 8,349,744 persons were registered under it.

The school system of France is highly developed. Primary instruction is free since 1881 and compulsory since 1882 for all children from 6 to 13. The teachers are, by the law of 1886, lay. The public schools, primary, secondary and superior, form the University of France, and are administered by the Ministry of Public Instruction, with the aid of a Superior Council and a force of seven Inspectors-General and Inspectors. There are seventeen circumscriptions called academies, each with a council to deal with instruction. Each department has a council, presided over by the Prefect, for primary school matters, with large powers regarding inspection, management and maintenance, and each department must maintain two primary normal schools, one for men and one for women.

The 17 universities in France had, in 1921, 49,931 students; the largest, that of Paris (founded in 1150), had 21,232.

The expenditure on the public schools and for technical schools, not including those under the Ministry des Beaux-Arts, was:

	Francs.
For public schools, 1921	1,261,620,729
1922	1,337,000,000
1923	1,403,000,000

THE BUDGETS.

The normal budgets for three years were:

	Francs.
1921—Revenues	29,160,155,234
Expenditures	29,120,541,626
1922—Revenues	28,362,328,929
Expenditures	28,348,952,965
1923—Revenues	23,437,954,832
Expenditures	23,402,487,556

To these figures there must be added the extraordinary expenses due to war, military pensions, and reconstruction to be repaid from receipts from Germany on the reparation account, which are provisionally covered in part by loans. The amounts are:

	Francs.
1921—Extraordinary expenditures	15,317,184,792
1922— " " "	10,558,534,377
1923— " " "	13,581,000,000

The fall of the franc late in 1923 and in the early part of 1924, reaching 3.42 cents on March 8, before its recovery, made revision of the 1924 budget imperative. Premier Poincare forced through revision of taxes, reaching a 20 per cent. increase in some instances, and economies of administration so that the final figures on the estimates stood: Revenues, 29,835,000,000 francs; expenditures, 29,659,000,000 francs.

The budget for 1925 presented to the Chamber by M. Clemental in October, grouped ordinary expenses and "recoverable" expenses together. The estimated revenues amount to 32,481,000,000 francs (approximately $1,800,000,000) and comprise all existing forms of receipts, estimated at 29,854,000,000 francs; new taxes, amounting to 1,777,000,000; and payments on German reparations, estimated at 850,000,000 francs. Expenditures are estimated to amount to 32,456,000,000 francs and consist of expenditures on the ordinary budget amounting to 24,079,000,000 francs, civil service salary increases estimated at 700,000,000 francs, and expenditures on the special budget account estimated at 7,677,000,000 francs; the latter includes an item of 1,000,000,000 francs to meet service charges on a reconstruction loan which is imminent.

The national debt, which on July 31, 1914, was 34,188,000,000 gold francs, on June 1, 1924, was approximately: Foreign, 38,790,000,000 gold francs; Internal, 271,018,000,000 paper francs. An internal loan has been decided on to consolidate the floating debt and to complete reconstruction in the devastated regions. The annuity to be paid for war damages will amount to 1,500,000,000 francs. Amortization of the public debt is contemplated by use of German payments; the debt charge now represents 18,000,000,000 francs.

ARMY AND NAVY.

The cost to France of her army and navy in the last five budgets was:

	Army.	Navy.
	Francs.	*Francs.*
1920	4,236,599,884	868,224,082
1921	4,462,003,675	951,542,607
1922	3,426,284,959	797,804,914
1923	3,939,000,000	1,020,000,000
1924	3,566,765,327	1,028,237,008

The plan for the reorganization of France's Army, adopted in 1923, provides for 660,000 men and is based upon 18 months' service, each class of conscripts furnishing about 250,000 men, with 100,000 professional soldiers constantly in the army. French troops number 461,000, and Colonials, 189,000 with 10,000 in the Foreign Legion. The plan provides for 32 divisions of infantry, each with four regiments (492 battalions), 298 squadrons of cavalry; 798 batteries of light and heavy artillery, together with 15 regiments of tanks and technical units. The Aviation Corps is to consist of 132 combat squadrons, 76 observation squadrons and 34 auxiliary service squadrons, with a personnel of about 33,000. The French Army now has 1,962 first-line planes, all of them post-war models, with a reserve of about 4,000 machines. France plans to have 2,560 service machines by the end of 1925.

There were quartered on French soil in 1923, chiefly in the southwest departments, 10 Senegalese battalions, seven of Madagascan troops, one Indo-Chinese, while a considerably larger number of North African natives form a part of the army on the Rhine.

The French Navy, under the allotment as to capital ships agreed to at the Washington conference, is in proportion of 1.75 as against 5-5-3 for England, the United States and Japan. France had, in 1914, 770,000 tonnage in her navy and in 1922, 660,000. The number of submarines was 47, of an average age of 11 years. The 1924 budget calls for an expenditure of 1,028,000,000 francs for the navy, which is spending 51,000,000 francs for the modernization of French capital ships. The work on two of these, the Bretagne and the Lorraine, has now been completed at a cost of 8,500,000 francs each. Work is progressing on two others and two are to be taken care of later. France launched on Oct 14, 1923, the light cruiser Duguay-Trouin, 8,000 tons displacement and on March 21, 1924, her sister ship the Lamotte Picquet. A third is being built. The program provides further for six destroyers, 12 torpedo boats, 12 submarines, of which six are to be of the large type. The cruiser Bearn will be refitted as an airplane carrier. The program will be completed early in 1925.

ALGERIA.

AREA, 222,180 square miles.

POPULATION, census of March 6, 1921; northern territory, 5,256,420; southern territory, 546,044; total, 5,802,464; of which 831,040 were Europeans, mostly French and Spaniards.

CAPITAL, Algiers, population, 1921, 206,595. Other cities: Oran, population 141,156; Constantine, 78,220; Bona, 45,171; Tlemcen, 43,090; Sidi-bel-Abbes, 37,752, and six other cities above 25,000.

Governor General, Theodore Steeg, appointed July 29, 1921.

United States Consul at Algiers, Edward A. Dow.

Algeria is in the northern part of Africa, extending for 650 miles along the Mediterranean Sea, between Tunis on the east and Morocco on the west. Both neighbors are French protectorates (see following). The northern territory extends inland approximately 350 miles; beyond, the four southern territories extend southward indefinitely into the Sahara Desert, merging into French West Africa. The boundaries have not been fixed but the 20° of north latitude may be considered as an approximate divisional line. These four southern territories form a separate colony, are sparsely peopled by nomads, and each is under a military commander.

Algeria had for several centuries been under nominal Turkish sovereignty, but in fact was controlled by the Barbary pirates. England and France were making a half-hearted effort to suppress them, when acts of arrogance by the Dey of Algiers brought from France a punitive force in 1830. The adventure developed into a colonizing undertaking, bitterly opposed by Abd-el-Kader and his fighting men until 1847. Three insurrections later were put down, and by 1881 the country was sufficiently quiet to permit the French to push on inland. By 1905 this control was extended over the desert. The help given by the native population to France in the World War resulted in a law, passed Feb. 4, 1919, giving French citizenship to native Algerians who had served in the army or navy, was a landowner, farmer, or been a trader, could read or write French, or held a French decoration. The northern territory is divided into three departments, each of which sends a Senator and two Deputies to Paris, only French citizens being allowed to vote.

The country is governed by a Governor General with the aid of a consultive council and a supreme council and three financial delegations (French colonists, French taxpayers other than colonists, and Mohammedan natives), whose especial care is the budget and the taxes. The Governor prepares the budget, which for two years was:

	Receipts.	Expenditures.
1922-23	francs, 489,948,141	francs, 489,808,492
1923-24	francs, 595,523,431	francs, 595,262,638

The debt is about 110,000,000 francs.

Algeria has prospered greatly under peace and French rule. The country has four marked divisions. On the coast is an area, the Tell, from 50 to 100 miles wide, of very fertile plains with valleys running out from the hills, mainly owned by Europeans, which is cultivated scientifically. Behind the Tell is the tableland of the Shat with an elevation of 3,000 feet, arid, or covered with salt lakes and swamp. The two chains of the Atlas Mountains, reaching to altitudes of 7,000 feet, divide the country from the Sahara.

A French expedition consisting of five small caterpillar automobiles left Tugurt, in Algeria, the southern terminal of the railway, on Dec. 18, 1922, and made the passage across the Sahara Desert to Timbuktu, 2,000 miles, in 21 days, without mishap. Best time by camel caravan is three months.

The French have driven artesian wells and brought scientific irrigation and fertilizer to the land of the Tell. Agriculture has made great strides; wheat, barley and oats grow in abundance. The production of wheat in 1923 was 1,014,616 tons from 3,203,112 acres; barley, 1,008,400 tons from 2,767,400 acres; oats, 225,244 tons from 600,000 acres; and tobacco, 934,300 tons from 27,445 acres. Fruits, olives and tobacco are grown in the interior valley and about 500,000 acres have been planted to vineyards. The output of wines has increased greatly, 224,099,700 gallons being produced from 440,000 acres in 1923, and nearly all the product is taken to France. Cattle and sheep are a source of great wealth and hides and wool are exported.

The French have improved the ports, built 3,330 miles of excellent roads, and there were, in 1922, 2,465 miles of railroads. The three ports have also been improved. In 1923, 3,839 vessels of 5,404,293 tons entered the ports.

The country is rich in minerals, as yet very little exploited. The production of minerals in Algeria during 1923 was as follows: Iron ore, 1,448,019 tons; lead ore, 13,176 tons; zinc ore, 45,245 tons; copper ore, 2,608 tons; iron pyrites, 19,097 tons; petroleum, 1,339 tons; coal, 5,092 tons; and phosphate of lime, 404,064 tons.

Imports,	1921	francs 1,790,630,000
"	1922	francs 2,007,089,000
"	1923	francs 2,236,942,000
Exports,	1921	francs 1,365,607,000
"	1922	francs 1,379,491,000
"	1923	francs 1,674,393,000

The trade of Algeria and Tunis with the United States was:

Imports,	1922-23	$6,388,231
"	1923-24	5,040,258
Exports,	1922-23	2,188,504
"	1923-24	2,168,297

TUNIS.
(French Protectorate.)

AREA, about 50,000 square miles.

POPULATION, census of 1921, 2,095,090, of which 156,115 were Europeans (54,476 French, 84,799 Italians), and 1,937,824 natives (1,889,388 Arabs and Bedouins, 48,436 Jews).

CAPITAL, Tunis, population, 1921, 171,672, of which 22,206 were French and 42,592 Italians.

Bey, Sidi Mohammed el Habib, born 1858, succeeded his cousin, Sidi Mohammed Ben Nasr Bey, who died July 10, 1922.

French Resident General, Lucien Saint, appointed Nov. 24, 1920.

United States Consul, at Tunis, Harris N. Cookingham.

Tunis, one of the former Barbary states under the suzerainty of Turkey, is situate on the northern coast of Africa, with the Mediterranean Sea on the north and east, on the southeast Italian Libya, on the south the Sahara Desert and on the west Algeria.

The French were obliged to send a military force into the country in 1881 to protect Algeria from the raids of the Khroumer tribes, which resulted in a treaty signed May 12, 1881, placing Tunis under the protectorate of France. Most of the tribes have settled down to agriculture and stock raising. Difficulties of administration which followed the old Turkish system have been great but the French have met them admirably and have made the country prosperous.

There are large fertile valleys in the mountainous north, excellent land for fruit culture in the northeast peninsula, high tablelands and pastures in the centre, and famous oases and gardens in the south, where dates grow in profusion. The chief industry is agriculture; over 3,000,000 acres are devoted to cereals and vegetables; 420,000 to 15 million olive trees; 47,000 to 2.5 million date palms; 58,835 to vineyards and 11,535,000 acres to pasturage. The vineyards produced 13,596,000 gallons of wine in 1922 and the date orchards over 26,000 metric tons of dates.

Iron, zinc, and lead mines are being developed, and produced in 1922 about 30,000 tons of lead ore as compared with 19,000 in 1921; 8,500 tons of

zinc ore with 4,500 in 1921; and 500,000 of lead ore with 273,000 in 1921. The output from the very rich phosphate deposits in 1923 reached 2,357,000 tons. The railway mileage was 1,260 on Jan. 1, 1923. There are 2,886 miles of good roads. In 1922 there entered the ports 9,092 vessels of 3,223,861 tons.

The budget for 1923 showed receipts of 215,248,600 francs, and expenditures of 215,233,607 francs.

The public debt Jan. 1, 1923, was about 460,000,000 francs.

The foreign trade of Tunis was:

Imports,	1920	francs 635,562,552
"	1921	francs 721,700,155
"	1922	francs 856,377,102
Exports,	1920	francs 337,057,488
"	1921	francs 672,893,886
"	1922	francs 444,679,644

The administration is under the French Foreign Office.

FRENCH WEST AFRICA.

AREA, about 1,800,566 square miles, exclusive of the Sahara Desert, about 1,500,000 square miles.

POPULATION, census of 1921, 12,283,962, of which 6,829 are French and 1,826 other Europeans.

CAPITAL, Dakar, in Senegal; population, 1918, 25,468, of which 2,791 are French.

Governor General, M. Carde, appointed Feb. 20, 1923

United States Consul, at Dakar, William C. Yerby.

French West Africa reaches from the Atlantic Ocean at about 17° west longitude across Africa to the Soudan at about 24° east longitude and from the southern desert boundaries of Morocco, Algeria, Tunis and Italian Libya to the Gulf of Guinea and the indeterminate boundary of French Equatorial Africa. It has been formed by consolidation of existing colonies as follows:

Colony.	Square miles.	Population.
Senegal	74,112	1,225,523
Guinea	95,218	1,875,996
Ivory Coast	121,976	1,545,680
Dahomey	42,460	842,243
French Soudan	617,000	2,474,589
Upper Volta	154,400	2,974,142
Mauritania	345,400	261,746
Territory of Niger	349,400	1,084,043
Total	1,800,566	12,283,962

Of Togoland, the only German colony that was self-supporting, France received 20,200 square miles, about two-thirds It is attached to French Dahomey.

The colonies are each under a Lieutenant Governor. There is a general budget for all, that for 1924 balancing at 114,833,312 francs.

The colonies export fruits, palm nuts and oil, rubber, cotton, cacao, and timber. The chief imports are foodstuffs, textiles, machinery and hardware, and spirits. Imports for 1920 were 654,638,301 francs and exports, 589,051,244 francs; for 1921, 372,497,545 francs, and 335 473,935 francs respectively and for 1922, 351,508,480 francs and 311,353,650 francs.

In 1922 the railroad mileage was 1,860 miles. There entered the ports 17,892 vessels of 12,212,716 tons in 1922.

Dakar is the best port on that coast, having modern equipment.

FRENCH EQUATORIAL AFRICA.
(French Congo)

AREA, 982.049 square miles.

POPULATION, census of 1921, 2,845,936, of which 2,932 were Europeans.

CAPITAL, Brazzaville, on the Congo.

Governor-General, M. Augagneur, appointed 1920.

French Equatorial Africa extends from Spanish Guinea, just south of the Cameroon, to Belgian Congo. Its eastern boundary is the Ubangi and Congo Rivers and the Soudan. On the west is the Cameroon. French acquisition began in 1841 and its territory has since been extended by exploration and occupation, and the limits defined by international convention. That part (107,270 square miles) ceded to Germany as compensation for acknowledgment of the Morocco protectorate in 1911 was restored to France in the Treaty of Versailles and incorporated in this territory. France, on Jan 15, 1910, renamed the French Congo French Equatorial Africa and subdivided it into three colonies under one administration, subsequently adding Chad as a colony. The four colonies are:

Colony.	Square miles.	Population.
Gabun	121,862	388,778
Middle Congo	150,292	581.143
Ubangi-Shari	208.219	604,644
Chad	501,676	1,271,371
Total	982,049	2,845,936

There are 30,000 square miles of tropical forest, rich in timber, but the output as yet is only wild rubber, of which 1,434 tons were exported in 1921. Palm oil output for export was 5,345 tons. Copper, lead and zinc are found. The import figures for 1921 were 41,662,259 francs: exports, 21,984,831 francs. A railroad to connect Brazzaville with Pointe Novie on the Atlantic was begun February, 1921.

The general budget for 1922 was 9,358,542 francs; Colonial budgets—Gabun, 3,939,342 francs; Middle Congo, 4,216,000 francs: Ubangi-Shari, 3,920,317 francs; Chad, 3,597,400 francs.

CAMEROON.
(French Mandate.)

AREA, 166,489 square miles.

POPULATION, estimated, 1921, $1,500,000.

CAPITAL, Yaounde.

That part of the former German colony Cameroon not returned to France (see French Equatorial Africa) was by the Treaty of Versailles placed under a French mandate and by decree of March 28, 1921, has been constituted an autonomous territory. It has 359 miles of railroad. The products are tobacco, palm oil, coffee, and ivory. The budget for 1923 balanced at 19,877,060 francs, with a special railroad budget of 3,380,000 francs.

Imports in 1922 amounted to 33,427,960 francs and exports to 25 236,660 francs. In 1922, 192 vessels entered the port of Douala.

FRENCH SOMALILAND.

AREA, 5,790 square miles.

POPULATION, 1921, estimated, 208,000.

CAPITAL, Jibuti; population, 1921, 8,366 (190 French).

French Somaliland lies between Eritrea (Italian), Abyssinia and British Somaliland and is separated by the Straits of Bab-el-Mandeb from Aden (British). Its port, Jibuti, is on the Gulf of Aden. A port was acquired by France in 1862, but active occupation did not begin until 1884. It is administered by a Governor. The colony has few industries; hides, coffee and ivory are exported, and textiles, food products, sugar and coal imported. The figures in 121 were: Imports, 129.840,325 francs, exports, 109,361,080 francs, of which 20,000,000 were Abyssinian goods brought down to Jibuti by the railroad (485 miles long) from Addis Abeba. In 1921, 484 steam vessels of 1,529,989 tons entered Jibuti.

MADAGASCAR.

AREA, estimated, 236,000 square miles.

POPULATION, census of July 1, 1921, 3,387,968, of which 17,149 were French and 10,310 other Europeans and assimilated persons.

CAPITAL, Tananarive; population, 68,507 (1923 estimate). Ports: Tamatave, Diego-Suarez, Majunga and Tulear.

Governor-General, Marcel Achille Henri Raymond Olivier, appointed Jan. 31, 1924.

United States Consul, at Tananarive, James G. Carter.

Madagascar, an island off the east coast of Africa, from which it is separated by the Mozambique Channel (240 miles wide at its narrowest part), is about 980 miles long and 360 miles wide at its greatest breadth. It is therefore nearly as large as the State of Texas. To it is attached for government the prosperous archipelago of the Comoro Islands, with an area in all of about 838 square miles, and with 109,860 inhabitants; also Nossi-Be (113 square miles).

Madagascar came under a French protectorate in 1885. Together with its dependencies, it was declared a French colony on Aug. 6, 1896. It is administered by a Governor-General with a Council of Administration. Over 4,000,000 acres are under cultivation, the chief crops being rice, manioc, beans, vanilla, corn, coffee, cloves, tobacco, sugar cane and cocoa. The forests are rich in cabinet and tanning wood, raffia, resins, gums and beeswax.

Agriculture and stock-raising are the chief industries; mining is being developed and 6,220 metric tons of 2,204.6 pounds, each, of graphite were produced in 1921; 6,675 tons in 1922, and 10,768 tons in 1923. The gold production amounted to 14,660 troy ounces in 1921; 18,583 ounces in 1922, and 16,166 ounces in 1923. Radium has also been found.

The total railroad mileage in 1923 was 430 miles. In 1923, 6,393 vessels of 2.114,017 tons entered the ports, against 5,310 of 1,855,104 tons in 1922 and 5,604 of 1,566,786 tons in 1921

The budget for 1922 balanced at 94,120,021 francs and the estimates for 1923 were 90,460,991 francs for

the receipts, and 89,960,991 francs for the expenditures. The 1924 budget balances at 98,542,468 francs. The public debt amounted to 145,224,591.65 francs on Jan. 1, 1923.

The imports in 1923 were valued at 209,818,297 francs; in 1922, at 173,831,641 francs; and in 1921, at 225,921,048 francs; the exports in 1923 were valued at 191,840,791 francs; in 1922, at 132,472,491 francs; and in 1921, at 108,308.037 francs.

Trade with the United States was:

Imports,	1920-21	$225,316
"	1921-22	350,542
"	1922-23	293,733
"	1923-24	139,436
Exports,	1920-21	73,869
"	1921-22	25,838
"	1922-23	137,173
"	1923-24	231,450

REUNION.

AREA, 970 square miles.

POPULATION, census of 1921, 173,190, of which 167,789 were of French European origin.

Reunion is in fact an integral part of France, as it is represented in Parliament at Paris by a Senator and two Deputies. It is an island in the Indian Ocean, about 240 miles east of Madagascar, and has belonged to France since 1643. It is administered by a Governor and an Elective Council. The chief products are sugar, rum, coffee, manioc, tapioca, vanilla, and spices. The chief imports, rice and cereals. Imports for 1922 were 55,591,776 francs, exports, 51,861,376 francs. There are 80 miles of railroad, state owned. In 1922, 901 vessels of 193,736 tons entered the ports. The budget for 1922 balanced at 14,501,700 francs. The debt was 765,000 francs.

Sugar exports in 1921 amounted to 55,564 metric tons; in 1922, 30,000 tons.

FRENCH INDIA.

AREA, 196 square miles.

POPULATION, census of 1921, 265,388.

CAPITAL, Pondicherry; population, 46,849.

The French possessions in India lie along the Coromandel coast, on the Bay of Bengal, in the southeastern part, to the north of the island of Ceylon. The most important is Pondicherry, established by the French East Indian Company in 1674, and after changing hands eight times finally rested in the control of France in 1814. The colonies are divided in five dependencies: Pondicherry, population, 1921, 170,846, Karikal, 53,027; Chandernager, 25,423; Mahe, 11,199; and Yanson, 4,705. The administration is in the hands of a Governor, and there is a General Elective Council. The colonies send one Senator and one Deputy to Parliament at Paris. Agriculture is the chief industry and oil seed the chief export. Pondicherry has five cotton mills, 71,213 spindles. There are 43 miles of railroad, and in 1921, 228 vessels entered the ports. The imports in 1921 were valued at 23,583,192 francs and the exports at 24,554,280 francs.

FRENCH INDO-CHINA.

AREA, Cochin-China, estimated, 22,000 square miles; Annam, 39,758; Cambodia, 57,900; Tonkin, 40,530; Laos, 96,500, Kwangchow, 190; total 256,878.

POPULATION, Cochin-China, 1921, 3,795,613; Annam, 1920, 5,731,189; Cambodia, 2,000,000; Tonkin, 1919, 6,470,250; Laos, 800,000; Kwangchow, 168,000; total, 19,747,431. Of these about 23,700 were Europeans.

CAPITAL, Hanoi (Tonkin), population, 1921, 90,303. Chief port, Saigon (Cochin-China, population, 72,373, of which 4,601 were Europeans.

Governor-General, Martial Merlin, appointed 1923.

United States Consul, at Saigon, Leland L. Smith.

French Indo-China, situate in the southwestern part of Asia with China on the north, Siam on the west and the Gulf of Tonkin and the South China Sea on the east and south, comprises five states: The colony of Cochin-China, the protectorates of Annam, Cambodia, Tonkin and Laos, and also Kwangchow, leased from China (1898) and Battambang, ceded by Siam (1907).

The whole country is under a Governor-General with a Secretary-General and a superior council, and each state has a head, that of the colony being a Governor, and those of the protectorates being called Residents Superieur. There is a common budget for Indo-China, which in 1923, balanced at 71,700,000 piastres (par of exchange, 49 cents), or about 430,000,000 francs, and in 1923, a debt of 417,080,000 francs. There is a military force of 25,000 men and a small navy for policing the waters.

Cochin-China sends a Deputy to the Chamber of Deputies at Paris.

Annam has a King, Khai Dinh, succeeded 1916, who governs the country with the assistance of his Ministers under the guidance of the French Resident Superieur.

Cambodia also has a King, Siswath, succeeded in 1904 his brother Norodom, who had recognized the French protectorate in 1864. The land is very fertile but only a part is cultivated. Some cotton is grown. Fishing is the principal native industry. The ruins of a former civilization which had developed a strikingly distinctive art, are very extensive; those of Angkor being especially famous.

Tonkin became a French protectorate in 1884. Its chief town, Hanoi, which was made the capital of Indo-China in 1902 instead of Saigon, is a fine, large, well-built modern city. Though its wealth is in agriculture, like the other provinces, it has valuable hard coal deposits, exporting in 1922 618,000 tons. From the rich limestone quarries in 1922, 116,553 tons of cement were exported. There are also valuable zinc mines.

Laos, a protectorate since 1893, has extensive teak forests, and gold, tin and lead are being worked. The Mekong River is its great highway.

Kwangchow, leased from China in 1899, has a free port.

The provinces have been a customs union since 1887, and in 1885, when France forced China to give entirely her sovereignty over Annam, agreements were made for a reduction in tariff rates for goods entering China from Tonkin. France in 1895 obtained special privileges for railroads in southern China.

The railroad mileage in 1922 was 1,292, two-thirds of which is Government-owned. In 1922 there entered the port of Saigon 775 steamers of 1,576,287 tons. In 1922 imports were 1,066,739,000 francs; exports 1,273.901,000.

Indo-China ranks second to Burma as the greatest rice exporting country in the world.

Trade with the United States was:

Imports,	1920-21	$1,337,253
"	1921-22	542,871
"	1922-23	1,183,992
"	1923-24	1,753,851
Exports,	1920-21	311,419
"	1921-22	96,411
"	1922-23	747,668
"	1923-24	158,168

GUADELOUPE.

AREA, entire group of islands, 688 square miles.

POPULATION, census of 1921, 299,839.

CAPITAL, Basse-Terre; population, 1921, 8,318; Port Pointe-a-Pitre, 27,679.

Governor, M. Bethier.

United States Consul, Shelby F. Strother.

Guadeloupe, consisting of two large islands, Basse-Terre and Grande-Terre, separated by a narrow channel, and five smaller islands, is a group of the Windward Islands in the West Indies, between Antigua and Dominica. They have been in the possession of France since 1634 and are represented in Parliament at Paris by a Senator and two Deputies. The Government consists of a Governor and an elected Council. The soil is very productive. The chief exports are sugar, 1921, 25,024 tons; coffee, 657 tons; rum, 9,054,063 litres; cacao, 704 tons, and vanilla, 77,741 tons. The value of the imports in 1922 was 71,677,227 francs, and of exports 84,930,273 francs. The budget for 1923 balanced at 17,158,000 francs. The debt, Jan. 1, 1923, was 686,804 francs.

The trade of Guadeloupe and Martinique with the United States was:

Imports,	1920-21	$5,997,446
"	1921-22	2,644,317
"	1922-23	2,397,766
"	1923-24	2,327,894
Exports,	1920-21	126,274
"	1921-22	86,537
"	1922-23	59,610
"	1923-24	191,749

MARTINIQUE.

AREA, 385 square miles.

POPULATION, census of 1921, 244,439.

CAPITAL, Fort-de-France, population, 26,399.

Governor, M. Richard.

United States Consul, Thomas R. Wallace.

Martinique, one of the Windward Islands, in the West Indies, has been a possession of France since 1635. It is represented in the French Parliament by a Senator and two Deputies. It is administered by a Governor, a general council, and elective municipal councils. It has the famous volcano, Mt. Pelee, which in erruption in May 8, 1902, destroyed the city of St. Pierre with all its 40,000 inhabitants.

The island is the birthplace of the Empress Josephine Rum, sugar and cacao are the chief productions The value of the imports in 1922 was 66,508,950 francs, and of exports, 94,696,052 francs. In 1922 there entered the port 593 vessels of 672,946 tons. The budget for 1920 balanced at 16,198,602 francs.

ST. PIERRE AND MIQUELON.

AREA, St. Pierre, 10 square miles; Miquelon, 83.

POPULATION, census of 1921, St. Pierre, 3,419; Miquelon, 499; total, 3,918.

CAPITAL, St. Pierre.

St. Pierre and Miquelon are two groups of rocky, barren islands close to the southwestern coast of Newfoundland, inhabited by fishermen. The Government is headed by an Administrator. The exports, cod, fresh and salt, and fish products, in 1921, were valued at 19,690,736 francs, and the imports at 22,988,803 francs. The local budget for 1922 showed expenditures of 2,073,703 francs, toward which France contributed 208,748 francs.

FRENCH GUIANA.

AREA, estimated, 32,000 square miles.

POPULATION, census of 1921, 44,202, excluding Indians.

CAPITAL, Cayenne; population, 1921, 10,146.

Governor, M. Lejeune.

French Guiana is on the north coast of South America on the Atlantic Ocean, with Dutch Guiana on the west and Brazil on the east and south. The country has lost heavily in population in the last decade, the census of 1911 returning 49,009 inhabitants. It sends one Deputy to the Chamber at Paris. The colony has a Governor and a council general of sixteen elected members. France has had a penal colony there since 1885 and in 1920 it cared for 3,633 convicts. Only 8,800 acres are cultivated. Placer gold mining is the most important industry. The product in 1910 was 123,168 ounces, and in 1918, 80,177 ounces. The forests are large and rich in cabinet timber. Imports in 1921 were valued at 48,155,347 francs and exports at 23,154,604 francs. The budget for 1920 balanced at 7,102,587 francs.

Trade with the United States was:

Imports,	1920-21	$1,312,021
"	1921-22	499,836
"	1922-23	376,811
"	1923-24	250,739
Exports,	1920-21	68,627
"	1921-22	329,771
"	1922-23	199,170
"	1923-24	105,664

OCEANIA—TAHITI, ETC.

AREA, estimated, 1,520 square miles.

POPULATION, census 1921, 31,655, of which 25,569 were natives, 2,656 French, 2,686 other Europeans, and 743 Chinese.

CAPITAL, Papeete, Island of Tahiti, population, 4,601, of whom 2,126 are French.

United States Consul, at Papeete, Lewis V. Boyle.

The French possessions, widely scattered in the southern Pacific Ocean, were grouped together in 1903 as one homogeneous colony under one Governor, with headquarters at Papeete, Tahiti, one of the Society Islands. The other groups are the Marquesas, the Tuamoti Group, the Leeward Islands, the Gambier, the Tubuai, and Rapa Islands.

The chief exports are copra, mother of pearl, vanilla, cocoanuts and oranges. The budget in 1921 balanced at 5,980,000 francs.

Trade in French Oceania with the United States was:

Imports,	1920-21	$1,447,405
"	1921-22	999,978
"	1922-23	996,557
"	1923-24	1,056,304
Exports,	1920-21	1,971,936
"	1921-22	1,130,363
"	1922-23	1,404,369
"	1923-24	1,243,692

OCEANIA—NEW CALEDONIA, ETC.

AREA, 7,650 square miles.

POPULATION, census of 1911, 50,608.

CAPITAL, Noumea; population, census of 1921, 10,053.

France acquired New Caledonia in 1854. Its dependencies are: The Isle of Pines, the Wallis Archipelago, the Loyalty Islands, the Huon Islands, Fortuna and Alofi. A Governor administers the colony, assisted by an elective Council-General. France has maintained a penal colony on Nou Island, but no convicts have been sent there since 1896.

Mining is becoming the chief industry, the output of nickel from the blast furnaces in 1921 was 4,486 metric tons, and the export of chrome ore, 29,458 tons, and of manganese, 3,574 tons. Exports in 1921 were valued at 26,676 379 francs; imports at 48,565,525. In 1921, 89 vessels of 97,386 tons entered the ports. The local budget for 1921 balanced at 11,288,940 francs.

The New Hebrides since 1906 have been jointly administered by High Commissioners of Great Britain and France. Their area is about 5,500 square miles and population about 60 000.

GEORGIA.

(See under Russia.)

GERMANY, REPUBLIC OF

AREA, 185,389 square miles.

POPULATION, census of Oct. 8, 1919, 59,858,284.

CAPITAL, Berlin; population, with suburbs, census of 1919, 3,803,770; other cities of over 100,000 population, Hamburg, 985,779; Cologne, 633,904; Munich, 630,711; Leipzig, 604,380; Dresden, 529,326; Breslau, 528,260; Essen, 439,257; Frankfort-on-the-Main, 433,002; Dusseldorf, 407,338; Nurnberg, 352,675; Hanover, 310,431; Stuttgart, 309,197; Chemnitz, 303,775; Dortmund, 295,026; Magdeburg, 285,856; Koenigsberg, 260,895; Bremen, 257,923; Duisburg, 244,302; Stettin, 232,726; Mannheim, 229,576; Kiel, 205,330; Halle-on-Saale, 182,326; Altona, 168,729; Gelsekirchen, 168,557; Cassel, 162,391; Elberfeld, 157,218; Barmen, 156,326; Augsburg, 154,555; Aachen, 145,748; Bochum, 142,760; Brunswick, 139,539; Karlsruhe, 135,952; Erfurt, 129,646; Mulheim-on-Ruhr, 127,027; Crefeld, 124,325; Lubeck, 113,071; Hamborn, 110,102; Mainz, 107,930; Plauen, 104,918; Muenster, 100,452; and forty-two cities with population of between 50,000 and 100,000. Among the latter is Coblenz, population 56,676, which was occupied by American troops after the armistice.

President, Friedrich Ebert, born Feb. 4, 1871, elected Feb. 11, 1919, term extended to five years, to June 30, 1925.

Chancellor, Dr. Wilhelm Marx (Dec. 1, 1923).

Minister of Foreign Affairs, Dr Gustav Stresemann.

Minister of the Interior, Herr Jarres.

Ambassador to the United States, Dr. Otto Wiedfeldt.

Consuls General, at New York, Karl Lang; at Chicago, Rudolph Steinbach; at San Francisco, Kurt Ziegler. *Consuls*, at Mobile, Robert Du Mont; at Pensacola, Gerhard Rolfs; at Savannah, Julius Carl Schwarz; at New Orleans, Hans Von Ungelber; at Baltimore, Heinrich Ruhstrat; at Cincinnati, Leopold Kleybolte; at Charleston, Ernest Steinke; at Galveston, J. W. Jockusch; at San Antonio, Carl Luetcke.

United States Ambassador, Alanson B. Houghton.

United States Consuls General, at Berlin, William Coffin; at Frankfort-on-the-Main, Frederic T. F. Dumont; at Munich, Tracy Lay. *Consuls*, at Bremen, Leslie E. Reed; at Breslau, John R. Minter; at Coblenz, Francis J. Dyer; at Cologne, Emil Sauer; at Dresden, Louis G. Dreyfus Jr.; at Hamburg, Theodore Jaeckel; at Koenigsberg, Harold D. Clum; at Leipzig, Hernando de Soto; at Stettin, Cornelius Ferris; at Stuttgart, John E. Kehl.

The German Empire, on July 1, 1914, consisted of the Kingdoms of Prussia, Bavaria, Saxony and Wurttemberg; the Grand Duchies of Baden, Hesse, Mecklenburg-Schwerin, Mecklenburg-Strelitz, Saxony and Oldenburg; the Duchies of Brunswick, Saxe-Meiningen, Saxe-Altenburg, Saxe-Coburg-Gotha and Anhalt; the Principalities of Schwarzburg-Sondershausen, Schwarzburg-Rudolstadt, Waldeck, Reuss (Elder line), Reuss (Younger line), Schaumburg-Lippe and Lippe, the Free Cities of Hamburg, Bremen and Lubeck and the Reichsland of Alsace-Lorraine. Its total area was 208,780 square miles and its population, estimated on that date, was 67,812,000. The war cost Germany 27,275 square miles and 6,471,581 population.

The Reich is now composed of these federated republics, the Provinces of Prussia and Bavaria being enumerated under those States:

States of the Reich.	Area, Sq. M	Populat'n, 1919
Prussia (Free State)	*113,149*	*36,094,944*
East Prussia	14,873	2,229,290
Greater Berlin	387	3,803,770
Brandenburg	15,072	2,445,627
Pomerania	11,661	1,787,904
Border Province (Grenzmark, Posen-West Prussia)	2,982	326,881
Lower Silesia	10,269	2,987,904
Upper Silesia	3,759	1,303,696
Saxony	9,757	3,129,198
Schleswig-Holstein	5,802	1,462,187
Hanover	14,871	3,017,366
Westphalia	7,809	4,488,115
Hesse-Nassau	6,063	2,273,502
Rhineland (excl. Saar)	9,453	6,769,469
Hohenzollern	441	70,751

States of the Reich.	Area, Sq. M.	Population, 1919.
Bavaria (Free State)	*22,506*	*7,140,340*
Upper Bavaria	6,626	1,582,669
Lower Bavaria	4,298	739,967
Palatinate (Rheinpfalz)	2,372	957,321
Upper Palatinate (Oberpfalz)	3,862	611,723
Upper Franconia	2,798	656,489
Middle Franconia	3,036	948,175
Lower Franconia	3,360	733,971
Suabia	3,934	835,709
Coburg	216	74,314
Saxony (Free State)	5,789	4,663,298
Wurttemberg (People's State)	7,532	2,518,773
Baden (Republic)	5,819	2,208,503
Thuringia (Einheit Staat)	4,542	1,508,025
Hesse (People s State)	2,968	1,290,988
Hamburg (Free & Hanse State)	168	1,050,359
Mecklenburg-Schwerin (Free State)	5,068	657,330
Oldenburg (Free State)	2,482	517,765
Brunswick (Free State)	1,418	480,599
Anhalt (Free State)	888	331,258
Bremen (Free Hanse State)	99	311,266
Lippe (Free State)	469	154,318
Lubeck (Free & Hanse State)	115	120,568
Mecklenburg-Strelitz (Free State)	1,131	106,394
Waldeck (Free State)	401	55,999
Schaumburg-Lippe (Free State)	130	46,357
Total—German Reich	182,271	59,858,284
German territory occupied by the Allies:		
Saar Basin	742	652,818
Occupied territory (about)	12,338	7,000,000
The Ruhr	965	4,000,000

It lost Alsace-Lorraine, returned to France, 5,604 square miles, and 1,874,014 population; Eupen and Malmedy, ceded to Belgium, 386 square miles, and 60,924 population; part of Eastern and Upper Silesia, ceded to Poland, 17 787 square miles, and 3,853,354 population; Memel, ceded to the Allies, 1,057 square miles, and 140,746 population; Danzig, made a free city, 794 square miles, and 330,252 population; Schleswig northern zone, ceded to Denmark by the plebiscite, 1,537 square miles, and 166,895 population; part of Upper Silesia, ceded to Czechoslovakia, 110 square miles, and 45,395 population.

In addition, the Saar Valley, area 751 square miles, population, 657,870, is to be under the League of Nations and exploited by France for 15 years, then submitted to plebiscite.

The plebiscite in Upper Silesia, March, 1921, resulted in a majority for retention in the Reich, but, notwithstanding, that territory of 1,255 square miles with a population of 891,669 was annexed to Poland.

The Ruhr, seized and held by France and Belgium under the "sanctions" of the Treaty of Versailles on Jan. 11, 1923, and extended subsequently, is a territory of approximately 965 square miles with 4,000,000 inhabitants. (See Index for articles on Reparations and the Ruhr Occupation.)

Germany (Deutsches Reich), now a federation of republics in Central Europe, is bounded on the north by the North Sea, Denmark and the Baltic Sea, on the east by Poland, Czechoslovakia and Austria, on the south by Czechoslovakia, Austria and Switzerland, and on the west by France, Luxemburg, Belgium, Holland and the North Sea.

Excepting in the Black Forest, Germany is mostly flat, with slopes toward the north and west.

In climate it is characteristically mild in summer and rather cold in winter, as in all western Europe. Its soil is not naturally fertile, being largely a glacial plain over which the action of the ice moved much sand; it has always demanded unusual artificial fertilization. The land naturally was heavily wooded, there being in the country about 112,000,000 acres, of which 31,769,686 acres were forested in 1922. Forestry is far advanced, perhaps more perfected as a science than in any other country. The Black Forest of Germany is famed for its timber and as a resort.

The national wealth of Germany on July 1, 1924, is estimated by the Bankers' Trust Company as approximately $55,000,000,000; the accepted pre-war estimate of Dr. Karl Helfferich was $73,000,000,000.

A correspondent of the London Economist figures that Germany lost 2,000,000 men in the World War, of which 25% were between the ages of 19 and 22, and 60% between the ages of 19 and 29; that 800,000 civilians died for lack of food; and that there was a decrease in births amounting to 3,500,000. The birth rate per thousand was 28.3 in 1913; 14.4 in 1917; and 25.4 in 1922. Germany carries 1,537,000 disabled soldiers on her pension rolls.

Germany has freedom of religious worship, and there is no state church. Protestants in 1910 numbered 39,991,421, mostly Lutherans; Catholics, 23,821,453; other Christians, 283,946; Jews, 615,021; others, unclassed, 214,152.

The 1922 school census returned 52,779 public elementary schools, with 147,052 male and 49,118 female teachers, and 8,898,320 pupils. There were also 675 private schools with 35,584 pupils. There were 1,342 secondary schools for boys with 25,128 teachers and 453,229 pupils, and 823 high schools for girls with 14,831 teachers and 299,190 pupils. There were 10 technical high schools with 1,783 teachers and 26,652 pupils.

Before the war Germany had a virtual monopoly of potash for the world. The return to France of Alsace-Lorraine divided the potash territory. Production in 1921 was 921,146 metric tons and in 1922, 1,300,000 tons.

Industrial development in Germany is not only far advanced but also extremely diversified. The necessity of buying about half of the food consumed compelled large development of industry and mining, with effort to sell products in all foreign markets. Germany's pre-war foreign trade assumed large proportions and was growing rapidly.

FOUNDING OF THE REPUBLIC

Two days before the armistice, that is, on Nov. 9, 1918, the abdication of the German Emperor, William II., was announced. He had fled to Holland, where he has since been living under Dutch surveillance at Doorn. The self-constituted Council of People's Commissioners took over the Government and declared the existing Imperial Parliament dissolved and proclaimed the republic. The reigning Princes of the Federal states were either deposed or abdicated. A call was issued for the election of a National Assembly. Elections, at which all Germans, men and women over 20 years of age, voted, were held in January, 1919. The composition of the National Assembly thus chosen was: Majority Socialists, 165; Centre (Catholic) Party, 90; Democrats, 75; Conservatives, 42; Independent Socialists, 22; German People's Party, 22; scattering, 7; total 423. It met at Weimar, Feb. 6, 1919, and elected Friedrich Ebert President of the republic on February 11. His term has been extended to June 30, 1925.

The National Assembly adopted a Constitution July 31, 1919. Foreign relations, defense, customs, taxation, and railway service are declared Federal matters; each component state must have a republican Constitution; universal suffrage, secret ballot, and proportional representation are provided for. Freedom of speech, of the press and of assembly is guaranteed. The Cabinet, appointed by the President, must have the confidence of the Reichstag. The Reichsrat consists of 66 members (Prussia 26, Bavaria 7, Saxony 7, Wurttemberg 4, Baden 3, and other states 16)

In 1920 the German states surrendered to the Berlin Central Government the right to control direct taxes, hitherto held jealously by the several states. Increases of the direct tax rates followed, income taxes rising 50 per cent.

The financial, economic and industrial catastrophe that Germany faced with the occupation of the Ruhr, in January, 1923, reached its ultimate crisis in August-September, with the utter collapse of the mark, widespread unemployment and despair, producing a state bordering on social revolution.

In order to have a basis for calculation, the so-called gold mark was invented (4.20 gold marks = $1) and its relation to the paper mark was fixed daily according to the New York quotation. The paper mark reached an incredible depth and the output of paper currency reached its peak in December at this figure—496,507,424,771,973,774,000 paper marks.

In this extremity an intermediary solution was adopted by the establishment, on Oct. 20, 1923, of the Rentenbank, which began to function on Nov. 15, and simultaneously the printing of notes was stopped. The rentenmark was treated as equal one gold mark, or 1,000,000,000,000 paper marks. This provided a feeling of stability and relief. The total issue of rentenmarks was strictly limited to 3,200,000,000, of which the bank placed 1,200,000,000 at the disposal of the Reich at 6% and as much more was used for providing industrial and commercial credits at 10%.

Chancellor Wilhelm Marx (of the Centrist Party) took office in succession to Dr. Gustave Stresemann, on Nov. 23, 1923, as the head of a three party coalition Government, and the latter took the Foreign Affairs portfolio. The Reichstag, by a vote of 313 to 18, on Dec. 8, 1923, granted his cabinet authorization to run the Government's affairs without Parliamentary sanction for an indefinite period.

The Marx Government ceased all reparation payments, effected economies by reducing the number of officials and cutting salaries, reformed taxation paid on a gold basis, and repudiated interest on and amortization of its loans until reparation obligations have been settled. Railways, ports and telegraphs were made independent of the Reich's finances. A gold bank with a capital of 500,000,000 gold marks was created to finance foreign trade. The Govern-

ment then produced a gold mark budget that showed a small surplus.

The budget for 1923-24 of June 4, 1923, had shown receipts of 17,196,645 million paper marks, expenditures, 38,378,774 million paper marks; deficit, 18,182,128 million paper marks. To keep pace with the falling mark four supplements had been accepted, the last of which (Oct. 13) showed a deficit of 54,416,000,000 millions of paper marks.

The provisional gold mark budget which was submitted to the interallied experts who assembled in Berlin in February, 1924, showed revenues of 5,274 millions of gold marks; general expenditures of the Reich, 5,274 millions, special expenditures for execution of the Treaty of Versailles, 640 millions; deficit, 438 millions.

The tentative budget for the fiscal year, April 1, 1924, to March 31, 1925, estimated revenues at 5,274 million gold marks and expenditures at 5,710 million gold marks. Included in the ordinary revenue are 1,440 million gold marks from the sales tax and 1,344 millions from income tax.

The total Government debt on May 31, 1924, including the floating debt, was 1,747 million gold marks, of which 354.9 millions was a gold mark debt, 1,357.4 millions a debt in rentenmarks, and 34.7 millions a paper mark obligation. The total debt had decreased 22 per cent. due to the repurchase during the fiscal year of 223.6 millions of Government securities.

On June 30, 1924, the Reichsbank note circulation was 1,097.3 million gold marks; and the circulation of the Rentenbank, exclusive of the Reichsbank holdings, was 1,771.6 millions.

On Aug. 30, at the end of the first half of the fiscal year, revenues had reached 2,807 million gold marks and expenditures 2,700.6 million gold marks; 229.8 millions of Government securities had been repurchased and 103.4 millions paid on reparation account.

The Marx Government accepted the Dawes report on April 11, 1924, as a "practical basis for the rapid solution of the reparation problem," and declared "its willingness to collaborate in the execution of the experts' plans." The general election of the new Reichstag of May 4 was practically a referendum on the Dawes report. The result compared with the general election of 1920 was as follows:

PARTIES.	1920.		1924.	
	Pop. Vote.	Members.	Pop. Vote.	Members.
Communists	441,995	2	3,746,671	62
Soc. (Majority)	5,614,452	112	6,014,380	100
Soc. (Ind.)	4,894,317	81		
Democrats	2,220,334	45	1,657,957	28
Centrists (Catholic)	3,540,830	68	3,920,798	65
Bavarian Peoples (Cath.)	1,171,722	21	946,649	16
Germ'n Peoples	3,606,316	62	2,640,484	45
Bavarian Peasants	218,884	4	684,395	10
Guelphists	319,100	5	319,779	5
German Nationalists	3,736,778	66	5,778,313	95
Agric. League			574,280	10
Natl. Freedom (Fascist)			1,924,553	32
Germ. Socialist (Fascist)			337,924	4
Others	65,219	0	842,405	0
Total	25,829,947	466	29,388,588	472

The Nationalists forced the Cabinet out on May 26, but Chancellor Marx was able on June 3 to form a new Cabinet including even Foreign Minister Stresemann and Minister of the Interior Jarres. Inability to effect a compromise on the question of admitting Nationalists on the right and Democrats on the left to the Cabinet made it impossible to carry on, so the Reichstag was dissolved on Oct. 20 and a new election called for Dec. 7.

(See Index and Chronology for results.)

According to the Treaty of Versailles, the strength of the German Army after March 1, 1920, was reduced to seven divisions of infantry and six divisions of cavalry, total strength, 100,000. Germany received permission from the Allies in January, 1921, to organize a "secutiry police" (called Schupo) of 150,000 men. Conscription was forbidden and the men enlist for a period of 12 years.

At the end of 1922 the navy consisted of one battleship, the Hanover, three light cruisers, the Medusa, Arcona and Thetis; three big and two small torpedo boats and a tender. In 1921 it was increased by a battleship, the Elsass, two cruisers, the Amazone and Berlin, and six torpedo boats, which had been remodeled. The personnel is 15,000 men.

IRON, STEEL AND COAL.

Previous to the disorganization of the German iron and steel industry by the occupation of the Ruhr the manufacturers had profited from the inflation boom, which gave them extremely low production costs. In 1923 they were cut off from unoccupied Germany as well as from their foreign markets. Iron ore exports amounted to 254,850 metric tons, an increase of 47% over 1922; and imports to 2,377,048 tons, which was but 22% of the 1922 volume. Foreign sales fell off 37 per cent. Trade returns on iron and steel products were: Exports, 1922, 2,204,605 metric tons; 1923, 1,380,061; imports, 1922, 2,488,061 metric tons; 1923, 1,926,494.

Before the war the output of iron ore from Lorraine and Luxemburg was 28,000,000 tons a year. This was consumed by the furnaces of those districts and the Saar, but 4,000,000 tons only going into the present Germany. Prussia, with 255 mines working in 1922, produced between 8 and 9 million tons of pig iron.

The loss caused by the war to the coal mining industry of Germany is shown by this table:

SOURCES OF COAL SUPPLY.	1913. *Metric tons.*	1922. *Metric tons.*
The Ruhr	114,536,000	97,350,000
Upper Silesia	43,801,000	21,701,000
Lower Silesia	5,527,000	5,490,000
Saxony & L'w'r Saxony	5,968,000	5,791,000
Aix-la-Chapelle	3,264,000	In occup'd terit.
Saar Basin	13,217,000	Forfeited foryrs.
Lorraine	3,796,000	Lost to France
Total	190,109,000	130,332,000

Germany lost 75.4 per cent. of the Upper Silesia output to Poland in May, 1922. The Saar Basin is forfeited to France for fifteen years more; the Lorraine fields are absolutely lost to France, Aix-la-Chapelle is in the territory occupied by Belgium, and Germany can get its coal only at the discretion of the Allied Powers. With the Ruhr cut off, her yearly output in the 1922 basis would be approximately 18,576,500 metric tons against an estimated consumption of 163,621,184 tons in 1922.

Germany was forced to import 12,500,000 tons of coal in 1922 and 25,000,000 in 1923. Figures are unavailable for the output of coal in the Ruhr for 1923, and without the Ruhr her output was approximately 18,500,000 tons. The output of lignite was 125,000,000 tons.

UNEMPLOYMENT.

Unemployment was very low in 1922. No strikes of importance took place except a railway strike at the beginning of the year and a metal workers' strike in South Germany, both against an increase of hours. The number of unemployed receiving relief April 1, 1920, was 329,505 (male, 258,651; female, 70,854); on April 1, 1921, the high mark, 413,321 (male, 333,630; female, 79,691); on April 1, 1922, 115,845 (male, 94,711; female, 21,134); on Oct. 1, 1922, the low mark, 16,671 (male, 9,946; female, 5,725); and on Jan. 1, 1923, 85,427 (male, 70,920; female, 15,507). The report of the twelve largest trades unions, with a total membership of 6,407,454, was that in November, 1922, there were 129,271 unemployed; about 7.5 per cent. were working on short time.

When the Ruhr was cut off unemployment increased greatly. The number of unemployed in unoccupied Germany in receipt of doles, April 1, was: 222,420. By Oct. 1, with the collapse of the mark, the number had risen to 534,360, with 1,158,061 short time workers receiving doles. On Nov. 1, the numbers were 954,664 and 1,719,738 respectively, and the highest figures were reached December 1, with a total of unemployed and short time workers of 3,264,285, and the number of dependents of unemployed in receipt of doles was 1,449,738. At the same time there were estimated to be not less than 2,500,000 unemployed and short time workers in the occupied territories, making a total for Germany of 5,700,000, with about 2,400,000 dependents for the whole of Germany, so that the number receiving doles was 8,100,000. A return made by the trade unions on Dec. 29 covering 4,624,928 organized workers showed that 28.2 per cent. were unemployed. The number of unemployed and their dependents remained constant through the winter, but by Feb. 15 the number of short time workers receiving doles had dropped to 257,840.

With improved conditions the number unemployed receiving doles was 475,000 on April 15, remaining fairly constant during the summer.

The American Committee for the Relief of German Children, of which Gen. Henry T. Allen, U. S. A., was National Chairman, carried on its work among two million undernourished and hungry children for over a year until June, 1924, when the new harvest began to come in, and improved conditions made

themselves felt. The Quakers, who had complete charge of the feeding, reported that they had fed as many as 1,040,000 children in one day. The money given by Americans for this charitable work was about $5,000,000.

The eight-hour day established by the so-called demobilizadecres of Nov. 22 and Dec. 1, 1918, and March 18, 1919, lapsed on Nov. 17, 1923, and were replaced by a decree of Dec. 21, in force Jan. 1, 1924, which re-established the eight-hour, but with many exceptions. Many industrial battles had been fought, but all were short and ended in the defeat of labor. Government employees were put on a nine-hour day.

Wages have risen corresponding to the fall of the mark, but have not been able to keep pace with it. The index figure for the Reich on the cost of living, including clothing (1913-14 = 100), was on Jan. 1, 1922, 1,991, and on Jan. 1, 1923, 112,027; June 1, 1923, 765,000, and Dec. 1, 1923, 124,700,000,000,000. With the coming of the rentenmark this figure became on Dec. 10, 126.9, and Jan. 7, 1924, 113; and on Jan. 21, 108. Official control had kept within bounds rents, but from the first of December rents steadily rose, though food, clothing and other factors as steadily fell. Wages then stood at about 66 to 80 per cent. of nominal pre-war wages but with only about 40 per cent. of their pre-war purchasing value. Skilled labor has suffered more than unskilled.

Meat consumption annually per capita of the population has fallen to 70 pounds from 139 in 1913. There was a deficiency in the supply of all foodstuffs.

The trades unions have made great strides since the war. The twelve largest, with their average membership in 1922, were: Metal workers, 1,606,166; factory workers, 724,869; textile workers, 715,645; farm workers, 626,160; transport workers, 566,447; builders, 542,035; railway men, 434,482; wood workers, 419,944; miners, 417,218; workmen employed by public authorities, 280,495; clothing trade, 141,091; tobacco workers, 130,863.

AGRICULTURE.

The areas under cultivation are still considerably less than in 1913. Production per acre decreased, due, it is believed, to a lessened use of fertilizers owing to the high prices. The census for farm stock in 1922 showed an increase over 1920: Horses, 3,650,804; cattle, 16,316,725 (2,159,079 below the 1913 figures); sheep, 5,566,242; goats, 4,140,679; swine, 14,679,030 (7,855,377 below the 1913 figures).

Acreage under cultivation for three years:

Crop.	1922.	1923.	1924.
Wheat	3,435,000	3,653,000	3,622,000
Rye	10,356,000	10,790,000	10,526,000
Barley	2,880,000	3,216,000	3,576,000
Oats	8,010,000	8,265,000	8,713,000
Potatoes	6,804,000	6,738,000	6,825,000
Sugar Beets	1,040,000	948,000	974,000

The official returns for 1922 give the arable land as 55,169,073 acres; grass, meadow and pasture, 19,119,297; orchards, 122,212; vineyards, 225,468; woods and forests, 31,769,686; all other, 11,335,639. The total number of farms or agricultural inclosures of all kinds was 5,068,597, with a total area of 67,513,917 acres, being an average of about 13.3 acres each; 3,000,000 of these were plots of not exceeding 5 acres. These farms gave employment to 13,191,480 persons.

The harvest results in metric tons for the last two years compared with the last pre-war year for the present territory were:

Crop.	1923.	1922.	1913.
	Metric Tons.	*Metric Tons.*	*Metric Tons.*
Wheat	2,896,814	1,957,700	4,044,000
Rye	6,681,622	5,234,000	10,132,800
Barley	2,361,147	1,607,600	3,040,300
Oats	6,106,776	4,015,500	8,620,000
Potatoes	32,580,553	40,665,400	44,023,400
Sugar Beets	.....	10,791,600	.....
Turnips	.....	24,754,700	.....
Clover	.....	7,026,700	9,633,400
Hay	.....	19,240,700	25,851,800

The urgent need for raising Germany's total agricultural yield, thereby decreasing its import requirements, has given prominence to a movement for reclaiming waste lands, estimated to amount to 7,500,000 acres of cultivable land.

Germany's agricultural co-operative societies had, on July 1, 1923, a total strength of 37,430, with a membership of 4,652,125 farmers. Although agricultural co-operation in Germany has had no phenomenal growth, it has increased since 1895 at a healthy and fairly constant rate. German agricultural co-operatives are united in thirteen major associations, the most important of which is the Federal Association of German Agricultural Co-operatives, with a membership of thirty-three state and provincial associations composed of 19,863 co-operatives with a turnover in 1921 of 181,000,000,000 marks.

The German mercantile marine, which in 1914 had a gross tonnage of 5,238,937, has been making a steady recovery since the war. On Jan. 1, 1924, it consisted of 1,306 ships of over 100 tons with a total of 2,614,271 gross tons; of these 1,129 were steamers. In size there were 4 over 20,000 tons each, 1 of 16,375, 9 between 10,000 and 16,000, 33 between 7,500 and 10,000, and 86 between 5,000 and 7,500. The Hamburg-American line, which had in 1914 a fleet of 194 ships of 1,307,400 gross tons, on Jan. 1, 1924 had 60 of 335,779 tons; and the North German Lloyd which then had a fleet of 135 of 907,996 gross tons then had 37 of 274,139 tons.

Vessels entering German ports in 1921 numbered 50,917, of 16,966,599 tonnage with freight; and 7,097 of 2,202,415 tonnage in ballast.

The railway mileage of Germany totalled in 1922, 34,583, of which 32,311 miles are government owned.

FOREIGN TRADE.

The balance of trade, which had been in favor of Germany by 1,044,700 metric tons (but in value an export excess of 1,000,000,000 gold marks), in the last pre-war year, was 24,318,900 metric tons (estimated at 2,230,400,000 gold marks) against her in 1922. The shrinkage in exports was 70.7 per cent. and in imports 37 per cent.

The United States was Germany's best customer in 1922: Textiles, $22,184,339; chemicals, including potash, $20,305,855; paper pulp and wood, $6,921,297; furs and skins, $3,535,871, and toys, $3,011,453, being the chief exports. Imports from the United States were: Wheat, 722,479 metric tons (51.9 per cent. of the total); rye, 484 (89.8 per cent.); oats, 64,275 (70.9 per cent.); barley, 44,677 (16.7 per cent.); maize, 890,796 (82.0 per cent.); raw cotton, 95,711 (79.3 per cent.); wheat flour, 9,474 (41.7 per cent.); lubricating oils, 244,971 (84.5 per cent.); unrefined benzine, 37,437 (47.3 per cent.); illuminating oils, 149,077 (77.3 per cent.); raw copper, 107,762 (84.2 per cent.); and lead, 11,525 (13.4 per cent.).

The Berliner Tageblatt gives these figures for the German foreign trade in 1923, calculated on a basis of gold marks.

	Imports.	Exports.
Live animals	32,542,000	3,122,000
Food and drink	1,203,725,000	131,367,000
Raw materials	3,106,878,000	367,499,000
Semi-manufactures	806,016,000	362,670,000
Finished goods	920,391,000	5,199,731,000
Gold and silver	11,839,000	14,765,000
Total	6,081,391,000	6,079,154,000

The value of the imports for 1922 on a like basis was 6,200,400,000 gold marks, as compared with 11,200,000,000 in 1913, and of exports, 3,970,000,000 as compared with 10,200,000,000 in 1913.

By metric tons the imports and exports were: Imports, 1922, 45,866,351; 1923, 46,572,515; Exports, 1922, 21,562,496; 1923, 12,726,618.

Trade with the United States was:

Imports,	1920-21	$381,869,349
"	1921-22	350,495,269
"	1922-23	293,152,434
"	1923-24	378,350,363
Exports,	1920-21	90,773,014
"	1921-22	95,592,004
"	1922-23	142,885,767
"	1923-24	146,816,067

GREECE, REPUBLIC OF
THE HELLENIC STATE.

AREA, 41,933 square miles—Old Greece (1912), 25,014 square miles; territory added by the Balkan wars—Macedonia, Epirus, and the Aegean Islands—16,919 square miles.

POPULATION, census of 1920, 5,447,077; divided, Old Greece, 2,800,164; new territories—Macedonia, 1,144,310; Epirus, 213,276; Crete and six other Aegean Islands, 619,630—total, 2,646,913.

CAPITAL, Athens; population, 1920, 300,701; other cities, Salonica, 170,195; Piraeus, 133,482; Patras, 52,133; and twenty-six of more than 10,000 population.

Governor of the State (temporary), Admiral Kondouriotis (formerly regent).

Premier, M. Sophoulis (Marine), July 24, 1924.

Minister to the United States, vacant. Constantin D. Xanthopoulos, Charge d'Affaires.

Consuls General in the United States, at New York, Constantine Xanthopoulos; at San Francisco, Constantine Panagopoulos; at Chicago, George Depasta. *Consuls*, at New Orleans, St. Louis, Boston, Pittsburgh, Salt Lake, Seattle, Philadelphia and Norfolk.

United States Minister, Irwin Boyle Laughlin.

United States Consul General, at Athens, Will L. Lowrie. *Consuls*, at Patras, Alfred W. Donegan; at Salonica, Leland B. Morris.

Greece occupies the southern peninsula of the Balkans, stretching down into the Mediterranean Sea, with the Ionian Sea on the west and the Aegean Sea on the east. On the northwest lies Albania, on the north Jugo-Slavia and Bulgaria, and on the northeast Turkey. It is about the size of the State of Ohio. The Indus Mountains, with many spurs, a continuation of the Balkans, runs through the country from north to south. Gulfs and bays are many, the Gulf of Corinth, connected by an eighteen-mile canal with the Gulf of Aegina, practically cuts off the Peloponnesus from Attica and the northern part of the country.

In 1922 Greece consisted of continental Greece and Peloponnesus, the island of Euboea, the Cyclades in the Aegean Sea (about 220 in number), the Sporades in the Aegean, and the islands in the Ionian Sea (Corfu, Zante, and others). The area was 25,014 square miles and the population of this territory in 1920 was 2,800,164. The Balkan wars (with Turkey, Oct. 17, 1912 to May 30, 1913, and with Bulgaria, June 30, to Aug. 10, 1913), added 16,919 square miles to her territory and 2,646,913 people, making the total area of Greece 41,933 square miles and the total population 5,447,077. This new territory consisted of Macedonia (pop., 1920, 1,144,310); Epirus (213,276); the Aegean Islands—Crete (345,149); Mytilene (146,852); Samos (65,756); and Chios (61,873).

As a result of the great war under the ill-fated and never ratified Treaty of Sevres, 1920, Greece obtained Western and Eastern Thrace, which stretched along the northwestern shore of the Dardanelles and the Sea of Marmora as far as the Bosporus, Turkey being expelled from all except Constantinople and a triangular district, thirty by forty miles, about it. The Straits were placed under Allied control, the European shore to be under Greek sovereignty, but a neutral zone being established nine miles inland.

Part of the west coast of Asia Minor, of which Smyrna was the chief city and port, was also given by the treaty to Greece for administration, though under Turkish sovereignty. Greece also received the whole coastline of the Aegean Sea and the land back to the crest of the Rhodopian Mountains on the Bulgarian frontier.

As a result of the defeat of the Greek Army by Mustapha Kemal in September, 1922, Greece was driven out of Asia Minor and Thrace. This was confirmed by the Treaty of Lausanne which gave back to Turkey Eastern Thrace and Adrianople as far as the Maritza River from Adrianople to Enos on the Aegean. The Greek inhabitants were driven out of Turkey and for five months in 1922-23 the American Red Cross alone cared for 868,000 refugees, and the Near East Relief for thousands of others.

The Dodecanese Islands, off the Asia Minor coast, (population, 100,187 in 1917), had been seized by Italy during her war with Turkey over Tripoli in 1912, though then claimed by Greece, whose claim was recognized by the powers. Italy has spent much money in developing the port of Rhodes.

Imbros and Tenedos, which commanded the entrance to the Dardanelles, had been occupied by Great Britain during the Gallipoli campaign and had been ceded to Greece, but these were turned over to Turkey on Sept. 21, 1923, under the provisions of the Treaty of Lausanne.

Greece, by treaty, 1923, formally ceded for fifty years to Jugo-Serbia a free zone in the magnificent harbor of Salonica thus giving the Serbs an outlet to the Aegean, and free transit for her commerce.

Bulgaria was by agreement in June, 1924, allowed a commercial outlet to the Aegean in the port of Kavala, joined to her frontier by a narrow corridor under the supervision of the League of Nations.

Following the Smyrna debacle a military revolution headed by Col. Plastiras forced out the Tritantafyliakos Ministry and compelled the abdication of King Constantine on Sept. 27, 1922. The new Ministry, headed by M. Krokidas, arrested the former Premiers, Gounaris, Stratos and Protopapakakis, and the Ministers Baltazzis and Theotokis and Gen. Hadjenestis and tried them for high treason. In December, 1922, the six were given the death sentence. The execution caused a world-wide sensation. One of the six died of heart disease on the journey to the place of execution two miles out of Athens. Gounaris was taken from a hospital on a stretcher and was given injections of strychnine to brace him for the ordeal. The four living, whose pluck was remarkable, the one half alive and the dead man propped up with them, were lined up against a wall and shot. Their bodies were thrown in a heap and hours afterward their relatives were notified to take them unless they wished them to be thrown in a pauper's grave. Prince Andrew, brother of King Constantine, was tried later for treason, degraded from his rank, stripped of his honors and sent into exile. King Constantine died in exile of heart disease in Palermo, Sicily, on Jan. 11, 1923.

The work of marking the frontier between Albania and Greece by a commission, in progress for months, was nearly finished on Aug. 27, 1923, when the five Italian members of the commission, appointed by the Council of Ambassadors, were assassinated while motoring along a lonely road on the frontier.

Italy immediately demanded a formal apology from the Greek Government, an indemnity of 50,000,000 lire, and full honors by the Greek fleet to the Italian fleet in Piraeus. Greece, on August 30, declined to accede to all the terms of the ultimatum, asserting that it had not been proved that the crime had been committed by Greek citizens, and asked that the matter be referred to the League of Nations. The Italian fleet bombarded the island of Corfu on August 31, killing or wounding 65 Greek civilians, and occupied the city. On the next day Italy seized several other Greek islands and the Council of the League of Nations, on the request of the Greek Government, decided to take up the dispute. The Italian Government announced that the controversy concerned the honor of Italy alone and, therefore, could not be settled by the League.

The League referred the matter to the Council of Ambassadors, and on September 7 it was announced from Paris that the Council had presented terms satisfactory to both the Italian and Greek Governments. The settlement provided for a Committee of Inquiry into the assassination of the Italian Commission; a Japanese to head the committee, which includes representatives of Great Britain, France and Italy. The Council recommended also:

Full memorial services in honor of the murdered commission in the presence of the Greek Government.

A deposit of 50,000,000 lire by Greece in a Swiss bank as a guaranty, with the amount of indemnity left to the International Court of Justice.

A salute to the Italian fleet by the Greek fleet.

These conditions were all fulfilled in due course and Italy evacuated Corfu on September 27. The deposit was declared forfeited and paid to Italy September 29.

The National Assembly, elected Dec. 16, 1923, was strongly anti-royalist and on Dec. 17 the provisional government which had compelled King Constantine to abdicate compelled his son and successor King George II. with his wife Queen Elizabeth, daughter of King Ferdinand and Queen Marie of Roumania, to quit the country while the National Assembly considered the abolition of the monarchy. Admiral Koundouriotis assumed the regency M. Venizelos, recalled, was made Premier, but a severe heart attack forced him to give up the reins. Shortlived ministries followed. The National Assembly, on March 25, 1924, voted the overthrow of the monarchy and the establishment of a republic, which was indorsed on April 13, by a big majority in a plebiscite—758,742 for to 325,322 against. The republic was proclaimed May 1, the Regent becoming Temporary Governor of State until a Senate could be formed and a President chosen.

The authentic history of Greece begins in 776 B. C. and it obtained its greatest glory and power in the fifth century B. C. It became a province of the Roman Empire in 46 B. C., of the Byzantine Empire 395 A. D., and was conquered by the Turks in 1456. Greece won its war of independence in 1821-29 and became a kingdom under the guarantee of Great Britain, France and Russia.

Greece proper is chiefly agricultural, with little manufacturing. Only one-fifth of the total area is arable; 12,350,000 of the total of 16,074,000 acres are covered by mountains and lakes and rivers. The forests have been seriously destroyed, but efforts are making to reforest. About 1,300,000 short tons of crops were taken in 1920 from 3,000,000 acres, of which wheat was the chief crop, at 504,478 tons from 1,089,087 acres. Currants are largely cultivated, 130,092 tons were produced in 1919 and 125,194 tons in 1920. Also barley, oats, corn, tobacco, cotton and wine are produced. Olives

abound on about 717,000 acres, and nuts, figs, rice and fruits are produced. Dairy products are of value. Mineral wealth, naturally great, is being steadily developed, the 1921 output being 217,000 tons. The minerals are lead, magnesia, nickel, zinc, salt, iron pyrites, manganese, iron, emery and chromite, and lignite coal.

The 1917 industrial census showed 2,313 factories, employing 36,124 persons, the output being valued at 260,363,000 drachmas. Cotton mills employed 10,875 persons working 168,000 spindles.

Railway mileage in 1921 was 1,983, mostly state owned.

The merchant marine in 1923 had 419 steamers of 736,700 tonnage. In 1922, 19,738 steamers of 11,749,230 tons entered Grecian ports, and in 1920 2,968 steamers and 2,502 sailing ships passed through the canal across the Isthmus of Corinth (four miles long).

The Greek Orthodox Church claims the great majority of the people, that being the state religion.

Instruction between ages of 6 and 12 is compulsory, but the law is not well enforced in rural regions.

The unit of the currency is the drachma, its gold par being 19.3 cents. Exchange, Oct. 15, 1924, was 1.74 cents.

Greece's foreign trade for two years was:

Imports, 1920	drachma	2,131,038,321
" 1921	"	1,725,604,877
" 1922	"	3,085,474,528
Exports, 1920	"	664,112,647
" 1921	"	947,728,503
" 1922	"	2,485,080,174

The budget for 1923-24 was: Revenue, 3,941,194,501 drachmas; expenditures, 6,594,002,017 drachmas; deficit, 2,652,807,516 drachmas.

The external debt in January, 1923, was 7,912,300,000 drachmas.

Trade with the United States was:

Imports, 1920-21	$37,804,642
" 1921-22	11,066,880
" 1922-23	12,704,619
" 1923-24	9,663,969
Exports, 1920-21	24,331,162
" 1921-22	18,566,134
" 1922-23	19,838,969
" 1923-24	17,826,216

GUATEMALA, REPUBLIC OF

AREA, 48,290 square miles.

POPULATION, census of October, 1921, 2,119,165.

CAPITAL, Guatemala, pop., census 1921, 115,938. It was completely destroyed by earthquakes Jan. 3, and 4, 1917, and rebuilding has been slow.

President, Gen. Jose Maria Orellana, 1922-28.

Premier, Sr. Roberto Lowenthal (Foreign).

Minister to the United States, Sr. Don Francisco Sanchez Latour.

Consuls General in the United States, at New York, Eduardo Aguirre Velasquez; at Jersey City, Virgilio Rodiguez Beteta; at Chicago, Julio J. Brower; at Boston, William A Mossman; at New Orleans, J. Dolores Mayorga; at San Francisco, Alfredo Skinner Klee. *Consulates*, at Mobile, Los Angeles, Pensacola, Kansas City, Louisville, Baltimore, Gulfport, St. Louis, Philadelphia, Providence, Galveston, and Seattle.

United States Minister, Arthur H. Geissler.

United States Consul, at Guatemala, Philip Holland.

Guatemala, the northern state of Central America, has Mexico for its neighbor on the north and west, British Honduras on the east, Honduras and Salvador on the east and south and the Pacific on the southwest. A range of mountains containing many volcanic peaks runs from northwest to southeast near the Pacific. The narrow west slope is well watered, fertile and the most densely settled part of the republic. It is about the size of Louisiana.

The broad eastern slope is sparsely settled and its chief commercial importance is the production of bananas and timber and chicle (gum) in the Peten district. Coffee and sugar are the chief crops. Stock raising is an important industry. Though rich in mineral resources little is mined owing to lack of transport. Textiles, machinery, etc., and foodstuffs are the chief imports.

The United States took 75 per cent. of the exports in 1923. Chief being 659,341 quintals of coffee, valued at $11,199,191; 194,143 quintals of sugar valued at $1,030,535; and 4,384,077 bunches of bananas valued at $1,468,125.

Guatemala has about 468 miles of railroads, privately owned but subsidized by the Government. Good roads are few. In 1923 there entered her ports 699 ships of 1,502,077 tonnage.

Guatemala has a Constitution proclaimed in December, 1879, modified on four occasions, that now provides for universal suffrage, a President elected for six years, a National Assembly, elected for four years and a Council of State of 13 members, partly elected by the Assembly and partly appointed by the President. The Roman Catholic is the prevailing religion. There is complete freedom of worship. Education is free and nominally compulsory. About 60 per cent. of the population is pure Indian and most of the remainder are half castes. Many are held on plantations under a system of peonage. The army numbers 6,200, with a reserve of 126,000.

Manuel Estrada Cabrera ruled the country as a dictator for 22 years. He was turned out in April, 1920, by a revolution which put Carlos Herrera in the President's chair. The latter was overthrown by a coup d'etat Dec. 6, 1921, and Gen. Orellana made Provisional President, being inaugurated for a six-year term, March, 1922.

Guatemala is a member of the League of Nations.

Guatemala is on a silver basis; the peso is 25 grammes in weight, .900 fine. Its value varies, therefore, according to the price of silver. No silver is in circulation. Nominally, silver peso = 50.7 cents.

Imports, 1921		$13,616,438
" 1922		10,551,660

HAITI, REPUBLIC OF

AREA, 11,072 square miles.

POPULATION, estimated, Jan. 1, 1923, 2,045,000.

CAPITAL, Port-au-Prince, pop. (estd.), 125,000.

President, Louis Borno, 1922-26, assumed office, May 15, 1922.

Premier, Camille Leon (Foreign).

Financial Adviser, John S. Hord.

Minister to the United States, Leon Dejean.

Consuls General, at New York, Leonce Bornat; at Chicago, Emile Marcelin. *Consuls*, at Boston, New Orleans, and Mobile.

United States Minister, Arthur Bailly-Blanchard.

United States Consul, at Port-au-Prince, Maurice P. Dunlap; at Cape Haitien, Winthrop R. Scott.

Haiti occupies the western portion of the Island of San Domingo, the second largest of the Greater Antilles, lying between Cuba on the west and Porto Rico on the east. The boundary which separates it from the Dominican Republic to the east is 193 miles long. The island is the most fertile of the West Indies. The mountains are covered with rich forest and can be cultivated to the top. Prospecting indicates great mineral wealth, wholly undeveloped. Stock raising is neglected. Coffee is the most important crop and the production of logwood, sugar, cocoa and cotton is increasing. It is nearly the size of Massachusetts and Connecticut together.

The majority of the population are Negroes, the rest mostly mulattos descended from the former French settlers. There are about 3,000 white foreigners. The Roman Catholic religion prevails. Education is nominally compulsory, but the system is poor and very lax. French is the language of the country.

Haiti, discovered by Columbus in 1492, and a French colony from 1677, attained its independence in 1803 following the revolution headed by Toussaint l'Ouverture in 1791. Its history has been a series of political disturbances and bloodshed. From 1910 to 1915 there were seven Presidents; the last, Gen. Sam, assumed office March 4, 1915, took refuge in the French Legation, July 26, 1915, while 200 political prisoners were massacred in jail, and at the funeral of the victims he himself was dragged out and killed. Two hours later a United States cruiser arrived at Port-au-Prince and landed marines. United States forces occupied the country and restored order.

Sudre Dartiguenave was elected President on Aug. 12, 1915, by the National Assembly, which in November ratified a treaty with the United States (which ratified it Feb. 28, 1916), establishing a political and fiscal protectorate by the United States over Haiti for a period of 20 years. The treaty provides

that the President of Haiti appoints on nomination by the President of the United States, a general receiver of customs to take charge of the custom houses; a financial adviser; American officers (drawn from the U. S. M. C.) to organize a Haitian constabulary to replace the armed forces, and engineers to supervise public works and sanitation. Haiti agreed not to increase the public debt without consent of the United States. The United States undertook to intervene when necessary for the preservation of Haitian independence and the maintenance of a stable and effective government. The armed constabulary now numbers 2,688 men and order has been maintained. The reserve numbers 20,000. Several hundred miles of roads have been built and a railroad from Port-au-Prince to Cape Haitien, 169 miles distant. In 1922 there entered the ports 256 ships with tonnage of 513,773.

The Constitution of 1918 provides for a Senate of 15 members for 6 years, and a Chamber of Deputies of about 40 members for 2 years, all elected by popular vote, and a President elected for 4 years by the National Assembly in joint session. The division of authority between the Constitutional Government, the treaty officials and the military occupation has been the cause of much friction, and a delegation visited the United States in 1921 to urge a rearrangement. In September, 1922, Haiti floated a $16,000,000 6 per cent. 30-year loan in New York, being part of the $40,000,000 loan provided for in the protocol between Haiti and the United States, concluded Oct. 3, 1919. It is secured by the customs and internal revenues. The average annual income of Haiti for the past six years has been $4,776,448, and the revenue for 1921-22 was $5,028,362. The budget for 1922-23 provided for expenditures of $5,493,893.

The public debt on July 31, 1923, was $19,329,808. Sugar production in 1923 was 10,967 tons; coffee 50,000,000 pounds; and cotton valued at $2,000,000.

Haiti is a member of the League of Nations.

HEJAZ, KINGDOM OF THE

(See under Arabia.)

HOLLAND

(See Netherlands, the.)

HONDURAS, REPUBLIC OF

AREA, 46,332 square miles.

POPULATION, census of Jan. 1, 1923, 673,408.

CAPITAL, Tegucigalpa, pop., 1921, 38,950.

President (Provisional), Gen. Vincente Tosta, May 3, 1924.

Premier, Sr. Don Jose Angel Zuniga Huete (Interior and Justice).

Minister to the United States, vacant.

Consuls General, at New York, Monico Zelaya, Jr.; at New Orleans, Eusebio Toledo Lopez; at St. Louis, Rafael Martinez (in charge); at San Francisco, Armando Lopez Ulloa; at Chicago, Enrique Trinidad Rondales. *Consuls*, at Mobile, Benj. Urbizo Vega; at Los Angeles, Manuel Rodriguez. *Consulates*, also at Jacksonville, Tampa, Kansas City, Galveston, and San Antonio.

United States Minister, Franklin E. Morales.

United States Consuls, at Tegucigalpa, Robert L. Kelser; at Celba, George P. Waller; at Puerto Cortez, George P. Shaw.

Honduras is an agricultural and cattle raising state of Central America, bounded on the north by the Caribbean Sea, on the east and south by Nicaragua, on the south and west by Salvador and on the west by Guatemala. The latter boundary is now being determined by a scientific party administered by the American Geographical Society. The coast line on the Caribbean is 400 miles long, the chief ports being Truxillo, Tela, Puerto Cortez, Omon, Roatai and La Ceiba. On the Pacific side it has a coast line of 40 miles on the Gulf of Fonseca, with a port, Amapala, on Tiger Island, three hours by motor boat from San Lorenzo on the mainland, connected with the capital, 82 miles by a good automobile road. The country is mountainous, very fertile, though mostly uncultivated, and covered with rich forests. It is nearly as large as Pennsylvania.

Mineral resources are abundant but undeveloped. The chief export is bananas, grown on the Caribbean coast, 12,520,000 bunches being exported in 1923; exports of cocoanuts in 1922 being 8,360,720. Cattle and hides are also exported. Transport is very backward but is being improved. The country has 556 miles of railroads, laid mostly to provide for the fruit trade. The inhabitants are chiefly Indians with an admixture of Spanish blood.

The country is governed under a Constitution, adopted Sept. 2, 1904, which provides for the direct election by the people of a President for a six year term, and a Chamber of Deputies of 42 members, chosen for four years. The President appoints a Cabinet of five Ministers. Education is free and compulsory. The Roman Catholic is the prevailing religion. There is a university at the capital. Military service is compulsory, with 2,900 in the regular army and 43,577 in the first line of the reserve. Of the export and import trade 95 per cent. is with the United States.

The five Central American republics proclaimed their independence as a confederation, July 1, 1823. This confederation soon broke down but renewed efforts were made again and again to re-establish it. The last attempt was made on Sept. 15, 1921, when Honduras, Guatemala and Salvador signed the Constitution of the Federation of Central America. This came into effect on Feb. 1, 1922, but collapsed after the Herrera administration in Guatemala was overthrown.

In 1907 representatives of the five Central American states, Mexico and the United States met in Washington and agreed to adjust any differences that might arise in a Central American Court of Justice, which tribunal was later set up at Cartago, Costa Rica, composed of five Judges, one from each state. On Aug. 20, 1922, on board the U. S. S. Tacoma, in neutral waters of the Gulf of Fonseca, the Presidents of Honduras, Nicaragua and Salvador signed a treaty renewing the treaty of 1907 and extending its scope especially to make impossible the fomenting of revolutions from the territories of neighboring states. The Presidents of Guatemala and Costa Rica were invited to adhere to this agreement and a commercial and economic conference was called. Guatemala declined.

Constitutional government ceased in Honduras at midnight, Jan. 31, 1924, neither of the three candidates for the Presidency having received a majority at the polls or by Congressional action. President Gulterrez, whose term then expired, announced that he would hold on as Dictator until a new election was held. A triangular civil war broke out at once with much bloodshed and destruction of property. Gen. Caries captured Tegucigalpa and U. S. Marines were sent there to protect American lives and property.

At the instance of the United States, a conference of the Central American countries was held, resulting in a treaty signed on board the U. S. S. Milwaukee, Amapala, May 3, in the presence of Sumner Welles, personal representative of President Coolidge, by the three warring factions and delegates from Salvador, Guatemala, Nicaragua and Costa Rica, whereby Gen. Vincente Tosta was made Provisional President to call at once free new Presidential and Congressional elections by which all parties agreed to be bound. Amnesty was to be accorded and the signatories guaranteed the execution of the treaty.

Honduras is a member of the League of Nations.

Honduras is on a silver basis. The peso nominally is equal to 50.7 cents, but fluctuates with the value of silver.

HUNGARY, KINGDOM OF

AREA, estimated, 35,911 square miles. (Some boundaries to be determined.)

POPULATION, census of 1921, 7,945,878.

CAPITAL, Budapest, census of 1921, population, 1,184,616; other cities, Szeged, 109,896; Debreczen, 103,228; Kecskemet, 72,768; and eight others from 40,000 to 60,000.

Regent, Admiral Nicholas von Horthy, born 1867; elected March 1, 1920.
Premier, Count Stephen Bethlen (April 14, 1921).
Minister to the United States, Count Laszlo Szechenyi.
Consul General, at New York, Charles Winter.
Consuls, at Chicago, J. Stephen Shefbeck; at Cleveland, Alexander Reutter de Kaltenbrunn; at Pittsburgh, Louis Alexy.
Commissioner General of the League of Nations, Jeremiah Smith jr. of Boston, Mass.
United States Mintster, Theodore Brentano.
United States Consul General, at Budapest, George Horton.

Hungary for a thousand years has been the abode of the Magyars. Formerly a kingdom forming an integral part of the Austro-Hungarian Empire, becoming an independent republic after the war, it was much reduced in size by the Treaty of the Trianon, June 4, 1920, losing Transylvania to Roumania, Croatia and Slavonia to Jugo-Slavia. Pre-war it had 25,000,000 population on 125,608 square miles or territory, or about the size of the States of Ohio, Kentucky and Tennessee; now it is slightly smaller than Indiana. Hungary lost 68 per cent. of its territory and 59 per cent. of its population. The Jugo-Slavia and Roumania boundaries are to be determined by a mixed commission.

Hungary had the best harvest in a decade in 1923, production being wheat, 1,342,000 metric tons (1,489,000 in 1922); rye, 816,000; barley, 537,000; oats, 371,000; potatoes, 1,716,000 (1,345,000 in 1922); maize, 1,401,000; and sugar beet, 882,000 (711,000 in 1922). The total increase for these crops over 1922 figures was 1,330,000. Of the wheat, 75,042 metric tons were exported to neighboring countries, and 46,361 metric tons of sugar and sugar products.

Over 4,000,000 are directly or indirectly engaged in cultivating the soil. Under the land distribution law (No. 36), between June, 1921, and July, 1923, 33,000 building sites of about 2,809 square yards each, with a total area of 9,145 acres, were distributed in 886 villages. An area totalling 189,406 acres was also divided into agricultural "dwarf holdings" of 3.5 acres each, and "small estates" of 17.5 acres each. Similar proceedings are being carried out in 2,456 villages. The number of individual holdings under 11.5 acres is now estimated to be 331,880; of those between 11.5 and 115 acres to be 176,330; of those between 115 and 1,150 acres to be 9,264; and over 1,150 acres to be 1,458; and that a total of over 18,600,000 acres has been divided up.

The textile industry made great progress in 1923; 30 factories were established, bringing the total to 147. Practically all the new looms and spindles were brought from Czechoslovakia. Of coal, over 7,500,000 tons were produced, ample for domestic supply. Unemployment (15,000 on Jan. 1, 1924) was acute only in the iron and steel works, which employ 44,200 hands.

There were 5,327 miles of railroads in 1923, of which 1,877 were state owned. Hungary now has no seaport. She has 687 miles of navigable rivers.

Hungary's financial position was most desperate in 1923. The budget deficit for 1921-22 was 6.5 billion paper crowns, and for 1922-23, 40.6 billion paper crowns. The exchange value of the paper crown fell from 13,000 to the pound sterling on Jan. 1, 1923, to 140,000 on July 1,1923, where it remained steady until December, when it was further unsettled by fear of no relief from the League of Nations, and reached 260,000 in February. The deficit for 1923-24 threatened to reach 600 billions of paper crowns by July, 1924. Taxation of every possible sort had been tried in hope of securing adequate revenue but failed as the currency depreciated. The emission of paper currency reached 1,084 5 billions of crowns by Jan. 1,1924. The national debt in July, 1923, converted into dollars, was about $163,800,000. Efforts to make a loan were coldly received.

Emboldened by the success of Austria in rehabilitation, Hungary appealed also to the League of Nations. In September 1923, her case was again presented to the Reparation Commission in Paris, which, after careful investigation, recommended, Oct. 17, that the reparation liens should be raised and that the financial committee of the League of Nations should examine and report on the question of financial and other control in case a loan were granted. Late in December the League of Nations offered Hungary a loan of 250,000,000 gold crowns (about $50,000,000), but holding Hungary to the payment of, in addition to the interest, an average annual amount not exceeding 10,000,000 gold crowns (about $2,000,000) for reparations for 20 years, but with no definite prospects that these instalments would represent the final sum demanded by those states entitled to receive reparations. The Hungarian Government, on Jan. 28; 1924, accepted the protocol, agreeing also to the appointment of a disinterested supervisor of her finances This post, first offered to and declined by W. P. G. Harding, Governor of the Federal Reserve bank board, was accepted by Jeremiah Smith jr. of Boston, Mass., who took up his duties at Budapest about May 1, and met with instant and complete co-operation. He found, he said, "the country is fundamentally sound and the stabilization of the currency and balancing of the budget should place it on a permanently sound basis." Rigid economy was instituted and the tariff revised. A new bank of issue, the Hungarian National Bank, with a capital of 20,000,000 gold crowns, began business June 2; five-sixths of its shares being taken abroad, of which the National City Bank took 6.669,791 gold crowns. The President is Councillor Popovic.

The $50,000,000 20-year 7½ per cent. loan was floated successfully in July without being guaranteed by the external governments as the Austrian was. Great Britain's share was £7,900,000, and the American, $7,500,000. The revenues assigned to its service are the customs, the tobacco and salt monopolies and the sugar tax.

Hungary completed the funding of her debt to the United States for relief supplies furnished just after the armistice by delivering to the Treasury on May 29, bonds for $1,939,000, which are to run 62 years.

Hungary's national wealth is estimated at 15,676,000,000 gold crowns ($3,135,200,000) and her national income at 2,752,000,000 gold crowns ($550,400,000), two-thirds of which is from agriculture.

On the breakup of the Dual Empire, Oct. 31, 1918, a revolution began the movement for a republic, King Charles abdicating Nov. 13. Three days later the republic was proclaimed with Count Michael Karolyi as Provisional President. Disorder followed; a Boishevik government with Bela Kun dominant was set up March 22, 1919, but was swept away with assistance of the Roumanian army. A national government was re-established on Aug. 7, 1919. Elections, with manhood suffrage, were held in January and February, 1920, a bloc of parties of the Right succeeding to control of a Provisional National Assembly which elected a Regent officially styled "Protector of the Magyar Republic." On March 23, 1920, a Government order declared Hungary a monarchy. However, two attempts of the late King-Emperor Charles to regain the throne in 1921 failed dismally.

Freedom of religion is a fundamental tenet of the new state, with equality between the many divergent sects. Four state universities had 9,719 students, in 1922. Education is compulsory for children from 6 to 12 and illiteracy is decreasing. The national army under the treaty is limited to 35,000 men and officers, all volunteers; other forces numbering 31,500 being police, gendarmerie and customs guards. Hungary has no air force and no navy.

Hungary became a member of the League of Nations in September, 1922.

The crown is the unit of currency, gold par of exchange being 20.26 cents (exchange Oct. 15, 1924, being .0013 cents).

Foreign trade was:

ICELAND, KINGDOM OF

AREA, 39,709 square miles.
POPULATION, census of 1920, 94,690.
CAPITAL, Reykjavik; population, 17,679.
King, Christian X. (See Denmark).
President of the Council, Siggudur Eggers (Justice and Ecclesiastical Affairs), March 15, 1922.

Iceland is an island in the North Atlantic Ocean with an area nearly equal to that of Kentucky. It is of volcanic origin and has many geysers and hot springs. It is treeless. Agriculture engages 43,411 of the people, who produce hay, potatoes and turnips mostly. Domestic animals number 651,000, including 579,000 sheep (census of 1918) and furnish five-sixths of the exports. The fisheries output in 1920 was valued at 32,670,000 kroner. Imports include all necessaries. There are no railways, but 320 miles of roads. In 1917, 178 vessels with tonnage of 61,432 entered the ports. Its mercantile marine numbers 58 vessels of 8,768 tons.

Iceland was an independent republic from 930 to 1263, when it joined with Norway. The two came under Danish rule in 1381. When Norway separated from Denmark in 1814, Iceland remained

under Denmark. In 1918 Denmark acknowledged Iceland as a sovereign state, united with Denmark only in that the Danish King, Christian X., was also to be King of Iceland. Its permanent neutrality was guaranteed. Provisionally until 1940 Denmark has charge of its foreign affairs, and a joint committee of six reviews bills of importance to both states.

Iceland has evolved strange social customs and traditions; is admitted to have attained approximately to absolute justice of the sterner sort, and in its constitutional monarchy to have developed an excellent democracy.

The Althing (Parliament) is composed of an Upper House of 14 and a Lower House of 28. Men and women over 25 enjoy the suffrage.

Leif Ericson, the Norseman, sailed from Iceland in the year 1000 and discovered the American mainland, starting a colony called Vinland, probably at New Bedford, Mass.

The unit of currency is the krona—$0.268 at par of exchange.

IRAQ, KINGDOM OF THE

MESOPOTAMIA.
(British Mandate.)

AREA, 143,250 square miles.

POPULATION, census of 1920, 2,849,282; divided, Sunni Mohammedans, 1,146,685; Shi'ah Mohammedans, 1,494,015; Jews, 87,488; Christians, 78,792; of other religions, 43,302.

CAPITAL, Bagdad, population, 1920, 170,000; port, Basra, population, 85,600; Mosul (on the site of Nineveh), 90,000.

King, Feisal, third son of El Husein ibn Ali, King of the Hejas, crowned Aug. 23, 1921.

Premier, Yasin Pasha, Aug. 4, 1924.

High Commissioner of Great Britain, the Mandatory Power, Sir P. Z. Cox.

U. S. Consul, at Bagdad, John Randolph.

Mesopotamia (in classical days "the country from Mosul and Tikrit on the Tigris to the borders of Syria") is the name now applied to the whole Euphrates country in southwest Asia—the former Turkish Vilayets of Basra, Bagdad and Mosul. The Arab name for this territory is Iraq. It is bounded on the north by Kurdistan; on the east by Persia; on the south by the Persian Gulf and Kuwait and on the west by the Arabian and Syrian deserts. The boundary lines are indeterminate. It is as large as the States of New York, New Jersey, Pennsylvania and Ohio.

The country is a great alluvial plain stretching from the Persian Gulf 400 miles north, rising in rolling hills in Mosul and beyond to the limestone mountains of Kurdistan. The climate is subtropical and the rainfall (all in the winter months) is scanty, Bagdad averaging 6.64 inches in 29 years. The temperature varies widely; 120 in the shade is not uncommon, and severe frosts in the winter. The country is unhealthy, demanding extreme care. Mosquitoes and sand flies are pests, and malaria and "Bagdad boils" are common. Dysentery and fever are prevalent; cholera, the bubonic plague and typhus fever have frequently scourged the country.

The soil is of extraordinary fertility and engineers estimate that the Tigris-Euphrates Rivers could irrigate 7,000,000 acres in winter and 3,000,000 of varied crops in summer. Half of this area, the report of Sir William Willcocks, engineer, says could be immediately reclaimed if the ancient system of canals and drains were restored. Only regulatory work is attempted at present and about 1,500,000 are under water and improvements in methods of cultivation are urged. Wheat, barley, rice and millet are the chief crops, with tobacco in the Kurdish hills. Cotton is being grown and large yields are possible. Dates are grown in the tidal stretches of the Shatt el Arab and the hundred miles from Fao to Qurna on both sides of the river is a continuous date grove. Dates are a staple food of the Arabs and in 1919 £1,470,000 worth were exported. Large flocks of sheep are raised in the north, and wool and skins form a considerable export. Industries, weaving, silk spinning, leather working, etc., are for the local market only.

The chief port is Basra, 70 miles up the Shatt el Arab from the Persian Gulf. A railroad runs from Kalat just south of Mosul to Bagdad (designed to be part of the Berlin to Bagdad railroad) and the English have connected Bagdad and Basra by rail (opened Jan. 13, 1920). The control of the Bagdad railroad passed into British hands in 1923.

The railroad mileage on March 31, 1923, was 725.

The great value of the country to Great Britain is its petroleum. In southeastern Mesopotamia. Great Britain has built great refineries to handle the product of the country and of Persia, which is now comparatively small, but the reserve is great. The mandate under the Treaty of Peace with Turkey, 1920, for Mesopotamia as an independent state was intrusted to Great Britain by the Allies. British and Indian forces having conquered the country during the World War, occupying Basra on Nov. 22, 1914, and Bagdad March 11, 1917. A British High Commissioner set up a provisional Arab Government with the Naqib of Bagdad at the head, in November, 1920. Emir Feisal, third son of the Grand Sherif of Mecca, now King of the Hejas, who made a notable reputation as a soldier during the war and as a diplomat at the Paris Peace Conference, presented himself as a candidate for the throne. He was chosen ruler by acclamation as a constitutional democratic sovereign, a choice subsequently ratified by a referendum, and was crowned at Bagdad Aug. 23, 1921. Since then the British garrison has been gradually reduced.

A treaty of alliance between Iraq and Great Britain was signed on Oct. 10, 1922. Under it King Feisal agrees to be guided by the advice of King George on international and financial obligations and interests for the whole period—twenty years—of the treaty. Great Britain agrees to give such support and assistance to the armed forces of the King of Iraq as may be necessary.

By a protocol announced May 3, 1923, it was provided that the treaty would terminate upon Iraq becoming a member of the League of Nations, and in any case not later than four years from the ratification of peace with Turkey. This treaty after serious opposition was ratified by the new Constituent Assembly (the first to be elected) following a British demand for action on June 10, 1924. A proviso was added that "the treaty is invalid if Great Britain does not protect Iraq's entire rights in the Mosul vilayet."

The Mosul question was placed before the League of Nations by Great Britain in agreement with Turkey and in October a *status quo* as to the frontier was agreed to by both nations and the investigation begun.

Budget, 1922-23—Revenues.....rupees 1,76,75,000
Expenditures..rupees 1,87,14,248

Imports, 1921, were valued at rupees 20,56,39,235; and exports at rupees 9,83,47,912.

The trade of the Hejaz, Arabia and the Iraq with the United States was:

Imports,	1921-22	$291,229
"	1922-23	322,596
"	1923-24	326,853
Exports,	1921-22	734,523
"	1922-23	1,388,385
"	1923-24	3,202,958

ITALY, KINGDOM OF

AREA, Pre-war Italy, 110,632 square miles; territory added by the war, Venezia Irredentia, 4,027; Gorizia and Gradisca, 1,138; Trieste, 37; Istria, 2,035; Zara and Saimatian Islands, 113; total, 7,350. Grand total, 117,982. Colonial possessions, Eritrea, 45,435 square miles; Somaliland, 139,430; Libya, estimated (southern boundaries undetermined). 406,000; total, 590,865.

POPULATION, Pre-war Italy, census December 1921, 37,276,738; population added by the war, Alto Adige, 24,345; Carinzia, 7,667; Carniola, 88,605; Gorizia and Gradisca, 260,749; Trieste, 229,510; Istria, 404,309; Trentino and Ampezzano, 393,111; Zara, 32,551; total, 1,564,691; grand total, 38,835,941. Colonial possessions, Eritrea, pop., census of 1920, 402,893; Somaliland, estimated, 650,000; Libya, estimated, 1,000,000; total, 2,052,893. *Population by Provinces*: Piedmont, 3,394,395; Liguria, 1,309,917; Lombardy, 5,109,868; Venetia, 3,952,703; Emilia, 2,952,774; Marches, 1,149,537; Tuscany, 2,829,712; Umbria, 736,671; Latium, 1,515,807; Abruzzi and Molice, 1,537,398; Campania, 3,577,065; Apulia, 2,333,595; Basilicata, 467,812; Calabria, 1,502,451; Sicily, 4,134,336; Sardinia, 866,352.

CAPITAL, Rome, pop. (census of Dec. 1, 1921), 664,571; other cities, Naples, 780,220; Milan, 718,304; Turin, 517,140; Palermo, 400,348; Genoa, 300,784; Florence, 253,565; Catania, 251,875.

Bologna, 240,969; Venice, 171,339; Messina, 171,136; Bari, 132,015; Leghorn, 114,813; Padua, 112,021; Ferrara, 107,618; Brescia, 96,424; Verona, 92,413; Foggia, 88,970; Reggio Emilia, 82,908; Modena, 82,487, and 43 between 20,000 and 80,000.

King, Victor Emmanuel III., born Nov. 11, 1869, succeeded his father, King Humbert I., July 29, 1900; married Helena, daughter of Nicholas, King of Montenegro, Oct. 24, 1896; children, Crown Prince Humbert, Prince of Piedmont, born Sept. 15, 1904; Princess Yolande, born June 1, 1901, married April 9, 1923, Capt. Count Carlo C. di Bergolo; Princess Mafalda, born Nov. 19, 1902; Princess Giovanna, born Nov. 13, 1907, and Princess Maria, born Dec. 26, 1914.

Premier, Benito Mussolini (Interior and Foreign Affairs).

Ambassador to the United States, Prince Gelasio Caetani.

Consuls General in the United States, at New York, Emilio Axerio; at San Francisco, Vittore Siciliani; at Denver, Gualtiero Chilesotti; at Chicago, Leopoldo Zunini. *Consuls*, at Washington, New Orleans, Boston and Philadelphia. *Consular Agents* are at Los Angeles, Trinidad, Col.; Hartford, New Haven, Wilmington, Key West, Pensacola, Tampa, Savannah, Springfield, Ill.; Indianapolis, Frontenac, Kan.; Louisville, Hammond, Shreveport, Portland, Me.; Baltimore, Lawrence, Springfield, Mass.; Worcester, Detroit, Duluth, Gulfport, Vicksburg, St. Louis, Butte, Omaha, Newark, Trenton, Albuquerque, Albany, Buffalo, Rochester, Yonkers, Cincinnati, Cleveland, Youngstown, Portland, Ore.; Altoona, Erie, Pittsburgh, Scranton, Providence, Charleston, S. C.; Memphis, Fort Worth, Galveston, Port Arthur, Salt Lake City, Norfolk, Richmond, Seattle, Spokane, Charleston, W. Va.; and Milwaukee.

United States Ambassador, Henry P. Fletcher.

United States Consuls General, at Rome, Leon Dominian (C.); at Genoa, John Ball Osborne; at Naples, Homer M. Byington. *Consuls*, at Catania, W. Roderick Dorsey; at Florence, Joseph E. Haven; at Leghorn, Jesse B. Jackson; at Messina, Benjamin F. Chase; at Milan, Clarence Carrigan; at Palermo, Edward I. Nathan; at Trieste, George M. Hanson; at Turin, Dana C. Sycks; at Venice, James B. Young; at Fiume, North Winship.

The Kingdom of Italy occupies the entire Italian peninsula, stretching from the Alps southeast into the Mediterranean, with the islands of Sicily, Sardinia, Elba and about 70 smaller ones. On the east is the Adriatic Sea which it dominates, on the south, the Mediterranean, on the west between the mainland, Sicily and Sardinia is the Tyrrhenian Sea, and further north the Ligurian Sea. The maritime Alps on the west separate it from France, the Swiss Alps in the north from Switzerland, and the Dolomites Alps from Austria, and the Carnac and Julian Alps on the east from Jugo-Slavia. The great plain shut in by these huge mountains, and the Ligurian Apennines, and watered by the Po (220 miles long) and the Adige, shared by the provinces of Piedmont, Lombardy, Emilia and Venetia, stretches across the top from the Maritime Alps to the head of the Adriatic. Its maximum length is 360 miles. The Ligurian Mountains, circling the Gulf of Genoa, run down the middle of the peninsula as the Apennines, with many summits like Monte Cimone (altitude 7,103 feet) in the northern part, and the Gran Sasso d'Italia (9,560 feet) in Central Italy, nearing the western coastline in Campagna and running down (with altitudes of about 6,000 feet), through the southern province, Calabria, to the "toe of the boot" at Cap Spartivento. Across the narrow Strait of Messina the mountain range continues through the Island of Sicily with its famous volcano, Mt. Etna (altitude 10,755 feet). The active volcano Mt. Vesuvius rises to the altitude of about 4,000 feet on the Bay of Naples, and north of the Strait of Messina is the island volcano of Stromboli (3,040 feet).

The length of the peninsula is 760 miles, while its breadth nowhere exceeds 150 miles and does not generally measure more than 100 miles. Italy is about equal in area to New England and New York together, and has more than twice their population.

Two rivers, having the greatest historic importance, rise in the Apennines, and flow west to the sea—the Tiber, which flows through Rome, and the Arno, which waters the Florentine plain. The rivers in the south are unimportant. Between the spurs of the Alps lie seven beautiful Italian lakes, especially noteworthy being Como, Lugano, Maggiore and Garda, the last being the largest and the last two over 30 miles long. All are of great depth.

The Adriatic coastline from Rimini to Otranto is flat with but one indentation, and with no harbors worthy of the name save Brindisi. The silt brought down by the Po, the Adige and the eastern streams, also rising in the Alps, have built out the land from Ravenna to the Gulf of Trieste, with marshes and lagoons so marked a feature of the mouths of the Po and of Venice. Trieste on the western side of the Istrian peninsula, and Fiume on the eastern side, were Austro-Hungary's seaports on the Adriatic. Trieste has been joined to Italy as a prize of war, and Fiume, after a bitter quarrel, occupation by d'Annunzio's troops, and much negotiation, was annexed to Italy in the presence of the King on March 16, 1924, in accordance with the treaty with Jugo-Slavia signed Jan. 27, 1924. The new province, Carnaro, has about 80,000 population and Port Barros (the Slav part of Fiume) and the Delta remain in Jugo-Slavia which is the Basin Thaon de Revel for its shipping and lumber trade, though subject to Italian supervision.

The climate of Italy is sunny, although northern Italy has a cold winter; snow is rarely seen in Naples, and olives, oranges, lemons, figs, sugar cane, cotton and pomengranates flourish in Calabria. The soil is fertile and the people industrious and frugal. Italy, though drained before the war by emigration, is one of the most densely populated states in Europe.

The population is unusually homogeneous. In prewar Italy there were about 85,000 of French origin, 10,000 Teutonic in the Val d'Aosta, 81,000 Albanian in Calabria and Sicily, 29,000 Greek, 43,000 Slav, mostly in Cividale, and 12,000 Spanish (Catalans) in Sardinia. In the "redeemed" provinces, formerly Austrian, annexed after the war, there are 215,345 Germans in Alto Adige and 13,920 in the Trentino; 326,715 Slovenes in the northeastern districts, and 141,663 Croats in Istria. The religion of the great majority is Roman Catholic, the census reporting 123,253 Protestants; 34,324 Jews; and 847,532 of no religion. Emigration has been very heavy. The United States census of 1920 reported 1,610,109 Italian-born in the United States alone. In the decade before the war about 650,000 emigrants left Italy annually, and about 500,000 returned each year, being a net loss to Italy of 1,500,000 in that period. In 1914 there were about 1,500,000 residing in Brazil, 1,000,000 in Argentina, 450,000 in France, 220,000 in Switzerland, 120,000 in Germany, and 150,000 in Northern Africa. The war checked emigration greatly, but it reached 230,000 in 1919, 412,000 in 1920, 279,000 in 1921, 277,000 in 1922, and 395,000 in 1923. The Association of Italian Corporations, etc., in Rome estimates that in 1921 Italian immigrants remitted from the United States alone, 3,689 million lire.

It is estimated that in 1923 the number of tourists visiting Italy was 661,000 compared with 567,000 in 1922; that the daily expenditure of each averaged 150 lire, making a total of 2,479 million lire—probably an underestimate.

Unemployment has decreased. On Jan. 1, 1922, the number of persons out of work was 541,775; on July 30, 1923, 213,590; on Dec. 31, 1923, 258,000, and on August 31, 1924, 218,000.

Rome, the capital city, has a population of 664,571 by the census of 1921, not including the garrison of 24,889. It increased 27.18 per cent. in the last decade and has tripled in size since 1871. The total population of the 69 capitals of the provinces in 1911 was 6,440,729 and in 1921, 7,511,048, an increase of 11.66 per cent.

The percentage of illiteracy has been high in Italy, especially in Calabria, and the other southern provinces, but in the last decade much progress has been made in correcting it. Lower grade education is compulsory. Italy has ten universities dating from the thirteenth century or the first years of the fourteenth. Famous among these are Bologna (founded 1200), with 3,031 students; Genoa (1243), 2,459 students; Naples (1224), 9,266 students; Padua (1222), 2,082 students; Pavia (1300), 1,512 students; Pisa (1338), 1,729 students, and Rome (1303), 5,178 students. The total number of students at the 21 universities in 1921 was 41,032.

Agriculture is the chief industry. Of a total of 71,659,592 acres 65,995,000 are under crops. The number of peasant proprietors is 4,000,000, mostly in northern Italy. The census of 1921 returned 3,796,561 as proprietors of lands, buildings, or both. The wheat acreage in 1921 was 11,927,000; sugar beet, 125,000. There are 5,735,500 acres given over to olives and 10,590,000 to vineyards. The sugar output in 1921 was 170,466 tons. Silk culture flourishes. Dairy farming and cheese making is important in northern Italy. Italy has suffered greatly from deforestation, but a determined effort has of late been made to reafforest the country. The chestnut crop is of great value. There are about 30,000 vesels and boats and about 110,000 men engaged in fishing.

Italy is not rich in mineral deposits and is es-

pecially lacking in coal. Much hydroelectric power is going to waste in the mountains, but in 1923 355 plants produced 1,504,216 h. p. In 1919 Italy imported 6,220,000 tons of coal, of which 1,160,000 were from the United States. The amount dropped in 1920, and about 1,200,000 tons of lignite were mined in her 200 mines. Italy is a large producer of sulphur, chiefly in the volcanic regions of Sicily, the amount in 1923 being 248,916 metric tons.

Italy is now equipped with 9 powerful coke blast furnaces, 113 electric steel furnaces of large and medium capacity and 60 small ones. Production was 247,000 metric tons of pig iron in 1923 against 158,000 in 1922; and 1,122,000 tons of raw steel in 1923 against 981,000 tons in 1922. The total number of employees and workmen engaged by iron and steel working plants is about 100,000, and the capital invested is estimated at $100,000,000.

Zinc ore production in 1923 was 136,881 metric tons and of lead ore 36,806 metric tons. The possession of the quicksilver mines of Idria in the territory taken from Austria, north of Fiume makes Italy the foremost producer in the world, the output being about 1,700 metric tons in 1919, and 1,400 in 1920. The quarry industry is important.

The textile industry, cotton, wool, silk and artificial silk, is steadily increasing.

Government receipts for the fiscal year 1923-24 were 20,533 million lire, an increase of 1,730 over the previous year; while expenditures were 21,156 million lire, a decrease of 676. The deficit was provisionally set at 623 million lire as compared with 2,616 estimated in the budget, and an actual deficit of 3,029 in 1922-23. The increase from direct taxation was 620 million lire.

The internal debt on June 30, 1924, amounted to 93,162 million paper lire a decrease of 2,382 in the year. The foreign debt totaled 22,721 million gold lire an increase of 534 in the year, owing to accruals of interest on the debt to Great Britain. The note circulation on June 30, 1924, was 17,015 million lire.

The budget estimates for 1924-25 show receipts of 16,644 million lire and expenditures of 17,999 million lire, with an estimated deficit of 1,355 million lire. Included, however, is the total of the war claims bonds of 1,500 million lire instead of 78 million for the year's interest and amortization, so the deficit is apparent rather than real.

Italy in 1922 had 10,269 miles of state railroads operating under a heavy deficit, and 980 miles of privately owned lines; the state had electrified 639 miles by June 30, 1921, and will electrify about 4,000 miles in all. The number of ships entering Italian ports in 1920 were: Italian, 106,381, of 18,194,055 tons; foreign, 6,202, of 10,991,119 tons. The chief ports in order of tonnage entered were Genoa, Naples, Palermo, Leghorn, Venice, Messina and Catania. In her mercantile marine in 1922 were 825 steamers of 3,129,903 tons. In this year the amount of ship subsidies granted was estimated as 300,000,000 lire, the subsidy policy having begun in 1877 when 9,000,000 was given. By stringent economy and reduction of lines in 1923 the Minister of Marine hoped to save 75,000,000 lire on the mercantile marine.

The Government has decided to turn the telephone lines over to private concessionaires to be operated as a unit, the Government to take for its plant half the stock of the corporation, which is to be capitalized at not less than 500 million lire. Extensions calling for expenditures of 4,387 million lire to be financed by loans placed abroad.

Italy, divided, dismembered even for centuries, began to take shape as a unity when, following the war of 1859, Lombardy, by the peace of Zurich, came under the crown of King Victor Emmanuel II. of Sardinia of the house of Savoy. By plebiscite in 1860 Parma, Modena, the Romagna and Tuscany joined, to be followed at once by Sicily and Naples, and by The Marches and Umbria. The first Italian Parliament assembled in February, 1861, and on March 17, 1861, declared Victor Emmanuel King of Italy. Mantua and Venetia were added in 1866, an outcome of the Austro-Prussian war. The Papal States were taken possession of by Italian troops on Sept. 20, 1870, after the withdrawal of the French garrison in the Franco-Prussian war (see Rome, Sec of), and by plebiscite on Oct. 2 were annexed to the kingdom, thereby rounding out United Italy. Italy suffered heavily in the World War, her northeast provinces having been overrun by the Austrians and Germans after a crushing defeat at Caporetto. Her loss in men was 650,000 killed and missing, and the cost to the kingdom was 48,000,000,000 lire. The increase in territory that followed the war is given in detail above.

The total expenditures to July 1, 1923, for reconstruction of the devastated provinces was 12,148 million lire out of a total requirement of 18,718 million lire.

The country is governed under an expansion of the Constitution granted to Sardinia in 1848. The executive authority is exercised by the King, acting through a Minister. The legislative power rests with the King and a Parliament of two Houses. The Senate is composed of nine Princes of the Blood and eminent men nominated for life by the King; the number in 1923 was 393. The Lower House consists of 535 Deputies (1 to every 71,000 of the population) elected by districts directly. The electoral law of 1920 provides for universal suffrage of all men and women 21 years old, and the electoral reform of 1919 provided for proportional representation. The complexion of the House elected in May, 1921, was: Constitutionalists, 275; Socialists, 122; Catholics, 107; Communists, 16; Republicans, 7; Germans, 4; and Slavs, 4.

The duration of Parliament is 5 years, but the King has power to dissolve the Lower House at any time; a new election must follow within four months. All money bills must originate in the Lower House. Premier Mussolini forced through a bill, Nov. 18, 1923, reforming the electoral law so as to assign two-thirds of the seats in the Chamber of Deputies to the party obtaining the largest number of votes in the elections, the remaining third are distributed proportionately among the minority lists. In the election of April 6, 1924, the Fascista therefore won 356 seats in a bloc, the Government having the support also of 63 other Deputies.

The Fascisti Government has abolished four Ministries and reduced the former thirteen direct taxes to three—those on land, house and income, besides centring all finance control in the Treasury.

The army on a peace basis numbers 250,000 men, with 2,350,000 in the reserve. Service is compulsory and universal. The navy has two strongly fortified naval bases, Pola and Spezia. Many of its pre-war units have been discarded.

Italy is a member of the League of Nations.

The lira is the unit of currency. At par of exchange, lira = 19.3 cents; exchange rate on Oct. 15, 1924, was 4.36.

Foreign trade figures are (lira = $0.045):

Imports,	1922	lira 15,764,764,872	($709,414,419)
"	1923	" 17,225,041,858	($775,026,883)
Exports,	1922	" 9,302,367,061	($418,600,517)
"	1923	" 11,058,888,807	($497,649,999)

Trade with the United States was:

Imports,	1920-21	$302,121,278
"	1921-22	138,174,639
"	1922-23	173,456,950
"	1923-24	175,312,977
Exports,	1920-21	59,096,514
"	1921-22	61,346,750
"	1922-23	83,025,900
"	1923-24	79,933,956

Italian Colonial Possessions.

ERITREA.

AREA, 45,435 square miles.

POPULATION, census of 1920, 405,681, of which 2,435 are Italians.

CAPITAL, Asmara; population, 14,711.

Governor, Dr. Jacopo Gasparini (1923).

Italy's colonial venture in Africa began in 1870, when the port of Assab, in the extreme southern part of Eritrea, was purchased. Lagging interest was revived in 1885, when the colonial project was vigorously pushed. An effort to establish a protectorate over Abyssinia was made in 1889 but was upset by King Menelek, who with an army of 80,000 annihilated a force of 12,000 Italians at the Battle of Adowa in 1896. Eritrea was constituted a colony in 1890.

Eritrea stretches for 620 miles along the African coast of the Red Sea from Cape Kasar to Cape Dumeirch. To the west it is bordered by the Soudan and on the south by Abyssinia. The lowlands along the coast are very hot but the uplands are cool, sometimes cold. Irrigation is necessary to supplement rainfall for the crops, and the soil is poor. Agriculture and stock raising are the chief industries. There is a railroad 75 miles long connecting the seaport Massawa (population, 2,275) with the capital, Asmara (altitude 7,765 feet), which is being extended via Keren to Agordat (109 miles) to open up a cotton-growing district. Gold is mined in Hamassen and petroleum is found, but there has been as yet no development.

Efforts to settle large numbers of Italians in the uplands, the only part of the country where Europeans can live permanently, have been abandoned.

The budget for 1922-23 balances at 27,548,733 lire, but this includes a state contribution to the receipts of 6,650,000 lire.

The imports in 1921 were 110,000,000 lire, and exports 28,000,000 lire.

ITALIAN SOMALILAND.

AREA, 139,430 square miles.
POPULATION, about 650,000.
CAPITAL and port, Mogadishu; population, estimated, 14,000.
Governor, Cesare de Vecchi (1923).

Italy's African colony, the Italian Somaliland, extends along the Indian Ocean from the Gulf of Aden to the Juba River. The coast line runs in a northeast-southwest direction, is 1,100 miles long, with no indentation of importance. Jubaland, the valley of the Juba River, was taken from Kenya (German East Africa) and added to the colony to balance British and French acquisitions of former German possessions. Agriculture and cattle and camel raising are the chief industries. In 1921 706 steamers of 206,968 tons entered the ports.

The budget for 1923-24 balances at 22,322,000 lire; this includes a state contribution to the receipts of 9,000,000 lire, and extraordinary expenditure of 11,425,448 lire.

The imports for 1922 were 45,694,090 lire, and exports 10,988,357 lire.

TRIPOLITANIA AND CYRENAICA.
(Italian Libya.)

AREA, 406,000 square miles.
POPULATION, estimated, 1,000,000 (30 per cent. Arabs, 40 per cent. Negroes, 23 per cent. Jews, 7 per cent. Europeans).
CAPITALS, Tripoli, population, estimated, 73,000, and Benghazi, population, 35,000.
Governor of Tripolitania, Giuseppe Volpi (1921).
Governor of Cyrenaica, Gen. Bongiovanni (1923).

Tripolitania and Cyrenaica, or Italian Libya, in North Africa, extend along the Mediterranean Sea from Egypt on the east to Tunis (French) on the west. On the south they extend into the desert, the boundary line being unmarked though settled by treaty with France Sept. 12, 1919.

Tripoli, formerly one of the Barbary States and independent since 1714, was reconquered by Turkey in 1835. During the Turko-Italian war of 1911-12, Italy proclaimed the annexation of Tripoli, which was recognized in the Treaty of Ouchy, Oct. 18, 1912.

The territory was divided into two independent districts for administrative purposes May 17, 1919. In both provinces natives have equal rights with Italians and there is a certain amount of local autonomy by elected local Parliaments.

The prevailing religion is Mohammedan, and Arabic is generally spoken.

The country is rather barren but has date palm orchards, olive groves, lemon, almond and fig trees, and vineyards. Some cereals, chiefly barley, are grown. Pasturage is abundant in Cyrenaica. Sponge fishing is important; the value of the product in 1920-21 was 16,424,250 lire. There is considerable caravan trade to the south. The total railroad mileage is 163.

The budgets for 1923-24 were: Tripolitania—Colonial revenue, 132,029,500 lire; civil expenditures, 34,720,500 lire; military expenditure, 97,303,100 lire Cyrenaica—Colonial revenue, 111,905,100 lire; civil expenditures, 42,625,600 lire; military expenditure, 69,281,000 lire.

The trade of Tripolitania in 1921 was: Imports, 105,858,963 lire; exports, 10,641,487 lire; of Cyrenaica, imports, 5,180,700 lire; exports, 17,100,000 lire.

Trade of Italian Africa with the United States was:

Imports,	1920-21	$212,758
"	1921-22	101,203
"	1922-23	44,389
"	1923-24	26,715
Exports,	1920-21	332,666
"	1921-22	11,501
"	1922-23	80,564
"	1923-24	7,983

JAPAN, EMPIRE OF

AREA, Japan proper, 148,756 square miles. Korea (Chosen), 84,738 square miles; Formosa (Taiwan), 13,944 square miles; Pescadores (Hokoto), 47 square miles; Japanese Sakhalin (Karafuto), 13,253 square miles. Total, 260,738 square miles.
POPULATION, Japan proper, census estimate, Dec. 31, 1923, 58,481,500; Korea, 18,313,800; Formosa, 3,758,900; Sakhalin, 150,600; total, 80,704,800.
CAPITAL, Tokio (Greater), population, 1922, 5,164,300; other cities, census of Oct. 1, 1920; Osaka, 1,252,983; Kobe, 608,644; Kyoto, 591,323; Nagoya, 429,997; Yokohama, 422,938; Nagasaki, 176,534; Hiroshima, 160,510; Hakodate, 144,749; Kure, 130,362; Kanazawa, 129,265; Sendai, 118,984; Otaru, 108,113, Kagoshima, 103,180; Sapporo, 102,580; Yawata, 100,235; and 59 other cities with more than 30,000 inhabitants.

Emperor, Yoshihito; born Aug. 31, 1879; succeeded his father, Mutsuhito, July 30, 1912; married Princess Sadako, May 10, 1900; four sons.
Regent, Crown Prince Hirohito; born April 21, 1901; constituted Regent because of his father's ill health, Nov. 25, 1921; married to Princess Nagako, eldest daughter of Prince Kuni, Jan. 26, 1924.
Premier, Viscount Kofuei Kato; took office June 11, 1924.
Minister of Foreign Affairs, Baron K. Shidehara.
Home Minister, Rejiro Wakatsuki.
Minister of Finance, Yugo Hamaguchi.
Ambassador to the United States, Masanao Hanihara.
Consuls General, at New York, Hirosi Saito; at San Francisco, Ujiro Oyama. *Consuls* at Los Angeles, Chicago, New Orleans, Portland, Ore., and at Seattle. There are honorary Consuls at Mobile, St. Louis, Philadelphia, and Galveston.
United States Ambassador, Edgar A. Bancroft.
United States Consuls General, at Tokio, Nathaniel B. Stewart; at Seoul, Korea, Ransford S. Miller. *Consuls*, at Yokohama, Graham H. Kemper; at Kobe, Erle R. Dickover; at Nagasaki, Henry B. Hitchcock; at Nagoya, Harry F. Hawley; at Taikoku, Formosa, Harvey T. Goodier.

The island empire of Japan lies in the north Pacific Ocean off the coast of China and Siberia from 21° 45′ north latitude, the southern point of Formosa (Taiwan), due east of Hongkong, to 50° 56′ north latitude, the last of the Kurile Islands, a few miles south of Kamchatka. It includes also the southern half of the island of Sakhalin, and the ancient Kingdom of Korea, annexed May 25, 1915, on the mainland. Japan also holds the Kwangtung peninsula (Port Arthur and Dairen) on a 99-year lease, and has the mandate for the Marshall, Caroline, Ladrone and Pelew Islands, former German possessions in the Pacific.

The southernmost island is subtropical; the northernmost subarctic. Were the empire stretched out in the Atlantic off the coast of the United States at the same latitudes, Formosa would lie across Cuba and Southern Florida. Tokio would be due east of Norfolk, Hakodate due east of New York, and Sakhalin would lie athwart Newfoundland, with the northernmost island, Paramushir, off Labrador. In area Japan proper is about the size of New York, New Jersey, Pennsylvania and Ohio combined.

Japan proper, the ancient empire, bears a strong likeness to the British Isles, similarly separated from the continent of Europe; its 148,756 square miles compares with Great Britain and Ireland's 121,633, and its 58,481,500 inhabitants with the United Kingdom's 47,307,601. The Japanese coast is even more deeply indented, its coast line measuring 17,150 miles. Few places in Japan are far removed from the mountains or really distant from the sea. The northern islands are a continuation of the Russian Karafuto chain running down through Yezo and the mainland. The continuation of the Kuentun mountain range of China appears in the southern islands, the ranges meeting in the grand Japanese Alps. In the vast transverse fissure crossing the mainland from the Sea of Japan to the Pacific rises the group of volcanoes, mostly extinct or dormant, with the majestic sacred mountain Fujisan lifting its white cone 60 miles west of Tokio to an altitude of 12,425 feet. The earthquake zone —where the average is said to be four slight ones a day, with very serious ones only every six or seven years—has its greatest centre along the Pacific Coast near the Bay of Tokio.

Soundings in 1924 by the Japanese naval survey ship Manshu found the lowest "deep" in the ocean, 32,636 feet (over 6 miles), 145 miles southeast of Tokio. This lies at the bottom of a precipitous declivity 100 miles off Boshu. The ship also found a submarine volcano, double Mt. Fuji in height, off Cape Ushio in Kii Province. Many of the earthquakes with accompanying tidal waves seem to have their origin here.

Japan suffered the worst disaster in its history on Sept. 1, 1923, when a great earthquake shock, followed by a tidal wave and fire, destroyed the capital city, Tokio, the third largest city in the world, Yokohama, the chief port, and many other towns and health resorts.

The total number of casualties was 246,540, of which 103,733 were wounded, 99,331 killed and 43,476 missing and probably all killed. Houses destroyed by fire numbered 447,128; completely destroyed by collapse, 128,266; washed away by tidal wave, 868; in addition, 126,233 houses half collapsed. The property loss is placed officially at 5,500,000,000 yen.

Under the supervision of the Municipal Reconstruction Bureau in rebuilding Tokio, residential districts

are segregated from commercial and industrial districts. Six new avenues 100 to 150 feet wide will cut across the most crowded sections, supplementing the existing main thoroughfares, and 122 new streets with a minimum width of 36 feet are laid out, replacing narrow and crooked lanes and streets; three large and 52 small parks will be added and a 15,000,000 yen chain of public markets. A subway will be built. It is planned to connect Tokio and Yokohama with a barge canal 17,000 metres long and 200 metres wide to be completed in 1929. Fireproof zones are mapped out and fireproof buildings will be subsidized by the Government. The Government has made a preliminary appropriation of 573,438,849 yen for the work.

On Sept. 1, 1924, one year after the disaster, the police reported that there were 310,000 houses in Tokio where there had been 358,000; of these 176,000 were newly built and mostly temporary structures of wood with tin roofs. The population of Tokio proper, which had been 2,036,136, had decreased to 1,741,500. Many survivors remained in the suburbs, which increased 320,000 in population.

According to official reports 2,956 shocks were recorded in the year since the great earthquake.

Reconstruction work in Yokohama has been slower and fewer permanent buildings have been started. Port conditions were about 70 per cent. of normal. The number of foreign residents on April 21 was 1,118, of which 104 were American.

In February, 1924, a loan of £25,000,000 was floated in London and a loan of $150,000,000 in New York.

Separating the islands of Shikoku and Kiushiu from the mainland is the wonderfully beautiful Inland Sea, opening both into the Sea of Japan and the Pacific. It is 255 miles long and 56 wide, with a coast line of 700 miles and a surface expanse of 1,325 square miles.

Heavy snowfalls are frequent on the Japan Sea slopes of the mountains of Yezo, while the Pacific side, by which flows the Japan Current, enjoys, delightful winter weather. There is an abundant rainfall. The streams are short, swift and often unruly, of little value for transportation, yet offering a vast but as yet little developed supply of hydro-electric power. Myriads of waterfalls add their charm to the magnificent scenery. The "Splendor of the Sun" at Nikko makes an unbroken plunge of 350 feet. There are a thousand mineral springs.

Three-fourths of the mountain land is uncultivable, and the soil of the rest is only moderately fertile, yet by intensive cultivation, hard work and great frugality more than half the people wrest their living from the soil. There is a rich supply of fish of many kinds in the sea, and fish is a staple diet, so a hardy, daring, self-reliant race of fishermen has been developed.

About three-fifths of the arable land is owned by small peasant proprietors, with holdings of an acre, more or less, each. The rest is mostly worked by tenant farmers. More than half the land is used for growing rice, the staple food of the country. The number of acres planted in 1923 was 7,703,279. The crop in 1923 was 8,864,000 metric tons. Large crops are raised of wheat, barley, rye, millet, buckwheat, maize, beans and potatoes, also tobacco and tea. Mulberry trees are widely grown and in 1923 the number of families engaged in silk culture was 1,861,955, with an output of 574,893,482 pounds of cocoons valued at 660,339,808 yen. There were 3,848 factories engaged in the silk industry, employing 64,188 men and 430,110 women.

Forests cover 46,000,000 acres, about 23,000,000 belonging to the state and to the imperial household. Much cabinet wood is produced; the lacquer tree is largely cultivated in the north and the camphor tree furnishes much of the wealth of Formosa.

In the decade 1908-18 the number of industrial establishments doubled, increasing from 11,390 to 22,391, with horsepower increased from 379,556 to 2,006,098; men operatives increased from 248,751 to 646,115, and women operatives from 400,925 to 763,081. By the end of 1920 the number of factories had again doubled—45,806—employing 700,124 men and 786,318 women, a total of 1,486,442 operatives. Government factories in the same decade decreased in number from 196 to 161 but doubled in power and increased somewhat in number of operatives, the figures for 1918 being men, 123,087, and women, 36,349.

The cotton mills also prospered greatly during the war; the capital was increased 288 per cent. by June, 1920, over the pre-war figure, with 3,689,000 spindles as compared with 2,409,900 in 1914. At the end of 1918 there were 6,710 factories with 65,316 men and 218,041 women operatives. The loss in the earthquake was about 15 per cent. (680,000 spindles). The production, however, was speeded up, being 2,155,954 bales of cotton yarn in 1923, as compared with 2,225,274 in 1922. Exports of yarn fell off in value, being valued at 78,439,980 yen in 1923, compared with 114,723,331 yen in 1922. Exports of cotton cloth were valued at 234,400,000 yen in 1923 as compared with 222,052,000 yen in 1922.

In 1922 India supplied 4,944,000 piculs of raw cotton (picul = 132.25 pounds); the United States, 2,899,000; China, 633,000; and Egypt, 108,000.

Japan has become a heavy producer of coal; 31,271,000 metric tons were mined in 1919; 29,245,384 in 1920; 26,220,617 in 1921, and 27,191,711 in 1922. Her total resources are estimated at 8,792 million tons, of which the workable resources are 1,238 million tons. With the exception of one field of 60 million tons of anthracite, all the coal is bituminous. Of petroleum 179,910 metric tons were produced in 1922. The value of Japan's chief mining products since 1906 will be found in a large table accompanying this article.

The difficulty of getting iron during the war compelled Japan to increase its foundries from 20 to 250, and in 1919 these produced 613,000 tons of pig iron and 553,000 tons of steel. Pig iron production dropped 168,870 tons in 1920, 96,648, in 1921, and 77,262 in 1922 Steel kept up better in tonnage, 308,214 in 1920 and 325,300 in 1921, but the value in the latter year was just one-half of the value in 1918. The imports of iron and steel in 1920 were 1,969,000 tons; in 1921, 1,368,300, and in 1922, 2,248,000 tons. About 2,700 factories were engaged in machine making, etc.

Shipbuilding enjoyed an enormous boom during the war. The number of shipyards increased from 6 to 57, with over six times the amount of capital and in 1914-18 the twelve leading yards built 233 steamers of a gross tonnage of 972,807. In 1919, Japan's boom year in shipbuilding, 136 vessels with a gross tonnage of 619,000 were launched. In 1922 only 16 vessels of over 1,000 with a total tonnage of 59,000 were launched. This slump was the cause of extensive unemployment, 100,000 being out of work. General distress was avoided by a grant of liberal bonuses to workmen on dismissal.

Japan in 1923 had 7,011 miles of state owned railroads and 2,005 privately owned, a total of 9,016. Announcement has been made of plans to make the standard gauge 4.85 feet and to complete the work of rebuilding in 20 years. Comprehensive plans have been made for the electrification of the Government railroads, the first section to be the Tokaido line, 408 miles, from Tokio to Kobe. A railway tunnel 7 miles long is under construction between the islands of Kiushu and Honshu under the Moji Shimonoseki Straits. It is expected that it will be completed in 1931 at a cost of 29,230,000 yen.

The Government subsidizes five shipping companies for the foreign trade. In the fiscal year 1922-23 the total subsidy was 6,668,605 yen, and for 1923-24, 6,825,787 has been set aside.

The merchant navy in 1921 consisted of 6,094 steamers of 3,206,125 gross tons, 36,095 sailing vessels of 1,259,936 tons.

There entered the Japanese ports in 1923, 13,158 steamers of 36,801,924 tonnage. Of these 756 of 4,062,787 tons were American; 1,410 of 6,655,828 tons, British; and 10,143 of 23,339,032 tons, Japanese.

There are 60 harbors open to foreign trade, the most important being Yokohama, Kobe and Osaka on the Pacific Coast of the main island, and Niigata on the Japan Sea Coast, the port of transshipment for Vladivostok. Nagasaki, on Kyushu Island, Tamsui, in Formosa, and Fusan, in Korea, are the important ports.

The Japanese in continental United States, by the census of 1920, numbered 111,010 (in 1910 there were 72,157). Of these there were 71,952 in California (an increase of 30,000), 17,387 in Washington, 4,151 in Oregon, and 2,686 in New York. In Hawaii they number 109,274, of which about 17,000, in Honolulu, are tradesmen and the rest labor on the sugar and pineapple plantations or are farmers. In the Philippines there are 10,000. There are about 16,000 in Canada, 3,000 in Mexico, 7,000 in Peru, 30,000 in Brazil, 3,000 in Argentina, 18,000 in Malaysia, and 12,000 in Australasia. In Manchuria, according to the official reports, there were 181,206 in 1919, and in China proper, 31,987. The foreign visitors to Japan number about 30,000 yearly. Foreign residents in 1921 were 23,691.

The marriages in 1921 numbered 519,193 (9.1 to the 1,000); divorces, 53,399 (0.9 to the 1,000); births, 1,990,800 (35.1 to the 1,000); and deaths, 1,288,532 (22.7 to the 1,000).

The chief exports are raw silk, silk waste and silk tissues, cotton yarns and tissue, coal, earthenware and glassware, matches, refined sugar, machinery, copper, tea, toys and camphor. The chief imports are raw cotton and textiles, machinery and iron products, oilcake, wool and woolen tissues, sugar, rice, beans and peas, petroleum, crude rubber, coal, flax, hemp and dyes.

The United States is Japan's best customer, taking between 40 and 45 per cent. of her exports, chiefly raw silk, and supplying from 25 to 30 per cent. of her imports. China is second, taking 25 per cent. of the exports.

Trade with the United States by fiscal years as reported to the U. S. Dept. of Commerce was:

Imports,	1920-21	$189,181,585
"	1921-22	248,534,339
"	1922-23	212,973,582
"	1923-24	283,291,351
Exports,	1920-21	253,217,835
"	1921-22	307,514,995
"	1922-23	372,463,889
"	1923-24	325,342,114

DEVELOPMENT OF THE EMPIRE.

The Japanese fix 660 B. C. as the date of the accession of their first Emperor, Jimmu Tenno, and count the present Emperor the 122d of that dynasty. Ethnologists trace the origin of the Japanese people to Chinese, Korean, Mongol and Malayan sources, a stock mixture that has become thoroughly amalgamated. The hairy Ainus, now surviving in meagre numbers in the island of Yezo, are believed to be the remnants of the aboriginal inhabitants.

For centuries closed to foreign influence or even contact the nation developed a high civilization and a wonderful body of art. Efforts to penetrate the island empire by Dutch traders and by missionaries were equally barren of results. The United States expedition, commanded by Commodore Matthew C. Perry, U. S. N., which arrived in Yokohama in 1853, broke through the reserve and the treaty he sought of amity and the opening of the port to trade was signed in March, 1854. This treaty was followed by a much broader one negotiated by Townsend Harris, the United States Minister, in June, 1857. In Japan then the ruling power was that of the Shogunate, which had been in control since the twelfth century. In 1868, however, the de jure Emperor Mutsuhito (ruled 1867-1912 and posthumously styled Meiji) overthrew the Shogun after a short war and by 1872 had entirely suppressed the feudal system. The change and modification of Japan's social, industrial and political institutions that followed has been the most complete and radical in history.

Able men visited foreign countries and adapted ideas and methods they found there to the needs of their country. The first railroad was begun in 1870. Compulsory military service was made obligatory in 1872, and army training and development on European lines followed. In 1875 Japan got the Kurile Islands from Russia, rounding off her empire to the north. In exchange she relinquished her claim to Sakhalin, the southern half she recovered in 1905 as spoils of the Russo-Japanese War. In 1876 she seized the Liukiu Islands, extending southward to Formosa and in the Chino-Japanese War of 1895 that great island, Formosa (13,944 square miles), larger than the State of Maryland, with a population of 3,654,398 and a great potential wealth was with the Pescadores, her prize of war, and completed the southern half of her territory. In that year of her first great military success Japan drove the Chinese out of Korea, Southern Manchuria, and the Liaotung peninsula. Diplomatic pressure from Russia, France and Germany forced Japan to give up Port Arthur and withdraw from Korea, while Russia then obtained for herself from China a 25-year lease of the Liaotung peninsula with Port Arthur and Dalny the ice free seaport terminus, via the Manchurian railroad, of her Trans-Siberian railroad. Germany also, to avenge two murdered missionaries, compelled China to give her a 99-year lease of Kiaochow and 254 square miles of hinterland in Shantung.

In 1902 Japan made a defensive alliance with Great Britain which protected her from European interference, when she fought Russia from February, 1904, to September, 1905. By the Treaty of Portsmouth Japan obtained the recognition of her paramount rights in Korea (though that country remained independent), also the Russian lease of the Liaotung peninsula (later to be extended by China to 99 years), and also the southern half of the Island of Sakhalin. Moreover, Russia evacuated Manchuria, the development of which Japan coveted. In 1910 she annexed Korea.

Japan came into the World War under the treaty with Great Britain and drove the Germans out of Kiaochow and took the Marshall and Caroline Islands, former German possessions. She took occasion to press her claims for control in China by presenting, on Jan. 18, 1915, the "twenty-one demands." To this China was then unable to resist. By these Japan was to acquire all German rights in Shantung and no part of that province was to be leased to a third power. She also was to receive valuable railroad concessions there and in Southern Manchuria, commercial ports, special trading privileges and mining rights in Southern Manchuria and Mongolia; China also agreed to employ influential Japanese advisers in political, financial, military and police development. In fact, it was a virtual surrender of China to Japan. In July, 1916, Japan and Russia signed a treaty, practically an alliance, whereby Russia recognized Japan's special interests in China and received recognition of her special interests in Mongolia and Turkestan.

Japan announced Oct. 10, 1922, that the former German leasehold of Kiaochow in Shantung, which was captured during the World War, would be restored to China on Dec. 2, 1922, in carrying out the terms of the treaty signed at Washington on Feb. 4, 1922. This was only carried out.

The troops of the Japanese Expeditionary Army in Siberia left Vladivostok on Oct. 25, 1922. The stores of arms and munitions, amounting to 300,000 tons, stored near that port, belonging to the Allies and the United States were handed over to the "Red" army before their departure.

Japan has announced her determination to hold the northern half of Sakhalin Island until her demands for reparation for the Nikolaievsk affair, where 600 Japanese were killed in 1920, have been satisfied.

This and other matters which have caused friction are under negotiation between Russia and Japan.

An attempt on the life of the Prince Regent on Dec. 27, 1923, caused the downfall of the Cabinet of Admiral Count Yamamoto, and his successor, Viscount Kiyoura, was beaten at the general election on May 11, when it was said the total expenditures of candidates and parties exceeded $17,000,000. The new Diet, on July 15, abolished "dual nationality" by an act providing that Japanese born in foreign countries where birth gives nationality shall lose their Japanese nationality from birth unless formal action be taken to preserve their rights to Japanese citizenship. A tax of 100 per cent. was placed on about 250 articles of import classed as luxuries.

Japan, previously an absolute monarchy, is now governed under a constitution promulgated Feb. 11, 1889. The Emperor, who is declared to be "sacred and inviolable," exercises the whole of the executive powers with the advice and assistance of the Cabinet Ministers, whom he appoints and who are responsible to him. He declares war, makes peace and concludes treaties; he "exercises the legislative powers with the consent of the Imperial Diet;" he has supreme command of the army and navy; and he "determines the organization and peace standing of the army and navy." The Emperor has a privy council to consult with on important affairs of state and which interprets the Constitution.

Every law requires the consent of the Imperial Diet, which consists of two Chambers. The House of Peers numbers (1921) 394 members, 16 Princes of the Blood, 13 Princes, 43 Marquises, 20 Counts, 73 Viscounts, 20 Barons, 120 Imperial nominees, and 45 representatives of the largest taxpayers. The House of Representatives has 464 members, elected for four years by 2,800,000 voters, who must be males over 25 paying a direct national tax of not less than three yen. There has been much agitation for universal suffrage. The Cabinet has an entirely free hand to formulate policies of state quite independent of the political parties and of the House, and is often organized independent of it. When it can't control the House it dissolves the Diet. Every law requires consent of the Diet.

The power of the Diet is growing steadily and it has now become an absolute necessity for the Cabinet to control a majority of the Diet, for without its approval no important matter of state can be carried out. The power and influence of the military men, it is said, are declining.

An extra-constitutional but hitherto most influential body is the Genro or Elder Statesmen, consulted on grave matters of policy by the Emperor. Death has reduced their number to three—Prince Saionji, Viscount Kiyoura, and Admiral Count Yamamoto, all men who have played a distinguished part in public affairs. In Japan the outgoing Premier does not always recommend his successor, for the Ministry is not responsible to the Diet. In such instances the Emperor depends on the decision of the Genro.

Governors and sheriffs of prefectures are appointed by the Government. The Mayor is that one of three candidates elected by the municipal assembly who obtains the Emperor's approval. The elected Chief Magistrates of towns and villages must obtain the Governor's approval.

There is absolute religious freedom. The chief forms of religion in Japan are Shintoism and Buddhism. Neither has state support. Elementary education is compulsory. In 1919 there were 612 kindergartens with 51,834 pupils, and 25,625

elementary schools with 172,979 teachers and 8,137,347 pupils. Japan had in 1920 five imperial universities, and 11 other institutions of university rank; the total number of teachers was 1,868 and 32,434 students. The most influential is the Tokio Imperial University established in 1877, which has 417 teachers and 5,283 students.

The language of commerce is English and it is a required study in the secondary schools.

Japan has twelve sects of Buddhism, 71,750 Buddhist temples, 181,100 Buddhist priests and 51,511,100 believers. The thirteen sects of Shintoism, which originated in the combined spirit of Japanese ancestor worship and Imperial veneration, centre in the shrines, which number 171,725, but the Shintō priests number only 14,900. There are twelve forms of Christianity in the empire. The Greek communicants number 65,615, with 131 churches; the Roman Catholics, 14,200 with 189 churches; the Anglican and American Episcopalian Mission, 16,215 with 213 churches; the Methodist Mission, 13,356 with 181 churches, and the Congregational Mission, 15,847, with 151 churches.

Service in the army is universal and compulsory; actual service begins at 20 and lasts two years in the ranks for all arms. The peace strength of the active army is 300,000 men with a reserve of 2,350,000.

The War Department had retired 1,800 officers on Aug. 1, 1923, under the Government's scheme for military reduction. The number is to reach 2,200 by March, 1924. The reduction in non-commissioned officers was 3,000, and privates, 53,000. The retrenchment is equivalent to five divisions on the peace strength and a saving of 354,000,000 yen.

A further reduction was announced in August, 1924, abolishing four more divisions and minor units. Of the 18,000,000 yen saved 13,000,000 is to be used to establish 12 air squadrons, equally divided between pursuit, scout and bombing squadrons, a tank corps, anti-aircraft units, motor transport, schools of chemical warfare and research.

An appropriation of 25,000,000 yen has been made to aid civilian aviation.

The Japanese naval program under the Washington Naval Treaty provides for this fleet:

Class.	*Completed at the End of* 1921.	1922.	1923.
Dreadnoughts	11	10	10
Pre-dreadnoughts	8	...	...
Armored cruisers	12	5	3
Light cruisers	11	12	15
Torpedo gunboats, etc.	4	4	4
Destroyers (60 modern in 1923)	95	98	125
Torpedo boats	20	12	10
Submarines	37	35	45

Japan has carried out the scrapping of warships called for under the Washington Naval Treaty and reduced the personnel of the navy, which was 74,200, by about 12,000. The shipyards discharged 6,000 workmen and the naval arsenals about the same number. The naval appropriation was cut about 106,000,000 yen.

Japan adopted the metric system as the official standard by Imperial ordinance, effective July 1, 1924.

FOREIGN TRADE OF JAPAN.

(From data furnished by M. Katsu, Japanese Financial Commissioner.)

KOREA (CHOSEN).

AREA, 84,738 square miles (including islands).

POPULATION, census estimate of 1924, 18,313,800, including about 337,000 Japanese and about 23,000 foreigners.

CAPITAL, Seoul; population, 1919, 250,942 (Koreans, 182,207; Japanese, 66,943); other cities, Fusan, population, 1919, 63,567; Pingyang, 62,775; Taiku, 40,065; Kaisong, 39,855; Chemulpo, 29,989.

Governor-General, Admiral Baron Saito.

United States Consul General, at Seoul, Ransford S. Miller.

Korea is an ancient kingdom with a history extending back to the twelfth century B. C. but during recent centuries the "Hermit Kingdom." It occupies a peninsula in northeastern Asia dividing the Yellow Sea from the Sea of Japan. The boundaries on the mainland are the Yalu River and the Tamean River. The mainland is as large as the State of Minnesota. Its coastline is over 6,000 miles long. Southern Manchuria lies along its northwest frontier for 500 miles and it touches Siberia for a few miles, a scant 100 miles from Vladivostok, in the extreme northeast. Situated between that Russian port and Port Arthur, then a Russian leasehold and subject to diplomatic control and penetration by Russia, Korea became to Japan "a dagger pointed at her heart"—the chief immediate cause of the Russo-Japanese War of 1904-1905. After this war the "complete independence" of Korea that had been recognized in the treaty following the Chino-Japanese War of 1894-95 (which also was for the control of Korea), gave way to a recognition by Russia of Japan's paramount interest in Korea. Japan continued her military occupation of the country, and in 1910 annexed Korea outright.

The administration of the country has been in the hands of a Military Governor of high rank directly responsible only to the throne. The first was Gen. Terauchi, who on becoming Premier of Japan relinquished the office to Gen. Count Hasegowa.

Recent reforms, following nationalist disturbances, make the Governor-General responsible to the Premier of Japan, open the office to civilians, and promise steadily increasing measures of local autonomy and reduction of military rule.

The former Emperor of Korea is now known as H. I. H. Prince Yi Wang; he receives the treatment of a Prince of the Blood in Japan and enjoys an annual grant of 1,500,000 yen, the same as before annexation.

Korea had no system of education when brought under Japanese control. Only about 10 per cent. of the children of school age, and these all of the upper classes, attended school, where they learned something of the Chinese classics. At the end of 1918, 462 public common schools had been established, attended by 76,898 boys and 10,481 girls. In addition there were 809 private schools of which 323 were connected with foreign missions. There were also 380 purely Japanese elementary schools with 42,811 pupils. Secondary and technical schools in that year numbered 109.

Confucianism and Buddhism are the chief religions and Christianity has gained a great vogue among all classes. The mission force numbers about 2,500 with about 300,000 Korean converts.

The country is mountainous, especially in the north, where the forests are of great value, and there is much mineral wealth awaiting development. There are extensive fertile plains well watered by good rivers in the south and west, where are the five excellent harbors of Fusan, Mokpo, Chemulpo and Chinnampo. The larger rivers in the west can at full tide float boats far up the streams. At Ninsen is a tide of 33 feet.

The climate is dry and bracing. The mulberry tree thrives, 60,000 acres being planted with them. Silkworm culture has been much encouraged by the Japanese and the quality of the cocoons improved. Some 400,000 families are engaged in the industry. The cultivation of tobacco is also fostered. Stock raising is everywhere an important industry. Afforestation and irrigation are being systematically carried on by the Government.

Mining concessions covering 270,000 acres, mostly gold-bearing, which had been in the hands of about fifteen foreign corporations (four American) and individuals (four Americans) before annexation are respected, but a new law (April 1, 1916) prohibits foreigners from acquiring mining rights. Gold, silver, zinc, copper, lead, iron, tungsten, graphite, anthracite coal and kaolin are present. In 1919 the value of gold produced was 25,314,500 yen. The output of Pyongyang coal, anthracite (Government owned), in 1919 was 128,274 tons.

The trade of Korea is almost entirely in the hands of the Japanese, who also have provided 85 per cent. of the capital for the 1,500 factories already established.

The mileage of the Government owned railroads in 1923 was 1,178. The chief line is the transpeninsula line (585 miles), from Fusan, where the Fusan-Shimonoseki ferry service connects with the Imperial Japanese railroads, to Antung, at the mouth of the Yalu River, across the Manchurian boundary, where it connects with the Antung-Mukden line of the South Manchurian Railway, thus forming part of the two international through traffic lines—Japan to China, and Japan to Europe via the Trans-Siberian Railway. The total investments in the Government railroads amount to over 130,000,000 yen, and the profits in 1920 and 1921 were 3,874,000

and 6,627,000 yen, respectively. There are 230 miles of privately owned railroads.

Steamships entering Korean ports in 1922 numbered 5,099 of 4,216,321 tonnage, 85 per cent. being Japanese.

The unit of currency is the yen—49.8 at par of exchange: rate Oct 15, 1924, 38.54.

Korea was a drain on the Japanese Imperial Government until 1919, when the administration became for the first time financially independent. The budget for 1923-24 is balanced at 146,007,225 yen.

KWANGTUNG.

(Leased for 99 years from China.)

AREA, 1,305 square miles.

POPULATION, census of 1922, 686,893 (603,884 Chinese and 82,766 Japanese).

CAPITAL, Dairen (formerly called Dalny); population, 1919, 108,228.

Civil Governor, I. Yamagata.

United States Consul, at Dairen, Leo D. Sturgeon, (V. C.)

Kwangtung is the southern part of the Liaotung peninsula, the southernmost portion of Manchuria, which has the Bay of Korea on the east, the Yellow Sea to the south and the Liaotung Gulf on the west. Japan had taken it as spoils of war from China by the Treaty of Shimonoseki but was forced to turn it back by diplomatic pressure from Russia, Germany and France. Russia then leased it for 25 years from China, and constructed the strongly fortified city of Port Arthur and the nearby commercial port of Dalny (now Dairen).

Japan took Port Arthur by siege ending with a brilliant assault in 1905, and at the conclusion of the Russo-Japanese War took over the lease in the Treaty of Portsmouth, 1905. In May, 1915, the lease was extended to 99 years by China. Kwangtung by Imperial Ordinance of April 12, 1919, was given a civil government superseding the former military government.

Dairen is a free port, the chief seaport of Manchuria and the southern terminus of the South Manchurian Railroad, which connects with the Peking and Korean lines at Mukden and with the Trans-Siberian at Changchun. It is a well-built well-governed modern city with varied industries.

The budget for 1923-24 balanced at 1,589,485 yen and included a grant from the National Treasury of 4,000,000 yen.

The number of vessels that entered the port in 1920 was 2,142 with a tonnage of 4,864,904; of this tonnage 3,408,369 was Japanese; 483,073 Chinese; 421,028 British; 381,729 American; 34,136 Russian; French, 18,277, and Norwegian, 11,618. Beans (567,129 tons), bean cake (1,131,208 tons), and cereals (707,237 tons) furnished the bulk of the exports. The value of the foreign trade was:

Imports, 1920	$207,913,839
" 1921	83,076,104
" 1922	76,231,419
Exports, 1920	221,517,637

" 1923-24	2,337,337

FORMOSA (TAIWAN).

AREA, 13,944 square miles.

POPULATION, census of Dec. 31, 1923, 3,757,838; Japanese, 166,621, natives, 3,481,833; aborigines, 84,548; foreigners, 24,836.

CAPITAL, Taihoku. pop , 1920, 164,329; Tainan, pop., 77,026

Governor General, Baron K Den.

Formosa is an island the size of Massachusetts and Connecticut lying between the Philippines on the south and Japan to the north, with the China Sea on the west and the Pacific Ocean on the east. A range of mountains from north to south forms the backbone of the island (highest peak, Mt. Niitaka, 14 500 feet); the eastern half is exceedingly steep and craggy, but the western slope is flat, fertile and well cultivated, yielding two rice crops a year. The temperature rarely falls below 96° F. Rain is abundant. Production of rice in 1921 was 24,625,000 bushels; sugar, 252,734 metric tons; tea, 10,582,687 kilos; coal, 1,037,645 metric tons; petroleum, 11,949 hectolitres. Gold, silver and copper are also mined. Ramie and jute are exported.

Formosa has been the world's chief source of camphor, the high mark of product being in the war years. In 1915, 2,772,110 kilos of camphor and 4,128,745 kilos of camphor oil were produced; in 1922 production declined to 782,463 kilos of camphor and 4,068,632 kilos of oil. Camphor since 1899 has been a monopoly of the Government, which, keenly alive to reckless destruction of the trees, began an extensive planting in 1917 and in 1923 brought the total area up to 50,000 acres. Opium is another Government monopoly handled with the policy of suppressing the smoking by gradual prohibition. The number of licensed smokers, which in 1900 was 169,064, in 1920 had been reduced to 48,011.

Formosa was ceded by China in 1895 after the China-Japanese War and Japan has made it a source of profit. Japanese colonists were encouraged, schools established, 396 miles of railroads built, telegraph and telephone lines laid, harbors improved, industries encouraged and much done in public works. The aborigines, who in the north are savage head-hunters, gave much trouble, and in 1910 the Government began a thorough subjugation program with an appropriation of 9,750,000 yen to extend over five years. Out of a total of 697 tribes of 160,000 persons, 551 tribes of 116,744 have vowed allegiance.

The budget for 1923-24 balanced at 99,883,648 yen. Imports in 1923 were valued at 110,129,492 yen, of which 70,921,625 yen were from Japan; and exports, 198,594,802 yen, of which 169,442,365 yen were to Japan. The balance of trade for ten years has been largely in favor of Formosa.

The Pescadores, twelve islands with an area of fifty square miles, stretching northward toward Japan, are under the Formosan Government.

Japanese Sakhalin (Karafuto) is the southern half of the island of that name, below the 50th parallel, which was ceded by Russia in October, 1905, in the Treaty of Portsmouth. The area is 13,253 square miles, and the population, Dec. 31, 1923, was 150,600. The country is mountainous, and primeval forests cover 70 per cent. of the land. Coal output in 1922 was 114 549 tons. The fisheries are important, the product in 1922 being valued at 11,218,267 yen. In an effort to colonize the island 6,292 families, numbering 25,507 persons, have been placed on the land. The cultivated area amounts to 43,000 acres with 111,150 acres of pasture. The budget for 1923-24 balanced at 18,098,256 yen, and includes a grant of 1,786,000 yen from the National Treasury.

JUGO-SLAVIA

(See Serbs, Croats, and Slovenes, Kingdom of).

LATVIA, REPUBLIC OF

AREA, 25,000 square miles.

POPULATION, Jan. 1, 1923, 1,885,870.

CAPITAL, Riga; population, 1922, 280,000; other cities, Libau, population, 77,000; and six with more than 10,000.

President, Jan Chakste.

Premier, W. Samuels (Foreign), Jan. 30, 1924.

Minister to United States, vacant.

Consul, at New York, Arthur B. Lulc (in charge of Legation).

United States Minister, Frederick W. B. Coleman; also accredited to Esthonia and Lithuania.

United States Consul, at Riga, John P. Hurley.

Latvia, formerly a Russian province, became a republic Nov. 17, 1917. final elections being held on April 17, 1920, and the Legislative Assembly meeting first on May 1, 1920. It is bounded on the north by the Gulf of Riga and Esthonia, on the east by Russia, on the south by Lithuani., and Poland, and on the west by the Baltic Sea. It is one of the three Baltic states of North Central Europe. It is about the size of the State of West Virginia and has a little larger population.

About half the people engage in agriculture,

dairying, livestock and other food producing industries Flax is the important product. Pre-war flax acreage was 275,000 and annual crops were 30,000 tons of fibre and 25,000 tons of seed, exported mostly to Germany. Holland Belgium and England. War devastation reduced the flax acreage to 70,000, and another cause was the flight of 500,000 farmers as refugees. Production in 1923 was: flax fibre and flaxseed, 35,000 tons from 138,500 acres; rye, 7,397,296 bushels from 657,000 acres; barley, 6,857,294 bushels from 435,000 acres; oats 18,870,189 bushels from 757,000 acres.

The 1923 census showed: horses, 338,300; cattle, 900,000; sheep, 1,461,000, swine, 484,000.

Forests cover 3,775,000 acres of the total in the country of 16,000,000. Lumber is one of the chief exports.

Industry is beginning to count in the national wealth. the paper, match, wood distilleries and woodwork output having already attained large proportions for so small a country.

Other industries—metals. chemicals, textiles, and scattering—produce annually about $113,500,000 worth

Latvia's importance is enhanced by the fact that it is the natural route for through international trade between Russia and western nations. Pre-war. 20 6 per cent. of all Russian imports and 28 per cent. of all exports passed through Latvian territory Excellent harbors at Riga, Liepaja and Ventspils made this possible, and three Russian main railway lines converge at Riga, Windau and Libau, all ports of Latvia.

On Jan 1, 1924 Latvia's merchant marine included 31 steamships of 38,310 tons; 56 sailing vessels of 9,129 tons; and 9 motor ships of 993 tons; total, 96 ships of 48,432 tons. In 1922, 2,878 vessels of 1,293,515 tons entered the ports. The coast line is 340 miles long.

The railway mileage is 1,825 miles.

Latvia is Protestant by 76.54 per cent., Roman Catholic by 18.49 per cent., and there are Baptists, Moravians and other faiths.

In 1910 only 3.2 per cent. of the people were illiterate. and the native Letts form 80.41 per cent. of the total population.

Latvia is a member of the League of Nations.

The unit of currency is now the lat (=50 Latvian roubles = one gold franc = $0.193 at par of exchange).

The Latvian rouble was stabilized at that point, and up to Nov 1 1922 2,418,974,481 rouble currency notes had been issued, guaranteed by all the property of the state On that date the Bank of Latvia, the chief shareholder of which is the Latvian Government, began operations; now only this bank has the right to issue currency notes.

The budget for 1924 is: revenues, 147,108,016 gold lats; expenditures, 137,001,294 gold lats.

The internal debt amounted on Nov. 1, 1923, to 383,412 lats in addition to the currency notes, and the foreign debt was: to the United States, $2,521,870; to the American Relief Administration, $2,610,418; to Norway, 4.737,558 crowns; to Great Britain, £20,169 to private banks £163,845.

Foreign trade in 1922 was: Imports, 5,352,247,295 Latvian roubles and exports, 5,099,600,000.

Trade with the United States was:

Imports,	1921-22	$6,660,589
"	1922-23	5,724,231
"	1923-24	826,434
Exports,	1921-22	275,432
"	1922-23	2,554,436
"	1923-24	5,187,721

LIBERIA, REPUBLIC OF

AREA, estimated, 36,834 square miles.

POPULATION, estimated 1,500,000.

CAPITAL, Monrovia, population, estimated, 1920, 4,000

President, Charles D. B. King, 1924-28.

Consul General in the United States, at Baltimore, Ernest Lyon. *Consuls*, at New York, Philadelphia, St Louis, Mobile, Galveston, San Francisco, Chicago, and New Orleans.

United States Minister and Consul General, Solomon Porter Hood.

Receiver of Customs and Financial Adviser (designated by the United States Government), H. F. Worley.

Liberia lies on the southwest (Guinea) coast of Africa between Sierra Leone (British) on the west and the French colony of the Ivory Coast on the east, with a coast line on the South Atlantic of about 350 miles. It extends inland about 200 miles. Beyond 25 miles there is no civilized settlement. Most of the country is covered with tropical forests rich in timber and oil nuts but lacking in transportation. There is one motor road, 20 miles long.

The country has now a bonded indebtedness of $1,700,000 floated by New York bankers in 1912, with an internal floating debt of about $500,000.

The population is entirely of the African race: about 100,000 of the dwellers along the coast may be considered civilized. The number of American Negroes is estimated at 12,000. Liberia was founded in 1822, when a settlement was made at Monrovia by Negro freedmen from the United States with the assistance of American colonization societies. It was declared a free and independent republic on July 26, 1847. Its Constitution is modelled on that of the United States. Electors must be of Negro blood and owners of land. The Government rests with a President elected for four years, a Senate elected for six years, and a House of Representatives elected for four years.

The control of customs since 1912 has been in the hands of a General Receiver and Financial Adviser, designated by the United States.

Government schools are supplemented by mission schools, mostly of Protestant denomination. The Methodists maintain a college at Monrovia. There is an organized militia of 650 men, with reserves of 2,500.

Liberia was a signatory of the Versailles Treaty and is a member of the League of Nations.

Coffee, rubber, oil, nuts, raffia, ivory and ginger are the chief exports; and textiles, hardware, glass and earthenware, tobacco, spirits, rice and foodstuffs are the principal imports. In 1920 there entered at Monrovia 446 vessels of 525,314 tonnage.

The budget in 1921-22 was: Revenues, $507,955; expenditures, $487,543.

Imports in 1921 were valued at $1,232,000; and exports at $820,000.

Trade with the United States was:

Imports,	1920-21	$189,002
"	1921-22	178,048
"	1922-23	175,555
"	1923-24	179,318
Exports,	1920-21	3,532
"	1921-22	1,444
"	1922-23	53,401
"	1923-24	8,501

LIECHTENSTEIN

(Principality).

AREA, 65 square miles.

POPULATION, 1912, 10,716.

CAPITAL, Vaduz; population, 1,376.

Prince, John II, born Oct. 5, 1840; succeeded his father Nov. 12, 1858.

Administrator, appointed by the Prince, Gustav Schaedler (1922).

Liechtenstein is on the Upper Rhine between Austria and Switzerland. It was a member of the German Confederation until 1866. Since that time it had practically been a dependency of Austria, but on Nov. 7, 1918, the Diet declared its complete independence. By treaty with Switzerland in 1921 that country administers its posts and telegraphs and it is included in the Swiss customs union.

On the death of the reigning Prince, the state will become part of the Swiss Confederation.

The population is agricultural; stock raising is highly developed. The monarchy is hereditary. By the Constitution, October, 1921, legislative powers rest in a Diet of 15 members, elected for four years by direct vote, on a basis of universal suffrage and proportional representation. The budget for 1922 balanced at 384,500 francs. There is no debt.

LITHUANIA, REPUBLIC OF

AREA, estimated 33,000 square miles.

POPULATION, census of Sept. 1923 (exclusive of Memel and Vilna) 2,011,173; of which 1,696,158 are Lithuanians; 153,332 Jews; 64,015 Poles; 48,392 Russians; 23,973 Germans; 14,318 Letts; and 4,656 other racial groups.

CAPITAL, Kovno, temporarily; population, 91,302.

President, Alexsandras Stulginskis, elected Dec. 21, 1922.

Premier, E. Galvanauskas, Feb. 22, 1923.

Minister to the United States, Kazys Bizauskas.

Consul, at New York, Dr. J. J. Bielskis; at Chicago, Povilas Zadejkis.

United States Minister, Frederick W. B. Coleman; also accredited to Esthonia and Latvia.

United States Consul, at Kovno, Harry E. Carlson.

Lithuania, a Baltic state, is bounded on the north by Latvia, on the east by Russia, on the south by Poland and East Prussia and on the west by East Prussia and the Baltic Sea. It is about the size of the State of Maine.

Lithuania was a Grand Duchy under the Russian Empire, having shared the fate of Poland. After the Bolshevists captured the Russian Government, the republic proclaimed its independence on Feb.

16, 1918. It was recognized by most of the powers and by Russia in the Treaty of Moscow, July 12, 1920. The dispute with Poland, relative to whether or not certain Lithuanian areas were to be left as a part of the country or become part of Poland, was under consideration by the League of Nations when on Oct. 9, 1920, General Zeligowski, with 15,000 Polish troops, occupied Vilna, historic Lithuanian capital and declared it annexed to Poland. The Polish Government proclaimed Zeligowski a rebel, but he remained there many months. Vilna by a decision of the League of Nations in 1923, with its strip of territory was awarded to Poland.

Memel and its territory (area 1,057 square miles, population 138,530), a seaport on the Baltic between Lithuania and East Prussia, was detached from Germany under the Treaty of Versailles and placed under the control of the Council of Ambassadors. Irregular bands of Lithuanians rushed the city in 1923. The city and territory was on Feb. 16, 1923, handed over to Lithuania subject to certain conditions to regulate the use of the port by both Lithuania and Poland. Under the sovereignty of Lithuania the Memel territory is a unit enjoying legislative, judicial, administrative and financial autonomy according to convention signed with the great powers. Ratification was secured May 17, 1924, by a commission headed by an American, Norman H. Davis appointed by the League of Nations.

Lithuania is a member of the League of Nations.

Legislative power is vested in a constituent Assembly of 112 members, elected directly on a basis of proportional representation by universal equal suffrage. The Assembly elects the President.

Eighty per cent. of the people engage in agriculture, cultivating in 1923, 3,527,654 acres of which 128,687 were in flax. Rye and potatoes are the chief crops. By the Agrarian Act no person may possess more than 80 hectares of land (197.6 acres). Some 700,000 hectares were affected and from 1919 to Sept. 30, 1923, 131,822 hectares had been parcelled out to 13,402 persons. Compensation has yet been made to expriated land-owners.

Forest wealth also gives export of timber. Forests cover a fourth of the total area, pine, fir and hardwood.

The industries employed, in 1922, 42,000 persons, and concerned utilization of the country's products.

Lithuania is on the through railway route from Paris, Berlin, Warsaw to Riga, Dvinsk and Leningrad, and regards the international rail traffic as one of its principal points of importance, it being the intention to develop facilities for its proper care.

There were 1,550 miles of railroads in 1920.

Pre-war there were 871 schools with 40,330 pupils. In 1922 there were 1,801 schools with 177,379 pupils.

A state university was opened in Kovno, Feb. 16, 1922.

The budget for 1922 balanced at 4,312,280,089 lits; that for 1923 balanced at 199,276,346 lits. The surplus on Jan. 1, 1924, was 5,000,000 lits. The budget for 1924 was: Revenues, 205,372,363 lits, expenditures, 197,020,631 lits. The external debt in March, 1924, was: To the U. S. Treasury, $5,041,627; to Lithuanians in America, $1,665,972; to Great Britain, £16,813; to France, 2,800,000 francs; internal debt, 2,650,000 lits.

Trade in 1922 was: Imports, 74,884,600 lits; exports, 76,892,400 lits; in 1923, imports, 156,627,000; exports, 146,794,700 lits.

Trade with the United States was:

Imports,	1921-22	$63,968
"	1922-23	78,763
"	1923-24	73,265
Exports,	1921-22	62,850
"	1922-23	90,721
"	1923-24	194,336

LUXEMBURG, GRAND DUCHY OF

AREA, 999 square miles.

POPULATION, census of Dec. 1922, 260,767.

CAPITAL, Luxemburg, population, 1922, 47,559.

Grand Duchess, Charlotte, born Jan. 23, 1896; succeeded on the abdication of her sister, Marie Adelaide, Jan. 9, 1919; married Prince Felix of Bourbon-Parma on Nov. 6, 1919; *Heir*, their son, Prince Jean, born Jan. 6, 1921.

President of Government, Emile Reuter.

Minister to the United States, vacant; Baron Raymond de Waha, Charge d'Affaires.

Consuls, at Chicago, Pierre Kransz; at Minneapolis, Emile Ferrant; at New York, Michel Hellinck.

United States Minister, William Phillips, (also Ambassador to Belgium, address Brussels).

Luxemburg is a European Grand Duchy fourfifths the size of Rhode Island, situated between Germany on the east, Belgium on the west, and France on the south. Its integrity and neutrality were guaranteed by the Treaty of London, May 11, 1867, having been previously, since 1815, a part of the Germanic Confederation. It, however, remained in the German Customs Union, formed in 1842. German capital built its railroads and its iron and steel furnished material before and during the war to the Germans, who occupied the country throughout the war.

A referendum (under universal suffrage) taken Sept. 28, 1919, to settle some of the problems brought to the front by the World War resulted in the following vote out of a total of 90,984: For the reigning Grand Duchess, 66,811; for a continuation of the dynasty under another Grand Duchess, 1,286; for another dynasty, 889; for a republic, 16,885; for an economic union with France, 60,133; for an economic union with Belgium, 22,242. France declined the union in favor of Belgium. A treaty was then negotiated between Luxemburg and Belgium eliminating the customs barrier and providing for the use of Belgian money in the Grand Duchy. The agreement came in force April 1, 1922, and is for 50 years.

The Grand Duchy is governed under the Constitution of 1868 as amended in 1919. Legislative power rests with a Chamber of 48 Deputies, elected by universal suffrage (men and women over 21). Executive power rests with a Minister of State and President of Government and a Cabinet of four Directors-General. The population is almost entirely Catholic. Education is compulsory for children between the ages of six and thirteen.

Agriculture gives occupation to 90,000 of the population. The total value of the produce in 1921 being 124,300,000 francs; but mining is the chief industry. Iron ore mined in 1923 amounted to 4,097,540 metric tons; in 1922, 4,488,974 tons; and in 1913, 7,333,372 tons. The production in 1921 was pig iron, 1,685,700 tons, and steel, 1,394,103 tons. There were in 1924, 330 miles of railroads.

MESOPOTAMIA.

(See the Kingdom of the Iraq.)

MEXICO, REPUBLIC OF

AREA, estimated, 767,198 square miles.

POPULATION, census of 1921, 13,887,080.

CAPITAL, Mexico City, population, census of 1923, 633,367 (of which 12,063 are Spanish, 2,382 Americans, 1,652 French, 1,223 Germans, 803 Cubans, 610 English, 6,322 other nationalities); chief cities, Guadalajara, pop. 119,468; Puebla, 96,121; Vera Cruz, 48,633; Tampico, 16,313; San Luis Potosi, 85,000; and Monterey, 85,000.

President, Gen. Plutarco Elias Calles, 1924-28, inaugurated Dec. 1, 1924.

Premier, vacant.

Ambassador to the United States, vacant; Charge d'Affaires, Senor Don Manuel C. Tellez, (M.).

Consuls General in the United States, at New York, Alberto Mascarenas; at San Francisco, Leandro Garza Leal; at New Orleans, Arturo M. Elias; at El Paso, Enrique D. Ruiz; at San Antonio, Alejandro Lubbert. *Consulates* are maintained at Douglas, Naco, Nogales, Phoenix, Rowood-Ajo, Tucson and Yuma in Arizona; at Calexico, Los Angeles and San Diego in California; at Albuquerque in New Mexico; at Beaumont, Brownsville, Corpus Christi, Dallas, Del Rio, Eagle Pass, Galveston, Houston, Laredo, McAllen, Marla, Port Arthur and Rio Grande in Texas; and at Denver, Jacksonville, Tampa, Chicago, Indianapolis, Baltimore, Boston, Detroit, Kansas City, St. Louis, Oklahoma City, Cincinnati, Cleveland, Philadelphia, Pittsburgh, Salt Lake City, Norfolk, Seattle and Milwaukee.

United States Ambassador, James R. Sheffield.

United States Consul General, at Mexico City, Alexander W. Waddell; *Consuls*, at Vera Cruz, John Q. Wood; at Monterey, Paul H. Foster; at Acapulco, Harry K. Pangburn (V. C.); at Ciudad Juarez, John W. Dye; at Matamoros, vacant; at Mazatlan, William E. Chapman; at Mexicali, Henry C. von Struve; at Progreso, O. Gaylord Marsh; at Nogales, Henry C. A. Damm; at Tampico, James B. Stewart; at Frontera, Robert L. Rankin; at Aguascalientes, Lee R. Blohm; at Chihuahua, Thomas McEnelly; at Ensenada, Leighton Hope; at Guadalajara, Dudley Golding Dwyre; at Guayamas, William P. Blocker; at Nuevo Laredo, Harry L. Walsh; at Piedras Negras, Drew Linard; at Saltillo, Monnett P. Davis; at San Luis Potosi, Walter F. Boyle; at Torreon, Bartley F. Yost; at Durango, David J. D. Myers.

Full recognition of the government of Gen. Obregon, President of Mexico, was extended by

the United States Government on Aug. 31, 1923, following conferences which were held in Mexico City from May 14 until Aug. 15 by personal representatives of Presidents Harding and Coolidge and President Obregon. The personnel of the American-Mexican Mixed Commission was: American delegates, Charles Beecher Warren and John Barton Payne; Secretaries, L. Lanier Winslow and Robert H. Murray; Mexican delegates, Ramon Ross and Fernando Gonzalez Roa; Secretary, Juan F. Urquidi. Mr. Warren was later made Ambassador to Mexico, serving until Aug. 5, 1924.

Mutually acceptable understandings and agreements on all questions at issue between the two Governments were reached by the commission. Each Mexican law or decree affecting American property rights was discussed and definitely construed to the satisfaction of both the American and the Mexican Governments. By this process assurances satisfactory to the United States were given that the provisions of Article 27 of the Mexican Constitution, concerning American petroleum and other property rights, should not operate retroactively; legal titles of petroleum properties, purchased and developed as such prior to the promulgation of the Mexican Constitution in 1917, were confirmed absolutely; the United States reserved all of its rights under international law with respect to titles acquired by its nationals before May, 1917, to properties which are supposed to be petroleum-yielding, but which have not been developed and proved; and that American property expropriated by the Mexican Government in the carrying out of its agrarian policy shall be paid for at its just value.

Agreements also were signed providing for the creation of two Mixed Claims Conventions, according to proposals advanced by the Mexican Government in 1920. One commission will pass upon claims of American nations for damages sustained during the revolution. The second commission will adjudicate all other questions in dispute. These claims conventions were ratified by the United States Senate and by the Mexican Senate on Feb. 1, 1924.

The face value of the revolutionary damage claims of Americans against Mexico is problematical, but it is estimated that they aggregate, roughly, $500,000,000.

PHYSICAL CHARACTERISTICS.

Mexico is bounded on the north by the United States, on the east by the United States (Texas), the Rio Grande forming the boundary line, and the Gulf of Mexico; on the south by Guatemala and on the southwest and west by the Pacific Ocean. The Gulf of California, 739 miles long with a maximum width of 190 miles, makes a huge indentation in the western coast, completely separating the narrow mountainous sterile and sparsely inhabited peninsula of Lower California, 760 miles long, from the mainland. On the east the province of Yucatan juts out into the Gulf of Mexico, connected with the main territory of the country by a narrow strip northwest of the Guatemala frontier. The coast line on the Pacific is 4,574 miles long and 1,727 on the Caribbean.

The Sierra Madre range runs north and south near the western coast, turning near Colima and continuing nearly due east paralleling the coast into Central American countries. Near the Gulf Coast a range of mountains—a continuation of the eastern range of the Rocky Mountains—runs down nearly to Vera Cruz. Loftiest of the extinct volcanoes are Popocatepetl, altitude, 17,888 feet, Ixlaccihuatl, altitude, 17,343 feet, and Orizaba, altitude, 18,209 feet.

Between the two ranges lies the vast tableland of Mexico, altitude from 5,000 feet to 8,000 feet, with a delightful climate (like New York in September) and with the vegetation and products of the temperate zone varying with the altitude. The lowlands along the coast are tropical, rising to sub-tropical in the foothills; hot, and unhealthy with a heavy rainfall on the Gulf side. Along the Pacific slope and in the interior irrigation is needed and natural streams from the mountains are put to use with increasing zeal.

Agriculture and stock-raising are the chief industries. The country is marvellously rich, but the land is barely scratched except on the larger ranches; primitive methods of cultivation prevail. The cultivated lands amount to about 30,000,000 acres (of which 20,000,000 require irrigation) the grazing lands 120,500,000 acres and forests 44,000,000 acres, of which 25,000,000 are estimated to be rich in pine, spruce, cedar, mahogany, rosewood and logwood. The principal products are corn, cotton, henequen (sisal), wheat, coffee, beans, tobacco, sugar and molasses. In 1924 there were 2,363,427 cattle, 512,336 horses, 300,960 mules, 1,196,098 sheep, 2,106,044 goats, and 1,609,046 pigs. Cattle, hides and tallow were among the chief exports.

President Obregon in August, 1923, issued a new land decree opening to all Mexicans over 18 years of age (including citizens by naturalization) Federal lands for agricultural uses. One plot only may be taken by one owner, who is forbidden to sell to a foreigner or to any Mexican owning as much or more acreage. Lands which may be irrigated are limited to 25 hectares (1 hectare = 2.47 acres), dry lands up to 100 hectares and pasture lands up to 500 hectares. The Government's fee is $25 gold.

Next to agriculture, the chief wealth of Mexico is in its minerals, and mining has been the most highly developed of her industries since the days of the Spanish conquest. The total value of silver mined from the first year of the Spanish conquest (1521) to January, 1922, was $3,000,000,000, somewhat more than 155,000 tons in weight, according to figures compiled by the Bureau of Mines of the Mexican Department of Commerce and Industry, being two-thirds of the world's silver production for the last 400 years. About $500,000,000 American capital is invested in mining. Mexico now yields over one-third of the world's production of silver and about 5 per cent. of its gold.

Mineral production for 1923 up to December, when the de la Huerta revolution broke out, was: Gold, 22,325 kilos; silver, 2,552,550 kilos; lead, 138,468,318 kilos; and copper, 47,521,134 kilos; a great increase over 1922.

Mexico has an abundance of low grade coal, much like that of Texas, with 300,000,000 tons in sight. In Coahuila, 715,789 tons were mined in 1920.

PETROLEUM PRODUCTION.

The petroleum industry in Mexico, which, in 1920, produced 23.5 per cent. of the world's output, became a commercial factor in 1910. The total production from 1901 to 1920 has been 563,524,000 barrels, or 80,470,000 metric tons. Oil had been discovered in 1901 in the Tampico district. In 1910 the famous Juan Casiano No. 7 well was drilled, and the equally famous Potrero del Llano No. 4 came in later with an initial flow of 10,000 barrels daily, increasing to 160,000 barrels, establishing itself as the largest producer up to that time. These were in the southern part of the Tampico district.

In January, 1914, in the Panuco pool, a well with a flow of 100,000 barrels daily was brought in. On Feb. 10, 1916, the Cerro Azul No. 4 well, in the southern district, was completed, and on the 19th flowed 260,858 barrels, being estimated the largest producer ever drilled. In 1921 it was still continuing its steady yield.

Plenty of wells with large initial capacity have been completed in the Casiano pools. The Alamo pool, the southernmost producing area in the Tampico-Tuxpam region, came into prominence in October, 1914, when the famous Alamo No. 2 well began to flow. It is estimated to have produced by May, 1921, 27,000,000 barrels of oil.

In 1919 and 1920 large gushers came in in the Naranjas pool in the southern field which produced about 90,000,000 barrels in 1920, considered to be the largest output in history.

The Potrero del Llano No. 4 well suddenly went to salt water in December 1918, after producing up to that time about 100,000,000 barrels of oil. The Juan Casiano No. 7 well went to salt water in November, 1919, after producing about 80,000,000 barrels of oil. Many of the large wells in the Tepetate pool and the Panuco field were affected by salt water in 1919 and 1920. There are important wells in the Toteco district, and in 1920 it was estimated this field produced 120,000,000 barrels, all in a strip of land 42 miles long and less than 1 mile wide.

In 1922, in the Tampico district, 280 wells were drilled, of which 145 were producers, 89 dry holes and 46 salt water wells. In the Panuco, 163 wells were drilled and 117 in the southern fields.

In 1923, 261 new wells with a total average daily production of 951,363 barrels were brought in.

The petroleum production of Mexico from 1908 to 1923 was as follows:

	Barrels.	Met. Tons
1908	3,932,900	624,968
1909	2,713,500	431,175
1910	3,634,080	577,455
1911	11,552,798	1,994,640
1912	16,558,215	2,631,100
1913	25,696,291	4,083,141
1914	26,235,403	4,168,805
1915	32,910,508	5,229,480
1916	40,545,712	6,445,957
1917	55,292,770	8,790,583
1918	63,828,327	10,147,587
1919	87,072,954	13,843,077
1920	163,620,551	24,061,846
1921	193,397,587	30,139,727
1922	182,712,000	29,094,266
1923	149,529,088	21,361,298

Mexico's manufacturing plants are not sufficient to supply home consumption. Cotton mills (119 in 1922 with 803,230 spindles, and 29,521 looms) and woolen mills have been established under a high protective tariff. There are about 1,500 tobacco factories. Some smelters, paper mills, flour mills, saw mills, sugar mills, and refineries and breweries are also in operation.

Mexico had in 1924, 13,205 miles of railroads. In 1909 the main lines were united in one Government-controlled corporation—the National Railways of Mexico, the operation of which, with virtually all the private lines, was taken over in 1914 and operated by the Government under the name of the Constitutionalist Railways of Mexico. The National Railways of Mexico own 6,818 miles of track and control 1,708 more; the Mexican Railroad has 520 miles of track; the Tehuantepec, 184; the Mexico Northwestern, 512; the Southern Pacific Railroad of Mexico about 1,000; and the United Railroads of Yucatan about 500. Vera Cruz, Tampico, Puerto Mexico, Salina Cruz, Manzanilla and Acapulco are the chief ports. In 1920, 5,250 vessels of 13,125,000 tons entered the ports.

The free ports, Salina Cruz, Puerto Mexico and Guaymas, were officially opened June 30, 1924.

There were, in 1922, 564 federated labor unions with 640,000 members, besides certain strong unions such as the railroad brotherhoods, with 47,000 members and the port workers with 15,000 on the outside. The new Constitution in Article 123 decrees: The eight-hour working day; the seven-hour working night; the six-hour day for working children, twelve to sixteen; no night work for women and children; one day of rest in seven; a vacation on pay for child-bearing; a living wage; no garnishment of the living wage; enforced profit-sharing; cash wages; double pay for overtime; housing for workingmen; accident compensation; safe and sanitary work places; right to organize; right to strike or shut down; three months' wages for unwarranted dismissal; worker's lien; immunity of wages from attachment; free employment bureaus; no contracting out of workmen's rights; social insurance, and co-operative building associations. The Mexican Congress has not as yet enacted laws to carry into effect these provisions.

CIVIL WARS AND INSURRECTIONS.

Mexico has been much torn by civil war and insurrections since achieving its independence from Spain (proclaimed Sept. 15, 1810, and effected in 1821). Conditions resulting almost in a state of wa with the United States followed the *coup d'etat* by which, in February, 1913, Gen. Victoriano Huerta replaced Francisco I. Madero (murdered Feb. 22, 1913) in the Presidency. The United States did not recognize his Government (he resigned July 15, 1914), but on Oct. 19, 1915, did recognize that of Gen. Carranza who had driven Huerta's successor Carbajal from the capital, and assumed executive power, Aug. 20, 1915. Carranza held power until May, 1920, when he fled from the capital before an uprising, and was killed trying to reach Vera Cruz. Adolfo de la Huerta, then Governor of Sonora and later Secretary of the Treasury, was made Provisional President in May, 1920, and Gen. Alvaro Obregon was chosen President at a general election in September, being inaugurated Dec. 1, 1920. The United States did not then recognize his Government, no common ground having been found following the suggestions of Secretary of State Hughes, presented May 27, 1921, suggesting the preliminary signing of a convention covering boundary disputes, claims, and the stipulation that Article 27 of the new Constitution of May 1, 1917, is not to be interpreted retroactively.

Article 27 affirmed that the title to mineral and other subsoil deposits was vested in the people of Mexico, and stipulated that only Mexicans and Mexican companies had the right to acquire concessions to develop mineral fuel in the republic. A foreigner might secure that right only if he renounced the privilege of recourse to his Government for redress through diplomatic channels. The intent to safeguard future concessions in the interest of the commonweal is clear, but whether or not the article is retroactive has been the subject of much debate.

However, following decisions of the Mexican Supreme Court to that effect, President Obregon in September, 1922, declared Article 27 to be non-retroactive. Foreign corporations holding concessions, however, hold that the intent under the article and the manner of its interpretation by the Mexican authorities was confiscation. President Carranza had on Feb. 10, 1918, issued a decree imposing heavy taxes on petroleum land and on contracts and royalties, and exacted license fees for new drilling and explorations. Other provisions in decrees at various times have aimed to bring the entire oil industry under the Federal Government. Citizens of the United States and the United Kingdom appealed to their Governments for protection against what they asserted to be threatened confiscation. Another source of trouble was the asserting of an independent right to tax oil production recently made by some of the individual states.

The Mexican Treasury department announced on Oct. 15, 1924, that the conference between Government officials and committee of the Association of Producers in Mexico had reached an amicable agreement on all points in controversy, particularly on modification of present taxation and on protection of rights to exploit petroleum deposits under lands acquired prior to 1917.

AGREEMENT ON THE DEBT.

The Secretary of Finance, Adolfo de la Huerta, signed an agreement in New York, June 16, 1922, with the International Committee of Bankers, designed to settle the eight-year-old question involving the Mexican external and internal debt. This agreement was approved by the Mexican Congress and signed by President Obregon.

The plan of adjustment relates to all external Mexican Government debts, direct or guaranteed, the National Railways debt and certain so-called internal Government debts largely held outside Mexico; the total face value of the securities covered being over $500,000,000 gold, on which the interest in arrears amounts to approximately $200,000,000.

This $700,000,000 includes Mexico's direct debt and guaranteed railroad bonds, totalling approximately $322,000,000 gold; the railroad debt, not guaranteed, amounting to about $230,000,000 back interest on bonds, and railroad debt amounting to about $115,000,000; sinking fund defaults amounting to about $28,000,000.

This agreement was declared operative on Dec. 8, 1923, and the $15,000,000 payment for 1923 was duly made. Further execution, however, was held up by the abortive revolution in 1924 of de la Huerta, which President Obregon told Congress cost $30,000,000 to put down.

Gen. Plutarcho Elias Calles, Laborite and Socialist, was elected President on July 6, 1924, by a majority of 1,309,947 votes over Gen. Angel Flores.

THE NEW CONSTITUTION.

Mexico is now governed under a new Constitution promulgated Feb. 5, 1917, replacing the Constitution of 1857. By it Mexico is declared to be a federated republic of 28 states, each with a large measure of home rule and with Governor, Legislature and judiciary elected by popular vote; two territories and a Federal District, whose Governors are appointed by the President. Interstate customs duties are not permitted. The legislative power rests in a Congress consisting of a Chamber of Deputies and a Senate of 58 members, two for each state, all elected for two years by universal suffrage. The President is elected for four years by direct popular vote and cannot be re-elected. He appoints a Cabinet of ten Secretaries. Article 33 confers on the President the right to expel from Mexico without "judicial process" any foreigner whose presence he might deem "inexpedient." The prevailing religion is Roman Catholic, but the new Constitution provides for the separation of church and state, and all religions are tolerated.

The Apostolic Delegate, Mgr. Ernesto Filippi, was expelled Jan. 13, 1923, under Article 33, for conducting religious ceremony in the open (the laying of a cornerstone) without permission.

A new income tax law and a profits tax law were promulgated March, 1924.

Education is under Federal control and is free and compulsory from 6 to 16. The percentage of illiteracy among the peons is very high, and there are many Indian tribes, about 20 per cent. of the population, quite uncivilized. The present administration is making every effort to extend elementary education to all classes of the people; 2,000 volunteer teachers of illiterates were enrolled in 1921. The appropriation by the Government for schools in 1923 was $26,181,452, number of schools supported was 8,388. Vocational education, particularly in agriculture, is being promoted. There are normal schools for both sexes throughout the country and some hundred technical schools. The National University of Mexico, founded in 1553, is famous among Latin-American universities, and in the capital are many higher institutions of learning and culture and scientific institutions and societies.

There are 720 newspaper or other publications issued, of which 218 are published in Mexico City; 164 newspapers issued to purvey information, while 97 are classified as political, 86 as religious, and 43 as commercial. There also are 19 publications devoted to science, 12 to finance, 21 to literature and two to legal subjects; 41 are Socialistic, 2 anti-Bolshevist; and 1 is anti-clerical. One is classed as "pro-American" and four are devoted to bull-fighting.

The army numbers 68,316 men, with a reserve of 833,000. Military education is compulsory in the schools.

Mexico is not a member of the League of Nations.

REVENUE AND EXPENDITURES.

For purposes of comparison the following figures are given to show the revenues and expenditures of the Mexican Government for 1923 and for the years immediately preceding the revolution, the amounts being in pesos:

Year.	Revenue.	Disbursements.	Surplus.
1905-06	101,972,624	79,466,912	22,505,712
1906-07	114,286,122	85,076,641	29,209,482
1907-08	111,771.868	93,177.441	18,594,427
1908-09	98,775,511	92,967,393	5,808,117
1909-10	106,328,485	95,028,651	11,299,835
1910-11	111,142,402	100,913,924	10,228,478

The budget for 1923 showed estimated expenditures of 346,837,134 pesos The highest expenditure in any pre-revolutionary year was in 1910-11, 100,913,924 pesos, or 246,609,210 pesos less than the estimated expenditures for 1923.

By departments the 1923 budget and that of 1906-07 showed disbursements as follows:

	1923.	1906-07.
Legislative	6,983,991	1,201,476
Judicial	2,785,114	459,455
Executive	1,627,389	348,040
Interior	10,904,986	a11,234,844
Foreign	6,538,195	1,452,498
Finance	19,462,505	8,318,883
War	113,305,333	15,342,373
Agriculture	21,238,942	(dept. nonexistent)
Communications	41,510,177	11,873,734
Industry & Commerce	5,742,445	(dept. nonexistent)
Educational	52,326,914	5,315,225
Health	3,705,214	480,304
General	350,557	.....
Government factories	13,170,859	.....
Comptroller	4,716,722	.....
Attorney General	1,161,792	1,217,344
Public debt	41,470,000	25,932,529

a Included nearly 7,000,000 pesos for political and police administration of the Federal District, now borne by the various municipalities in the district.

The debt of Mexico, which is covered in the agreement between the International Committee of Bankers in Mexico and the Mexican Government, signed June 16, 1922, is as follows:

INTERNAL DEBT.

Consolidated 3% internal debt, 1886	$21,191,925
5% internal redeemable bonds, 1894	46,455,850
State loans guaranteed by Mexican Gov't.	1,750,000
Total	$69,397,775

EXTERNAL DEBT.

Customs secured Government loans	$128,080,837
Other secured Government guaranteed loans	31,719,675
Unsecured Government loans	37,037,500
Railway loans	241,894,778
Total	$438,732,790
Grand total	$508,130,565

The amount of the debt on Sept. 1, 1923, was stated to be, internal, $67,606,000; external, $441,-224,777.

Par of exchange, peso	49.8 cents
Rate of exchange, Oct. 15, 1924	48.85 cents
Imports, 1920	$178,775,221
" 1921	253,397,100
" 1922	151,904,802
" 1923	154,575,130
Exports, 1920	203,273,450
" 1921	363,580,046
" 1922	93,002,909
" 1923	117,124,636

Trade with the United States was:

Imports, 1920-21	$267,169,762
" 1921-22	137,752,341
" 1922-23	113,726,506
" 1923-24	124,083,740
Exports, 1920-21	154,993,154
" 1921-22	122,956,524
" 1922-23	134,637,153
" 1923-24	153,576,788

MONACO, PRINCIPALITY OF

AREA, 8 square miles.

POPULATION, 1913, 22,956.

CAPITAL, Monaco, population, 1913, 2,247; other towns, La Condamine, 11,082; Monte Carlo, 9,627.

Prince, Louis II., born July 12, 1870, succeeded his father, the late Prince Albert, June 26, 1922. *The Heiress Apparent* is the Hereditary Princess Charlotte Louise Juliette (Duchess of Valentinois) born Sept. 3, 1898, married, March 19, 1920, Prince Pierre of Monaco (Count de Polignac) and has issue a daughter Princess Antoinette, born Dec. 28, 1921.

Consul General in the United States, at New York, Paul Fuller. *Consuls*, at Boston, Charles F. Flamand; at San Francisco, Ray P. Saffold.

Monaco is a small Principality on the Mediterranean surrounded by the French department of the Alpes Maritimes. An independent Principality for 800 years, the reigning Prince was dispossessed by the French Revolution. The line was re-established in 1814 and placed under the protectorate of the Kingdom of Sardinia. In 1861 King Charles III. ceded his rights to France. The Prince of Monaco was an absolute ruler until Jan. 7, 1911, when a Constitution was promulgated which provides for a National Council of 21 members, elected by universal suffrage for four years. The revenue is mainly derived from the gaming tables of the Casino at Monte Carlo. The annual grant for the concession was £80,000 in 1917; in 1927 it will be £90,000, and in 1937, £100,000. The yearly average of visitors is over 1,500,000. The late Prince established an important oceanographic museum and laboratory at Monaco.

MONTENEGRO

(See Serbs, Croats and Slovenes, Kingdom of).

MOROCCO, SULTANATE OF

(French and Spanish Protectorates)

AREA, about 231,500 square miles; viz., French Protectorate, 213,000; Spanish Protectorate, 18,360; Tangier (internationalized), 140.

POPULATION, estimated, 1921, French zone, 5,400,000; Spanish zone, 550,000; Tangier zone, 52,000.

CAPITAL, Fez, population, census of 1921, 70,540: Seat of government French zone, Rabat, population, 30,953; residence of French Resident General. Seat of government Spanish zone, Tetuan, population, 30,000; administrative headquarters of the Califpa and the Spanish High Commissioner. Other cities, Marrakesh or Morocco, population, 1921, 139,874; Casablanca, 101,690 (39,283 European); Tangier, 50,000 (12,000 Europeans); Mekines, 36,592; Mazagan, 21,630; Mogador, 20,309; Sale, 24,202; Safi, 26,396; and Melilla, 42,590.

Sultan, Mulai Yusef, proclaimed on the abdication of his brother, Sultan Mulai Abd-el-Hafid, Aug. 18, 1912.

French Resident General, Marshal Hubert Lyautey, held office April 28, 1912, to Dec. 13, 1916, reappointed (second term) April 7, 1917.

Spanish High Commissioner, Gen. Primo de Rivera (Premier of Spain), named Oct. 16, 1924.

United States Agent and Consul General, at Tangier, Harris J. Cookingham (C). *Consul*, at Casablanca, H. Earle Russell.

Morocco of to-day is the remnant of the great Shereefian Empire founded by the Arab invader, who carried the crescent of Islam west at the close of the seventh century and ruled all northwestern Africa and most of the Iberian peninsula. It is bounded on the east by Algeria, on the north by the Mediterranean, the extreme point opposite Gibraltar being Ceuta, a city which, with its four-mile-long peninsula (dominated by Jebel Musa, one of the Pillars of Hercules), has belonged to Spain since the close of the sixteenth century. This narrow northern strip, about 60 miles wide, from the Atlantic nearly to the Algerian border, is one of the Spanish zones. Ceuta is part of the Spanish province of Cadiz.

On the west is the Atlantic Ocean and on the south Rio de Oro (Spanish) and the Sahara Desert. The extreme southern end forms a second Spanish zone, and a strip 50 miles long by 15 deep on the Atlantic Coast, inclosing the town of Ifni, the third.

Along the 200 miles of the Mediterranean littoral run the Rif hills, still unexplored. Through the country from northeast to southwest run the Atlas Mountains in five great ranges rising to an altitude of 12,000 feet (Mt. Ayashlu, altitude 14,150 feet). Between these ranges lie fertile, well-watered plains, and the northern slopes of the mountains are well wooded. Irrigation is much used, though all agricultural methods and implements are primitive.

The climate is good and healthy, especially on the Atlantic Coast, which is shielded from the hot winds of the Sahara by the Atlas Mountains, and where there is a "tell" or fertile region. Tangier is a recognized health resort, also Mogador, where the temperature never rises above 80 or falls below 40.

The most numerous of the inhabitants are the

aboriginal Berbers, mountain dwellers, whose forebears thrice conquered Spain, and who so long maintained the independence of their country. The plains are mostly occupied by Arabs and a mixture of the two races, known to foreigners as "Moors." The latter are also town dwellers. The third race is Jewish, in two sections, one settled there from time immemorial, and the other driven from Europe in comparatively modern times, who live near the ports, are progressive and have much of the foreign trade. The European population in 1921 numbered about 100,000, of which two-thirds are French.

The people are agricultural and pastoral. Eggs and poultry have become the chief articles of export, reaching even to England. In 1919 the value of eggs exported was 44,948,779 francs, and in 1920, 29,910,442 francs Other important exports are skins, hides, wool, beans, barley, linseed and wheat, almonds, cummin and gums. The chief imports are textiles, sugar, tea, machinery and hardware, candles and spirits. Fruit and vineyards are abundant and dates a regular crop. Under proper cultivation Morocco should become a rich, cereal-producing country. Carpets, leather goods, fezzes, woolen and silk stuffs are among the manufactures, chiefly for domestic consumption. Mineral deposits are undeveloped, but much copper, lead and tin are known to exist. An oil field extends from Fez to Laraish. Phosphate exists in great abundance, estimated at 100,000,000 metric tons, with a yield of 65 per cent., and a decree of 1920 reserves to the Sultan's Government the right of exploitation. Export of phosphate from Casablanca in the French zone in 1923 amounted to 191,060 metric tons and the estimate for 1924 is 350,000 tons.

The country had no roads or bridges, transportation being by mule and camel back, but the French have built about 3,000 kilometres and have more surveyed; the most important being from Tangier to Fez. Little has been done in the Spanish zone. In the French zone, in 1924, there were 914 miles of railroads, those of narrow gauge being rebuilt at standard gauge. The Spaniards have a narrow gauge road from Ceuta to Tetuan, to Rio Martin. The French use aeroplanes for mail, passengers and freight. In 1922, 2,636 vessels of 2,102,698 tonnage entered the ports of French Morocco, and 1,834 vessels of 995,724 tonnage entered Tangier. Imports at Tangier in 1922 were valued at 60,710,644 francs, and exports at 4,409,478 francs.

French interests in Morocco had been steadily growing because of its proximity to Algeria for years and had been recognized in the agreements of 1906 and 1909. A general rising of the tribes in October, 1910, culminating in the siege of Fez called out a French expedition of pacification which occupied Fez in 1911. The need of this had been notified to the powers, but was resented by Spain, who in June suddenly occupied two towns, and by Germany, who on July 1, 1911, sent the gunboat Panther to Agadir, a seaport on the Atlantic, ostensibly to safeguard German subjects in the Sus, but really to challenge the extension of French influence. The crisis became acute and war seemed inevitable. Great Britain, however, stood by the Entente and made formal objection to Germany's acquiring territorial influence in Morocco. Diplomatic conversations followed, which resulted in the Franco-German treaty of Nov. 4, 1911, by which France ceded to Germany some territory in French Equatorial Africa on the southern and eastern borders, the Cameroons, in return for recognition of her political protectorate over Morocco. A treaty with Spain adjusted the limits of their respective spheres. On March 30, 1912, the Sultan Mulai Hafid signed a treaty with France accepting the protectorate, which was recognized by the powers, who withdrew their diplomatic representatives. Gen. Lyautey was appointed Resident General, and his advice the Sultan, an absolute despot, and his six viziers have to follow. Risings occurred later in the year and Mulai Hafid abdicated in favor of his brother. The rebellious tribesmen made much trouble and were stirred up to more by the Germans during the World War. The last outbreak, in October, 1920, was crushed by the French capture of Wazzan, who thus consolidated their rule in most of the districts.

A severe outbreak near Melilla in July, 1921, seriously threatened the Spanish rule in its protectorate but was suppressed by a vigorous military expedition. A revolt led by Abd-el-Krim in the early summer of 1923 put the Spanish troops in a precarious position and brought to a head political trouble in Spain, resulting in September, 1923, in the overturning of the government there by a movement of army officers headed by Capt. Gen. Primo de Rivera, who assumed power. (See Spain.)

The Spanish army in Morocco numbers about 130,000. Recrudescence of rebellion brought grave troubles in 1924 and Premier Gen. Primo de Rivera took charge in person as High Commissioner Oct. 16. (See chronology.)

Gen. Lyautey's wise administration of the protectorate, to which he returned in 1917, after service in 1916 as Minister of War in Paris, has been one of peaceful penetration, extension of railroads and roads, public works and social welfare. Agricultural and industrial enterprises have been fostered, public health and education improved. The country has become safe and orderly. Able army officers and civilians have assisted him. Colonization is encouraged. Economic opportunity, the "open door," is guaranteed to all.

Tangier, a seaport of 52,000 inhabitants, including 11,700 Europeans and 12,000 Jews, which occupies the extreme northwest corner of Africa on the Atlantic, was temporarily internationalized in the negotiations of 1911-12, with a hinterland of about 100 square miles. A convention was signed on Dec. 18, 1923 by Great Britain, France and Spain providing for its permanent neutrality. A committee of control, consisting of the 8 consular officers of the Algeciras signatory powers, and an international legislative assembly of 26 members forms the government.

The revenue of the French protectorate is estimated for the year 1923 at about 299,910,700 francs, with expenditures of 299,812,665 francs. The Moroccan debt (five French loans) amounted on Jan. 1, 1924, to 705,624,000 francs.

Exports in 1923 amounted to 272,000,000 francs and imports to 778,000,000 francs.

Trade with the United States was:

Imports,	1920-21	$2,717,303
"	1921-22	3,470,526
"	1922-23	2,380,232
"	1923-24	1,629,314
Exports,	1920-21	522,516
"	1921-22	205,913
"	1922-23	232,731
"	1923-24	337,783

NEPAL, KINGDOM OF

AREA, estimated, 54,000 square miles.

POPULATION, 5,639,092.

CAPITAL, Kathmandu, population, 80,000.

Sovereign, Maharajah Tribhubana Bir Bikram, born June 3, 1906, succeeded his father Dec. 11, 1911.

Prime Minister, Maharajah Sir Chandra Shumshere Jung, Bahadur Rana, appointed June 26, 1901; he holds the rank of General in the British Army.

Nepal is an independent state on the southern slope of the Himalayas, bounded by Thibet on the north, by Sikkim and Bengal on the east and by Bengal and the United Provinces of British India on the south and west. Though friendly, a policy of seclusion is followed and travel discouraged. The Ghurkas, whose Aryan ancestors from Rajputana mixed with the Mongolic aborigines, overran the country in the latter half of the eighteenth century, and are the dominant race. From their ranks the British Indian Government recruits regiments of most valuable soldiers. The kingdom maintains a well-drilled and efficient army of 32,000 infantry and 2,500 artillery. There are many fertile valleys lying in the slopes of the bleak and lofty mountains (which include Mt. Everest, altitude 29,141 feet), and its territory runs into the Terai on the plains of India. It has rich forests. Nepal exports rice, grain, hides and cattle, and imports textiles, sugar, salt, hardware, etc. The capital is in a most fertile valley, cultivated from end to end, 15 miles long and 20 miles wide, which supports 300,000 inhabitants and is noted for its 2,700 Buddhist shrines, nearly all lavishly decorated examples of Nepalese art. Paton is the largest city and Pashpoti a holy centre for pilgrims. In 1921-22 its exports to India were £5,914,200 and imports £2,492,700.

THE NETHERLANDS, KINGDOM OF

HOLLAND.

AREA, 12,582 square miles, land only; 13,205 square miles including inland waters. Colonial possessions: Dutch East Indies, 733,642; Dutch Guiana, 54,291 square miles; Curacao Islands, 403 square miles; New Guinea, 160,692 square miles; total, 949,028 square miles. Grand total, 961,569 square miles.

POPULATION, census of Dec. 31, 1923, 7,086,913. Colonial—Dutch East Indies, 49,534,618; Dutch Gulana, 128,822; Curacao, 56,038; New Guinea, estimated, 195,000. Grand total, 57,001,391.

CAPITAL, The Hague, population (1922), 366,336; other cities, Amsterdam, population, 696,484; Rotterdam, 531,896; Utrecht, 146,441; Groningen, 94,092; Haarlem, 80,131; and 39 others from 20,000 to 75,000.

Queen, Wilhelmina, born Aug. 31, 1880, succeeded on the death of her father, Willem III., Nov. 23, 1890; crowned Sept. 6, 1898. Married Prince Henry of Mecklenburg-Schwerin (Prince Con-

sort), Feb. 7, 1901. *Heir*, her only daughter, Princess Juliana, born April 30, 1909.

Premier. Jonkheer Dr Ch J. M. Ruys de Beerenbrouck (Interior), born Dec. 1, 1873, appointed Sept. 9, 1918.

Minister to the United States, Jonkheer Dr. A. C. D. de Graeff.

Consuls General in the United States, at New York, W. P. Montyn; at San Francisco, H A. van Coenen Torchiana; at Chicago, J. Vennema; *Consuls*, at Boston, Philadelphia, Baltimore, Norfolk, Charleston, New Orleans, St. Louis, Seattle, Port Arthur, Denver, Los Angeles. *Vice-Consuls* are at San Diego, Pensacola, Jacksonville, Tampa, Orange City, Iowa, Minneapolis, Gulfport, Portland, Ore., Ogden and Newport News.

United States Minister, Richard M Tobin.

United States Consul General, at Amsterdam, William H Gale *Consuls*, at Rotterdam, vacant; at Curacao W. I., Thomas W. Voetter; at Batavia, Java, Charles L. Hoover; at Soerabaya, Java, vacant; at Medan, Sumatra, S B Redecker (V. C.)

The Netherlands (Holland), a kingdom in northwestern Europe, 196 miles long by 109 miles wide, is bounded by Germany on the east, Belgium on the south and the North Sea on the west and north. Its surface is flat, with an average height above sea level of 37 feet and with about one-fourth of its land below sea level, reclaimed and protected by dikes, of which there are 1,500 miles. A plan to drain half of the shallow Zuyder Zee, prepared by engineers, designed to add 817 square miles to the cultivable land (polders), adopted June 14, 1918, is now under way. The work is expected to take 15 years, the first outlay to cost $26,500,000

Of the country's 8,052,480 acres given over to agriculture, 90 per cent are in holdings of less than 50 acres and more than 50 per cent. of less than 12 acres, with 361,392 employed on the land in 1921 There are 615 165 acres of well cared for forests Great crops of cereals, potatoes, etc., are raised Dairy products are an important industry, her cheese products being famous, and her cattle high grade, tulips and other flowering bulbs and roots are grown and exported extensively.

Fisheries engage about 6,500 vessels and 18,000 men, and the product of the herring fisheries alone is about $3,750,000

Shipbuilding and sugar refining are important industries, also brewing and distilling. Amsterdam is famous for diamond cutting. Coal is found in Limburg where 5,598,555 metric tons were mined in 1923

Unemployment, which reached 102,225 on Jan. 1, 1924, steadily declined to 50,850 on June 21. A new labor law providing for compulsory arbitration in labor disputes went into effect May 4. Government payments for unemployment doles in 1923 amounted to 6,998,000 guilders; for labor insurance, 41,219,000 guilders, and for labor protection, 1,157,000 guilders

Canals, of which there are 2,000 miles, are most important in internal communication; elaborate systems are in the cities and feed the harbors. The Rhine and the Scheldt reach the sea through the Netherlands and carry enormous traffic. There are 3,000 miles of roads, 1,830 miles of tramways and 2,392 miles of railroads.

Holland's merchant marine on Jan. 1, 1924, consisted of 679 steamers and motor boats and 23 motor schooners of 2,411,842 tons. In 1923 there entered the port of Amsterdam 2,995 vessels of 4,337,361 tons, and the port of Rotterdam, 8,069 vessels of 11,401,865 tons The occupation of the Ruhr cut the Rhine traffic in half in 1923.

Over 1,000,000 bicycles are in use and 31,500 motorcycles

The most powerful wireless plant in the world to connect the Netherlands with the Dutch East Indies was inaugurated by Queen Wilhelmina on May 7, 1923 The two stations are at Kootwyk, Holland, and Bandoeng, Java, 7,500 miles apart; each covers 750 acres and each cost 7,500,000 guilders. The wave length found most suitable is 8,400 metres.

The first Constitution after the reconstruction of the Netherlands as a sovereign state was promulgated in 1814, and revised in 1815, after the addition of the Belgian provinces, and in 1840, 1848, 1887, 1917 and 1922. It assures a hereditary constitutional monarchy. Executive power rests exclusively in the sovereign and the States-General of two Chambers—First Chamber, 50 members, elected for 9 years (one-third each third year) by the provincial states, and the Second Chamber, 100 Deputies, elected for four years directly. Universal suffrage for citizens of both sexes over 25 years of age and proportional representation is in force. The sovereign exercises the executive authority through a Council of Ministers, the President thereof corresponding to a Prime Minister. There is a State Council of 14 members, named by the sovereign, of which she is President, to be consulted on all legislative and some executive matters.

Under the revision of 1922 the Dutch East Indies have been abolished as a colony and made an integral part of the Kingdom. All laws adopted by the government of the islands are to be approved by the States-General.

The kingdom has a unique system of frontier defense, besides the fortresses, inasmuch as two-thirds of the total area is surrounded by the sea, with dikes to hold back the waters. An advance by an enemy may be stopped by inundating the lands. Army service is partly compulsory and partly voluntary. Every Dutchman is liable for service from ages nineteen to forty. Actual service may be by lot, substitution being prohibited. Annually 25,500 are recruited, with 600 for sea service. The reserve numbers 450,000.

Entire liberty of worship and conscience is guaranteed. The royal family belong to the Dutch Reformed Church. The state budget contains allowances for different churches: Protestant, 1,388,000 guilders; Roman Catholic, 2,053,000; Jewish, 140,000.

Education is obligatory from ages six to thirteen. Instruction is free in both public and denominational schools and teachers are paid by the State. The total expenditure in 1923 was 161,000,000 guilders. Intelligence is most widely diffused. Conscripts called in 1913 showed only six-tenths of 1 per cent. unable to read There are universities at Amsterdam (2), Utrecht, Leyden, Delft, Groningen, Wageningen (Agriculture), Rotterdam (Commerce), and Kijmegen (Roman Catholic) with 466 professors and 9,160 students in 1923.

The Netherlands is a member of the League of Nations.

The guilder (or florin), is the unit of currency, gold par being 40.2 cents. Rate of exchange, Oct. 15, 1924, 39.17 cents.

Budget 1924—Revenue.....	guilders	589,421,652
Expenditures.. ..	"	765,264,044
Budget 1925—Revenue.....	"	611,078,000
Expenditures.. ..	"	691,448,000

The budget for the colonial possessions in the East Indies for 1924, is: Revenue, 637,398,717 guilders; expenditures, 718,714,372 guilders.

The consolidated debt on Jan. 1, 1923, was 2,828,319,550 guilders, of which 1,046,687,450 guilders was pre-war debt. The floating debt was 814,694,714 guilders, which included 682,000,000 guilders in treasury notes and bills outstanding. A loan of $40,000,000 in 30-year 6 per cent. gold bonds was floated in New York on April 29, 1924, to be used to consolidate the floating debt.

Imports for 1923 amounted to 19,346,375 metric tons valued at $789,588,444 as compared with 19,468,236 metric tons valued at $772,813,892 in 1922, a decrease in volume of 121,861 metric tons and an increase in value of $16,774,552. Exports in 1923 amounted to 8,698,256 metric tons valued at $513,038,921 as compared with 6,908,411 metric tons valued at $477,549,984 in 1922, an increase in volume of 1,789,845 metric tons and in value of $35,488,937. The 1923 imports were less than those of 1913, the last pre-war year, by only 1,953,625 metric tons; the exports exceeded those of the pre-war year by 2,848,256 metric tons.

The invisible yield of Dutch international trade service, however, is estimated at 675,000,000 guilders ($270,000,000).

Trade with the United States was:

Imports, 1920-21		$250,818,059
"	1921-22	129,789,934
"	1922-23	113,510,865

DUTCH EAST INDIES.

AREA, 733,642 square miles; viz., Borneo, 206,810; Molucca Islands, 30,168; Celebes Islands, 72,679; Java and Madura, 50,557; Sumatra, 163,128; Timor Archipelago, 26,410; Rian-Lingga Archipelago, 12,506; New Guinea, estimated, 152,000; and others.

POPULATION, census of 1920, 49,534,618. Java, 35,017,204; Borneo, 1,625,453; Sumatra, 5,848,868; New Guinea, estimated, 195,000.

CAPITALS, Batavia, Java, population, 234,697; Banjermasin, Borneo, 52,000.

Governor General, Dr. D. Fock, 1920.

United States Consuls, at Batavia, Charles L. Hoover; at Soerabaya, vacant; at Medan, Sumatra, Sydney B. Redecker.

The colonial possessions of the Netherlands in the East Indies consist of great islands and archipelagoes lying along the Equator from about 6° north latitude to 10° south latitude, between the Asiatic mainland and the Philippines, and Australia. They form the bulk of Malaysia. The census of 1920 gave the native Malay population as 48,304,620; Europeans, 169,355, and Orientals, chiefly Chinese and Arabs, 878,986. Java is the most densely populated land mass in the world (689.4 to the square mile). The great majority of the natives are Mohammedans. Much attention is given to education.

The islands are luxuriant, even for the Tropics, of enormous natural and annually productive wealth. Dense forests abound in valuable timber. Besides raising sufficient food for the dense population, there is produced for export in Java and Madura alone, sugar (1,435,808 tons in 1922), coffee, tea, cocoa, indigo, spices, cinchona, tobacco, rubber, copra, tin and petroleum. Of coal the mines of Java, Sumatra and Borneo produced, in 1922, 1,031,936 tons. The exports of rubber for 1922 are officially estimated at 105,090 tons.

Of the world's supply of quinine (cinchona) 99 per cent. comes from Java, the first trees having been brought from Peru. Over 515 tons are exported annually.

There are 4,290 miles of railroads, 3,309 in Java and 952 in Sumatra. In 1921, 16,259 vessels of 5,731,683 tonnage entered the ports. The Colonial army numbers 40,000, about one-quarter European, with 20,000 in the reserve.

The guilder with native coin is legal currency, guilder gold par being 40.2 cents. Imports were: 1920, 1,310,823,899 guilders; 1921, 1,245,480,271; 1922, 782,783,456; exports, 1920, 2,267,871,729; and in 1921, 1,196,658,528; 1922, 1,148,895,818.

The budget for 1924 was: Revenues, 635,290,000 guilders; expenditures, 711,105,000 guilders; of the deficit of 75,815,000 guilders, 58,500,000 was on account of permanent public improvements. The debt on January, 1924, was 1,134,000,000 guilders, of which 739,000,000 was funded.

Trade with the United States was:

Imports,	1920-21	$61,180,547
"	1921-22	7,767,816
"	1922-23	9,976,420
"	1923-24	13,656,413
Exports,	1920-21	104,613,907
"	1921-22	27,794,652
"	1922-23	48,575,781
"	1923-24	54,645,075

DUTCH GUIANA (Surinam).

AREA, 54,291 square miles.

POPULATION, 1921, 128,822, exclusive of Negroes and forest Indians.

CAPITAL, Paramaribo; population, 1921, 41,773.

Governor, Baron van Heemstra.

Dutch Guiana (about the size of New Jersey and Pennsylvania) is situated on the north coast of South America, between French Guiana on the east and British Guiana on the west; inaccessible forests and savannas on the south stretch to the Tumuc Humac Mountains. The chief products are sugar (11,106 metric tons in 1921), cacao, coffee, bananas and rum. Placer mines produced in 1920 gold to the amount 13,110 ounces. In 1921, 191 vessels of 131,601 tonnage entered its ports.

The Dutch by the Treaty of Breda, 1667, gave New Netherlands (New York) to England in exchange for Surinam.

The guilder is the unit of currency, gold par being 40.2 cents.

Imports,	1921	$4,228,304
"	1922	3,894,402
Exports,	1921	2,109,972
"	1922	2,097,094

Local revenues, 1923, were 6,617,000 guilders, subvention from the home government, 2,530,000 guilders; expenditures, 9,147,000 guilders.

Trade with the United States was:

Imports,	1920-21	$2,056,133
"	1921-22	977,549
"	1922-23	809,115
"	1923-24	838,003
Exports,	1920-21	470,296
"	1921-22	925,292
"	1922-23	687,308
"	1923-24	678,240

CURACAO (Dutch West Indies).

AREA, Group, 403 square miles; Curacao, 210.

POPULATION, Dec. 31, 1922, 56,038.

CAPITAL, Willemstad; population, 1922, 15,265.

A group of six islands in the Caribbean Sea, off the coast of Venezuela, constitute the colony.

Products are maize, pulse, cattle, salt and phosphates; chief industry is the refining of oil.

In 1922, 4,116 vessels of 3,402,426 tonnage entered the ports.

Imports, 1921, 19,024,235 guilders; 1922, 20,078,949; exports, 1921, 13,296,090; 1922, 14,314,502.

Budget of 1923—Revenue, 1,408,650 guilders; expenditures, 2,459,134 guilders. The deficit is supplied by the home government.

Trade with the United States was:

Imports,	1920-21	$3,173,607
"	1921-22	2,092,146
"	1922-23	2,369,661
"	1923-24	3,358,358
Exports,	1920-21	2,514,838
"	1921-22	1,735,227
"	1922-23	3,251,345
"	1923-24	3,671,708

NICARAGUA, REPUBLIC OF

AREA, 49,200 square miles.

POPULATION, census of 1920, 638,119.

CAPITAL, Managua; population, 1922, 40,000; Leon, population, 38,000.

President, Sr. Bartolomo Martinez, filling out term 1921 to 1925.

Premier, Dr. Carlos Cuadra Pasos (Foreign).

Minister to the United States, vacant; Charge d'Affaires, Senor Don Manuel Zavala.

Consuls General, at New York, Toribio Tijerino jr.; at San Francisco, Berthold Singer; at New Orleans, Francisco Espinosa; at Kansas City, Kan., Edwin R. Heath; at Chicago, Berthold Singer; at Philadelphia, Lorenzo Guerrero Potter; at St. Louis, Rodolfo Jose Gutievres. *Consuls*, at Boston, Calexico, Minneapolis, Kansas City, Mo., Fort Worth, Houston, Norfolk, Seattle. *Consul General* at Panama for the Canal Zone, Marco E. Velasquez.

United States Minister, John E. Ramer.

United States Consul, at Corinto, Harold Playter; at Bluefields, Andrew J. McConnico.

Nicaragua lies between the Caribbean Sea, with a coastline of 280 miles. and the Pacific (200 miles), with Honduras on the north and Costa Rica on the south. In area it is a little larger than the State of New York. The Cordillera range of mountains, including many volcanic peaks, runs from northwest to southeast through the middle of the country. Between this range and a range of volcanic peaks to the west lie Lake Managua, 30 miles long by 15 miles wide, and Lake Nicaragua, 100 miles long and 45 miles wide, of great importance in the transport system of the country; and with the San Juan River on the Costa Rican boundary, the latter forms the route for a trans-isthmian ship canal planned to connect the Atlantic and Pacific. The right to construct a canal over this route for 99 years, together with a naval base in the Gulf of Fonseca on the Pacific and Corn Island in the Caribbean was acquired for $3,000,000 by the United States in a treaty ratified Feb. 18, 1916; the United States was to supervise the expenditure of that money. The Pacific Railroad, running from Corinto to Leon and from Managua to Granada (171 miles), the only one in the country, was Government-owned, but 51 per cent. of the stock was sold to New York bankers who also held the rest of the stock in escrow for a loan of $1,060,000 which the Government repaid out of surplus revenue in 1924.

The country has valuable forests, some gold is mined, but it is essentially an agricultural and stock raising community. On the broad tropical plains of the east coast, bananas and sugar cane are cultivated, and coffee is grown on the mountain slopes. The chief exports are coffee, sugar, bananas, timber and hides. Textiles, machinery, etc., chemicals and flour are the chief imports.

In 1922, 1,126 ships with a tonnage of 513,899 entered her ports.

The Constitution of March 12, 1912, amended in 1913, provides for a Congress of two Houses, a Senate of 13 members elected for six years, and a House of 40 Deputies elected for four years by universal suffrage. The President is appointed for four years and has a Council of five Ministers. The Roman Catholic is the prevailing religion. The army numbers 2,000 men, selected by conscription. Nicaragua is a member of the League of Nations. (For part in Federation of Central America, see Honduras.)

Par of exchange		cordoba = $1.00
Imports,	1921	$5,309,902

NORWAY, KINGDOM OF

AREA, 124,964 square miles (exclusive of Spitzbergen, estimated, 25,000).

POPULATION, census of 1920, 2,649,775.

CAPITAL, Christiania (to revert to its ancient name Oslo on Jan. 1, 1925), population, 258,520; Bergen, 91,081; Trondhjem, 54,520; Stavanger, 43,883; Drammen, 26,174, and twelve others above 10,000.

King, Haakon VII., born Aug. 3, 1872, second son of Frederick VIII., King of Denmark, elected King of Norway by the Storthing Nov. 18, 1905, and crowned June 22, 1906; married July 22, 1896, to Princess Maud, third daughter of King Edward VII. of Great Britain. *Heir*, Crown Prince Olaf, born July 2, 1903.

Premier, Dr. Johan Ludwig Mowickel, July 23, 1924.

Minister to the United States, H. H. Bryn.

Consul General, at New York, Hans Heinrich Theodor Fay; *Consuls*, at Chicago, Olaf Bernts; at St. Paul, Engebreth Hagbarth Hobe; at San Francisco, Nils Voll. *Vice Consuls* are at Mobile, Los Angeles, San Diego, Denver, Fernandina, Jacksonville, Key West, Pensacola, Tampa, Savannah, Decorah, Iowa, New Orleans, Portland, Me.; Baltimore, Boston, Detroit, Gulfport, St. Louis, Kalispell, Mont.; Omaha, Newark, Buffalo, Niagara Falls, Wilmington, Grand Forks, Cleveland, Portland, Ore.; Philadelphia, Charleston, Sioux Falls, Galveston, Port Arthur, Salt Lake City, Norfolk, Port Townsend, Seattle and Milwaukee.

United States Minister, Laurits S. Swenson.

United States Consul General, at Christiania, Alban G. Snyder; *Consuls*, at Bergen, Maurice C. Pierce; at Stavanger, George K. Stiles.

Norway occupies the west part of the Scandinavian Peninsula in Northwest Europe from the Skagerrack, which separates it from Denmark, to the North Cape in the Arctic Ocean, where on the east it meets Lapland and Finland. The Kjolen Mountains, which separate Norway from Sweden to the east, give to Norway in the northern part but a narrow fringe of country washed by the Arctic and North Atlantic Oceans, and cut deep by fjords of scenic grandeur. The climate is mild and moist, like England's, on the west coast, but cold and dry in the interior and in the north and east sections.

Norway has but 4,300 square miles of land under cultivation; rivers and lakes occupy 5,000, and forests 27,500; three-fourths of the land is unproductive. Norway is essentially a maritime country. Her merchant fleet, though neutral, suffered heavily in the World War by sinking and torpedoing, the total loss being 831 vessels with a total of 1,238,300 registered tons, and 1,200 men killed. She dropped from fourth place to sixth in mercantile tonnage. Norway's merchant marine on Jan. 1, 1923, was 3,740 vessels of 2,610,796 gross tons. Her sailors are known the world over. Fisheries constitute a leading industry and provide a large part of the exports. In 1921 more than 112,000, 17 per cent. of the entire male wage earning population (660,000), earned their living directly or indirectly by the sea. In 1923, 6,338,241 barrels of whale oil were produced.

The forests have an estimated value of a billion kronen (approximately $250,000,000) and about three-fifths of the acreage is covered with pine and fir trees. The export of timber and wood pulp in 1919 was valued at 113,048,100 kronen; and in 1922 at 248,921,185. The Norwegian Afforestation Association has planted since 1906 between ten and fifteen million new trees annually. Agriculture is limited and the country imports much food supply.

The number of farms is about 250,000, of which 165,000 are of less than 5 acres and 65,000 between 5 and 25 acres. The importation of grain and flour has been monopolized by the Government Food Commission since 1916; it is obliged to purchase all wheat, rye and barley of good quality offered by home producers at the same prices for which it can deliver foreign grain. All grinding is done in Norway for the account of the state.

The country lacks coal but has become a great power producing country by utilizing by electrical transmission its greatest natural asset—water power, which is estimated to amount to 15,000,000 horsepower day and night. Of this the Government owns 2,000,000 and has developed 75,000. Private enterprise has developed about 1,600,000 horsepower. Engineering plans are under way to transmit hydro-electric power to Central Europe. Already Norway is feeling the impulse on its industries, which on Jan. 1, 1922, numbered 8,778 establishments, giving employment to 144,706 workers, and which have been developing on an export basis.

The chief mineral products are pyrites, copper ore, iron ore, nickel ore, silver and feldspar.

Norway, in 1923, had 2,148 miles of railroads, of which 1,877 are state owned; the work of converting these to electrical power is going on rapidly. The number of ships entering Norwegian ports in 1922 was 7,929 with a net tonnage of 5,317,795.

The population of Norway is singularly homogeneous, there being numbered of non-Norwegians only about 1 per cent., 20,000 Lapps or Finns and 8,000 Quains, both of Mongolian ancestry. This excludes about 50,000 foreign-born residents of the country before the war, many of whom returned to their native countries. Norwegians have emigrated in great numbers, chiefly to the United States and Canada. The United States Census of 1920 returned 363,862 residents of the United States as born in Norway.

Norway under its Constitution, adopted May 17, 1814, is a constitutional hereditary monarchy. Independent for centuries, Norway entered into a union with the Kingdom of Denmark in 1381. By treaty of Jan. 14, 1814, the King of Denmark ceded Norway to Sweden, but the Norwegian people declared themselves independent and elected a Danish Prince as their King. The foreign powers refused to recognize this election; as a result a convention on Aug. 14 proclaimed the independence of Norway in union with Sweden, and on Nov. 4 elected Charles XIII. of Sweden King of Norway. This union lasted until 1905. Disagreements having arisen, culminating in Norway's claiming the right to maintain its own consular service, Norway declared the union dissolved on June 7, and after negotiations a repeal of the union by mutual agreement was signed Oct. 26, 1905. After a plebiscite Prince Charles of Denmark was elected King and ascended the throne, taking the name of Haakon VII. A treaty guaranteeing the integrity of Norwegian territory was signed in October, 1907, by Norway, Great Britain, France, Germany and Russia.

The legislative power is vested in the Storthing, the members numbering 150, elected for three years by direct vote on universal suffrage of citizens, both male and female of 23 years of age. The Storthing divides itself into two sections, one-fourth of the membership forming the Lagthing, and three-fourths the Odelsthing, which consider the legislation separately, sitting in joint session on failure to agree separately, when decision is made by a two-thirds majority. The King may exercise the veto twice, but if the same bill is passed a third time it becomes law. The King appoints an executive Cabinet of at least eight Ministers, who may speak in the Storthing, but have no vote. There is a large measure of home rule throughout the country through local governing bodies elected by universal suffrage.

The Evangelical Lutheran religion is endowed by the state and its clergy are nominated by the King. All religions are tolerated.

Education is compulsory from seven to fourteen, and the school system is highly organized. There is, so to speak, no illiteracy. The University at Christiania, founded 1811, has 1,500 students and is subsidized by the state.

The army is a national militia with universal and compulsory service. The peace strength is 40,000 men, with a reserve of 315,000. The navy is designed for coast defense only and numbers about 1,200 officers and men, with all seafaring men between the ages of 20 and 44 enrolled on the active list and liable to conscription.

Norway in the reaction from the World War found herself in the grip of hard times in the year 1921, and her industries and commerce have suffered heavily. The unit of currency, the kroner (par of exchange, 26.8 cents), was quoted Oct. 15, 1924, at 14.10 cents.

Unemployment, which had been severe, was greatly reduced and reached on Aug. 1, 1924, its lowest point since 1920. Government unemployment aid reached a total of 150,000,000 kronen.

The United States Government on Feb. 26, 1923, paid to Norway $12,239,652 awarded by the International Court of Arbitration at The Hague in settlement of claims for the seizure of Norwegian vessels during the war.

Budget—1921-22 balanced at....kronen, 717,077,800
1922-23 balanced at....kronen, 622,801,100
1923-24 balanced at....kronen, 550,088,100
1924-25 balanced at....kronen, 539,000,000

A $25,000,000 loan was floated in the United States in August, 1924, for foreign debt adjustments and to meet deficits. The national debt on June 30, 1924, was $423,383,720.

Norway's commerce was:

Imports,	1920,	calendar year	kronen, 3,029,900,000
"	1921,	calendar year	kronen, 1,460,000,000
"	1922,	calendar year	kronen, 1,313,930,000
"	1923,	calendar year	kronen, 1,350,000,000
Exports,	1920,	calendar year	kronen, 1,241,800,000
"	1921,	calendar year	kronen, 576,000,000
"	1922,	calendar year	kronen, 787,490,000
"	1923,	calendar year	kronen, 831,000,000

Imports from Russia in 1923 amounted to $1,804,000 and exports to Russia $574,000.

Norway's trade with the United States was:

Imports,	1920-21,	fiscal year	$57,920,018
"	1921-22,	fiscal year	29,789,272
"	1922-23,	fiscal year	32,049,328
"	1923-24,	fiscal year	20,283,288
Exports,	1920-21,	fiscal year	18,849,358
"	1921-22,	fiscal year	11,739,624
"	1922-23,	fiscal year	18,437,870
"	1923-24,	fiscal year	20,663,930

SPITZBERGEN.

AREA, about 25,000 square miles.

POPULATION, 1921, 1,503.

Spitzbergen, a mountainous group of islands in the Arctic Ocean between 76° 26′ and 80° 50′ north latitude and 10° 20′ and 32° 40′ east longitude, the largest being West Spitzbergen (12,000 square miles), lies about 370 miles due north of Norway, half-way to the Pole. Discovered by Norsemen in 1194 and rediscovered by Barents in 1596, the islands had been the resort of whalers of several nations. Ever since 1261 Norway has periodically asserted her claims to the islands, and from 1870 the demand became more insistent, increasing as Norwegian exploration discovered rich outcropping seams of coal—a necessity which Norway lacks. International conferences were held without result, the islands remaining a No Man's Land. The war put an end to negotiations, but, following action by the Peace Conference in 1919, a treaty was signed in Paris, Feb. 9, 1921, by the United States, Great Britain, Denmark, France, Italy, Japan, the Netherlands, Sweden and Norway, which put Spitzbergen under the flag of Norway, but not with unlimited sovereignty, as they set certain specified guarantees —no naval base to be established, the ships of all signatories to enjoy hunting and fishing privileges there, and equal treatment must be shown to all.

The development of the coal fields has proceeded rapidly. Norwegians own the two largest mining companies. The coal exported has been good steam coal; the output in 1921 was 172,500 tons, and in 1923, 334,000 tons, practically all of which went to Norwegian ports. There are large deposits of low-grade iron ore and gypsum, and signs of oil have been reported.

The population in the summer of 1921 was 1,503, and during the winter 1921-22, 980.

PALESTINE

(British Mandate in force Sept. 29, 1923.)

AREA, estimated, 9,000 square miles.

POPULATION, census of Oct. 23, 1922, 755,858; divided 589,564 Mohammedans, 83,794 Jews, 73,026 Christians, 7,028 Druses, 163 Samaritans, 265 Bahais, 1,454 Hindus, 408 Sikhs, and 156 Metawilehs.

CAPITAL, Jerusalem, population, census 1922, 62,578; other towns: Jaffa, 47,709; Haifa, 24,634; Gaza, 17,486; Hebron, 16,577; Nazareth, 7,424; Bethlehem, 6,658; Acre, 6,420.

British High Commissioner, Sir Herbert L. Samuel, G. B. E., appointed July 1, 1920.

United States Consul, at Jerusalem, Oscar S. Heizer.

Palestine, the Holy Land, lying between the Mediterranean Sea and the River Jordan, was formerly a vilayet of the Turkish province of Syria. It was conquered during the World War by British troops under General, now Field Marshal, Viscount Allenby, Jerusalem being surrendered Dec. 9, 1917. Jerusalem had been in Moslem hands since 1244, had been conquered and reconquered in the Crusades, and had been under the rule of the Turk since 1517. It remained under British Military Administration until July 1, 1920, when Sir Herbert L. Samuel was appointed High Commissioner and a civil government set up. The announced policy of Great Britain is to accord equal treatment to the people and to provide a national home for the Jews, permitting them to return to Palestine only as the development of that country guarantees the normal absorption of immigrants for rising industries and reclaimed agricultural lands. There were about 80 colonies in 1923 with about 18,000 colonists living on 163,000 acres, about 10 per cent. of the cultivated area. Jews maintain an agricultural experimental station in Haifa.

The total number of Jewish immigrants that have entered the Palestine from 1918 to March 1, 1923, was 27,000. During the first six months of 1923 the number was 4,724, being 1,886 men, 1,570 women, and 1,268 children. Jewish organizations in the United States in the years 1920-22 raised $6,000,000 to be devoted to the rebuilding of the Palestine. The city of Tel Aviv, near Jaffa, founded in 1909 by Jewish colonists, now has a population of 15,000, is built on modern lines, with stucco houses, broad streets, electric lights and a modern water supply. A £E75,000 loan was obtained in New York City June 15, 1923, through the sale of 6½ per cent. municipal bonds, to be used for improvements. Assessed value of its real estate is now $12,000,000.

A new constitution was promulgated on Sept. 1, 1922. It provides for a high commissioner, commander-in-chief and executive council. A legislative council is created consisting, in addition to the high commissioner, of ten official and twelve unofficial members, the latter to be elected and to include not less than two Christians and two Jews. This council has authority to pass ordinances, which must be approved by the high commissioner, who may reserve any ordinance for the consideration of the mandatory power. Freedom of conscience and of worship is assured and discrimination on the grounds of race, religion or language forbidden. English, Hebrew and Arabic are the official languages. All male Palestinians over 25 years of age are entitled to vote.

The Jewish population have an internal organization through an elective assembly which has chosen a national committee to represent them in dealing with the administration. The World Zionist Organization is recognized by the British Government and Palestine Administration as the agency of the Jewish people in all matters pertaining to the upbuilding of the Jewish National Home. A Moslem council controls Moslem Awkaf affairs.

The Arabs boycotted the first election, February, 1923, as a protest against the constitution, and it was declared null and void.

The government, on Dec. 1, 1922, maintained 50 town schools and 263 village schools, with 637 teachers of 19,000 pupils; 90 per cent. Moslem and 10 per cent. Christians. Privately supported are: Christian schools, 125 in number, with 11,500 pupils; Jewish schools, 175, with 18,000 pupils, and Moslem schools, 30, with 3,000 pupils. The educational budget for 1923-24 was £E102,754.

Both civil and religious courts have been established.

Jerusalem, the Holy City, is visited annually by large pilgrimages of Orthodox Greek Christians. The Mosque of Omar occupies the site of Solomon's Temple. It contains the sacrificial stone of Abraham and a relic of Mahomet. Bethlehem is also visited, the Church of the Nativity being reputed the oldest Christian church in existence.

Palestine proper is about the size of the State of Vermont with twice as many inhabitants. On the west is the coastal plain a hundred miles long and fifteen wide, fertile and well watered. In the centre is the plateau of Judea. The eastern border drops sharply into the depressed valley of the River Jordan and the Dead Sea, 46 miles long, with an average width of 8 miles, 1,292 feet below sea level. The country is capable of great agricultural development, dependent on irrigation. Olives, figs and grapes are grown in large quantities; also cereals. There are large flocks of sheep and goats. The Government is making an effort to reforest the country.

There were 474 miles of railroads in 1922, worked by the Palestine Government, and 125 miles (from Kantara to Rafa, known as the "Sinai Military Railway") worked by the Palestine Railways on behalf of the British War Office; and for the year 1923, 594 steamers of 1,213,247 tons, and 1,822 sailing vessels of 30,128 tons, entered the seaports—Jaffa, Haifa, Acre and Gaza.

The principal imports are cotton textiles, sugar, petroleum, cigarettes and rice; and the chief exports are oranges, soap, wines, melons, apricot port and almonds. Trade for 1923 was: Imports, £E5,124,945; exports, £E1,600,337 ($5,763,600). The Egyptian pound is worth $4.94 at par of exchange.

The revenue for 1922-23 was £E1,764,585; expenditures, £E1,837,173. The cost of Palestine to the British Exchequer was announced by Prime Minister MacDonald to the House of Commons as: 1920-21, £8,000,000; 1921-22, £3,155,000; 1922-23, £1,874,000; 1923-24, £1,400,000; and for 1924-25, estimated, more than £1,000,000.

PANAMA, REPUBLIC OF

AREA, 33,667 square miles.

POPULATION, 1923, 442,522, excluding the Canal Zone.

CAPITAL, Panama, population, 1920, 66,851; Colon, 31,230.

President, Sr. Rodolfo Chiari, 1924-28, inaugurated Oct. 1, 1924.

Premier, Carlos L. Lopez (Justice).

Minister to the United States, Dr. Ricardo J. Alfaro.

Consuls General, at New York, Eduardo Stagg; at New Orleans, Ernesto Brin. *Consuls*, at Boston, San Francisco, Atlanta, Kansas City, St. Louis, Fort Worth, Galveston, Denver, Lexington, Ky., and Detroit.

United States Minister, John Glover South.

United States Consuls, at Panama, George Orr; at Colon, vacant.

United States Governor of the Canal Zone, Col. Meriwether L. Walker, U. S. A., appointed Oct. 15, 1924.

The Republic of Panama, formerly a department of Colombia, declared its independence Nov. 3, 1903, and was recognized Nov. 13 by the United States. It occupies the entire isthmus of that name connecting North and South America, lying between the Caribbean Sea on the north and the Pacific on the south. The Costa Rican boundary line on the west has been a matter of dispute (see Costa Rica). The Colombian boundary line to the east was determined in 1921 by the Thompson-Urrutia Treaty.

By treaty Nov. 18, 1903, ratified Feb. 23, 1904, and with a supplemental (Taft) agreement of 1904, the United States acquired the right to construct the Panama Canal across the Isthmus, a strip (the Canal Zone) extending for five miles on each side of the Canal, the terminal cities of Cristobal, adjacent to Colon, and Balboa, adjacent to Panama, and islands for defensive purposes in the bay, in perpetuity and exclusive control for police, judicial, sanitary and other purposes The United States also has complete jurisdiction over sanitary and quarantine matters in the two cities of Colon and Panama and owns and operates the Panama Railroad, 47 miles long, connecting these cities. In return the United States paid Panama $10,000,000, and $250,000 a year, beginning after nine years.

The Taft agreement was abrogated, June 1, 1924, by proclamation of President in agreement with the Government of Panama, the status quo continuing pending the negotiation of a new treaty.

The civil population of the Canal Zone by census of June 30, 1924, was 24,143, of whom 7,805 were Americans; and 2,037 American men and 327 American women were employed by the Panama Canal and Railroad The other employees numbered 4,275, chiefly British West Indian Negroes. (For Canal Zone and for the Panama Canal, see Index.)

The soil of Panama is very fertile, but of the whole area more than half is wholly uncultivated. Immigration is encouraged. The forest resources are great. Stock raising is extensively carried on. The chief exports are bananas (from Almirante), cocoanuts, balata, hides, gum and tortoise shell.

The Constitution, adopted Feb. 13, 1904, and amended Dec. 26, 1918, provides for a Chamber of Deputies of 33 members (election to be held every four years beginning with 1924) and a President, also elected by direct vote for a four-year term, and not eligible for re-election. He appoints a Cabinet of five Ministers. There are eight provinces, each under a Governor elected by popular vote. The Roman Catholic religion prevails, but religious freedom is guaranteed. Primary education is free and compulsory. A university has been opened. There is no army, the national police numbers 69 officers and 750 men. Spanish is the official language and its use is compulsory.

Panama floated a loan of $4,500,000 in April, 1923, in New York, the proceeds to be used to construct a system of modern highways. Its mortgages on New York real estate were put up as collateral.

Panama is a member of the League of Nations.

PARAGUAY, REPUBLIC OF

AREA, estimated, 196,000 square miles.

POPULATION, estimated, 1,000,000.

CAPITAL, Asuncion, population, 1920, 99,836.

President, Dr. Eligio Ayala, assumed office April 10, 1923, on resignation of Eusebio Ayala. He was elected May 11, 1924, for the four years term.

Premier, Sr. Manuel Penna (Foreign).

Minister to the United States, none; legation in charge of the Consul General at New York.

Consuls General, at New York, William Wallace White; at Philadelphia, Rodman Wanamaker. *Consuls*, at Norfolk, New Orleans, Chicago, and Seattle.

United States Minister, vacant.

United States Consul, at Asuncion, Digby A. Willson.

Paraguay is an inland agricultural and pastoral country of South America, communicating with the South Atlantic by the Paraguay River, a tributary of the River Plata, and navigable by vessels of light draft up to Asuncion. A railroad, British owned, 272 miles long, connects the capital with the Argentine railroad system. It is bounded on the north by Bolivia and Brazil, on the east by Brazil and Argentina, on the south by Argentina, and on the west by Argentina and Bolivia. In area it is about the size of Nebraska. The high plateaus are suitable for cattle raising. The chief exports are hides, timber, cattle, yerba (mate) and tobacco.

The Constitution of 1870 is modelled on that of the United States, but more centralized. The history of Paraguay since its declaration of independence from Spain in 1811 has been one of constant dissensions, dictatorships, revolutions and wars. The Roman Catholic religion is established, but others are tolerated. Education is free and nominally compulsory. The university at Asuncion had 247 students in 1919.

The number of vessels entering Asuncion in 1922 was 3,016 of 314,388 tons.

Paraguay is a member of the League of Nations. She has a standing army of 1,900 and a reserve of 100,000.

Paraguay uses the Argentinian gold peso = 96.5 cents at par of exchange = 75 cents at current exchange, Oct. 15, 1924. The paper peso at that date was worth approximately 2 cents.

PERSIA, KINGDOM OF

AREA, 628,000 square miles.

POPULATION, estimated, 10,000,000.

CAPITAL, Teheran, population, estimated, 280,000; other cities, Tabriz, 200,000; Ispahan, 100,000; Meshad, 80,000, and 42 cities of above 10,000.

Shah, infant son of Shah Ahmed Mirza, deposed March 21, 1924.

Premier and Regent, Reza Khan.

Administrator General of Finance, Dr. Arthur C. Millispaugh of the United States, appointed September, 1922.

Minister to the United States, Hussein Alai Khan.

Consul General, at New York, vacant. *Consulates*, at San Francisco, Chicago, St. Louis and Philadelphia.

United States Minister, vacant.

United States Consul, at Teheran, Samuel W. Honaker.

Persia (Iran) is an ancient kingdom occupying the western and larger half of the great Iranian plateau, between the rivers Indus and Tigris in Southwestern Asia. It is bounded on the north by Transcaucasia (Russia), the Caspian Sea and Turkestan; on the east by Afghanistan and Beluchistan (British India); on the south by the Arabian Sea and the Persian Gulf; on the southwest by Mesopotamia (the Kingdom of Iraq); and on the west by Armenia. The boundaries are indeterminate—a cause of much friction. In size it equals the States of Idaho, Colorado, Utah, Nevada, Arizona and New Mexico combined. It is described as a "vast and miserably poor country with scanty population." The people are Moslems, mostly of the Shi'a sect, and education is largely limited to reading the Koran.

Across this plateau, which lies at an altitude of 4,000 to 8,000 feet, in the north central part, from northwest to southeast, stretches a desert, 800 miles long, varying from 100 to 200 miles wide. There are many peaks from 9,000 to 10,000 feet high. Fine forests cover the maritime plains and mountain slopes. Mineral deposits are undeveloped, but known to be considerable. Turquoise mines are worked crudely in Nishapur. Oil is produced near Ahwaz in Karun Valley, at the head of the Persian Gulf. The Anglo-Persian Oil Company holds the concession, covering nearly 500,000 square miles, and has large refineries at Abadan in the Shatt el Arab on the Persian side of the Tigris below Basra. The British Government bought control in this company in 1914 and increased its holdings in 1917 to $25,000,000. Prospecting is vigorously pushed.

Agriculture is the chief industry, wheat, barley, rice, fruits, gums, drugs, wool and cotton being the chief products. Some wines are famous. Persian carpets, all made on hand looms, are produced in Tabriz, Sultanabad and Kerman. The chief exports in 1922 were petroleum, cottons, carpets, fruits, opium and rice; the chief imports were textiles, sugar, tea and manufactures of metals. The British Empire, Russia, Egypt and Turkey are the best customers. There are fifteen regular trade routes along which goods are carried by caravans. Persia has but 350 miles of railroads. At the southern ports, all small, there entered in 1920-21 vessels of a total tonnage of 2,255,445, nearly all British; and at the Caspian ports 57,621, all Russian.

Persia has been in political turmoil for twenty years. A Constitution was forced from the Shah in 1906 that provides for a National Assembly, which has been convened three times. Government is in the hands of a Cabinet. In 1907, Great Britain and Russia, by a convention, while mutually engaging to respect the integrity and independence of Persia, marked off special "spheres of influence" for each, Russia taking about two-fifths of her territory in the north and Great Britain about one-quarter in the south, the remainder being a buffer zone. Persia, though a neutral in the World War, was constantly fought over, suffered heavily and the northwest provinces brought nearly to famine. The province of Azerbaijan, peopled by Tartars, in the extreme northwest, adjoining Armenia and Transcaucasia, with Baku, the great oil port on the Caspian as its capital, declared its independence in 1917, after the Russian debacle, and later became a Soviet republic.

On Aug. 9, 1919, Great Britain and Persia signed a treaty by which the former agreed to furnish expert advisers, military officers, munitions and modern military equipment, a loan of $10,000,000 to be secured by customs duties, and to build certain railroads. This agreement was never put in force and was denounced by Persia with the consent of Great Britain in February, 1921. Immediately (in March) Persia signed a treaty with the Russian Soviet Republic as a substitute for all previous Russo-Persian treaties, which established diplomatic relations, restored Firuzeh and Ashurada to Persia, annulled all concessions previously granted to Russians in Persia, turned over the Russian Discount and Loan Bank to the Persian Government, cancelled all Persian debts to Russia and abolished the capitulations.

Persia sent a delegation to Paris in 1919 to lay its claims before the Peace Conference, but was denied a hearing. Persia is a member of the League of Nations.

Agitation for the overthrow of the monarchy and the establishment of a democratic republic was very great but when success seemed assured on the Mohammedan New Year (March 21), 1924, veering public sentiment made the move abortive. The National Assembly however deposed the Shah, Ahmed Mirza (born June 29, 1898, succeeded his father, Mohammed Ali, who abdicated July 16, 1909), who was absent in Paris and installed his two-year-old son on the throne with Reza Khan, Prime Minister and head of the army, as Regent.

Unrest continued. On July 18, Major Robert Imbrie, Acting American Consul, was brutally killed at Teheran by a fanatical mob roused to violence. Teheran was put under martial law, the guilty soldier-murderer and two others were executed, proper apologies were made to the American Government. Major Imbrie's body was taken home on the U. S. S. Trenton at the expense of Persia, and an indemnity of $60,000 paid to the widow.

The United States offered on Nov 9 to remit the amount, $110,000, to be paid for the expense of bringing Major Imbrie's body home, the money to be used for the education of Persian students at institutions of higher learning in the United States.

The value of the foreign trade was:

Imports, 1921-22	$55,428,548
" 1922-23	56,285,370
Exports, 1921-22	45,635,890
" 1922-23	66,719,055

The foreign debt on Jan. 1, 1923, was approximately $23,000,000.

Trade with the United States was:

Imports, 1920-21	$1,762,667
" 1921-22	1,210,299

" 1923-24	5,646,601

PERU, REPUBLIC OF

AREA, 533,916 square miles, with about 100,000 square miles in dispute.

POPULATION, estimated, 4,620,000, besides unenumerated savage tribes.

CAPITAL, Lima, population, 1920, 176,467; chief port, Callao, population, 52,843. Other cities are Arequipa, pop., est., 35,000; Iquitos, 15,000; Cuzco, 12,000.

President, Dr. Augusto B. Legula, 1919-1923, by coup d'etat July 4, 1919, legalized by Congress; he took the oath Oct. 15, 1919, for full term of five years.

Premier, Dr. Alejandrino Maguina (Justice)

Ambassador to the United States, Dr. Hernan Velarde.

Consuls General, at New York, Eduardo Higginson; at San Francisco, Salvador M. Cavero. *Consuls*, at Boston, Baltimore, Philadelphia, St. Louis, Portland, Ore.; Charleston, Norfolk, Seattle, New Orleans and Cleveland. *Consul General*, at Panama for the Canal Zone, Guillermo Espantoso.

United States Ambassador, Miles Poindexter.

United States Consul, at Callao-Lima, Claude E. Guyant.

Peru is situated on the Pacific Coast of South America, bounded on the north by Ecuador, on the east by Brazil and Bolivia, and on the south by Chile. In area it equals the combined area of Texas, Arizona, Nevada and Utah. The territory, amounting to 100,000 square miles, in the northeast corner in the Amazon basin is in dispute between Colombia, Ecuador, Brazil and Peru, and the possession of the provinces of Tacna and Arica on the Pacific, containing the very valuable nitrate deposits, which were retained by Chile on defeating Peru in the war of the Pacific, 1879-82, has been long in dispute and is now the subject of diplomatic negotiations with the United States as mediator. The Protocol and Complementary Act, signed at the Washington Conference, was ratified by the Peruvian Congress on Sept. 12, by a vote of 94 to 3.

The Andes reach their highest altitudes in Peru, which contains seven peaks towering about 19,000 feet, of which Huasaran (altitude 22,050 feet). Huandoy (21,100 feet), Arequipa or Misti (20,013 feet) and Hualcan (20,000 feet) are the loftiest. The thirty mile wide strip of land along the Pacific is a desert except as it is irrigated from streams from the mountains; the uplands or western slopes of the Andes are well watered and also the eastern descent to the Amazon basin, tropical lowlands, very fertile, thickly wooded in parts with much wild rubber and thinly populated. Iquitos, the capital of this district is over 2,000 miles up the Amazon.

The mountains are rich in minerals and many valuable mines, some dating back to the Incas, are being worked. Peru produces 95 per cent. of the world's vanadium (354,433 kilos in 1923).

The output of copper, chiefly from the very rich Cerro de Pasco mines, was 33,284 metric tons in 1921, 36,408 in 1922, and 44,166 in 1923. Peru is third in production of silver, 306,498 kilogrammes in 1921, 409,635 in 1922, and 580,229 in 1923.

Petroleum output was 373,280 metric tons in 1920, 488,669 in 1921, 700,619 in 1922, and 751,710 in 1923, giving Peru eighth place as a producer. The cotton production is about 40,000 metric tons annually;

sugar production is about 350,000 metric tons. The clip of Alpaca wool in 1923 was about 67,000,000 pounds, and of sheep wool, 50,000,000.

There were in 1920, 1,984 miles of railroads, 1,385 being state railroads under control of the Peruvian Corporation. At Callao, in 1922, in the foreign trade there entered 601 steamers of 1,743,466 tons.

Under the new Constitution, Jan. 18, 1920, the Government is highly centralized. The President, the Senate (35 members) and the House of Representatives are all elected for five years. Absolute political and religious freedom is guaranteed. The Catholic religion is the state religion. The law of Feb. 5, 1921, makes elementary education compulsory and free. At Lima is the University (with, in 1920, 1,308 students), founded by Charles V. in 1551. Over 50 per cent. of the population are full-blooded Indians, including many uncivilized and unenumerated tribes; 40 per cent. are Mestizos, or of other mixed blood, and but 2 per cent. entirely of Caucasian blood. The lot of the Indians has been very bad. President Leguia put in motion an elaborate series of reforms to modernize the country, including the sanitation of 31 Peruvian cities, the reorganization of the army and navy, the reconstruction of the educational system, huge irrigation works, and the stamping out of yellow fever.

Foreign capital is heavily interested in Peru. The customs, Reserve Bank, naval and educational services are administered by American missions; the army by a French mission; the police by a Spanish mission; the postal and telegraph and 80% of the railway by English, and electric power in the capital by an Italian company.

Military service is compulsory; the standing army numbers 7,500, with 90,000 in the reserves. The navy is small. Peru is a member of the League of Nations.

POLAND, REPUBLIC OF

AREA, 1923, 149,140 square miles; of this the former Prussian portion was 17,789 square miles; Russian, 43,804, and Austrian, 30,481. Plebiscites in Silesia and East Prussia added more, and in 1923 the Vilna section in Lithuania with about 5,200 square miles was added. The boundaries are indeterminate.

POPULATION, Dec. 31, 1922, Poland in the boundaries of September, 1921, 27,372,447; Polish Upper Silesia, 980,296; Central Lithuania, 488,968; army, 312,452; total, 29,160,163. Of Polish nationality, 18,659,993.

CAPITAL, Warsaw, population, 931,176. Chief cities, Lodz, 451,813; Lemberg (Lwow), 219,193; Cracow, 181,700; Posen (Poznan), 169,793; Vilna (Wilno), estimated, 146,000; and sixteen others with population between 40,000 and 100,000.

President, Stanislaus Wojciechowski, born March 15, 1869, elected, Dec. 20, 1922, to succeed Gabriel Narutowicz, assassinated Dec. 16, 1922.

Prime Minister, Ladislas Grabski (Finance).

Minister to the United States, Dr. Ladislas Wroblewski.

Consuls General in the United States, at New York, Dr. Stefan Grotowski; at Chicago, George Barthel de Weydenthal; *Consuls*, at Pittsburgh, Buffalo and Detroit.

United States Minister, Alfred J. Pearson.

United States Consul General, at Warsaw, Louis H. Gourley.

The Republic of Poland was formed following the World War of reunited parts of the old kingdom dismembered about 150 years ago by Russia, Austria and Prussia. It is about the size of the States of West Virginia, Ohio, Kentucky and Tennessee, and in population is the sixth state in size in Europe.

Poland is bounded by Germany on the north and west; Latvia and Lithuania, north; Czechoslovakia and Roumania, south; Ukraine and Russia, east. Of the population about 18,000,000 are Catholic Poles and Slavs; 3,000,000 Jews; the others, Ruthenians, Germans, Lithuanians, Russians, etc. Absolute freedom of worship is guaranteed.

Poland is, except in the extreme south, an unbroken plain, across which three glacial movements have swept; average elevation, 480 feet; average rainfall, 21 to 23 inches; snowfall, 10 to 20 per cent. of total precipitation lasting 40 to 100 days.

The Allied Ambassadors' Conference, March 14, 1923, decided to recognize the eastern frontier of Poland, as established in the Treaty of Riga between Russia and Poland; also that the whole of East Galicia, which Poland had been allowed to occupy for four years, should pass to Polish sovereignty; and that Poland be confirmed in possession of Vilna (Wilno), the old capital of Lithuania, which Polish Gen. Zeligowski had seized in the lawless raid in October, 1920, and handed over to Poland.

Access to Free City of Danzig (Gdansk), formerly of the German Empire, as a port on the Baltic Sea, was granted by the Treaty of Versailles, and in 1922, Danzig was brought within the Polish customs frontier. Poland has begun to develop its own Baltic port, Gdynia, on Polish soil, in the "corridor" granted her just west of Danzig. A naval port has been started there with a harbor depth of forty feet.

The Vistula River gives navigation from Danzig south through Poland. A trans-European trade route is projected by canalizing the Vistula, cutting a canal to the Dneiper, and canalizing that river to the Black Sea at Odessa.

Fifty-one per cent. of the population engage in agriculture. There are approximately 44,478,000 acres arable; 13,000,000 pastures; 23,153,000 forests; 9,000,000 gardens and other uses. Heavy war losses have been recouped to within approximately 80 per cent. of normal agricultural productivity, and 1923 found 33,500,000 acres of arable land again under cultivation with a pre-war yield.

For the year 1923 the wheat yield from 2,512,000 acres was 1,351,000 metric tons; rye, 11,473,000 acres, 5,962,000 tons; barley, 2,962,000 acres, 656,000 tons; oats, 6,212,000 acres, 3,522,000 tons; potatoes, 5,629,000 acres, 26,494,000 tons; sugar beets, 336,000 acres, 2,575,000 tons.

Under the Land Reform Act of Dec. 17, 1920, some 1,000,000 acres, of which 625,000 were private property, have been taken over by the state; of this, 380,000 acres were distributed to private individuals and private institutions, 295,000 in the eastern provinces were distributed among 5,000 war settlers; and 276,000 acres were assigned to the Polish Land Distribution Offices, which parcelled out 51.6 per cent. to small farmers, 26 per cent. to non-farmers, 8.5 to employees on estates, 6.4 to large farmers and 7.5 to invalids and soldiers. The greater portion of the land taken over by the state consisted of extensive private properties which had been neglected. The maximum holdings were 400 hectares (988 acres), but the greater part were less than half that size, with a maximum of sixty hectares (148 acres), in industrial districts.

The Department of Reconstruction of the Ministry of Public Works reports that by Jan. 1, 1923, nearly 50 per cent. of the buildings destroyed during the war, or 780,037 of a total of 1,546,892, had been rebuilt, and the plans for 1923-24 provided for the completion of the reconstruction work, but financial difficulties caused a slowing up.

Polish Galicia has been a large producer of petroleum, but the production in 1922-23 has been only 60 per cent. of the pre-war average and is below the refining capacity. The output in 1920 was 765,004 metric tons; in 1921, 704,874 tons; in 1922, 713,000 tons; and in 1923, 737,182 tons, when the number of producing wells was 1,930. French capital is heavily invested and at present controls more than half the current production. The exports of refined petroleum products amounted to 314,941 metric tons in 1923.

Forests cover 23 per cent. of area; total 22,153,000 acres; state-owned, 29.5 per cent.; private, 70.5 per cent. Coniferous trees predominate, mostly Scotch pine, spruce, fir, larch; deciduous trees, beech, oak, alder, birch, elm, aspen, etc. Woodworking industries are important. Annual regrowth is estimated at 9,000,000,000 feet board measure, permitting exportation of about 5,500,000 tons, or about 8,000,000,000 feet, with constant demand.

In Upper Silesia, Poland acquired 1,300 square miles of the 4,100 involved. Most of mineral and industrial values were in Polish-acquired territory, which contains enough coal to mine annually 50,000,000 tons for 300 years. The normal coal production in Poland proper, Dumbrowa district, is 10,000,000 tons. Poland acquired virtually all the zinc mines, whence annually 180,000 tons are taken —18 per cent. of world's zinc; most of iron industry; twenty-two out of thirty-six blast furnaces. Rail-

ways there, which are nationalized, are to remain undivided for fifteen years with a Polish-German commission to supervise them and the industries. The major part of steel industry remains German.

The transfer of the southeastern part of Upper Silesia to Poland, which became effective in the summer of 1922, brought a wealth of coal. In 1923 that territory produced 26,479,946 tons as compared with a pre-war annual average production of 32,500,000 tons. Total production from all fields was 36,097,997 tons of which 12,912,792 tons were exported.

The production of iron ore in 1922 was 394,506 tons; of salt, 295,403 tons; and of potassium salts, 46,083 tons, all greater than pre-war figures. Zinc and lead production totalled 94,281 tons, about half of the pre-war production.

Of the sixty-two coal mines in the district forty-nine became Polish and eleven remained in Germany, two being part German and part Polish. It is estimated that 90 per cent. of the undeveloped coal fields are in Polish territory. Poland received all the twenty-four zinc works and eleven of the fourteen zinc mines with 82 per cent. of the output.

Iron and steel industries are highly developed; also chemicals and glass. Lwow (Lemberg) is the centre of the textile industry, with approximately 900,000 spindles. The output of the forty-seven mills in the Polish textile industry in 1922 exceeded pre-war production by 40 per cent. The cotton mills in 1923 had 2,305,400 spindles and 39,600 looms; and the woolen mills 480,400 spindles and 3,557 looms. The 68 sugar refineries in 1922-23 produced 255,950 tons of sugar. Unemployment decreased from 218,368 to 81,000 from Jan. 1. 1922, to Jan. 1, 1923; and to 54,923 on Nov. 1, 1923.

Poland had on Jan. 1, 1924, 10,206 miles of railroads all state-owned.

The imports in 1923 amounted to 3,194,000 metric tons valued at $215,793,000; exports 17,646,000 metric tons valued at $230,474,000.

The Polish Government in April, 1923, adopted a new unit of value, the 'zloty,' equivalent to a gold franc (=19.3 cents) The Polish mark fell heavily in sympathy with the German mark, being 29,000 to the dollar in January, 1922; 49,000 in March; about 150,000 on June 20; stiffening to 125,000 on July 12, but reacting to 250,000 on Aug. 31. The amount of paper marks outstanding on Jan. 1, 1923, was 793 billion marks; the issue in the first quarter of 1923 exceeded a trillion, or more than six times the revenue from taxation; and the total amount outstanding at the end of September, 1923, was 11,198 billion marks. A 10 per cent. property tax law payable semi-annually in six instalments and based on the zloty was passed in August and is estimated to yield a billion zloty ($193,000,000). This is distributed as follows: On farm and forest property, 500,000,000; on industry and commerce, 375,000,000; on other property, 125,000,000. The Government's expenditures the first half of 1923 were 4,593 billion marks (about $103,000,000), and revenues 2,963 billion marks (about $62,000,000), leaving a deficit of 1,990 billion marks (about $41,000,000) for this period.

Poland received from France in February, 1923, a credit of 400,000,000 francs to be used chiefly for military supplies. Marshal Foch on a formal visit to Poland in May, 1923, in response to an address of welcome, said: "I can again declare in the name of the French Government, which I represent, that France will always be ready to aid Poland in defense of her rights and maintenance of the existing treaties; and that we also count on Poland."

The national debt on Jan. 1, 1924, was: Internal, 61,485,871,287,603 Polish marks (about $42,659,000 at the exchange rate then ruling); foreign, about $280,000,000.

Premier Grabski on Aug. 27, 1924, instructed Minister Wroblewski to complete the refunding of the Polish debt to the U. S. amounting to $165,000,000 with interest, slightly more than $190,000,000.

Poland is governed under a Constitution adopted March 17, 1921, which calls for a two-chamber legislative body, Senate of 111 members, and House (Sejm) of 444 members, elected by universal suffrage, on a system of proportional representation which takes care of minorities. Freedom of press, religion, etc., is guaranteed. The President of the Republic is chosen by Parliament for a seven-year tenure, and appoints a Cabinet of Ministers responsible to Parliament. The Voyvodships have a considerable measure of home rule. There are a score of political parties.

The Polish Army, which numbered more than 1,000,000 during the Soviet-Polish war of 1920, was reduced to 270,000 by Sept. 1, 1923. Military service for two years is compulsory. Marshal Pilsudski resigned as Chief of Staff on May 29, 1923, and was succeeded by Gen. Stanislas Haller.

Poland is making a strong fight to eradicate illiteracy and its educational program provides for compulsory education for all children under sixteen years. Sufficient school buildings and trained teachers have yet to be provided. Elementary schools in 1922 numbered 25,000, with 3,000,000 pupils and 51,000 teachers: there were 726 secondary schools, with 211,000 pupils and 10,668 teachers; and 231, with 88,000 pupils, being State schools. There are six important universities—Warsaw, with 8,939 students in 1923; Lwow (Lemberg), 5,646; Cracow, 5,235; Poznan (Posen), 3,416; Wilno (Vilna), 2,202; and Lublin, 1,120. Warsaw and Lwow have Polytechnic Institutes.

Poland is a member of the League of Nations.

PORTUGAL, REPUBLIC OF

AREA, 35,490 square miles, which includes the Azores, 922 square miles, and Madeira, 314, islands in the North Atlantic Ocean. Colonial possessions in Africa—Cape Verde Islands, 1,480 square miles; Guinea, 13,940; Principe and St. Thomas Islands, 360; Angola, 484,800; Mozambique, 426,712; total Africa, 927,292; in Asia—Goa, India, 1,469; Damao, India, 169; Timor, Malaysia, 7,330; Macao, China, 4; total Asia, 8,972. Grand total, 965,754.

POPULATION, census of 1920, 5,628,610, exclusive of the Azores, 1911, 242,613, and Madeira, 1911, 169,777; total, 412,390. Colonial possessions—Africa, 7,736,700; Asia, 1,001,153; total colonial possessions, 8,737,853. Grand total, 14,778,853.

CAPITAL, Lisbon, population, 1920, 489,667. Other cities, Oporto, population, 1920, 203,199; Setubal, 37,074; Funchal (Madeira), 24,687.

President, Dr. M. Teixeira Gomes (born 1862). 1923-27, elected Aug. 6, 1923.

Prime Minister, Rodriguez Gaspar.

Minister to the United States, Viscount d'Alte.

Consul General in the U. S., at New York, Jorge da Silveira Duarte d'Almeida. *Consuls*, at Chicago, Boston, New Orleans, San Francisco, Fall River, New Bedford. *Vice Consuls*, at Fresno, Los Angeles, Sacramento, Key West, Tampa, Brunswick, Baltimore, Lowell, Concord, Gulfport, Philadelphia, Providence, and Galveston. *Consul*, at Panama for the Canal Zone, Jose Augustin Arango.

United States Minister, Fred Morris Dearing.

United States Consul General, at Lisbon, W. Stanley Hollis; *Consuls*, at Loanda, Anglos, Francis H. Styles; at Oporto, Samuel H. Wiley; at Funchal, Madeira, William W. Ellis; at St. Michaels, the Azores, William F. Doty; at Lourenco Marques, East Africa, Cecil M. P. Cross; at Horta, Fayal, Azores, Reginald S. Castleman.

Portugal occupies the western part of the Iberian Peninsula, being bounded on the north and east by Spain and on the south and west by the Atlantic Ocean. Its area is 34,254 square miles, a little larger than the State of Maine. The Azores and Madeira Islands, in the North Atlantic, are politically an integral part of the republic. The country is mountainous and well watered to the north. About one-third of the land is cultivated. Vineyards abound, and wines, olive oil and fruit are largely produced. Wine-making is the chief industry. Forests of pine, oak, cork and chestnut cover 19 per cent. of the country, and cork, of which 175,000,000 pounds are produced annually, is the second largest industry. Portugal has much mineral wealth, but is undeveloped because of a scarcity of coal and poor transportation. The sardine fisheries are important. Hides and wool are also exported.

Portugal had in 1923, 2,040 miles of railroads, of which 843 were state owned. The merchant marine in 1917 numbered 206 vessels, with tonnage of 122,726; in 1923, 2,446 vessels of 4,865,880 tonnage entered the port of Lisbon.

Portugal, an independent state since the twelfth century, was a kingdom until Oct. 5, 1910, when a revolution drove King Manuel II. from the throne and proclaimed a republic. It is governed under a Constitution, adopted Aug. 20, 1911, which provides for a National Council of 164 members, elected

by direct vote of three years. and an Upper Chamber of 71 members, elected by the Municipal Councils, half renewable every three years The President is elected by both Chambers for a four-year term; he appoints the Ministers, who are responsible to the Chamber. Voters must be able to read and write. The army is raised by conscription and numbers 40,000, with reserves of 620,000. The navy personnel is 6,000.

The dominant religion is Roman Catholic; there is freedom of worship. Primary education is free and nominally compulsory; the republic has been showing increased interest in education, but the percentage of illiteracy is about 75. There are three universities.

Portugal is a member of the League of Nations.

The country has suffered greatly in the last two years from the depreciation of the escudo.

The escudo is the unit of currency, gold par being $1 0805. Exchange Oct. 15, 1924. $0.04

Budget. 1923-24—Receipts. escudos		666,576,163
	Expendit's, escudos	802,415,872

PORTUGUESE COLONIAL POSSESSIONS.

Asiatic

Portuguese India includes Goa (capital, Panjiu), on the Malabar coast Damao, near Bombay, and Diu, a small island 140 miles from Damao; area 1,638 square miles, population, 548,472. Salt is produced in Goa and Damao, and manganese near Mormugao, where there are 20 mines Manganese is imported into the United States for steel-making as an essential The 1923-24 estimated revenue of this group was 1,694,251 escudos; expenditures, 1,892,274. imports. 4,751 000· exports, chiefly cocoanuts. copra fish, spices and salt, 1,401,000.

Macao, China, is on an island of the same name at the mouth of the Canton River; it has 74,668 population (1910). 2,171 of which were Portuguese, the rest Chinese a military force of 488 natives; and had (budget of 1923-24) a revenue of 4,963,763 escudos, and expenditures of 5,245,575• with imports in 1921 of 28 141,081 portacas, and exports of 17 112 291 The trade is mostly transit.

Portuguese Timor is the eastern part of the Malay island of that name, off the north coast of Australia Holland having the western part. The population in 1915 was 377 815. The 1922-23 budget balanced at 702,442 escudos. Imports, 1922, 805,475 escudos exports, coffee, sandalwood, sandal root, copra and wax, 532,810.

African.

The Cape Verde Islands, in the North Atlantic, longitude 25°, latitude 15°. 14 in number, Praia, capital, had a population of 149,793 in 1912, of which 4,799 were white Chief products are coffee, medicinal products. hides and millet. Receipts, budget of 1922, 2,783,000 escudos; expenditures, the same—a balanced budget.

Portuguese Guinea, on the coast of Senegambia, chief port Bissau has a population estimated at 289,000. In 1922 imports were 21,893,497 escudos; exports. chiefly rubber, wax, oils, ivory and hides, 13,489.621. The budget for 1923-24 balanced at 9,430,000 escudos.

Angola, Portuguese West Africa, has a 1,000-mile coast line stretching south from the mouth of the Congo It is governed by a High Commissioner, who resides in Loanda, with large powers. The Portuguese have owned it since 1575. Its area covers 484,800 square miles.

The native population in 1914 was estimated at 2,124,000. There were 52 Government schools, with 2,400 pupils The budget for 1923-24 was: Revenues, 203,725,000 escudos, expenditures, 203,725,000. The Government was authorized on March 26, 1921, to contract loans for development and colonization purposes up to the end of 1927 to a total amount of 60,000,000 escudos gold.

Chief products are coffee, rubber, wax, sugar, oil seeds, cocoanuts, ivory, cattle, fish, tobacco for local use, cotton, petroleum and asphalt. There are large deposits of malachite, copper, iron and salt, and gold has been found. Railway mileage is 818.

Mozambique, Portuguese East Africa, extends from Cape Delgado (10° 40' south latitude) to the Union of South Africa just below the capital, Lourenco Marques. To the west lies the Union of South Africa and Rhodesia (British). On the north is Tanganyika, formerly German East Africa, but surrendered to the British November, 1918; over 400 square miles of that territory, the Kionga Triangle, was transferred to Mozambique in 1919.

Mozambique has 428,132 square miles, and an estimated population of 3,150,000 natives and 10,500 whites. The budget estimates for receipts and expenditures for 1923 were 16,300,835 escudos. Chief products are sugar, cocoanuts, beeswax and mining products. Gold has been discovered and coal deposits exist. It has vast natural resources practically untouched. The principal ports are Mozambique, population in 1910, 363,000 (including 472 Europeans); Ibo, Quillame, Chinda, Beira and Lourenco Marques. In 1922 imports were 218,120,842 escudos; exports, 103,737,294.

Railroads are being pushed, the most important line being the Delagoa Bay to Pretoria, 347 miles.

The islands of S. Thome and Principe, 125 miles off the coast of Africa in the Gulf of Guinea, were discovered in 1471. The population in 1914 was 63,500. Chief products are cacao, coffee, rubber and cinchona. The 1923-24 budget balanced at 5,920,865 escudos. Imports in 1922 were 16,041,692 escudos; exports, 44,229,814.

Trade of Portuguese Africa with the United States was:

Imports, 1920-21		$9,218,606
"	1921-22	2,767,675
"	1922-23	3,202,762
"	1923-24	4,195,153
Exports, 1920-21		1,378,402
"	1921-22	1,881,146
"	1922-23	9,633,614
"	1923-24	14,665,604

ROME, THE SEE AND CHURCH OF

Supreme Pontiff, Pius XI. (Achille Ratti), born at Desio, May 30, 1857, created Archbishop of Milan, September, 1921, Cardinal, June 13, 1921, elected Pope (261st) in succession to Benedict XV., Feb. 6, 1922.

Secretary of State, Cardinal Gasparri..

(For members of the College of Cardinals and list of Popes consult the index.)

Apostolic Delegate to the United States, Archbishop Pietro Fumasoni-Biondi.

The Popes for many centuries, with some slight breaks, held temporal sovereignty over mid-Italy (the so-called Papal States), extending from sea to sea, comprising an area of some 16,000 square miles, with a population in the nineteenth century of over 3,000,000. This territory in the reign of Pius IX. was incorporated in the Kingdom of Italy, the sovereignty of the Pope being confined to the palaces of the Vatican and the Lateran in Rome and the villa of Castel Gandolfo by the Italian law of May 13, 1871; this law also guaranteed to the Pope and his successors in the chair of St. Peter a yearly indemnity of 3,225,000 lire ($622,425 at par of exchange), which allowance, however, remains unclaimed and unpaid.

The central administration of the Roman Catholic Church is carried on by eleven committees called Sacred Congregations, viz.: Holy Office, Consistorial Discipline of the Sacraments, Council, Religious, Propaganda Fide, Under Rites, Ceremonial, Extraordinary Ecclesiastical Affairs, Seminaries and Universities, Tribunals and various offices.

The Holy See maintains diplomatic relations with Austria, Bavaria, Belgium, Czechoslovakia, France, Germany, Great Britain, Hungary, Japan, Jugo-Slavia, Latvia, Lithuania, Monaco, the Netherlands, Poland, Portugal, Roumania, Russia, Spain, together with most of the American republics except the United States, Cuba, Mexico and Uruguay.

London Catholic Directory gives the number of Catholics in British Empire as 14,439,941; in world, 316,888,975, of whom 309,718,779 are of the Latin rite.

The Holy Year of 1925 began on Christmas Eve, 1924, when the Porta Santa of St. Peter's was thrown open, to remain open until Christmas Eve, 1925. It is expected that 30,000 Catholic clergy will visit Rome, and that 1,500 Catholic Bishops will attend the Ecumenical Council to be held in 1925, the first since 1870.

ROUMANIA, KINGDOM OF

AREA, 122,282 square miles; divided, Old Roumania, 53,489; additions confirmed by the 1919 peace treaties, Bessarabia, 17,146; Bukovina, 4,030; Transylvania, 22,312; Crisana, 8,038; Maramuresh, 6,258; Banat, 11,009.

POPULATION, 17,393,149; divided, Old Roumania, 7,904,104; Bessarabia (joined March 1918), 2,344,800; Bukovina (joined November 1918), 800,098; Transylvania (joined December 1918), 2,678,367; Crisana, 1,316,981; Maramuresh, 766,666; Banat, 1,582,133 (Census of 1917) Roumanians by race number 13,000,000.

CAPITAL, Bucharest; population, 345,666; other cities, Kishineff (Bessarabia, population 300,000); Chisinau, 114,100; Cernauti, 87,128; Ismail, 85,600; Iasi (Jassy), 76,120; and 20 others from 25,000 to 75,000.

King, Ferdinand I., born Aug. 24, 1865; succeeded his uncle, King Carol, Oct. 11, 1914; married Jan. 10, 1893, Princess Marie, daughter of the Duke of Saxe-Coburg and Gotha, granddaughter of Queen Victoria. *Heir*, Crown Prince Carol, born Oct. 15, 1893, married March 10, 1921, Princess Helen, eldest daughter of the late King Constantine of Greece; one son, Michel, born Oct. 25, 1921.

Prime Minister, Jon Bratiano (War).

Minister to the United States, Prince A. Bibesco.

Consul General in the United States, at New York, T. Tileston Wells; *Consuls*, at Chicago and Pittsburgh. *Vice Consuls*, at Indianapolis and Cleveland.

United States Minister, Peter Augustus Jay.

United States Consuls, at Bucharest, Ely E. Palmer; at Constanzia, Richard B. Haven.

Roumania, whose history began as a Roman colony, was formed within Turkey-in-Europe by the union of the Danubian principalities Wallachia and Moldavia, in 1861; proclaimed its independence May 21, 1877, during the Russo-Turkish war, and was so confirmed by the Treaty of Berlin in 1878, losing Bessarabia, however, to Russia. The World War resulted in the return of Bessarabia, the addition of Transylvania from Hungary and of Bukovina with part of the Banat, Crisana and Maramuresh from the Austro-Hungarian Empire, based on ethnological grounds. The country is now bounded on the north by Hungary, Czechoslovakia and Poland, on the east by the Ukraine (Russia) and the Black Sea, on the south by Bulgaria and Serbia, and on the west by Jugo-Slavia and Hungary. It is equal in size to the State of New Mexico. For about 300 miles the Danube forms its southern boundary; the last 250 miles of its course (from Oltenitza to the Black Sea) it flows through Roumania. The Dneister forms its northeast boundary for 300 miles. The Carpathian Mountains extend from north to south to the middle of the country, whence the Transylvanian Alps extend 200 miles due west. These mountains formed the old western boundary.

The forests are extensive (18,750,000 acres), and the timber industry important. The soil is very fertile, making the country a granary of Europe. Four-fifths of the population engages in agriculture and stock-raising. The production of wheat in 1921 was 2,138,146 tons; in 1922, 2,504,000 tons; and in 1923, 2,700,000 tons. Oats, barley and maize were up to pre-war average in 1923 with 925,000 tons, 1,501,000 tons, and 4,365,000 tons respectively.

Under the land reforms carried through since the armistice 13,099 properties, totaling 16,623,000 acres, had undergone expropriation by Feb. 15, 1923. Of the 16,623,000 acres in these properties, 11,079,948 were expropriated and had been distributed as follows: In Old Roumania 36,384 peasants had received 2,973,950 acres; in Bessarabia 282,311 peasants had received 2,257,652 acres; in Transylvania 5,907 peasants had received 1,605,512 acres; and in Bukovina 2,602 peasants had received 136,122 acres. The distribution was continuing slowly, one immediate result being a reduction in production during the readjustment.

The area sown to the chief grain crops in 1920 was 19,760,000 acres; this had increased in 1923 to 23,749,050, the pre-war acreage being about 29,500,000. The growth in the number of domestic animals is about in like proportion. Exports of cereals in 1923 reached 1,844,724 metric tons. The tobacco crop in 1920 was 5,000 tons. About 50,000 are employed in the oil fields, the largest industry, and 1,168,414 metric tons of petroleum was produced in 1921; 1,368,929 in 1922; and 1,508,829 in 1923. Salt mining in the lower Carpathians is a state monopoly. In 1922 production reached 285,212 tons. Output of coal in 1922 was 2,116,221 tons.

Roumania had in 1921 8,376 miles of railroads with a navigation service in the Black Sea and the Danube River, all state operated. The merchant marine has 158 vessels of 71,158 tonnage. In 1919 there entered Roumanian ports 10,546 vessels of 2,991,000 tonnage. The European Commission of the Danube, established in 1856 with sovereign powers over the navigation of that river, has its seat at Galatz. Constanza is the chief Black Sea port with a population of 40,000.

A new Constitution on March 27, 1923, replaced the Constitutions of the several countries which before had Constitutions—Old Roumania, Bessarabia, Transylvania and Bukovina. It provides for a Senate, partly composed of ex-officio members and partly of others indirectly elected, and for a Chamber of Deputies elected by "universal, equal, direct, compulsory and secret suffrage, on the basis of the representation of minorities." Mineral and other subsoil products are nationalized. Special franchises and monopolies are forbidden. The administration is centralized. It carries a sweeping bill of rights.

A new mining law was promulgated July 4, 1924, whereby foreign companies are given ten years to transfer up to 55 per cent. of their stock to Roumanian nationals. This especially concerns the oil field and has been protested. Very considerable increases in the tariffs for protection have been made.

Military service is compulsory. On Jan. 1, 1922, the effective strength was 230,000 men, there having been disorders in 1918 which called 400,000 men to the colors. Further reductions are in progress.

The navy consists of a small cruiser, six destroyers, two scout boats, and four gunboats, with a special Danube River naval force of 12 gunboats, 9 sloops, 4 river monitors, 8 destroyers and 7 torpedo boats. The naval base is at Sulina, on the Black Sea, chief port.

Of the population in 1918 there were 9,695,000 of the Orthodox Greek Church, 1,456,000 of the Greek Catholic Church, 1,483,000 of the Roman Catholic Church, 1,334,000 Protestants, 17,000 Armenians, 834,000 Jews and 44,000 Mohammedans. Liberty of worship is assured. Orthodox clergy are paid by the state, other clergy being subventioned.

Instruction is free and compulsory, "wherever there are schools." Intelligence is spreading, but in 1909, by a special census, 60.16 per cent. of the population over seven years of age was illiterate. Roumania is a member of the League of Nations.

The leu is the unit of currency, gold par being 19.3 cents. Exchange, Oct. 15, 1924, was 54 cents.

The Government announced a surplus for 1923 of 1,200,000,000 lei, most of which was made available for War Department expenditures. The budget for 1924 was balanced theoretically at 24,000,000,000 lei.

The consolidated external debt on Jan. 1, 1922, was about $100,000,000; and the internal consolidated debt was 16,892,000,000 lei; and the internal floating debt, 14,561,000,000 lei. Much of the war debt and reparation claims is as yet unadjusted.

Roumania, in 1922, informally notified the United States that she will be unable to pay any of the interest of her debt of $38,000,000 for four years, at the end of which time she intends to begin payment to the full extent of her ability.

Foreign trade was: Imports, 1921, $145,161,430; 1922, $82,229,448; exports, 1921, $100,807,126; 1922, $84,763,331.

Trade with the United States was:

Imports,	1920-21	$9,779,668
"	1921-22	2,577,415
"	1922-23	2,029,204
"	1923-24	1,309,042
Exports,	1920-21	55,065
"	1921-22	201,868
"	1922-23	166,302
"	1923-24	258,642

RUSSIA

(Union of Socialist Soviet Republics.)

AREA, 8,166,130 square miles; dependencies (Khiva, estimated, 14,000 square miles, and Bokhara, estimated, '83,000) 107,000 square miles; grand total, 8,273,130 square miles.

POPULATION, estimated, 1922, 131,546,065; dependencies, Khiva, estimated, 646,000; Bokhara, estimated, 1,250,000; total, 1,896,000; grand total, 133,442,065.

CAPITAL, Moscow, succeeding Leningrad (formerly Petrograd and St. Petersburg) as capital of Soviet Russia; population, 1923 census, 1,511,045; other principal cities, Leningrad, population, 1923, 1,067,328; Kiev, population, 1923, 403,730; Odessa, port on the Black Sea, population, 1923, 316,740; Kharkov, estimated, 250,000; Kazan, 1913, 195,300; Samara, 1923, 150,132; Vladivostok had in July 1, 1922, a registered population of 194,689, of which 84,894 were Russians, 82,864 Chinese, 10,691 Koreans and 8,887 Japanese.

President of the Council of People's Commissars, Alexis I. Rykov, elected Feb. 2, 1924.

Vice Presidents of the Council: Leo Kamenev; A. D. Tsiurupa, Premier of the Ukraine; M. D. Orakhelashvili, Premier of Transcaucasia, and V. Y. Chubar, Premier of White Russia.
Commissar for Army and Navy, Leon Trotzky.
Commissar for Foreign Trade, Leonid Krassin.
Commissar for Foreign Affairs, George Tchitcherin.
Commissar for Transportation, Y. C. Rudzutak.
Commissar for Posts and Telegraphs, I. N. Smirnov.
Commissar for Foodstuffs, A. P. Briukhanov.
Commissar for Finance, G. Sokolnikov.
Commissar for Labor. V. V. Schmidt.
Commissar for Peasants' and Workers' Inspection, V. V. Kuybyshev.
Chairman of Council of National Economy. M. Dzierzynski.
Chairman of the Central Executive Committee of Soviets, M. I. Kalinin (elected by the All-Russian Congress for a period of one year); *Co-Chairman*, Petrovsky (the Ukraine); Narimanov (Transcaucasia), and Cherviakov (White Russia).
Ambassador to the United States, no diplomatic relations with the Soviet Government.
Consuls General in the United States, at New York, Michel Ostinow; at Seattle, Wash., Nikolai Bogoyavlensky (also for Nome, Alaska); at Chicago, Antoine Volkoff. *Consuls*, at Boston, Joseph A. Conroy; at Philadelphia, William Tucker; at Pittsburgh, Georges Tchirkow; at San Francisco, George Romanovsky.

Russia stretches across two continents from the North Pacific to the Baltic. It occupies the northern part of Asia and the eastern half of Europe, from the Arctic to the Black Sea.

On March 12, 1917, the day of the revolution that destroyed Czardom, Imperial Russia comprised 8,764,586 square miles of territory, with 182,182,600 (official "revision" estimate of 1915) of population; this included 131,796,800 in European Russia; 13,229,100 in the Caucasus, 10,377,900 in Siberia, and 11,254,100 in the Central Asiatic provinces. The population analyzed 100,331,516 Aryans, the several branches of the Slavs forming 92 per cent. thereof, with half a dozen other races represented.

The changes wrought by the World War, the revolutionary movements in minor regions, treaty decrees of the Allied and Associated Governments and negotiations of the Russian Socialist Federal Soviet Republic as to political and economic relations brought dismemberment to the old empire and great modifications of territory and relationship toward the new federation (U. S. S. R.) of many of the old districts and provinces. Five independent states have risen in the west. In 1920 the Russian Soviet Government concluded treaties of peace with each: Esthonia, Feb. 2; Lithuania, July 12; Latvia, Aug. 11; Poland, Oct. 12; and Finland, Oct. 14; which recognized the territorial limitations of each or provided for further settlement. That same year agreement was reached by the Allied Powers whereby Roumania received Bessarabia, taken from her in 1878, subject to later discussion by Russia. The former Turkish province of Kars, also taken in 1878, was renounced by the Soviet in the Treaty of Brest-Litovsk, March 3, 1918. The area and population lost were:

	Square Miles	Population
Poland (independent)	43,804	12,247,600
Finland (independent)	125,689	3,241,000
Esthonia (independent)	16,000	1,750,000
Latvia (independent)	27,000	1,500,000
Lithuania (independent)	22,890	2,246,000
Bessarabia (to Roumania)	17,330	2,213,000
Kars area (semi-autonomous)	7,780	492,000
Total	260,493	24,689,600

The Ukraine, nine provinces, 174,510 square miles (about the size of New England, New York, New Jersey and Pennsylvania), with 26,001,802 of population, was, by the Treaty of Riga, 1921, technically left as an independent state, so recognized by Soviet Russia and Poland. The subsequent establishment of a Soviet form of government, under direct Soviet influence, placed Ukrainia virtually in Russian territory. The People's Commissar of Internal Affairs on March 1, 1922, gave out these statistics:

RUSSIA OF 1922.

UNION OF SOVIET SOCIALISTIC REPUBLICS:

	Square Miles.	Population.
Soviet Russia Proper	1,290,440	65,751,898
Siberia	4,210,420	9,257,825
Far Eastern Republic	652,740	1,811,725
Ukraine	174,510	26,00[illegible],802
White Russia	23,290	1,634,223
Azerbaijan	33,970	2,096,973
Armenia	15,240	1,214,3[illegible]
Georgia	25,760	2,372,403
AUTONOMOUS REPUBLICS:		
Bashkir	40,420	1,268,132
Tartar	25,960	2,852,135
Crimea	15,060	761,600
Gorskala (Mount'n Repub.)	17,420	808,480
Daghestan	13,730	798,181
Kirghiz	843,640	5,058,553
Turkestan	577,400	7,201,551
AUTONOMOUS AREAS:		
Votiak	11,300	686,049
Zyrian	107,060	186,878
Kalmyk	38,440	126,256
Mari (Cheremiss)	6,040	300,069
Chuvash	6,720	758,161
LABOR COMMUNES:		
Karelia	28,890	144,392
German Volga Commune	7,680	454,368
Total	8,166,130	131,546,045
DEPENDENCIES:		
Khiva	24,000	646,000
Bokhara	83,000	1,250,000
Total	107,000	1,896,000

RUSSIAN STATES IN 1924.

Political realignments have been made in these groupings but figures are not available for exact boundaries and areas of the component parts as now organized. The Union of Socialist Soviet Republics on Jan. 30, 1924, was made up as follows, with the number of representatives each had in the council of nationalities:

SOCIALIST SOVIET REPUBLICS:	*Capitals*	*No. of Reps.*
Russian S. F. S. R.	Moscow	5
Ukrainian S. S. R.	Kharkov	5
White Russian S. S. R.	Minsk	5
Transcaucasian S. F. S. R.		
Azerbaijan S. S. R.	Baku	5
Armenian S. S. R.	Erivan	5
Georgian S. S. R.	Tiflis	5
AUTONOMOUS REPUBLICS:		
*a*Bashkir A. R.	Ufa	5
*a*Buriat-Mongol A. R.	Irkutsk	5
*a*Autonomous Mount'n R. (Gorskala)	Vladikavkaz	5
*a*Daghestan A. R.	Buinaksk	5
*a*Kirghiz A. R.	Orenburg	5
*a*Crimean A. R.	Simferopol	5
*a*Karelian A. R.	Petrozavodsk	5
*a*Tartar A. R.	Kazan	5
*a*Turkestan A. R.	Tashkent	5
*a*Yakut A. R.	Yakut	5
*a*German-Volga A. R.	Marxstadt	5
*c*Abkhasian A. R.		1
*c*Adjarian A. R.		1
*d*Kalmuk A. R.	Ellista	1
AUTONOMOUS TERRITORIES:		
*b*Karabakh Mount'n T.		1
*b*Nakhichevan A. T.		1
*c*South-Osstian A. T.		1
*d*Adegha-Circassian A.T.	Tokhtomukai	1
*d*Votiak A. T.	Izhevsk	1
*d*Kabardian-Balkarsk A. T.	Nalchik	1
*d*Karachai-Circassian A. T.	Batalpashinsk	1
*d*Komi (Zyrian) A. T.	Ust-Sischik	1
*d*Oirad A. T.	Ulala	1
*d*Mari A. T.	Krasnokokshaisk	1
*d*Chechen A. T.	Grozni	1
*d*Chuvash A. T.	Cheboxari	1
Total		100

—NOTE: (*a*) Autonomous Republics established by virtue of the decrees of Soviet Russia Proper (R. S. F. S. R.). (*b*) These two are recently constituted and were formerly part of Azerbaijan. (*c*) These three autonomous areas were recently constituted within the territory of Georgia. (*d*) Autonomous regions of Soviet Russia Proper (R. S. F. S. R.).

NOMINALLY INDEPENDENT BUT BOUND BY TREATY:

Bokahara People's Soviet Republic . . . . . Bokhara
Khorezm People's Socialist Soviet Republic . . . Khiva

Soviet Russia Proper (R. S. F. S. R.) consists of Great Russia (the whole territory of the former Russian Empire, peopled by the Great Russian population, including 40 former provinces of European Russia, 3 provinces of the northern Caucasus, the greater part of Siberia and the Far East to the Pacific Ocean), and territories with extensive rights of self government, as listed in the table. Out of the total area of the R. S. F. S. R., amounting to 8,098,244 square miles, with a population, according to the 1920 census, of 98,375,900; Great Russia, occupies 4,620,431 square miles, with a population

of 76,682,800. The autonomous republics and territories within it are mostly built up around large racial groups.

The Ukraine, which is larger than California, is the southwest division of European Russia, bordering on the Black Sea, and was the richest and mostly densely populated part of the old empire. The Dniester River forms its boundary, with Roumania on the southwest, and on the west it is bounded by Poland. The black soil is the richest in Russia; it is the great wheat growing district, and Odessa, on the Black Sea, with its large elevators, in pre-war days was a most important grain shipping port. There are large deposits of coal and iron. Of the country population 88 per cent. are Little Russians; but of the 5,000,000 urban population, or 34 per cent., 29 per cent. being Great Russians, and 32 per cent. Jews.

White Russia comprises the six eastern districts of the former Minsk Province, with Poland on its western boundary. Seventy-five per cent. of its population are White Russians, the remainder being Poles and Jews.

Georgia joined the federal republic, which was set up by Georgia, Armenia and Tartary, or Azerbaijan, in 1918; but became independent the following year. Tumult followed until 1921, when Soviet Russian armies occupied the land. An uprising of the people was put down in the summer of 1924 by troops of the Red Army. Eighty per cent. of the people are Georgian and Christians; 90 per cent. engage in agriculture, with tillage most crude. Batum is its important port on the Black Sea. Three automonous areas have been carved out of it.

Azerbaijan, another integral part of Transcaucasia, declared its complete independence on May 28, 1918, but its government was overthrown by the Bolshevists, in 1920, and it became aligned with Soviet Russia. The people are 75 per cent. Turko-Tartars, and Mohammedans, and 20 per cent. Armenians. Baku, the capital, is the centre of the most extensive oil industry of the Caspian region.

Armenia, first winning recognition of independence from Turkey and Germany, helped to form the Transcaucasian Republic in 1918, but soon declared its independence and was recognized by the Allies in 1920. It became a Soviet Republic the following year, aligning itself with Soviet Russia. Ninety-five per cent. of its population are Armenians, including some 450,000 refugees from Turkey. It has Persia on the south, Turkey on the west, Georgia on the north and is about the size of Massachusetts, Connecticut and Rhode Island.

Bokhara, in central Asia, east of the Caspian, established a Soviet Government in September 1920, and concluded a military political agreement with Russia on March 4, 1921; 80 per cent. of the population is Uzbegs and Mohammedans.

Khiva, now called the Khorezm People's Soviet Republic, is bounded on the north by the Aral Sea, on the east by the Oxus River and on the south and west by the Russian Transcaspian province. The Khanate of Khiva was abolished in April, 1920, and an independent republic proclaimed. By a treaty between Russia and Khorezm that year a firm alliance was established and it receives from Russia a subsidy. Fifty per cent. of the population are Uzbegs and 30 per cent. Turkoman. The people are Mohammedan and the products are chiefly cotton and silk. Bokhara and Khiva are held to be "not ripe for Socialism".

The flag of the U. S. S. R. is red, bearing in the upper left canton a golden sickle and a golden hammer crossed, surmounted by a red star edged with gold. The canton is separated by a gold band from the field.

THE NEW FEDERAL CONSTITUTION.

The All-Russian Central Executive Committee (of 386 members) on July 4, 1923, in Moscow, unanimously approved of a new Federal Constitution for the Union of Socialist Soviet Republics. The committee on July 6, acting as a temporary Federal Parliament, elected Federal Commissars according to its provisions.

The Soviet republics that "united in a Federal state" in the agreement were the Russian Socialist Federated Soviet Republic, which now includes Siberia and the Far Eastern Republic, The Ukraine, White Russia, and the Transcaucasian Federated Socialist Soviet Republic (Azerbaijan, Georgia and Armenia). The constitution was drawn up on the assumption that other states and dependencies will adhere to it and provides that "each federated republic has the right of freely withdrawing from the union" but "the consent of all member republics is necessary" to such a step. There is no bill of rights. Uniform citizenship was established but there are no electoral qualifications and no provision for a direct vote. District Soviet Congresses choose delegates to the Soviet Congress of the Union on a new basis of one delegate for every 25,000 voters in the city Soviets, and for every 125,000 inhabitants in the provincial Soviets.

The supreme power rests in a Congress called the Central Executive Committee of the Union, consisting of two Houses. One is the Federal Council of 414 (at first 371) members on the basis of population, and the other the Council of Nationalities (now numbering 100), chosen by each nation regardless of population, except that what are known as constituent "Autonomous Republics" have five representatives each, while "Autonomous Territories" have one representative each, as detailed in the table above.

The Federal Council is elected by the Federal Congress of Soviets, which corresponds to an Electoral College, meeting at Moscow annually. This electoral body will be about 2,000 strong, chosen by the state Soviets, which are chosen by the local District Soviets elected by the people.

The Council of Nationalities is chosen by the Provincial Soviets. Each of the two Houses names a Presidium or standing committee of seven, and the two Houses jointly name another seven, twenty-one in all, who constitute the nominal supreme authoritative body in Russia in the interim between the three yearly sessions of Congress.

The Central Executive Committee jointly elects Federal Commissars who are responsible to it and its Presidium on this basis: Five Commissariats or Ministries are wholly federal—those for Foreign Affairs, Army and Navy, Transportation (railroads), Postal and Telegraphs, and Foreign Trade (monopoly). Their authority is absolute throughout the Union and they appoint their own representatives in the several states. Five more Commissariats, are: The Supreme Council of National Economy, the Ministries of Food, Labor, Finance, and Peasants and Workers' inspection. These have parallel Commissars in the participating states chosen by the latter but approved by the Federal Commissars whose autnority is shared by them. This board of ten Federal Commissars thereupon constitutes the Supreme governing body of the Russian Federation and as such sign decrees, etc.

The Central Executive Committee, which must meet three times a year, issues legal codes, decrees, ordinances and orders, combines the legislative and administrative work of the Union and defines the activities of the Presidium, and of the Council of People's Commissars. It has the right to annul and suspend the decrees, etc., of the Presidium and of the Soviet Congresses of the several states, and of other authorities.

All decrees, dispositions, etc., must be published in all the six languages current in the Federated Republics (Russian, Ukrainian, White Russian, Georgian, Armenian and Turkish-Tartar).

Each participating state has also its own Commissars of Agriculture, the Interior, Justice, Popular Enlightenment, Sanitation and Soviet Welfare.

A Supreme Court is provided for, modelled after that of the United States, and an appointed Chief Attorney (Procurator).

Private property and land abolished, all forests, mines, waters having a national importance, all live stock and fixtures, model estates, and agricultural concerns, are national property. The state owns all factories, mines, railways and other means of production and transport, but may lease them to private individuals, corporations, or state trust. Universal military service is incumbent, but the privilege of defending the revolution with arms is reserved for the laboring classes only.

The united governmental Political Department of the union is established to "unite the revolutionary efforts of the Federated Republics in the struggle against the political and economic counter-revolutionaries and against espionage and banditry" and to direct the activities of the local organs which will function under a special law.

This new Constitution was ratified with some minor changes by the Second Soviet Congress, January 30, 1924.

This Congress numbered 2,124 delegates, but of these only 1,540 had the right to vote. These were distributed: Soviet Russia proper, 77 per cent.; The Ukraine, 16, Transcaucasia, 5; White Russia, 2; By nationalities they stood: Russians, 61 per cent.; Ukrainians, 12; White Russians, 2; Turko-Tartar, 7; Caucasians, 5; Jews, 5; Letts and Esthonians, 3; others, 5. Communists were 90 per cent. and non-partisans, 10; workers were 49 per cent.; peasants, 26; and office workers, 25; three per cent. were women.

The delegation from the R. S. F. S. R. (Soviet Russia proper) numbered 1,068, of which 236 were divided among the autonomous republics and territory within its border. The Transcaucasian S. F. S. R. delegation was divided: Azerbaijan, 24; Georgia, 25; Armenia, 12; the Ukraine S. S. R. had 225; and White Russia S. S. R., 17.

No mention of the all-powerful Central Executive Committee of the Communist Party appears

in the Constitution. This committee elected, or revised, yearly numbers 52 members, 34 substitutes, chooses from its members the Political Bureau, who are the real rulers of Russia. The Political Bureau, chosen on June 2, 1924, was: Bukharin, Zinoviev, Kamenev, Rykov, Stalin, Tomsky, Trotzky. Substitutes: Molotov, Kalinin, Rudzutak, Dzierzynski, Sokolnikov, Frunze. Bukharin, editor of the Pravda, was chosen to fill the place left vacant by Lenin's death. The General Secretary is Stalin.

The official statistics gave the strength of the Communist party on July 1, 1924, as 336,000 members, with 311,000 candidates; of this 79 per cent. are in Soviet Russia proper; 10 per cent. are women; 46 per cent. are workmen; 24 per cent. peasants.

THE RED INTERNATIONAL.

The Third (Red Communist) International on March 5, 1924, celebrated the fifth anniversary of its founding by Lenin in the Kremlin, at which time the Chairman, Zinoviev said: "We know ourselves. We are the Soviet Government, in Moscow and in Leningrad our home." Clara Zetkin said: "Indisputably the Russian Communist party conducts the affairs of all the world's proletarian organization."

At the meeting of the International in June, Zinoviev was re-elected President and on the Presidium appear Stalin, Bukharin, Rykof, Kemenev, Clara Zetkin and William Dunn of Montana.

Various degrees of recognition have been accorded the Government of Soviet Russia by Germany, Great Britain, France, Italy, Greece, Norway, Sweden, Denmark, Danzig, Esthonia, Latvia, Lithuania, Poland, Finland, Austria, Mexico and China. Diplomatic negotiations are under way with Japan and other countries. Great Britain, after prolonged negotiations and what seemed to be a complete break, signed a general treaty and a commercial treaty with the Soviet representative on Aug. 6, 1924. This provided for a Government loan. The treaty was violently opposed by both Conservatives and Liberals and had much to do with the overthrow of the British Labor Party at the polls.

The treaty with France, signed Oct. 17, reserves all rights of the French Government and of French citizens who held Russian bonds to the amount of about 12 billion gold francs and who had business interests in Russia.

Russia sent to Norway Mme. Alexandra Kilontai, the first woman Minister Plenipotentiary.

Nikolai Lenin (whose real name was Vladimir Uyitsch Ulianoff), organizer and leader of the Bolshevik revolution and Premier of Soviet Russia, died on Jan. 21, 1924, after months of illness. His funeral was a remarkable outpouring of popular grief and his body, embalmed in a glass covered coffin, lies in a mausoleum by the wall of the Kremlin as a shrine.

BOLSHEVIST CONTROL.

Cataclysmic events took place when Imperial Russia fell on March 12, 1917, and revolutionary forces took over the Government, Czar Nicholas II. abdicating. A provisional Government was set up by the Duma, Russia's national legislative body, with Prince George Lvoff as the head, Alexander Kerensky becoming Premier on Aug. 6, 1917. The All-Russian Congress of Workmen's, Soldiers' and Peasants' Deputies finally seized the power in a revolutionary movement on Nov. 7, 1917, the Military Revolutionary Committee of the Soviet of Petrograd having wrested the Government away from Kerensky, Lenin and Trotzky were leaders.

The official name of the Government became the Russian Socialist Federal Soviet Republic, and it was officially announced that this Communism was fashioned on the Karl Marxian social and economic theories. The basic demand was that only actual workers laborers, should have part in government. The dictatorship of the proletariat was set up.

Russia withdrew from her alliance with the Allied and Associated Governments in the World War and signed the Brest-Litovsk treaty of peace with Germany, March 3, 1918.

All right of private property was abolished. The Government took over all transport, communication, industry, food, money, the productive processes of all activities, title to lands, stocks of goods, and assumed disposition of the products of industry and the produce of agriculture.

By the end of December, 1917, the theories of nationalization were in almost absolutely complete operation, confiscation having proceeded without limitation. Private capital was no longer permissible.

CAPITAL EXPROPRIATED.

Disregarding the comparatively small number of private estates and residences in Russia, practically all the foreign capital in that country was represented by investments in banking, industrial, and trading establishments. According to the data of the Petrograd Institute of Economic Research (published in the Soviet paper Izvestiya of June 24, 1922), the aggregate capitalization of these investments in January, 1917, amounted to 2,242,974,000 gold rubles, made up of stock and share capital to the extent of 1,986,772,000 rubles and bonds to the amount of 256,202,000 rubles (the gold ruble equals $0.5146).

These investments were distributed among the following classes of commercial enterprises:

ENTERPRISE.	*Gold Rubles.*
Mining industry	834,320,100
Metallurgical industry	392,709,600
Urban real estate	259430,900
Credit institutions	237,200,000
Textile industry	192,494,000
Chemical industry	83,593,200
Trading establishments	80,715,200
Foodstuffs manufacture	37,330,500
Paper and printing arts	31.404,800
Transports, roads, and rolling stock	26,650,000
Sawmills and woodworking industry	25,736,500
Mineral-working industry	18,239,300
Animal-products industry	14,450,000
Insurance	8,700,000
Total	2,242,974,100

The foreign investments were distributed as follows:

NATIONALITY.	Invested in all Russia.	Per Cent.	Expropriated by Soviet Russia.
	Gold Rubles.		*Gold Rubles.*
French	731,746,600	32.6	648,089,700
British	507,479,800	22.6	500,563,700
German	441,593,200	19.7	317,475,500
Belgian	321,602,500	14.3	311,812,400
American	117,750,000	5.2	117,750,000
Dutch	35,456,700	1.6	36,456,700
Swiss	32,479,100	1.5	31,666,700
Swedish	23,772,300	1.1	16,646,700
Danish	14,737,700	0.7	14,537,700
Austrian	7,550,000	0.4	5,900,000
Italian	2,506,200	0.1	2,106,200
Norwegian	2,300,000	0.1	2,300,000
Finnish	2,000,000	0.1	2,000,000
Total	2,242.974,100	....	2,007,305.300

The investments included in the first column and not expropriated are those in territories like Latvia, Poland, etc., now beyond the boundaries of Soviet Russia.

For various reasons the Soviets at last decided to modify materially the degree to which Communism, nationalization and the prohibition of private capital was to be enforced, there being yielding to the extent that private capital was permitted in some instances, official promulgation by the Government of the new economic policies (so-called "Nep.") in March, 1921, being that for the present the continuance of absolute Communism would not be insisted on.

Private capital could thus, though still under restrictions, operate in industry, and the individual citizen could possess certain kinds of property.

The new economic policy authorized free trading in food and other necessaries within the territory of the republic; it concentrated state control on nationalized enterprises and combined them into state autonomous trusts, 430 in number, with an enrolment of 4,144 establishments, employing 976,942 hands, under the direction of the Supreme Economic Council; it authorized the leasing of a vast majority of nationalized and state controlled enterprises, and by the end of 1921 10,226 enterprises had been leased, of which 58% were taken by private individuals, 36.5% by co-operative associations, and 5.5% by local Soviets; it provided for the institution of a state bank and encouraged co-operation. The corn levies were replaced by a much smaller food tax to be collected directly from the peasants, who under the new policy were allowed to acquire actual possession of the land, though technical ownership remains with the state.

Lenin, on his last public appearance before the Communist Internationale in November, 1922, told the party that the new economic policy was a manoeuvre of withdrawal, which had achieved the stabilization of the ruble; that light industries were showing general improvement; that foreign trade had given the Government 20,000,000 gold rubles, which was to go to the restoration of heavy industry; and that Russian state capitalism holds in its hands the land, industry and trade in order to maintain the power of the workers and a non-hindered path to Socialism.

DECLINE OF POPULATION.

M. W. Mikhailovsky, director of the Central Statistical Office at Moscow, in an article on the

third Russian census, as quoted in a bulletin of the health section of the League of Nations, September, 1922, gives these figures on the decline of population in Russia. He bases his study on data for European Russia, Northern Caucasus, Siberia up to the Baikal Sea, the Kirghiz Republic and two governments of the Ukraine. He finds that in this area the population has declined from 102,793,000 in 1914 to 90,790,000 in 1920 (excluding the army, which was then estimated at 3,000,000 men), a decrease, including the army, of nearly 10 per cent. Instead of this decrease of 9,000,000 inhabitants, there would have been an increase of about 12,000,000, it is stated, if the rate of natural increase obtaining before the war had continued.

European Russia is said to have been the principal sufferer, whereas the population has diminished only slightly in the far-away Asiatic territories. The percentages of decrease given by M. Mikhailovsky are 14 per cent. for Northern Caucasus, 3 per cent. for Siberia and 4 per cent. for the Kirghiz Republic.

The decline in population is given as due to the following causes: (1) Emigration following the civil war, which is estimated as high as 2,000,000; (2) military losses in the World War, 2,500,000; (3) loss of life in the civil war, estimated at not less than 1,000,000; and (4) excess mortality, largely due to the great epidemics, about 3,500,000. The latter figure is stated as being probably an underestimate.

The census of Russia was taken in August, 1920, it should be noted, and since that time the famine has occurred which overshadows all previous scourges of this kind from which the country has suffered and the loss of lives from which is estimated in millions.

The disproportion of the sexes, especially in the rural districts, is highly significant. The sex distribution is given as follows:

	Male.	Female.	Total.
Urban	9,788,000	10,904,000	20,692,000
Rural	51,241,000	59,613,000	110,854,000
Total	61,029,000	70,517,000	131,546,000

The birth rate in Russia, stated to have been extremely high before the war, averaging about 45 per 1,000 population, is said to have declined by more than 40 per cent.

The London Times on Sept. 1, 1922, printed a despatch from Riga saying that according to official Bolshevist figures the Cheka executed 1,766,118 persons before being renamed the supreme political administration last February. The total includes 6,775 professors and teachers, 8,800 doctors, 355,250 other intellectuals, 1,243 priests, 54,650 officers, 260,000 soldiers, 59,000 policemen, 12,950 landowners, 192,350 workmen and 815,100 peasants.

M. Lunacharsky, Peoples' Commisar for Education, reported to the Russian Central Executive Committee on Oct. 10, 1924, that since 1922 the general level of education showed a great decline. Before the war Russia had 62,000 elementary schools, with 4,500,000 children. There were now but 49,000 with 3,500,000 pupils. Secondary schools had diminished by 1,500, and of the 4,000 kindergarten institutions created in the early days of the revolution, only 700 now remain. The schools are badly equipped, unheated, and the cost of text books and writing utensils prohibitive. The total sum assigned in 1924 in the budget for education is 60,000,000 rubles, nearly 20,000,000 more than in 1923, but he said it is hardly sufficient to raise the salaries of the teachers to $13 a month in the towns and $8 in the rural districts.

In December, 1923, a decree was issued absolutely forbidding teaching of any sort except in the Communist schools. On May 21, 1924, a decree was issued which virtually eliminates students of the bourgeois class from the high schools and universities which will affect nearly 100,000, of non-proletarian origin. Only those students designated by the Communist party and the Trade Union organizations will be eligible to enter the universities, which were declared to be overcrowded. Census of 1923 showed that there were in all Russia 4,655 professors and 2,698 journalists, one half of whom were in Moscow.

Military service is compulsory. The Red army numbers about 600,000 men and is on a peace footing. Each division contains three infantry regiments and numbers 8,700 if on the frontier, or 6,721 if in the interior, with 48 guns in the first instance and 16 in the latter. The allotment is: Russian, 39 divisions; Turkestan, 4; Georgian, 1; Azerbaijan, 1; Armenian, 1; Far Eastern Republic, 2. There are between 40 and 60 batteries of heavy artillery, and 14 cavalry divisions. Much attention is given to aviation and the corps has many good Italian machines. The navy is being built up but is at present inconsiderable, and accurate figures of its strength are not available.

Russia is not a member of the League of Nations.

RESOURCES OF RUSSIA.

The Russian domains comprehend every phase of climate except the distinctly tropical, and have varied topography. It has vast plains, some virtually desert, some actually or potentially productive; many high mountain ranges, and a distinctive geologic feature is the Russian steppes—broad plains of shifting sandy formation.

In the main, however, Russia proper begins in the centre with a series of low tablelands, and slopes in the direction of the Baltic, Black and Caspian Seas, and toward the White Sea and the Arctic Ocean to the north.

The Ural Mountains form the boundary between Russia proper and the main body of Asia; the Caucasian Mountains are on the southern line, between the Black Sea and the Caspian. Extensive forests occupy much of the central portions, total forest area being about 500,000 square miles.

The rivers are important as actual or potential channels of commerce—the Dnieper and Dniester, flowing into the Black Sea, the Dnieper being part of the proposed trans-European waterway from the Black Sea at Odessa to the Baltic Sea at Danzig; the Volga and Ural flowing into the Caspian Sea; the Neva flowing into the Gulf of Finland; and the Petchora flowing into the Arctic Ocean. There are 42,091 miles of rivers, lakes and canals navigable for steamers.

The areas controlled by Russia comprehend nearly every material natural resource of modern civilization—minerals of all kinds, base and precious; every variety of timber, excepting tropical, every character of cereals, vegetable and fruit lands; being as near to self-contained, economically, as any other power, excepting the British Empire.

Approximately 500,000,000 acres of forested areas are to a large degree potentially agricultural when the timber has been removed. The by and large estimate is that, under development such as has been attained in other civilized countries, Russia would have close to 700,000,000 acres of cultivable lands, or the equivalent of more than 1,000,000 square miles of actually tilled lands, which is more than like areas in the United States.

What Russia was capable of producing before the war and the Bolshevik revolution was shown in the official statistics of the former empire printed in THE WORLD ALMANAC for 1923.

AGRICULTURE.

The chief interest is in agriculture.

During the revolution over 1,080,000,000 acres of land belonging to the landowners were acquired by the peasantry. In addition the peasants seized and distributed among themselves over 48,000,000 acres belonging to the richer strata of the peasantry. In 1922 the People's Commissariat for Food reported that 50 per cent. of the farms having arable lands and meadows, were less than 14.5 acres and 45 per cent between 14.5 and 35.7 acres.

The crop area of the Soviet Union, according to the Russian Central Statistical Bureau, in 1923 was about 177,120,000 acres of which 149,850,000 were sown to grain producing these crops: wheat, 245.3 millions of bushels; rye, 548.7; barley, 157.9; oats, 402.8; buckwheat, 49.7; millet, 118.1; corn, 66.5. The gross cereal crops in the three great grain regions in 1923, were: European Russia, 21.3 million short tons; Asiatic Russia, 2.9; The Ukraine, 14.4; total, 38.6 million short tons. In 1922 it was 40 million tons and in 1921, the year of famine, 31 million tons.

The crop failure in 1924 affected the Provinces of the lower Volga, the Middle Volga and the Northern Caucasus.

Before the war, Russia's annual average grain export was 12,540,075 long tons, of which 4,173,800 was wheat. Since the war Russia has had to call on other countries, chiefly the United States, for food to feed millions who were starving.

The grain exported in 1923 totaled 1,598,766 long tons, of which 382,110 was wheat and 813,460 rye. Germany was the largest customer, taking 471,266 tons; the Netherlands, 285,544; France, 180,743; Finland, 100,178; Denmark, 99,691; Italy, 93,566; Turkey, 91,733; Norway, 75,237, and Belgium, 56,565.

Official reports for the season 1923-24 on the sugar beet crop were: acreage 600,000 (one-third of pre-war figures); yield of beets, 2,566,387 long tons; yield of sugar, 366,742 long tons. The state operated 110 refineries producing 346,776 long tons and 10 were leased from the state by private parties.

The yield of flaxseed in 1923 was 308,000 short tons; of hempseed, 300,200 tons; and of sunflower seed, 1,640,000 tons.

The total area of land under farms controlled by the state in Soviet Russia in 1923 was approximately six million acres, which represents 3.6 per cent. of the total area of land formerly held by private land owners.

The petroleum deposits constitute one of the most

important of the many natural resources of the country. The entire industry is nationalized and is controlled by the All Russia Naphtha Syndicate, which is subordinate to the Central Fuel Administration of the Council of National Economy. Over 200 individual concerns previously operated by private companies have been absorbed. During the revolutionary period much damage was done to the oil properties and since then the industry has been handicapped by lack of labor, equipment and technical personnel, and by inadequate and inefficient transportation. Gross production in 1923 showed an increase of 11 per cent. over 1922, but was only slightly more than half the pre-war output. In March, 1924, 1,736 wells were in operation in the Baku district; 241 in the Grozny; and about 50 in the Emba. Production in 1923 was 38,167,000 barrels as contrasted with 34,358,000 barrels in 1922 and 71,262,006 barrels in 1913.

The net coal output for the year Oct. 1, 1922 to Sept. 30, 1923, was officially reported to be 7,971,730 long tons, chiefly from the Donetz basin, as contrasted with 6,866,210 long tons in 1921-22. The average number of workers was 154,963.

Russia is normally the world's greatest source of platinum, the Russian share in 1912 and 1913 being from 250,000 to 300,000 troy ounces of the world total of 267,000 to 313,000.

Unmined iron ore is estimated at nearly 1,000,000,000 tons, considerable of it being in the Ukraine, economically convenient to transport to the Black Sea.

There are very large mineral resources in the Ural Mountains. Gold and silver are mined there, also salt, zinc and copper.

The Government operates all the major manufacturing and mining industries. Production increased in 1923 but still remains hardly one-third of pre-war production.

According to the figures of the Central Statistical Administration of the Supreme Council of National Economy, published in March, 1914, out of 439 trusts and economic managements enjoying the rights of trusts, throughout the territory of the Union of Soviet Republics, 72 trusts are under the jurisdiction of the Supreme Council of National Economy of the Union. These 72 trusts include the largest industrial combines, which, according to the number of their workers, represent about two-thirds of all the Soviet industry; they employ 831,342 workers out of a total of 1,171,831 workers employed in all the enterprises throughout the territory of the Union of Soviet Republics which are under the jurisdiction of the Supreme Council of National Economy. Soviet Russia proper is in control of a considerably larger number of trusts, viz. 322, but the total number of workers employed in them is only 288,352, or 24 per cent. of all the workers in the enterprises of the Soviet Federation, and 31 per cent. of those in the enterprises, the importance of which is of Federal scope. Under the jurisdiction of the Supreme Council of National Economy of the Ukraine, of White Russia and of Transcaucasia, are 39 trusts, with 54,417 workers.

Unemployment was reported on Jan. 1, 1923, as 832,400; on July 1, 1923, 625,900; on Jan. 1, 1924, 793,900, and on April 1, 1924, was estimated as over 1,000,000. On Jan. 1, 1924, of the unemployed, 24 per cent were industrial workers, 36, office and professional workers, and 39 unskilled and peasants. The main relief for the unemployed comes from social insurance, a levy of 2 per cent. being made on all wages, and paid by the employer only.

The "centrosoyuz" (Central Union of Consumers Co-operators) on foreign markets, had a total turnover in 1923 of £3,620,372, of which the New York Branch office had £818,008, or 27 per cent.

Zinoviev, at the Communist Party convention in Moscow, May 28, announced that applications for concessions from all countries up to April 1 numbered 1,072, of which 55 were granted and 259 were rejected.

On Oct. 3, it was announced that W. A. Harriman & Co., of New York, had been given the concession for exploitation of the Georgian manganese fields for twenty years. The Americans agreed to pay the Soviet a royalty of $3 a ton up to the time they construct a railroad, harbor, mines and improvements, after which the Government will receive $4. The Americans are to ship a total of 2,750,000 tons during the first five years, and the Soviet Government expects to ultimately receive a total of $38,000,000. The fields are in the Chicatouri district, cover ten acres and are estimated to contain 100,000,000 tons of ore.

The budget for 1923-24 showed receipts of 1,880,000,000 gold rubles, with a deficit of 184,400,000 gold rubles covered by paper rubles and treasury notes. The budget for 1924-25 estimated receipts at 2,080,000,000 gold rubles, anticipating a deficit of 80,000,000 gold rubles.

A new single tax on the land to be levied on a sliding scale depended on how much land was farmed, what the crops were, etc., was put into effect in May, 1924; it is to be paid in cash and it is estimated that it will yield $200,000,000 from about 20,000,000 peasant holdings. Next in importance as yielders of revenue are the trading tax, income and property tax, excise and local taxes, in that order. An internal lottery loan of 100,000,000 gold rubles was issued, of which 60,000,000 were allotted to (that is, forced upon)the taxpayers.

On Jan. 1, 1924, just prior to the monetary reorganization, the total chervonetz notes in circulation amounted to 273,200,000 rubles. On Aug. 1 the amount in circulation was 308,000,000 rubles; of treasury bills, 162,100,000 rubles; of silver, 134,700,000 rubles, and of small change in scrip, 20,100,000 rubles; or a total 216,900,000 rubles of currency issued by the Treasury. The chervonetz equals 10 gold rubles or $5.14.

The gross receipts for all railroads (the mileage in 1922 was 42,504) for the fiscal year 1922-23 amounted to 295,000,000 gold rubles, and the State subsidies for the railroads totaled 86,000,000 gold rubles. The daily loadings of cars averaged 11,603; passenger traffic amounted 9,026,000,000, as against 18,219,000,000 in 1913; 43.7 per cent. of the locomotives were in serviceable condition. Condition of the roadbeds compels a reduction in the speed limit of the trains.

FOREIGN TRADE.

The last three months of the calendar year 1923, with their large exports of grain, definitely turned balance of Soviet Russia's foreign trade in its own favor.

The valuation of all imports and exports in gold rubles at pre-war market prices had been rendered necessary because the rapidly depreciating Soviet currency furnished no stable medium for calculation and comparison.

Imports for the calendar year 1923, figured at the 1913 prices, were valued at 144,100,000 gold rubles, against exports of 9,705,800,000 rubles, giving a favorable balance of 9,700,000 rubles. On the basis of approximate current prices instead of 1913 prices, exports total 307,300,000 rubles and imports 200,100,000 rubles, making the favorable balance on a current-price basis equal roughly to 107,200,000 rubles.

In addition to commercial imports, famine relief supplies to the value of 34,400,000 rubles were imported during the calendar year, as against similar imports of 183,800,000 rubles during the calendar year 1922.

Compared with the calendar year 1922, the value of exports (calculated at 1913 prices) increased more than 2½ times, and more than tenfold in comparison with 1921, while imports fell off by one-half and by one-third, respectively. Whereas over one-third of the imports of 1922 consisted of foodstuffs (exclusive of contributed famine relief supplies), imports of foodstuffs in 1923 amounted to but 7.4 per cent. of total.

In 1922 imports of raw materials and semi-manufactured products represented only 14.6 per cent. of the total, whereas in 1923 this group accounted for 44.2 per cent. of the total.

At the same time exports showed a corresponding shift for the group of foodstuffs from 5.3 per cent. in 1922 to 56.8 per cent. in 1923; for raw materials and semi-finished goods, from 90.8 per cent. to 42.4 per cent. of total. The general distribution of Russian exports in 1923 by groups of commodities is thus found to be closely approaching that of 1913, when foodstuffs accounted for 52.2 per cent. of total exports and raw materials and semi-finished goods accounted for 36.9 per cent., these two groups comprising the bulk of Russian exports.

The total foreign trade of Russia in 1923, calculated at 1913 prices, amounted to but 12.1 per cent. of total exports and imports for 1913.

The Government monopoly of foreign trade was firmly maintained during the year. According to data for the operating year 1922-23 Soviet state institutions, including government organizations and mixed companies controlled by the Soviet Government, accounted for 96.7 per cent. of all exports and for 97.3 per cent. of all imports; the rest represented the part played by purely private initiative in the foreign trade of Soviet Russia.

In the total summaries imports from the United States are valued at 18,696,000 gold rubles at 1913 prices, of which 16,447,000 was accounted for by raw cotton, representing a quantity of 124,000 bales. The chief exports to the United States were furs ($550,000).

Russia's imports from the United States in 1923, according to the customs figures computed at 1913 prices, represent 12.9 per cent. of total imports, and the exports to the United States 0.4 per cent. of total exports, while the entire trade with the

United States amounted to 5.6 per cent. of trade with all countries, as against 3.9 per cent. in 1913.

In 1913 Russian imports from the United States amounted to 79,000,000 rubles, or 5.8 per cent. of total Russian imports; exports to the United States reached only 14,000,000 rubles, or 0.9 per cent. of total Russian exports; the total trade with the United States represented 3.9 per cent. of Russian trade with all countries.

The Soviets reported the total foreign trade turnover for the fiscal year from Oct. 1, 1922, to Sept. 30, 1923, to be 283,316,000 gold rubles, while the total for the first half of the fiscal year 1923-24 (i.e., to March 31, 1924) was 262,765,000 gold rubles.

The Soviet Government has been exercising a rigid control over imports, and any one desirous of purchasing goods in that country or selling goods to it must deal with the proper Soviet institution, either directly or in the last instance.

Trade with the United States as reported by the Department of Commerce was:

Russia in Europe.

SALVADOR, REPUBLIC OF

AREA, 7,225 square miles.

POPULATION, estimated, Jan. 1, 1923, 1,550,000.

CAPITAL, San Salvador, population 80,756. Other cities: Santa Ana, 60,679; San Miguel, 30,406.

President, Sr. Don Alfonso Quinonez Molina, 1922-27.

Premier, Dr. Reyes Arrieta Rossi (Foreign).

Minister to the United States, vacant; Charge d'Affaires, Dr. Don Hector David Castro.

Consul General, at New York, Leonilo Montalvo.

Consuls, at New Orleans, St. Louis, San Francisco, Baltimore, Philadelphia, Chicago, and Los Angeles.

United States Minister, Montgomery Schuyler.

United States Consul, at San Salvador, William J. McCafferty.

Salvador lies along the Pacific Ocean with Honduras as its northeast boundary, and Guatemala on the northwest. Its coast line is 160 miles long and its average breadth 60 miles. It is about the size of the State of New Jersey. Along the sea is a narrow low alluvial plain and the interior is a plateau about 2,000 feet above sea level, containing a number of volcanic cones. Earthquakes are frequent; that of June 8, 1917, destroyed much of the capital and three other towns; even greater damage was done to the capital on April 28, 1919. It has luxuriant forests and abundant mineral deposits, which are undeveloped. Mestizos and Indians form two-thirds of the population.

The agricultural production for 1923 amounted to $36,699,000, of which coffee (60,000 metric tons, valued at $16,800,000) was the chief crop; corn (250,000 tons, valued at $12,500,000) was second; and sugar (20,000 tons, valued at $2,000,000) was third. Tobacco, indigo, henequen lumber, rice, balsam and hides are also exported. Cotton cultivation has begun, the output in 1923 being 55 metric tons, valued at $33,000.

Under the Constitution of 1824, modified last in 1886, a President for four years and a single chamber of 70 deputies for a year are elected by universal suffrage. The President appoints a Ministry of four members. The dominant religion is Roman Catholic. Education is free and compulsory. The army numbers 7,500, with reserves of 25,000. There are 253 miles of narrow gauge railroads. In 1922, 520 steamers, tonnage 857,543, entered its ports. Salvador is a member of the League of Nations.

(For part in Federation of Central America see Honduras.)

SAN MARINO, REPUBLIC OF

AREA, 38 square miles.

POPULATION, census of June, 1920, 12,027.

San Marino, situated in the Apennines near Rimini, in the heart of Italy, claims to be the oldest state in Europe and to have been founded in the fourth century. Its treaty of friendship with the Kingdom of Italy, concluded June 28, 1907, was revised in 1921. It has an extradition treaty with the United States and other countries. Agriculture and stock raising are practically the only industries. It is governed by a Great Council of 60 members elected by popular vote, two of whom are chosen to exercise executive power for a term of six months. It maintains a military force of 39 officers and 950 men. Revenue for 1922-23 was 3,482,218 lire and expenditures 3,659,614 lire.

SANTO DOMINGO.

(See Dominican Republic.)

SERBS, CROATS AND SLOVENES, KINGDOM OF THE

JUGO-SLAVIA.

AREA, 96,134 square miles.

POPULATION, Census of 1920, 12,017,323.

CAPITAL, Belgrade, population, 1919, 111,740; other cities, Zagred (Agram), 108,338; Ljubliana, 53,306; Sarajevo, 66,317; Novi Sad, 39,147; Split, 25,042; Nish, 25,000.

King of the Serbs, Croats and Slovenes, Alexander I., born Dec. 17, 1888; Prince Regent from June 24, 1914, to Aug. 16, 1921, when his father, King Peter I., died; married June 8, 1922, at Belgrade, Princess Marie, second daughter of the King and Queen of Roumania. *Heir*, their son, Prince Peter, born Sept. 6, 1923.

Prime Minister, M. Liouba Davidovitch.

Minister to the United States, Dr. Ante Tresich Pavichich.

Consul General in the United States, New York, Pavle Karovitch, *Consuls*, at Chicago, San Francisco, Denver and Cleveland.

United States Minister at Belgrade, H. Percival Dodge.

United States Consuls, Belgrade, Kenneth S. Patton; at Zagreb, Leslie A. Davis.

Serbia, which had since the Battle of Kossovo, in 1389, been a vassal principality of Turkey, was established as an independent kingdom by the Treaty of Berlin, July 13, 1878. By the Balkan wars of 1913 her boundaries were enlarged by the annexation of Old Serbia. The Government of Austria-Hungary laid the assassination of the Archduke Franz Ferdinand (June 28, 1914) to a Serbian plot and by invasion following her ultimatum brought on the World War of 1914-18. Serbia was overrun and suffered enormously, but in October, 1918, her army again occupied Nish and on Nov. 3, 1918, reoccupied the capital, Belgrade. At the dissolution of the Austrian-Hungarian Empire, the National Assembly of the former Hungarian provinces of Croatia and Slovenia proclaimed their independence and a National Council was established, to which representatives of other Slav states of the old empire, including Bosnia and Herzegovina, were admitted, and union with Serbia as the Kingdom of the Serbs, Croats and Slovenes (Jugo-Slavia) became effective on Dec. 29, 1918, when a Ministry was formed.

On Nov. 29, 1918, the National Parliament of Montenegro, which had been recognized as an independent state by the Treaty of Berlin in 1870, deposed King Nicholas, who was then in exile, and decided to unite with Serbia. This union became a fact on the death of King Nicholas, March 1, 1921, and Montenegro officially disappeared from the map of Europe on July 13, 1922, when the Council of Ambassadors sitting in Paris to ratify the boundaries of Jugo-Slavia and Albania recognized the fact that its union was an accomplished fact.

Representation of the Kingdom of Montenegro is maintained in New York City by Luigi Criscuolo as Delegate Plenipotentiary "with particular duties referring to Montenegrins in the United States who have not become and have no desire to become citizens of the Kingdom of the Serbs, Croats and Slovenes." The State Department at Washington has revoked the exequatur of the former Montenegrin Consul General.

Jugo-Slavia is bounded by Italy and the Adriatic Sea on the west, by Austria and Hungary on the north, by Bulgaria and Greece on the east, and by Albania and Greece on the south. Its area and population by provinces is approximately as follows:

Districts.	Area, Sq. Miles.	Populat'n Census of 1920.
North Serbia	19,286	2,655,078
South Serbia	17,651	1,474,560
Montenegro	3,733	199,857
Bosnia and Herzegovina	19,768	1,889,929
Dalmatia	4,916	621,429
Croatia and Slavonia	16,920	2,739,593
Slovenia	6,253	1,056,464
Voyvodina	7,607	1,380,413
Total	96,134	12,017,323

According to nationality there are approximately 9,730,000 Slavs, 500,000 Germans, 490,000 Hungarians, 480,000 Albanians, 180,000 Roumanians, and 10,000 Italians. According to religion there are approximately 5,460,000 Greek Orthodox (the state religion), 4,475,000 Roman Catholics, 1,337,000 Mohammedans and 300,000 of other religions. Under a concordat with the Vatican a Roman Catholic Archbishop of Belgrade is to be established.

The Constitution, adopted June 28, 1921, provides for a single Legislative Chamber of 419 members elected for four years, one Deputy to every 40.000 inhabitants. The Chamber (Skuptchina), elected March 18, 1923, is made up as follows: 122 Radicals, 52 Democrats, 3 Socialists, 70 Croatian Agrarians (Raditch party), 9 SerbAgrarians, 18 Mohammedans, 22 Catholic People's Party and 43 scattering.

Elementary education is nominally compulsory and is free. There are three universities, Belgrade with 7,668 students in 1921; Zagreb, 3,249; and Ljubliana, 769.

The army has been reorganized on a nominal peace strength of 150,000. Compulsory service is in force.

The principal exports are grain, cattle, timber and prunes; imports, agricultural and animal products, machinery and chemicals. Serbia is an agricultural country of small peasant holdings. Over one-third of its area is covered with forests. There are valuable coal and iron mines and some lead and copper. The state owns 4,722 of the 5,696 miles of railroads. The river navigation of the Danube and the Save is important. Access to seaports, Fiume and Salonica, is guaranteed by treaty.

The unit of currency is the dinar or crown; par of exchange, 20.3 cents; exchange, Oct. 15, 1924, 1.41 cents.

The budget for 1924-25 is balanced at 10,405,000,000 dinars ($128,262,435 converted at dinar exchange rate April 1, 1924, i. c., $0.012327.)

The foreign debt on Jan. 1, 1923 was: Pre-war debt converted at par, $169,999,000, but converted at current exchange rates of currency in which payable (principally francs at 6 cents) $53,345,000; war debts to British, French and American Governments at par, $451,950,000, but at current rate of exchange $258,780,000; pre-war debts of Austria-Hungary assumed at agreed exchange rates $4,452,000; American loan of 1922, $15,250,000; total foreign debt at par $641,651,000; at current exchange conversions, $331,827,000.

The internal debt was 3,825,269,000 dinars equal at current exchange to about $38,250,690; and is mostly non-interest bearing. The amount of paper money in circulation on Jan. 1, 1923, was 5,039,883,135 dinars; and on Jan. 1, 1924, 5,790,240,920 dinars.

Imports,	1921	$98,930,343
"	1922	90,186,262
Exports,	1921	58,320,000
"	1922	51,676,326
"	1923	86,244,000

Trade with the United States, including that of Albania, and of Fiume up to 1923, was:

Imports,	1920–21	$1,326,528
"	1921–22	1,831,187
"	1922–23	1,483,524
"	1923–24	522,390
Exports,	1920–21	72,956
"	1921–22	155,920
"	1922–23	165,328
"	1923–24	256,840

SIAM, KINGDOM OF

AREA, 194,568 square miles, of which about 45,000 is in the Malay Peninsula.

POPULATION, census of 1911-12, last available, 8,266,408. Official estimate, 1922, 9,322,000.

CAPITAL, Bangkok, population, 1923, 745,640.

King, Rama VI. (Chao Fa Maha Vajiravudh); born Jan. 1, 1881; succeeded on Oct. 23, 1910, on the death of his father, King Chulalongkorn I.; married, Aug. 27, 1922, Princess Lakshimi Lavan. *Heir*, his half-brother, Prince Chao Fa Asdang Tejavudh, born May 12, 1889.

Foreign Minister, Prince Dewawongse.

Minister to the United States, Phya Buri Navarasth.

Consuls General in the United States, at New York, F. Warren Sumner; at San Francisco, Henry G. W. Dinkelspiel. *Consuls*, at Chicago and Philadelphia.

United States Minister, Edward E. Brodic.

United States Consul, at Bangkok, Charles H. Albrecht.

Siam is situate in Southeastern Asia, with Burma (British India) on the northwest and west and French Indo-China on the northeast and east, and the Gulf of Siam, which makes on the Pacific Ocean, on the south and east. It also occupies the neck of the Malay Peninsula as far as the Federated Malay States (British). It is of rolling topography, with large areas susceptible to irriga tion, of which about 300,000 acres were brought under water in 1922.

Bangkok, the capital, in the delta of the Menam, is a convenient modern city drained and cleaned, well lighted and beautified with spacious parks. The port handles 85 per cent. of the foreign trade.

There are many large forests, teakwood being an important article of export. Labor is higher than in almost any other Oriental country. The chief product is rice, the national food, and heavily exported, with 6,325,000 acres of it under cultivation in 1921, and an average of 1,070,000 tons exported annually. There are 80 rice mills in the Bangkok district. Livestock in 1923 was 6,767 elephants, 165,782 horses and ponies, 2,971,814 bullocks, and 3,298,220 buffaloes, all of which are used as beasts of burden. Annual exports of teak average about 70,000 tons, worth about $6,000,000.

Mineral resources are extensive and varied, including tungsten, wolfram, coal, iron, manganese, antimony, and quicksilver. Tin also is abundant, exports having been 6,979 tons in 1923, and normally in previous years up to 8,800 tons.

In 1923 there were 1,485 miles of state railways. In 1922-23, 990 vessels entered the port of Bangkok, of 1,008,825 tonnage, mostly of British registry.

Executive power vests in the King, who is advised by a Cabinet. Formerly there was a Council of State, which has been succeeded by the Legislative Council of Ministers and others, not less than twelve, appointed by the King. Present membership is forty. It supervises the legislation of the Kingdom, being charged with the task of perfecting the statutes. Laws must be signed by the King.

Prof. Francis B. Sayre of Harvard University, son-in-law of former President Woodrow Wilson, is adviser in international law to the King.

Buddhism is the prevailing religion. In 1920 there were 13,885 temples, with 153,330 priests. Schools are controlled by the Minister of Education, excepting those for military, naval and legal training, and some which are under royal patronage. In 1921 there were 445 Government schools, with 1,324 teachers and 41,191 pupils; 2,526 non-Government primary schools with 3,092 teachers and 127,957 pupils. About 11 per cent. of the people were literate in the last census.

Every able-bodied man serves in the army. The navy has 5,000 active and 20,000 reserve men. In 1920 there were over 15,000 Boy Scouts. Siam is a member of the League of Nations.

The tical is the unit of the currency, its gold par being 37.69 cents.

Principal revenues are from opium, land capitation, excise, railways, mines, forests, and customs.

The budget for 1924-25 is: Revenue, 84,000,000 ticals; expenditures, 93,125,688 ticals.

The national debt was 94,936,458 ticals (£9,909,-

860) on March 31, 1923; the loans were all made for and spent on works of public utility.

The foreign trade was: Imports, 1920-21,$66,298,000; 1921-22, $60,173,000; exports, 1920-21, $29,310,000; 1921-22, $74,022,000.

Trade with the United States was:

Imports,	1920-21	$2,442,756
"	1921-22	820,148
"	1922-23	833,455
"	1923-24	915,574
Exports,	1920-21	290,075
"	1921-22	138,607
"	1922-23	235,325
"	1923-24	152,402

THE SOUDAN

(Anglo-Egyptian.)

AREA, 1,014,400 square miles.

POPULATION, estimated, 1923, 5,912,400.

CAPITAL, Khartoum, including Khartoum North, on the Blue Nile, population, 1923, 45,116. Below on the White Nile, Omdurman, the old Dervish capital, population, 78,000.

Governor General of Soudan, Major Gen. Sir Lee O. F. Stack, G. B. E., C. M. G., appointed 1919.

The Soudan is bounded by Egypt on the north, the line being the 22° north latitude; the Red, Sea and Eritrea (Italian) and Abyssinia on the east; Uganda (British) and the Belgian Congo on the south, and French Equatorial Africa on the west. Its greatest length north and south is 1,650 miles, and its greatest breadth east and west is about 1,200 miles. The northern zone consists of the Libyan desert, on the west, and the mountainous Arabian desert, extending to the Red Sea on the east, separated by the narrow valley of the Nile; the central zone has large areas of fertility, including the rainlands of Kassala and Tokar, the Gezira plain and the pastures and gum forests of Kordofan; and the southern equatorial belt where the soil is richest and watered by tropical rains.

The White Nile flows north through the middle of the country; the Blue Nile, rising in the mountains of Abyssinia, flows northwest to its junction at Khartoum with the White Nile to make the Nile that flows on in a huge S curve to enter Egypt at Wadi Halfa.

Two large dams for impounding the waters, one the Makwar dam in the Blue Nile, for irrigation of the Gezira country between the rivers, and the other at Gebel Aulia in the White Nile, 24 miles south of Khartoum, to hold up double the quantity of water stored by the Aswan dam for the benefit of Egypt, are under way after being suspended by the war. The Governor General has authorized (1922) a loan of £7,000,000 to facilitate the completion of these works; it has been approved by the British Government. This will make it possible to bring 100,000 acres under cotton cultivation. The amount now producing cotton is 87,475 acres, product 5,400 tons.

The new Kassala railway (217 miles) opens up a new region. It is expected the Gash Delta, when fully developed, will produce a minimum of 100,000 bales of good Egyptian cotton yearly.

The population, which was estimated at 9,000,000 in 1884, decreased to 2,000,000 under Dervish misrule through war, famine and disease. The inhabitants are partly Arabs, partly Negroes and partly Nubians of mixed Arab and Negro blood; the Arabs and Nubians are all Mohammedans. The Mahdist rebellion in 1884, culminating in the fall of Khartoum and the death of Gen. Gordon Jan. 26, 1885, forced the Egyptian Government to withdraw from the Soudan, retaining only Wadi Halfa on the Nile and Suakin on the Red Sea as frontier ports. The Dervishes were overthrown by Lord Kitchener with the Anglo-Egyptian army at Omdurman, Sept. 2, 1898. On the reconquest of the Soudan an agreement was signed Jan. 19, 1899, between Egypt and Great Britain, which fixed the boundary, provided for the administration of the territory by a Governor General appointed by Egypt with the consent of Great Britain (aided since 1910 by a council) who should make laws by proclamation, and providing that the British and Egyptian flags should fly together. Free trade with Egypt was provided for also and the import and export of slaves was forbidden, together with the import of arms, ammunition and spirits. The civil and criminal codes are based on those of Egypt and India.

The country has prospered under the Anglo-Egyptian rule, though suffering agriculturally during seasons of low water in the Nile and by depression consequent on the past years of the war when the exports of grain and cattle almost entirely ceased. Cotton can be grown successfully with increased irrigation and transportation facilities. Rich forests are of great extent and the Soudan is the chief source of the world's supply of gum arabic, the exports being 14,569 tons, valued at ££523,023 in 1922. Of ivory, 45 tons, valued at ££78,819, were exported in 1920; 38 tons, ££32,000, in 1921; 56 tons ££63,308 in 1922; and 41 tons, ££56,112 in 1923.

The Soudan railroad reached Khartoum in 1899. A line from Atbara across the Arabian desert to Port Soudan and Suakin on the Red Sea was opened in 1906. A bridge has been built over the Blue Nile at Khartoum and another over the White Nile near Hillet Abbas. The total length of railroads is about 1,500 miles.

A fleet of Government passenger and freight steamers is maintained on the Nile and its tributaries with a scheduled service covering over 2,500 miles.

The future control of the Soudan has not been settled. Egypt claims it as an integral part, and her Prime Minister, Zaghloul Pasha, on a visit to London, presented a demand that Great Britain terminate the joint sovereignty and get out. Prime Minister MacDonald declined to consider the proposition, declaring that Great Britain would never abandon the Soudan nor tolerate any attempt to disturb its administration.

The budget for 1923 balanced at £E3,465,000.

The foreign trade was: Imports, 1922, $19,308,120; 1923, $21,897,628; exports, 1922, $9,050,199; 1923, $12,016,206. The exports to the United States, chiefly gum arabic, amounted to $797,619 in 1922, and $1,431,472 in 1923; imports were $481,122 in 1922 and $446,526 in 1923.

SPAIN, KINGDOM OF

AREA, Continental Spain, 190,050 square miles; including the Balearic and the Canary Islands, 194,783 square miles; Spanish Colonies in Africa, including Spanish Morocco, 129,470; total, 324,253.

POPULATION, census of Dec. 31, 1920 (including the Balearic Islands, 338,894; and the Canary Islands, 473,497), 21,347,335; Colonies, 786,391; total, 22,133,726.

CAPITAL, Madrid; population, census of Dec. 31, 1922, 764,139; other cities, Barcelona, 720,311; Valencia, 247,932; Sevilla, 209,024; Zaragoza, 143,755; Murcia, 143,578; Bilbao, 114,738 Granada, 104,079; and twenty-seven others larger than 30,000.

King, Alfonso XIII.; born May 17, 1886, after the death of his father, King Alfonso XII.; succeeding on birth; married, May 31, 1906, Princess Victoria Eugenie, daughter of Prince Henry of Battenberg and Princess Beatrice, youngest daughter of Queen Victoria of Great Britain; *Heir*, his eldest son, Prince Alfonso, born May 10, 1907. There are three other sons and two daughters.

Premier and Head of the Military Directorate, Gen. Miguel Primo de Rivera, Marquis d'Estella.

Ambassador to the United States, Senor Don Juan Riano y Gayangos.

Consul General in the United States, at New York, Alejandro Berea y Rodrigo; *Consuls*, at Philadelphia, New Orleans, Galveston, San Francisco, St. Louis and Chicago. *Vice-Consuls* are maintained at Mobile, Los Angeles, Fernandina, Key West, Pensacola, Tampa, Brunswick, Savannah, Boise, Baltimore, Boston, Detroit, Gulfport, Cincinnati, Portland, Ore.; Pittsburgh, Brownsville, El Paso, Houston, Port Arthur, Norfolk, Seattle and Clarksburg.

United States Ambassador, Alexander P. Moore.

United States Consul General, at Barcelona, Ralph J. Totten. *Consuls*, at Madrid, Augustin W. Ferrin; at Bilbao, Henry M. Wolcott; at Cadiz, Lucien N. Sulton; at Seville, William C. Burdett; at Malaga, Austin C. Brady; at Valencia, Clement S. Edwards; at Teneriffe, Canary Islands, William P. George; at Santander, Leonard G. Dawson; at Vigo, Henry T. Wilcox.

Spain is bounded on the west by Portugal and the Atlantic Ocean, on the north by the Atlantic and by France, on the east and south by the Mediterranean Sea, the British fortified station Gibraltar being at the southernmost tip, guarding the entrance to the Mediterranean from the Atlantic. The Balearic Islands in the Mediterranean (capital Palma; area 1,935 square miles, population 338,894) and the Canary Islands (area 2,807 square miles, population 473,497), in the Atlantic, are provinces of Spain; Ceuta, a fortified post in Africa, opposite Gibraltar (area 5 square miles, population 34,708), is part of the Province of Cadiz.

Spain occupies the entire Iberian peninsula with the exception of Portugal. The lofty Pyrenees separate it from France. The interior is a high inclosed plateau traversed east and west by mountain ranges and deficient in rainfall. However, 88.45 per cent. of the soil is regarded as productive

or potentially so, crops and fruit being gathered from more than one-third of the productive area, and a quarter of it is given over to grazing.

The land is largely held by small proprietors. Of the 3,426,083 paying land taxes the large estates number 277,188. About 10,500,000 acres are planted to wheat, the product in 1922 being 85,517,780 hundredweight; about 9,000,000 acres were given to other cereals; 3,311,499 acres of vineyards in 1922 produced 9,150,055,173 pounds of grapes, yielding 678,250,752 gallons of wine, the wine exported that year being valued at about $33,000,000.

Spain leads as a producer of olives. The yield from 3,985,881 acres in 1923 was 1,539,551 metric tons of olives and 289 114 tons of oil. Oranges and nuts are largely exported; also exports flax, hemp and pulse.

Silk culture is carried on in Valencia, Murcia and other localities. There are 55 sugar factories, 1922 production being about 137,881 short tons.

Domestic animals in 1921, estimated, were 722,-183 horses, 1,294,912 mules, 1,137,980 asses, 3,718,-189 cows, 20,521,677 sheep, 4,298,056 goats, 5,151,988 swine, 4,268 camels (in the Canary Islands), and 25,102,973 poultry.

Spain has large mineral wealth. Iron abounds, with coal, lead, copper, asphalt, tin, wolfram, manganese, quicksilver, silver, sulphate of soda, salt, sulphur, and phosphorus. Platinum has lately been discovered. Mining industries employed in 1922, 102,504 men, 2,151 women and 14,211 boys and girls under 18 years of age. The 1922 metal output was valued at 460,708,518 pesetas; and the ore output at 290,395,411 pesetas, a decline in each case of 25 per cent. from 1921. Coal production was 4,765,523 tons, iron and steel, 552,146 tons, lead, 119,387 tons, copper, 25,539 tons, and quicksilver, 32,923 bottles.

Cotton and woolen goods for domestic use are manufactured to a considerable amount, the normal employment of cotton spindles being 2,614,000, and woolen spindles, 662,000. The Government encourages cotton cultivation.

Paper making and glass works are important.

Fisheries in 1920 employed 30,612 boats and 148,720 men, the catch being valued at 374,079,838 pesetas, the most important products being sardines, tuna fish and cod.

Railway mileage in 1924 was 9,956, privately owned, but subsidized by the Government.

The merchant marine in 1923 was composed of 1,198 steamships of 1,008,890 net tons, and 591 sailing vessels of 97,491 net tons. Bilbao and Barcelona are the principal ports. In 1922 vessels entering numbered 19,033 of 20,305,998 tonnage, of which 9,566 of 6,841,712 were of Spanish registry.

Spain was once overrun by the Moors, who swept across the Mediterranean and went even into France. They were expelled from Europe in 1609, having entered Europe in 711, and for those centuries dominated that part of the European continent, leaving many marks in customs and habits impressed to this day on the Spanish people. However, the language remains in general Castillian, with variations in each separate region. Spain's colonial period was brilliant and extended to the Americas and the Philippines. She lost Mexico and her Central and South American colonies by revolution a hundred years ago, and in 1898 Cuba secured her independence, and she lost the Philippines, Guam and Porto Rico to the United States as a result of the Spanish-American War. Now her colonial possessions are confined to Morocco in North Africa, Spanish Guinea and a few islands along the Guinean coast. In the north there are 400,000 Basques, of a distinctly different race and language; and there are 50,000 gypsies.

The Government is that of a constitutional monarchy, the Constitution dating from 1876. It provides for a sovereign and the Cortes, composed of two Houses, the Senate and the Congress, equal in authority, 360 Senators and 417 Deputies in the Congress. Election requirements are complicated. The last twenty years has seen a very marked tendency toward democracy, numerous disturbances having occurred, with Socialists as the moving force.

The Spanish troops in Morocco were defeated at Tifrarauin on Aug. 20 by Abdul Krim's tribal forces with casualties amounting to 800. The place was relieved on Aug. 23 by Spanish troops from Melilla, but the fact that 56,000 Spanish soldiers in the protectorate were defied by less than 11,000 Moors roused all Spain against the Government. Labor uprisings and a Separatist movement in Catalonia followed.

Leading officers of the army formed an organization to stamp out radicalism and revolution and retrieve the situation in Morocco. They sent an ultimatum to Premier Alhucemas. Failing to get results, Capt. Gen. Primo de Rivera, Marquis d'Estella, Governor General of Barcelona, seized the city on Sept. 13, 1923, and started a revolt against the Government which spread throughout the country without bloodshed. The King refused to support the Cabinet and punish the Generals, and the Madrid garrison stood by the army leaders. On the 14th the Ministry resigned and the obnoxious Minister of Foreign Affairs, Santiago Alba, fled to France. King Alfonso then invited Gen. Primo de Rivera to take charge of the Government, which he undertook as Premier on the 15th with the backing of a military directorate of six Generals, Cavalcanti, Saro, Daban, Berenguer, and the Duke of Tetuan among them, presided over by Gen. Munoz Coba, Captain General of Madrid. He named a new Cabinet, dismissed the High Commissioner for Morocco, Sr. Luis Silvela, appointed Gen. Luis Aizpuru, former Minister of War, in his place, and named new military commanders for the military districts. The King dissolved the Cortes, leaving Gen. Primo de Rivera the responsible power in Spain whose decrees would have the force of laws. Among the first acts of the directorate were the canceling of railway subsidies, a credit of 10,000,000 pesetas for the cultivation of cotton in Spain, another of 20,000,000 for preparing the seven great rivers for use in irrigation, help for new industries, repression of profiteering and negotiation of a new commercial treaty with the United States.

Renewed outbreaks of hostilities in Morocco marked the summer of 1924. Gen. Primo de Rivera took personal command of the troops in Morocco in October. The war expenses reached 5,000,000 pesetas a day.

The Roman Catholic is the national religion, all the people adhering excepting about 30,000 (Protestants, 7,000; Jews, 4,000). The Constitution requires state support of the church.

There is a heavy percentage of illiteracy, in 1900, 64; in 1910, 59 and in 1920, 45—showing steady improvement. Although there has been a compulsory education law since 1857, it has not been rigidly enforced. There are (1920) 2,932,720 pupils in the public schools, with about 52,500 in secondary institutions. Spain has 11 universities, attended by 23,000 students, which attain high culture.

In 1923, 93,246 emigrated, including 42,000 farmers, who went to Cuba and Argentina. About 542,000,000 pesetas are remitted to Spain yearly by Spaniards domiciled abroad.

Military service is compulsory, the peace establishment being set at about 300,000, with reserves in addition.

The navy has nine vessels of from 2,134 to 15,700 tons and 51 auxiliaries. A building programme for six years from 1915 called for 59 additional vessels, but the work was delayed.

Spain was neutral in the Great War and is a member of the League of Nations.

The unit of the currency is the peseta, its gold par being 19.3 cents; rate of exchange on Oct. 15, 1924, was 13.43.

Imports,	1921	pesetas	2,833,804,000
"	1922	"	3,036,880,000
"	1923	"	3,062,678,000
Exports,	1921	"	1,584,204,000
"	1922	"	1,453,264,000
"	1923	"	1,596,020,000

Revenues in 1923-24 amounted to 2,658 millions of pesetas and expenditures to 3,327 millions of pesetas. The budget for 1924-25 estimates revenues at 2,777 millions of pesetas and expenditures at 2,941 millions of pesetas.

The consolidated debt on Jan. 1, 1924 was 12,-365,594,466 pesetas and the floating debt was 3,-747,277,500 pesetas.

Trade of Spain with the United States was:

Imports,	1920-21	$118,578,676
"	1921-22	66,408,756
"	1922-23	62,091,820

SPANISH COLONIES IN AFRICA.

AREA, 129,470 square miles; divided, Rio de Oro and Adrar, 109,200; Ifni, 965; Spanish Guinea, 10,810; Fernando Po and others near Guinea, 795; and Spanish Morocco, 7,700.

POPULATION, 786,391; Morocco, 550,000; others near Guinea, 236,391.

The colonies of Spain are now relatively unimportant, in sharp contrast with those which she held in the sixteenth, seventeenth and eighteenth centuries. The Guinean lands are undeveloped, and small values are taken therefrom. All figures are mere estimates.

Spain has given France the right of pre-emption in case of the sale of any of these African colonies or the adjacent islands.

Morocco, over a part of which Spain exercises a protectorate and where she has in 1922 and 1923 suffered severe military setbacks, is less developed than the French Algerian and other African possessions. (See Morocco.)

Exports to Spain from Fernando Po in 1917 were 6,261,379 pesetas; imports from Spain, 3,137,750.

Trade with the United States was:

Imports,	1920-21	$118,412

"	1922-23	1,132,391
"	1923-24	400,711
Exports,	1920-21	117

SWEDEN, KINGDOM OF

AREA, 173,157 square miles.

POPULATION, census of Dec. 31, 1920, 5,904,489 (estimated, Jan. 1, 1923, 5,987,520).

CAPITAL, Stockholm; population, 1923, 424,944; other cities, Goteborg, 228,258; Malmo, 114,796; Norrkoping, 58,358; and 29 with more than 10,000 population.

King, Gustaf V.; born June 16, 1858; succeeded on the death of his father, Oscar II., on Dec. 8, 1907; married, Sept. 20, 1881, Princess Victoria, daughter of Friedrich, Grand Duke of Baden.

Heir, Crown Prince Gustaf Adolf, born Nov. 11, 1882; married, June 15, 1905, Princess Margaret (died May 1, 1920), daughter of the Duke of Connaught and granddaughter of Queen Victoria; has five sons and one daughter; married, Nov. 3, 1923, Lady Louise Mountbatten.

Premier, Hjalmar Branting (Foreign), Oct. 15, 1924,

Minister to the United States, Capt. Axel Wallenberg.

Consul General in the United States, at New York, Olaf Herman Lamm. *Consuls*, at Boston, Chicago and San Francisco. *Vice-Consuls* are maintained at Mobile, Los Angeles, San Diego, Denver, Jacksonville, Pensacola, Savannah, Sioux City, New Orleans, Baltimore, Detroit, Minneapolis, Kansas City, Missoula, Omaha, Jamestown, N. Y., Grand Forks, Cleveland, Oklahoma City, Portland, Ore., Philadelphia, Galveston, Salt Lake City, Norfolk, and Seattle.

United States Minister, Robert Woods Bliss.

United States Consul General, at Stockholm, Claude I. Dawson. *Consuls*, at Malmo, Charles H. Heisler; at Goteborg, Walter H Sholes.

Sweden occupies the eastern and largest part of the Scandinavian peninsula in northwest Europe. The Kjolen mountain range separates it from Norway in the west, and the Gulf of Bothnia and the Tornea River from Finland on the east. The Baltic Sea separates it from the Baltic states and Germany on the southeast and south and the Cattegat from Denmark on the southwest.

Lakes and rivers are more numerous in Sweden than in any other European country except Finland. The amount of hydroelectric development in 1924 was 1,355,000 horse power, with nearly 72,000 more under construction and 4,500,000 more available.

Although of broken, mountainous topography, it contains much productive land, well watered, on which the Swedes have attained high efficiency in agriculture. Half the people are on farms, which number about 430,000; of which 120,000 are under 5 acres, and 270,800 between 5 and 50 acres. Sweden's total area divides 9.4 per cent. arable, 2.3 per cent. meadows, 59.4 per cent. forests, which are largely susceptible of cultivation after removal of the trees and which yield large annual timber cuts. Lumber exports in 1923 were valued at $82,929,652, and wood pulp and paper at $83,511,212.

The crops in 1923 were valued at 1,116,356,000 kronor. The wheat harvest was 317,000 tons from 402,379 acres; 576,051 tons of rye; 301,119 tons of barley; 1,146,016 tons of oats; 2,035,409 tons of potatoes, and 456,491 tons of sugar beets.

Iron ore production was 6,464,347 metric tons in 1921; 6,201,247 in 1922; and 5,597,703 in 1923. Iron and steel production from 193 mills in 1923 totaled 780,100 metric tons, of which 232,900 were exported. About 400,000 tons of coal and 55,000 tons of sulphur pyrites are mined annually. Iron ore mining is most extensive north from the Arctic Circle. The iron and steel industries—Swedish steel being of especial value for tool making—are mostly in the central part. Much machinery is manufactured, with considerable porcelain production. In 1920 the value of the industrial output was about 5,483,406,498 kronor, with 308,283 men, 60,289 women, 36,177 boys and 12,632 girls under 18 years of age employed in factories.

Unemployment, which amounted to 163,000 on Jan. 31, 1922, fell to 37,300 by Oct. 31, and rose to 55,491 by Jan. 31, 1923, was met by Government doles amounting to about $16,000,000 in 1922 and in 1923, by doles and relief construction operations amounting to $7,796,900. With increased activity in business, unemployment declined almost 5,000 a month in 1923, reaching 11,900 on Nov. 1, increasing to 16,100 on Jan. 1, 1924, then declining to 7,000 on June 1, and 4,750 on Sept. 1, which is considered normal. The number of emigrants in 1923 was 25,278; in 1922, 8,014.

On Aug. 1, 1923, the Swedish merchant fleet consisted of 1,270 steamers of 955,993 gross tons, 866 motor ships of 226,017 gross tons, and 788 sailing vessels of 100,415 gross tons, aggregating 2,924 ships of 1,282,425 gross tons. Goteborg was the most important port in 1920, with 431,967 of ship tonnage; Stockholm next, with 264,594. In 1922 there entered Swedish ports, 26,065 vessels of 10,280,046 tonnage. In 1921, 131,982 ships and boats passed through the canals of Sweden.

In 1923 Swedish railways were of 9,548 miles, of which 3,487 were state-owned.

The Government is a constitutional monarchy, executive power being vested in the King, advised by a Council of State, headed by the Minister of State or Premier. The Legislature has two Chambers, the first of 150 members and the second of 230 members. Suffrage is universal for all over 25 years of age of both sexes.

A plebiscite was taken in Sweden, Sunday, Aug. 27, 1922, on a consultative referendum on prohibition. The official result of the vote was 922,122 against prohibition, 886,232 for, a majority of 37,890 out of 1,808,354 votes cast. Fifty-three per cent. of the Stockholm vote was cast by women. Of this 53 per cent. 44 was against and 9 in favor of prohibition. At Gothenburg, the second city in Sweden, 23,355 women voted against prohibition and 11,904 in favor. In Malmo, the third city, 15,141 women voted against and 4,511 for.

The present system of restricted liquor traffic, devised by Dr. Ivan Bratt, was put into effect in 1914, replacing the Gothenburg system, which abolished the saloon and established certain hours when liquor could be sold.

Briefly, the Bratt system is this: All wine and spirits in Sweden containing over 3.6 per cent. alcohol are sold through the Wine and Spirits Central, the only organization in Sweden having the right to manufacture and to sell liquor wholesale. This organization sells to 120 local companies in as many local districts throughout Sweden, and these in turn supply individuals as well as hotels and restaurants. Individual buying is controlled by the "motbok," a booklet with detachable slips on which its owner must sign his name every time he buys strong liquor. The "motbok" entitles its owner to four litres of spirits a month, although in some parts of Sweden, such as the northern provinces, where the prohibition forces are strong, the quantity is two litres. Applying for a "motbok" is like applying for a passport. Usually only one member of a family may have one of these books, exception being made in the case of sons who have reached the age of 25.

In public places, such as hotels and cafes, the amount of spirits to be sold is based on the amount of food consumed, with a certain maximum quantity permitted.

The Wine and Spirits Central has bought out all the private wine merchants in Sweden, and the shareholders of it and of the local companies which it serves are entitled to only 5 per cent. on their money. The balance of the profits go to the Government. Three main ideas run through the Bratt system: Reduction of the general ration of distilled and spirituous liquors through a central control, denial of liquor to alcoholics and persons who are known to abuse drink, and elimination of all private interest in the liquor traffic. Under this law Sweden now derives a revenue of 110,000,000 crowns from the liquor traffic.

In 1913, before the present restrictive measures went into effect, the total Swedish consumption of distilled and spirituous liquors was 38.7 millions of litres. In 1923 the total consumption was 28.6 millions of litres, a reduction of 27 per cent. But even these figures are far too modest, for in 1913 distilled liquors were sold by scores of private dealers, the figures for which are lacking. Arrests for drunkenness in Sweden have gone down 49 per cent. In 1913 there were 58,909 arrests for drunkenness in the kingdom. In 1921 there were 30,081. The Katarina Hospital in Stockholm, which is the central receiving hospital for cases of the kind, reports a

reduction of 61 per cent. in chronic alcoholism. In 1913 it had 584 cases; in 1921, 228.

The population is very homogeneous, being entirely of the Scandinavian branch of the Aryan family, except about 30,000 Finns and 10,000 Lapps. Emigration has sent about 2,200,000 Swedes abroad, of whom 1,500,000 are in America and 370,000 in Finland. Most of the people are Lutheran Protestant, which is the state religion, but complete freedom of worship exists. Education is compulsory from 7 to 14 years of age, and besides the many higher institutions of learning (including two universities) which attain great culture, schooling is so general that army recruits in 1910 were only 0.16 per cent. illiterate.

Compulsory military service is required, with volunteering permitted, 665,000 men being on the army rolls, with 400,000 reserves. The peace establishment in 1923 was 97,667. The navy has 13 vessels of from 3,600 to 7,180 tons, with 10 destroyers, 4 torpedo gunboats, 27 torpedo boats and 14 submarines. The active personnel is 5,500. For the 1922-24 program Sweden is to expend 15,000,000 kroner on submarines.

The unit of the currency is the krona, its gold par being 26.8 cents. Rate of exchange, Oct. 1, 1924, was 26.61.

Sweden resumed gold payments on April 1, 1924, having a gold reserve then in the Riksbank of 270,700,000 kroner and a note circulation of 503,600,000 kroner on April 15.

Imports, 1922, kroner, 1,114,760,900 ($298,595,416)
" 1923, kroner, 1,294,500 000 ($359,725,680)
Exports, 1922 kroner, 1,152,376,732 ($309,194,548)
" 1923, kroner, 1,142,000,000 ($304,392,524)

The budget for 1924-25 is balanced at 648,891,700 kroner ($173,902,976), and that for 1923-24 at 737,561,400 kroner ($197,666,348).

The public debt on Jan. 1, 1924, was 1,643,055,870 kroner ($440,338,973), of which 1,596,950,000 kroner ($427,982,500) is funded, contracted mostly for productive purposes, therefore representing, not net liability but investment, the interest on state investments covered by this debt being more than the interest thereon.

Trade with the United States was:

SWITZERLAND, CONFEDERATION OF

AREA, 15,976 square miles.

POPULATION, census of Dec. 1, 1920, 3,880,320.

CAPITAL, Berne, population, 104,626; other cities, Zurich, population, 207,161; Basel, 135,976; Geneva, 135,059; St. Gall, 70,437; Lausanne, 68,583 and 19 above 10,000 population.

President, for 1925, Dr. Jean M. Musy.

Vice-President, for 1925, Ernest Chuard.

Minister to the United States, Marc Peter.

Consuls to the United States, at New York, Louis H. Junod; at Philadelphia, Charles Vuilleumier; at New Orleans, Paul U. Thalman; at Chicago, Ernest Buhler; at San Francisco, John Freuler; at Denver, Paul Weiss; at St. Louis, Gaston Dubois; at Seattle, Frederick Strasser; at Cincinnati, Emil Frederic Glaser; at Portland, Ore., Paul O. Brandenberger.

United States Minister, Hugh S. Gibson.

United States Consul General, at Zurich, vacant;

Consuls, at Berne, Thornwell Haynes; at Geneva, Lewis W. Haskell; at Basel, Calvin M. Hitch; at St. Gall, vacant; at Lucerne, James J. Murphy.

Switzerland is bounded on the west by France, the north by Germany, the east by Austria and Italy and the south by Italy. It is mostly mountainous, having many high peaks of the Swiss Alps, with many fertile and productive valleys between, in which dairying flourishes, and much foodstuff is produced. The German language is spoken by a majority of the people in 19 of the 25 cantons, French in five, and Italian in one. In 1920, there were 412,306 foreigners in the country, and in 1910 German was spoken by 2,594,298 persons, French by 793,264, Italian by 302,578; Romansch by 40,122; and 23,031 other languages. There are estimated to be about 300,000 peasant proprietors.

Of the total area, 28.4 per cent. is unproductive. Of the productive area, 35.8 per cent. is devoted to meadows, 29 per cent. to forests; 18.7 per cent. to fruits, and 16.4 per cent. to crops and gardens. In 1921 there were 97,282 tons of wheat produced from 111,275 acres, 39,599 tons of rye from 50,000 acres, 44,063 tons of oats from 53,075 acres, with large quantities of potatoes. Dairy products are the chief agricultural interest, vast quantities of condensed milk and of various forms of chocolate being produced. Wine and tobacco also are produced. In the last census, 1920, there were 129,269 horses, 3,581 mules, 891 donkeys, 2,112,115 cattle, 242,553 sheep, 546,112 swine, and 333,852 goats.

The Swiss Confederation has enacted that the forest area, 3,744 square miles, or 2,396,270 acres, shall never be reduced, the law applying to national cantonal and private forests, re-planting being provided for. Over 16 million trees, chiefly coniferous, have been planted yearly for three years.

There were, in 1920, 218 establishments for fish culture.

Switzerland has important clock and watch works, and large embroidery works. In 1920 there were 8,787 factories and in 1922, 8,055.

Subsidies to various industries—watchmaking, milk, hotel, cereals, potatoes, stock-raising, embroidery, in 1921 amounted to 48 millions of francs, in 1922 to 32.3 millions and in 1923, 52.5 millions were so earmarked in the budget. For the relief of unemployment 469 millions of francs had been expended between Oct. 29, 1919, and June 1, 1923. The number unemployed reached a maximum of 146,302 on Feb. 28, 1922; by May 1, 1924, it had declined to 23,195. Government aid was suppressed by Federal decree on June 30, 1924. In 1923 the number of persons employed in factories was 337,398.

In February, 1924, a referendum was taken on an amendment permitting the Federal Council to prolong the working week from 48 hours to 54 in times of serious economic crisis. It was rejected by a vote of 431,34 to 314,009.

In 1922 5,787 Swiss emigrated and in 1923 up to Oct. 1, 6,202.

In a referendum late in 1922 a proposal for a capital levy was heavily defeated—the vote being 735,894 to 109,686.

Railway mileage in 1920 was 3,719 state owned and 34 miles of foreign lines, the cost of construction up to 1918 having been 2,476,247,157 francs. A comprehensive plan for electrification was adopted in 1918 to be completed in thirty years.

The electrification of the line from Chiasso to Basel, 197½ miles, was completed and opened on June 1, 1924, bringing the total mileage electrified up to 315.

The Government is a confederation of the 25 cantons, which are joined under a Federal Constitution (that of May 29, 1874, being now in force), with large powers of local control retained by each canton. The national authority vests in a parliament of two chambers, a "Standerat" or State Council, and a "Nationalrat" or National Council—the first of 44 members, the second of 189 members. There is universal suffrage, and in many cantons the people meet in popular assemblies to vote directly under absolute democratic methods. Switzerland has maintained its unity since the men of the three cantons of Uri, Schwyz and Lower Unterwald formed a defensive league in 1291, and became formally independent of the Holy Roman Empire in 1648.

There is complete freedom of worship. In 1920 there were 2,218,589 Protestants, 1,586,826 Roman Catholics, and 20,955 Jews. Protestants are in a majority in 12 of the cantons, and Catholics in 10.

Instruction is obligatory, about 600,000 puplis being taught in the lower schools, with many technical schools and seven universities with about 7,000 students. The percentage of illiteracy is low.

A referendum in the interest of prohibition, calling for an extension of the state liquor monopoly and placing a big import duty on all foreign liquors, was rejected at the polls on June 3, 1923, by a vote of 352,772 to 259,741.

The national defense depends on the National Militia, with compulsory service. Fortifications defend the St. Gothard Pass on the south and the Rhone River valley. The army always has been efficient and for many generations has been constantly in effective condition.

Switzerland was neutral in the great war and is a member of the League of Nations, of which Geneva is the seat.

In the winter of 1922-23 there was a large increase in tourist traffic. More than 50 per cent. of those who visit the first class hotels are Americans, the next being British with less than 20 per cent. The summer season was equally good and the total income for the year was about $83,000,000.

The unit of the currency is the franc, its gold par being 19.3 cents. Rate of exchange on Oct. 15, 1924, was 19.18.

The budget for 1924 estimates revenues at 256,850,000 francs and expenditures at 294,670,000 francs. The budget deficit in 1921, 1922 and 1923 was 127, 79, and 45 million francs, due largely to subsidies.

The total public debt on June 1, 1923, amounted to 2,200,875,000 francs, exclusive of railway debt.

Imports in 1921 were valued at $399,554,286; in 1922, at $369,491,745; and in 1923, at $432,723,814. Exports in 1921 were valued at $310,193,593; in 1922, at $339,983,782; and in 1923 at $339,719,495. The value of the chief exports in 1923 were: Textiles, $137,592,000; watches and clocks, $41,794,737; cheese, $13,015,920; and chocolate, $4,923,237.

Trade with the United States was:

SYRIA.

(French Mandate.)

AREA, estimated, 60,000 square miles.

POPULATION, census of 1923: Great Lebanon, 628,863; Aleppo, 604,000; Damascus, 594,000; Alaouite, 261,000; Djebel Druse, 50,000; Bedouin nomads (estimated), 250,000. Total, 2,981,863.

ADMINISTRATIVE CAPITAL, Beirut, population 80,000. Chief cities, Damascus, population, estimated, 170,000; Aleppo, 140,000; Homs, 60,000; Hama, 35,000; Alexandretta, chief port, 15,000.

French High Commissioner, Gen. Maxim Weygand.

United States Consuls, at Aleppo, Parker W. Buhrman; at Beirut, Paul Knabenshue; at Damascus, Edward M. Groth.

Syria is a former province of Turkey lying south of Anatolia with Mesopotamia on the east, Transjordania and Palestine on the south and the Mediterranean on the west. It is about the size of the State of Georgia. It was made an independent state by the Treaty of Sevres, Aug. 10, 1920, and the mandate given to France by the Supreme Council of the Allied Powers. The boundary line on the north has been readjusted by a treaty between France and the Nationalist Government of Turkey, and the Palestine boundary by Franco-British agreement, Dec. 23, 1920.

The French development of Syria provides for a federative state of three provinces, Aleppo (the district around Latakia), Alaouite, and Damascus. Great Lebanon was proclaimed a state Sept. 1, 1920, with Beirut as its capital and given a flag, the French tricolor with a cedar on the white ground. About 1,020,000 of the population are of the orthodox Mohammedan faith.

The French have put down banditry and built a system of excellent roads so that thousands of automobiles are now in operation, 1,800 in Beirut alone. The Aleppo-Bagdad route follows the ancient caravan trail, the 65 miles of desert providing a hard gravel highway. The Beirut-Bagdad motor mail inaugurated Dec. 20, 1923, makes the distance, 550 miles, in 24 hours. Street cleaning and fire-fighting departments have been put in operation in Damascus. The direct administration is being put largely in native hands.

Schools in 1923 numbered 461 public, with 30,145 pupils and 990 subsidized private, with 75,242 pupils.

The eastern part of the country is dry, being cut off from the sea moisture-laden winds by mountains. Irrigation is essential to cultivation. Tobacco, wheat, fruit, wine and silk are the chief products. Mineral wealth is unimportant. Great Lebanon, which extends along the Mediterranean for 120 miles, with an average width of 30 miles, produces olives, wheat, grapes, oranges and mulberry trees, and also supports much livestock.

Important railroad lines are Beirut to Damascus, with connections at Royak to Homs, Homa and Aleppo and from Tripoli, a promising seaport, to Aleppo, where connection is made with the Bagdad railroad. Damascus, with "the Street called Straight," famous in the time of the Apostles, is one of the oldest cities in the world, and 35 miles northwest of it are the magnificent ruins of Heliopolis. Beirut is the seat of the Syrian Protestant College founded by the Rev. Dr. Daniel Bliss in 1864, which shares with Robert College in Constantinople American educational honors in the Levant.

The budget for 1923 showed revenues of 6,259,000 Syrian pounds (about $4 at par) and expenditures of 6,427,000 Syrian pounds, showing a deficit of about $72,000. France has spent for Syria's benefit 405,000,000 francs appropriated in the French budgets for 1919-22; this exclusive of the upkeep of her military forces in Syria which for those four years was 1,782,000,000 francs.

Imports,	1922	francs 502,000,000 ($41,164,000)
"	1923	francs 550,000,000 ($33,550,000)

TURKEY, REPUBLIC OF

AREA, approximately 494,538 square miles, but boundaries are indeterminate. In Europe, 10,882 square miles.

POPULATION, approximately, 14,378,000. In Europe, 1,000,000; in Anatolia, 13,878,000.

CAPITALS, Constantinople, population, 1924, 880,998; Nationalist capital in Anatolia, Angora, 35,000; other cities, Smyrna, 93,846; Konia, 71,104; Brussa, 66,664; Adana, 64,110; Adrianople, 56,343.

President and Commander-in-Chief, Mustapha Kemal Pasha, re-elected August, 1923.

Premier, Gen. Ismet Pasha (Foreign Affairs).

President of the Assembly, Fethi Bey.

Governor of Constantinople, Gen. Selaheddin Adil Pasha.

Grand National Assembly at Angora has complete control. The Assembly on Nov. 2, 1922, declared itself invested with sovereign rights, that the Sultanate be abolished, that the present Sultan be deposed as Caliph (spiritual head of Islam), and that a suitable member of the house of Osman be appointed to that place. The Sultan, Mohammed VI., on Nov 17 boarded the British battleship Malaya and was taken to Malta. On the 18th the National Assembly elected to the Caliphate the heir to the Sultanate, Abdul Medjid Effendi (born May 25, 1868), the cousin of Sultan Mohammed VI. On March 2, 1924, the Grand National Assembly deposed the Caliph (who fled to Switzerland) and declared the Caliphate vested in the Assembly.

Diplomatic and Consular Interests of Turkey in the United States are cared for by Spain (which see).

United States High Commissioner, at Constantinople, Rear Admiral Mark L. Bristol, U. S. N.

United States Consul General, at Constantinople Gabriel Bie Ravndal. *Consul*, at Smyrna, R. A. Wallace Treat.

Up to the beginning of the World War Turkey, or the Ottoman Empire, included European Turkey, Anatolia, Arabia, Syria, Palestine, Mesopotamia, Armenia dn Kurdistan, also groups of islands in the Aegean Sea.

So late as 1916, the areas of the Turkish Empire totalled about 710,224 square miles, with about 21,273,900 of population. Cyprus and Egypt had passed to British domination—Cyprus annexed, and Egypt under a protectorate. There remained, therefore, in the Turkish Empire, 10,882 square miles of area with 1,891,000 of population in and around Constantinople and Adrianople on the north of the Straits; in Asia Minor, including Ismid (opposite Constantinople), Brussa, Bigha, Smyrna, Kastamuni, Angora, Konia, Adana, Sivas and Trebizond, 199,272 square miles, with 10,186,900 of population; Armenia and Kurdistan, 71,900 square miles, with 2,000,000 of population; Mesopotamia, 143,250 square miles, with 2,000,000 of population; Syria, 114,530 square miles, with 3,675,100 of population; and the Hejaz and Yemen in Arabia, 170,300 square miles, with 1,050,000 of population; a total of 710,224 square miles, with 21,273,900 of population.

In Asia, a part of Armenia has adopted a Soviet government and is at least in harmonious agreement with Soviet Russia. Syria has passed under the mandate of France (which see), Mesopotamia has been created the dependent kingdom of the Iraq (which see); Palestine under the mandate of Great Britain (which see); and Arabia (which see) has asserted its independence as the Kingdom of the Hejaz, Imamate of Yemen and other divisions.

There remained to the Turkish Empire under the treaty then Constantinople and its hinterland, about 880 square miles, with about 1,200,000 population, and Anatolia with about 480,000 square miles, and about 13,878,000 population. If to these figures is added Thrace, transferred from Greece to Turkey by agreement of the powers following the successful campaign of Mustapha Kemal Pasha, the Nationalist leader (of which

later), with its 10,000 square miles and 670,000 population, the total will be approximately 494,538 square miles and 14,548,800 population. This total included Smyrna, population now 98,846, the most important city and port in Anatolia, and its hinterland, which, while retaining Turkish sovereignty, had been turned over by the treaty to Greece for administration with military control, and with the promise that a plebiscite might be granted in 1925 to decide under which rule it should continue. Turkey now, therefore, is about the size of Texas, New Mexico and Arizona.

CONTROL OF THE STRAITS.

European Turkey before the war included Constantinople and Thrace on the northwest side of the waters which connect the Mediterranean Sea with the Black Sea—so that Turkey controlled the Straits of the Dardanelles—historic vantage point, politically, economically and diplomatically, of events touching the Near East, with deep significance also regarding Far Eastern interests.

The Ottoman Empire was at that time under German domination, with German officers training the Turkish army, and Berlin more or less influencing the policy of the Sultan at Constantinople. Turkey was a unit of the Central Powers' military and geographical resources in the World War, and, defeated, was dismembered by the conquerors.

The Balkan wars of 1913 had reduced the European area dominated by Turkey, leaving her only that part of Thrace from Adrianople east to the Black Sea and south to Enos on the Aegean; but it left her completely the mistress of the Straits of the Dardanelles.

The Treaty of Sevres (Paris), following the World War, further diminished Turkish territory, giving all Thrace to Greece except a triangle 30 miles by 40, containing a neutral zone, along the immediate border of the Dardanelles, the Sea of Marmora and the Bosporus on both the European and the Asiatic sides, to secure equal passage rights to all nations. All fortifications were to be demolished. The Straits were to remain open in peace and in war for all craft and to be neutral in time of war. They were not to be subject to blockade or other hostile acts.

A Commission of the Straits was named to have complete control of the navigation of the Straits, on which sit representatives of Great Britain, France, Italy, Japan, Turkey, Greece, and, if and when joining the League of Nations, of Russia and Bulgaria. The United States was offered a seat. After final peace settlements had been effected, Constantinople was to return to Turkish administration.

The Allied occupation of Constantinople became complete on March 16, 1920; with the Allied High Commission controlling affairs the power of the Sultan and his Ministers was nullified and became almost entirely nominal.

The real power in the Turkish Empire was seized by the Grand National Assembly and responsible Ministry set up by the Nationalists at Angora, in Anatolia, which was the most genuinely Turkish section of the old Ottoman Empire after the last Chamber of Deputies, sitting at Constantinople, was dissolved April 11, 1920. The Assembly voted on Jan. 20, 1921, a Fundamental Law, which was in fact a new Constitution for Turkey. It declared that all sovereignty belonged to the people and that all power was vested in its representatives—the Grand National Assembly. It provided for universal suffrage without religious or race distinction and recognized the right of minorities to freedom and protection. It contained a programme of social reform.

Mustapha Kemal Pasha, the soldier and able diplomatist who brought all this about, was chosen President of the Assembly and Commander in Chief. He had served well in Gallipoli under Gen. Liman von Sanders and found the nucleus of the Nationalist movement in his own troops after the war. The movement was spurred on by the Treaty of Sevres, which dismembered the Turkish Empire but had not been ratified. Executive powers were given to ten commissioners, elected from the membership of the Assembly and responsible to it, who performed the duties of a Cabinet under the Presidency of Reouf Bey.

RISE OF KEMAL PASHA.

Nominally regarded by the Sultan as in rebellion, Kemal established a government at Angora, entered into alliance with Soviet Russia regarding the division of the Caucasus and control of the Black Sea, arranged the Syrian boundaries with France, the mandatory power, saw that Pan-Islamism was preached, organized his army, drove the Greeks back from the Bagdad railroad in 1921 and in September, 1922, hurled a well organized, well disciplined force upon them and drove them back to the Aegean Sea, capturing Smyrna, which was devastated by fire. Following that victory he pushed on to the Dardanelles, refusing to recognize the neutral zone set up. The French and Italian Governments withdrew their troops, but the British reinforced and strengthened their garrison at Chanak, on the Asiatic side, backing it up with warships. As the two forces faced each other, the situation yielded to diplomatic treatment. Kemal's demand that Greece give up Thrace to Turkey, as well as yielding its claims to Smyrna and the Aidin district, was assented to by military representatives of Great Britain, France, Italy, Turkey and Greece, at a conference in Mudania in October. An agreement was reached for a later peace conference to attempt permanently to settle all questions, the Allies meanwhile to continue as arranged in control of the waterways and land neutral areas, under existing general terms.

On Sept. 26 Secretary Hughes indorsed the Allies peace note and declared that the United States was in accord regarding the effective freedom of the Straits and the protection of racial and religious minorities. Soviet Russia, which had not been invited to the conference, in a note to the powers on the same date, protested against the exclusion from the conference of countries directly interested in the freedom of the Dardanelles and declared Russia would refuse to recognize any decision unless she were a party to the agreement.

The conference of the Allied Powers with Turkey met in Lausanne Nov. 20, 1922; the peace conference broke up on Feb. 4, 1923, and on March 6 Britain, Italy, Japan, Jugo-Slavia, Roumania, Turkey and Greece; and at the second conference dealing with the Straits representatives of Russia, the Ukraine, Georgia and Bulgaria were to have seats.

The Lausanne Conference sat for eleven weeks. Agreement was reached in many points, but the Turkish delegation balked at the final draft of the treaty presented to them, and were directed by the National Assembly to refuse to sign it. The conference broke up on Feb. 4, 1923, and on March 6 the Grand National Assembly formally rejected the treaty.

THE LAUSANNE TREATY.

The conference reassembled at Lausanne on April 23, and finally reached an agreement, the treaty being signed on July 24. The treaty concluded peace between Greece and Turkey, recognized the detached mandated states and established the boundaries as set forth above, but included Karagach and the railroad station there in the Adrianople district. It also provided for the compulsive exchange of Greeks in Turkey for Turks in Greece; but left the Armenian problem unsolved. Turkey won her freedom from the judicial capitulations, but with the proviso that foreign legal advisers will be empowered to receive complaints relating to arrest and imprisonment of foreigners. All valid pre-war concessions are to be maintained, readapted to present economic conditions and subject to arbitration. References to the Ottoman debt were removed from the treaty to be subject of mutual agreement between Turkey and the bondholders. The tariff of 1916 was upheld. The Straits (by a special annexed "convention") are thrown open to the warships and merchantmen of all nations.

The Grand National Assembly ratified the treaty at Angora on Aug. 23, and on the following day at midnight the Allies began the evacuation of the territory they had occupied since the armistice, including Karagach and the islands of Imbros and Tenedos. The last detachments of British, French and Italians troops embarked on transports on Oct. 2 and sailed accompanied by all the warships save one cruiser and two destroyers of each power, left as temporary visitors.

On Oct. 6 the Turkish troops re-entered Constantinople led by Shukri Naili Pasha's Iron Brigade amid wild scenes of popular rejoicing, the immolation of sheep and prayers. Premier Baldwin told the British House of Commons that the occupation of Constantinople had cost Great Britain £29,115,000.

Great Britain, France, Greece, Japan and Turkey have ratified the treaty.

Ismet Pasha and Joseph Grew, United States Minister to Switzerland, on Aug. 6, at Ouchy, signed a treaty of amity and commerce between the United States and Turkey. It provides for most-favored-nation treatment and the abrogation of the capitulations in accord with the Lausanne Treaty.

REPUBLIC WITH NEW CONSTITUTION.

A new Grand National Assembly numbering something over 200 was elected in the summer and convened at Angora on Aug. 13. It re-elected Mustapha Kemal Pasha President and he named Fethi Bey Premier but continued the old Ministers in office. In October a new Constitution was adopted

proclaiming the Republic of Turkey with a President elected for four or five years. The National Assembly will have legislative powers only, the executive power being intrusted to a Cabinet responsible to the Assembly. A Council of State, the members appointed by the President, will fulfil the functions usually cared for by a parliamentary Upper House.

The Grand National Assembly on April 10 ratified the so-called Chester railway and mining concession which Rear Admiral Colby M. Chester, U. S. N., had had under negotiation with various Turkish Governments for fifteen years and which had been finally agreed to and signed by Feyzi Bey, Turkish Minister of Public Works, and Major K. E. Cloyton-Kennedy, a Canadian, and Arthur Chester, son of the Admiral, as representatives of the Ottoman-American Development Co. It granted to American interests the right to develop practically all of Anatolia, and included the development of the Mosul oil region, and the construction of 1,200 miles of railroads in the whole Mesopotamian fields where oil deposits are estimated as worth $500,000,000. The concession was, briefly, for the right to construct some 2,400 miles of railway in Eastern Anatolia, as well as through the Mosul oil region to the Persian border, with branch lines to the Black Sea and also to a point on the Gulf of Alexandretta, where the syndicate receives the right to undertake vast port developments. The right of exploitation and development of all mineral beds, mineral waters, petroleum deposits, copper and other deposits within a zone of twenty kilometres on either side of the projected railway lines was likewise granted to the syndicate.

As the company did not begin work within the required seven months the concessions lapsed and were annulled by the Turkish Government.

The railway mileage in 1924 was 1,859.

A revised Constitution was unanimously adopted by the Assembly on April 23, 1924. It contained clauses designed to limit the citizenship of non-Turks and non-Moslems, and limits the franchise to males over 18. A strict prohibition law passed in 1923 had so disastrous an effect on production and brought such a loss of revenue that a new law was passed on April 8, 1924, continuing the liquor traffic under heavy taxes and a measure of Government control.

Mohammedans form the vast majority of the people of Anatolia, and about half the population of Constantinople. Mohammedism is the state religion. The laws of the empire rest on the Koran. The chief ecclesiastical dignitary is the Sheik ul Islam whose functions are chiefly judicial and legal, and who is a member of the Cabinet.

Agriculture is the chief industry of the Turks, products being tobacco, which goes to almost all world marts, cereals, cotton, figs, nuts, fruits of almost all varieties, opium and gums. There are large forests.

Turkey has large mineral resources, not yet developed, chrome ore, zinc, manganese, antimony, copper, borax, emery, asphalt, meerschaum, some coal and lignite, salt, some gold and silver, and petroleum on lands bordering the Marmora Sea.

Turkish fisheries are regarded as important, but manufactures are small and methods crude.

Turkey suffered severely during the twelve long years of war. The destruction of Smyrna, devastation of cultivated areas, lack of transportation, and the deportation of the skilled Christian workers kept the output of the country in 1923 far below pre-war average. The Government has made efforts to assist the peasant and is undertaking the building of railroads, but in its efforts to build up a purely Turkish Moslem state many prohibitive duties and restrictive laws and regulations have been put into force. In the compulsive exchange of population 1,000,000 Greeks, and Armenians left the country and by May 1924, 300,000 Moslem refugees had been brought in.

The majority of the Turkish refugees had some capital and were settled upon land vacated by the Greeks. Reconstruction is proceeding, but slowly. In 40,000 villages there are only 3,200 schools and 5,500 underpaid teachers; 85 per cent. of the population is illiterate.

The Government is handicapped by lack of money, for the taxpaying capacity of the country has been impaired by war conditions. It is, however, proceeding with railway construction in accordance with the new policy of Government ownership and operation.

The budget 1924-25 provides for expenditures of £T140,433,370 ($73,868,953, converted at $0.5264 the average exchange rate for the first four months of 1924); and estimated revenues of £T129,214,610 ($67,966,885). The deficit for 1923-24 was about £T12,000,000.

The nominal amount of the public debt is approximately £442,000,000 of which £287,000,000 represents her floating debt, which includes paper money in circulation to the amount of £T158,748,584. According to the Lausanne Treaty the pre-war public debt, amounting to £129,000,000, will be distributed between Turkey and the territories detached after the Balkan War and the World War. This distribution has not taken place but it is estimated that 60 per cent. would remain a charge against Turkey.

Trade statistics are incomplete and unreliable, but it is estimated that imports for 1923 amounted to 458,743,592 kilos valued at £T144,722,517; and exports amounted to 350,483,915 kilos valued at £T84,648,468.

In 1923 the shipping calling at or passing Constantinople in transit numbered 4,281 of 6,500,178 tonnage.

Trade with the United States as reported by the United States Department of Commerce was:

TURKEY IN EUROPE.

THE UKRAINE.

(See under Russia.)

URUGUAY, REPUBLIC OF

AREA, 72,153 square miles.

POPULATION, estimated, Dec. 31, 1923, 1,603,000.

CAPITAL, Montevideo; population, 1922, 350,956. There are three cities between 20,000 and 30,000.

President, Jose Serrato, 1923-1927; inaugurated March 1, 1923.

President of the Administrative Council, Julio Maria Sosa.

Premier, Dr. Lorenzo Vicens Thievent (Interior).

Minister to the United States, Dr. Jacobo Varela.

Consul General, at New York, Jose Richling; *Consuls*, at Chicago, Boston, Baltimore, Philadelphia, San Francisco, Savannah, Portland, Me., and St. Louis. *Vice Consuls* are maintained at Mobile, Jacksonville, Brunswick, Pascagoula, Kansas City, Albany, Pittsburgh, Galveston, Port Arthur, Newport News, Norfolk, Richmond, and Seattle.

United States Minister, Hoffman Philip.

United States Consul, at Montevideo, Thomas H. Bevan.

Uruguay, the smallest republic in South America, is bounded on the north and east by Brazil, on the south by the South Atlantic Ocean and the River Plate, and on the west by Argentina, the boundary line being the River Uruguay, which is navigable from the Plate to Salto, 200 miles north. In area it is slightly larger than the combined States of New York, Vermont, Massachusetts and Connecticut. Lying between latitudes 30° and 35° south and consisting of rolling grassy plains, it enjoys an extraordinarily healthy climate with a uniform temperature. It is agricultural and pastoral. About 1,700,000 acres are under cultivation; of this, in 1922-23, 662,072 acres produced 140,220 metric tons of wheat, and 676,504 produced 122,576 tons of maize. The chief exports are meat, wool and hides.

In 1923 there entered the port of Montevideo 2,232 ocean-going vessels of 8,877,808 net tonnage. Great Britain is the best customer, with the United States second.

Uruguay declared her independence of Spain Aug. 25, 1825. The present Constitution, as amended, came into force March 1, 1919. It provides for universal franchise for males over 18 and for proportional representation. The President is elected for four years by direct vote. He shares executive power with the National Administrative Council, which consists of nine members, six of the majority party and three of the largest minority—three retiring every two years—all elected by direct popular vote. The President appoints the Ministers of Foreign Affairs, War and the Interior and

has supreme control of these departments. The Council appoints the Ministers of Finance, Public Work, Industry and Education and has control. Congress has two Houses—the Senate of 19 members, chosen for six years by an electoral college, one-third retiring every two years; and a House of Representatives of 90 members, chosen for three years by direct vote. There are 19 departments, which have ample home rule.

Church and state are separated and there is complete religious toleration. The majority of the people are Roman Catholic. Primary education is compulsory and free. The educational system is highly progressive. The university at Montevideo had 4,165 students in 1922. Schools and hospitals are plentiful, and the prison at Montevideo is a model penal institution. The death penalty was abolished in 1907.

Uruguay had in 1922, 1,660 miles of railroads, mostly British owned, of which 1,060 miles are under state guarantee. The Bank of the Republic has a paid-up capital of $20,335,955. Its President and directors are appointed by the Government. It has the exclusive right to issue notes. The Government in 1912 created a National Insurance Bank and gave it a monopoly of issuing insurance. The standing army, in which service is voluntary, numbers, 18,500, with a reserve of 157,439 in the National Guard service, which is compulsory.

Uruguay has made great advances in social welfare legislation and administration during the last 12 years. The republic is a member of the League of Nations.

VENEZUELA, REPUBLIC OF

AREA, approximately 393,976 square miles.
POPULATION, census of 1920, 3,000,000.
CAPITAL, Caracas; population, 1920, 92,212. Chief cities, Maracaibo, population, 46,706; Valencia, 20,466; Barquisimeto, 23,943; chief port, La Guaira.

President, Gen Juan Vicente Gomez, 1922-29. Assumed office June 24, 1922.

Premier, Dr. F. Baptista Galindo (Interior).

Minister to the United States, Senor Dr. Don Pedro Manuel Arcaya.

Consuls General, at New York, Pedro Rafael Rincones; at New Orleans, Mario Briceno Iragorri. *Consuls*, at Boston, St. Louis, Philadelphia. Consulates are also maintained at Mobile, San Francisco, Atlanta, Chicago, Baltimore, Cincinnati, Oklahoma, Fort Worth, Galveston, Norfolk and Seattle. *Consul General*, at Colon, C. Z.; Carlos Elias Villanueva.

United States Minister, Willis C. Cook.

United States Consuls, at Caracas, vacant; at Maracaibo, vacant; at Puerto Cabello, Wm. P. Garrety.

Venezuela is the northernmost state of South America and is bounded on the north by the Caribbean Sea, on the east by British Guiana, on the south by Brazil and Colombia and on the west by Colombia. It stretches from 12° 26' north to within two degrees of the Equator. The climate is tropical, hot and unhealthy in the coastal and river regions. In area it is as large as the States of Texas, Louisiana and Arkansas combined. The spurs of the Eastern Andes and the foothills are covered with dense forest, and the high plateaus provide excellent grazing. The River Orinoco (over 1,600 miles in length) flows through many stretches of level prairies (llanos) and is navigable for 700 miles for large steamers and for 200 miles further for smaller vessels. A natural river or canal, the Casiquiare, unites its upper reaches with the Rio Negro, a tributary of the Amazon. The island of Margarita (area of 400 square miles), noted for its pearl fishing, with Tortuga and some 70 other islands, belongs to Venezuela, but Trinidad, at the mouth of the Orinoco, is British and Curacao and others off the coast are Dutch.

Agriculture and cattle raising are the chief industries, and the chief exports are coffee, cacao, balata, hides, gold, rubber and asphalt. Imports are chiefly textiles, machinery and hardware. The country is rich in metals, but is mostly undeveloped, and petroleum is found in the Lake Maracaibo district.

The production of petroleum for the year 1922 was 334,923 metric tons; for 1921, 218,246; for 1920, 69,539; for 1919, 45,914. The law concerning hydrocarbons, promulgated June 30, 1920, states clearly the rights and privileges of foreigners in the development of oil lands. Both British and American oil interests have secured possessions in the Maracaibo district.

There are (1923) 661 miles of railroads, Caracas (altitude 4,017 feet), the capital, being connected with its seaport, La Guaira, by a railroad 22 miles long which is famous for its magnificent views. The roads of the country have been greatly improved of late years.

In 1921, 1,061 vessels of 1,252,903 tonnage entered Venezuelan ports.

Venezuela was the first of the Spanish colonies in South America to formally declare her independence (July 5, 1811), following the disturbing conditions in Spain caused by Napoleon. After severe fighting, the Republic of Colombia, of which the present states of Colombia, Venezuela and Ecuador formed the three departments, was established Dec. 17, 1819, under the Presidency of the liberator, Gen. Simon Bolivar. In May, 1830, a convention recreated the Republic of Venezuela and adopted a constitution. Separation from Columbia was amicable, but the boundary separating the two republics has never been determined. Both agreed in 1881 to submit the question to the arbitration of the King of Spain. His award, made in 1891, did not satisfy, and on one occasion the two countries were on the verge of war. The dispute was submitted to the arbitration of Switzerland in 1915 and Swiss engineers surveyed the territory, May 26-June 11, 1923, by airplane and camera. The 2,500,000 acres are being accurately mapped and a report will be ready by Dec. 31, 1924. The territory in dispute is an almost uninhabited tract of the head waters of the Orinoco.

For 60 years the Brazil boundary line was in dispute, but that was settled in 1905. In the dispute with Great Britain over the boundary of British Guiana, Venezuela, on the refusal of her request for arbitration, broke off diplomatic relations and appealed to the United States for aid. This President Cleveland gave in 1895, taking a strong, even belligerent, attitude, based on the Monroe Doctrine. Following diplomatic negotiations, a board awarded the major portion of the territory to Great Britain and gave Venezuela title to valuable territory at the mouth of the Orinoco.

Venezuela has had many revolutions and many revisions of its Constitution since the first was adopted in 1819. That now in force was adopted June 13, 1914. It provides for a President, elected by Congress for seven years, a Senate of 40 members, elected for three years, and a House of Deputies of about 77 members, elected for three years. There are twenty autonomous states, a federal district and two territories. The Roman Catholic is the state religion, but religious liberty is guaranteed. Primary education is free and nominally compulsory. Higher education has been much improved under recent administrations. By a law promulgated in June, 1919, military service was made compulsory. A standing army of 8,000 is maintained with 87,000 in the reserve. Venezuela is a member of the League of Nations.

RULERS OF PRUSSIA.

A. D.	Name.
1134	Albert I (1st Elector of Brandenburg).
1616	John, Sigismund (Elector, Duke of Prussia).
1619	George William.
1640	Frederick William ("The Great Elector").
1688	Frederick.
1701	Frederick crowned King of Prussia.
1713	Frederick William I.
1740	Frederick II ("the Great").
1786	Frederick William II.
1797	Frederick William III.
1840	Frederick William IV.
1861	William I.
1871	William I. (made German Emperor, Jan. 18, 1871).
1888	Frederick.
1888	William II. (abdicated, Nov. 9, 1918).

NOTE TO GERMANY AND PRUSSIA—The German Empire was restored on Jan. 1, 1871, and King William I. of Prussia was proclaimed German Emperor, at Versailles, Jan. 18, 1871. On his death he was succeeded by King Frederick of Prussia, and the latter in turn by William II.

William II. (Kaiser Wilhelm) abdicated as King of Prussia and German Emperor, as of Nov. 9, 1918, all the rest of the sovereigns of the German states quit too, one by one, and the German Empire became a Republic, under the Presidency of Frederick Ebert. The Constitution was adopted July 31, 1919.

THE PRINCIPAL LANGUAGES OF THE WORLD.

There are said to be 3,424 spoken languages or dialects in the world, distributed as follows: America, 1,624; Asia, 937; Europe, 587; Africa, 276.

The English language is spoken by more than 150,000,000 of people.

German	by more than		120,000,000	of	people.
Russian	"	"	90,000,000	"	"
French	"	"	60,000,000	"	"
Spanish	"	"	55,000,000	"	"
Italian	"	"	40,000,000	"	"
Portuguese	"	"	30,000,000	"	"

Although the war has added some few words to the English language, the number is less than 10,000. The English language contains approximately 700,000 words. Of this total nearly one-half consists of scientific terminology seldom met outside of text-books and of archaic, obsolescent or obsolete terms.

Various estimates of the sources of English words have been made at different times. On the basis of the Lord's Prayer, George Hickes calculated that nine-tenths of our words were of Saxon origin. Sharon Turner's estimate was that the Norman were to the Saxon as 4 to 6. Trench computed 60 per cent. Saxon; 30 per cent. Latin, including those received through French; 5 per cent. Greek, and 5 per cent. other sources. Prof. W. W. Skeat in the recently published fourth edition of his Dictionary, which contains approximately 20,000 words, shows the following sources:

Anglo-Saxon and English, 3,681; Low German, 126; Dutch, 207; Scandinavian, 693; German, 333.

French from Low German, 54; French from Dutch or Middle Dutch, 45; French from Scandinavian, 63; French from (1) German, 85; French from (2) Middle High German, 27; French from (3) Old High German, 154; French from (4) Teutonic, 225; French (Romance languages), 297; French from Latin, 4,842; French from Late Latin, 828; French from Italian, 162.

Celtic, 170; Latin (direct), 2,880; Provencal, from Latin, 25; Italian, 99; Spanish, 108; Portuguese, 21.

Greek direct or through Latin, Late Latin, French or other sources, 2,493; Slavonic, 31; Lithuanian, 1.

Asiatic: Aryan languages, including Persian and Sanskrit, 163; European non-Aryan languages, 20.

Semitic: Hebrew, 99; Arabic, 272.

Asiatic: Non-Aryan, not Semitic, including Malay, Chinese, Japanese, Tatar, Australian, 135; African languages, 32; American, 102; Hybrid, 675; unknown, 12.

Total, 19,160.

As regards the number of words in the principal other languages no estimate of any practical value has been made in recent years, but existing dictionaries show the following facts:

The vocabulary of the New Standard Dictionary of the English Language aggregates approximately 450,000 words. If the dead words of our speech be added, the total, as shown by the Oxford Historical Dictionary, would reach 700,000 words for the English tongue, living and dead.

The German word-book (Kurschner's Universal-Konversations-Lexikon) contains not more than 300,000 words, including personal names.

Grimm's Dictionary of the German Language contains approximately 150,000 words; Littre's Dictionary of the French Language, 210,000 words; Dahl's Dictionary of the Russian Language, 140,000 words; Carlos de Ochoa's Dictionary of the Spanish Language, 120,000 words; Petrocchi's Dictionary of the Italian Language, 140,000 words.

This table was prepared by Dr. Frank H. Vizetelly, Managing Editor of the Standard Dictionary.

Esperanto, an "international language," was invented in the last century by a Russian, Dr. L. L. Zamenhoff of Warsaw, Poland. The first book in Esperanto was published in 1887.

Ro, a so-called "universal language," was invented by the Rev. Edward P. Foster of Marietta, Ohio. The first publication, an eight-page outline, was issued in 1906.

POETS-LAUREATE OF ENGLAND.

There is no authentic record of the origin of the office of Poet-Laureate of England. According to Warton, there was a *Versificator Regis*, or King's Poet, in the reign of Henry III. (1216-1272), and he was paid 100 shillings a year. Geoffrey Chaucer (1328-1400) assumed the title of Poet-Laureate, and in 1389 got a royal grant of a yearly allowance of wine. In the reign of Edward IV. (1461-1483) John Kay held the post. Under Henry VII. (1485-1509) Andrew Bernard was the Poet-Laureate, and was succeeded under Henry VIII. (1509-1547) by John Skelton. Next came Edmund Spenser, who died in 1599; then Samuel Daniel, who died in 1619, and after him, Ben Jonson (1574-1637). Sir William Davenant was appointed in 1638. John Dryden was appointed in 1670 but was deposed at the Revolution. The others, with the date of appointment, when known, have been: Thomas Shadwell, 1689; Nahum Tate, 1692; Nicholas Rowe, 1715; the Rev. Laurence Eusden, 1718; Colly Cibber, 1730; William Whitehead, 1758, on the refusal of Gray; Rev. Thomas Warton, 1785, on the refusal of Mason; Henry J. Pye, 1790; Robert Southey, 1813, on the refusal of Sir Walter Scott; William Wordsworth, 1843; Alfred Tennyson, 1850; Alfred Austin, 1896; Robert Bridges, 1913.

FORM OF ADDRESS FOR PERSONS OF RANK.

An *Emperor* is to be addressed, in a letter, as "Sire," or "Your Imperial Majesty."

A *King* or *Queen* is to be addressed, in a letter, as "Sire" (or "Madam"), or "Your Majesty." The envelope is to be addressed, "The King's (or Queen's) Most Excellent Majesty."

Princes and *Princesses*, and other persons of royal blood, are addressed as "His (or Her) Royal Highness." Here, as in the cases above, a letter may begin "May it please," following with the words "Your Majesty" or "Your Royal Highness." "May it please" goes well at the start of any letter.

A *Duke* or *Marquis* is "My Lord Duke" (or "Marquis"), a Duke is "His (or Your) Grace." A Marquis is also "My Lord," or "Your Lordship."

An *Earl* or a *Baron* is 'My Lord," or "Your Lordship," as "the Right Honorable."

A *Viscount* is "the Right Honorable."

A *Baronet* or a *Knight* is "Sir."

Wives of any peer may be addressed as "Madam," with the further alternative of "Your Ladyship," or "Your Grace," if she is of high rank. Women of peers may be addressed also as "the Right Honorable," or "the Honorable," according to the rank. The wife of an Earl is a *Countess*.

A *Cardinal* is "Your (or His) Eminence." An *Archbishop* is "My Lord" or "His Grace." A *Bishop* is "My Lord." An *Archdeacon* is "Venerable Sir."

An *Ambassador* is "Your Excellency." A *Minister Plenipotentiary* is "Sir."

Memorable Dates.

NOTE.—Consult also the various other collections of dates, such as Battles of the Revolution, Great Battles of the Civil War, Marine Disasters, Chief Political Assassinations, Tables of Rulers, Authors, etc.

1865—April 27. Steamboat Sultana with exchanged Union prisoners of war aboard, destroyed on Mississippi River, 7 miles above Memphis, by boiler explosion; 1,400.
—Aug. 24. Emigrant ship Eagle Speed foundered near Calcutta; 265.
—Dec. 24. Steamer Constitution, wrecked off Cape Lookout; 40.
1866—Jan. 11. Steamer London foundered in Bay of Biscay; 220.
—Jan. 30. Steamer Missouri, boilers exploded on Ohio River; 100.
—Jan. 30. Steamer Miami, boilers exploded on Mississippi River; 150.
—May. Steamer Gen. Grant, wrecked off New Zealand; 87.
—Oct. 3. Steamer Evening Star, New York to New Orleans, foundered; 250.
1867—Oct. 29. Royal mail steamers Rhone and Wye and about fifty vessels driven ashore and wrecked at St. Thomas, West Indies, by a hurricane; 1,000.
1868—March 18. Steamboat Magnolia, blew up on Ohio River; 80.
—April 9. Steamer Sea Bird burned on Lake Michigan; 100.
—April 17. Anchor liner United Kingdom, vanished at sea; 80.
—Dec. 4. Steamboats United States and America, burned in collision on Ohio River, near Warsaw, Ill.; 72.
1869—Oct. 27. Steamer Stonewall burned below Cairo, Ill.; 200.
1870—Jan. 24. American ship Oneida sunk in collision off Yokohama; 115.
—Jan. 28. Inman Line steamer City of Boston, New York to Liverpool, vanished at sea; 177.
—Sept. 7. British warship Captain foundered off Finisterre; 472.
—Oct. 19. Steamer Cambria lost off Inishtrahull; 170.
—Oct. 20. Steamer Varuna, New York for Galveston, sunk off Florida coast; 72.
1871—Jan. 14. Steamer T. L. McGill, burned on Mississippi River; 58.
—Jan. 27. Steamer Kensington collides with bark Templar off Cape Hatteras, both wrecked; 150.
—Jan. 28. Steamer H. R. Arthur explodes; 87.
—July 30. Staten Island ferryboat Westfield's boilers exploded in New York harbor; 100; 200 injured.
—Dec. 20. Steamer Delaware wrecked off Scilly rocks; 45.
—Dec. 23. Steamer America, Buenos Ayres to Montevideo, burned; 60.
1872—April 11. Steamer Oceanus explodes; 40.
—Aug. 30. Steamer Metis sunk in collision on Long Island Sound; 50.
—Oct. 8. Scanderia of Anglo-Egyptian line,' left port, never heard from; 38.
—Oct. 22. Steamship Missouri, New York for Havana, burned at sea; 32.
1873—Jan. 22. British steamer Northfleet sunk in collision off Dungeness; 300.
—April 1. White Star steamer Atlantic wrecked off Nova Scotia; 547.
—Aug. 8. Steamboat Wawasset, burned in Potomac River; 75.
—Aug. 23. Steamboat Geo. Wolfe, blew up on Mississippi River; 30.
—Sept. 27. Steamship Ismailia, Anchor liner, lost at sea; 52.
—Nov. 23. French Line steamer Ville du Havre, New York to Havre, in collision with ship Loch Earn and sunk in sixteen minutes; 230.
1874—July 26. Steamboat Pat Rogers, burned on Ohio River; 50.
—Dec. 6. Emigrant ship Cospatrick burned at sea; 470.
1875—May 7. Hamburg mail steamer Schiller, wrecked in fog on Scilly Islands; 200.
—Sept. 9. Steamboat Equinox, wrecked in Lake Michigan; 26.
—Nov. 4. American steamer Pacific sunk by collision off Cape Flattery; 236.
—Nov. 9. Steamer City of Waco, burned off Galveston; 53.
—Dec. 6. Steamer Deutschland, Bremen to New York, wrecked at mouth of the Thames; 157.
—Dec. 31. American ship Harvest Queen, sunk in collision off Queenstown; 27.
1876—Dec 29. British ship Circassian stranded on Bridgehampton Beach, L. I.; 28.
1877—Jan. 5. American steamer George Cromwell stranded off Cape St. Mary's, Newfoundland; 30.
—Jan. 20. American steamer George Washington stranded off Mistaken Point, Newfoundland; 25.
—Jan. Colombo of Wilson Line left port, never heard from; 44.
—July 15. British steamer Eten wrecked off Valparaiso; 100.
—Nov. 24. United States sloop-of-war Huron wrecked off North Carolina coast; 100.
—Nov. Steamer Atacama wrecked off Caldera, Chili; 104.
1878—Jan. 31. Steamer Metropolis wrecked off North Carolina; 100.
—March 24. British training ship Eurydice foundered near the Isle of Wight; 300.
—Sept. 3. British steamer Princess Alice sunk in collision in the Thames; 700.
—Sept. 28. German steamship Hermann Ludwig, vanished at sea; 50.
—Dec. 10. Steamship Emily B. Sonder, sank off Cape Hatteras; 38.
—Dec. 17. British Steamship Homer, vanished at sea; 43.
—Dec. 18. French steamer Byzantin sunk in collision in the Dardanelles; 210.
1879—Jan. 11. British steamship Zanzibar, left port, never heard from; 48.
—Feb. 12-16. Thirteen American fishing schooners foundered off George's Bank, Newfoundland; 144.
—Feb. 18. British steamship Surbiton, left port, never heard from; 33.
—March 19. British steamship Bernicia, left port, never heard from; 45.
—Nov. 7. American steamship Champion wrecked in collision with ship Lady Octavia, 15 miles from Delaware lightship; 31.
—Dec. 2. Steamer Borusia sank off the coast of Spain; 174.
1880—Jan. 31. British training ship Atlanta left Bermuda with 290 men; never heard from.
—June 11. American steamer Narragansett, wrecked in collision near Cornfield Point Shoal, Long Island Sound; 27.
—June 28. Steamboat Seawanhaka, burned in East River off Ward's Island; 24.
—Aug. American steamer San Salvador lost at sea, Honduras to Cuba; 29.
—Aug. 29. Steamer City of Vera Cruz foundered off Florida coast; 68.
—Oct. 16. American steamer Alpena foundered on Lake Michigan; 60.
—Nov. 24. French steamer Uncle Joseph sunk by collision off Spezzia; 250.
1881—Jan. 8. British steamship City of Limerick, vanished at sea; 43.
—May 24. Steamer Victoria, capsized in Thames River, Canada; 200.
—Aug. 30. Steamer Teuton wrecked off the Cape of Good Hope; 200.
—Nov. 13. British steamship City of London, vanished at sea; 41.
1882—July 4. Steamer Sciota wrecked in collision on Ohio River; 57.
—Sept. 14. Northwest transit service steamer Asia, foundered between Ontario and Sault Ste Marie; 98.
1883—Jan. 3. British steamship Straits of Dover, left port, never heard from; 27.
—May 3. Grapples burned near Bute Inlet, Vancouver Island; 70.
—July 3. Steamer Daphne capsized in the Clyde; 124.
—Nov. 14. Steamer Manistee, sank in Lake Michigan; 30.
1884—Jan. 18. American steamer City of Columbus wrecked off Gay Head Light, Mass.; 99.
—April 3. Steamer Daniel Steinman wrecked off Sambro Head, N. S.; 131.
—April 18. Bark Pomena in collision with steamer State of Florida off coast of Ireland, both vessels sunk; 150.
—July 22. Spanish steamer Gigon and British steamer Lexham in collision off Cape Finisterre; both sunk; 150.
—Sept. 22. British gunboat Wasp wrecked off Donegal; 52.
—Dec. 24. British steamship Coniston vanished at sea; 27.

1885—Jan. 20. British steamship Fernwood left port, never heard from; 25.
—Jan. 20. British steamship Preston left port, never heard from; 29.
—Jan. 24. British steamship Clanders left port, never heard from; 27.
—Feb. 15. British steamship Humber left port, never heard from; 56.
—Nov. 7. British steamer Algoma stranded at Isle Royal, Lake Superior; 48.
—Dec. 26. Three American schooners lost at sea between Gloucester and St. George's bank; 42.
1886—March 14. Steamer Oregon, Cunard Line, Liverpool to New York, in collision with unknown schooner 18 miles east of Long Island; passengers and crew saved.
—May 30. British steamship Ly-ee-moo wrecked off Australia; 70.
—Oct. 5. Flues of steamer La Mascotte collapsed and vessel burned near Crawford's Landing, Mo.; 34.
—Dec. 17. American bark Atlantic stranded at Golden Gate, Cal.; 27.
1887—Jan. 20. Steamer Kapunda in collision with bark Ada Melmore off coast of Brazil; 300.
—April. American ship St. Stephen, Port Townsend for San Francisco, lost at sea; 27.
—July 10. American sloop yacht Mystery on pleasure trip capsizes off Barren Island, Jamaica Bay, N. Y.; 25.
—Oct. 29. American steamer Vernon founders on Lake Michigan; 41.
—Nov. 15. British steamer Wah Yeung burned; 400.
—Nov. 19. Steamer W. A. Scholten sunk by collision in the English Channel; 134.
1888—Jan. 4. American ship Alfred D. Snow stranded off coast of Ireland; 30.
—Feb. 27. American ferryboat Julia explodes boiler at South Vallejo, Cal.; 30.
—Aug. 14. Steamship Geiser sunk by collision with the Thingvalla; 105.
—Sept. 12. Italian steamship and steamship La France collide near Canary Islands; 89.
—Oct. 3. American bark Ohio stranded near Point Hope, Alaska; 25.
—Dec. 24. Steamer Kate Adams burned near Commerce Landing; 33.
1889—March 16. United States warships Trenton, Vandalia and Nipsic and German ships Adler and Eber wrecked on Samoan Islands; 147.
—May 13. American steamship Alaskan founders at sea between Astona, Ore., and San Francisco; 26.
—Oct. 3. Steamer Corona explodes; 38.
—Dec. 31. British steamship Erin of National Line, left port, never heard from; 72.
1890—Jan. 2. Steamer Persia wrecked on Island of Corsica; 130.
—Feb. 17. British steamer Duburg wrecked in China Sea; 400.
—March 1. British steamship Quetta wrecked off Cape York; 124.
—Sept. 19. Turkish frigate Ertogrul foundered off coast of Japan; 540.
—Oct. 29. Steamship Viscaya, New York for Havana, sunk in collision off Barnegat, N. J.; 70.
—Nov. 10. British cruiser Serpent wrecked in storm off coast of Spain; 167.
—Nov. 26. British steamship Thanemore vanished at sea; 43.
—Dec. 27. British steamer Shanghai burned in China Sea; 100.
1891—March 17. Steamer Utopia, Anchor Line, sunk by collision off Gibraltar; 574.
—April 16. British ship St. Catharis wrecked off Carolina Island; 90.
—April 22. Chilian warship Blauco Encalada blown up in Caldera Bay; 200.
—Sept. 10. Italian steamship Taormina sunk in collision in Mediterranean; 50.
—Nov. 2. Steamship Enterprise sank in Bay of Bengal; 77.
—Dec. 18. Steamer Abyssinia, Guion Line, burned at sea.
1892—Jan. 13. Steamer Namchow wrecked in China Sea; 414.
—May 22. Brazilian warship sank near mouth of La Plata River; 120.
—Sept. 1. Steel steamer Western Reserve broke in two on Lake Superior; 26.
—Oct. 28. Steamer Roumania, Anchor Line, wrecked off Portuguese coast; 113.
1893—Feb. 8. Steamer Trinacria, Anchor Line, wrecked off coast of Spain; 115.
—Feb. 11. White Star steamer Naronic, Liverpool to N. Y. on maiden voyage; vanished.
—May 29. British steamship Germania foundered in Bay of Bengal; 64.
—June 22. British battleship Victoria sunk by collision with her sister ship Camperdown off Tripoli; 350.
—Nov. 2. Ward Liner, City of Alexandria, Havana for New York, burned at sea; 30.
1894—Feb. 2. United States corvette Kearsarge wrecked on Roncador Reef.
—June 25. Steamship Norge, wrecked on Rockall Reef, North Atlantic; 600.
—Nov. 1. Steamer Wairarapa wrecked off coast of New Zealand; 134.
1895—Jan. 30. German steamer Elbe sunk in collision with British steamer Crathie in North Sea; 335.
—March 11. Spanish cruiser Reina Regenta foundered in the Atlantic at entrance to the Mediterranean; 400.
—May 28. French steamer Dom Pedro wrecked on coast of Galicia; 100.
1896—June 17. Steamer Drummond Castle wrecked off Brest, France; 250.
1898—Feb. 15. United States battleship Maine blown up in Havana harbor; 260.
—July 4. French Line steamer La Bourgogne, in collision with British sailing ship Cromartyshire; 560.
—Oct. 14. Steamer Mohegan, Atlantic Transport Line, wrecked off the Lizard; 170.
—Nov. 26-27. Steamer Portland, from Boston, lost off Cape Cod; 157.
1900—June 30. Fire at Hoboken destroyed or damaged several steamships including the Main, the Bremen and the Saale, and damaged North German Lloyd and Hamburg American docks; 145 lives lost; property damage over $10,000,000.

—March 11. Ward Line steamship, Santiago, sunk by storm off Cape Hatteras; 25.
—March 19. Japanese submarine, 43, sunk in collision of Sasebo, with Japanese battleship Tatsuta; 49.
—July 11. Irish freight steamer Lismore, off Wexford; 19.
—July 11. Japanese freight steamer Nippon Yusen Kaisha, in gale of Goto Island; 57.

For later marine disasters see Chronology.

HIGHEST LATITUDES REACHED IN POLAR EXPLORATIONS.

(Prepared by the National Geographic Society, Washington, D. C., Gilbert Grosvenor, LL. D., President.)

The following is a record of the highest latitudes attained in Arctic and Antarctic exploration during the past three hundred years in the Eastern and Western Hemispheres, both by land and by sea: * Represents new records.

ARCTIC EXPLORATION—WESTERN HEMISPHERE.

COMMANDER.	Date.	No. Lat.	Locality.
*John Davis	1588	72° 12′	Sanderson's Hope, in West Greenland Waterways.
William Baffin	1616	77° 45′	Ellesmere Land.
William Morton, Elisha Kent Kane Expedition	1854	82° 27′	Cape Constitution.
Sir Edward Augustus Inglefield	1859	78° 28′	Smith Sound.

NOTE BY THE EDITOR.—Dr. Frederick A. Cook claimed to have discovered the North Pole on April 21, 1908.

Captain Cagni, on his journey in 1899, reached 86° 34′ N., 64° E—at that time the most northerly point attained by man—within 206 miles of the North Pole. Sir Ernest Shackleton in 1908 personally led the party which pushed to latitude 88° 20′ S., 162° E. longitude, surpassing his predecessors by 366 geographical miles and reaching within 97 miles of the South Pole. Admiral Charles Wilkes first saw the Antarctic Continent on January 16, 1840, at 158° E. longitude.

CHIEF POLITICAL ASSASSINATIONS SINCE 1831.

1831—Oct. 9. Capo d'Istria, Count, Greek Statesman.
1848—June 27. Denis Affre, Archbishop of Paris.
—Nov. 15. Rossi, Comte Pellegrino, Roman Statesman.
1854—March 27. Ferdinand, Charles III., Duke of Parma.
1860—Aug. 13. Daniel, Prince of Montenegro.
1865—April 14. Abraham Lincoln, President of the United States; died April 15, 1865.
1868—June 10. Michael, Prince of Serbia.
1870—Dec. 28. Prim, Marshal of Spain.
1871—May 24. Georges Darboy, Archbishop of Paris, by Communists.
1872—Feb. 8. Richard, Earl of Mayo, Governor General of India.
1876—June 14. Abdul Aziz, Sultan of Turkey.
1878—Sept. 7. Mehemet Ali, Pacha, by Albanians.
1881—March 13. Alexander II, of Russia.
—July 2. James A. Garfield, President of the United States; died Sept. 19, 1881..
1893—Oct. 28. Carter H. Harrison, Sr., Mayor of Chicago.
1894—June 24. Marie François Sadi-Carnot, President of France.
1895—July 25. Stanislaus Stambouloff, Premier of Bulgaria.
1896—May 1. Nasr-ed-Din, Shah of Persia.
1897—Aug. 8. Canovas Del Castillo, Prime Minister of Spain.
—Aug. 25. Juan Idiarte Borda, President of Uruguay.
1898—Feb. 18. Jose Maria Reyna Barrios, President of Guatemala.
—Sept. 10. Empress Elizabeth of Austria.
1899—July 26. General Ulisses Heureuax, President of the Dominican Republic.
1900—Jan. 30. William Goebel, Governor of Kentucky.
—July 29. Humbert, King of Italy.
1901—Sept. 6. William McKinley, President of the United States; died Sept. 14, 1901.
1903—June 11. Alexander, King of Serbia, and his wife, Queen Draga.
1904—June 16. Bobrikoff, Gov-General of Finland.
—July 28. Von Plehve, Russian Minister of the Interior.
1905—Feby. 6. Soisalon Soininen, Procurator General of Finland.
—Feb. 17. Sergius, Grand Duke of Russia.
—June 13. Delyannis, Grecian Premier.
—July 11. Major-Gen. Count Shuvaloff, Russia.
—Dec. 30. Ex-Governor Frank Stuenenberg, Idaho.
1906—Aug. 26. Gen. Count Alexis Ignatieff, Russia.
1907—Jan. 9. Gen Pavlov, St. Petersburg.
—March 11. M. Petkoff, Bulgarian Premier, at Sofia.
—Aug. 31. Premier Mirza Ali Hzam, Persia.
1908—Feb. 1. Carlos, King of Portugal.
—Feb. 1. Louis Philippe, Crown Prince of Portugal.
1909—Oct. 26. Prince Ito, of Japan.
1910—Feb. 21. Premier Pasha Ghali, Egypt.
1911—Sept. 14. Peter Arcadowitch Stolypin, Premier of Russia.
—Nov. 19. Ramon Caceres, President of the Dominican Republic.
1912—Nov. 12. Jose Canalejas, Prime Minister of Spain.
1913—Jan. 23. Nazim Pasha, Turkish Minister of War.
—Feb. 4. Manuel E. Arujo, Premier of Salvador.
—Feb. 23. Francisco I. Madero, President of Mexico.
—Feb. 23. Jose Pino Suarez, Vice-President of Mexico.
—March 18. George King of Greece.
1914—June 28. Archduke Francis Ferdinand of Austria-Hungary and his wife, Countess Sophie Chotek, Duchess of Hohenberg.
—July 31. Jean D. Jaures, French Socialist leader.
1915—July 28. Guillaume Sam, President of Hayti.
1916—May 19. General Chen Chi-Nei, of Chinese Revolutionary Party.
1918—July 5. General Count von Mirbach, German Ambassador to Russia, at Moscow.
—July. Czar of Russia and family.
—July 31. German Field Marshal Von Eichhorn, in the Ukraine.
—Oct. 21. Count Karl Sturgkh, Austrian Premier, at Vienna.
—Nov. Count Stephen Tisza, ex-Pres., Hungarian Privy Council, at Budapest.
—Dec. 14. Sidonio Paes, President of Portugal.
1919—Feb. 20. Habibullah Khan, Ameer of Afghanistan, at Laghman.
—"Red Czar," Yankel Sverdov, at Moscow, early in 1919.
—Feb. 21. Kurt Eisner, Bavarian Premier at Munich.
—April 12. War Minister Neuring at Dresden, Saxony.
—Oct. 8. Hugo Haase, Pres. German Socialist Party at Berlin.
1920—May 20. Gen. Venustiano Carranza, President of Mexico, at Tlaxcaltenago.
—June 13. Essad Pasha, Albanian leader, at Paris.
—Aug. 20. Droubi Pasha, Syrian Premier, near Haifa.
—Dec. 17. Inspector O'Sullivan of British Army, at Dublin Castle.
1921—March 8. Senor Dato, Premier of Spain; at Madrid.
—March 15. Talaat Pasha, Ex-Grand Vizier of Turkey, at Berlin.
—July 21. M. Dras Kovics, Jugo-Slav Minister of Interior, at Delnice, Croatia.
—Aug. 26. Mathias Erzberger, ex-German Vice-Chancellor, by two youths, near Offenberg, Baden.
—Oct. 19. Portuguese Premier Antonio Granjo, Ex-Pres. Machado dos Santos, and two other high officials, Lisbon.
—Oct. 22. Bulgarian Minister of War, M. Demitroff, at Kostendil.
—Nov. 4. Ta Kashi Hara, Japanese Premier, at Tokio, by Korean youth.
—Nov. 20. Dr. Z. Jones, Governor of San Juan Province, Argentina; Buenos, Ayres.
1922—Feb. 14. Heikki Ritavowi, Finnish Minister of the Interior, at Helsingfors, by a merchant.
—April 7. Jemal Azmyk Bey, Ex-Gov. of Trebizond and B. E. Chakir, of the Turkish Committee of Union and Progress, by an Armenian, at Berlin.
—June 22. Field Marshal Sir Henry H. Wilson, by two Irishmen, at London.
—June 24. Dr. Walter Rathenau, German Foreign Minister, by two German youths, at Berlin.
—July 25. Djemel Pasha, Ex-Turkish (Unionist) Minister of Marine, Afghan Army Chief of Staff, by two Armenians, at Tiflis, Republic of Georgia.
—Aug. 22. Gen Michael Collins, Irish Free State Premier, by rebels, near Bandon, County Cork.
—Dev. 16. Gabriel Narutowicz, first President of the Polish Republic; by Capt. Niewadomski, an artist, at Warsaw, The assassin was executed Jan. 31, 1923.
—Dec. 20. Jas. Dwyer, Sec. Irish Free State Peace Committee, at Dublin.
1923—Feb. 8. Metropolitan George, Chief of the Russian Church in Poland; by a Russian monk, Warsaw.
—Feb. 9. Sultan Ishan, anti-Soviet Mussulman leader; by Selim Pasha, in Bokhara.
—May 10. Vaslov Vorovsky, Soviet Russia's Minister at Rome, and one of the uninvited Russian delegation at Near East Conference, by M. A. Contradi, a Swiss ex-Russian Army officer, whose relatives had been tortured in Russia, at Lausanne.
—June 4. Cardinal Soldevilla y Romera, Archbishop of Saragossa, by anti-clericals, near that city.
—June 15. Ex-Premier Alex. Stamboulisky, shot while fleeing, Vetren, Bulgaria.
—June 29. Gen. J. C. Gomez, 1st Vice-President of Venezuela, killed in bed, at Caracas.
—July 20. Gen. Francisco "Pancho" Villa, ex-rebel leader, by Herrera avengers at Parral, Mexico.
—Aug. 26. M. Daskaloff, Bulgarian Ambassador to Czecho-Slovakia, by young Bulgarian, at Prague.
—Aug. 27. Gen. Tellini, and two other members of the Italian Commission to delimitize the Albanian frontier, by ambushed soldiers, in Greece, near the frontier.
1924—June 10. Giacomo Matteotti, moderate Socialist leader in Italian Parliament, kidnapped near Rome; slain body found, Aug. 15.
—June 14. M. Petkoff, Bulgarian Agrarian leader, at Sofia.
—June 30. Israel de Haan, Executive Sec. Orthodox Agudatle Israel, at Jerusalem.

HIGH STRUCTURES ABROAD.

The height in feet of certain noted spires and structures abroad is as follows:

Eiffel Tower, Paris, 1,000; Ulm Cathedral spire, 529; Cologne Cathedral, 510; Great Pyramid (Egypt), 480; Strassburg Cathedral, 468; St. Peter's, Rome, 448; St. Stephen's Cathedral, Vienna, 441; Salisbury Cathedral, 404; Toraccio of Cremona, 396; Freiburg Cathedral, 385; Amiens Cathedral, 383.

Church of St. Peter, Hamburg, 380; the Cathedral, Florence. 376; Hotel de Ville, Brussels, 374; Torre Asinelli, Bologna, 370; St. Paul's, London, 360; Church of St. Isaac, Leningrad, 336; Cathedral, Frankfort-on-the-Main, 326; Bell Tower, St. Mark's, Venice, 323; Hotel des Invalides, Paris, 310.

THE SEVEN WONDERS OF THE ANCIENT WORLD.

The **Pyramids of Egypt** and the **Sphinx**—They are situated close to the west bank of the Nile River, nearly opposite the City of Cairo, and were built, so it is said, by Petrie and other modern scholars, in the years between 4731 B. C., and 4454 B. C.

The pyramids were royal tombs and near them were many other mausoleums, among them King Tutankhamen's, which was entered in 1924 and is still being explored.

The largest of the pyramids, Cheops, is 461 feet high, 746 feet square at the base, covers 12 acres of ground, and consists of large blocks of stone.

The Sphinx, hewn of solid granite, has the head of a man and the crouching body of a lion. The body, shoulders to rump, is 146 feet long; the forelegs and paws are 35 feet long; the top of the head is 100 feet above the ground. The head is 28 feet 6 inches high.

The **Hanging Gardens of Babylon** were near the Euphrates River, in the palace of King Nebuchadnezzar, 60 miles south of the present City of Bagdad, and not far from the eastern border of the Syrian Desert of Northern Arabia. The terraced gardens, planted with flowers and small trees, with fountains and refectories interspersed, were 75 to 300 feet above the ground. Water was stored in a reservoir on the top terrace and was piped down to the gardens. They date from about 600 B. C.

The **Temple of Diana** in Asia Minor, at Ephesus, an ancient but now vanished city on the east side of the Aegean Sea, south of Smyrna, was built in the Fifth Century B. C. by the Ionian cities, as a joint monument, from plans by the architect Ctesiphon. The building was of marble, 425 x 225 feet and the roof was supported by 127 columns of Parian marble each 60 feet high and each weighing about 150 tons. In 356 B. C., the temple was burned by Herostratus, a crank who wanted notoriety. Rebuilt of lesser beauty, the temple stood 600 years, until the Goths burned the port, 262 A. D.

The **Statue of Jupiter Olympus**, in the valley of Olympia, province of Elis, 12 miles or so inland from the west coast of the southern peninsula of Greece, which anciently was called the Peloponnesus. Jupiter was the supreme god of the Romans and Greeks. The latter called him Zeus.

The statue, begun by the Greek sculpture, Phidias, after he had been banished from Athens in 432 B. C., was of marble encrusted with ivory and the draperies were of beaten gold. The bearded god was in a sitting posture, with an olive wreath on his head. In his right hand was the figure of Victory; in the left, a sceptre.

The **Tomb of Mausolus**, King of Caria, in Asia Minor, at Halicarnassus, on the eastern side of the Aegean Sea, opposite Greece. It was built of marble about 352 B. C., by Queen Artemisia, the widow, was named **Mausoleum**, and was remarkable for its beauty, and its magnificent interior. It was destroyed by an earthquake. The Queen, by the way, would have been called Diana by the old Romans because Artemis is the Greek equivalent.

The **Pharos of Alexandria**, a white marble light-house or watch-tower, on the island of Pharos, in the port of Alexandria, Egypt, was completed by King Ptolemy Philadelphus, in 283 B. C. The island had been joined by Alexander the Great to the mainland of Egypt by a causeway when he founded Alexandria. The structure cost $850,000. Fires were used as a beacon by night, but whether they were kindled on top of the tower, or in the upper chamber and were thus made visible through windows, is not certainly known. The architect was Sostratus.

The **Colossus of Rhodes** was a brass statue of the Greek sun-god, Apollo, 70 cubits (about 109 feet) high, erected by Charles of Lindus, at the port of the City of Rhodes, on the island of Rhodes, in the eastern part of the Mediterranean Sea, off the coast of Asia Minor, north of Alexandria. It took 12 years to build, cost 300 talents ($258,000), was completed about 280 B. C., and was thrown down 224 B. C., by an earthquake. There it lay on the ground until 672 A. D. when the Turkish Government, the Saracens having seized Rhodes, sold the statue to a Jew of the city of Edessa, who broke and pulled the huge brass image into pieces, and took them back with him into Mesopotamia, loaded on the backs of 700 camels. Modern scholars say there is no evidence whatever of the truth of the old legend that the statue straddled the entrance to the port, so that a full-rigged ship could sail between the legs. So far as now known the statue stood close to the shore, and probably was intended, like the Statue of Liberty in New York Harbor, to serve as a lighthouse.

THE GREAT WALL OF CHINA.

Besides the so-called Seven Wonders of the World, described above, there were many other ancient marvels of architecture and construction, among them the **Great Wall of China**, which was built in the Third Century B. C., and extended along the Northern frontier of that country, from the northern part of the Gulf of Pechili, on the Yellow Sea, north of Peking, in a zigzag course, to the border of Turkestan, a distance of 1,728 miles, through only 1,300 miles as a bird flies.

The wall, which has crumbled into heaps in many places, was 20 feet thick at the bottom and 15 feet thick at the top; it was over 25 feet high, with towers over 35 feet high at intervals of 200 to 300 yards; on top it was paved with bricks a foot square and the wall was faced on both sides with granite blocks, the filling being earth and stones.

Following the national boundary line as it did, the Great Wall crossed mountains, gorges, plains, rivers, valleys, overcoming all natural obstacles. Built to keep out the war-like hordes from Mongolia and Manchuria, then collectively known as Tartars, it served its purpose for a thousand years.

THE TOWER OF BABEL.

The Tower of Babel, at the Chaldean City of Ur, in lower Mesopotamia, has completely disappeared, but a well-authenticated clay tablet gives its exact dimensions.

The base of the tower was 300 x 300 feet, tapering through 7 stages to the Shrine at the top.

The height also was 300 feet.

The smaller sister of the Tower of Babel is the **Ziggurat** at Ur, which is 195 x 130 feet at the base and probably more than 150 feet high.

This monument is being excavated by a joint expedition of the University of Pennsylvania and the British Museum.

The great **Ziggurats**, or Towers, like those of Babel, says C. L. Wooley, director of excavations, are believed to be imitations of the hills where the Sumarians worshipped their gods before they settled in the plain of the Tigris and Euphrates Rivers. The **Ziggurat** of Ur is the best preserved of these towers.

Earlier excavations brought forth inscribed clay cylinders in which Nabonidus (Belshazzar), the last King of Babylon, told how he had completed the tower left unfinished by Ur-Engur and his son Dungi, Kings of Ur at about 2300 B. C., a comparatively late date in the history of Ur, which had flourished for 2,000 years or more before.

Ur-Engur and his son Dungi, however, antedated Abraham by 200 years, so that patriarch must have seen the tower before he left Ur.

It is supposed that emigrants from Ur took away with them the worship of the moon god Sin and transplanted it to Mount Sinai, thus giving Sinai its name.

OTHER WONDERS OF THE WORLD.

Stonehenge, an assemblage of huge shaped stones in 3 circles, one within another, on Salisbury Plain, 90 miles or so southwest of London, England. The outer circle is 100 feet in diameter, the next within is 75 feet in diameter, and the circle inside that one has a diameter of 40 feet. Extending around the outer circle is a deep trench 333 feet in diameter. The stones of the outer circle, originally about 30 in number, average 12 x 6 x 3 feet, fastened in couples by blocks fixed across the tops. The stones in the inner circles are smaller. Nearby, stone hammers, etc. have been excavated. It is not known whether Stonehenge was a sepulchre, or a Druid Sun-temple, or what-not. The remains according to astronomers, may date back to 1680 B. C., that is, to the new Stone Age or to the Bronze Age. There are similar monuments in France and in other places in the British Isles; also on Christmas Island, South of Java.

The **Catacombs**, or subterranean tombs, were a feature of human burials in Egypt and in Asia Minor thousands of years before the Christian Era. The name is applicable, also, to the Baths of Cleopatra, at Alexandria, and to the ancient underground burial places in Etruscan Italy. Indeed, caves were among man's earliest abodes in life as well as in death.

The Catacombs at Rome were the sepulchres of the early Christians, and consisted of more than 40 groups of labyrinths, or galleries and chambers, covering 615 acres, sometimes extending 5 stories (70 feet) below the surface of the ground.

The **Circus Maximus**, at Rome, built 605 B. C., by King Tarquin and rebuilt and enlarged by Julius Caesar some years before the birth of Christ, was 312 feet high, 1,875 feet long, and 625 feet wide. It then held 150,000 spectators, but the capacity was increased to 385,000 in the Fourth Century A. D. The place was used for games, and for horse

and chariot races. The only circus still standing in Rome was built 311 A. D., by Maxentius (Marcus Aurelius Valerius). The Romans built circuses all over Italy, at Constantinople, and wherever they went in France, Spain, and other countries.

The Coliseum, or Colosseum, at Rome, one of the largest amphitheatres in the world, was begun by the Emperor Vespasian and finished by the Emperor Domitian, 82 A. D. In 238 A. D. a fourth story was added. The ruins still stand. The building, elliptical, was 615 x 510 feet, and the floor of the arena was 281 x 176 feet. The walls were stone; the seats, marble; 50,000 persons could sit, 20,000 could stand. The cost was 10.000,000 crowns ($15,000,000). The work of construction was done by 12,000 slaves from Jerusalem. Wild animals were kept in dens under the floor. Thousands of persons, including early Christians, perished in combats with lions and tigers. Gladiators also fought there.

The Mosque of St. Sophia, at Constantinople, was built as a Christian Cathedral by the Roman Emperor Justinian, 531-538 A. D., in the form of a Greek cross, 269 x 143 feet with a flattened dome 180 feet high, set in a cluster of cupolas and minarets. The brick walls are lined on the inside with marble plundered from Greek temples. The Sultan of Turkey, Mohammed II, turned the cathedral into a mosque in 1453 A. D.

The Leaning Tower of Pisa is one of the so-called wonders of the middle ages. It is a round, 8-story bell-tower and was built of marble, in 1154 A. D., it is 188 feet high, and the top is 16 feet out of the perpendicular. The architect had no such intention, but the foundations gradually sank during construction, wherefore certain changes were made in the colonnades on the upper stories so that they were wider apart on the lean-to side.

The Porcelain Tower of Nankin, was built in that ancient capital of South China in the early part of the 15th Century. It was an octagonal 8-story tower, 261 feet high. The Taiping revolutionists destroyed it, along with many government buildings in 1853.

The Vatican at Rome is the largest residence in the world, containing several thousand rooms. It stands on the north side of the River Tiber and its nucleus was a house built in the time of the Emperor Constantine. It was enlarged from time to time and has been the only regular home of the Roman Pontiffs since they abandoned their palace at Avignon, France, in 1377. The place contains vast treasures of art, literature, and archaeology.

The Cathedral of St. Peter, at Rome, the largest church in the world, begun in 1506 by Pope Julius, and completed in 126 years, covers 18.000 sq. yds. and is 636 feet long, with a nave, or cross-section, 151 feet long. The top of the cross on the dome is 435 feet above the ground.

GREAT INVENTIONS.

AMERICAN.

Invention.	Inventor.	Date.	Invention.	Inventor.	Date.
Lightning rod	Franklin	1752	Gasoline motor (auto)	Selden	1879
Steamboat	Fitch	1784	Automatic knot-tying harvester machine	Appleby	1880
Steamboat	Fulton	1793	Chrome tanning	Schulz	1884
Nail machine	Perkins	1787	Trolley car	Van Depoele & Sprague	1884-87
Cast-iron plough	Newbold	1797	Type-bar casting (linotype)	Mergenthaler	1885
Cotton gin	Whitney	1793	Cash register	Patterson	1885
Carding (textile) machine	Whittemore	1797	Electric furnace reduction	Cowles	1885
High-pressure steam engine	Evans	1799	Split-phase induction motor	Tesla	1887
Screw propeller	Stevens	1804	Single-type composing machine	Lanston	1887
Tack machine	Blanchard	1806	Rotary converter	Bradley	1887
Electro-magnet	Henry	1828	Recording adding machine	Burroughs	1888
Revolver (pistol)	Colt	1835	Transp'rent photograph film	Eastman	1888
Electric telegraph	Morse	1835	Calcium carbide	Willson	1888
Vulcanized rubber	Goodyear	1839	Electric welding	Thomson	1889
Sewing machine	Howe	1846	Electrolytic alkali prod'ction	Castner	1890
Electric locomotive	Vail	1851	Carborundum	Acheson	1891
Monitor (warship)	Ericsson	1861	Harveyized armor plate	Harvey	1891
Airbrake	Westinghouse	1869	Alternate-current motor	Tesla	1892
Celluloid	Hyatt	1870	Motion-picture machine	Edison	1893
Welt machine	Goodyear	1871	Dry-air process for blast furnace	Gayley	1894
Block signals for railways	Robinson	1872	Disk ploughs (modern type)	Hardy	1896
Automatic car-coupler	Janney	1873	High-speed steel	Taylor & White	1901
Typewriter	Sholes	1873	Aeroplane	Orville & Wilbur Wright	1903
Quadruplex telegraph	Edison	1874	Hydro-aeroplane	Glenn H. Curtiss	1911
Water gas	Lowe	1875	Machine gun	Isaac N. Lewis	1912
Mowing machine (differential gear)	Eickemeyer (R.)	1876	Gas engine (compound)	Eickemeyer (C.)	1921
Telephone	Bell	1876			
Talking machine	Edison	1877			
Incandescent lamp	Edison	1878			
Arc lamp	Brush	1879			

In 1892, it is claimed, the first gasoline automobile in the U. S. was operated by C. A. Duryea.

The American-made motor truck was introduced about 1904.

Movable type were invented in China in the tenth century; by Coster, in Europe, in 1438. Cut metal type were invented by Gutenberg, German, in 1455.

HOW TO AVOID LIGHTNING.

Do not stay on a beach or in a field when dark clouds are overhead or coming slowly. Get under cover or lie down.

Do not stand under a tree with thick foliage. The body, particularly the skin, is a better conductor than the trunk of the tree.

Don't stand in a doorway or at a window by a chimney. The lightning follows to some extent any draft or column of rising air, especially warm air.

It is dangerous to be near a flagpole or a metal clothesline.

Stock should not be tied near a wire fence.

There is no sense in going to bed. Standing on glass or rubber or any good insulator, a woolen blanket for example, will give more security and more confidence.

If near a person who has been struck, make every effort to resuscitate him. Rarely does lightning kill outright.

If in a trolley car and a flash comes in and burns the fuses with a roar, sit still.

If you have a radio, cut it out during a thunder storm. The antennae should be grounded direct and all wires kept outside.

If your house is provided with good lightning rods you need not have much fear. Dwelling houses in city blocks are practically safe.

IMPORTANT TUNNELS OF THE WORLD.

Alberg—Under the Alps at the Arl Mountains, and extends from Langen to St. Anton, 6¾ miles; opened 1884.

Andes Mountains—See "Trans-Andine."

Baltimore—The first use of electric motive power on the railroads in this country was on the *Baltimore and Ohio Railroad* in 1895 at Baltimore, Md. The main line of this railroad passes under the principal business portion of the city in tunnels which were completed in 1894.

The main tunnel under Howard Street is over 7,000 feet in length and represents one of the pioneer efforts leading up to present subway systems. Methods were originated of supporting adjacent structures and of controlling quicksand and underground streams encountered during construction. Through the quicksand areas, the adjacent ground was solidified by forcing large quantities of cement grout into it under heavy pressure

Electrical motive power was adopted to eliminate objectionable smoke and gases in the tunnels. Power was, at first, supplied from overhead wires, but in 1902 this was replaced by a third-rail system.

The electrified section totals about seven miles in length and is a part of the main line of the Baltimore and Ohio between New York and Washington.

The Pennsylvania Railroad has 2 tunnels under Baltimore: *Union Tunnel*, north of Union Station built by the Union Railroad Company of Baltimore in 1871; a two-track tunnel, 3,400 ft. long, located under the bed of Hoffman Street from Bond Street to Greenmount Avenue *Baltimore Potomac Tunnels*, south of Union Station, built by the Baltimore and Potomac Railroad Company in 1873; two-track tunnels under Wilson Street from North Avenue to Pennsylvania Avenue, 4,960 ft. long and under Winchester Street from Fremont Avenue to Gilmore Avenue, 2,190 ft., a total length of 7,150 ft. Pennsylvania Avenue Station is located at the opening between the tunnels.

Big Bend—Drains the Feather River in California, 2 miles; opened 1886.

Bitter Root Mountains (Montana and Idaho)—10,100 feet long.

Blackwell—Under River Thames, England, 1½ miles; opened 1897.

Busk-Ivanhoe Tunnel on the Colorado Midland R. R., 9,600 feet long, single track, under the Continental Divide, in Lake and Pitkin Counties.

Cascade Mountain—Through the Cascade Mountains in Washington, 3 miles.

Catskill Aqueduct—92 miles to N. Y. City, and 35 miles of distributing tunnels deep down under the city itself; partly opened in 1915, completely in 1917.

The *Shandaken Tunnel*, a part of the Catskill water supply system, is used to deliver the water of Schoharie Creek to the Ashokan reservoir. It is 18.1 miles long, the longest tunnel in the world. It is concrete-lined, 10¼ feet wide and 11½ feet high, with a capacity of 600,000,000 gallons a day. It was put into service on Feb. 9, 1924.

Connaught—Through Selkirk Mountains, under Rogers Pass, Canada; on Canadian Pacific Railway, double track, about five miles long; completed 1916.

Continental Divide, for the Denver and Salt Lake R. R., 6.4 miles long (under survey).

Croton Aqueduct—33⅓ miles to N. Y. City; opened 1888.

Cumberland—Under Cumberland Mountains, Tennessee, 8,000 feet long.

Detroit (Mich. Central Ry.)—Under Detroit River.

Gallitzin Tunnel, through the Alleghany Mountains at Gallitzin, 11 miles west of Altoona, Pa., is 3,600 ft. long; was built in 1854, for two tracks of the Pennsylvania Railroad. In 1904 a new single track tunnel was built parallel with the old tunnel, through which is operated one westbound track, another westbound track being operated through the old tunnel, replacing the original two tracks in order to give added clearance. The two eastbound tracks through the mountain use what is known as New Portage Tunnel, 1,610 ft. long, which was built by the State of Pennsylvania in 1855, and purchased by the Pennsylvania Railroad Company in 1857.

Gunnison—Southwestern Colorado, 6 miles; opened 1909.

Hoosac—Through Hoosac Mountain, Mass., 4¾ miles; opened 1873.

Khojak Pass—India, Quetta to Kandahar, 2 miles.

Loetschberg—Through the Alps, in Oberland, Switzerland, 9¼ miles; opened June 20, 1913, costing nearly $10,000,000.

Mont Cenis—Italy to France, under the Col de Frejus, 8 miles; opened 1871.

Mont d'Or—Between France and Switzerland, was bored through October 2, 1913. The tunnel pierces the Jura Mountains from Fresne to Vallorbe, and is 3¾ miles long.

Mt. Roberts—From the shore of Gastineau Channel at Juneau, Alaska, into Silver Bow Basin, 1 1-3 miles.

Otira—In New Zealand, 5½ miles.

Rove—Northwest from l'Estaque, France, part of canal connecting Marseilles with Rhone River; 4½ miles, 72 feet wide, 47 feet high; opened 1916.

Rothschönberg—Drains the Felberg mines, Saxony, 3½ miles; opened 1877.

St. Clair—Under St. Clair River from Sarnia, Ont., to Port Huron, Mich., 2 miles; opened 1891.

St. Gothard—Through the Alps, connects Goschenen with Airolo, in Switzerland, 9½ miles; opened 1881.

Severn—From Monmouthshire to Gloucestershire, England, 4½ miles; opened 1886.

Simplon—Through the Alps, 12½ miles; opened 1905.

Southern Pacific and Central Pacific Railroad tunnels: *Chatsworth Park*, through Coast Range Mountains, in Los Angeles County, Cal., 1.4 miles; *San Fernando*, through Coast Range Spur 1.32 miles.

Spiral—The tunnels on the Canadian Pacific Railway, between Hector and Fields, B. C., consist of two spiral tubes, the westerly, 3,255 feet long, under Cathedral Mountain; and the easterly, 2,921 feet long, under Mt. Ogden, with the Kicking Horse River between. This line was built to reduce grades through the Kicking Horse Pass, and cut the gradient on the line from 4.5% to 2.2%, and cost approximately $1,500,000.

Strawberry—Through the Wasatch Mountains.

Sutro—Drains the Comstock Lode in Nevada, 4½ miles; opened 1879.

Totley—England, 3¾ miles.

Trans-Andine Ry. Tunnel—5 miles long, 10,486 feet above sea level and affords direct communication between Valparaiso and Buenos Ayres; opened April 5, 1910.

Wasserfluth—In the Alps, between Bunnadern and Lichtensteig, Switz., 2 miles, opened 1909.

Woodhead—Liverpool to Birkenhead, England, under the River Mersey, 3 miles.

COAL-MINE DISASTERS IN THE U. S. IN WHICH 100 OR MORE WERE KILLED.

METALS AND THEIR DISCOVERERS.

(Prepared by George Steiger, Chief Chemist, U. S. Geological Survey.)
(Where there is a date, it is the year of discovery.)

Aluminum (see note below).
Antimony, salts known to the ancients.
Arsenic, salts known to the ancients.
Barium, 1779.
Bismuth, 1739, Pott.
Cadmium, 1817, Stromeyer.
Caesium, 1860, Bunsen and Kirchoff.
Calcium, salts known to the ancients.
Cerium, 1803, Klaproth.
Chromium, 1797, Vauquelin.
Cobalt, 1735, Brandt (name used by ancients).
Columbium, 1801, Hatchett.
Copper, known to the ancients.
Dysprosium, 1886, Lecoq de Boisbaudran.
Erbium.
Europium, 1901, Demarcay.
Gadolinium, 1886, Marignac and Lecoq de Boisbaudran.
Gallium, 1875, Lecoq de Boisbaudran.
Germanium, 1886, Winkler.
Glucinum, 1797, Vauquelin.
Gold, known to the ancients.
Holium, discovered since 1840.
Indium, 1863, Rich and Richter.
Iridium, 1804, Tennant.
Iron, known to the ancients.
Lanthanum, 1839, Mosander.
Lead, known to the ancients.
Lithium, 1817, Arfvedson.
Lutecium, 1907, Urbain.
Magnesium.
Manganese
Mercury, known to the Greeks 300 B. C.
Molybdenum, 1778, Scheele.
Neodymium, 1885, Weisbach.
Nickel.
Osmium, 1804, Tennant.
Palladium, 1803, Wollaston.
Platinum, 1750, Wood and Watson (possibly known much earlier but not recognized).
Potassium, salts known in very early times; difference between potassium and sodium shown by Du Monceau in 1736.
Praseodymium, 1885, Welsbach.
Rhodium, 1804, Wollaston.
Radium, 1898, P. and S. Curie.
Rubidium, 1860, Bunsen and Kirchoff.
Ruthenium.
Samarium, 1879, Lecoq de Boisbaudran.
Scandium, 1879, Nilson.
Selenium.
Silver, known to ancients.
Sodium, salts known to the ancients. The difference between sodium and potassium shown in 1736 by Du Monceau.
Strontium.
Tantalum, 1802, Ekeberg.
Tellurium.
Terbium, 1843, Mosander.
Thallium, 1861, Crooks.
Thorium, 1818, Berzelius.
Thulium, 1879, Cleve.
Tin, known to the ancients.
Titanium, 1791, McGregor.
Tungsten, 1781, Scheele (?)
Uranium, 1789, Klaproth.
Vanadium, 1801, Del Rio.
Yttrium.
Ytterbium, 1878, Marignac.
Zinc, known to the ancients in the alloy brass.

Note—The word "Alumen" or its Greek equivalent was used in very early times to denote a salts with an astringent taste.

Paracelsus considered it to be different for he pointed out that its "corpus" was a mixture of earths. Its "corpus" was confused with lime until 1746 when Potts showed that the base was really an argillaceous earth, and in 1754 Marggraf proved clearly that the base was entirely different from lime and that it contained alum earth united with silica.

Wöhler first reduced it in the form of a metallic powder, but it was not until 1845 that he produced it as a compact metal.

Hafnium was discovered originally ten years ago by Prof. Alexander Scott of the British Museum, but he did not then know, it is said, that he had found a new element, supposing it was merely a new oxide obtained from New Zealand black sand.

Early in 1924 Prof. F. von Hevessy of Hungary, working in a Danish Government laboratory, found hafnium in cryolite from Greenland, and he identified it as a new element and named it "hafnium," which was the old Latin name for Copenhagen.

He could not isolate the element, this being done later by Prof. Scott, who converted the oxide into a few grains of a cinnamon-color powder—pure hafnium.

CLASSIFICATION OF ROCKS AND DIVISIONS OF GEOLOGIC TIME.

(Prepared by the U. S. Geological Survey.)

The rocks composing the earth's crust are grouped by geologists into three great classes—igneous, sedimentary, and metamorphic. The igneous rocks have solidified from a molten state. Those that have solidified beneath the surface are known as intrusive rocks. Those that have flowed out over the surface are known as effusive rocks, extrusive rocks, or lavas. The term volcanic rock includes not only lavas but bombs, pumice, tuff, volcanic ash and other fragmental materials thrown out from volcanoes. Sedimentary rocks are formed by the accumulation of sediment in water (aqueous deposits or eolian deposits). The sediment may consist of rock fragments or particles of various sizes (conglomerate, sandstone, shale); of the remains or products of animals or plants (certain limestones and coal); of the product of chemical action or of evaporation (salt, gypsum, &c.); or of mixtures of these materials. A characteristic feature of sedimentary deposits is a layered structure known as bedding or stratification. Metamorphic rocks are derivatives of igneous or sedimentary rocks produced through mechanical or chemical activities in the earth's crust. The unaltered sedimentary rocks are commonly stratified, and it is from their order of succession and that of their contained fossils that the fundamental data of historical geology have been deduced.

Era.	Period.	Epoch.	Characteristic Life.
Cenozoic (Recent Life.)	Quaternary.	Recent. Pleistocene, or Glacial.	"Age of man." Animals and plants of modern types.
	Tertiary.	Pliocene. Miocene. Oligocene. Eocene.	"Age of mammals." Possible first appearance of man. Rise and development of highest orders of plants.
Mesozoic. (Intermediate Life.)	Cretaceous.	Upper. Lower	"Age of reptiles." Rise and culmination of huge land reptiles (dinosaurs). First appearance of birds and mammals; and palms and hardwood trees.
	Jurassic.		
	Triassic		
Paleozoic. (Old Life.)	Carboniferous.	Permian. Pennsylvanian. Mississippian.	"Age of amphibians." Dominance of tree ferns and huge mosses. Primitive flowering plants and earliest cone-bearing trees. Beginnings of backboned land animals. Insects.
	Devonian.		"Age of fishes." Shellfish (mollusks) also abundant. Rise of amphibians and land plants.
	Silurian.		Shell-forming sea animals dominant. Rise of fishes and of reef-building corals.
	Ordovician.		Shell-forming sea animals. Culmination of the buglike marine crustaceans known as trilobites. First trace of insect life.
	Cambrian.		Trilobites, brachiopods and other sea shells. Seaweeds (algae) abundant. No trace of land animals.
Proterozoic. (Primordial Life.)	Algonkian.		First life that has left distinc record. Crustaceans, brachiopods and seaweeds.
	Archean.	Crystalline Rocks.	No fossils found.

OTHER TRAVELLING DISTANCES IN EUROPE, IN STATUTE MILES.

(From the U. S. War Department's *Official Table of Distances.*)

Amsterdam, to—*Antwerp*, 113; *Bremen*, 232; *Cologne*, 151; *Hamburg*, 303; *Hanover*, 238; *Kiel*, 373; *Moscow*, 1,602; *Rotterdam*, 50; *The Hague*, 39.

Athens, to—*Brindisi*, 431; *Naples*, 660; *Salonica*, 300; *Trieste*, 859.

Berlin, to—*Antwerp*, 454; *Basel*, 545; *Berne*, 611; *Bremen*, 215; *Cologne*, 359; *Dresden*, 108; *Dusseldorf*, 342; *Essen*, 317; *Frankfurt*, 335; *Genoa*, 875; *Geneva*, 702; *Hanover*, 161; *Kiel*, 225; *Konigsberg*, 366; *Leipsic*, 100; *Lubeck*, 162; *Magdeburg*, 88; *Moscow*, 1,200; *Munich*, 406; *Nurnberg*, 301; *Posen*, 158; *Rotterdam*, 422; *St. Gall*, 575; *Saarbrucken*, 466; *Stuttgart*, 438; *The Hague*, 422; *Ulm*, 437; *Warsaw*, 388; *Wiesbaden*, 360.

Berne, to—*Brindisi*, 838; *Geneva*, 98; *Genoa*, 325; *Hamburg*, 616; *Lausanne*, 61; *Lucerne*, 59; *Marseilles*, 390; *Milan*, 231; *Moscow*, 1,811; *Naples*, 790; *Zurich*, 81.

Brussels, to—*Antwerp*, 27; *Basel*, 364; *Boulogne*, 159; *Bremen*, 346; *Calais*, 135; *Cologne*, 139; *Hamburg*, 417; *Kiel*, 488; *Leipsic*, 465; *Moscow*, 1,705; *Ostend*, 78.

Christiania, to—*Bergen*, 306; *Gothenburg*, 222; *Moscow*, 1,300; *Trondhjem*, 349.

Constantinople, to—*Adrianople*, 198; *Batum*, 674; *Beirut*, 976; *Brindisi*, 847; *Gibraltar*, 2,099; *Lake Burgas*, 124; *Marseilles*, 1,552; *Moscow*, 2,300; *Naples*, 1,101; *Odessa*, 395; *Smyrna*, 558.

Copenhagen, to—*Danzig*, 539; *Dover*, 784; *Hamburg*, 222; *Helsingfors*, 889; *Kiel*, 152; *Malmo*, 20; *Moscow*, 1,483; *Riga*, 801.

Edinburgh, to—*Glasgow*, 47; *Liverpool*, 223; *Manchester*, 216; *Moscow*, 2,263.

Lisbon, to—*Moscow*, 3,042; *Oporto*, 213.

London, to—*Aldershot*, 37; *Bath*, 107; *Bishop's Rock*, 469; *Bremen*, 482; *Brighton*, 51; *Bristol*, 119; *Cambridge*, 53; *Canterbury*, 60; *Chatham*, 34; *Dover*, 78; *Dresden*, 743; *Falmouth*, 307; *Folkestone*, 71; *Genoa*, 2,538; *Gibraltar*, 1,556; *Glasgow*, 402; *Havre*, 234; *Kiel*, 624; *Lisbon*, direct, 1,223; *Liverpool*, 200; *Manchester*, 184; *Moscow*, 1,863; *Naples*, 2,679; *Oxford*, 64; *Plymouth*, 140; *Portsmouth*, 74; *Rotterdam*, 210; *Sheffield*, 163; *Southampton*, 80; *The Hague*, 224; *Yarmouth*, 122.

Madrid, to—*Barcelona*, 425; *Bordeaux*, 538; *Boulogne*, 1,059; *Cadiz*, 439; *Carthagena*, 326; *Gibraltar*, 456; *Malaga*, 383; *Marseilles*, 765; *Moscow*, 2,764; *Oporto*, 381; *Saragossa*, 212; *Valencia*, 304.

Paris, to—*Amiens*, 81; *Antwerp*, 219; *Bordeaux*, 363; *Boulogne*, 158; *Bremen*, 511; *Brest*, 387; *Brindisi*, 1,169; *Calais*, 185; *Chateau-Thierry*, 59; *Cherbourg*, 230; *Cologne*, 304; *Dijon*, 196; *Dover*, 204; *Frankfurt*, 424; *Geneva*, 390; *Genoa*, 591; *Hamburg*, 582; *Havre*, 142; *Kiel*, 652; *Leipsic*, 647; *Lille*, 156; *Lyons*, 318; *Marseilles*, 536; *Metz*, 244; *Milan*, 557; *Moscow*, 1,863; *Munich*, 571; *Nancy*, 219; *Naples*, 1,056; *Orleans*, 78; *Port Said*, 2,251; *Rheims*, 97; *Rouen*, 86; *St. Nazaire*, 286; *Saumur*, 183; *Strassburg*, 312; *The Hague*, 296; *Toulon*, 578; *Turin*, 488; *Versailles*, 11.

Leningrad, to—*Fusan* (Chosen), 7,723; *Helsingfors*, 272; *Moscow*, 400; *Mukden* (China), 6,971; *Odessa*, 1,205; *Peking* (China), 6,249; *Port Arthur* (Manchuria), 5,930; *Riga*, 365; *Sebastopol*, 1,355; *Vladivostok*, 5,809; *Warsaw*, 694; *Vilna*, 436.

Rome, to—*Brindisi*, 394; *Florence*, 196; *Genoa*, 310; *Lausanne*, 640; *Marseilles*, 565; *Milan*, 404; *Moscow*, 2,023; *Naples*, 155; *Pisa*, 207; *Spezia*, 254; *Turin*, 413; *Venice*, 378.

Stockholm, to—*Gothenburg*, 284; *Haparanda* (Sweden), 839; *Helsingfors*, 270; *Kiel*, 556; *Malmo*, 384; *Moscow*, 942; *Trondhjem*, 530.

Vienna, to—*Antwerp*, 766; *Belgrade*, 386; *Bucharest*, 236; *Budapest*, 173; *Cologne*, 600; *Genoa*, 657; *Moscow*, 1,246; *Munich*, 290; *Southampton*, 1,223; *Strassburg*, 549; *Trieste*, 366; *Venice*, 399; *Warsaw*, 434; *Vilna*, 692.

DISTANCES FROM EUROPEAN PORTS TO PORTS IN OTHER CONTINENTS.

(Including, also, certain places in Europe; statute miles; water routes; data by U. S. Hydrographic Office.)

Antwerp, Belgium, to—*Aden*, Arabia (via Suez), 5,424; *Panama*, 5,586; *Pernambuco*, Brazil, 4,815.

Brest, France, to—*Colon*, C. Z., 5,090; *Guantanamo Bay*, Cuba, 4,366; *Rio de Janeiro*, Brazil, 5,575.

Cherbourg, France, to—*Dover*, England, 168; *Kiel*, Germany, via Dover, 1,070; *Southampton*, England, 97.

Gibraltar, to—*Aden*, 3,824; *Alexandria*, 2,084; *Algiers*, 489; *Barcelona*, 594; *Colon*, 4,989; *Constantinople*, 2,099; *Fayal*, Azores, 1,305; *Hongkong* (via Suez), 9,683; *Leghorn*, 1,008; *Manila* (via Suez), 9,641, (via Panama), 15,802; *Marseilles*, 798; *Naples*, 1,131; *Odessa*, 2,499; *Panama*, 5,038; *Port Said*, Egypt, 2,217; *Punta Arenas*, 7,350; *Smyrna*, Asia Minor, 1,925; *Sydney*, Australia (via Suez), 11,788, (via Panama), 14,013; *Toulon*, France, 812; *Trieste*, 1,950; *Tripoli*, 1,287; *Yokohama* (via Suez), 11,353.

Liverpool, to—*Cape Town*, 7,001; *Colombo*, Ceylon (via Suez), 7,700; *Disko* (Godhavn), Greenland, 2,461; *Funchal*, Madeira, 1,644; *Gibraltar*, 1,490; *Ivigtut*, Greenland, 1,867; *Kinchow*, China (via Suez), 12,580; *Las Palmas*, Canary Is., 1,912; *Manila* (via Suez), 11,111; *St. Thomas*, W. I., 4,116; *Shanghai* (via Suez), 12,201; *Tientsin* (via Suez), 12,992.

London, to—*Calcutta* (via Suez), 9,183; *Cape Town*, So. Africa, 7,069; *Foochow*, China (via Suez), 11,643; *Hongkong*, China (via Suez), 11,227; *Manila* (via Suez), 11,119; *Paramarimbo*, Guiana, 4,623; *Pernambuco*, Brazil, 4,763; *Singapore*, Straits Settlement (via Suez), 9,555; *Sydney*, Australia (via Suez), 13,362; *Tampico*, Mexico. 5.918.

Yokohama, to—*Chemulpo*, 1,190; *Hakodate*, 613; *Tientsin*, 1,687.

DISTANCES IN THE PHILIPPINES.

(Statute miles; data by U. S. War Dept.)

Manila (Luzon Is.), to—*Aparri* (Luzon Is.), 441; *Bacolod* (Negros Is.), 395; *Balanga* (Luzon Is.), 30; *Batangas* (Luzon Is.), 70; *Bautista* (Luzon Is.), 101; *Calamba* (Luzon Is.), 35; *Candon* (Luzon Is.), 207; *Catbalogan* (Samar Is.), 397; *Cebu* (Cebu Is.), 451; *Dagupan* (Luzon Is.), 122; *Iba* (Luzon Is.), 117; *Iloilo* (Panay Is.), 391; *Jolo* (Sulu Archipelago), 769; *Laoag* (Luzon Is.), 281; *Legaspi* (Luzon Is.), 411; *Lucena* (Luzon Is.), 87; *Nueva Caceres* (Luzon Is.), 543; *San Fernando* (Luzon Is.), 167; *Santa Cruz* (Luzon Is.), 61; *Tacloban* (Leyte Is.), 429; *Vigan* (Luzon Is.), 161; *Zamboanga* (Mindanao Is.), 671.

Aparri, to—*Dagupan*, 282; *San Fernando*, 221; *Vigan*, 161.

Bacolod, to—*Iloilo*, 28.

Batangas, to—*Cebu*, 356; *Iloilo*, 306; *Jolo*, 684; *Nueva Caceres*, 439; *Tacloban*, 337; *Zamboanga*, 586.

Bautista, to—*Dagupan*, 21.

Candon, to—*Vigan*, 24.

Catbalogan, to—*Cebu*, 145; *Iloilo*, 184; *Jolo*, 532; *Tacloban*, 48; *Zamboanga*, 434.

Cebu, to—*Jolo*, 397; *Iloilo*, 201; *Legaspi*, 236; *Nueva Caceres*, 66; *San Fernando*, 17; *Tacloban*, 171; *Zamboanga*, 290.

Dagupan, to—*Candon*, 98; *San Fernando*, 45; *Santa Cruz*, 71; *Vigan*, 116.

Iba, to—*Santa Cruz*, 39.

Iloilo, to—*Bacolod*, 28; *Jolo*, 378; *Legaspi*, 260; *Tacloban*, 210; *Zamboanga*, 280.

Jolo, to—*Zamboanga*, 98.

Laoag, to—*Vigan*, 53.

Legaspi, to—*Nueva Caceres*, 178.

Lucena, to—*Nueva Caceres*, 414; *Santa Cruz*, 78; *Tacloban*, 304; *Zamboanga*, 493.

Nueva Caceres, to—*Legaspi*, 178; *San Fernando*, 4.

San Fernando, to—*Vigan*, 63.

Tacloban, to—*Zamboanga*, 441.

Vigan, to—*Santa Cruz*, 42.

HAWAIIAN DISTANCES (STATUTE MILES).

Honolulu, to—*Guam Is.*, 3,842; *Hanapepe Bay*, 131; *Hilo*, 263; *Kahuku*, 71; *Kahului*, 112; *Kalaupapa*, 59; *Kamehameha* (Fort), 9; *Kaunakakai*, 60; *Kawaihae*, 175; *Lahaina*, 86; *Laupehoehoe*, 239; *McGregor's Landing*, 102; *Mahukona*, 186; *Makena*, 114; *Manila*, via San Bernardino Strait, 5,475; *Nawiliwili*, 109; *Pago Pago*, Samoa, 2,606; *Pearl Harbor*, 6; *Ruger* (Fort), 6; *San Francisco*, 2,418; *Schofield Barracks*, 27; *Waianae*, 33; *Waimanalo*, 14; *Waipahu*, 14; *Yokohama*, 3,915.

DISTANCES IN JAPAN (STATUTE MILES).

Nagasaki, to—*Omuta*, 123; *Shimonoseki*, 166.

Tokio, to—*Kobe*, 377; *Kokura*, 715; *Nagasaki*, 819; *Nikko*, 91; *Yokohama*, 18.

DISTANCES IN CHINA (STATUTE MILES).

Harbin, to—*Dalny*, 584; *Mukden*, 339; *Port Arthur*, 603; *Vladivostok*, 483.

Mukden, to—*Fusan* (Chosen), 752.

Pekin, to—*Chingwankiao*, 252; *Hankow*, 754; *Mukden*, 524; *Taku*, 117; *Tientsin*, 87.

Shanghai, to—*Hankow*, 596; *Nanking*, 193.

Tientsin, to—*Chingwangtao*, 167; *Kaiping*, 87; *Leichwang*, 105; *Linsi*, 97; *Mukden*, 435; *Peitaiho*, 154; *Shanghai*, 825; *Tangku*, 27; *Tongshan*, 81; *Wait*, 91.

FROM ASIATIC PORTS TO PORTS OUTSIDE THAT CONTINENT (STATUTE MILES.)

Aden, to—*Gibraltar*, 3,824; *Jibuti* (Africa), 153; *Melbourne*, 7,473; *Port Said*, 1,608; *Suez*, 1,509; *Wellington*, 9,073; *Zanzibar*, 2,038.

Amoy, to—*Honolulu*, 5,281.

Batavia, to—*Honolulu*, 6,833.

Bombay, to—*Cape Town*, 5,469; *Zanzibar*, 2,935.

Calcutta, to—*Marseilles* (via Suez), 7,156; *Port Said* (via Suez), 5,402.

Canton, to—*Caroline Is.*, 2,907; *Honolulu*, 5,689.

Chefoo, to—*Honolulu*, 5,162.

Colombo, to—*Liverpool* (via Suez), 7,709; *Naples* (via Suez), 5,313; *Port Said* (via Suez), 4,010; *Suez*, 3,908.

Foochow, to—*London* (via Suez), 11,643.

Hobart, Tasmania, to—*Melbourne*, 544.

Hongkong, to—*Gibraltar* (via Suez), 9,991; *Hamburg* (via Panama), 16,776; *Honolulu*, 5,593; *Liverpool* (via Magellan), 20,074; *London* (via Suez), 11,227.

Manila, to—*Bremen* (via Suez), 11,464; *Liverpool* (via Suez), 11,111; *London* (via Suez), 11,119; *Melbourne*, 5,214; *Port Darwin*, 2,112; *Sydney*, 4,568.

Nagasaki, to—*Dutch Harbor*, Alaska, 3,661.

Petropavlovsk, to—*Kiska Is.*, Alaska, 834.

Shanghai, to—*Liverpool* (via Panama), 15,668; *New Orleans* (via Panama), 12,046.

Singapore, to—*Liverpool* (via Suez), 9,503.

Smyrna, Asia Minor, to—*Athens*, 251; *Genoa*, 1,284; *Gibraltar*, 1,925.

Tientsin, to—*Liverpool* (via Suez), 12,786.

Vladivostok, to—*Liverpool* (via Suez), 12,992.

PANAMA CANAL DISTANCES.

The following figures show, in statute miles, the distances from the nearest end of the Panama Canal to chief ports of the world. From Colon, at the Gulf end, to Panama Roads, at the Pacific end, is 50 miles. Data by U. S. Hydrographic Office.

COLON TO GULF AND ATLANTIC PORTS.

Baltimore, 2,189; *Bordeaux*, 5,295; *Boston*, 2,484; *Brunswick*, Ga., 1,785; *Buenos Ayres*, 6,276; *Campeche*, 1,344; *Charleston*, S. C., 1,801 *Galveston*, 1,719; *Gibraltar*, 4,989; *Glasgow*, 5,208; *Guantanamo Bay*, 801; *Havana*, 1,155; *Halifax*, 2,668; *Hamburg*, 5,838; *Hampton Roads* 2,036; *Havre*, 5,313; *Jacksonville*, 1,768; *Key West*, 1,226; *Kingston*, Jamaica, 634; *Liverpool*, 5,237; *Manzanillo*, Cuba, 793; *Maracaibo*, Venez., 691; *Mobile*, 1,604; *Montevideo*, 6,144; *Nassau*, N. P., 1,585; *New Orleans*, 1,616; *New York*, 2,273; *Norfolk*, 2,049; *Para*, 2,659; *Pensacola*, 1,576; *Pernambuco*, 3,774; *Philadelphia*, 2,241; *Plymouth*, England, 5,130; *Ponce*, P. R., 1,074; *Port Arthur*, Tex., 1,710; *Port Limon*, 221; *Port of Spain*, Trinidad, 1,335; *Port Tampa*, 1,396; *Portsmouth*, N. H., 2,504; *Puerto Barrios*, Guatemala, 828; *Puerto Cabello*, Venez., 944; *Puerto Cortes*, Hond., 844; *Rio de Janeiro*, 5,008; *Sabine*, Tex., 1,700; *St. Thomas*, W. I., 1,185; *San Juan*, P. R., 1,143; *Santiago*, Cuba, 786; *Tampico*, 1,710; *Trinidad*, 1,315; *Tuxpam*, Mex., 1,676; *Vera Cruz*, 1,635; *Willemsted*, Curacao, 803; *Wilmington*, N. C., 1,992.

PANAMA ROADS TO PACIFIC PORTS.

Acajutla, Salvador, 959; *Acapulco*, Mex., 1,642; *Amalpa*, Honduras, 858; *Apia*, Samoa, 6,575; *Arica*, Chili. 2,212; *Auckland*, 7,499; *Bombay*, 14,921; *Calcutta*, 13,989; *Callao*, 1,550; *Cape Engano*, Luzon, 10,324; *Colombo*, 13,919; *Guam*, 9,199; *Guayaquil*, 913; *Hongkong*, 10,588; *Honolulu*, 5,395; *Iquique*, 2,288; *Los Angeles*, 3,354; *Magdalena Bay*, 2,608; *Manila*, 10,764; *Melbourne*, 9,130; *Port Townsend*, Wash., 4,589; *Portland*, Ore., 4,455; *Punta Arenas*, Chili, 4,541; *Seattle*, 4,630; *Salina Cruz*, Mex., 1,347; *San Diego*, 3,274; *San Francisco*, 3,737; *Shanghai*, 9,853; *Singapore*, 12,097; *Sydney*, 8,837; *Tacoma*, 4,653; *Valparaiso*, 3,013; *Vancouver*, 4,643; *Vladivostok*, 9,020; *Wellington*, 7,491; *Yokohama*, 8,846.

GREAT OCEAN STEAMSHIPS.

(This list is compiled from Lloyd's 1924-'25 Register of Shipping.)

NOTE—Length between perpendiculars means the length from the stem to the fore part of the rudder post. Except for the very largest ships, this is the length that gives the best basis of comparison.

The Leviathan's length-over-all is 950 feet 7 inches; her length under water is 927 feet 6 inches; normal horsepower, 66,000; maximum horsepower, 100,000; quadruple screw; turbine engines.

She was originally built as the German S. S. Vaterland, and commissioned in 1914; used as U. S. troop ship in World War; reconditioned at cost of $8,500,000, and put into American service in 1923.

She is an oil burner.

Other countries (1923) include: Belgium, 5 (1,102 tons); Spain, 7 (4,488 tons); total excludes Austria-Hungary.

The figures do not include in any of the years, either warships or vessels under 100 tons gross, and cover only vessels actually launched.

The total launches in 1923 include thirty-six vessels of about 304,000 tons with steam turbines.

FAST OCEAN AND AIR PASSAGES.

Sailing Ships—Columbus, in 1492, sailed from Spain (Palos) to the Gulf of Mexico in thirty-seven days.

The American-built clipper, the Lightning, of the Black Ball (British) Australian Line, on March 1, 1854, sailed 435 nautical miles, on way from Boston to Liverpool, on her maiden voyage. A gale was blowing and the ship's log showed a speed as high as 18½ miles an hour. The same vessel, on March 19, 1857, sailed 430 nautical miles, on way from Liverpool to Melbourne, Australia. The clipper Donald McKay, Black Ball Line, on Feb. 27, 1855, sailed 421 nautical miles on maiden voyage from Boston to Liverpool.

The fastest day's record on a sailing ship on any sea—437 miles—was made by the Sovereign of the Seas, on a passage from New York to San Francisco. The Flying Cloud made 433½ miles in one day, New York to San Francisco.

THE CLIPPER SHIPS.

The quickest passage of a clipper ship across the Atlantic was made, it is asserted in maritime circles, by the Dreadnaught, which cleared from New York on June 15, 1859, and arrived off Cape Clear, Ireland, on June 27—12 days. The clipper Red Jacket, built at Rockland, Me., sailed from Sandy Hook, N. Y., to Liverpool in 13 days 1 hour 25 minutes. The Dreadnaught once went from New York to Liverpool in 13 days 8 hours. She was built in 1853 at Newburyport, Mass. She was 217 feet long, 40 feet wide, 26 feet deep, 1,443 gross tons. She was lost July 4, 1869, on Cape Penas, northeast of Terra del Fuego, South America, on the way from Liverpool to San Francisco.

The sailing ship Northern Light went from San Francisco to Boston, via Cape Horn, in 76 days and 8 hours. The Andrew Jackson sailed from New York to San Francisco in 80 days and 4 hours. The Dreadnaught went from Honolulu to New Bedford, Mass., 13,470 miles, in 82 days. The Sovereign of the Seas sailed from Honolulu to New York in 88 days. The Natchez sailed from Canton, China, to New York in 76 days. The Trade Wind, in 1853, sailed from San Francisco to New York in 75 days. The Lightning, in 1854, sailed from Australia to Liverpool in 64 days. The bark Dawn of New York sailed from Buenos Ayres to New York in 36 days. The Nabob, of Boston, went from New York to Rangoon (Burmah), India, in 75 days. The Flying Dutchman in 1852-3 made a round trip, New York to San Francisco and return (27,220 miles), in 201 days. On the way home she sailed from San Francisco to Cape Horn in 35 days.

STEAMSHIP RECORDS.

Steamships—The first steamship to cross the Atlantic was the Savannah, 350 tons, built at New York City, which left Savannah, Ga., on May 24, 1819, and reached Liverpool in 26 days, during eighteen of which she used her side-paddles. The Great Western, on her maiden voyage, from Bristol England, to New York, covered the distance in April, 1838, in 15 days. The Sirius, in April, 1838, went from England to New York in 18½ days. The Britannia, first Cunard liner, in July, 1840, came from Liverpool to New York in 14 days 8 hours. The Great Western's best record across the ocean was 10 days 10 hours 15 minutes. In May, 1851, the Pacific reduced the Atlantic record to 9 days 19 hours 25 minutes. The Persia, in 1856, did it in 9 days 1 hour 45 minutes; the Scotia, in 1866, in 8 days 2 hours 48 minutes; the City of Brussels, in 1869, in 7 days 22 hours 3 minutes; the Baltic, in 1873, in 7 days 20 hours 9 minutes; the City of Berlin, in 1875, in 7 days 15 hours 48 minutes; the Arizona, in 1880, in 7 days 7 hours 23 minutes; the Alaska, in 1882, in 6 days 18 hours 37 minutes; the Etruria, in 1888, in 6 days 1 hour 55 minutes; the Majestic, in 1891, in 5 days 18 hours 8 minutes; the Lucania, in 1894, in 5 days 7 hours 23 minutes; the Lusitania, in 1908, in 4 days 15 hours; the Mauretania, in 1910, in 4 days 10 hours 41 minutes, at the rate of 26.06 knots an hour. The foregoing records, since and including 1856, are between New York and Queenstown.

LEVIATHAN'S QUICK TRIP.

The Leviathan, June 22, 1923, on a trial 25-hour run from Jupiter Inlet Light, Florida, to a point off Cape Henry, Virginia, made 687 nautical miles at an average rate of 27.07 knots an hour; and reached an average speed of 28.04 knots an hour for 75.7 miles.

The Mauretania, in 1924, went from Cherbourg to New York—3,157 miles—in 5 days 3 hours 20 minutes, at the rate of 25.60 knots an hour. Her best day's run was 642 knots.

The Mauretania, in August, 1924, went from New York to Cherbourg, 3,098 miles, in 5 days 1 hour 49 minutes, at an average speed of 26.25 knots an hour.

The Mauretania, in September, 1924, went from New York to Plymouth in 4 days 21 hours 57 minutes.

The best run from New York to Havre was made by the France, of the French Line, in 5 days 17 hours.

The day's run record—676 knots (27.04 an hour)—was made by the Mauretania, in January, 1911.

The Olympic, in July, 1922, made 27.81 knots an hour for several hours.

The quickest run from New York to San Francisco, via Straits of Magellan, was made by the Santa Catalina, an oil burner, in 1914, in 45 days 21 hours 50 minutes.

PACIFIC RECORDS.

The following log of the voyage of the Santa Catalina is compiled from the records of the owners of the ship, W. R. Grace & Co., of New York.

Steamship *Santa Catalina*—Sailed from New York April 13th, 1914, at 7 A. M., arriving at San Pedro May 27th, 9.40 P. M., with a total steaming time of 44 days 14 hours and 40 minutes, and covering a total mileage of 12,649 miles, thus giving an average of 11.8 nautical miles per hour. She left San Pedro May 29th, at 12.25 P. M., arriving in San Francisco May 30th, at 7.35 P. M., steaming time being 1 day 7 hours and 10 minutes. The total time from New York to San Francisco, via San Pedro, being 45 days 21 hours and 50 minutes, covering a total distance of 12,929 miles, or an average of 11.8 miles per hour.

FAST RUN BY U. S. CRUISER OMAHA.

The light cruiser Omaha, of the U. S. Navy, in 1923 (May 8-11), steamed from Diamond Head, Oahu, Hawaii, to the San Francisco Light Vessel, a distance of 2,091 miles, in 3 days 3 hours 40 minutes 40 seconds.

The average speed on the voyage was 27.76 miles an hour.

The maximum day's run for 24 hours was 690 miles, or an average of 28.75 miles an hour.

The elapsed time of the passage was taken from the "A" chronometer of the Omaha vessel with allowance made for daily rate. Computation of maximum day's run was made by celestial observations. These included sights of sun, both A. M. and P. M., with observation of stars at A. M. and P. M. twilight.

DESTROYERS AND MOTOR BOATS.

The U. S. destroyer Cole made 43.75 miles an hour on her trial sea trip. The motor boat Miss America, in 1920, on Lake George, N. Y., went at the rate of 77.85 miles an hour; the motor boat Maple Leaf VII. (August, 1921) made 80 miles an hour on the Solent, England.

The U. S. scout cruiser Milwaukee made 41.4 miles an hour in her trial trip, 1923, off Puget Sound.

FASTEST TRIPS AROUND THE WORLD.

1889, by Nellie Bly, 72 days 6 hours 11 minutes; 1903, by Henry Frederick, 54 days 7 hours 2 minutes; 1911, by Andre Jaeger-Schmidt, 39 days 19 hours 42 minutes 38 seconds; 1913, by John H. Mears, 35 days 21 hours 36 minutes.

NOTED AIR FLIGHTS.

For particulars of the flight of the U. S. Army planes around the world in 1924 see Aviation.

The U. S. Army (Fokker) monoplane T-2 flew without a stop, May 2-3, 1923, from Roosevelt Field, Mineola, N. Y., to Rockwell Field, San Diego, Cal. (2,520 miles), in 26 hours 50 minutes 38 2-5 seconds.

The U. S. naval seaplane NC-4 (Read), in 1919 (May 16-27), flew from Trepassy, British North America, via the Azores, to Lisbon, Portugal, 2,150 miles, in 26 hours 45 minutes, actual flying time.

A British biplane (Alcock-Brown), in 1919 (June 14-15), flew from St. John's, N. F., to Clifden, Ireland, 1,960 miles, in 16 hours 12 minutes.

The British dirigible balloon R-34 (Scott), in 1919 (July), flew from East Fortune, Scotland, to Mineola, N. Y., 3,130 miles, in 108 hours 12 minutes, and returned from Mineola to Pulham, England, 3,200 miles, in 74 hours 56 minutes.

A hydroplane flew in 1922 from Portugal to Brazil.

RAILROAD TRAIN SPEED.

On Friday, July 6, 1923, a special train on the New Haven system (carrying photographs of the Dempsey-Gibbons boxing match at Shelby, Mont.) went from New York to Boston, 234 miles, in 4 hours and 5 minutes.

NOTABLE FAST RUNS OF PASSENGER TRAINS FOR LONG DISTANCES.

The fastest time on record for a distance of over 440 miles was made by the Lake Shore & Michigan Southern R. R. from Buffalo to Chicago in June, 1905. noted above. The fastest long distance run less than 440 miles was on the New York Central R. R., September 11, 1895, from New York to Buffalo, 436½ miles, in 407 minutes actual time. Average speed, 64¼ miles an hour, with two stops and 28 slow-ups, and on January 1, 1903, from Albany to Buffalo, 302 miles, in 295 minutes.

On August 15, 1898, on P. & R. and C. R. R. of N. J., "Royal Blue Line," between Elizabeth, N. J. and Jenkintown, a distance of 69 miles, in 61 minutes, including 2 slow-ups, some of the miles being traversed in 38 seconds.

The Jarrett and Palmer special theatrical train, Jersey City to Oakland (San Francisco), 3,311 miles, May 31-June 4, 1876, 83 hours 45 minutes; average speed, 39.53 miles per hour.

In May, 1906, the "Harriman Special" made the run from Oakland, Cal., to New York City in 71 hours 27 minutes.

A special train of an engine and two cars, which was run in January, 1911, to carry J. P. Morgan from Washington to New York over the Pennsylvania Railroad, made the trip of 226.8 miles in 3 hours 55 minutes and 30 seconds, or at the rate of 57.8 miles an hour.

The record time between Los Angeles and Chicago, via the Sante Fe Lines, 2,230 miles, is 44 hours and 54 minutes (46 miles an hour) made by the "Scotty"-the-Miner special in July, 1905.

Mrs. Alfred H. Smith, wife of the President of the New York Central Lines, who was killed by a fall from his horse in Central Park, left Los Angeles on March 9, 1924, in a special train on the Sante Fe system and arrived at Chicago in 49 hours and 17 minutes. Another special train took her 961.5 miles to New York City in 19 hours 54 minutes. The cross-continent record run thus was made in 69 hours 11 minutes.

PRINCIPAL RIVERS OF THE UNITED STATES.

Total number of navigable streams in United States, 295, tributary as follows, the total navigable length in miles being in parentheses—Atlantic, 148 (5,365); Gulf, not including the Mississippi, 53 (5,212); Mississippi and branches, 54 (13,912); Canada, 2 (315); Pacific, 38 (1,606). Total navigable length, 26,410 miles.

The Hudson was one of the earliest rivers of the country to be improved by the Government. Work began even before 1822 by the State of New York, at which time the Erie and Champlain both emptied into the pool created by the State dam at Troy, finished about that year. Work by the United States began in 1834.

NAMES.	Sources.	Mouths.	Length Miles
Alabama	Junction of Coosa and Tallapoosa Rivers, Ala	Mobile River	350
Alleghany	Near Raymond, Pa	Ohio River	350
Altamaha	Ocmulgee and Oconee Rivers, Ga	Atlantic Ocean	150
Androscoggin	Umbagog Lake, Me	Kennebec River	160
Apalachicola	Chattahoochee and Flint Rivers, Ga	Gulf of Mexico	90
Arkansas	Rocky Mountains, Col	Mississippi River	2,000
Atchafalaya	Point Coupee Parish, La	Gulf of Mexico	200

Rjukan, Norway	780	Twin, Idaho	180		

The brink of Niagara Falls has moved 7 miles west in 30,000 years; the present rate of erosion is 2½ to 4 feet a year in the Horseshoe Falls. The force of the water tears away the brink quicker in the Canadian concave than in the straight front of the American Falls.

HEIGHT OF YOSEMITE WATERFALLS ABOVE SEA-LEVEL.

The height in feet above sea-level of the waterfalls in Yosemite Valley is as follows—Upper Yosemite, 6,525; Lower Yosemite, 4,420; Nevada, 5,907; Vernal, 5,044; Illilouette, 5,816; Bridalveil, 4,787; Ribbon, 7,008; Widow's Tears, 6,466.

Welland Ship Canal is under construction, and is not yet open for traffic.

The Queenstown-Chippawa Power Canal of the Ontario Hydroelectric Commission, total cost about $80,000,000 (of which $15,000,000 is yet to be spent), was opened Dec. 28, 1921, at Niagara Falls, Ont. Construction was begun in 1917; 275,000 horse-power generators are installed (Feb., 1923) and the horse-power is to be increased ultimately to 550,000. The canal is 12¾ miles long.

Of the total net tonnage in 1923 in the Suez Canal, 14,264,214 tons were British; 2,178,058 were Dutch; 1,294,400, French; 1,213,691, German; 986,283, Japanese; 614,128, American.

Passengers in 1923 numbered 246,331. Receipts in 1923 from freight were 171,961,613 francs; from passengers, 2,227,853 francs.

THE PANAMA CANAL.

(Opened for Navigation August 15, 1914. Gov., Col. Jay J. Morrow, U. S. Army. Balboa Heights.)

The Panama Canal was built between latitudes 8 and 9 N. across the Isthmus of Panama at its narrowest part but one. The saddle through which it crosses the continental divide was originally about 335 feet above sea level. Gold Hill, the highest point immediately alongside the channel of the Canal, rises 540 feet above sea level. The Canal has a length of 43.8 nautical miles from deep water in the Atlantic to deep water in the Pacific. The Canal extends at sea level from its starting point in Limon Bay to Gatun, 5.77 miles. At Gatun the sea level section ends in a flight of three pairs of locks, forming the steps to Gatun Lake, with its normal elevation 85 feet above the sea.

Gatun Lake was formed by damming the Chagres Valley, and excess water, wasted through the spillway, finds its way to sea through the old course of the Lower Chagres. The Canal proceeds up the valley of the Chagres 20.55 miles to Gamboa, and in this section relatively little excavation was required. At Gamboa begins the real drive through the divide, the famous Culebra Cut. It is 6.97 nautical miles long, 300 feet wide at bottom, and extends to Pedro Miguel lock and dam, on the Pacific slope of the divide. Here one lock lowers the ship to Miraflores Lake, a small body about a mile long, with its surface 55 feet above the sea. At the south end of this lake are Miraflores locks, which, in two steps, lower the ship to the Pacific. A sea level channel 7 miles long carried past Balboa and out into the Pacific.

The minimum depth of the channel is 41 feet, and in parts of Gatun Lake it is about 80 feet deep. The lock chambers have a clear width of 110 feet and length of 1,000 feet, giving ample handling room for the largest ship yet built. Gatun dam, by which Gatun Lake was formed, is a big, gently sloping mound, built by pumping sand and clay into the space between two ridges of rock and earth. It is 1¼ miles long and ½ mile wide at its base. Its crest is 105 feet above sea level and the width of the dam at the top is 100 feet.

The Panama Railroad extends between Colon and Panama on the eastern side of the Canal.

The Canal Zone is the strip of land extending five miles on either side of the axis of the Canal, but not including the cities of Panama and Colon, which remain within the Republic of Panama. It has an area of 441½ square miles, including land and water. It was granted to the United States by the treaty made with Panama, February 26, 1904. The United States paid $10,000,000 for the Zone, and makes an annual payment in addition of $250,000.

Three years ago, for purposes of accounting, a part of the total cost of constructing the Panama Canal was written off to national defense.

The total thus written off, which now stands at $112,618,082.12, was arrived at more or less arbitrarily, but it represents as nearly as may be the cost of features and additional facilities (not including fortifications) included in the design of the Canal for military or naval reasons, which might have been omitted if there had been none but commercial interests to serve.

This leaves as of June 30, 1924, a balance of $235,684,662.00 as the investment in the Canal proper (canal fixed property) and an additional sum of $4,017,642.46 invested in equipment (Canal transit equipment).

There is also $29,136,620.07 invested in auxiliary business enterprises other than those conducted with funds of the Panama Railroad Company.

In 1924 (fiscal year) the net income of the Panama Canal from tolls, taxes, license fees, fines and postal receipts was $16,307,948.50, and the net profit on auxiliary business operations was $901,624.12.

Fifteen vessels of a tonnage of 78,651, with 133,776 tons of cargo passed from the Pacific to the Atlantic May 2, 1924, paying $80,365 in tolls.

One-half of all the cargo passing through the Canal in 1924 was contributed by the United States intercoastal trade. The westbound cargo in this trade totalled 2,719,240 tons, and the east bound cargo, including California crude oil, 10,808,138 tons. Oil traffic declined, Jan-June, 1924.

After the United States intercoastal trade, the most important trade routes through the Canal are: West coast of North America and Europe, which contributed 11.5 per cent. of all cargo in transit: east coast of the United States and the west coast of South America, 10 per cent.; Europe and west coast of South America, 7.4 per cent.; the east coast of the United States and the Far East, 6.6 per cent.

All of the principal trade routes showed increases in the tonnage of cargo handled during the fiscal year 1924, with the exception of that between the east coast of the United States and the Far East, where there was a decline of 5.8 per cent.

NOTE TO THE ABOVE TABLE.

Brazil telegraph lines do not include 17,159 miles of rail wires and 11,267 miles of cables; Canada wires do not include 12,017 miles owned by Government; Egypt wires do not include Soudan; Italy wires do not include Eritrea and Libia; U. S. rail figures do not include Alaska and Hawaii.

Weights and Measures.

THE METRIC SYSTEM.

(Data by the Bureau of Standards, Department of Commerce.)

UNITS OF WEIGHT AND MEASURE.

The fundamental unit of the metric system is the meter, the unity of length. From this the units of capacity (liter) and of weight (gram) were derived. All other units are the decimal subdivisions or multiples of these. These three units are simply related, e. g., for all practical purposes 1 cubic decimeter equals 1 liter and 1 liter of water weighs 1 kilogram. The metric tables are formed by combining the words "meter," "gram," and "liter" with the six numerical prefixes, as in the following tables.

Prefixes. Meaning.		Units.	Prefixes. Meaning.		Units.
milli- = *one-thousandth*...	.001		deka- = *ten*.....	10	
centi- = *one-hundredth*...	.01	"meter" *for length*	hecto- = *one hundred*.....	100	"liter" *for capacity.*
deci- = *one-tenth*.....	.1	"gram" *for weight or mass.*	kilo- = *one thousand*....	1000	
.....*Unit* = *one*.....	1.				

METRIC CONVERSION.

Millimeters × .03937 = inches.
Millimeters ÷ 25.4 = inches.
Centimeters × .393 = inches.
Centimeters ÷ 2.54 = inches.
Meters × 39.37 = inches.
Meters × 3.28 = feet.
Meters × 1.094 = yards.
Kilometers × .621 = miles.
Kilometers ÷ 1.6093 = miles.
Kilometers × 3280.7 = feet.
Square millimeters × .00155 = square inches.
Square millimeters ÷ 645 = square inches.
Square centimeters × .155 = square inches.
Square centimeters ÷ 6.45 = square inches.
Square meters × 10.764 = square feet.
Square kilometers × 247.1 = acres.
Square kilometers × .3861 = square miles.
Hectares × 2.471 = acres.
Hectares × .003861 = square miles.
Cubic centimeters ÷ 16.387 = cubic inches.
Cubic centimeters ÷ 3.70 = fluid drams (U. S. P.).
Cubic centimeters ÷ 29.57 = fluid ounces (U. S. P.).
Cubic meters × 35.314 = cubic feet.
Cubic meters × 1.308 = cubic yards.
Cubic meters × 264.2 = gallons (231 cubic inches).
Litres × 61.023 = cubic inches.
Litres × 33.84 = fluid ounces (U. S. P.).
Litres × .2642 = gallons (231 cubic inches).
Litres ÷ 3.78 = gallons (231 cubic inches).
Litres ÷ 28.317 = cubic feet.
Hectoliters × 3.53 = cubic feet.
Hectoliters × 2.84 = bushels (2150.42 cubic inches).
Hectoliters × .131 = cubic yards.
Hectoliters ÷ 26.42 = gallons (231 cubic inches).
Grammes × 15.432 = grains.
Grammes (water) ÷ 29.57 = fluid ounces.
Grammes ÷ 28.35 = ounces avoirdupois.
Grammes per cubic centimeter ÷ 27.7 = pounds per cubic inch.

Joule × .7376 = foot pounds.
Kilograms × 2.2046 = pounds.
Kilograms × 35.3 = ounces avoirdupois.
Kilograms ÷ 907.18 = short tons (2,000 pounds).
Kilograms per square centimeter × 14.223 = pounds per square inch.
Kilogram meters × 7.233 = foot pounds.
Kilo per meter × .672 = pounds per foot.
Kilo per cubic meter × .62 = pounds per cubic foot.
Kilo per cheval × 2.235 = pounds per horse power.
Kilowatts × 1.34 = horse power (33,000 foot pounds per minute).
Watts ÷ 746 = horse power.
1 Watt = .00134 horse power = 44.3 foot pounds per minute.
Calories × 3.968 = B. T. U. (British Thermal Unit).
Cheval vapeur × 0.986 = horse power.
Centigrade × 1.8 + 32 = degrees Fahrenheit.
Gravity Paris = 980.94 centimeters per second.

NOTE.—*Joule:* C. G. S. unit of both mechanical and electrical energy. Equivalent to work done or heat generated in keeping up for one second a current of one ampere against a resistance of one ohm, or in raising the potential of one coulomb by one volt. Equal to 10,000,000 ergs or .738324 foot pound.

Calory: One of two recognized units of heat, of which the greater calory is amount of heat necessary to raise one kilogram of water 1° C.; the lesser or small calory being the amount of heat necessary to raise one gram of water 1° C.

Foot pound, horse power, and cheval or cheval vapeur, as generally defined, vary from place to place by ½% because of variations in the intensity of gravity. The relations given here are for the international standard gravity, which gives an acceleration of 980.665 c m per second.

Units of Length.

Fundamental Units—A meter (m) is a unit of length equivalent to the distance between the defining lines of the international prototype meter at the International Bureau of Weights and Measures when this standard is at the temperature of melting ice (0° C).

A yard (yd.) is a unit of length equivalent to 3600-3937 of a meter.

Multiples and submultiples:

1 kilometer = 1000 meters.
1 hectometer = 100 meters.
1 dekameter = 10 meters.
1 decimeter = 0.1 meter.
1 centimeter = 0.01 meter.
1 millimeter = 0.001 meter = 0.1 centimeter.
1 micron = 0.000001 meter = 0.001 millimeter.

1 millimicron = 0.000000001 meter = 0.001 micron.
1 foot = 1-3 yard = 1200-3937 meter.
1 inch = 1-36 yard = 1-12 foot = 100-3937 meter.
1 link = 0.22 yard = 7.92 inches.
1 rod = 5½ yards = 16½ feet.
1 chain = 22 yards = 100 links = 66 feet = 4 rods.
1 furlong = 220 yards = 40 rods = 10 chains.
1 statute mile = 1760 yards = 5280 feet = 320 rods.
1 hand = 4 inches.
1 point = 1-72 inch.
1 mil = 0.001 inch.
1 fathom = 6 feet.
1 span = 9 inches = 1-8 fathom.
1 nautical mile } = United States = 6080.20 feet.
1 sea mile } = 1.151553 statute miles
1 geographical mile } = 1853.249 meters.

Units of Area.

Fundamental Units:

A square meter is a unit of area equivalent to the area of a square the sides of which are 1 meter.

A square yard is a unit of area equivalent to the area of a square the sides of which are 1 yard.

Multiples and Submultiples:

1 square kilometer = 1,000,000 square meters.
1 hectare or square hectometer = 10,000 square meters.
1 are or square dekameter = 100 square meters.
1 centare = 1 square meter.
1 square decimeter = 0.01 square meter.
1 square centimeter = 0.0001 square meter.

1 square millimeter = 0.000001 square meter = 0.01 square centimeter.
1 square foot = 1-9 square yard.
1 square inch = 1-1296 square yard = 1-144 square foot.
1 square link = 0.0484 square yard = 62.7264 square inches.
1 square rod = 30.25 square yards = 272.25 square feet = 625 square links.
1 square chain = 484 square yards = 16 square rods = 100,000 square links.
1 acre = 4840 square yards = 160 square rods = 10 square chains.
1 square mile = 3,097,600 square yards = 640 acres = 259,000 hectares.

Units of Volume.

Fundamental Units:

A cubic meter is a unit of volume equivalent to a cube the edges of which are 1 meter.

A cubic yard is a unit of volume equivalent to a cube the edges of which are 1 yard.

Multiples and Submultiples:

1 cubic kilometer = 1,000,000,000 cubic meters.
1 cubic hectometer = 1,000,000 cubic meters.
1 cubic dekameter = 1,000 cubic meters.
1 stere = 1 cubic meter.
1 cubic decimeter = 0.001 cubic meter.
1 cubic centimeter = 0.000001 cubic meter = 0.001 cubic decimeter.
1 cubic millimeter = 0.000000001 cubic meter = 0.001 cubic centimeter.
1 cubic foot = 1-27 cubic yard.
1 cubic inch = 1-46656 cubic yard = 1-1728 cubic foot.
1 board foot = 144 cubic inches = 1-12 cubic foot.
1 cord = 128 cubic feet.

Units of Capacity.

Fundamental Units:

A liter is a unit of capacity equivalent to the volume occupied by the mass of 1 kilogram of pure water at its maximum density (at a temperature of 4° C, practically) and under the standard atmospheric pressure (of 760 mm). It is equivalent in volume to 1.000027 cubic decimeters.

A gallon is a unit of capacity equivalent to the volume of 231 cubic inches.

A bushel is a unit of capacity equivalent to the volume of 2150.42 cubic inches.

Multiples and Submultiples:

1 hectoliter = 100 liters.
1 dekaliter = 10 liters.
1 deciliter = 0.1 liter.
1 centiliter = 0.01 liter.
1 milliliter = 0.001 liter = 1.000027 cubic centimeters.
1 liquid quart = 1-4 gallon = 57.75 cubic inches.
1 liquid pint = 1-8 gallon = 1-2 liquid quart = 28.875 cubic inches.
1 gill = 1-32 gallon = 1-4 liquid pint = 7.21875 cubic inches.
1 fluid ounce = 1-128 gallon = 1-16 liquid pint.
1 fluid dram = 1-8 fluid ounce = 1-128 liquid pint.
1 minim = 1-60 fluid dram = 1-480 fluid ounce.
1 firkin = 9 gallons.
1 peck = 1-4 bushel = 537.605 cubic inches.
1 dry quart = 1-32 bushel = 1-8 peck = 67.200625 cubic inches.
1 dry pint = 1-64 bushel = 1-2 dry quart = 33.600-3125 cubic inches.
1 barrel (for fruit, vegetables and other dry commodities) = 7056 cubic inches = 105 dry quarts.

Units of Mass.

Fundamental Units:

A kilogram is a unit of mass equivalent to the mass of the international prototype kilogram at the International Bureau of Weights and Measures.

An avoirdupois pound is a unit of mass equivalent to 0.4535924277 kilogram.

A gram is a unit of mass equivalent to one-thousandth of the mass of the international prototype kilogram.

A troy pound is a unit of mass equivalent to 5760-7000 of that of the avoirdupois pound.

Multiples and Submultiples:

1 metric ton = 1000 kilograms.
1 hectogram = 100 grams = 0.1 kilogram.
1 dekagram = 10 grams = 0.01 kilogram.
1 decigram = 0.1 gram.
1 centigram = 0.01 gram.
1 milligram = 0.001 gram.
1 avoirdupois ounce = 1-16 avoirdupois pound.
1 avoirdupois dram = 1-256 avoirdupois pound = 1-16 avoirdupois ounce.
1 grain = 1-7000 avoirdupois pound = 10-4375 avoirdupois ounce = 1-5760 troy pound.
1 apothecaries' pound = 1 troy pound = 5760-7000 avoirdupois pound.
1 apothecaries' or troy ounce = 1-12 troy pound = 480-7000 avoirdupois pound = 480 grains.
1 apothecaries' dram = 1-96 apothecaries' pound = 1-8 apothecaries' ounce = 60 grains.
1 pennyweight = 1-20 troy ounce = 24 grains.
1 apothecaries' scruple = 1-3 apothecaries' dram = 20 grains.
1 metric carat = 200 milligrams = 0.2 gram.
1 short hundredweight = 100 avoirdupois pounds.
1 long hundredweight = 112 avoirdupois pounds.
1 short ton = 2000 avoirdupois pounds.
1 long ton = 2240 avoirdupois pounds.

One square mile equals 2.59 square kilometers. One square kilometer equals 0.3861 square miles.

ELECTRICAL UNITS.

The watt is the unit expressing electrical power as horsepower (hp) represents power in mechanics, it is equal to the product of the volts (pressure) times amperes (rate of flow). Thus, 2 volts times 2 amperes would give in a direct current circuit 4 watts Electrical energy is sold at so much per watt hour or more generally at a given amount per kilowatt hour—which means 1,000 watt hours. This may represent 1 watt for 1,000 hours or 1,000 watts for 1 hour. 746 watts are equal to one horsepower or inversely 1 kilowatt (kw) is equal to about 1½ horsepower.

The horsepower represents the power required to lift a weight of 33,000 pounds 1 foot in 1 minute or 550 pounds 1 foot in 1 second.

The ohm is the unit of electrical resistance and represents the physical property of a conductor which offers a resistance to the flow of electricity, permitting just 1 ampere to flow at 1 volt of pressure. For example, 1,000 feet of copper wire of No. 10 B. and S. gauge has just 1 ohm of resistance and allows the flow of 1 ampere at 1 volt.

UNITED STATES WEIGHTS AND MEASURES.

Apothecaries' Weight: 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

Avoirdupois Weight (short ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton.

Avoirdupois Weight (long ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

Troy Weight: 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.

Circular Measure: 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

Cubic Measure: 1,728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.

Dry Measure: 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

Liquid Measure: 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 31½ gallons = 1 barrel; 2 barrels = 1 hogshead.

Long Measure: 12 inches = 1 foot; 3 feet = 1 yard; 5½ yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile (1,760 yards or 5,280 feet); 3 miles = 1 league.

Mariners' Measure: 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7½ cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.

Paper Measure: 24 sheets = 1 quire; 20 quires = 1 ream (480 sheets); 2 reams = 1 bundle; 5 bundles = 1 bale.

Square Measure: 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30¼ square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

Time Measure: 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

The Anglo Saxon acre was one furlong long and one chain wide.

175 troy pounds equal 144 avoirdupois pounds; 175 troy ounces equal 192 avoirdupois ounces.

KNOTS AND MILES.

The **U. S. and British Statute Mile** is 5,280 feet. The **British Admiralty Knot** or **Nautical Mile** is 6,080 feet. The **Statute Knot** is 6,082.66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360x60) 21,600 knots to the circumference. 21,600 divided into 131,385,456—the number of feet in the earth's circumference—gives 6,080.20 feet—the length of a standard knot or mile.

A **Knot** = 1.152 statute miles; a **Fathom** = 6 feet; a **Cable** = 606.97 feet.

The **Norwegian Mile** equals more than seven English or American miles, the exact relation being 7.021. The **Swedish Mile** is equivalent to 6.64 American miles; the **Austrian**, to 4.71 American miles; the **Danish**, to 4.68; the **German** (geographic), to 4.61; the **Dutch**, to 3.46; the **Swiss**, to 2.99; the **Russian**, to 0.66; the **French** kilometre, to 0.62.

STANDARD NEWSPAPER MEASURES.

Type is measured by the number of "points" in the height of the face thereof. A "point" is approximately one-seventy-second of an inch (actually .01383 inch). There are 996 "points" in 35 centimetres. Nonpareil type, the size generally used by newspapers, is a 6-point type, and therefore sets 12 lines to an inch, measuring up and down the column. Twenty-four lines of nonpareil type make what is commonly called a "stick." There are usually ten "sticks" of type in a newspaper column. The smallest type in ordinary use is ruby, which is 3½ points in height. Diamond type is 4 or 4½ points; pearl, 5 points; agate, 5½ points, nonpareil, 6 points, minion, 7 points; brevier, 8 points; bourgeois, 9 points; long primer, 10 points; small pica, 11 points; pica, 12 points; English, 14 points; great primer, 18 points. The news columns in The World are almost 2 and three-sixteenths inches wide, equal to 12½ "picas" or pica M-quads. Each size of type has its own M-quad, which is the square of the face of the capital M of that size of type. A quadrat, or quad, is the type without a letter on it, and is used in spacing between words and in filling out blank lines. The quad is usually of four sizes—N-quad, M-quad, 2M-quad, and 3M-quad.

ROMAN AND ARABIC NUMERALS.

I	1	VI	6	XI	11	XVI	16	XXX	30	LXXX	80
II	2	VII	7	XII	12	XVII	17	XL	40	or XXC	80
III	3	VIII	8	XIII	13	XVIII	18	L	50	XC	90
IV	4	IX	9	XIV	14	XIX	19	LX	60	C	100
V	5	X	10	XV	15	XX	20	LXX	70	CC	200

CCC	300	DCCC	800				
CCCC	400	CM	900				
D	500	M or					
DC	600	clc	1000				
DCC	700	MM	2000				

NOTE—A dash line over a numeral multiplies the value by 1,000: thus, $\overline{X}$=10,000; $\overline{L}$=50,000; $\overline{C}$=100,000; $\overline{D}$=500,000; $\overline{M}$=1,000,000; $\overline{CLIX}$=159,000; $\overline{DLIX}$=559,000.

Other general rules in Roman numerals are as follows: (1), repeating a letter repeats its value—XX=20; CCC=300; (2), a letter placed after one of greater value adds thereto—VI=6; DC=600; (3), a letter placed before one of greater value subtracts therefrom—IV=4.

Arabic numerals are those now commonly in use—0, 1, 2, 3, 4, 5, 6, 7, 8, 9, etc.

MEDICAL SIGNS AND ABBREVIATIONS.

℞ (Lat. Recipe), take; āā, of each; ℔, pound; ʒ, ounce; ʒ, drachm; ℈, scruple; ♏, minim, or drop; O or o, pint; f ʒ, fluid ounce; f ʒ, fluid drachm; as, ℥ ss, half an ounce; ℥ i, one ounce; ℥ iss, one ounce and a half; ℥ ij, two ounces; gr., grain; Q. S., as much as sufficient; Ft. Mist., let a mixture be made; Ft. Haust., let a draught be made; Ad., add to; Ad lib., at pleasure; Aq., water; M., mix; Mac., macerate; Pulv., powder; Pil., pill; Solv., dissolve; St., let it stand; Sum., to be taken; D., dose; Dil., dilute; Filt., filter; Lot., a wash; Garg., a gargle; Hor. Decub., at bed time; Inject., injection; Gtt., drops; ss, one-half; Ess., essence.

SPEED OF A FALLING BODY.

In the first second of its descent a body falls 16 feet; second second, 16+32=48 feet; third second, 16+64=80 feet; fourth second, 16+96=112 feet; fifth second, 16+128=144 feet; nth second, 16+32 (n-1) feet.

The total distance fallen by a body at the end of the nth second is 16n2 feet, thus at the end of the first second it has fallen 16 feet, at the end of the second 64 feet, at the end of the fifth 400 feet. The figures given above are only approximate ones and in them no account is taken of air resistance. As the air resistance encountered by a falling body depends on the shape and size of the body no general rule can be given for taking account of it, except to say that the air resistance increases with the velocity. The force of gravity on a body one mile above the surface of the earth is less than if the body were at the surface of the earth by about one-twentieth of one per cent.

WEIGHT OF WATER.

1	cubic inch	.03617	pound.	1	cylindrical foot	6.0	U. S. gals.
12	cubic inches	.434	pound.	2.282	cylindrical feet	112.0	pounds.
1	cubic foot	62.5	pounds.	45.64	cylindrical feet	2240.0	pounds.

35.84	cubic feet	2240.0	pounds.	224	imperial gallons	2240.0	pounds.
1	cylindrical inch	.02842	pound.	1	U. S. gallon	8.355	pounds.
12	cylindrical inches	.341	pound.	13.44	U. S. gallons	112.0	pounds.
1	cylindrical foot	49.10	pounds.	268.8	U. S. gallons	2240.0	pounds.

NOTE.—The centre of pressure of water against the side of the containing vessel or reservoir is at two-thirds the depth from the surface. One cubic foot of salt water weighs 64.3 pounds.

SPECIFIC GRAVITY AND WEIGHT OF SUBSTANCES.

Figures are *averages*, those for weight show lbs. per cubic foot; specific gravities of air and gases are compared to water in this table; and the term *specific gravity* is used as expressing the weight in grams per cubic centimeter.

INTERNATIONAL ATOMIC WEIGHTS.

Atomic Weight is the weight of an atom of a chemical element as compared with that of an atom of hydrogen. *Specific Gravity* of a substance is the weight of any volume thereof compared with an equal volume of water.

Element.	Symbol.	Atomic Weight.	Element.	Symbol.	Atomic Weight.	Element.	Symbol.	Atomic Weight.

MELTING POINTS OF CHEMICAL ELEMENTS ETC.

(By the Bureau of Standards, U. S. Dept. of Commerce.)

As nearly as may be, all values, in particular the standard points, have been reduced to a common scale—the thermodynamic scale. For all purposes, except the most accurate investigations, the thermodynamic scale is identical with any of the gas scale. At high temperatures some of the values are quite uncertain; thus, while the melting point of platinum may be considered accurately known to 10° C., that of tungsten is possibly uncertain by 50° C. or more. Temperatures centigrade are rounded off, and the exact Fahrenheit equivalents are usually given.

AREAS OF CIRCLES.

To find the circumference of a circle multiply the diameter by 3.14159265 (commonly expressed as 3.1416). To find the area of a circle multiply the square of the diameter by .785398 (usually expressed as .7854). To find the cubic contents of a cylinder or pipe, multiply the area by the height or depth. Thus, a pipe 1 foot in diameter and 1 foot in length contains .7854 cubic feet. To find how many gallons are contained in a pipe or cylinder, divide the cubic contents by 231, which is the number of cubic inches in a United States gallon.

CIRCLE AREAS IN EIGHTHS OF A UNIT.

A square is equal in area to a circle when the side of the square equals 0.88623 multiplied by the diameter of the circle; or when the diameter of the circle equals 1.12838 multiplied by the side of the square.

Any straight line extending from the centre of a circle to the circumference is called a *radius*.

HOW TO WRITE BILLIONS, TRILLIONS, ETC.

(From Commerce and Finance.)

The strain on the Arabic notation that is involved in writing the enormous figures of European currency circulations and debts has driven many writers to fall back on "plain English" in writing round numbers, as, for instance, we ourselves last week described the German mark circulation as having increased to "496.5 quintillions."

Of course we used the word "quintillion" in its American sense, which happens to be also its French sense, but in Great Britain and the other European countries the word has a very different meaning.

We set down herewith the numerals and their nomenclature in this country and France on the one hand and in Great Britain and the rest of Europe on the other, which it were well to keep in mind:

	U. S. and France.	Gt. Britain & Rest of Europ.
1,000,000	million	million
1,000,000,000*	billion	1,000 millions
	milliard	milliard
1,000,000,000,000	trillion	billion
1,000,000,000,000,000	quadrillion	1,000 billions
1,000,000,000,000,000,000	quintillion	trillion

* Our billion is called a milliard all over the European Continent. In Great Britain it is called indifferently a milliard or a thousand millions.

Thus while in France and this country the notation advances in periods of three figures, in Great Britain and the rest of Europe it advances in periods of six, our sextillion being there a thousand trillions, and so on.

FOREIGN WEIGHTS AND MEASURES.

Vlocka	Russian Poland	41.98 acres.
Wey	Scotland & Ireland	5 quarters.

The *carat*, used as a gem unit, weighs over 3 grains (3.168), or 205 milligrams.

The word also is used to denote the proportion of alloy in a metal: thus, pure gold is 24 carats fine.

FOREIGN COINS VALUED IN UNITED STATES MONEY.

(Proclaimed by the Secretary of the Treasury as of Oct. 1, 1924.)

Argentine Republic, G., ($0.9648) Currency; Paper, normally convertible at 44 per cent. of face value; now inconvertible.

Austria, G., Krone ($0.2026).

Belgium, G. and S., Franc ($0.1930). Member Latin Union.

Bolivia, G., Boliviano ($0.3893). 12½ bolivianos equal 1 pound sterling.

Brazil, G., Milreis ($0.5462). Currency; Government paper normally convertible at 16 pence (—$0.3244) per milreis; now inconvertible.

British Colonies in Australasia and Africa, G., Pound sterling ($4.8665).

British Honduras, G., Dollar ($1.0000).

Bulgaria, G., Leva ($0.1930).

Canada, G., Dollar ($1.00).

Chili, G., Peso ($0.3650). Currency; Inconvertible paper.

China, S., Tael, Haikwan (customs) ($0.9129). The tael is a unit of weight, not a coin. The customs unit is the Haikwan tael. The values of other taels are based on their relation to the value of the Haikwan tael. The Yuan silver dollar of 100 cents is the monetary unit of the Chinese Republic; it is equivalent to .644+ of the Haikwan tael. Dollar, Yuan ($0.5814). Mexican silver pesos issued under Mexican decree of Nov. 13, 1918, are of silver content approximately 41% less than the dollar here quoted; and those issued under decree of Oct. 27, 1919, contain about 51% less silver.

Colombia, G., Peso ($0.9733). Currency; Government paper and gold.

Costa Rica, G., Colon ($0.4653)

Cuba, G., Peso ($1.0000).

Czecho-Slovakia, G., Krone ($0.2026).

Denmark, G., Krone ($0.2680).

Dominican Republic, G., Dollar ($1.0000). U. S. money is principal circulating medium.

Ecuador, G., Sucre ($0.4867).

Egypt, G., Pound (100 piasters) ($4.9431). The actual standard is the British pound sterling, which is legal tender for 97⅛ piasters.

Finland, G., Markka ($0.1930).

France, G. and S., Franc ($0.1930). Member Latin Union.

Germany, G., Mark ($0.2382).

Great Britain, G., Pound sterling ($4.8665).

Greece, G. and S., Drachma ($0.1930). Member Latin Union.

Guatemala, S., Peso ($0.5473). Currency: Inconvertible paper.

Hayti, G., Gourde ($0.2000). Currency; National bank notes redeemable on demand in American dollars.

Honduras, S., Peso ($0.5473). Currency: Bank notes.

Hungary, G., Krone ($0.2026).

India (British), G., Mohur and Sovereign ($4.8665); S., Rupee ($0.2601). The British sovereign and half sovereign are legal tender in India at 10 rupees per sovereign.

Indo-China, S., Piaster ($0.5911).

Italy, G., Lira ($0.1930). Member Latin Union.

Japan, G., Yen ($0.4985).

Liberia, G., Dollar $1.0000). Currency: Depreciated silver token coins. Customs duties are collected in gold.

Lithuania, G., Litas ($0.1000).

Mexico, G., Peso ($0.4985).

Netherlands, G., Guilder (florin), ($0.4020).

Newfoundland, G., Dollar ($1.0000).

Nicaragua, G., Cordoba ($1.0000).

Norway, G., Krone ($0.2680).

Panama, G., Balboa ($1.0000).

Paraguay, G., Peso (Argentine), ($0.9648). Currency; Depreciated Paraguayan paper currency.

Persia, S., Kran ($0.1008). Currency: Silver circulating above its metallic value. Gold coin is a commodity only, normally worth double the silver.

Peru, G., Libra ($4.8665).

Philippine Islands, G., Peso ($0.5000).

Poland, G., Zloty ($0.1930).

Portugal, G., Escudo $1.0805). Currency: Inconvertible paper.

Roumania, G., Leu ($0.1930).

Russia, G., Ruble ($0.5146).

Salvador, G., Colon ($0.5000).

Serbia, G., Dinar ($0.1930).

Siam, G., Tical ($0.3709).

Spain, G. and S., Peseta ($0.1930). Valuation is for gold peseta; currency is notes of the Bank of Spain.

Straits Settlements, G., Dollar ($0.5678).

Sweden, G., Krona ($0.2680).

Switzerland, G., Franc ($0.1930). Member Latin Union.

Turkey, G., Piaster ($0.0440). (100 piasters equal to the Turkish £.).

Uruguay, G., Peso ($1.0342). Currency; Inconvertible paper.

Venezuela, G., Bolivar ($0.1930).

G, means gold standard country; S, silver. Value in U. S. money is stated in parentheses.

The Treasury does not quote in the above table the monetary units of some of the newly created countries of Central Europe because the countries have as yet no struck coinage.

Lithuania, which has been using the German mark, has adopted the *litas* (gold par of exchange, $0.10).

Latvia, which has been using the Russian ruble, has adopted the *lat* (gold par of exchange, $0.193).

Esthonia has the *Esthonian mark* (gold par of exchange, $0.193).

Russia also has been trying to stabilize its currency by use of a new standard, the *chervonets*, equivalent to 10 gold rubles (gold par of exchange, $5.146) and is issuing bank notes on that standard based on a gold reserve.

The value of the yen is as follows: Prior to December, 1885, gold yen, 0.4 momme of pure gold; from January, 1886, to September, 1897, silver yen, 6.7 momme of pure silver; subsequent to October, 1897, gold yen, 0.2 momme of pure gold.

VALUE AND WEIGHT OF GOLD.

(By the United States Assay Office, New York.)

The unit in weighing gold is the troy ounce. A "fine" ounce means an ounce of pure gold. The mint value of gold does not fluctuate but remains constant at $20.67183462 per fine ounce. Troy measure is used in weighing gold. The grain is the same in both troy and avoirdupois measure but the ounce and the pound are not the same. The troy ounce contains 480 grains and the troy pound 5,760 grains, there being 12 ounces to the pound. The troy pound is never used in weighing gold, even when the weights of large quantities are to be computed. The avoirdupois ounce contains 437½ grains and the avoirdupois pound contains 7,000 grains, there being 16 ounces to the pound.

BRITISH WEIGHTS AND MEASURES.

A *ton* of water contains 35.943 cubic feet or 224 gallons. The ordinary *ton* weighs 2,240 pounds. A ship's *tun* holds 210 gallons. A *cargo ton* contains 40 cubic feet. The *ton-register*, the unit of capacity of a ship, is 100 English cubic feet. A *thread* of yarn is 1½ yards; a *skein* of cotton or silk is 120 yards; a *hank* of cotton or silk is 840 yards; a hank of *linen* is 30 yards. A *cable length*, used in nautical measure, is 606.97 feet.

ANCIENT GREEK AND ROMAN WEIGHTS AND MEASURES.

WITH AMERICAN EQUIVALENTS.

WEIGHTS.

The Roman libra or pound = 10 oz. 18 pwt. 13 5-7 gr., Troy.
The Attica mina or pound = 11 oz. 7 pwt. 16 2-7 gr., Troy.
The Attica talent (60 minae) = 56 lbs. 11 oz. 0 pwt. 17 1-7 gr., Troy.

DRY MEASURE.

The Roman modus = 1 pk. 2-9 pint.
The Attic choenix = nearly 1½ pints.
The Attic medimnus = 4 pk. 6 1-10 pints.

LIQUID MEASURE.

The cotyle = a little over ½ pint.
The cyathus = a little over 1½ pints.
The chus = a little over 6⅔ pints.

LONG MEASURE.

The Roman foot = 11 3-5 inches.
The Roman cubit = 1 ft. 5⅔ inches.
The Roman pace = 4 ft. 10 inches.
The Roman furlong = 604 ft. 10 inches.
The Roman mile = 4,835 feet.
The Grecian cubit = 1 ft. 6⅓ inches.
The Grecian furlong = 504 ft. 4 1-5 inches.
The Grecian mile = 4,030 feet.

MONEY.

The quadrans = 1 1-10 mills.
The as = 1 3-10 mills.
The sestertius = 3.58 + cents.
The sestertium (1,000 sestertii) = $35.80.
The denarius = 14.35 + cents.
The Attic obolus = 2.39 + cents.
The drachma = 14.35 + cents.
The mina (100 drachmae) = $14.35 +.
The talent (60 minae) = $861.00.
The Greek stater was worth $4; the Persian, $5.35. Each coin was of silver, composed of 20 drachmas, each drachma equal in value to 19½ cents, American money.

The modern drachma equals 19.3 cents. The Greek stater weighed 134.75 grains avoirdupois. The Roman aureus was worth $4.50.

BIBLICAL WEIGHTS REDUCED TO TROY WEIGHT.

The Gerah, one-twentieth of a Shekel, 12 grains; the Bekah, half a Shekel, 5 pennyweight; the Shekel, 10 pennyweight; the Maneh, 60 Shekels, 2 lbs. 6 oz.; the Talent, 50 Manehs, or 3,000 Shekels, 125 lbs.

ENERGY RESOURCES OF THE WORLD.

The United States is literally the most powerful country in the world, according to a statement made by Dr. Thomas T. Read of the Federal Bureau of Mines, before the School of Foreign Service of Georgetown University. "The real basis of power of a nation is its energy resources rather than its man-power strength," said Dr. Read. "The modern way to use the energy of a man is to employ it in a way similar to the little detonator of the big explosive shell—the little charge sets off the big one and does an amount of work far in excess of its own capacity. The energy output of an average workman is about a tenth of a horsepower. The energy expended by a coal miner in an eight-hour day thus amounts to about that available from two pounds of coal. A Japanese miner who gets out 1,400 pounds of coal a day thus multiplies his energy by 700. It is somewhat like planting one grain of wheat and having 700 grow from it.

"The American miner gets out 8,800 pounds of coal in a day and so multiplies his energy by 4,400. There are 41,000,000 wage earners in the United States and their energy output is a little over 4,000,000 horsepower, or only nine times the potential energy output in the form of coal of 100 miners. The power minerals, coal, petroleum, and waterpower, are, therefore, the real sources of strength in an industrial civilization. Just where the United States stands on this basis is best brought out by some comparative figures which may be stated in millions of horsepower years, so that the figures will be easier to handle. Taking the estimates of probable and possible available coal, petroleum, and waterpower in the principal countries of the world, and reckoning them in terms of millions of horsepower years, they line up something like this:

Country.	Coal (Millions of Hp. Years).	Petr'le'm (Millions of Hp. Years).	Water-power (Millions of Hp. Years).	Country.	Coal (Millions of Hp. Years).	Petr'le'm (Millions of Hp. Years).	Water-power (Millions of Hp. Years).
United States	500,000	400	28	Australasia	19,000	(?)	4
China	200,000	60	20	Russia	17,000	280	16
Germany	48,000	2	1½	Poland and Czecho-Slovakia	14,000	45	1
Canada	40,000	40	20	India	11,000	70	27
Great Britain	27 000	(?)	1				

Latest reports show Chinese figures may be too large.

"No other country than these has as much as one-fiftieth part of the total energy resources as the United States. The United States had resources before 1492 even greater than now because they were all unused. China is in somewhat the same position to-day as the United States was 400 years ago. Japan, on the other hand, is an example of a country that has developed its very limited resources to a large extent. Japan's energy resources are less than one five-hundredth part of those of the United States, and therefore the Japanese cannot afford to use their energy for rough uses that require large quantities, such as in breaking stone.

BUSHEL WEIGHTS IN POUNDS.

United States—Federal Law—Apples (green or ripe), 50; barley, 48; barley malt, 34; beans, 60; beans (castor), 50; buckwheat, 48; cherries (green or ripe), 50; corn (shelled), 56; flaxseed (linseed), 56; oats, 32; peaches (green or ripe), 50; pears (green or ripe), 50; peas (green or dried), 60; plums (green or ripe), 50; potatoes (white), 60; quinces (green or ripe), 50; rye, 56; wheat, 60.

Bushel weights (lbs.) under N. Y. State law—Apples, 48; barley, 48; beans, 60; bran, 20; buckwheat, 48; clover seed, 60; corn (shelled), 56; corn meal, 50; cottonseed (Sea Island), 44; cotton seed (upland), 30; flaxseed, 55; malt, 34; oats, 32; onions, 57; peas, 60; potatoes, 60; potatoes (sweet), 54; rye, 56; rye meal, 50; timothy seed, 45; wheat, 60; lime, 70; coarse salt, 70; fine salt, 56; carrots, 50; herds grass seed, 45; rough rice, 45; dried peaches, 33; dried apples, 25.

Dry measure in the United States is based on the old English Winchester *struck* bushel, containing 2,150.42 cubic inches, or 1.24 cubic feet; inside dimensions—18.5 inches diameter, 8 inches deep; when heaped, cone not less than 6 inches high. The United States Court of Customs Appeals decided in February, 1912, that a "bushel" under the tariff law means a *heaped* bushel, so far as apples are concerned, and that a *heaped* bushel should contain 2,747.715 cubic inches. Under this decision, a *heaped* bushel is 27.8 per cent. larger than a *struck* bushel. Heaped measure is used with bulky commodities, such as apples, pears, potatoes, onions, etc.

A bushel of coal in Pennsylvania must contain 75 lbs. of anthracite, or 76 lbs. of bituminous, or 80 lbs. of stone coal.

The United States Department of Agriculture does not recommend the sale of fruits and vegetables by weight bushel. The U. S. standard bushel is a unit of volume and it is impossible to define accurately a unit of volume in terms of weight, as the weight of any given volume of fruits or vegetables will vary with the size, variety, condition of the product and the tightness of the pack.

Many of the States have enacted laws standardizing various types of fruit and vegetable containers, fixing the dimensions, etc.

States requiring sales by weight—Some States have laws requiring that all dry commodities be sold by weight, while others require that those for which a legal weight has been established be so sold. In the latter class when a unit of dry measure is called for, this must be determined by weight in accordance with the standard schedule of weight per bushel. In some of these States a special contract may be made by the parties, specifying some other method of sale.

The list of States follows: Florida, Idaho, Indiana, Iowa, Kansas, Massachusetts, Michigan, Nebraska, Nevada, Ohio, Oregon, South Dakota Utah, Wisconsin and the District of Columbia.

In these States purchasers may demand that all orders be actually weighed before delivery, and that full weight as specified in the State law be delivered. It is desirable for purchasers to check the deliveries by weight and compare them with the standard legal weights.

States requiring definite weights—In the second class may be grouped a number of States having statutes similar to each other in wording and apparently similar in legal effect. These statutes read somewhat as follows: "The bushel shall consist of or will mean, a stated weight," sometimes with the qualification, "When sold by the bushel." This list includes: California, Delaware, Illinois, Kentucky, Minnesota, Missouri, Montana, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Vermont, West Virginia, Wyoming and the Territory of Hawaii.

In Alabama, Arkansas, Colorado, Connecticut, Georgia, Louisiana, Maine, Maryland and Rhode Island there is a legal or standard weight per bushel, without a provision for a special agreement clause.

In Mississippi, North Carolina and Virginia there is a legal or standard weight but it is binding only when the purchaser so specifies.

In Arizona and Washington there are no legal or standard bushel weights.

A CORD OF WOOD OR STONE.

A cord of wood or stone contains 128 cubic feet. The standard size of a piled cord of wood is 8 feet long, by 4 feet wide, by 4 feet high.

WEIGHT OF MILK AND CREAM.

Milk, at ordinary temperature, weighs 8.60 lbs. a gallon, provided it contains 3 per cent. of butter fat; cream, 8.37 lbs. a gallon, if it has in it 28 per cent. of butter fat. When cream contains 40 per cent. of fat it weighs 8.28 lbs. a gallon.

One northern hardwood tree of any variety 21 inches in diameter 5 feet above the ground will yield one cord of wood. A southern softwood tree 23 inches in diameter will yield a cord. It takes 35 northern and 25 southern hardwood trees 5 inches in diameter 5 feet above the ground to yield one cord.

IODINE IN FISH AND OTHER FOOD.

(From a bulletin of the U. S. Bureau of Fisheries.)

Marine fishes, mollusks, and crustaceans contain a higher percentage of iodine than any other common foods.

Oysters, clams, and lobsters contain more iodine than any other marine food, with the exception of marine algae, which, unfortunately, does not enter into the dietary of many Americans.

Oysters, clams, and lobsters contain about 200 times as much iodine as milk, eggs, or beefsteak; shrimp 100 times as much; and crabs and most ocean fishes 50 times as much.

In order of decreasing iodine content the more common foodstuffs are divided into the following groups: (1) Marine algae, (2) oysters, clams, and lobsters, (3) shrimp, (4) crabs and most ocean fishes, (5) freshwater fishes, vegetables, beefsteak milk, etc.

Substances containing iodine compounds have been used in the treatment of goitre since time immemorial, but only in recent years have their therapeutic properties been explained.

AVERAGE HEIGHT AND WEIGHT OF MEN AND WOMEN.

COMPILED BY THE ASSOCIATION OF LIFE INSURANCE MEDICAL DIRECTORS AND THE ACTUARIAL SOCIETY OF AMERICA.

The weights are for persons with shoes on, and without coat and vest, which weigh from 3 to 7 pounds, depending on height of individual and season of year.

WEST POINT BODY MEASUREMENTS.

The authorities at the United States Military Academy, at West Point, N. Y., have decided that cadets, at seventeen years of age, whose range in height varies from 64 to 71 inches should weigh from 110 to 128 lbs.; their chest measure should be from 29 to 30¾ inches, and the chest expansion should range from 2 to 2½ inches.

At other ages, the ranges are:

Eighteen years—Height, 64 to 72 inches; weight, 117 to 136 lbs.; chest measure, 30¾ to 32 inches; chest expansion, 2 to 3 inches.

Nineteen years—Height, 64 to 73 inches; weight, 121 to 149 lbs.; chest measure, 30¾ to 32¾ inches; chest expansion, 2 to 3 inches.

Twenty years—Height, 64 to 74 inches; weight, 121 to 154 lbs.; chest measure, 31 to 33¼ inches; chest expansion, 2 to 3½ inches.

Twenty-one years—Height, 64 to 75 inches; weight, 121 to 167 lbs.; chest measure, 31¼ to 33¾ inches; chest expansion, 2 to 3½ inches.

Twenty-two years—Height, 64 to 76 inches; weight, 123 to 174 lbs.; chest measure, 31½ to 34¼ inches; chest expansion, 2 to 4 inches.

HUMAN WEIGHTS AND MEASURES.

(By Arthur MacDonald, Anthropologist, Washington, D. C.)

APPROXIMATE WEIGHTS OF ORGANS IN AN ADULT.

	Grains.	Ounces.	Per-centage Relation to Body Weight.		Grains.	Ounces.	Per-centage Relation to Body Weight.		Grains.	Ounces.	Per-centage Relation to Body Weight.
Brain...	1,400	49	2.37	Spleen..	170	6	0.346	Adrenals	10	0.35	0.014
Heart...	300	10	0.46	Liver...	1,600	57	2.75	Muscles.	30,000	1,050	43.09
Lungs...	1,175	41	2.0	Pancreas	200	7	0.346	Skeleton	11,500	400	15.35
Thymus gland.	5	0.13	0.0086	Kidneys.	300	10.5	0.44				

Every human death may be attributed to one of three causes: (1) Interference with respiration (asphyxia or apnea); (2) Interference with the heart's action (syncope), and (3) Interference with the nervous system (coma or shock). The number of distinct diseases producing death is limited.

The length of the humerus multiplied by 5.06, or the length of the femur multiplied by 3.66, equals the height of the man. Thus the height of prehistoric peoples can be worked out.

In height man may vary from 1m. 25 (4 feet 1 inch) to 1m. 99 (6 feet 6¾ inches). Below 1m. 25 man is abnormal or pathological (dwarfism); above 2 meters man is also abnormal (giantism). Both these extremes are sterile.

The extreme averages of different populations run from 1m. 38 (4 feet 6 inches) to 1m. 79 (5 feet 10.5 inches); the Scots of Galloway or Scots of the North are 1m. 78.

The stature of man is not more than 2 or 3 centimeters higher than his skeleton.

The length of the trunk in man is more than one-third and less than two-fifths of the height.

The arm reach in American soldiers, compared to their height, is as 1,043 to 1,000.

The brains of the higher apes are much less complex in their convolutions and much less in both relative and absolute weight.

The gorilla's brain barely exceeds twenty ounces in weight, while man's brain hardly weighs less than thirty-two.

From 11,000 brains weighed, Topinard finds an average weight of 1,361 grains for man and 1,290 grains for woman.

The gray substance represents 37 to 38 per cent. of the total weight of the brain. The differences in the form and the dimensions of the skull in correlation with those of the brain serve to distinguish races and species.

Thus the Inka bone (one of the wormian bones), between the parietal and occupital bones, is frequent in Peruvian crania—20 times in 100; in Negroes 6 times; in Europeans it is still more rare; among Indians of Arizona this bone is more frequent than among Peruvians.

The suture of the alar bone is peculiar to Japanese crania—25 to 40 per cent., and only 9 per cent. in European races.

EXPECTATION OF HUMAN LIFE.

There is reason to hope for adding ten years to the expectation of human life at birth, according to Dr. Louis I. Dublin, a New York City insurance statistician. This will be due, he believes, to the campaigns to reduce infant mortality, and the worst diseases of adults, as well as to improved sanitary conditions and standards of living.

The expectation of life at birth, in the United States, in 1920, according to the Census Bureau, was as follows: White males, 53.98 years; white females, 56.33 years; Negro males, 40.14 years; Negro females, 42.16 years. This was a gain over the expectation at birth, as shown by the 1910 Census, of 3.75 years for white males; 2.71 years for white females; 6.09 years for Negro males; and 4.49 years for Negro females.

AMERICAN EXPERIENCE TABLE OF (INSURED) MORTALITY.

SOME FAMOUS OLD PEOPLE OF 1924.

At what age is one to be classed as "old"?

Five centuries ago a man was called old at fifty. In the nineteenth century few under sixty would admit that they were old. With so many bald and hearty men well on in years to-day, it seems well to keep the limit set by the Psalmist of three-score years and ten in offering this list, by no means exhaustive, of famous old people of 1924. The age at the last birthday is given and the list is made up as of Oct. 1, 1924.

106—Mrs. Sarah Bosworth Bradway of Eastford, Ct., real daughter of the American Revolution.

102—John A. Stewart, banker, New York; Cornelius Cole, former U. S. Senator, California.

98—Major Gen. Sir Archibald E. H. Anson, served in Crimean War, British administrator.

95—John R. Voorhis, President of the Board of Elections, New York.

94—Ezra Meeker, Oregon pioneer.

91—Prof. William F. Warren, former President of Boston University.

90—Chauncey M. Depew, former U. S. Senator, New York; James Brown Herreshoff, yacht builder, inventor; Charles William Eliot, President Emeritus of Harvard University.

89—Sir Archibald Geikie, O. M., geologist; Mrs. William H. Felton, of Georgia, first woman to be appointed United States Senator; George Ehret, brewer.

88—Joseph G. Cannon, former Congressman from Illinois; Cardinal Vincenzo Vannutelli; Lyman J. Gage, former Secretary of the Treasury; Mme. Juliette Adam, French author.

87—Sir John M. Le Sage, managing editor, London Telegraph; Prof. Charles F. Chandler, chemist; Washington A. Roebling, engineer, built the Brooklyn Bridge; Dr. L. Clark Seelye, President Emeritus of Smith College.

86—Sir George Otto Trevelyan, biographer of Macaulay and English publicist; Emile Loubet, President of the French Republic, 1899-1906; Henry A. du Pont, former U. S. Senator; Edward P. Weston, long distance walker; Gen. Valeriano Weyler, Spanish commander in Cuba in war of 1898.

85—John D. Rockefeller, founder of the Standard Oil Co.; William P. Clyde, steamship owner; Lieut. Gen. Nelson A. Miles, U. S. Army (retired); former Senator Wm. A. Clark, copper magnate; Capt. Robert Dollar, shipping.

84—Simeon E. Baldwin, jurist, former Governor of Connecticut; Cardinal Logue; George F. Baker, banker, New York; Thomas Hardy, O. M., English novelist and poet; Sir John Scott Keltie, editor the Statesman's Year Book; George Gray, statesman, former U. S. Judge; Henry Holt, New York publisher; Admiral of the Fleet Sir Edward H. Seymour, O. M.; Viscount Mersey, English jurist; Carlotta, former Empress of Mexico; Gen. George W. Wingate, founder Public Schools Athletic League; Claud Monet, artist.

83—Oliver Wendell Holmes, U. S. Supreme Court Justice; Georges Clemenceau, former Premier of France; the Earl of Dunraven, yachtsman; Field Marshal Lord Grenfell; Sir Edward George Clarke, British lawyer.

82—Rev. Dr. Charles H. Parkhurst, Presbyterian minister; Giovanni Giolitti, former Premier of Italy; Charles S. Fairchild, former Secretary of the Treasury; Camille Flammarion, French astronomer; Richard Vincent Jr., famous dahlia grower; August Thyssen, German coal baron.

81—Joseph McKenna, U. S. Supreme Court Justice; Carroll S. Page, ex-U. S. Senator, Vermont; Lord Trevathin, former Lord Chief Justice of England; Rev. Dr. Russell H. Conwell, President Temple University, Philadelphia, lecturer; Rear Admiral Yates Stirling, U. S. N. (retired); Robert T. Lincoln, former Ambassador to Great Britain; Rev. Dr. J. B. Remensnyder, Lutheran clergyman; Dr. F. L. Patton, former President of Princeton University; Dr. Kaufman Kohler, rabbi; Anna Dickinson, reformer, lecturer.

80—Queen Mother Alexandra of Great Britain; George W. Cable, novelist; George Haven Putnam, New York publisher; Major Gen. A. W. Greely, U. S. A. Signal Service (retired), Arctic explorer; Anatole France, French author; Frank E. Warren, U. S. Senator, Wyoming; N. Pashitch, Premier of Jugo-Slavia; Robert Bridges, poet-laureate of England; T. P. O'Connor, M. P., Irish journalist; Rear Admiral C. M. Chester, U. S. N. (retired).

79—Elihu Root, former Secretary of State; Rear Admiral William H. Brownson, U. S. N. (retired); Rev. Dr. J. F. Goucher, educator; the Duke of Richmond and Gordon; the Marquis of Lansdowne, British statesman; Field Marshal Lord Methuen; J. Ranken Towse, dramatic critic; William H. Crane, actor.

78—Judge Elbert H. Gary, head of the U. S. Steel Corporation; Judson Harmon, Governor of Ohio, 1909-13, former U. S. Attorney General; the Duke of Somerset, the Earl of Harewood, father-in-law of Princess Mary of Great Britain; Charles P. Scott, editor of the Manchester (England) Guardian; Ira Remsen, educator, chemist; Clara Morris, actress; Joseph I. C. Clarke, New York, journalist, playwright; George Saintsbury, English critic; Count Albert Apponyi, Hungarian statesman.

77—Thomas A. Edison, inventor; the Earl of Rosebery, former Premier of Great Britain; Prof. Henry A. Beers, author, critic; Arthur Shelbourne Hardy, author, diplomatist; the Marquis of Aberdeen, English statesman; the Duke of Beaufort; the Earl of Iveagh, brewer, philanthropist; Annie Besant, theosophist; Field Marshal Paul von Hindenburg, former German General; Willard Bartlett, jurist.

76—Louis C. Tiffany, artist; Nat. G. Herreshoff, yacht builder, inventor; Melville E. Stone, journalist; Vladimir de Pachmann, pianist; James Ford Rhodes, historian; Nathan Straus, merchant, philanthropist; Leslie M. Shaw, former Secretary of the Treasury; the Earl of Balfour (Arthur J.), British statesman, former Premier; Rt. Rev. Dr. R. T. Davidson, Archbishop of Canterbury; Brooks Adams, lawyer, author; Rear Admiral W. W. Kimball, U. S. N. (retired); Ellen Terry, actress; John W. Goff, jurist; F. A. Bridgman, artist; Robert W. De Forest, President Metropolitan Museum of Art.

75—Luther Burbank, plant wizard; Mrs. Frances Hodgson Burnett, author; Rear Admiral Seaton Schroeder, U. S. N. (retired); Rear Admiral Richard Wainwright, U. S. N. (retired); Dr. Talcott Williams, journalist, educator; the Duke of Wellington; Prof. Edward S. Dana, scientist, educator; Charles B. Alexander, lawyer; Austen G. Fox, lawyer; Lord Stamfordham, private secretary to King George V.; Field Marshal August von Mackensen, German General; Grand Admiral Alfred von Tirpitz, former head of the German Navy; Col. Robert W. Thompson, financier, President American Olympic Committee; Rt. Rev. Ethelbert Talbot, Presiding Bishop, P. E. Church.

74—Cyrus H. K. Curtis, journalist; Henry Cabot Lodge, U. S. Senator, Massachusetts; Dr. Thomas G. Masaryk, President of Czecho-Slovakia; Oscar S. Straus, former Ambassador; Samuel Gompers, President American Federation of Labor; David R. Francis, former Ambassador; Henry White, former Ambassador; the Duke of Grafton; Augustine Birrell, British statesman, author; Lord Shaw, English jurist; Dr. David Jayne Hill, former Ambassador, educator; Prof. William M. Sloane, President American Academy of Arts and Letters; Henry W. Cannon, banker; Rose Coghlan, actress; Sir Thomas Lipton, merchant, yachtsman; Ellen Key, Swedish feminist, author; Field Marshal Liman von Sanders, German General, commanded the Turkish Army; Dr. William Lawrence, P. E., Bishop of Massachusetts; Gustav Lindenthal, bridge builder; Daniel Chester French, artist; Henry E. Huntington, railway capitalist and bibliophile; Sir Basil Zaharoff.

73—Marshal Ferdinand Foch, Generalissimo of the Allied armies in the World War; Felix Adler, lecturer, educator; Cardinal Mercier; Thomas F. Ryan, financier; Henry Arthur Jones, dramatist, Dr. Robert Abbe, surgeon; Lord Leverhulme, manufacturer; Count George Noble Plunkett, Irish publicist; Sir William Robertson Nicoll, author, editor; Richard Henry Dana, lawyer; Leon Bourgeois, former Premier of France; Dr. David Starr Jordan, President Emeritus of Leland Stanford Jr. University; Fred Warde, actor; Viscount Younger, Chairman of the English Conservative Party; Jean de Reszke, tenor.

72—Marshal J. J. C. Joffre, hero of the Marne; Brander Matthews, author, critic, educator; Edwin Markham, poet; H. H. Asquith, former Premier of Great Britain; Field Marshal the Earl of Ypres (Sir John French), commander B. E. F.; the Duke of Rutland; Alton B. Parker, jurist; Paul Bourget, French author; Lieut. Gen. the Earl of Dundonald, fought in Boer War; Rev. Dr. Henry van Dyke, author, diplomatist; the Duke of Montrose; M. Marcel, made famous by his wave; George Foster Peabody, New York banker, publicist; George Moore, author; Timothy Cole, engraver.

71—Hudson Maxim, inventor; Lillie Langtry (Lady de Bathe), English actress; H. H. Kohlsaat, former owner Chicago Record-Herald; Sir Hall Caine, novelist; David Belasco; Admiral Sir Percy Scott, R. N.

70—Thomas R. Marshall, former Vice President of the U. S.; Julius Krutschnitt, railroad executive; Dr. Adolph Lorenz, surgeon; John Drew, actor; Viscount Milner, British statesman; Frank A. Munsey, newspaper proprietor; E. W. Scripps, newspaper proprietor.

AREA AND POPULATION OF THE EARTH.

CONTINENTAL AREAS AND POPULATION.

(Figures in parentheses show population per square mile.)

Area (square miles)—*Africa*, 11,622,619; *America, North*, 8,589,257; *America, South*, 7,570,015; *Asia*, 17,206,000; *Australasia*, 3,312,613; *Europe*, 3,872,561; *Polar Regions*, 5,081,935. **Total earth**, 57,255,000.

Population (by continents)—*Africa*, 142,000,000 (12.2); *America, North*, 136,000,000 (15.8); *America, South*, 64,000,000 (8.4); *Asia*, 921,000,000 (53.5); *Australasia*, 9,000,000 (2.7); *Europe*, 476,000,000 (122.9). **Total earth**, 1,748,000,000 (30.5).

Population (by race)—Indo Germanic or Aryan (white), 821,000,000; Mongolian or Turanian (yellow, brown), 645,000,000; Semitic (white), 75,000,000; Negro and Bantu (black), 139,000,000; Malay and Polynesian (brown), 40,000,000; American Indian, north and south (red, half breeds), 28,000,000.

THE RACES OF MANKIND.

According to Dr. A. Hrdlicka, curator, division of physical anthropology, U. S. National Museum, Washington, D. C., three main human races are recognized to-day, which are: 1. the whites; 2. the yellow-browns; and 3. the blacks.

Each one of these shows a number of sub-races or types which are often called "races" also. The principal of these are:

Whites: The Mediterraneans, the Alpines and the Nordics.

Yellow-browns: The Mongoloids, the Malays and the American Indian.

Blacks: The Negrito, Negrillos and Bushmen; the Melanesian Negroes and Australians and the African Negroes.

a Area of entire group. Japan does not include Formosa (13,911 square miles); New Zealand does not include islands annexed since 1900.

LAND AND WATER AREAS.

The superficial area of the earth is 196,940,000 square miles—139,685,000 square miles of water and 57,255,000 square miles of land.

The three great oceans comprise the Atlantic, 41,321,000 square miles; Pacific, 68,634,000 square miles, and Indian, 29,430,000 square miles.

There are about 1,000,000 square miles of lake and river surface on the land, and 1,910,000 square miles of islands in the seas.

The equatorial circumference of the earth is 24,899 miles; the meridianal circumference, 24,857 miles.

The length of one degree of longitude along the equator is 69.2 miles. Each degree of longitude represents four minutes of time. The lines of longitude are termed *meridians*.

According to Keith Johnston, a degree of latitude measures 68.7 miles at the equator and increases to 69.4 in the vicinity of the poles.

The weight of the earth has been estimated at six sextillion (6,000,000,000,000,000,000,000) tons, not including the atmosphere, whose weight has been estimated at more than five quadrillion (5,178,000,000,000,000) tons.

The diameter of the earth at the equator is 7,925.83 miles, and through the poles 7,899.4 miles.

The average elevation of the land above sea level is 2,300 feet.

The average depth of the ocean below sea level is 12,600 feet.

The deepest place in the ocean yet found is 145 miles southeast of Tokio, Japan—32,636 feet.

The highest mountain is Mount Everest, in the Himalayas, 29,141 feet.

This gives a range of 61,777 feet or more than 11½ miles between the bottom of the oceans and the top of the land.

The greatest depth in the Atlantic Ocean is near Porto Rico, 31,366 feet; in the Indian Ocean, 22,968; in the Arctic, 13,200; in the Malay, 21,342; in the Caribbean, 20,568; in the Mediterranean, 12,276; in the Bering, 13,422.

The latest estimates of the earth's area place the fertile regions at 20,000,000 square miles; steppes at 14,000,000 square miles; deserts at 4,861,000 square miles.

Areas in square miles of seas: Okhotsk, 580,000; Yellow, 480,000; Japan, 405,000; Andaman, 300,000; North, 220,000; Red, 178,000; Baltic, 160,000; Hudson Bay, 472,000.

FLOATING ISLANDS.

Within our own times, says the National Geographic Society, a floating island 100 feet square, upon which trees 30 feet high were growing, drifted 1,000 miles out into the Atlantic, probably from the coast of the United States. In July, 1892, this island, the trees of which made it visible for seven miles, was seen 250 miles southeast from Nantucket. By September it had drifted farther north and east with the Gulf Stream.

Grasses and rushes begin pushing out from shore and in time moss grows over this decaying vegetable matter. Soon alders, sheep-laurel and sweet gale grow with the moss, and then cranberries and pitcher plants push their way out on the shelf until the mat becomes 3 feet thick. Then spruces and larches begin anchoring it together with their roots.

When the water rises the floating mass rises also, but the shore cannot, and when the wrench is great enough the mat breaks off and floats. They are often met with in tropical waters, particularly in the Amazon, among the Moluccas, and in the Philippines.

On the Mississippi and its tributaries these islands are called "rafts." One began forming in the Atchafalaya, a lower arm of the river, in 1778. By 1816 it had become 10 miles long, more than 600 feet in width, 8 feet deep, and solid enough to support trees 60 feet in height. Finally Louisiana removed the obstruction at great expense, the work occupying four years.

The United States Government has since that time removed a raft which blocked the channel of the Red River for 45 miles.

WATER POWER OF THE WORLD.

(Data gathered by the U. S. Geological Survey.)

The following estimates are presented in terms of horse power and should be reduced one-fourth for expression in kilowatts:

SUMMARY OF POTENTIAL AND DEVELOPED WATER POWER IN 1920.

(Potential horse power figures are in parentheses.)

North America—Mexico, 400,000 (6,000,000); United States, 9,243,000 (35,000,000); Alaska. 40,000 (1,000,000); Newfoundland, 60,000 (400,000); Canada, 2,418,000 (20,000,000); Costa Rica, 15,000 (1,000,000); Guatemala, 4,000 (1,500,000); Honduras, 3,000 (1,000,000); Nicaragua, 400 (800,000); Salvador, 2,700 (200,000); Panama, 13,300 (500,000); West Indies, 12,500 (150,000). Approximate total, 12,210,000 (68,000,000).

South America—Argentina, 25,000 (5,000,000); Bolivia, 12,000 (2,500,000); Brazil, 250,000 (25,000,000); British Guiana, none (2,500,000); Dutch Guiana, none (800,000); French Guiana, none (500,000); Chili, 60,000 (2,500,000); Colombia, 25,000 (4,000,000); Ecuador, 2,500 (1,000,000); Paraguay, 200 (2,000,000); Peru, 36,500 (4,500,000); Uruguay, none (300,000); Venezuela, 12,500 (3,000,000). Approximate total, 424,000 (54,000,000).

Europe—Sweden, 1,200,000 (4,500,000); Norway, 1,350,000 (5,500,000); Finland, 185,000 (1,500,000); Russia, 100,000 (2,000,000); Esthonia, Latvia, Lithuania, 20,000 (200,000); Poland, 80,000 (200,000); Ukraine, 40,000 (425,000); the Caucasus, 5,000 (5,000,000); Hungary, 30,000 (150,000); Czecho-Slovakia, 50,000 (420,000); Jugo-Slavia, 125,000 (2,600,000); Austria, 205,000 (3,000,000); Roumania, 30,000 (1,100,000); Bulgaria, 8,000 (1,200,000); Greece, 6,000 (250,000); Turkey, none (small); Albania, 1,000 (500,000); Italy, 1,150,000 (3,800,000); Switzerland, 1,070,000 (1,400,000); Germany, 1,000,000 (1,350,000); France, 1,400,000 (4,700,000); British Isles, 6,210,000 (585,000); Belgium, 700 (small); Denmark, 1,500 (2,000); Spain, 600,000 (4,000,000); Portugal, 10,000 (300,000); Iceland, none (500,000). Approximate total, 8,877,000 (45,000,000).

Asia—Chinese Republic, 1,650 (20,000,000); India, 150,000 (27,000,000); Asia Minor, 500 (500,000); Persia, none (200,000); Afghanistan, 2,000 (500,000); Siberia, none (8,000,000); French Indo-China, none (4,000,000); Siam and Malay States, 4,500 (4,000,000); Chosen, 2,620 (500,000); Japan, 1,000,000 (6,000,000). Approximate total, 1,160,000 (71,000,000).

Africa—Tangier, none (50,000); Morocco, none (250,000); Algeria, 130 (200,000); Tunis, none (30,000); Gold Coast and British mandate in Togo, none (1,450,000); Liberia, none (4,000,000); Sierra Leone, none (1,700,000); Senegal, none (250,000); Union of South Africa, 5,000 (1,600,000); Angola, 4,000 (4,000,000); Southwest Africa (Union of South Africa mandate), none (150,000); Belgian Congo and Belgian mandate, 250 (90,000,000); French Congo, none (35,000,000); French mandate in Cameroon, none (13,000,000); Nigeria and British mandate in Cameroon, none (9,000,000); Rhodesia, none (2,500,000); Tanganyika (British mandate), 800 (2,700,000); British Central Africa, none (1,200,000); British East Africa, 900 (4,700,000); Portuguese East Africa, none (3,700,000); Bechuanaland, none (20,000); Abyssinia, none (4,000,000); Egypt, none (600,000); Ivory Coast, Dahomey and French mandate in Togo, none (2,850,000); French Guinea, none (2,000,000); French Sudan, none (1,000,000); Madagascar, 100 (5,000,000). Approximate total, 11,000 (190,000,000).

Oceania—Australia, none (620,000); New Zealand, 45,000 (3,800,000); Philippine Islands, none (1,500,000); Sumatra, 11,600 (2,000,000); Java, 56,500 (500,000); Borneo, none (2,500,000); New Guinea, none (5,000,000); Tasmania, 34,500 (400,000); Celebes, none (1,000,000). Approximate total, 147,000 (17,000,000).

Recapitulation—North America, 12,210,000 (68,000,000); South America, 424,000 (54,000,000); Europe, 8,877,000 (45,000,000); Asia, 1,160,000 (71,000,000); Africa, 11,000 (190,000,000); Oceania, 147,000 (17,000,000). Grand total, 23,000,000 (445,000,000).

WORLD PRODUCTION OF COAL.

(Data gathered by the United States Geological Survey.)

The average rate of increase in the twenty-year period preceding August, 1914, was 38,000,000 tons a year.

In part, the present low production is due to the economic disorganization wrought by the war, particularly in Germany, France and England. In part it is due to more efficient use of fuel, stimulated by the high prices of recent years.

A factor of still greater influence is the extraordinary increase in the supply of petroleum.

The world's production of crude oil in 1923 exceeded that of 1913 by 625,000,000 barrels, equivalent to approximately 170,000,000 tons of coal.

WORLD PRODUCTION OF COAL, 1910-1923.

The approximate yearly production, in long tons, of the chief mining countries, based on latest 1923 data, is: United States, 86,585,000 anthracite and 494,772,000 bituminous; Great Britain, 282,970,535; Germany, 118,248,735 lignite and 62,224,535 coal; France, 861,435 lignite and 37,682,235 coal; Poland, 36,097,997; Russia in Europe and Asia, 11,767,393; Japan, 27,800,000; British India, 19,019,000; China (1922), 21,300,000; Union of South Africa, 10,809,501; Australia, 12,300,000; Canada, 3,246,378 lignite and 11,254,007 coal.

UNMINED COAL RESERVES.

The *unmined* coal in the coal-producing countries is estimated at more than 7,685,000,000,000 tons, mostly softer than anthracite, which latter is found in but few regions outside of Eastern Pennsylvania. Bituminous and lignite form the vast bulk of the world's unmined reserves, which, by continents, expressed in tons, are as follows:

North America—United States and Alaska, 3,500,000,000,000 (of which 16,000,000,000 is anthracite); Canada, 1,361,000,000,000 (of which 2,000,000,000 is anthracite); Mexico and Central America, 10,000,000,000; total for North America—4,871,000,000,000.

South America — Colombia, 30,000,000,000; Brazil, Chili, Peru and Venezuela, 100,000,000,000; total for South America—130,000,000,000.

Europe—British Isles, 166,000,000,000; Germany, 148,200,000,000; Poland, 68,800,000,000; Ukrainia, 55,600,000,000; Czecho-Slovakia, 24,500,000,000; France, 18,600,000,000; Belgium, 11,000,000,000; Norway and Spitzbergen, 8,750,000,000; Spain, 5,500,000,000; Holland, 5,000,000,000; Russia in Europe, 12,000,000,000; Austria and Hungary, 1,000,000,000; other and total for Europe—522,200,000,000.

Asia—China, 1,100,000,000,000 (of which 427,000,000,000 is anthracite); Siberia, 192,000,000,000; India, 87,000,000,000; Indo-China, 22,000,000,000; Japan, 9,000,000,000; other and total for Asia, 1,900,000,000,000.

Australasia—200,000,000,000 (of which 183,000,000,000 is in the Commonwealth of Australia).

Union of South Africa—62,000,000,000.

Coal unmined in Pennsylvania is estimated at 16,000,000,000 tons anthracite and 148,474,000,000 tons bituminous; in West Virginia, 150,363,600,000 tons, bituminous.

Three-quarters of the acreage of the rubber plantations throughout the world are owned by British capital. American-owned plantations are chiefly in Sumatra.

The world production in 1900 was 54,000 tons, in 1910 it had risen to over 70,000 tons, and in 1915 it approximated 159,000 tons.

The plantation rubber mostly is grown in Asia and the islands below that Continent, including some in the Philippines. South American rubber is gathered from trees, for the great part, in the virgin forests along the Amazon and other big rivers. Wild rubber comes also from the Congo regions in tropical Africa.

Since 1859 the United States has produced 6,459,582,000 barrels; Russia, since 1863 has produced 1,968,681,000 barrels; Mexico, since 1901 has produced 912,199,000 barrels.

Other production in 1923—Persia, 25,000; France (Alsace), 503; Colombia, 426; Czechoslovakia, 100; Egypt, 1,037; Sarawak, 3,887; Venezuela, 3,800, Trinidad, 3,870; Algeria, 9; England, 1; other, 200.

The world production, 1857-1923, totals 11,377,829,000 barrels of 42 gallons each.

RAW SILK PRODUCTION OF THE WORLD.

(Includes tussah silk; figures, compiled by The Silk Association of America, cover seasons.)

The production of raw silk in China and India is unknown. The Japan crop is approximately 58,179,000 pounds. In the absence of statistics from Austria and the Levant, 1915 production is used as an estimate. Shanghai figures exclude tussah. Japan's silk mostly comes to the United States.

RUSHING SILK BY SHIP AND TRAIN 8,300 MILES.

A new train speed record was established in 1924 between Seattle, Wash., and New York by the Great Northern, Burlington, and Pennsylvania.

A train of silk left Seattle on August 14 and covered the distance from Seattle to Jersey City in 73 hours, 25 minutes—3,123 miles.

The time from Seattle to St. Paul, 1,784 miles, was 38 hours, 50 minutes, which broke all previous records.

The Great Northern Fast Mail train, which operates daily from St. Paul to Seattle and is the fastest train to the North Pacific Coast, covers this distance in 47 hours, 30 minutes.

The course is 8,300 miles. Swiftest steamships, special trains for which speed limits are waived, seaplanes and airplanes participate. But there is no cheering crowd in the stands, because every mile of the race is concealed with the closest secrecy. The stakes are millions.

Why silk is rushed from Yokohama to New York at breakneck speed, outdistancing the best passenger service, and the thrilling details of this contest against time over the world's longest race course are told in the following bulletin issued by the National Geographic Society from its headquarters at Washington, D. C.:

"Excepting gold and silver bullion, silk probably is the most precious commodity, weight for weight, carried on a large scale by commerce. A single special train will bring five million dollars' worth of silk. Just as it costs dearly to ship money, high charges are put on silk shipments. The saving of two days' sailing time between Yokohama and Seattle is said to make a difference of fifty cents a bale at New York.

"The world's record on the Yokohama-New York silk course was set up a few months ago when the Orient was brought within 13 days, 3 hours and 8 minutes of Manhattan. Laden with $5,500,000 worth of raw silk, the President Jackson made Seattle on the ninth day. A United States mail seaplane met the liner at Victoria and winged its way to Seattle, 100 miles away. It brought port documents and forwarded cargo papers to New York before the President steamship docked.

"Special port forces moved the rich consignment in three hours to a special silk train waiting with steam up. The swift Oriental Limited passenger trains take 70 hours to reach Chicago; the 'reefer,' as the silk special is known to railroaders, makes it in 65 hours. Twelve cars were required for the President Jackson cargo.

"The previous speed record for silk shipments was made when the President Grant landed a $10,000,000 consignment at Seattle. The 'reefer' brought this product of billions of caterpillars into New York in 13 days, 4 hours and 55 minutes out of Yokohama."

WORLD AGRICULTURE SOCIETY.

(Headquarters, Amherst, Mass.)

The purpose of the World Agriculture Society is:

(1) To gather and disseminate facts concerning rural life, the conservation of the earth's natural resources and the production, distribution and use of soil-grown commodities in order that these facts obtained from non-political and expert sources may facilitate the application of principles which should control local and international policies in order that individuals and localities may perform a right part and receive a just share in the world's food supply.

(2) To bring about a closer interaction between city and country dwellers in the exchange of their respective products, both material and spiritual.

(3) To elicit a greater appreciation of the possibilities of country life for developing the highest types of individual and social character.

(4) To promote the collaboration of all agencies—governmental and voluntary—concerned in rural welfare as a world interest.

(5) To conduct a campaign of popular education toward the universal realization of these purposes through the publication of its quarterly magazine, *World Agriculture*, the international exchange of teachers and students of rural subjects, and other appropriate means.

President, Dr. Kenyon L. Butterfield (President Michigan Agricultural College, E. Lansing, Mich.); *Executive Secretary*, Laurence H. Parker, Amherst; *Treasurer*, Harry W. Kidder (Treasurer Amherst College); *Clerk of the Corporation*, Arthur H. Dakin, Amherst; *Field Secretary*, Lincoln W. Barnes, Amherst; *Auditor*, Winthrop S. Welles, Amherst; *Executive Committee*, Ray Stannard Baker, Lincoln W. Barnes, Charles R. Green, Robert J. McFall, Laurence H. Parker, Winthrop S. Welles.

Advisory Council: Belgium, M. Paul De Vuyst, Director General Belgium Department of Agriculture; British Isles, J. Nugent Harris, 42 Dalebury Road, Wandsworth Common, London, S. W. 17; Mrs. May Elliott Hobbs, Kelmscott Lechlade, Gloucestershire; Canada, Col. H. M. Tory, President University of Alberta; Lieut.-Col. F. C. St. B. Harrison, Principal, Macdonald College, St. Anne de Bellevue, Quebec; China, Dr. Wen Pin Wei, Chinese Legation, London, England; France, M. Henri Girard, Member du Conseil Superieur de l'Agriculture, Plailly, Oise; Dr. George Wery, Directeur l'Institut Nat. Agronomique, Paris; United States, Dr. H. P. Douglas, Upper Montclair, N. J.; Dr. Butterfield.

Branches of World Agriculture Society: Amherst, Mass., Guy A. Thelin, Secretary; Berea, Ky., Secretary-Treasurer, Harlin Franklin; Connecticut Agricultural College, Storrs, Conn., Samuel Kostolefsky, Secretary; Hampton Institute, Hampton, Va., Prof. W. K. Blodgett, Secretary; North Carolina State College Agricultural Club, A. H. Veasey, President, Raleigh, N. C.; Tuskegee, Ala., S. B. Simmons, Secretary; Wellesley College, Margaret W. Conant, Secretary; Ontario Agricultural College, M. Leslie Hancock, Secretary; University of California, Alex. Matthew, Secretary, Berkeley, Cal.; University of Wisconsin, J. S. Donald, President, Madison, Wis.; Mount Hermon, Mass., A. O. Charskey, President; Davis, Cal., Enrique Aranda, Secretary.

Institut National d'Agronomie, members: MM. Angot Gerard, Samsoen, Tran Van Trin, 16 Rue Claude Bernard, Paris, France; Hokkaldo Imperial University, Prof. K. Morimoto, Organizer, Sapporo, Japan; Philippines University, Prof. Jose J. Mirasol, Los Banos, P. I.

There are forty affiliated organizations throughout the world.

WHEAT HARVEST SEASONS OF THE WORLD.

January—Australia, New Zealand and Chili.
February and March—East India, Upper Egypt.
April—Lower Egypt, Syria, Cyprus, Persia, Asia Minor, India, Mexico and Cuba.
May—Algeria, Central Asia, China, Japan, Morocco, Texas and Florida.
June—Turkey, Greece, Italy, Spain, Portugal, South of France, California, Louisiana, Mississippi, Alabama, Georgia, Carolinas, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Missouri.
July—Roumania, Bulgaria, Austria-Hungary, South of Russia, Germany, Switzerland, France, South of England, Oregon, Nebraska, Minnesota, Wisconsin, Colorado, Washington, Iowa, Illinois, Indiana, Michigan, Ohio, New York, New England and Upper Canada.
August—Belgium, Holland, Great Britain, Denmark, Poland, Lower Canada, Columbia, Manitoba, North and South Dakota.
September and October—Scotland, Sweden, Norway, and North of Russia.
November—Peru, South Africa and Argentina.
December—Burmah and Argentina.

CORN HARVEST TIME.

March—New South Wales.
March and April—Argentina.
September and October—All European countries.
October—The crop of the United States is harvested principally in this month.

Chosen grows over 100,000 bales a year; Uganda, over 90,000; Anglo-Egyptian Sudan, over 40,000. A normal world crop is about 22,000,000 bales.

There are about 152,000,000 cotton spinning spindles in the world, of which 130,000,000 are actively at work, as a rule.

Wool crops of the world—The world production of wool was estimated for 1923, by the U. S. Department of Agriculture, at 2,604,911,000 lbs., a decrease of 66,000.000 lbs. from 1922.

The average yearly (1909-1913) pre-war production was 3,200,000,000 lbs.

The 1923 production, by chief countries (lbs.) was—Australia and Tasmania, 490,000.000; United States, 266,110,000; Argentina, 270,000,000; British South Africa, 185,000,000; New Zealand, 180,000,000; Russia in Europe, 150,000,000; United Kingdom, 102,300,000; Uruguay, 96,300,000; Spain, 88.000,000; British India, 65,000,000; China, 61,320,000; Turkey in Asia, 60,000,000; Italy, 58,700,000; Germany, 53,600,000; Roumania, 52,800,000.

The number of woolen mills in the United States exceeds 1,000, and there are about 80,000 looms, over 8,000 of which are used in making carpets and rugs. The number of active spinning spindles exceeds 4,000,000, pretty evenly divided between woolens and worsteds. There are usually from 250,000 to 500,000 idle spindles.

VENTILATION AND LIFE.

(By the U. S. Public Health Service.)

To keep on living everybody must have sufficient air to breathe; and to keep on being healthy this air should be sufficiently pure and sufficiently moist and sufficiently cool. By ventilation all these ends are sought to be attained.

In the open air, away from noxious gases, ventilation looks after itself; elsewhere, particularly in houses or in any closed spaces, it must be looked after. No matter how pure the air in such a space may be any one who enters it at once begins to pollute it with his breath; and it will ultimately become injurious to health unless it is renewed by natural or artificial means.

Renewal is necessary because when "breathing in" one takes away something from the air (oxygen); and when "breathing out" one adds something to the air (carbon dioxide). Oxygen is taken from in-breathed air by the blood that circulates through the lungs and is carried away to help the food build up the body, keep it warm, and energize it.

Oxygen constitutes about one-fifth of the air; and about one-half of that one-fifth is breathed out, unchanged, and may be breathed over again.

Carbon dioxide is part of the waste that is left over in the body when oxygen and food combine to build up the body, etc. It is picked up by the blood, carried to the lungs, and breathed out. It is poisonous when breathed in again.

Rosenau estimates (1917) that to keep healthy a man weighing 160 pounds needs 2,400 cubic feet of fresh air every hour when resting; 3,200 when doing light work, and 6,100 when doing hard work.

Temperature and humidity (per cent. of moisture in the air) are also closely associated with ventilation. The body heat given off by persons congregated in a workroom, church, theatre or other buildings raises the temperature and increases the moisture. When the temperature rises above 86° F. and the humidity above 80 per cent. they cause considerable discomfort; when they rise higher they cause suffering; and when they rise still higher they may cause heatstroke.

In winter, on the other hand, the heated air in buildings is usually too dry; often the humidity falls to 20 per cent., which is lower than that in a desert. Air as dry as this draws moisture from the skin and from the mucous membranes of the nose, throat, and mouth and irritates them.

To be comfortable the humidity of a workroom should be about 50 per cent.; and it would pay the plant manager to see that it is kept that high, for at 50 per cent. less heat is necessary and coal is saved; a temperature of 62° F. is quite high enough if the work is active.

Night air is exactly like day air; and neither of them is anything like so injurious as the air in a room whose windows are closed and whose door is probably never opened all night long, no matter how many persons are breathing into it carbon dioxide—and rebreathing it—all night long.

Beware of unventilated garages because of the carbon monoxide given off from automobile exhausts.

ARE "OLD AMERICANS" CHANGING COLOR?

By "old Americans" are meant all those whites whose families have had no mixture with more recent elements, due to immigration, on either the father's or mother's side for at least three generations.

The study of these "old Americans" was made by Ales Hrdlicka, in the anthropological laboratory of the U. S. National Museum at Washington and also in the country at large.

He concludes that the "old Americans" as well as the people in Great Britain, probably are slowly growing darker, as to hair and eyes, but there is no positive confirmation by his studies.

Two-thirds of the old stock males and three-fourths of the females show skin that may be classed as medium.

In only five per thousand in males, but in fifty-two per thousand in the females, is the skin plainly lighter than the medium. All of these cases are associated with pure light eyes and light or red hair.

In a little over one-fourth of the males and in one-sixth of the females the skin is perceptibly darker than medium. Such skin is generally associated with brown eyes and medium to dark hair.

Only one among sixteen males and one among 14.5 females has real blond hair.

One-half of the males and over four-tenths of the females show medium dark (or "medium brown") hair.

In one-fourth of the males and three-tenths of the females the hair is dark ("dark brown") to near black.

In approximately 1 per cent. in the males and but a little more in the females the hair is fully black.

In 2.6 per hundred of males and 4.9 per hundred of females the hair is red or near red.

The females show a slight to moderate excess of true blondes (especially golden and yellow), but also of darks, blacks, and reds, over the males.

Approximately one-third of the eyes of the males and one-fourth of the eyes of the females of the old Americans are pure lights.

One-sixth of the males and one-fifth of the females show eyes, the iris of which is pure brown (light, medium, or dark).

Over one-half of the males as well as females have eyes that show plain traces of brown with light.

There are on the whole more light and less dark eyes than there is of light and dark hair.

Over one-half of the males and nearly one-half of the females are "intermediates."

Blonds are scarce, as are also true brunets, but the latter are plainly more frequent, especially in the females.

The females show slightly more blondes, more brunettes and less intermediates than the males.

In general, grayness manifests itself early in the old Americans.

In the males, grayness proceeds apparently faster than in the females.

The males lose hair sooner, more rapidly and much more extensively than the females.

$1,000,000 A WEEK FOR CHEWING GUM.

The chewing of gum is no longer a peculiarly American habit, but has extended to Europe, South America, Africa, and Asia, and has even begun to displace the immemorial custom of betel-nut chewing in Ceylon, India, Burmah, and the Straits Settlement, says a bulletin of the United States Department of Commerce.

Based on the factory output for 1919, valued at $53,430,000, it is evident, the bulletin points out, that the American public expends for chewing gum considerably more than an average of a million dollars a week.

This business dates back to 1860 when, it is stated, the original industry was begun on an outlay of $55.

In that year an American inventor while making an unsuccessful attempt to vulcanize the sap of the sapota tree for use as a rubber substitute discovered the similarity of chicle to spruce and cherry gums, the main chewing gums hitherto known.

In 1914 the chewing gum industry represented a capital investment of $10,000,000, while in 1919 it had more than doubled, being officially registered at $23,703,000.

POISONS AND THEIR ANTIDOTES.

NOTE—When the poison is unknown, give stimulants and soothing liquids. The data below is from an American National Red Cross textbook on first aid.

Table I.—Poisons for which an emetic is always given first.

The treatment is in addition to an emetic.

ALCOHOL—In any form—rum, gin, whiskey, proof spirits, etc., also methyl alcohol.

Symptoms—Giddiness, swaying of body, inability to stand. Face flushed, eyes red, skin clammy, weak pulse, may be convulsions and unconsciousness.

Treatment—Hot coffee or aromatic spirits of ammonia. Try to arouse, but if weak do not exhaust by making walk. Dash cold water on face and chest. When somewhat recovered, wrap warmly and put to bed.

ARSENIC—Found in rat poisons, vermin killer, Paris green, Fowler's solution. Sometimes in tinned fruits and beer.

Symptoms—Severe pain in stomach; purging; severe cramps in legs, vomiting, dryness of throat, cold sweats, profound shock.

Treatment—Much lukewarm water. Magnesia in large quantity or dialyzed iron in ½-ounce doses, repeated. Beaten-up eggs or castor oil and stimulants. Warmth and rubbing. If rat poison has been taken, treat as for poisoning by arsenic.

CARBON MONOXIDE—It is in blast and coke furnaces and foundries; in leaky furnaces or chimneys; about gas stoves without flue connections.

The exhaust gases of gasoline automobiles contain from 4 to 12 per cent. of carbon monoxide.

Symptoms—Carbon monoxide exerts its extremely dangerous action on the body by displacing oxygen from its combination with hemoglobin, the coloring matter of the blood which normally absorbs oxygen from the air in the lungs and delivers it to the different tissues of the body.

Treatment—1. Administer oxygen as quickly as possible and in as pure form as is obtainable, preferably from a cylinder of oxygen through an inhaler mask. 2. Remove patient from atmosphere containing carbon monoxide. 3. If breathing is feeble, at once start artificial respiration by the prone posture method. 4. Keep the victim flat, quiet, and warm. 5. Afterward, give plenty of rest.

LEAD—Sugar of lead, lead paint, white lead.

Symptoms—Throat dry; metallic taste with much thirst, colic in abdomen, cramps in legs, cold sweat; sometimes paralysis of legs and convulsions.

Treatment—½-ounce Epsom salts in tumbler of water. Stimulants and soothing liquids.

OPIUM—Laudanum, morphine, paregoric, some soothing syrups and cough mixtures.

Symptoms—Drowsiness, finally unconsciousness; pulse full at first, then weak; breathing full and slow at first, gradually slower and shallow; pinhead pupils; face flushed, then purple.

Treatment—May have difficulty in getting emetic to work; plenty of strong coffee. Try to arouse by speaking loudly and threatening, but do not exhaust by compelling to walk, etc. Stimulants and artificial respiration.

PHOSPHORUS—In matches, phosphorous paste in many rat poisons and vermin killers, often with arsenic.

Symptoms—Severe pain in stomach, vomiting. Skin is dark and may have odor of phosphorus. Bleeding from nose, bloody purging. Convulsions.

Treatment—Epsom salts, ½-ounce in tumbler of water, or magnesia. Stimulants. Soothing liquid best. Milk. Avoid fats and oils.

PTOMAINE—Poisoning by decayed meat, fish, milk, or ice cream.

Symptoms—Nausea, vomiting, purging. Skin cold and clammy. Pulse weak. Severe pain in abdomen, cramps, great prostration and weakness. Often eruption on skin.

Treatment—Purgative, castor oil or Epsom salts. Teaspoonful of powdered charcoal, and repeat.

Botulism—Poisoning from infected ripe olives, preserved fruits and food.

Symptoms—Very similar to ptomaine poisoning but may be delayed for several hours. Treatment same as ptomaine poisoning.

Poisonous Mushrooms or Toadstools and Fungi—

Symptoms—Vomiting, purging and watery diarrhea. Discharges, sometimes accompanied by blood. Pulse slow and strong at first but later weak and rapid. Saliva and sweat pour out. Dizziness and blindness; some cases convulsions and stupor.

Treatment—Give emetic at once and send for physician, who will administer sulphate of atropin, hypodermically in most cases.

STRYCHNINE—NUX VOMICA—Strychnine is frequently used on meat to poison animals, and in some vermin killers.

Symptoms—Convulsions, very severe, alternating with cramps, affecting all muscles of body. Back is bowed up by spasms of muscles. Jaws are locked. Spasm of muscles is so great that it prevents breathing, so face becomes dusky.

Treatment—Powdered charcoal, if possible, in large quantity. Follow with another emetic. Absolute quiet so as not to bring on convulsions.

Table II.—Poisons for which an emetic should not be given first.

MERCURY—Corrosive sublimate, antiseptic tablets. Other salts of mercury much less commonly used.

Symptoms—Corrosive sublimate is very irritating, so when taken turns mouth, lips and tongue white. Mouth is swollen and tongue is shrivelled; always metallic taste in mouth. Pain in abdomen. Nausea and vomiting mucus and blood, bloody purging, cold, clammy skin, great prostration, and convulsions.

Treatment—First, give white of egg or whole egg beaten up; flour and water, but not so good. Emetics, soothing liquids, and stimulants.

NITRATE OF SILVER—Lunar caustic.

Symptoms—Pain in mouth and stomach; mouth first colored white, then black; vomit first white, then turns black.

Treatment—Common salt dissolved in water, or milk very frequently. Then emetic. Afterward soothing liquids and stimulants.

Table III.—Poisons for which an emetic should never be given.

STRONG CORROSIVE ACIDS—1. Acetic; 2, Hydrochloric (spirits of salt); 3, Nitric (aqua fortis); 4, Sulphuric (vitriol.)

Symptoms—Very severe burning pain in mouth, throat, and stomach. Wherever acid touches skin or mucous membrane they are destroyed. Frequently vomiting and purging. More or less suffocation from swelling of throat, great prostration and shock.

Treatment—An alkali to neutralize acid. Best, magnesia or chalk in water, given frequently and freely. Lime, whiting, baking soda, plaster, tooth powder, or even wood ashes may all be used for alkali, or ammonia, a tablespoonful to 2 cups of water, but those mentioned above are better as they are less irritating. Afterward, soothing liquids, milk, milk and egg, olive oil. Stimulants are practically always required. If acid has entered air passage, may inhale fumes of ammonia.

OXALIC ACID (salts of lemon or sorrel).

Symptoms—Much like corrosive acids just named, but not so much burning of lips, etc.

Treatment.—Magnesia, chalk, and water or lime water to neutralize acid. Then one ounce of castor oil and stimulants freely.

CARBOLIC ACID (Phenol)—(Very commonly used in attempts at suicide.)

Symptoms—It is also a powerful corrosive poison, which causes great pain and vomiting. Severe case: Unconsciousness very soon and early death. Usually easy to tell by odor of acid and burn, which with pure acid is white and with impure, black.

Treatment—Rinse mouth with pure alcohol. If grown person, should swallow three or four tablespoonfuls of alcohol mixed with an equal quantity of water. Follow this in five minutes with two tablespoonfuls of Epsom salts dissolved in a little water. Though not so good, limewater may be used to rinse mouth, several glasses of it being swallowed; three or four raw eggs may be given or castor or sweet oil. Stimulants always, and keep warm.

STRONG CAUSTIC ALKALIES: 1, Ammonia: Strong ammonia, ammonia liniment, camphor liniment; 2, Lime: Quicklime; 3, Potash: Caustic potash; 4, Soda: Caustic soda.

Symptoms—Much like corrosive acids. Immediate severe burning, pain in mouth, throat, and stomach. Vomiting and purging. Alkali destroys tissues of mouth it has touched. Severe shock and suffocation from swelling.

Treatment—An acid to neutralize alkali. Vinegar, lemon or orange juice. Tartaric or citric acid in plenty of water. Soothing liquids, stimulants. If cannot swallow, may inhale acetic acid or vinegar from a pocket handkerchief.

CAUTION: In giving any antidote do not wait for it to dissolve but stir it up in any fluid which can be obtained, except oil, and give it at once.

HELP IN CASE OF ACCIDENTS.

Drowning. There are several methods of artificial respiration, but the Schaefer prone-pressure one-man method is considered the best, being widely used throughout the United States as well as in many foreign countries. By the plan many human lives are saved each year by members of the U. S. Vol. Life Sav. Corps, who use it to the exclusion of all others. The directions are as follows;

Send some one immediately for a doctor. DO NOT AWAIT HIS ARRIVAL, but proceed as follows: After the patient has been taken from the water locate an even flat surface, laying the patient face downward. Loosen all clothing, collars, belts, garters, etc. Clear the mouth of all mucus and foreign matter, pull the tongue out and see that it remains out; then straddle the patient, placing your hands under his stomach, clasping them together. In this manner gradually lift the patient a few inches, squeezing as you do so, dropping him suddenly. Sometimes a sharp slap between the shoulders is helpful. Lifting the patient as above mentioned should only be done once or twice, taking a few seconds, as it is merely to start anything that might be blocking the air passages.

Remind some one in the crowd about the doctor. Keep the patient lying face downward on an even flat surface, arms extended, the forehead resting on the leeward forearm, tongue out, facing the wind, the windward arm to be crooked, acting as a protector to the face. Straddle the patient as before, facing his head: place your hands, open spread, upon the patient's lower or short ribs, commencing with a downward and inward pressure to the count of three, relaxing to the same count. This motion is continuous, first down, then up, swinging the body to and fro to the count of three. After the downward pressure to the count of three the hands are relaxed from the ribs to the same count each time, and should be maintained until signs of life show—namely, when the patient breathes unaided.

For warmth and circulation, rub the arms and legs upward (toward the heart), no back strokes. Circulation should not be started until after breathing has been fully restored. During the period of operation the subject should be kept warm by the application of hot water bottles, heated bricks, etc., applied to the pit of the stomach, the armpits, between the thighs or to the soles of the feet. Should you not be able to resort to these suggestions as to warmth, a fire built on the lee side of the patient at a distance not to set fire to him would help serve the purpose. Stimulants should not be given by the mouth until after the patient is able to swallow—that is, when the patient is fully conscious, then give plain black coffee, or half teaspoonful of aromatic spirits of ammonia in half a glass of water.

The patient should be kept in bed as quiet as possible in a well ventilated room. To be feared: Pneumonia or possible collapse of the heart.

This treatment should be continued at least an hour. As a general rule signs of life begin to show after 8 or 10 minutes' work. One should not be discouraged if it takes longer, as life has been restored after working as long as 30 minutes, although this is not common.

Signs of death are: Breathing and the heart's action entirely cease, eyelids generally are half closed, the pupils dilated, the tongue approaches the under edges of the lips, and these, as well as the nostrils, are covered with a frothy mucus. Coldness and pallor of surface increase.

Remember that mechanical devices are dangerous in the hands of the inexperienced.

Do not await the arrival of the doctor before starting the artificial respiration. Start immediately.

Do not lay the patient on the back when applying artificial respiration. Always face downward.

Do not hold the body up by the feet.

Do not dash water in the patient's face.

Do not place the body in a bath unless ordered to do so by the doctor.

Do not tie strings on the tongue or run pins or nails through it.

Do not roll the patient over barrels, boxes, or a fence.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain or mixed with chalk or whiting. Sweet or olive oil and lime water.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

Stings of Venomous Insects, etc. Apply weak ammonia, oil, salt water, or iodine.

Fainting. Place flat on back; allow fresh air and sprinkle with water. Place head lower than rest of body.

Mad Dog or Snake Bite. Tie rubber ligature, or a cord, around the arm or the leg a short distance above the bite. Enlarge the tooth punctures by cuting into them at least as deep as they are. Make two cuts over each, crossing one another. Suck the blood away, provided there are not cuts or fresh abrasions on the lips or in the mouth. If possible, wash the wounds and bathe them in a solution of permanganate of potash crystals. In the case of snake bite, inject snake anto-toxin, preferably into the skin of the abdomen. If weakness and giddiness develop, inject strychnine in the same way. Whiskey or brandy may be used in an emergency. Give a cathartic. Keep the wound clean and dress it with antiseptic gauze. In the case of bite by a mad dog the Pasteur serum should be administered as soon as possible by a physician.

According to Raymond L. Ditmars, curator of reptiles at the N. Y. Zoological Park, there are 111 species of snakes in the U. S., of which 17 are poisonous, as follows: **Elapine Snakes**—Common Coral Snake, the Southeast; Sonoran Coral Snake, the Southwest. **Crotaline Snakes**—1. *The Moccasins*—Copperhead Snake, Eastern U. S.; Water Moccasin, the Southeast. 2. *Dwarf Rattlesnakes*—Massasauga, Central Region; Pigmy Rattlesnake, the Southeast. 3. *Typical Rattlesnakes*—Timber Rattlesnake, Eastern U. S.; Diamond-Back Rattlesnake, the Southeast; Prairie Rattlesnake, Prairie Region; Pacific Rattlesnake, Pacific Region; Texas Rattlesnake, Texas to California; White Rattlesnake, the Southwest; Tiger Rattlesnake, the Southwest; Blacktailed, the Southwest; Price's Rattlesnake, the Southwest; Green Rattlesnake, the Southwest; Horned Rattlesnake, the Southwest.

Snakes do not sting, they bite, with a pair of hollow teeth on the upper jaw. These teeth have an opening at the tip for the ejection of venom.

COMMON STAINS AND HOW TO REMOVE THEM.

Blood and meat juice. Use cold water; soap and cold water; or starch paste.

Bluing. Use boiling water.

Chocolate and cocoa. Use borax and cold water.

Coffee and tea. (Clear.) Use boiling water; bleach if necessary. (With cream.) Use cold water, then boiling water, bleach if necessary.

Cream and milk. Use cold water, soap.

Egg. Use cold water.

Fruit and fruit juices. Use boiling water; bleach if necessary.

Grass. Use cold water; soap and cold water; alcohol; or a bleaching agent.

Grease and oils. Use French chalk, blotting paper or other absorbent; or warm water and soap; or gasoline, benzine, or carbon tetrachloride.

Iodine. Use warm water and soap; alcohol; or ammonia.

Ink. Try cold water; then use an acid or bleach.

Iron. Use oxalic acid; hydrochloric acid; salts of lemon; or lemon juice and salt.

Kerosene. Use warm water and soap.

Lampblack and soot. Use kerosene, benzine, chloroform, ether, gasoline, or carbon tetrachloride.

Medicine. Use alcohol.

Mildew. If fresh, use cold water; otherwise try to bleach with potassium permanganate.

Paint and varnish. Use alcohol, carbon tetrachloride, chloroform, or turpentine.

Perspiration. Use soap and warm water: bleach in the sun or with Javelle water or potassium permanganate.

Pitch, tar, and wheel grease. Rub with fat, then use soap and warm water; or benzine, gasoline, or carbon tetrachloride.

Scorch. Bleach in the sunshine.

Shoe polish. (Black.) Use soap and water; or turpentine. (Tan.) Use alcohol.

Stove polish. Use cold water and soap; or kerosene, benzine, or gasoline.

Vaseline. Use kerosene or turpentine.

Water. Steam or sponge the entire surface.

Wax. Scrape off as much as possible. Use French chalk, blotting paper or other absorbent with a warm iron; or use benzine or gasoline.

ILLITERACY IN FOREIGN COUNTRIES.

The term illiterate, as here used, includes all persons unable to write their own language, except in cases indicated by an asterisk (*), where the basis is inability to read (a).

DATA FROM BOARD OF EDUCATION, LONDON.

England and Wales. (1914)—Percentage of men signing marriage register by mark. 0.8; percentage of women signing marriage register by mark, 1.0.

Scotland. (1920)—Percentage of men signing marriage register by mark, 0.4; percentage of women signing marriage register by mark, 0.4. (Report of Registrar General for Scotland.)

Ireland. (1920)—Percentage of men signing marriage register by mark, 3.0; percentage of women signing marriage register by mark, 2.1. (Report of Registrar General for Ireland.)

Commonwealth of Australia. (1920)—Percentage of men and women signing marriage register by mark, 0.16. (Official Year Book of Commonwealth, 1922 p. 758.)

Victoria, Australia. (1921)—Out of 13,676 marriages celebrated in that year 14 men and 9 women signed with a mark. (Victorian Year Book, 1921-22, p. 324.)

New South Wales. (1917)—The rate per 10,000 marriages of persons signing the registers by mark was 92. (N. S. Wales Statistical Register, 1917-18, p. 42.)

South Africa. (1920)—Signatures by mark in marriage register (white persons): Cape of Good Hope Province, 70 out of 6,336; Natal, 6 out of 1,354; Transvaal, 13 out of 5,432; Orange Free State, 12 out of 1,812; total for the Union, 101 out of 14,934. (Official Year Book of the Union of South Africa, 1920-21, pp. 215-222.)

New Zealand. (1916)—4.17% of the total population over five years of age could not read. The percentage of persons above 20 unable to read was 1.20. The percentage of persons between the ages of 5 and 10 unable to read was 25.64. These figures appear to exclude the Maori population. (Report of the Results of a Census of the Population of the Dominion of New Zealand taken for the night of October 15, 1916, pp. 65-66.)

Spain. An unofficial pamphlet by L. Luzuriaga on Illiteracy in Spain gives the following figures: Total population 1910, 59.35% illiterate; total population over ten years, 49.9% illiterate (77); recruits of 1917, 28.06% illiterate (19).

The Jewish figures in the table above are based in part on revised estimates made in 1924 by Dr. H. S. Linfield of the Bureau of Jewish Social Research of New York City. His total for the Jews of the world is 15,550,000.

He credits 3,600,000 Jews to the United States, over 126,000 to Canada; 100,000 to Argentina; 3,500,000 to Poland; 3,263,000 to Russia in Europe; 84,000 to Palestine; 151,000 to Syria, Mesopotamia, and Arabia; 370,000 in Asia, Asia Minor, Central Asia, and Siberia, and including, also, 29,000 in India, China, and Japan.

Dr. Linfield found that nearly 800,000 Jews live under the British flag, while 550,000 are in France or in the French dependencies along the Mediterranean Sea. He estimated that 295,000 Jews live in Great Britain and Northern Ireland; 217,000 in the British dominions—Australia, Canada, Irish Free State, New Zealand and the Union of South Africa—and 385,000 in Algeria, Morocco, Tunis and Syria.

In Africa, according to Dr. Linfield's compilation, nearly 451,000 Jews live in the Mohammedan Arabic-speaking countries of the north, contributing 1.6 per cent. of the population. 4.1 per cent. of the white population of the Union of South Africa, or 62,000, are Jews, while there are 50,000 Falashas in Abyssinia.

The Jews in New York City he puts at 1,643,000, or 29 per cent. of the total population.

The author estimates the Jews in Europe at 10,512,000.

"SCOFFLAW" PRIZE STIGMA FOR WETS.

The prize of $200 in gold offered in 1923 by Delcevare King of Quincy, Mass., for the best word to stigmatize those who scoff at the Prohibition Law and other laws was won by Miss Kate L. Butler of Dorchester House, Dorchester, Mass.

Her word is "scofflaw."

The judges were King, the Rev. E. Talmadge Root, Chairman of the New England Citizenship Conference for Law Enforcement, and A. J. Davis, Regional Superintendent of the Anti-Saloon League.

In selecting the winning word from the 25,000 suggested, which came from every State in the Union and several foreign countries, the committee gives five points in its standard:

1. Preferably one of one or two syllables.
2. A word beginning with "S," as "S" words have a sting.
3. A word for the lawless drinker—law, not drink, being the basis.
4. Applying to violations of all laws.
5. A word linked with President Harding's statement, "Lawless drinking is a menace to the Republic itself."

ANIMAL LONGEVITY.

(From an article in *Natural History* by Frederic A. Lucas, Director of the American Museum of Natural History, N. Y.)

There is a rather reliable account of a tortoise 110 years old.

There are plenty of statements that fish are known to attain, and birds have reached, many scores of years, but when an attempt is made to verify these statements they resolve themselves into matters of hearsay or of belief rather than records of facts. We naturally associate size with age, for the bigger an animal the longer should it take to reach that size; but while we are apt to credit such creatures as whales with a century or more of existence there is reason to believe that they are by no means as venerable as they appear, and the same seems to be true of elephants, which reach their full stature in comparatively few years.

Thus the once famous Jumbo, whose name has been embodied in the dictionary as a synonym for all things big, reached his full height and weight in 21 years, growing in this time from an infant three feet high, weighing a few hundred pounds, to a towering adult eleven feet in height and weighing six and a half tons.

As for the Indian elephant, Mr. Pocock, from a study of the teeth, estimates the average duration of life at about 70 years, and so far I have not been able to lay hands on an authenticated record of an elephant older than this, although these animals are said to attain an age of 120 years.

Personally I confess that I believed whales required many years, possibly 100, to reach their full growth until I became somewhat intimately acquainted with them at Balaena, when my ideas underwent a radical revision. Briefly, if whales continued to grow indefinitely there would be an infinite variety of sizes; as a matter of fact they fall into rather few categories and there are a not inconsiderable number of whales of moderate bulk that are, as shown by the condition of their bones, indubitably old, or at least adult. How long it takes to reach a length of eighty feet, with a known weight of 60 tons, or the maximum of 103 feet and an estimated 80 or 90 tons, we know not, but the chances are that it takes far less time than is supposed.

There are some animals or groups of animals, such as fishes and reptiles, that seem to have no fixed limits of life and growth and thus appear to present great possibilities in the matter of age. Unfortunately there are few records on which to base any trustworthy conclusions and the most reliable of these show that under favorable conditions some reptiles grow much more rapidly than is generally supposed: The big alligator in the New York Zoological Park grew from seven feet to twelve feet in length in twelve years, though theoretically it should have taken him at least half a century to attain such an unusual size, almost the maximum for an alligator.

If reptiles grow so rapidly nowadays they probably did so in the past, and brontosaurus and his kindred may not have taken a century or two to reach their 70 or 80 feet of length, as has so often been supposed.

Records of birds are rather disappointing, for just as the greatest creature is apt to shrink before the application of a two-foot rule, and fish when weighed in the balance are often found woefully wanting in avoirdupois, so the ages of birds become wonderfully less when their claims to longevity are investigated. Parrots stand well toward the head of the list with numerous records on good authority of various species attaining an age of from 50 to 80 years. Geese and swans too are long lived, and include some possible centenarians, though just as the census returns show a part of womankind to be much younger than it looks, so there are few reliable records of swans more than seventy years old.

There have been many attempts to estimate the ages to which various animals might attain under favorable circumstances, but none of the estimates based on size, time required to reach maturity, period of incubation (in birds) is borne out by the known facts. The best of them is possibly that applied to mammals, that their normal life is five times that required to reach maturity, this being determined by the union of the epiphyses with their adjacent bones.

"Clover," the "oldest horse in the world," died at the age of 51 years, April 26, 1924, at Catawissa, Pa.

"Steve," a bay horse 17 hands in height, was 45 years old on Sept. 23, 1924, and was enjoying ground oats in a stable in Jersey City, N. J.

DEATH RATES IN FOREIGN COUNTRIES.

(Figures for 1920, unless otherwise noted, show deaths per 1,000 population.)

Australia (1921), 9.9; Austria (1919), 20.3; Belgium, 13.5; Ceylon (1921), 31.2; Chili, 30.8; Denmark, 12.9; England and Wales, 12.4; Finland, 15.9; France (uninvaded region), 17.7; Germany (excluding Posen, Memel, Danzig and territory lost to Czecho-Slovakia, Denmark, and Belgium), 15.1; Ireland, 14.8; Italy (1919), 19.0; Jamaica, 25.3; Japan (1919), 22.8; Netherlands (1921), 11.1; New Zealand (1921), 8.7; Norway (1919), 17.1; Ontario Province, Canada, 13.9; Scotland (1921), 13.6; Spain, 23.2; Sweden (1921), 12.4; Switzerland, 14.4; United Kingdom, 12.8.

Still births not included in the table, either as to births or deaths.

BIG FISHES CAUGHT BY ANGLERS, 1916-1923.

(Largest game fish of each species entered in Field and Stream's annual prize fishing contest since 1916.)

Striped Bass (1916)—Weight, 59 lbs. 14 oz. Caught by August Kubler, N. Y. City, at Point Pleasant, N. J.

**Large Mouth Black Bass* (1923)—Weight, 20 lbs. 2 oz. Caught by Fritz J. Friebel, near San Antonio, Fla.

Brook Trout (1917)—Weight, 7 lbs. 10 oz. Caught by Carl S. Carlson, in Magalloway River, Me.

Tarpon (1918)—Weight, 205 lbs. Caught by W. Ashby Jones, in Caloosahatchee River, Fla.

Cutthroat Trout (1919)—Weight, 8 lbs. 3 oz. Caught by O. LaLonde, Butte City, Mont.

**Muscallonge* (1919)—Weight, 51 lbs. 3 oz. Caught by J. A. Knobla, Donaldson, Wis.

Ouaniche (1919)—Weight, 16 lbs. 12 oz. Caught by R. C. Haynes, Auburn, Me.

Bluefish (1919)—Weight, 18 lbs. Caught by Geo. Barandon, Bronx, N. Y.

**Channel Bass* (1920)—Weight, 68 lbs. 4 oz. Caught by Louis M. Silvia.

Rainbow Trout (1921)—Weight, 23 lbs. 8 oz. Caught by Dr. A. E. Sykes, Oakland, Cal., at Rocky Point, Ore.

**Wall-Eyed Pike* (1921)—Weight, 15 lbs. Caught by Ernest L. Burrell, Chicago, Ill., at Robins, Wis.

Steelhead (1922)—Weight, 15 lbs. 5 oz. Caught by H. L. Van Luven, Portland, Ore., in Rogue River, Ore.

Sailfish (1922)—Weight, 46 lbs. Caught by Allan C. House, Cleveland, O., at Palm Beach Pier, Fla.

Tuna (1922)—Weight, 166 lbs. Caught by A. R. Martin, Pasadena, Cal., at San Clemente Island, Cal.

Brown Trout (1923)—Weight, 12 lbs. Caught by Geo. A. Babb, Lake Nebagamon, Wis., in Brule River, Wis.

Great Northern Pike (1923)—Weight, 28 lbs. Caught by L. S. Mathews, Minneapolis, Minn., at Mille Lac, Minn.

**Weakfish* (1923)—Weight, 14 lbs. 5 oz. Caught by W. R. Roebling, Newark, N. J., at Tuckerton Bay, N. J.

**Lake Trout* (1922)—Weight, 36 lbs. 8 oz. Caught by E. D. Calvert, in Lake of the Woods, Ontario, Canada.

Fish marked with * are World's Record Fish taken with rod and reel.

FISHERIES OF THE WORLD.

Approximately $750,000,000 worth of fish are caught and sold every year in the oceans, seas, lakes and rivers of the world, according to estimates made by the United States Bureau of Fisheries, Washington, D. C.

Fish caught yearly in this country and Alaska, including salmon and cod, weigh about 2,500,000 lbs., and are valued at $80,000,000.

Yields of other chief maritime countries, with market values are: Canada, 852,000,000 lbs. ($50,000,000); Denmark, 196,000,000, lbs. ($15,000,000); England and Wales, 1,252,000,000 lbs. ($90,000,000); Germany, 255,000,000 lbs. ($11,000,000); Holland, 374,000,000 lbs. ($11,000,000); Russia, 1,206,000,000 lbs. ($50,000,000); Scotland, 583,000,000 lbs. ($25,000,000); Spain, 890,000,000 lbs. ($73,000,000); Sweden, 300,000,000 lbs. ($23,000,000).

TELESCOPES.

(Revised by Edwin B. Frost, Director of the Yerkes Observatory.)

Astronomical telescopes are of two kinds, refracting and reflecting.

In the first, the light falls upon a lens which converges the rays to a focus, where the image may be magnified by a second lens, called the eyepiece, or may be directly photographed.

The reflector consists of a concave mirror, generally of glass coated with silver, which throws the rays back toward the upper end of the telescope, where they fall on the eyepiece or on the photographic plate, as in the case of the refractor.

Since the rays of light do not pass through the mirror, far less perfect glass is required and reflectors can be made much larger than refractors.

For many kinds of celestial photography reflectors are better than refractors, but the latter is the best all-around instrument. It is not sensitive to changes of temperature and is the only one which can be used on the sun.

The largest and most active telescopes in the world are in America. They are, for refractors: The 40-inch of the University of Chicago, at the Yerkes Observatory (62 feet long); the 36-inch of the University of California, at the Lick Observatory, Mount Hamilton; the 30-inch photographic refractor of the University of Pittsburgh; the 26-inch instruments at the U. S. Naval Observatory, Washington, and at the University of Virginia.

There are several excellent instruments of 20-24 inches at different institutions.

The largest reflector yet constructed, 100 inches in diameter, is at the observatory of the Carnegie Institution on Mt. Wilson, California. This observatory has also a very fine reflector of 60 inches aperture.

By using a combination of auxiliary mirrors different focal lengths, even running as high as 150 feet, can be obtained with these instruments.

A splendid reflector of 72 inches is installed at the Dominion Astrophysical Observatory, Victoria, B. C.

Other active reflectors are: The 40-inch of the Lowell Observatory, Flagstaff, Arizona; the 37½-inch of the University of Michigan, Ann Arbor; the 36-inch of the Lick Observatory, at Mt. Hamilton, and another of the same size at its southern station at Santiago, Chili; a 24-inch at the Yerkes Observatory, and a 24-inch at the Harvard Observatory.

All of the refractors given above were constructed by Alvan Clark & Sons, except the third, that of the Allegheny Observatory, Pittsburgh, which was figured by Brashear.

The principal large telescopes in use in Europe are: The 30-inch refractor at the Observatory of Pulkova, Russia; the 32-inch at Meudon, France; the 28-inch at the Royal Observatory, Greenwich, England.

Reflectors of large size are in use as follows: A 30-inch at Hamburg, and at Heidelberg.

Photographic refractors having a four lens objective are smaller in size and shorter in length. The best known of these are: The 24-inch of the Harvard Observatory at its station in Arequipa, Peru; two of 16 inches at Heidelberg and at the Harvard Observatory; and the 10-inch Bruce telescope at the Yerkes Observatory.

The light-gathering power of a telescope is proportional to the area of its lens or mirror. The 40-inch Yerkes refractor increases the amount of light forty thousand times over that received by the naked eye.

The magnifying power of a telescope is proportional to its length as well as to the shortness of focus of its eyepiece.

Thus the use of different eyepieces yields various magnifying powers, but those exceeding 1,000 are seldom used because of the trembling of the earth's atmosphere.

WHAT A WOMAN SPENDS FOR CLOTHES.

The average American housewife, according to an inquiry by the United States Department of Labor, pays $4.42 for her hat, 57 cents for her veil, $15.65 for a year's supply of cotton suits, $24.97 for wool suits, $14.29 for a silk dress, 52 cents for an apron, $1.55 for a wrapper, $4.29 for a silk blouse, $6.29 for a silk skirt, $23.61 for a wool coat, $5.97 for a wool sweater, $18.24 for a fur piece, $4.18 for a silk petticoat, $2.35 for a pair of corsets, from $1.13 to $3.27 for a union suit of underwear, $1.49 for a woolen underskirt.

She spends $1.95 for a silk undershirt, $2.82 for a silk chemise, $5.48 for a silk nightie, $7.39 for a silk kimono, 37 cents for a pair of cotton stockings, $1.22 for a pair of silk stockings, from $3.65 to $5.34 for a pair of shoes, $1.88 for a pair of kid gloves, 15 cents for a handkerchief, 21 cents for a pair of garters, $2.01 for an umbrella, and $1.66 for a handbag.

Her total yearly expenditure for clothes averages $63.55.

The husband's annual total for clothes averages $71.38.

NATIONAL WEALTH OF THE UNITED STATES.

The estimates on this and the preceding pages, the Census Bureau says, cover the material wealth or value of tangible property located within the limits of continental United States, including, however, all the vessels of the United States Navy and merchant marine whether in home ports or on the high seas or in foreign waters.

Total U. S. national wealth in previous years—(1890) $65,037,093,000; (1880) $43,642,000,000; (1870) $24,054,818,000; (1860) $16,159, 616,000; (1850) $7,135,779,000. The figures 1850-1870 cover taxable property only.

NATIONAL WEALTH PER CAPITA, BY STATES, IN 1922.

Indiana	80.2						

NOTE BY THE CENSUS BUREAU.

Real property and improvements.—For the purposes of these estimates this term is used as descriptive of lands and the structures and fixed improvements thereon, exclusive of those used for the purposes of railroads, street railways, telegraph and telephone systems, privately owned central electric light and power companies and privately owned waterworks.

The estimates for *taxed real property* are based on the assessed valuations of property subject to the general property tax. These valuations have been so raised as to bring them up to the estimated true value, as indicated by records of sales and statements of tax officials. The ratios are as shown above.

The estimates for *exempt real property* are based on information received from Federal, State, and local reports and officials.

NATIONAL WEALTH OF FOREIGN COUNTRIES.

Argentina—(1916) $13,900,000,000.

Australia—(1917) $6,000,000,000.

Austria-Hungary—(before the war) $55,000,000,000.

Belgium—(1912) $5,800,000,000; (1920) $12,000,000,000. The last figures are a London banker's estimate.

British Empire—(1917) $130,000,000,000. The estimate was made by a Crown Minister, in Parliament.

Canada—(1903) $6,000,000,000; (1917) $11,000,000,000; (1924) $22,195,000,000.

Denmark—(1900) $2,000,000,000.

France—(1908) $55,000,000,000; (1912) $58,500,000,000; (1922) $90,000,000,000.

Germany—(1908) $77,800,000,000 by one estimate, $83,000,000,000 by another; (1924) 150,000,000,000 gold marks, or $40,000,000,000, according to figures published by Dr. Luther, the German Finance Minister.

Hungary—(1924) $3,155,200,000.

India (including Ceylon)—(1917) $18,000,000,000.

Italy—(1912) $22,000,000,000; (1922) $35,000,000,000.

Japan—(1912) $11,700,000,000; (1922) $22,500,000,000.

New Zealand—(1917) $1,500,000,000.

Russia (in Europe)—(before the war) $60,000,000,000

South Africa—(1917) $3,000,000,000.

United Kingdom—(1912) $70,500,000,000; (1917—semi-official, in Parliament) $80,000,000,000; (1922) $120,000,000,000.

None of the above data as to foreign countries is official, nor is any of it actually based on a census of property such as is taken in the United States. The estimates are mostly by bankers or statisticians.

AMERICA'S "INVISIBLE BALANCE" OF TRADE.

(By Herbert Hoover, Secretary of Commerce, in a Department Bulletin.)

In any analysis of our foreign trade balance sheet it is essential to take into account many items not appearing in the customs returns.

Those items, currently styled "invisible exchange," are of such increasing importance in any sound conclusion as to the movement of our foreign trade, as to the situation of our credit structure, as to the ability of foreign countries to purchase our commodities or pay their debts, as to the probable trend of exchange rates, and as to the probable movement of gold and the ultimate trend of price levels, that they require comprehensive study by all whose interest lies in these subjects.

The following table, in millions of dollars, summarizes the statement.

ESTIMATED BALANCE OF INTERNATIONAL PAYMENTS OF UNITED STATES, 1923.

Items.	Credit.	Debit.	Balance.
CURRENT ITEMS.			
Merchandise	4,208	3,819	+389
Current invisible items			
Interest and dividends	567	150	+417
Ocean freights	65	73	— 8
Governmental payments	.....	19	— 19
Services to tourists	100	500	—400
Charitable and missionary expenditures	.....	70	— 70
Immigrants' remittances	60	350	—290
Total, cur'nt inv'ble items	792	1,162	—370
Total, current items	5,000	4,981	+ 19
MOVEMENT OF CAPITAL.			
New foreign loans, exclusive of refunding loans	32	377	—345
Sale and purchase of outstanding securities	339	33	+306
Foreign bonds paid off	23	.....	+ 23
Principal of interallied debt	91	.....	+ 91
United States currency	50	.....	+ 50
Total, capital items	535	410	+125
GOLD AND SILVER.			
Gold	29	323	—294
Silver	72	74	— 2
Total, gold and silver	101	397	—296
Total balance, all items	.....	.....	—152

Note to the table—The credit figures for "merchandise" include $42,000,000 for parcel post packages and $1,435,000 for supplies sold by the War Department: the debit figures include $30,000,000 for smuggled liquors. "Interest and dividend" figures include interest received by U. S. Government. "Governmental payments" except interest and principal of Allied debt and do not include ordinary expenses of officials abroad.

We exported $4,208,000,000 worth of goods; we imported $3,819,000,000 worth of goods. There was thus a balance in our favor on the movement of goods of $389,000,000.

Parallel with this movement of actual commodities were what have been termed in this summary the "current invisible items," amounts paid out in foreign countries through our tourists, through remittances of immigrants, through payments for foreign shipping and services of one kind or another, a total of $1,162,000,000.

On the other hand, we received interest on money owed to us by foreign investors and by foreign governments, together with payments for the use of our ships by foreigners and expenditures of foreigners in the United States amounting to approximately $792,000,000.

Therefore, on these items of current invisible exchange we had a net balance against us of $370,000,000.

If at this point we deduct the favorable balance which we received on our merchandise business, we find that from items of merchandise and current invisible exchange our favorable balance is reduced to approximately $19,000,000.

During the year there were large movements of capital. In this movement foreigners apparently bought $394,000,000 of our securities, $50,000,000 of our currency, and paid $91,000,000 on debts due to our Government, or a total of $535,000,000.

On the other hand, our citizens bought foreign securities to the net extent of $410,000,000.

In precious metals we exported $101,000,000 and we imported $397,000,000, or we received a net balance of $296,000,000 in gold and silver.

It might be stated that this gold shipment to us served to settle the $19,000,000 owing us on the balance of goods and current invisible items as above, and $125,000,000 represents net excess of investment here, leaving a balance of $152,000,000 which may be attributed to discharge of previous open bank and merchant debts to us.

It is, of course, impossible to state the gold movement as balancing any particular item of the statement, but generally speaking, gold shipment is the final resort in international trade.

In all calculations of this character it must always be borne in mind that many items are of necessity partly estimated and that, while the opposite items tend to limit the area of error, there is always the possibility of an error either way up to $100,000,000.

The outstanding feature of the balance sheet for the year is the rather anomalous movement of a large amount of capital to investment in the United States, which can be readily accounted for as the "flight of capital" from countries of unstable currency to us in order to secure itself on a gold basis.

Foreign investments in the United States during the year amounted to $394,000,000, an increase over 1922 of approximately 20 per cent. Had there been no such movement of capital in our direction there would have been no gold net imports during the year.

As compared with 1922, our exports increased $341,000,000 and imports $706,000,000 showing a healthy growth in our trade, but the earnings of our merchant marine in foreign trade declined slightly, so that once more, as in pre-war days, we paid out more than we received in ocean freights.

On the other hand, the amount received as interest on our foreign investments increased greatly, largely as a result of payments by the British Government on its debt to the United States Government.

And although we did not maintain our position as the chief lending country of the world, that was due, not to lack of capital on our part, but the unsettled conditions abroad, making foreign investment less attractive to American investors.

BRITISH AND AMERICAN TRADE BALANCES COMPARED.

According to the British Board of Trade, the trade balances of Great Britain in 1923 and 1922 were as follows (converted at average rate of sterling exchange for the year—millions of dollars):

Items.	1922.	1923.
Excess of imports of merch'dise & bullion	753	928
Invisible exports:		
Net income from overseas investm'ts	775	686
Net national shipping income	487	503
Commissions	133	137
Miscellaneous	44	46
Total invisible exports	1,439	1,372
Available for investment overseas	686	444
New overseas issues on London market	598	622

For purposes of comparison the figures for the United States are given in the same form, as follows—(millions of dollars):

Items.	1922.	1923.
Excess of exports of merch'dise & bullion	508	93
Invisible exports:		
Net income from overseas investm'ts	351	417
Net national shipping income	7	— 8
Miscellaneous	—717	—267
Total invisible exports	—359	142
Available for investment overseas	149	235
New foreign issues in United States	637	377

AMERICAN INVESTMENTS IN FOREIGN COUNTRIES.

Residents of the United States had about $8,000,000,000 invested abroad on Jan. 1, 1924, according to an estimate by the Bureau of Foreign and Domestic Commerce of the Department of Commerce.

These investments, by countries, were as follows:

REGION.	Government Obligations.	Industrial Securities, Etc.	Total.
	1,000 Dollars.	*1,000 Dollars.*	*1,000 Dollars.*
Canada	750,000	1,750,000	2,500,000
Cuba	110,000	1,250,000	1,360,000
Mexico	22,000	1,000,000	1,022,000
Cent. Amer., W. Indies	48,000	100,000	148,000
South America	430,000	800,000	1,230,000
Europe	950,000	350,000	1,300,000
Asia	190,000	250,000	440,000
Total	2,500,000	5,500,000	8,000,000

Investments in Central America and the West Indies do not include those in Porto Rico. Investments in Asia include the Philippines.

The United States Government, on Nov. 15, 1923, held obligations of foreign governments, owed since the World War, amounting to $10,578,509,342.

Though the money owed this Government by the Allies is not, in the ordinary commercial sense, an investment, it represents money or supplies loaned, it draws interest, and it increases the American capital abroad to a total of more than $18,578,000,000.

The total amount received by American residents as interest or profits from these investments, at 5 per cent., would be $400,000,000.

To this must be added $167,000,000 received by the United States Government as interest on its loans to Great Britain and other governments.

FOREIGN INVESTMENTS HERE.

In 1921, according to the income tax statistics, non-residents, including foreign corporations, received $72,000,000 of taxable income from sources within the United States and its possessions. This includes interest, dividends, salary, commissions, and royalties.

It does not include amounts received by individuals reporting less than $5,000 net income, nor does it include interest on tax exempt securities.

For these reasons, and because the amount of such income has undoubtedly increased since 1921, the sum of $150,000,000 is put down as representing payments to non-residents for the use of their capital.

The amount of American securities reported sold to foreigners exceed the amount reported bought from foreigners by more than $16,000,000 in 1921 and $27,000,000 in 1922; in 1923 they were not separately reported, but the amount must have been at least $100,000,000 and possibly as much as $250,000,000.

Unsettled conditions and depreciating currency in several European countries have caused a "flight of capital," partly to obtain an investment in stable values and partly to escape impending heavy taxation.

In other countries, especially the Netherlands and Switzerland, there has been a movement to repatriate their own bonds originally issued in this country or sold here during the war.

The figures appear to indicate that foreign residents' investments in American securities approximate $3,000,000,000, early in 1924.

AMERICAN TOURISTS SPEND $500,000,000 ABROAD.

An inquiry as to the amount of money spent abroad by American tourists has been made by the United States Department of Commerce.

"Besides the tourists, in the strict sense of the term," it is stated, "there are a number of Americans who live abroad, either by preference or for economical reasons.

"Here are included the heiresses who marry abroad, and, at the other extreme of the financial scale, the students and persons with small fixed incomes who must live cheaply.

"The Bureau of Immigration keeps a record of American citizens leaving the country. In 1923 there were 260,000 of these, not including those who visited Canada. During the same period 300,000 citizens returned from abroad.

"Persons a position to know estimate that the amount spent by each traveler going to Europe averages over $1,200, taking into account the passage money paid to foreign shipowners. Travelers to other parts of the world spend even more.

"Taking 300,000 at $1,250 each, the total is $375,000,000.

"To this must be added at least $100,000,000 to cover the expenditures of Americans traveling in adjacent countries, especially Canada, and another $25,000,000 for Americans residing abroad more or less permanently.

"Against this total of $500,000,000 must be set something like $100,000,000 spent by foreigners in this country. One hundred and fifty-four thousand non-immigrant aliens came to the United States in 1923, besides an unknown but doubtless large number of Canadians.

"The Europeans must have spent at least $500 on an average, which would make $77,000,000, and $23,000,000 is a very moderate estimate of what the Canadians left behind.

"This item has for many years been a unique feature in the balance sheet of the United States. Even in the first half of the nineteenth century Americans spent large sums in foreign travel. In the period since 1900 the annual debit on this account has usually exceeded $150,000,000, except during the war. No other country, except England, spends nearly so much money in this way. On the contrary, tourists' expenses are a credit item for most European nations.

"The expenditures of American tourists abroad act in precisely the same way as immigrants' remittances. What they consume abroad is to all intents imported into this country, although it cannot be valued by the customs inspector."

Expenditures abroad by American charitable organizations for special purposes in 1923 totaled over $40,000,000, of which the American Red Cross spent $8,703,103; Near East Relief, $8,478,480, including goods shipped; Rockefeller Foundation, $8,431,075; Jewish Joint Distribution Committee, $5,970,429; American Relief Administration, $5,021,885, including goods shipped; Palestine Foundation Fund, $1,308,757; Y. M. C. A., International Committee, $1,125,531; American Friends Service Committee, $852,627; Hebrew Sheltering and Immigrant Aid Society, $103,162; Carnegie Foundation for Teaching, $59,915.

To the above sum is to be added $30,000,000 spent abroad by religious organizations for missionary or charitable purposes.

$350,000,000 A YEAR SENT ABROAD BY IMMIGRANTS.

A large proportion of the 14,000,000 foreign-born residents in the United States regularly send money to their relatives and friends abroad, says the Bureau of Foreign and Domestic Commerce of the United States Department of Commerce.

The money thus sent is in the shape of drafts, or currency, or money orders.

It is estimated that there is over $100,000,000 of American paper money in Cuba and other parts of Latin America, but on the whole it does not seem likely that the total of American currency in foreign countries at any one time can exceed $250,000,000 or that the net amount going abroad in 1923 was over $50,000,000.

The foreign recipients of immigrants' remittances from the United States are thus enabled to buy American goods without giving their own products in exchange, or else to buy foreign goods and pay for them with drafts on America.

Another way of putting it would be to say that the foreign-born residents in America, when they send remittances to their friends abroad, practically consume foreign goods by proxy instead of importing them to consume in person.

The result of such transactions is either to increase our exports of goods and services or to decrease our imports.

In 1923 the amount of such remittances is estimated to have been somewhat over $350,000,000.

This includes remittances by draft or money order and also currency sent by mail or carried by returning immigrants.

Against it would have to be counted the cash brought into the country by newly arriving foreigners. Figures furnished by the Commissioner of Immigration give money brought in by immigrants in 1922 as $30,000,000. As the number of immigrants in 1923 was nearly twice as great, $60,000,000 is not too much to allow for this.

The Bureau adds, that immigrants' remittances must be considered as a necessary expense to American industry, inasmuch as, if it were not possible for immigrants to make these remittances, many of them never would have come to this country.

Sporting Events and Records.

International competition was the outstanding feature of 1924 in sport. The growth and popularity of all forms of games continued to develop in all parts of the world. Amateur and professional teams and individual athletes journeyed to and from distant parts of the world for the sole purpose of testing skill and endurance against foreign opponents. In this department of sport the United States took an important part, either as visitor or host, with signal success. The United States team won the Olympic Games at Paris, outscoring each of the forty-four other nations competing. The Davis Cup, emblematic of the team tennis championship of the world was retained by the United States team against the challenge of twenty-three nations. The Walker Cup, holding a similar status in golf, was also retained again in a series of matches with English golfers. The International Polo Trophy was held in this country as a result of a two-game victory of the American team over the Hurlingham Club of England. The English yachtsmen were successful in lifting the six-metre Yacht Race Cup, taking four of the seven races held on Long Island Sound. The famous French race horse Epinard invaded the United States for a series of international stake events and while he proved to be a turf star of exceptional calibre did not win a majority of the events in which he was entered.

Internal competition grew apace during the year; baseball, football, rowing, track athletics, golf, tennis, motor boating and a score of other sports drawing larger entries and galleries of spectators than ever before. Other nations are also showing increased interest in all forms of sport and drawing upon America for instructors, sport codes, demonstrating teams or athletes for exhibition and contest purposes, and it becomes more evident each year that the United States is looked upon as a leader in healthful recreation, competition and good sportsmanship.

OLYMPIC GAMES OF 1924.

The eighth revival of the Olympic Games was held in France with a program of close to fifty events, embodying almost every form of modern sport of land and water. In these contests the United States entrants again won chief honors, scoring outstanding victories by events, first places and point scores. The track and field sports held at Colombes, a suburb of Paris, proved the greatest competition of the entire Olympic program. Forty-five nations were represented by 1,430 athletes. At the conclusion of all contests the leading official point scores by nations were as follows: United States, 94; France, 64; Sweden, 44½; Great Britain, 41½; Finland, 34. The principal victories of the United States were won in tennis with a clean sweep of all five first places; swimming with thirteen out of seventeen firsts, and in track and field with twelve out of twenty-seven firsts. Numerous world's records were established in various contests including track and field, swimming, rowing, rifle shooting, etc. One of the features of the games was the showing of South American athletes, Argentina winning the polo championship and Uruguay the soccer football title. The individual heroes of the games were the long distance runners of Finland, Nurmi, Ritola, and Stenroos, who between them won every distance race, including the Marathon, in which Stenroos finished an easy first. The Yale University undefeated eight-oared crew was victor in this rowing event, the principal contest of the rowing regatta.

OLYMPIC GAMES CHART.

(Showing nations winning first three places in all sports, January 25 to July 27, 1924.)

INDIVIDUAL WINNERS AND RECORDS.

(Track and Field Events.)

July 6—*10,000-Metre Run*—W. Ritola, Finland. Time—30m. 23 1-5s. (world's record).

Javelin Throw—J. Myrra, Finland. Distance—207 ft.

July 7—*100-Metre Dash*—H. Abrahams, Great Britain. Time—10 3-5s. (equals Olympic record).

400-Metre Hurdles—F. M. Taylor, United States. Time—52 3-5s. (world's record).

High Jump—H. M. Osborne, United States. Height—6 ft. 6 in. (Olympic record).

Pentathlon—Lehtonen, Finland, 16 points. (R. Le Gendre, United States, set world's record of 25 ft. 6 in. for broad jump in this event.)

July 8—*800-Metre Run*—D. G. A. Lowe, Great Britain. Time—1m. 52 2-5s.

Broad Jump—D. Hubbard, United States. Distance—24 ft. 6 in.

Shot-Put—C. Houser, United States. Distance—49 ft. 2½ in.

July 9—*110-Metre Hurdles*—D. Kinsey, United States. Time—15s.

200-Metre Dash—J. Scholz, United States. Time—21 3-5s. (equals Olympic record).

3,000-Metre Steeplechase—W. Ritola, Finland. Time—9m. 33 3-5s. (world's record).

July 10—*1,500-Metre Run*—P. Nurmi, Finland. Time—3m. 53 3-5s. (Olympic record).

5,000-Metre Run—P. Nurmi, Finland. Time—14m. 31 1-5s. (Olympic record).

Hammer Throw—F. D. Tootell, United States. Distance—174 ft.

Pole Vault—L. Barnes, United States. Height—12 ft. 11½ in.

July 11—*400-Metre Run*—E. H. Liddell, Great Britain. Time—47 3-5s. (world's record).

July 12—*10,000-Metre Cross Country Run*—Individual—P. Nurmi, Finland. Team—Finland. Time—32m. 54 3-5s.

Hop, Step and Jump—Winner, Australia. Distance—50 ft. 11½ in. (world's record).

Decathlon—H. M. Osborne, United States. Points—7,710.775 (world's record).

July 13—*400-Metre Relay*—United States. Time—41s. (world's record).

Discus Throw—Clarence Houser, United States. Distance—46 metres 15½ centimetres (Olympic record).

1,600-Metre Relay—United States. Time—3m. 16s. (world's record).

3,000-Metre Team Race—Finland. Time—8m. 32s. (Olympic record).

10,000-Metre Walk—Frigerio, Italy. Time—47m. 49s.

Marathon—Stenroos, Finland. Time—2h. 42m. 22 3-5s.

† In this event team points only counted. No points awarded for fifth and sixth places, as no countries finished teams for these positions.

First Places—United States, 12; Finland, 10; Great Britain, 3; Australia, 1; Italy, 1.

Of the forty-five countries in the meet, nineteen scored.

TRACK AND FIELD SUMMARIES.

United States athletes are designated by club or college affiliations.

July 6—*10,000-Metre Run (6.21 Miles)*—Won by Willie Ritola, Finland; Elvin Wide, Sweden, second; Berg, Finland, third; Sipila, Finland, fourth; Harper, Great Britain, fifth; Britton, Great Britain, sixth. Time—30m. 23 1-5s. (new world's record).

Javelin Throw—Final—Won by Jonnie Myrra, Finland; Lindstrom, Sweden, second; E. Oberst, Notre Dame, United States, third; Egvist, Finland, fourth; William Newfeld University of California, fifth; Blomquist, Sweden, sixth. Distance—62.96 metres (nearly 207 ft.).

July 7—*100-Metre Dash*—Final Heat—Won by Harold Abrahams, Great Britain; Jackson V. Scholz, New York A. C., second; A. Porritt, New Zealand, third; Chester Bowman, Syracuse, fourth; Charles Paddock, Los Angeles, fifth; Loren Murchison, Newark A. C., sixth. Time—10 3-5s.

400-Metre Hurdles—Final Heat—Won by F. Morgan Taylor, Grinnell College, Iowa; Vilen, Finland, second; Ivan H. Riley, Illinois, A. C., third;

George Andre, France, fourth. Charles Brookins, University of Iowa, was disqualified for a fault at one hurdle. Blackett, Great Britain, also was disqualified. Time—52 3-5s.

Running High Jump—Final—Won by Harold Osborne, Illinois A. C., 6 ft. 6 in.; Leroy Brown, New York A. C., second, 6 ft. 4¾ in.; Lewden, France, third, 6 ft. 3½ in.; Tom Poor, Kansas University, fourth, 6 ft. 2 in.; Gasper, Hungary, fifth, 6 ft. 2 in.; Jansson, Sweden, sixth, 6 ft. 1 in. Poor won from Gasper on the jump-off after tying for fourth place.

Pentathlon—Final—Won by Lehtonen, Finland, 16 points; Sonfay, Hungary, second, 18 points; Robert Le Gendre, Newark A. C., third, 20 points; Unger, Sweden, fourth, 24 points; Leino, Finland, fifth, 25 points; Morton Kaer, University of Southern California, sixth, 26 points.

July 8—*800-Metre Run*—Final Heat—Won by D. G. A. Lowe, Great Britain; Martin, Switzerland, second; Schuyler Enck, Penn State, third; H. B. Stallard, Great Britain, fourth; William B. Richardson, Stanford, fifth; Ray Dodge, Oregon Aggies, sixth. Time—1m. 52 2-5s.

16-Pound Shot Put—Final—Clarence Houser, University of Southern California, distance 14.995 metres (49 ft. 2½ in.); Glenn Hartranft, Stanford, second, 14.985 metres; Ralph G. Hills, Princeton, third, 14.64 metres; T. Torpo, Finland, fourth, 14.49 metres; Norman Anderson, University of Southern California, fifth, 14.29 metres; Nicklander, Finland, sixth, 14.26 metres.

Running Broad Jump—Final—Won by De Hart Hubbard, University of Michigan, distance, 7.445 metres (24 ft. 6 in.); Edward O. Gourdin, Dorchester Club, second, 7.275 metres; Hansen, Norway, third; 7.26 metres; Tuulos, Finland, fourth, 7.07 metres; Whilehelme, France, fifth, 6.99 metres; C. E. W. Mackintosh, Great Britain, sixth, 6.92 metres.

July 9—*200-Metre Dash*—Final Heat—Won by Jackson V. Scholz, New York A. C.; Charles W. Paddock, United States, second; E. H. Liddell, Great Britain, third; George Hill, University of Pennsylvania, fourth; Bayes Norton, Yale, fifth; H. M. Abrahams, Great Britain, sixth. Time—21 3-5s. (Equals Olympic record.)

110-Metre Hurdles—Final Heat—Won by Dan Kinsey, University of Illinois; Atkinson, South Africa, second; Peterson, Sweden, third; Christiernson, Sweden, fourth; Karl Anderson, Illinois A. C., fifth; George Guthrie, Ohio State, sixth. Time—15s.

3,000-Metre Steeplechase—Final Heat—Won by Willie Ritola, Finland; Katz, Finland, second; Bontemps, France, third; Marvin Rick, New York A. C., fourth; Ebb, Finland, fifth; E. A. Montague, Great Britain, sixth. Time—9m. 33 3-5s. (world's record).

July 10—*1,500-Metre Run*—Final Heat—Won by Paavo Nurmi, Finland; Scharer, Switzerland, second; H. B. Stallard, Great Britain, third; D. G. A. Lowe, Great Britain, fourth; Ray B. Buker, Illinois A. C., fifth; Lloyd Hahn, Boston A. A., sixth. Time—3m. 53 3-5s. (new Olympic record).

5,000-Metre Run—Final Heat—Won by Paavo Nurmi, Finland; Willie Ritola, Finland, second; Edvin Wide, Sweden, third; John Romig, United States, fourth; Sipila, Finland, fifth; C. T. Clibbon, Great Britain, sixth. Time—14m. 31 1-5s.

Hammer Throw—Final—Won by Fred D. Tootell, Boston A. A., distance 53.295 metres; Matt J. McGrath, New York, A. C., second, 50.84 metres; M. C. Nokes, Great Britain, third, 48.875 metres; Erickson, Finland, fourth, 48.74 metres; Skold, Sweden, fifth, 45.285 metres; James MacEachern, Olympic Club, San Francisco, sixth, 45.225 metres.

Pole Vault—Final—Glen Graham, California Tech., and Lee Barnes, Hollywood, Cal., tied for first place with 3.95 metres; James K. Brooker, University of Michigan, and Petersen, Denmark, tied for third place with 3.90 metres; Pickard, Canada, fifth, 3.80 metres; Ralph Spearow, University of Oregon, sixth, 3.70 metres. Barnes won first place in the jump-off with Graham. Brooker won third place in the jump-off with Petersen.

July 11—*400-Metre Run*—Final Heat—Won by E. H. Liddell, Great Britain; Horatio Fitch, Chicago A. A., second; G. M. Butler, Great Britain, third; Johnston, Canada, fourth; J. Coard Taylor, New York A. C., fifth; Imbach, Switzerland, sixth. Time—47 3-5s. (new world's record).

July 12—*10,000-Metre Cross-Country Run*—Final (individuals)—Won by Nurmi, Finland; Ritola, Finland, second; R. Earl Johnson, Pittsburgh, third; E. Harper, Great Britain, fourth; Lauvaux, France, fifth; Arthur Stuenroth, Meadow Brook Club, Philadelphia, sixth. Time—32m. 54 3-5s.

Team Score—Finland, 11 points, first; United States, 14 points, second; France, 20 points, third.

Running Hop, Step and Jump—Final—Won by Winter, Australia, distance, 15.525 metres (50 ft. 11 3-16 in.), (world's record); Brunetto, Argentina, second, 15.425 metres (beats former Olympic record); Tuulos, Finland, third, 15.37 metres; Rainio, Finland, fourth, 15.01 metres; Jansson, Sweden, fifth, 14.97 meters; Oda, Japan, sixth, 14.35 metres.

Decuthlon—Final—Won by Harold Osborne, Illinois A. C.; Emerson Norton, Georgetown, second; Kleinber, Esthonia, third. Osborne scored 7,710.775 points, a world's record for this event.

July 13—*3,000-Metre Team Race*—Final—Won by Nurmi, Finland; Ritola, Finland, second; MacDonald, Great Britain, third; Johnson, Great Britain, fourth; Katz, Finland, fifth; Kirby, United States, sixth. Time—8m. 32s.

Marathon—Final—Won by Stenroos, Finland; Bertini, Italy, second; De Mar, United States, third; Halonen, Finland, fourth; Ferris, Great Britain, fifth; Reyes, Chili, sixth. Time—2h. 42m. 22 3-5s.

1,600-Metre Relay—Final—Won by United States; Sweden, second; Great Britain, third; Canada, fourth; France, fifth; Italy, sixth. Time—3m. 16s. (new world's record).

400-Metre Relay—Final—Won by United States; Great Britain, second; Holland, third; Hungary, fourth; France, fifth; Switzerland, sixth. Time—41s. (new world's record).

10,000-Metre Walk—Final—Won by Frigerio, Italy; Goodwin, Great Britain, second; MacMaster, South Africa, third; Padesi, Italy, fourth; Schwal, Switzerland, fifth; Clark, Great Britain, sixth. Time—47m. 49s.

Discus Throw—Final—Won by Harold Osborne, Illinois A. C., with the world record-breaking figures 7,710.775; Emerson Norton, Georgetown, 7,350.895, second; Kleimberg, Esthonia, 7,329.36, third; Myrra, Finland, 7,005.175, fourth; Sutherland, South Africa, 6,794.142, fifth; Gerspach, Switzerland, 6,743.53, sixth.

Throwing the Discus—Final—Won by Clarence Houser, United States, 46 metres, 15.5 centimetres; Nittymar, Finland, 44 metres, 95 centimetres, second; T. J. Lieb, United States, 44 metres, 84 centimetres, third; Augustus Pope, United States, 44 metres, 32 centimetres, fourth; Askildt, Norway, 43 metres, 40 centimetres, fifth; Glen Hartranft, United States, 42 metres, 49 centimetres, sixth. (Olympic records.)

SWIMMING.

Events for Men—*100-Metre Free Style*—John Weissmuller, United States. Time—59s. (New Olympic record.)

100-Metre Back Stroke—Warren Kealoha, United States. Time—1m. 13 1-5s. (New Olympic record.)

200-Metre Breast Stroke—Robert D. Skelton, United States. Time—2m. 56 3-5s.

400-Metre Free Style—John Weissmuller, United States. Time—5m. 4 1-5s. (New Olympic record.)

800-Metre Relay—United States. Time—9m. 53 2-5s. (New world's record.)

1,500-Metre Free Style—Andrew Charlton, Australia. Time—20m. 6 3-5s. (New world's record.)

Plain High Diving—J. Eve, Australia.

Fancy High Diving—Albert White, United States.

Springboard Fancy Diving—Albert White, United States.

Water Polo—France. United States won third place.

Events for Women—*100-Metre Free Style*—Miss Ethel Lackie, United States. Time—1m. 12 2-5s. (Equals world's record.)

100-Metre Back Stroke—Miss Sybil Bauer, United States. Time—1m. 23 1-5s. (New world's record.)

England	0	2	10

INTERNATIONAL POLO CUP RECORD.

1886—Newport, R. I.—England, 2 matches; America, 0. America—1. W. Thorn, 2. R. Belmont, 3. F. P. Keene, Back, T. Hitchcock. England—1. Capt. T. Hone, 2. Hon. R. T. Lawley, 3. Capt. M. Little, Back, J. Watson.

1900—Hurlingham, England—England, 1 match; America, 0. America—1. W. McCreery, 2. F. J. Mackey, 3. F. P. Keene, Back, L. McCreery. England—1. Capt. Beresford, 2. F. M. Freake, 3. W. S. Buckmaster, Back, J. Watson.

1902—Hurlingham, England—England, 2 matches; America, 1. America—1. R. L. Agassiz, 1. M. Waterbury, 2. J. E. Cowdin, 2. L. Waterbury, 3. F. P. Keene, Back, L. Waterbury, Back, R. L. Agassiz. England—1. C. P. Nickalls, 2. P. W. Nickalls, 2. F. M. Freake, 2. G. A. Miller, 3. W. Buckmaster, 3. G. A. Miller, 3. P. W. Nickalls, Back, C. D. Miller, Back, W. Buckmaster. America won first match, 2 to 1; England won second, 6 to 1, and third, 7 to 1.

1909—Hurlingham, England—America, 2 matches; England, 0. America—1. L. Waterbury, 2. J. M. Waterbury jr., 3. H. P. Whitney, Back, D. Milburn. England—1.Capt. H. Wilson, 1. Harry Rich, 2. F. M. Freake, 3. P. W. Nickalls, 3. Lord Wodehouse, Back, Capt. H. Lloyd. America won first match by 9 to 5, and second by 8 to 2.

1911—Meadow Brook, L. I.—America, 2 matches; England, 0. America—1. L. Waterbury, 2. J. M. Waterbury jr., 3. H. P. Whitney, Back, D. Milburn. England—1. Capt. Cheape, 2. Lieut. A. N. Edward, 3. Capt. J. H. Lloyd, Back, Capt. Wilson. America won first match by 4½ to 3, and second by 4½ to 3¼.

1913—Meadow Brook, L. I.—America, 2 matches; England, 0. America—1. L. Waterbury, 1. L. E. Stoddard, 2. J. M. Waterbury jr., 2. L. Waterbury, 3. H. P. Whitney, Back, D. Milburn. England—1. Capt. Cheape, 2. F. M. Freake, 2. Capt. Edwards, 3. Capt. R. C. Ritson, Back, Capt. Lockett. America won first match by 5 to 3, and second match by 4½ to 4¼.

1914—Meadow Brook, L. I.—England, 2 matches; America, 0. America—1. R. La Montagne, 2. J. M. Waterbury jr., 3. L. Waterbury, Back, D. Milburn. England—1. Capt. Tomkinson, 2. Capt. Cheape, 3. Major Barrett, Back, Capt. Lockett. England won first match by 8½ to 3, and second by 4 to 2¾.

1921—Hurlingham, England—America, 2 matches; England, 0. America—1. Louis E. Stoddard, 2. T. Hitchcock jr., 3. J. Watson Webb, Back, D. Milburn. England—1. Lieut.-Col. H. A. Tomkinson, 2. Major F. W. Barrett, 3. Lord Wodehouse, Back, Major Lockett. America won first match by 11 to 4, and second by 10 to 6.

The history of the games between England and America dates back to 1886, when a Hurlingham team visited the United States and easily secured the cup. It remained at Hurlingham until 1909, when it was regained by Mr. H. P. Whitney's "Big Four." Lost to England again in 1914, and regained in 1921.

Other polo championships—Intercollegiate championship won by Princeton University, defeating University of Arizona 6 to 2 and 8 to 0. National Junior championship won by Midwick Four of California, defeating Rockaway 16 to 3. National Open championship, won by Midwick Four of California, defeating Wanderers, 6 to 5.

EQUINE HIGH JUMPING.

The record breaking high jump of 8 ft. 13-16 in., made by Mrs. Stuyvesant Peabody's Great Heart at the South Shore Country Club, Chicago, June 8, 1923, draws attention again to this interesting feature of equine effort. When it is considered that the average height of a jumper is 16 hands, a leap of more than thirty inches higher, handicapped by the weight of saddle and rider, constitutes a feat not equaled in human competition. The eight greatest high jumpers of record have been Filemaker, Heatherbloom, Confidence, The Wasp, Hercules, Ironsides, Skyscraper, and Great Heart.

Confidence held the record of 8 ft. 1-2 in., made at Ottawa, in 1912, for a little more than a decade, only to have it eclipsed by five-sixteenths of an inch during the past season.

Confidence duplicated this jump at Syracuse, N. Y., in 1916 with Dick Donnelly up, as was the case at Ottawa. Prior to Great Heart's jump this was the best on record for a public competition although Heatherbloom is credited with clearing 8 ft. 2 in., in a practice jump before numerous witnesses and there are reports of 8 ft. 3 in. jumps made abroad.

Results by events:

Track Events—*100-Yard Dash*—Won by Hill, Pennsylvania; second, Bowman, Syracuse; third, Clarke, Johns Hopkins; fourth, Norton, Yale; fifth Comins, Yale. Time—0:10.

220-Yard Dash—Won by Hill, Pennsylvania; second, Norton, Yale; third, Clarke, Johns Hopkins; fourth, Russell, Cornell; fifth, Edgar, Dartmouth. Time—0:21 9-10.

440-Yard Run—Won by Helffrich, Penn State; second, Croft, Princeton; third, Bates; fourth, Chapman, Yale; fifth, Gage, Yale. Time—0:50 1-10.

Half-Mile—Won by Watters, Harvard; second, Helffrich, Penn State; third, Richardson, Stanford; fourth, McIntosh, Stanford; fifth, Marsters, Georgetown. Time— 1:55 8-10.

One-Mile Run—Won by Enck, Penn State, second, Cavanaugh, Boston College; third, Gerry

Cornell; fourth, Douglas, Yale; fifth, Cutcheon, Harvard. Time—4:23 8-10.

Two-Mile Run—Won by Booth, Johns Hopkins; second, Tibbetts, Harvard; third, Lermond, Boston College; fourth, Kirby, Cornell; fifth, Helme, Georgetown. Time—9:36.

120-Yard Hurdles—Won by Moore, Penn State; second, Leisner, Stanford; third, Dye, Southern California; fourth, Wolf, Pennsylvania; fifth, Scattergood, Princeton. Time—0:15 2-10.

220-Yard Low Hurdles—Won by Hass, Georgetown; second, Cole, Yale; third, Scattergood, Princeton; fourth, Moore, Penn State; fifth, Bowman, Syracuse. Time—0:24 5-10.

Field Events—*Running Broad Jump*—Won by Comins, Yale, 24 ft. 8 in.; second, Rose, Pennsylvania, 24 ft. 3 11-16 in.; third, Boren, California, 24 ft. 1⅝ in.; fourth, Wilson, Southern California, 22 ft. 9½ in.; fifth, tie, Canfield, Dartmouth, and Watson, Colgate, 22 ft. 1¾ in. (New intercollegiate record).

Running High Jump—Won by Flahive, Boston College, 6 ft. 2⅝ in.; second, tie among Doppel (Cornell), Proctor (Johns Hopkins), F. L. Anderson (Stanford), Casson (Pennsylvania)—6 ft. ⅝ in.

Putting 16-Pound Shot—Won by Hartranft, Stanford, 49 ft. 5⅞ in.; second, Hills, Princeton, 49 ft. 5⅜ in.; third, Houser, Southern California, 48 ft. 9⅞ in.; fourth, N. F. Anderson, Southern California, 46 ft. 2⅛ in.; fifth, Eastman, Harvard, 46 ft. 1⅜ in. (New intercollegiate and collegiate record).

Javelin Throw—Won by Gibson, Princeton, 192 ft. 1⅞ in.; second, Neufeldt, California, 186 ft. 9½ in.; third, G. F. Dodson, California, 184 ft. 8 in.; fourth, Greenidge, Harvard, 178 ft. 11½ in.; fifth, Bench, Yale, 178 ft. ½ in.

Pole Vault—Won by Owens, Pennsylvania, 12 ft. 10¼ in.; second, tie between Sherrill (Pennsylvania) and Libbey (Dartmouth), 12 ft. 6 in.; fourth, tie between Schlopp (Yale) and Durfee (Yale), 12 ft.

Discus Throw—Won by Hartranft, Stanford, 158 ft. 8 in.; second, Houser, Southern California, 154 ft. 11½ in.; third, Arthur, Stanford, 154 ft. 8½ in.; fourth, Neufeldt, California, 147 ft. 7½ in.; fifth, Lang, California, 145 ft. 2½ in. (New intercollegiate record).

Throwing 16-Pound Hammer—Won by Drew, Massachusetts Institute of Technology, 156 ft. ⅛ in.; second, Emery, Princeton, 152 ft. 9⅞ in., third; Earl, Yale, 152 ft. 5 in.; fourth, Hills, Princeton, 152 ft. ⅝ in.; fifth, Bowen, Cornell, 152 ft. ¼ in.

BEST I. C. A. A. A. A. RECORDS.

100-Yard Dash—9 7-10s., J. A. Le Coney, Lafayette, Cambridge, Mass., May 27, 1922.

220-Yard Dash—21 1-5s., B. J. Wefers, Georgetown University, New York, May 30, 1896, and R. T. Craig, Michigan, Philadelphia, May 28, 1910, and Cambridge, Mass., May 27, 1911, and D. F. Lippincott, Pennsylvania, Cambridge, Mass., May 31, 1913.

440-Yard Run—47 2-5s., J. E. Meredith, Pennsylvania, Cambridge, Mass., May 27, 1916.

Half-Mile Run—1m. 53s., J. E. Meredith, Pennsylvania, Cambridge, Mass., May 27, 1916.

One-Mile Run—4m. 14 2-5s., J. P. Jones, Cornell, Cambridge, Mass., May 31, 1913.

Two-Mile Run—9m. 22 2-5s., J. C. Dresser, Cornell, Cambridge, Mass., May 31, 1919.

Running Broad Jump—24 ft. 8 in., Comins, Yale, Boston, May 31, 1924.

Running High Jump—6 ft. 4⅝ in., L. T. Brown, Dartmouth, Cambridge, Mass., May 27, 1922.

Putting 16-Pound Shot—49 ft. 5⅞ in., Hartranft, Stanford, Boston, May 31, 1924.

Throwing the Hammer—181 ft. 6½ in., Tootell, Bowdoin, Philadelphia, Pa., May 26, 1923.

Javelin Throw—199 ft. 1 in., Storrs, Yale, Philadelphia, May 26, 1923.

Pole Vault—13 ft. 1 in., R. Gardner, Yale, Philadelphia, June 1, 1912.

120-Yard High Hurdles—14 2-5s., Earl Thomson, Dartmouth, Philadelphia, May 29, 1920.

220-Yard Hurdles—23 3-5s., A. C. Kraenzlein, Pennsylvania, New York, May 28, 1898, and J. I. Wendell, Wesleyan, Cambridge, Mass., May 31, 1913.

One-Mile Walk—6m. 45 2-5s., W. B. Fetterman jr., Pennsylvania, New York, May 28, 1898.

PREVIOUS WINNERS.

1876, Princeton; 1877, Columbia; 1878, Columbia; 1879, Columbia; 1880, Harvard; 1881, Harvard; 1882, Harvard; 1883, Harvard; 1884, Harvard; 1885, Harvard; 1886, Harvard; 1887, Yale; 1888, Harvard; 1889, Yale; 1890, Harvard; 1891, Harvard; 1892, Harvard; 1893, Yale; 1894, Yale; 1895, Yale; 1896, Yale; 1897, Univ. of Pennsylvania; 1898, Univ. of Pennsylvania; 1899, Univ. of Pennsylvania; 1900, Univ. of Pennsylvania; 1901, Harvard; 1902, Yale; 1903, Yale; 1904, Yale; 1905, Cornell; 1906, Cornell; 1907, Univ. of Pennsylvania; 1908- Cornell; 1909, Harvard; 1910, Univ. of Pennsylvania; 1911, Cornell; 1912, Univ. of Pennsylvania; 1913, Univ. of Pennsylvania; 1914, Cornell; 1915, Cornell; 1916, Cornell; 1917, no meet; 1918, Cornell; 1919, Cornell; 1920, Pennsylvania; 1921, California; 1922, California; 1923, California; 1924, Yale.

WESTERN CONFERENCE CHAMPIONSHIPS

Held at Chicago, June 6-7. Point scores:

Illinois, 74; Iowa, 39; Michigan, 31½; Ohio State, 20; Wisconsin, 13½; Northwest, 11; Minnesota, 10½; Butler, 9; Missouri, 9; Notre Dame, 7; Chicago, 5; Purdue, 3; Marquette, 3; Grinnell, 3; Ames, 1; Indiana, ½.

Results by events:

Track Events—*100-Yard Dash*—Won by Hubbard, Michigan; Evans, Illinois, second; Ayres, Illinois, third; Barr, Notre Dame, fourth; McAndrews, Wisconsin, fifth. Time—0:09 4-5. (Ties Western conference record made by Hayes of Notre Dame in 1922).

220-Yard Dash—Won by Evans, Illinois; Gray, Butler, second; Hughes, Illinois, third; Smith, Missouri, fourth; Ayres, Illinois, fifth. Time—0.21 3-5. (Ties Western conference record made by Archie Hahn of Michigan in 1903.)

440-Yard Dash—Won by Coulter, Iowa; Carter, Illinois, second; Koonz, Illinois, third; Calhoun, Northwestern, fourth; Kennedy, Wisconsin, fifth. Time—0.50 2-5.

880-Yard Run—Won by Morrow, Iowa; Martin, Northwestern, second; Greyburg, Michigan, third; Spradling, Purdue, fourth; Hammerly, Ames, fifth. Time—1.57.

One—Mile Run—Won by MacKeever, Illinois; Hall, Illinois, second; Schneider, Wisconsin, third; Van Ness, Iowa, fourth; Kreider, Ohio State, fifth. Time—4.26 4-5.

Two-Mile Run—Won by Doolittle, Butler; Payne, Ohio State, second; Mieher, Illinois, third; Phelps, Iowa, fourth; Read, Wisconsin, fifth. Time—9.43.

120-Yard High Hurdles—Won by Kinsey, Illinois; Snyder, Ohio State, second; Johnson, Illinois, third; Crawford, Iowa, fourth; Towler, Minnesota, fifth. Time—0.15.

220-Yard Low Hurdles (Around a Turn)—Won by Brookins, Iowa; Kinsey, Illinois, second; Taylor, Grinnell, third; Guthrie, Ohio State, fourth; Crawford, Iowa, fifth. Time—0.23 4-5. New American record.

Field Events—*High Jump*—Campbell, Minnesota, and Smith, Michigan, tied for first (6 ft. 3 in.); McElven, Michigan (6 ft. 1 in.), third; Dobson, Iowa (5 ft. 11 in.), fourth; Thutar, Wisconsin and Wilson, Indiana, tied for fifth (5 ft. 10 in.).

Pole Vault—Won by Drooker, Michigan (12 ft. 10 in.); Brownell, Illinois (12 ft. 6 in.), second; Hunsley, Illinois; Meder, Iowa; Hamman, Wisconsin (12 ft.), tied for third.

Shot-put—Won by Doyle, Michigan (43 ft. 4¾ in.); Richerson, Missouri (43 ft. 1 in.), second; Dauber, Iowa (42 ft. 5⅞ in.), third; Gross, Minnesota (41 ft. 10 in.), fourth; Jones, Purdue (41 ft. 1¼ in.), fifth.

Discus Throw—Won by Richerson, Missouri (137 ft. 4¾ in); Schildhauer, Illinois, second; McMahan, Marquette, third; Hancock, Iowa, fourth; Doyle, Michigan, fifth.

Hammer Throw—Won by Bunker, Ohio State (142 ft. 5¾ in.); Handy, Iowa (134 ft. 2½ in.), second; Murphy, Ohio State (128 ft. 3¾ in.), third; Oakes, Illinois (125 ft. 3½ in.), fourth; Cox, Minnesota (122 ft.), fifth.

Running Broad Jump—Won by Hubbard, Michigan (24 ft. 10¾ in.), McAndrews, Wisconsin (23 ft. 4½ in.), second; Sweeney, Illinois (23 ft. 4 in.), third; Wallace, Illinois (22 ft. 7¾ in.), fourth; Snyder, Ohio State (22 ft. 4½ in.), fifth.

PENNSYLVANIA RELAY CARNIVAL.

Thirtieth annual championships held at Philadelphia, April 25-26. Results:

Sprint Medley College Relay Championship—(first man to run 440 yards, second and third men, 220 yards and fourth man 880 yards)—Won by Pennsylvania State College (Helffrich, Conway, Moore and Enck); Georgetown, second; Cambridge University third; Occidental College, fourth. Time—3m. 30 2-5s.

Distance Medley College Relay Championship—(first man to run a quarter-mile, the next a half, the third three-quarters of a mile and the fourth a mile)—Won by University of Pennsylvania (Lomassen, Fisher, Kerr and McLane); Missouri, second; Princeton, third. Time—10m. 40 4-5s.

One-Quarter Mile College Relay Championship—Won by Columbia University (Deck, Donaldson, Koppisch and Starkey); Georgetown, second; Chicago University, third; Syracuse, fourth. Time—44s.

Interscholastic Medley Relay Championship—(first man to run 440 yards, second man 220 yards, third man 660 yards and fourth man 880 yards)—Won by Huntington School of Boston (Stanzeld, Burns, Clark and Dooley); Hamilton Collegiate Institute of Canada, second; Lowell High School, third. Time—4m 43s.

One-Half Mile College Relay Championship—Won by University of Pennsylvania (Hill, Martin, Keogh and Wolf); Occidental College, Los Angeles, second; Chicago University, third; Syracuse University, fourth. Time—1m. 29 4-5s.

One-Mile College Relay Championship—Won by University of Virginia (Castleman, Irvine, Talbot and Bohannon); Yale University, second; Holy Cross College, third; Princeton, fourth. Time 3m. 19 1-5s.

Two-Mile College Relay Championship—Won by Boston College (McKillop, Mahoney, Welch and Cavanaugh); Georgetown University, second; Cambridge University, England, third. Time—7m. 47 3-5s. (New world's record).

One-Mile Freshman College Relay Championship—Won by Georgetown University (McClain, Eastman, Swinburne and Esteve); University of Pennsylvania, second; Yale University, third. Time—3m. 27 4-5s.

Four-Mile College Relay Championship—Won by Harvard (Watters, McCutcheon, Chapin and Tibbetts); Columbia, second; Cornell, third. Time—18m. 17 1-5s.

One-Mile Preparatory School Relay Championship—Won by Mercersburg (Pa.) Academy (Shotter, Kelly, Read and Daley); Lawrenceville (N. J.), School, second. Only two started. Time—3m. 29 3-5s.

One Mile High School Relay Championship—Won by Brooklyn (N. Y.), Technical High, (Sacco, Bryon, Brown and Slepian); Lakewood (O), High, second; Medford (Mass.), High, third. Time—3m. 31 4-5s.

Oxford-Cambridge Dual Meet—Held at London, March 23, resulted in a tie, each university winning five first-places. Four American students competed.

SKATING.

NATIONAL CHAMPIONSHIPS.

Held at Saranac Lake, N. Y. Final point scores: C. Gorman, 90; P. Forsman, 60; F. Allen, 60; H. Kaskey, 40; A. Nuhfer, 30; R. McWhirter, 30; E. Murphy, 30; R. Donovan, 10; E. Reed, 10.

Results by events:

One-Half Mile—Won by Charles Gorman, St. John, N. B.; Roy McWhirter, Chicago, 2d; Richard Donovan, Saranac Lake, 3d. Time—1m. 17s.

Three-Quarter Mile—Won by Francis Allen, Chicago; Eddie Murphy, Chicago, second; Roy McWhirter, Chicago, third. Time—2m. 7s.

220 Yards—Won by Alfred Nuhfer, Saratoga; Paul Forsman, New York, second; Charles Gorman, St. John, third. Time—19 2-5s.

One Mile—Won by Paul Forsman, New York; Harry Kaskey, Chicago, second; Edward Reed, Chicago, third. Time—2m. 46 4-5s.

440 Yards—Won by Charles Gorman, St. John, N. B.; Harry Kaskey, Chicago, second; Paul Forsman, New York, third. Time—36 3-5s.

Three Miles—Won by Francis Allen, Chicago; Charles Gorman, St. John, N. B., second; Eddie Murphy, Chicago, third. Time—8m. 46 3-5s.

INTERNATIONAL CHAMPIONSHIPS.

Held at Lake Placid, N. Y. Final point score: Charles Gorman, 100; Francis Allen, 70; Harry Kaskey, 60; Richard Donovan, 50; Joe Moore, 20; Roy McWhirter, 20; Paul Forsman, 20; Bobby Hearn, 10; Eddie Gloster, 10.

Results by events:

220 Yards—Won by Harry Kaskey, Chicago; Roy McWhirter, Chicago, second; Bobby Hearn, Brooklyn, third. Time—20s.

One Mile—Won by Charles Gorman, St. John, N. B.; Francis Allen, Chicago, second; Harry Kaskey, Chicago, third. Time—3m. 9 3-5s.

One-Half Mile—Won by Francis Allen, Chicago; Charles Gorman, St. John, N. B., second; Paul Forsman, New York, third; Richard Donovan, Saranac Lake, fourth. • Time—1m. 24s. Gorman disqualified for fouling Donovan.

Three-Quarter Mile—Won by Richard Donovan, Saranac Lake; Harry Kaskey, Chicago, 2d; Charles Gorman, St. John, N. B., 3d. Time—2m. 4 4-5s.

440 Yards—Won by Charles Gorman, St. John, N. B.; Francis Allen, Chicago, second; Edward Gloster, Toronto, third. Time—38s.

Three Miles—Won by Charles Gorman, St. John, N. B.; Joe Moore, New York, second; Richard Donovan, Saranac Lake, third. Time—8m. 46 3-5s.

Donohue, Stamford, Ct., Jan. 26 1893. 100 miles—7h. 11m. 38 1-5s., J. F. Donohue Stamford, Ct., Jan. 26, 1893.

TENNIS.

The feature of the 1924 tennis season was the retention of the Davis Cup, emblematic of the World's team championship, by the United States. Twenty-three nations challenged for the trophy, and the drawings were made by President Calvin Coolidge at the White House, Washington, D. C., on March 17. Seventeen nations played in the European zone; the final of which was won by France. In the American zone six nations competed, the final being won by Australia. In the interzone final Australia defeated France, thus becoming challenger for the Cup. The United States team won from Australia in five straight matches with the loss of only one set. The complete scores of all ties follow:

RESULTS IN DAVIS CUP PLAY OF 1924.

EUROPEAN ZONE—FIRST ROUND—*British Isles* vs. *Belgium*—Torquay, May 12, 13, 14—Won by the *British Isles*, 3 matches to 2.

SECOND ROUND—*Ireland* vs. *France*—Dublin, May 31, June 1, 2—Won by *France*, 5 matches to 0. *Holland* vs. *India*—Arnhem, May 30, 31, June 1—Won by *India*, 4 matches to 1. *Spain* vs. *British Isles*—Birmingham, May 31, June 2, 3—Won by *British Isles*, 3 matches to 2. *Denmark* vs. *Hungary*—Copenhagen, May 16, 17, 18—Won by *Denmark*, 3 matches to 2. *Italy* vs. *Roumania*—Won by *Italy*—Default. *Austria* vs. *Switzerland*—Vienna, May 17, 18, 19—Won by *Switzerland*, 4 matches to 1. *New Zealand* vs *Czechoslovakia*—Prague, May 22, 23, 24—Won by *Czechoslovakia*, 4 matches to 0.

THIRD ROUND—*France* vs. *India*—Paris, June 17, 18, 19—Won by *France*, 4 matches to 1. *South Africa* vs. *British Isles*—Scarborough, June 9, 10, 11—Won by *British Isles*, 4 matches to 1. *Denmark* vs. *Italy*—Copenhagen, June 14, 15, 16—Won by *Denmark*, 3 matches to 2. *Switzerland* vs. *Czechoslovakia*—Prague, June 5, 6, 7—Won by *Czechoslovakia*, 4 matches to 1.

FOURTH ROUND—*France* vs. *British Isles*—Eastbourne, July 26, 27, 28—Won by *France*, 4 matches to 1. *Denmark* vs. *Czechoslovakia*—Copenhagen, July 24, 25, 26—Won by *Czechoslovakia*, 3 matches to 2.

FINAL ROUND—*France* vs. *Czechoslovakia*—Evian-Les-Baines, Aug. 3, 4, 5—Won by *France*, 5 matches to 0.

AMERICAN ZONE—FIRST ROUND—*Cuba* vs. *Canada*, July 24, 25, 26—Won by *Canada*, 3 matches to 2. *Australia* vs. *China*—Brooklyn, N. Y., July 31, Aug. 1, 2—Won by *Australia*, 5 matches to 0.

SECOND ROUND—*Canada* vs. *Japan*—Montreal, Aug. 7, 8, 9—Won by *Japan*, 4 matches to 1. *Australia* vs. *Mexico*—Baltimore, Aug. 7, 8, 9—Won by *Australia*, 5 matches to 0.

THIRD ROUND—*Australia* vs. *Japan*—Providence, R. I., Aug. 14, 15, 16—Won by *Australia*, 5 matches to 0.

INTER-ZONE FINAL—*France*, winner of European zone ties, vs. *Australia*, winner of American zone ties, Boston, Mass., Sept. 4, 5, 6—Won by *Australia*, 3 matches to 2.

CHALLENGE ROUND—*United States* vs. *Australia* at Germantown Cricket Club, Sept. 11, 12, 13—Won by *United States*, 5 matches to 0.

CHALLENGE ROUND — INDIVIDUAL SCORES—William T. Tilden, 2d (U.S.) d. G. L. Patterson (A), 6—4, 6—2, 6—2; Vincent Richards (U. S.) d. Pat O'Hara-Wood (A), 6—3, 6—2, 6—4; Pat O'Hara-Wood (A), 6—2, 6—1, 6—1; Vincent Richards (U. S.) d. G. L. Patterson (A), 6—3, 7—5, 6—4; William T. Tilden, 2d, and William M. Johnston (U. S.) d. G. L. Patterson and Pat O'Hara-Wood (A), 5—7, 6—3, 6—4, 6—4†

WOMEN'S INTERNATIONAL TEAM MATCH.

The second annual women's international team match between picked teams of the United States and England was played at Wimbledon, England, in June and was won by the English team, 6 matches to 1.

100-Yard Dash—(1) Charles W. Paddock, Los Angeles A. C.; (2) Loren Murchison, Newark A. C.; (3) Alfed LeConey, Meadowbrook Club; (4) C. H. Coaffee, Illinois A. C. Time—9 3-5s. (World's record.)

220-Yard Dash—(1) Charles W. Paddock, Los Angeles A. C.; (2) Loren Murchison, Newark A. C.; (3) C. H. Coaffee, Illinois A. C.; (4) E. Andrus, New York A. C. Time—20 4-5s. (Ties world's record.)

440-Yard Run—(1) James Burgess, West Side Y. M. C. A., New York; (2) G. T. Stevenson, Illinois A. C.; (3) Clifford Stowers, Newark A. C.; (4) H. M. Fitch, Illinois A. C. Time—49 4-5s.

880-Yard Run—(1) Edward Kirby, Newark A. C.; (2) Ray Dodge, Illinois A. C.; (3) Ray Watson, Illinois A. C.; (4) Emil Krogh, Illinois A. C. Time—1m. 58 9-10s.

One-Mile Run—(1) Ray Buker, Illinois A. C.; (2) Edward Kirby, Newark A. C.; (3) William Goodwin, New York A. C.; (4) Ray Watson, Illinois A. C. Time—4m. 24 4-5s.

Five-Mile Run—(1) Ilmar Prem, Finnish-American A. C.; (2) G. W. Lermond, Boston A. A.; (3) Verne H. Booth, Millrose A. A.; (4) John Gray, Enterprise A. A., Philadelphia. Time—26m. 20 2-5s.

120-Yard Hurdles—(1) Ivan Reilly, Illinois A. C.; (2) A. H. Thompson, Princeton Univ.; (3) Herbert Meyer, Newark A. C.; (4) J. J. Sullivan, Boston A. A. Time—15 2-5s.

220-Yard Low Hurdles—(1) Herb Meyer, Newark A. C.; (2) J. J. Sullivan, Boston, A. A.; (3) Russell Lloyd, Newark A. C.; (4) F. P. Johnson, Illinois A. C. Time—24 3-10s.

440-Yard Hurdles—(1) F. Morgan Taylor, Grinnell College; (2) Richard Oram, New York A. C.; (3) John Gibson, Bloomfield C. L.; (4) Chan F. Coulter, Univ. of Iowa. Time—54 5-10s. (Championship record.)

Three-Mile Walk—(1) William Plant, Morningside A. C.; (2) Harry R. Hinkel, Glencoe A. C.; (3) E. G. Wilson, Boston A. C.; (4) Charles G. Foster, Detroit Y. M. C. A. Time—22m. 47 4-5s.

Field Events. *Running High Jump*—(1) Robt. L. Judy, Penn. R. R. A. A., Fort Wayne, Ind., 6 ft. 4 in.; (2) Leroy T. Brown, New York A. C., 6 ft. 3 in.; (3) Richmond W. Landon, New York A. C., 6 ft. 2 in.; (4) Tom J. Halloran, New York A. C., 6 ft. 1 in.

16-Pound Hammer—(1) F. D. Tootell, Boston A. A., 173 ft. 11½ in.; (2) M. J. McGrath, New York A. C., 161 ft. 2½ in.; (3) George L. Taylor, New York A. C., 139 ft. 6 in.; (4) E. Bowen, unattached, Boston, 135 ft. 3 in.

Javelin Throw—(1) John Leyden, Newark A. C., 181 ft.; (2) J. Schildbauer, Illinois A. C., 169 ft. 6 in.; (3) Ralph Greenidge, Harvard A. A., 167 ft. 2 in.; (4) Eli Wolkowitz, Hollywood Inn Club, Yonkers, 159 ft. 9 in.

Running Broad Jump—(1) DeHart Hubbard, Univ. of Michigan, 24 ft.; (2) E. O. Gourdin, Dorchester Club, 23 ft. 7 1-8 in.; (3) William Dowding, Georgetown Univ., 22 ft. 5¼ in.; Albert E. Rose, Meadowbrook Club, 22 ft. 3½in.

16-Pound Shot Put—(1) Ralph G. Hills, Princeton Univ., 46 ft. 5¾ in.; (2) A. G. Pope, Illinois A. C., 44 ft. 7 in.; (3) Orville Wanzer, New York A. C., 44 ft. 2½in.; (4) R. McLean, Meadowbrook Club, 42 ft. 3¾ in.

Pole Vault—(1) E. E. Myers, Chicago A. A., 13 ft.; (2) Ben M. Owen, New York A. C., 12 ft. 6 in.; (3) Sylvan S. Schlopp, New York A. C., 12 ft. 6 in.; (4) N. B. Sherrill jr., New York A. C., 12 ft.

Hop, Step and Jump—(1) H. Martin, Illinois A. C., 45 ft. 8¾ in.; (2) Albert Rogan, Boston A. A., 43 ft. 9¾ in.; (3) Paul Courtois, New York A. C., 43 ft. 9¼ in.; (4) Kaufman Geist, 92d St. Y. M. H. A., 43 ft. 4 in.

56-Pound Weight—(1) M. J. McGrath, New York A. C., 35 ft. 7 in.; (2) F. D. Tootell, Boston A. A., 34 ft. 11½ in.; (3) Capt. E. R. Roberts, 16th F. A., U. S. A., 31 ft. 11 in.; (4) F. Sobini, Bloomfield C. L., 27 ft. 4¼ in

Discus Throw—(1) Tom Lieb, Illinois A. C., 144 ft. 7¼ in.; (2) A. G. Pope, Illinois A. C., 139 ft. 2½ in.; (3) Charles Ashton, New York A. C., 136 ft. 10½ in.; (4) C. J. Vrettos, Pastime A. C., 128 ft. 6¾ in.

Point Score: Illinois A. C., 44; New York A. C., 36; Newark A. C., 30; Boston A. A., 19, Los Angeles A. C., 10; Princeton Univ., 9; Chicago A. A., 5; Finnish-American A. C., 5; Grinnell College, 5; Morningside A. C., 5, Penn R. R. A. A., 5; Univ. of Michigan, 5; West Side Y. M. C. A., 5; Meadowbrook Club, 4; Bloomfield C. L., 3; Dorchester Club, 3; Glencoe A. C., 3, Georgetown Univ., 2; Millrose A. A., 2, U. S. Army, 2; Enterprise A. A., 1; Detroit Y. M. C. A., 1; Hollywood Inn Club, 1; Pastime A. C., 1; Unattached, 1; Univ. of Iowa, 1; 92d St. Y. M. H. A., 1.

Junior Outdoor Track and Field Championships, held under the auspices of the Newark A. C., at Colgate Field, West Orange, N. J., on Sept. 5, 1924.

One-Mile Run—(1) William J. Cox, Rochester Central Y. M. C. A.; (2) Pat Kennedy, unattached; (3) George Loth, Board of Recreation A. A., Bridgeport; (4) Harvey Stewart, Newark A. C. Time—4m. 31s.

100-Yard Dash—(1) Howard Dotson, St. Bonaventure Club, Paterson; (2) Bradford Weisiger, Robert C. Ogden A. A.; (3) Craig LaVin, New York A. C.; (4) Eldred Andrus, Newark A. C. Time—10 2-5s.

120-Yard High Hurdles—(1) Franklin P. Johnson, Illinois A. C.; (2) Russell Lloyd, Newark A. C.; (3) Ray Wolf, Newark A. C.; (4) A. Perry Roberts, New York A. C. Time—15 3-5s.

Three-Mile Walk—(1) Mac Weiss, K. of C. Centre, Long Island City; (2) E. G. Wilson, Boston A. A.; (3) A. Alex. Roznik, Jersey Harriers A. A.; (4) E. Hawley, Illinois A. C. Time—23m. 21 3-5s.

440-Yard Hurdles—(1) John Gibson, Bloomfield Catholic Lyceum; (2) J. O. Hunicke, Newark A. C.; (3) W. J. Montabone, Montreal A. A. Time—57 7-10s.

440-Yard Run—(1) James Burgess, West Side Y. M. C. A.; (2) Clifford Stowers, Newark A. C.; (3) K. W. Norton, Trenton Times A. A.; (4) H. N. Bates, Boston A. A. Time—50 3-5s.

220-Yard Low Hurdles—(1) Russell Lloyd, Newark A. C.; (2) Ray Wolf, Newark A. C.; (3) George Stollwerck, Newark A. C.; (4) B. Hearn, Baltimore A. C. Time—25 3-5s.

Five-Mile Run—(1) George Lermond, Boston A. A.; (2) Chauncey White, Millett A. C., Detroit; (3) Gunnar Nelson, Finnish-American A. C.; (4) Frank Titterton, Glencoe A. C. Time—26m. 30s.

220-Yard Dash—(1) Eldred Andrus, Newark A. C.; (2) John Walstrum, Baltimore Police A. C.; (3) Josselyn M. Shore, Millrose A. A.; (4) W. N. Carback, Germantown Boys' Club. Time—22 3-5s.

880-Yard Run—(1) William McKillopp, Boston A. A.; (2) Russell C. Malone, New York A. C.; (3) John F. Hayden, New York A. C.; (4) James Sweeney, Paulist A. C. Time—2m. 1 4-5s.

Field Events. *Pole Vault*—(1) Sylvan S. Scholpp, New York A. C., 12 ft. 4 in.; (2) Charles Greening, Newark A. C., 12 ft.; (3) N. B. Sherrill jr., New York A. C., 12 ft.; (4) George M. Stewart, Meadowbrook Club, 12 ft. Three tied for second, Greening winning on the jump-off.

Putting 16-Pound Shot—(1) Robert McClean, Meadowbrook Club, 44 ft. ½in.; (2) Paul E. Jappe, New York A. C., 42 ft. 7 7-8 in.; (3) J. B. MacNeil, Westinghouse Club, Pa., 41 ft. 7¾ in.; (4) N. G. Kanrich, Univ. of Pa., 40 ft. 7¼ in.

Running High Jump—(1) Gall Robinson, Boston A. A., 6 ft. 1¾ in.; (2) William Winter, Meadowbrook Club, 6 ft.; (3) Harold Moody, Boston A. A., 6 ft.; (4) B. Proctor, Baltimore A. C., 5 ft. 11 in. Winter won on the jump-off for second place.

Running Broad Jump—(1) Edwin Wooley, New York A. C., 22 ft. 7 in.; (2) L. Morrison, Meadowbrook Club, 21 ft. 7⅝ in.; (3) A. Rogan, Boston A. A., 21 ft. 1 7-8 in.; (4) Matthew Feeley, St. Anselm's A. C., 20 ft. 10¼ in.

Throwing the Discus—(1) E. W. Bowen, unattached, Boston, 122 ft.; (2) Robt. Saxer, Newark A. C., 118 ft. 4½ in.; (3) Paul Jappe, New York A. C., 117 ft. 5½ in.; (4) H. J. Betzmer, Meadowbrook Club, 115 ft. 2 in.

Running Hop, Step and Jump—(1) Albert Rogen, Boston A. A., 44 ft. 7-8 in.; (2) Edward Benzinger, St. Anselm's A. C., 40 ft. 9¾ in.; (3) Allan Chandler, Baltimore Y. M. C. A., 38 ft.; no fourth.

Javelin Throw—(1) John Leyden, Newark A. C., 175 ft.; (2) Eli Wolkowitz, Hollywood Inn Club, 169 ft. 1 in.; (3) H. J. Betzmer, Meadowbrook Club, 162 ft. 11½ in.; (4) Joseph Saxon, Baltimore Y. M. H. A., 157 ft. 8 in.

16-Pound Hammer Throw—(1) George L. Taylor, New York A. C., 142 ft. 2 in.; (2) B. F. Sherman, unattached, 130 ft. 5½in.; (3) W. D. Hennen, New York A. C., 127 ft. 3⅝ in.; (4) R. D. Hudson, Newark A. C., 124 ft. 11¾ in.

56-Pound Weight Throw—(1) Thomas McLaughlin, Loughlin Lyceum, 26 ft. 8⅜ in.; (2) Ben Sherman, unattached, 25 ft. 10 in.; (3) George Pavlos, Pastime A. C., 25 ft. 5½ in.; (4) W. D. Hennen, New York A. C., 24 ft. 3½ in.

Point score: Newark A. C., 40; New York A. C., 33; Boston A. A., 28; Meadowbrook Club, 15; Unattached, 14; Illinois A. C., 6; Rochester Central Y. M. C. A., 5; St. Bonaventure Club, Paterson, 5; Long Island K. of C. Centre, 5; Bloomfield Catholic Lyceum, 5; West Side Y. M. C. A., 5; Loughlin Lyceum, 5; St. Anselm's A. C., 4; Hollywood Inn Club, 3; Robert C. Ogden A. A., 3; Millett A. C., 3; Baltimore Police A. C., 3; Baltimore Y. M. C. A.,

2; Pastime A. C., 2; Bridgeport Board of Recreation A. A., 2; Jersey Harriers A. A., 2; Montreal A. A. C., 2; Trenton Times A. A., 2; Baltimore A. C., 2; Finnish-American A. C., 2; Millrose A. A., 2; Westinghouse Club, Pa., 2; Baltimore Y. M. H. A., 1; Univ. of Pa., 1; Paulist A. C., 1; Germantown Boys' Club, 1; Glencoe A. C., 1.

Senior Indoor Track and Field Championships held under the auspices of the Amateur Athletic Union at the 102d Engineers Armory, New York City, March 5, 1924. *60-Yard Dash*—(1) Loren Murchison, Newark A. C.; (2) C. H. Coaffee, Illinois A. C.; (3) George Mittlesdorf, Colby College; (4) J. V. Scholz, New York A. C. Time—6 3-5s.

300-Yard Dash—(1) Loren Murchison, Newark A. C.; (2) Joseph Tierney, Holy Cross College; (3) J. O. McDonald, Univ. of Pa.; (4) Jackson V. Scholz, New York A. C. Time—31 3-5s.

600-Yard Dash—(1) Walter Mulvihill, Holy Cross; (2) Jake Driscoll, Boston A. A.; (3) Vincent Lally, St. Anselm's A. C.; (4) John Holden, Georgetown. Time—1m. 15 1-5s.

1,000-Yard Run—(1) George Marsters, Georgetown; (2) William Sullivan, Georgetown; (3) Abel Kiviat, Wilco A. A.; (4) Ray Buker, Illinois A. C. Time—2m. 17 3-5s.

Two-Mile Run—(1) Joie Ray, Illinois A. C.; (2) Verne Booth, Johns Hopkins; (3) R. E. Brown, Boston A. A.; (4) Roland Payne, Colby College. Time—9m. 32 1-5s.

70-Yard High Hurdles—(1) Herbert Meyer, Newark A. C.; (2) Karl Christiernsen, Newark A. C.; (3) Ivan Riley, Illinois A. C.; (4) Esmond Kearney, Georgetown. Time—9 1-5s.

One-Mile Walk—(1) William Plant, Morningside A. C.; (2) Joseph Pearman, New York A. C.; (3) William Von Bargen, Morningside A. C.; (4) A. W. Bell, Boston A. A. Time—6m. 43 2-5s.

Running High Jump—(1) Harold Osborn, Illinois A. C., 6 ft. 4 in.; (2) Richmond Landon, New York A. C., 6 ft. 4 in.; (3) C. T. Flahive, Boston College, 6 ft. 2 in.; (4) Emerson Holden, Georgetown, 5 ft. 10 in.

Standing Broad Jump—(1) W. I. Reed, Brown Univ., 10 ft. 9 in.; (2) Joseph Misbach, unattached, 10 ft. 5¾ in.; (3) Harry Switzer, Syracuse Y. M. C. A., 10 ft. 5½ in.; (4) H. M. Osborn, Illinois A. C., 10 ft. 4¾ in.

Standing High Jump—(1) Harry Switzer, Syracuse Y. M. C. A., 5 ft. 3 in.; (2) H. M. Osborn, Illinois A. C., 5 ft. 2 in.; (3) E. L. Emes, New York A. C., 5 ft. 2 in.; (4) Edward Clark, Poly Prep., 5 ft. 1 in.

16-Pound Shot Put—(1) R. G. Hills, Princeton, 47 ft. 11½ in.; (2) Orville Wanzer, New York A. C., 46 ft.; (3) P. J. McDonald, New York A. C., 43 ft. 9 7-8 in.; (4) T. J. Lieb, Illinois A. C., 43 ft. 6¼ in.

One and Seven-Eighths Mile Medley Relay Race—(1) New York A. C. (Sid. Leslie, Vic Graeb, Jack Sellers and Walter Higgins); (2) Univ. of Pa. (W. T. Martin, Ray Wolf, Saymon Kerr and Elmer McLane); (3) Newark A. C. (I. Cook, Herb Meyer, A. Woostroff and Warren Hendricks). Illinois A. C. first team finished first but was disqualified. Time—7m. 47 1-5s.

Point score: Illinois A. C., 21; New York A. C., 20; Newark A. C., 20; Georgetown, 11; Holy Cross, 8; Morningside A. C., 7; Syracuse Y. M. C. A., 7; Boston A. A., 6; Brown, 5; Princeton, 5; Pennsylvania, 5; Johns Hopkins, 3; Colby, 3; Unattached, 3; St. Anselm's A. C., 2; Wilco A. A., 2; Boston Co ege, 2; Brooklyn Poly Prep., 1.

Junior Indoor Track and Field Championships held under the auspices of the 106th Field Artillery A. A., at Buffalo, N. Y., on Saturday evening, Feb. 9, 1924.

Track events: *60-Yard Run*—(1) Chester Bowman Syracuse Univ.; (2) B. B. Weisiger jr., Robert Ogden A. A., New York; (3) Alfred Cooley, Nichols School; (4) Clifford E. Crimi, unattached. Time—6 2-5s. (Equals championship record of H. B. Lever.)

300-Yard Run—(1) Adrian Buckner, Technical H. S.; (2) Willis Stone, Syracuse Univ.; (3) Raymond Hass, Georgetown Univ.; (4) Cecil Cook, Syracuse Univ. Time—32 4-5s.

600-Yard Run—(1) Melvin J. Suttner, unattached; John Holden, Georgetown Univ.; (3) R. Chesley, Syracuse Univ.; (4) Clarence Sherman, Robert C. Ogden A. A. Time—1m. 15 3-5s.

1,000-Yard Run—(1) J. J. Barnes, St. Anselm A. C., New York; (2) Paul Middleton, Syracuse Univ.; (3) Russell Malone, Syracuse Univ.; (4) Gerhard V. Goerss, Buffalo Central Y. M. C. A., Time—2m. 22 3-5s.

Two-Mile Run—(1) R. F. Moore, Columbia Univ.; (2) William J. Cox, Mercersburg Academy; (3) William M. Meyer, Philadelphia; (4) P. J. Kennedy, LaRabida K. of C., New York. Time—9m. 33 1-5s. (New championship record, bettering 9m. 35 3-5s. by Harry Helme.)

One-Mile Walk—(1) Harry Keask, Toronto Y. M. C. A.; (2) M. Weiss, L. I. K. of C., New York; (3) E. Fekete, Pastime A. C.; (4) Myles W. Joyce. Time—6m. 57 2-5s.

70-Yard High Hurdles—(1) T. Farrell, Newark A. C.; (2) George C. Powers, Univ. of Pa.; (3) T. Wilson, Masten Park High School. Time—9s. (New record but not officially credited, Farrell knocked one hurdle down.)

One and Seven-Eighths Mile Relay—(1) 174th Infantry A. A. (Ross Mauri, Joseph C. Deluhery, John H. McNulty, Geo. J. Batsch); (2) St. Anselm A. C., New York (Bennett, Mitchell, McLaughlin, Barnes); (3) Buffalo Y. M. C. A. (W. Hogg, B. Mergl, E. Gressell, A. McCauley). Time—7m. 57 4-5s.

Field events. *Running High Jump*—(1) J. Hisscutt, Hamilton Y. M. C. A., 5 ft. 10 in.; (2) Sidney J. Needs, Univ. of Pa., 5 ft. 8 in.; (3) Newell Middleton, Syracuse Univ., 5 ft. 8 in.; (4) D. Darcy, 106th Field Artillery A. A., 5 ft. 6 in. Needs won toss-up to decide tie with Middleton for second place.

Standing High Jump—(1) S. A. Cacanowski, Technical H. S., 4 ft. 4¾ in.; (2) Norman E. Grampp, Buffalo Central Y. M. C. A., 4 ft. 4¾ in.; (3) R. Kadish, Baltimore Y. M. H. A., 4 ft. 4 in.; (4) J. D. Darcy, 106th Field Artillery A. A., 4 ft. 3 in. (Toss won by Cacanowski.)

Standing Broad Jump—H. F. Sweitzer, Syracuse Y. M. C. A., 10 ft. 5 in.; (2) Kenneth Mason, Masten Park H. S., 9 ft. 9¾ in.; (3) Joseph Saxon, Baltimore Y. M. H. A., 9 ft. 7 in.; (4) Robert Kadish, Baltimore Y. M. H. A., 9 ft. 4¼ in.

Putting 16-Pound Shot—(1) M. Stawbin, Syracuse Univ., 41 ft. 7½ in.; Norman E. Grampp, Buffalo Central Y. M. C. A., 39 ft. 7½ in. (3) J. Taggert, Glencoe A. C., 39 ft. 6¾ in.

Point Score. Syracuse Univ., 23; Buffalo Technical H. S., 10, Buffalo Central Y. M. C. A., 9; St. Anselm A. C., N. Y., 8; Unattached, 6; Univ. of Pa., 6; Baltimore Y. M. H. A., 5; Columbia Univ., New York, 5; Georgetown Univ., Washington, D. C., 5; Masten Park High School, Buffalo, 5; Newark A. C., 5; 174th Infantry A. A., 5; Hamilton, Ont., Y. M. C. A., 5; Toronto Y. M. C. A., 5; Long Island K. of C., 3; Mercersburg Academy, 3; Robert C. Ogden A. A., N. Y., 3; Glencoe A. C., N. Y., 2; Nichols Preparatory School, Buffalo, 2; 106th Field Artillery A. A., 2; Pastime A. C., N. Y., 2; Shanahan C. C., Phila., 2; LaRabida K. of C., N. Y., 1; Robert Ogden A. A., 1; Wilder A. A., N. Tonawanda, N.Y., 1.

Decathlon and Relay Races held in conjunction with the National Senior Outdoor Track and Field Championships, under the auspices of the Newark Athletic Club, at Colgate Field, West Orange, N. J., Sept. 7, 1924. *880-Yard Relay*—(1) Newark A. A. (Andrus, Stowers, Bowman, Murchison); (2) Boston A. A. (Dudley, Sullivan, McKillopp, Bates). (3) Salem Crescent A. C. (Dawkins, Blanchard, Meyers, White); (4) Jersey Harriers (Roznik, Taylor Spinella, Buttner). Time—1m. 30 6-10s.

Two-Mile Relay—(1) Newark A. C. Team A (Read Douglas, Stewart, Kirby); (2) Boston A.A. (Sullivan, McKillopp, Dudley, Bates); (3) Newark A. C. Team B (Baney, Stowers, Hunicke, Boettischer); (4) Jersey Harriers, (Roznik, Taylor, Spinella, Buttner). Time—8m. 35 4-5s.

One-Mile Relay—(1) Boston A. A. (E. S. Dudley, Wm. McKillopp, J. J. Sullivan, H. M. Bates); (2) Newark A. C. (Don McCready, H. Meyer, Wm. Read, Clifford Stowers); (3) Jersey Harriers (F. A. Taylor, G. F. Buttner, C. B. Pope, Wm. MacIllwain). Time—3m. 24 2-10s.

440-Yard Relay—(1) Newark A. C. Team A (Bowman, Walter Blauberg, Eldred Andrus, Loren Murchison); (2) Newark A. C. Team B (Stollwerck, Blainey, Lloyd, Hunicke); (3) Jersey Harriers (P. Spinella, W. MacIllwain, C. Pope, George Buttner). Time—43 4-10s.

Four-Mile Relay—(1) Newark A. C. (B. Irwin, Geo. Douglas, Harvey Stewart, Edward Kirby); (2) Jersey Harriers (Frank Taylor, Phil Spinella, Chas. Pope, George Buttner); no other entrants. Time—20m. 27s.

Decathlon Final Point Scores: Anthony Plansky, 5,901.45; Charles Rogers, 5,666.48; D. C. Foote, 5,653.07; A. Woostroff, 5,649.56; Thomas Farrell, 5,213.39; Nathan Klein, 4,296.59; M. Halpainen, 4,203.97; T. Halloran, 3,742.27.

Pentathlon held under the auspices of the New York Athletic Club at Travers Island, New York on Oct. 13, 1924. Final score and standing: Anthony Woostroff, Newark A. C., 7; Charles B. Ashton, New York A. C., 15; Joseph A. Misbach, Paulist A. C., 16; Bernard Lichtman, Pastime A. C., 21; Frank J. Daley, Stamford A. A., 24.

Senior Outdoor Seven-Mile Walk and Ten-Mile Run held at North Tonawanda, New York, on May 30, 1924:

7-Mile Walk—(1) E. C. Freeman, Central Walking Club, Toronto, 56m. 41 3-5s.; (2) Jas. A. Graham, Wildon A. A., Buffalo, N. Y., 56m. 54s.; (3) Herbert L. Schultz, Central Y. M. C. A., Buffalo, 57m. 17 4-5s.; (4) Ted Nuendorfer, Long Island City Athletics, N. Y. C.; (5) Mack Weiss, Long Island K. of C., N. Y. C.; (6) George W. Frost, Union Carbide A. A., Niagara Falls, N. Y.

10-Mile Run—(1) R. Earl Johnson, Thompson Iron & Steel Co., Pittsburgh, Pa., 54m. 29 2-5s.; (2) Albert Michelson, Cygnet A. C., East Port Chester, Conn., 54m. 32s.; (3) James Hennigan, Dorchester Club, Medford Mass.; (4) John Costello, Millrose A. A., N. Y. C.

Two-Mile Steeplechase held under the auspices of the New York A. C., at Travers Island, New York, on Sept. 20, 1924:

Two-Mile Steeplechase—(1) Marvin Rick, New York A. C.; (2) Russell Payne, Ohio State Univ.; (3) Fred W. Yater, New York A. C.; (4) Frank Titterton, Glencoe A. C. Time—10m. 43 1-5s.

WOMEN'S ATHLETICS.

National Track and Field Championships, under auspices of the Amateur Athletic Union, held at Forbes Field, Pittsburgh, Pa., on Sept. 20, 1924, by the Police Pension Fund Committee of Pittsburgh.

60-Yard Hurdles—(1) Hazel Kirk, Prudential Ins. A. C.; (2) Clara Farley, Prudential A. C.; (3) Esther Bohring, Prudential A. C.; (4) Ida Robinson, Philadelphia Turngemeinde. Time—9s.

100-Yard Dash—(1) Frances Ruppert, Meadowbrook Club, Philadelphia; (2) Christine Pylick, P. R. R., Cleveland; (3) Marian Ceres, Prudential A. C.; (4) Nanette Dowling, P. R. R., Cleveland. Time—12s.

440-Yard Relay—(1) Meadowbrook Club, Philadelphia (Ruppert, Rittler, Josephs, Adams, Dickson); (2) P. R. R., Cleveland; (3) Prudential A. C. Time—37s.

60-Yard Dash—(1) Christine Pylick, P. R. R., Cleveland; (2) Grace Rittler, Meadowbrook Club; (3) Christine Josephs, Meadowbrook Club; (4) Marietta Ceres, Prudential A. C. Time—6 1-5s.

Running Broad Jump—(1) Dorothy Walsh, Rocky River H. S., Ohio; (2) Marietta Ceres, Prudential A. C.; (3) Nanette Dowling, P. R. R., Cleveland; (4) Ida Robinson, Philadelphia Turngemeinde. Distance—15 ft. 3 in.

Javelin Throw—(1) Esther Spargo, Boston Swimming Club; (2) Roberta Ranck, Philadelphia Turngemeinde; (3) Catherine Donovan, Prudential A. C.; (4) Gladys Booth, Prudential A. C. Distance—72 ft. 5¾ in.

Discus Throw—(1) Roberta Ranck, Philadelphia Turngemeinde; (2) Minnie Wolbert, Millrose A. A., New York; (3) Clara Farley, Prudential A. C.; (4) Gladys Booth, Prudential A. C. Distance—70 ft.

Eight-Pound Shotput—(1) Esther Behring, Prudential A. C.; (2) Gladys Booth, Prudential A. C.; (3) Bertha Christophal, German-American Turnverein, New York; (4) Roberta Ranck, Philadelphia Turngemeinde. Distance—30 ft. 1½ in.

Baseball Throwing Contest—(1) Mabel Holmes, Board of Education, Paterson, N. J.; (2) Alberta Bauman, unattached; (3) Florence Eggleston, Rocky River H. S.; (4) Miss Donnelly, unattached. Distance—199 ft. 10 in.

A. A. U., MISCELLANEOUS CHAMPIONSHIPS.

Junior Handball Championships held at and under the auspices of Pittsburgh A. A., March 20, 21, 22, 23, 1924. *Singles, Final*—(1) J. Rodgers Flannery, Pittsburgh A. A.; (2) George Nelson, Baltimore Y. M. C. A.; (3) A. A. Bialas, Pittsburgh A. A.

Doubles, Finals—(1) Dr. C. B. Schildecker and P. D. Sivard, Pittsburgh A. A.; (2) A. A. Bialas and Herbert Lytle, Pittsburgh A. A.; (3) W. B. Way and W. J. Bird, Pittsburgh A. A.

Senior Handball Championships held at and under the auspices of the Los Angeles A. C., April 21 to 26, 1924. *Singles, Finals*—(1) Maynard Laswell, Los Angeles A. C.; (2) George Klawiter, Los Angeles A. C.; (3) Frank E. Gerbutt, Los Angeles A. C.

Doubles, Final—(1) Lane McMillan and Jack Donovan, Olympic Club, San Francisco; (2) Ernie Clark and Nolen Allen, Los Angeles A. C. (3) L. G. Granfield and Belton Wolf, Olympic Club, San Francisco.

Four-Wall Hardball Handball Championship, Doubles, held under auspices of Brooklyn Handball Club, April 21, 1924—(1) Joseph Henry and Miles O'Donnell, Brooklyn Handball Club; (2) Owen Brady and John Henry, Pastime A. C.; (3) James Kelly and T. Tholfsen, Brooklyn Central Y. M. C. A.

Singles (held under auspices Central Y. M. C. A., Brooklyn, N. Y.)—(1) Joseph Henry, Brooklyn Handball Club; (2) T. Tholfsen, Brooklyn Central Y. M. C. A.; (3) Owen Brady, Pastime A. C.

One-Wall Handball Championship held under auspices Crescent Athletic Club, Brooklyn, N. Y., Jan. 21-30, 1924. *Doubles*—(1) William Sackman and Sam Buxbaum, Trinity Club; (2) Edward Butler and Murray Vernon, Crescent A. C.; (3) J. Byrnes and J. Stanton, West Side Y. M. C. A.

Singles—(1) J. Byrnes, West Side Y. M. C. A.; (2) Murray Vernon, Crescent A. C.; (3) Edward Butler, Crescent A. C.

National Weight-Lifting Championship held under the auspices of the Los Angeles A. C., Los Angeles, Cal., on April 19, 1924. *Middleweight Class*—(1) A. E. Bevan, Los Angeles A. C., 825¼; (2) M. P. Betty, Los Angeles A. C., 803¾; (3) J. Kingsbury, Los Angeles A. C., 777.

Light Heavyweight Class—(1) D. P. Willoughby, Los Angeles A. C., 898½; (2) A. L. Martin, Los Angeles A. C., 892; (3) E. A. Goodman, Los Angeles A. C., 807½.

RIFLE AND PISTOL SHOOTING.

World's Individual Free Rifle Match—1st, Gunnery Sergt. Morris Fisher, U. S. M. C., 1,075x1,200; 2d, W. R. Stokes, Washington, D. C., 1,067x1,200.

World's Free Rifle Team—1st, United States, 5,284x6,000; 2d, Switzerland, 5,184x6,000.

World's 22 Calibre Team Championship (Lord Dewar Trophy)—1st, United States, 7,779.

Olympic Individual Championship—1st, Gunnery Sergt. Morris Fisher, U. S. M. C., 95x100; 2d, C. T. Osburn, U. S. N., 95x100.

Olympic 22 Calibre Championship—1st, De Lisle, France, 498x500; 2d, Dinwiddie, U. S. A., 496x500.

Olympic Team Championship—1st, United States, 676x700; 2d, France, 646x700.

National Individual Rifle Match (Service Rifle)—Regular Service, Capt. W. W. Ashurst, U. S. M. C., 291x300; High National Guard Class, Lieut. Robert R. Stormer, Pa. N. G., 284x300; High Civilian, Graham A. Stabler, 281x300.

National Individual Pistol Match (Service Pistol)—Lieut. Raymond E. Vermette, Inf., 271x300; High National Guardsman, Sergt. Claire M. Corbin, Ill., 257x300; High Civilian, Chas. J. L. Sundberg, N. Y., 255x300.

National Rifle Team Match (Service Rifle)—Winner, Service Team Class, U. S. Eng., 2,782x3,000; High National Guard Class, Ohio, 2,692x3,000; High R. O. T. C. Class, 7th Corps Area, 2,676x3,000; High Team Civilian Class, Idaho, 2,648x3,000.

National Police Pistol Championship—1st, Sergt. Jos. C. Gooch, Chicago, 266x300.

Long Range Rifle Championship (Wimbledon Cup Match)—1st, Ralph McGarity, Washington, D. C., 99x100.

Offhand Championship (Navy Cup Match)—1st, Capt. Jas. D. Andrews, U. S. Eng., 95x100.

Leech Cup Match—1st, Lieut. C. M. Martin, U. S. Cavalry, 105x105.

The President's Match—1st, Lieut. L. O. Jones, U. S. Inf., 190x200.

Rapid Fire Championship—1st, Sergt. Chas. O. Franzen, U. S. M. C., 100x100.

Gallery Rifle Champion, 50 ft.—1st, A. L. Beale, Keyser, W. Va., 598x600.

Gallery Rifle Champion, 75 ft.—1st, C. G. Harrel, Chicago, Ill., 597x600.

Gallery Team Champion, 50 ft.—1st, Columbus Business Men's R. C., Columbus, O., 2,906x3,000.

Gallery Team Champions, 75 ft.—1st, Remington Arms Club, Bridgeport, Conn., 2,916x3,000.

Outdoor Small Bore Champion—1st, T. K. Lee, Birmingham, Ala., 795x800.

Outdoor Small Bore Team Champions—1st, Quinnipiac Rifle and Revolver Club, New Haven, Conn., 1,971x2,000.

DOG RACING.

The Pas Dog Derby run at The Pas, Manitoba, March 11-12, course 200 miles, won by "Shorty" Russick's team of hybrid huskies in 23h. 45m.; second, Allen McDonald; third, Bill Grayson. Russick's time is a new record for the course.

Eastern International Dog Derby run at Quebec, February 23; distance 120 miles; won by Earle Bridges' Ontario Paper team; second, Henry Skeene, Brown Corporation team; third, Chateau Robewalt team.

BASEBALL.

For the first time in the history of professional baseball the Washington, D. C., Club, under the management of Stanley Harris, won the American League championship and then the World's Series, defeating the New York team, National League pennant winners, in a thrilling series, four games to three. The first and seventh games were twelve-inning contests, both played at Washington, and were witnessed by President Coolidge. Walter Johnson, the famous standby and star of the Washington Club for almost two decades, pitched the first and fifth games, both won by the Giants, but came back into his own in the closing innings of the seventh game with the score tied and shut out the National Leaguers, while his teammates put over the winning run in the twelfth inning on Oct. 10.

The series established a new record in gate receipts, for 283,695 spectators paid the sum of $1,093,104 to witness the playing of the seven games, but the attendance record of 1923 when 301,430 was not approached. Just prior to the close of the National League race James O'Connell and Assistant Coach Dolan of the New York National League team were placed upon the ineligible list as professional baseball by Commissioner Landis due to a charge made by player Sand of the Philadelphia Nationals that these players had approached him with a proposal to assist the New York team in clinching the National League pennant by easing up in his play. The results by games and other statistics of the series follow:

FIRST GAME.

										R.	H.	E.
Wash. (A. L.)	0	0	0	0	0	1	0	0	1—	3	10	1
N. Y. (N. L.)	0	1	0	1	0	0	0	0	0—	2	4	1

Batteries—Johnson and Ruel; Nehf and Gowdy.

SECOND GAME.

										R.	H.	E.

a Batted for Terry in sixth of seventh game.
b Ran for Bentley in twelfth of first game; batted for Baldwin in seventh of fourth game; ran for Kelly in ninth of sixth game; ran for Groh in eleventh of seventh game.
c Batted for Barnes in fifth of fourth game.
d Batted for Lindstrom in twelfth of first game; batted for Dean in ninth of fourth game.
e Batted for Nehf in eighth of sixth game.
f Batted for McQuillan in eleventh of seventh game.
g Batted for Miller in ninth of fifth game; batted for Taylor in eighth of seventh game.
h Batted for Russell in seventh of third game.
j Ran for Tate in ninth of fifth game.
k Batted for Marberry in fourth of third game; batted for Johnson in ninth of fifth game; batted for Marberry in eighth of seventh game.
l Batted for Johnson in twelfth of first game; batted for Martina in eighth of third game; ran for Tate in eighth of seventh.

The score by innings:
New York (N. L.)... 2 3 2 2 2 2 5 1 5 3 0 0 2—27
Washington (A. L.) . 2 0 3 4 5 1 0 6 3 0 0 2—26
(First and seventh games went twelve innings.)

The summary: Double plays—Bluege, Harris and Judge, 4, Harris, Peckinpaugh and Judge, 2; Peckinpaugh and Harris; Johnson, Bluege and Judge; Jackson, Frisch and Terry; Jackson, Frisch and Kelly; Kelly and Jackson; McQuillan, Frisch and Terry; Marberry, Bluege, Harris and Judge; Rice, Johnson and Ruel. Left on bases—New York, 59; Washington, 57. Bases on balls—Off Johnson, 11 (Terry, 3; Young, 2; Gowdy, 2; Wilson, Frisch, Lindstrom Jackson); off Marberry, 4 (McQuillan, Lindstrom, Frisch, Young); off Zachary, 3 (Lindstrom, Frisch, Kelly); off Mogridge, 6 (Young, 2; Meusel, 2; Lindstrom, Barnes); off Ogden, 1 (Frisch); off Nehf, 9 (McNeely, 3; Ruel, 2; Rice, Judge, Peckinpaugh, Bluege); off Bentley, 8 (Judge, 3; Ruel, 2; McNeely, Harris, Zachary); off McQuillan, 6 (Rice, 2; Ruel, 2; Bluege, Tate); off Ryan, 4 (Miller, Leibold Tate, Judge); off Jonnard, 1 (Bluege); off Barnes, 1 (Tate). Struck out—By Johnson, 20 (Wilson, 5; Kelly, 5; Young, 3; Jackson, 2; Lindstrom, 2; Gowdy, 2; Frisch); by Marberry, 10 (Jackson, 2; Wilson, 2; Lindstrom, 2; Young, Kelly, Bentley, Barnes); by Mogridge, 5 (Young, 2; Kelly, Barnes, Terry); by Zachary, 3 (Wilson, 2; Lindstrom); by Martina, 1 (Kelly); by Ogden, 1 (Lindstrom), by Bentley, 10 (Goslin, 3; Zachary, 2; Bluege, 2; Ruel, Rice, Harris); by Nehf, 7 (Goslin, 2; Judge, 2; Zachary, Bluege, Rice); by Barnes, 9 (Mogridge, 3; Harris, 2; Taylor, 2; Goslin, McNeely); by Ryan, 3 (Bluege, Harris, Goslin); by Dean, 2 (Mogridge, McNeely); by Baldwin, 1 (Mogridge); by McQuillan, 1 (McNeely).

WALTER JOHNSON NAMED AS MOST VALUABLE PLAYER IN AMERICAN LEAGUE.

Walter Johnson of the Washington Club, which later won the World's Series, was selected by a group of newspaper baseball writers as the most valuable player in the American League and thus won the trophy bearing that designation. Eddie Collins of the Chicago Club was second and Charles Jamieson of Cleveland, third. The total points of all players considered and the final order of selection follows:

	Points.
Walter P. Johnson, p., Washington	55
Edward T. Collins, 2b., Chicago	49
Charles Jamieson, o.f., Cleveland	25
Herbert Pennock, p., New York	24
John Bassler, c., Detroit	22
Henry Severeid, c., St. Louis	17
Joseph Hauser, 1b., Philadelphia	13
William Jacobson, o.f., St. Louis	11
Harry Heilmann, o.f., Detroit	9
Joseph Sewell, ss., Cleveland	9
Harold Ruel, c., Washington	7
Walter Schang, c., New York	7
Al Simmons, o.f., Philadelphia	7
Walter Pipp, 1b., New York	6
Howard Ehmke, p., Boston	5
Ira Flagstead, o.f., Boston	5
Walter Gerber, ss., St. Louis	4
Earl Whitehill, p., Detroit	4
Lou Blue, 1b., Detroit	3
Ike Boone, o.f., Boston	2
Joseph Harris, o.f., Boston	2
C. E. Galloway, ss., Philadelphia	1
Kenneth Williams, o.f., St. Louis	1

ARCHERY.

The two important events during 1924 in archery were the annual tournament of the Eastern Archery Association which was held at Rye, N. Y., Aug. 14, 15, and 16, and the 44th annual tournament of the National Archery Association (known as "The Mohawk Tournament" or "The Great Council of the Bow) which was held at Deerfield, Mass., Aug. 19 to 22, inclusive.

EASTERN ARCHERY ASSOCIATION.

In the tournament of the Eastern Archery Association, limited to archers east of Mississippi River, the men's championship was won by Rudolph Lagai of Rome, N. Y., a lad 16 years old. The women's championship was won by Miss Dorothy D. Smith of Newton Center, Mass. who has held the ladies' championship for three years past.

Those making the three highest scores in each event at this tournament were as follows:

Double York Round:
Rudolph Lagai, Rome, N. Y., Hits, 155; Score, 747.
Dr. R. P. Elmer, Penn A. C.; Hits, 175; Score, 687.
W. H Palmer jr, Penn. A. C.; Hits, 159; Score, 689.

Double American Round:
Rudolph Lagai, Rome, N. Y.; Hits, 176; Score, 1064.
R. P. Elmer, Penn. A. C.; Hits, 176; Score, 1060.
A. P. Knight sr., Rome, N. Y.; Hits, 168; Score, 1014.

Double National Round:
Miss Dorothy D. Smith, Newton Center, Mass.; Hits, 109; Score, 595.
Mrs. R. P. Elmer, Wayne, Pa.; Hits, 82; Score, 232.
Miss Ruth Brewer, Newton Center, Mass.; Hits, 48; Score, 200.

Double Columbia Round:
Miss Dorothy D. Smith, Newton Center, Mass.; Hits, 138; Score, 784.
Mrs. R. P. Elmer, Wayne, Pa.; Hits, 116; Score, 578.
Mrs. James Neild, Greenfield, Mass.; Hits, 102; Score, 506.

NATIONAL ARCHERY ASSOCIATION.

The annual tournament of the National Archery Association was one of the best attended of recent years, there being 54 entries. The men's championship was won by James Jiles of Pittsburgh, Pa. The women's championship was won by Miss Dorothy D. Smith of Newton Center, Mass.

Those making the three highest scores in each event are as follows:

Double York Round:
James S. Jiles, Pittsburgh, Pa.; Hits, 187; Score, 889.
R. P Elmer, Penn A. C.; Hits, 187; Score, 785.
Rudolph Lagai, Rome, N. Y.; Hits, 174; Score, 696.

Double American Round:
Rudolph Lagai, Rome, N. Y.; Hits, 179; Score, 1083.
R. P. Elmer, Penn A. C.; Hits, 172; Score, 1050.
James S. Jiles, Pittsburgh, Pa.; Hits, 176; Score, 1026.

Double National Round:
Miss Dorothy D. Smith, Newton Center, Mass.; Hits, 121; Score, 575.
Mrs. H. L. Bailey, Elizabeth, N. J.; Hits, 105; Score, 463.
Mrs. E. W. Frentz, Meirose, Mass.; Hits, 102; Score, 456.

Double Columbia Round:
Miss Dorothy D. Smith, Newton Center, Mass.; Hits, 136; Score, 784.
Mrs. H. L. Bailey; Hits, 131; Score, 695.
Miss Stella Ives, Boston, Mass.; Hits, 132; Score, 678.

A new record was established in the Flight Shoot by both the men and the women. The men's Flight Shoot was won by C. D. Curtis of Pembina, N. D. with a Flight Shot of 304 yds. 6½ inches. The best previous record was 290 yds. made by L. W. Maxon.

The Ladies' Flight Shot was won by Miss Katherine Howe of Dorset, Vt. who made a shot of 255 yds. 11½ inches. The previous record was 251 yds.

In the Team Shoot two new records were made. The winning Team was the Keystone Team composed of R. P. Elmer, Penn A. C., W. H. Paimer, Penn A. C.; J. S. Jiles, Pittsburgh, Pa.; and O. L. Hertig, Pittsburgh, Pa. The record breaking score of this team was 333 hits, 1727 score.

At the annual meeting held after the tournament, it was voted to hold the 1925 tournament at Rome, N. Y., and the following officers were elected: President, Arthur P. Knight sr., 102 Huntington St., Rome, N. Y.; Secretary-Treasurer, Louis C. Smith, 616 Old South Building, Boston, Mass.

THE TURF.

EPINARD'S RACES IN THE UNITED STATES.

The presence of Pierre Wertheimer's famous French turf star Epinard in four events during the season of 1924 was the outstanding feature of the racing calendar. Although Epinard failed to win in any one of his four starts he finished second in three and proved to be a four-year-old fully in keeping with the record that preceded him from France. The first three events in which Epinard competed and ran second were termed the $100,000 International Series at varying distances.

THE FIRST RACE—BELMONT PARK.

The first contest was run at Belmont Park, Long Island, N. Y., on Monday, September 1, before 60,000 spectators, among whom was the Prince of Wales. The complete chart of the race follows:

Distance, six furlongs. International Special No. 1. Sweepstakes, for three-year-olds and upward, $25,000 addcd. Net value to winner, $29,000; second, $5,000; third, $2,000.

Horse.	Wt.	P. P.	St.	¼.	½.	Str.	Fin.	Jockey.	Odds.
Wise Counsellor	125	7	3	61½	61½	51	1¾	F. Keogh	3–1
Epinard	130	1	5	3h	3h	32	23	E. Haynes	7–2
Ladkin	125	3	7	84	71½	72	31¼	C. Kummer	7–1
Snob II	130	2	8	71½	5h	61	41¾	C. Lang	15–1
Zev	130	8	6	4½	2h	1h	51	L. Fator	4–1
Wilderness	130	4	9	9	9	9	61	J. Maiben	15–1
Baffling	125	5	2	1h	1h	21	7½	L. McAtee	4–1
Miss Star	127	6	1	21	4h	41	82	H. Thurber	25–1
Goshawk	130	9	4	5nk	82	81	9	I. Parke	12–1

Time—0.23, 0.46, 1.11 4-5.

Place and show: Wise Counsellor, even and 1 to 2; Epinard, 7 to 5 and 7 to 10; Ladkin, 5 to 2 and 7 to 5.

Start good; won ridden out; place driving. Wise Counsellor, ch, c., 3, by Mentor—Rustle; owned by F. A. Burton and John S. Ward and trained by W. V. Walsh.

Wise Counsellor, outpaced early, came around field at top of stretch and closed with a great rush on outside to outgame Epinard in final strides. Latter was in close quarters on rail for the first half mile, but moved up fast in stretch and looked the winner a furlong out; he only hung in final yards and evidently needed the race. Ladkin moved up fast in last quarter to outgame the tiring pacemakers in stretch. Snob II. was well up all the way. Zev rushed up to the leaders turning for home, but tired badly after disposing of Baffling at top of stretch. Wilderness was knocked out of it directly after the start. Baffling cut out a hot pace from a fast break, but quit badly in stretch. Miss Star was done after three furlongs. Goshawk showed only a flash.

Scratched—Worthmore, Little Chief, Rialto.

THE SECOND RACE—AQUEDUCT.

The second event was run at the Aqueduct course on Long Island, Saturday, September 27. The result: International Special No. 2. One mile. Weight for age. Sweepstakes for three-year-olds and upward. Net value to winner, $28,750; second, $5,000; third, $2,000.

Horse.	Wt.	P. P.	St.	¼.	½.	¾.	Str.	Fin.	Jockey.	Odds.
Ladkin	119	1	3	21½	1h	1h	22	1no	Kummer	2–1
Epinard	126	2	1	3h	3h	31½	32	21¼	Haynes	11–5
Wise Counsellor	119	3	2	1h	24	23	11½	32½	O'Donnell	16–1
Zev	126	4	4	41½	42½	41	4½	4h	L. Fator	5–1
My Own	126	6	6	51½	53	52	52	53	Barnes	15–1
Little Chief	126	5	5	6	6	6	6	6	Maiben	60–1

Scratched—Rialto.

Time—0.23, 0.45 4-5, 1.10 3-5, 1.36 2-5.

Place and show: Ladkin, 4-5, 1-3; Epinard, 4-5, 1-3; Wise Counsellor, even, 2-5.

Owners—1, August Belmont; 2, Pierre Wertheimer; 3, F. A. Burton; 4, Rancocas Stable; 5 Salubria Stable; 6, I. B. Humphreys.

Start good; won ridden out; place same. Ladkin, ch. c., 3, Fairplay—Lading; owned by August Belmont and trained by L. Feustel.

Ladkin, under perfect handling, was taken around the two leaders in the run down the backstretch after breaking a bit slowly. He then went to Wise Counsellor to carry that colt along at a terrific clip, but Kummer reserved him a bit for the final sixteenth and put up a powerful finish to withstand Epinard's final challenge. Latter outbroke his company, but was taken back off the pace going down the far side, doubtless a bit too far. He closed with a terrific rush when set down in the last quarter and would have won in another stride. Wise Counsellor had all his speed for seven furlongs and then faltered. Zev showed only a flash. Others always outrun.

THE THIRD RACE—LATONIA.

The third race was run at Latonia course, Covington, Ky., Oct.'11. Result:
International Special No. 3. Distance, one and one-quarter miles. For three-year-olds and upward, $50,000 added. Net value to winner, $55,000: second, $6,000; third, $3,000; fourth, $1,000.

Horse.	Wt.	P. P.	St.	¼.	½.	¾.	Str.	Fin.	Jockey.	Odds.
Sarazen	120	3	3	21	2½	11	11	11½	G. Babin	$5.70
Epinard	126	1	2	3½	31	4h	44	2no	E. Haynes	.95
Mad Play	120	7	5	42	41½	2½	2½	3no	L. Fator	18.65
Altawood	120	5	8	8	7½	62	3h	43	L.M'Dermott	39.00
Princess Doreen	117	8	6	6½	5½	5½	52	54	H. Stutts	5.15
Little Chief	126	4	4	5h	62	71	71	65	E. Pool	133.45
My Play	126	6	7	76	8	8	8	78	A.Schutt'ger	39.40
Chilhowee	120	2	1	12	1nk	3½	61	8	M. Garner	6.55

Scratched—Zev, Wise Counsellor.

Time—0.22 4-5, 0.45 1-5, 1.10 3-5, 1.35 4-5, 2.00 4-5.

$2 Mutuels paid: Sarazen, straight, $13.40; place, $4.20; show, $3.90. Epinard, place, $3.10; show, $3. Mad Play, show, $5.50.

Owners—1, Fair Stable; 2, Pierre Wertheimer; 3, Rancocas Stable; 4, C. B. Head; 5, Audley Farm; 6, I. B. Humphreys; 7, Lexington Stable; 8, Gallaher Brothers.

Start good; won handily; place driving. Sarazen, ch. g., 3, by High Time—Rush Box; owned by Fair Stable and trained by Max Hirsch.

Sarazen broke fast and, following Chilhowee closely for first half-mile, drew into lead when called on, and held others safe thereafter. Epinard raced forwardly for entire trip, stood hard drive in stretch, where he saved ground and just lasted for second place. Mad Play finished going gamely and but for bumping with Altawood would have been closer up. Altawood, far out of it for three-quarters, came strong when going fastest, bumped into Mad Play and lost stride momentarily but finished gamely. Princess Doreen was outrun but closed some ground in the stretch. Chilhowee tired badly after showing good speed for three-quarters.

THE FOURTH RACE—LAUREL.

Epinard also ran in the Laurel Stakes at Laurel, Md., on October 18, and for first time during his American invasion failed to make an impressive showing and contest. The result:

The Laurel Stakes—Distance, one mile; for all ages; $10,000 added. Net value to winner, $10,225; second, $2,000; third, $1,000; fourth, $200.

Horse.	Wt.	P. P.	St.	¼.	½.	¾.	Str.	Fin.	Jockey.	Odds.
Wise Counsellor	120	4	1	11½	11	12	13	12½	O'Donnell	$4.75
Big Blaze	110	1	6	52	53	53	31½	22½	P. Walls	27.15
Sun Flag	117	7	4	4h	31½	2no	21½	31½	Barnes	35.10
Initiate	107	3	2	2h	4h	4h	52	4½	Parke	9.15
Epinard	116	6	3	3no	2h	31½	41	5h	C. Kummer	.50
Rustic	110	5	5	7	7	7	7	62	Babin	33.90
My Play	123	2	7	61	62	67	63	7	Schuttinger	36.50

Scratched—Single Foot, Hurry Inn, Donaghee. Time—0.24 3-5, 0.48 1-5, 1.13 3-5, 1.38 2-5.

$2 mutuels paid—Wise Counsellor, straight, $11.50; place, $5.70; show, $4.90; Big Blaze, place, $17.60; show, $11.60; Sun Flag, show, $10.30.

Owners—1, F. A. Burton; 2, Glen Riddle Farm; 3, G. A. Cochran; 4, H. P. Whitney; 5, I Wertheimer; 6, A. H. Morris; 7, Lexington Stable.

Start good; won easily; place same. Wise Counsellor, ch. c., 3, by Mentor—Rustle; owned by F. A. Burton and trained by W. V. Walsh.

Wise Counsellor broke fast and drew away rounding the first turn. He was rated in front for the remainder of the trip. Big Blaze broke slowly and in close quarters in early stages. He closed stoutly in the stretch run. Sun Flag was a forward contender all the way. Epinard appeared sour at barrier. He was carried wide at first turn and quit after going five furlongs.

Following this event Epinard was reshipped to France by his owner, after he had refused an offer of $300,000 for him.

BREEDING OF PIERRE WERTHEIMER'S EPINARD.

EPINARD (4) chestnut colt, 1920.

* Lord Rosebery's; not imported. Botafogo, an Argentine thoroughbred, sold for $225,000 in 1919.

RACING'S ECONOMIC VALUE.

(By F. C., in the New York Herald.)

Only those associated with the turf or interested in the breeding of blood stock have any definite knowledge of the economic benefit racing is to a country.

The distribution of more than $91,000,000 in stakes and purses on the tracks of the United States, Mexico, Cuba and the Dominion of Canada, since 1905, the figures being collected by Daily Racing Form, an unquestioned authority in such matters, presents a strong argument in favor of these tests to determine what specimens shall be worthy of perpetuation in the stud.

The reports show that in 1905 the contributions of racing organizations in the United States amounted to $5,372,402. The total for that year in all the countries named above was $5,601,577.

As neither Mexico nor Cuba had any recognized racing that year the $229,175 came from Canadian courses.

In 1909 Mexico, Cuba and British Columbia, the latter being figured separately from the rest of Canada, helped materially to offset the reduced purse offerings in this country, due to the attacks of the reformers, whose campaigns against racing reached their height in 1912, when the total contributions to the turf on this continent had shrunk to $1,507,625.

With the turf re-established here, in Kentucky, Maryland and all parts of Canada, about 1918 the situation improved.

In 1920 there was a total distribution of $7,773,407.

This has been augmented until 1923 furnished $9,675,811, of which this country supplied $6,979,741.

With such a record spread on the books there is little wonder that the values of thoroughbreds have enhanced and that the breeding industry has expanded far beyond the expectations of the most sanguine lover of the turf.

July 27, 1920	Resolute	5.28.35	Shamrock IV	5.48.29	American boat won by 19.45

* Columbia disabled, but finished race. † Valkyrie III. fouled Defender, and the race was awarded to American boat, though the challenger finished 47s. ahead in 3 55.09. ‡ Shamrock II. finished first, but lost race on time allowance of 43s. The Reliance allowed the Shamrock III. 1m. 57s. in all their races, Reliance measuring 108.41 ft. and Shamrock III. 104.37 ft. In the preliminary trials between Reliance, Constitution and Columbia, Constitution won three, although Reliance was selected as cup defender.

ROWING.

YALE VS. HARVARD—VARSITY EIGHTS.

Yale and Harvard varsity eight-oared races began in 1852 on Lake Winnepesaukee, at two miles, when Harvard won. In 1855 the course was changed to Springfield and lengthened to three miles. Lake Quinsigamond was the scene for nine years, and Lake Saltonstall for 1869. After an interval of seven years the crews in 1876-77 went to Springfield, Mass. when the four-mile course was inaugurated. In 1878 the crews changed again to New London, Conn. The official records follow:

Date.	Won By.	Time.	
		Winner.	Loser.
July 21, 1855	Harvard	.....	.....
July 26, 1859*	Harvard	19 18	20 18

Amateur Rowing, 1924.

Fifty-second National Championship Regatta of the National Association of Amateur Oarsmen of America held at Springfield, Mass., August 8-9.

RESULTS, FINALS ONLY:

Intermediate Double Sculls—Won by C. Rife and Ralph Roberts, Bachelors' Barge Club, Philadelphia; J. J. Dolan and G. C. McGready, Pennsylvania Barge Club, Philadelphia, second; Metropolitan Rowing Club, New York City, third; Springfield Boat Club, fourth; Ravenswood Boat Club, Long Island City, fifth. Time—6m. 45 3-5s.

145-Pound Senior Four-Oared Shell with Coxswain—Won by West Side Rowing Club, Buffalo (Flynn, Hooper, Hopkins, Levy and Downs); Nonpareil Rowing Club, New York, second. (Only two starters.) Time—6m. 57s. (New record.)

Intermediate Eight-Oared Shell—Won by Lachine Rowing Club, Lachine, Quebec (Johansson, Gilbert, Parkes, Anderson, McCormack, Schramm, Pounds, McPherson and Spicer, coxswain); New York Athletic Club, second; Springfield Rowing Association, third. Time—6m. 5s.

Senior Quadruples—Won by Bachelors' Barge Club, Philadelphia (Rife, Knight, Blackburn, Drew-Bear). (No other starter.) Time—6m. 14 3-5s.

Association Singles Championship—Won by W. E. Garrett Gilmore, Bachelors' Barge Club, Philadelphia; Algernon E. Fitzpatrick, Malta Boat Club, Philadelphia, second; Alfred Vogt, Vesper Boat Club, Philadelphia, third; John Blessing, Jr., Undine Barge Club, Philadelphia, fourth; Russell Codman, Jr., Union Boat Club, Boston, fifth. Time—6m. 46 4-5s.

Senior Quarter-Mile Dash Championship—Won by Algernon E. Fitzpatrick, Malta Boat Club, Philadelphia; W. E. Garrett Gilmore, Bachelors' Barge Club, Philadelphia, second; John A. Crooks, Union Boat Club, Boston, third; John Durnan, Argonaut Rowing Club, Toronto, fourth; Alfred Vogt, Vesper Boat Club, Philadelphia, fifth; August Muckler, Western Rowing Club, St. Louis, sixth. Time—1m. 12s.

Senior Four-Oared Without Coxswain—Won by West Philadelphia Boat Club (Heffernan, Bergen, Johnson, Doyle); Metropolitan Rowing Club, New York, second; Century Boat Club, St. Louis, third; Springfield Boat Club, fourth. Time—6m. 25 4-5s.

Intermediate Singles Championship—Won by Russell Sherman, West Side A. C., Buffalo; Chester Turner, Argonauts, Toronto, second; William Bresnahan, Springfield Boat Club, third; Fred M. Haas, Wachusett Boat Club, Worcester, fourth. Time—7m. 1 3-5s.

Senior 145-Pound Doubles Championship—Won by Penn Athletic Club, Philadelphia (Finnegan, McIlvaine); Vesper Boat Club, Philadelphia, second; Bachelors' Barge Club, Philadelphia, third; Fairmount Rowing Association, Philadelphia, fourth; Pennsylvania Barge Club, Philadelphia, fifth; New York A. C., sixth. Time—6m. 27 1-5s.

Senior Doubles Championship—Won by Undine Barge Club, Philadelphia (G. W. Allison, J. W. Blessing, Jr.); Bachelors' Barge Club, Philadelphia, second. Time—6m. 39 2-5s.

Senior Eight-Oared Shells Championship—Won by New York Athletic Club No. 1 (R. C. S. Sutliff, F. J. Kerns, K. A. Mcserve, F. D. Morey, L. G. Clark, W. J. Callahan, H. Kerns, R. V. Lange; coxswain, E. N. Carson); Lachine (Quebec) Rowing Club, second; Argonaut Rowing Club, Toronto, third; Undine Barge Club, Philadelphia, fourth; New York Athletic Club No. 2, fifth. Time—5m. 55 3-5s.

American Henley, held at Philadelphia, May 31.

RESULTS, FINALS ONLY:

Interscholastic Eight-Oared Shells (one mile)—Won by Episcopal Academy, Philadelphia; Princeton Prep School, second. Time—5m. 37 1-5s.

First Single Sculls—Won by W. E. Garrett Gilmore, Bachelors' Boat Club, Philadelphia; Russell Codman, Jr., Union B. C., Boston, second; Walter Hoover, Duluth Boat Club, third. Time—8m. 36s.

Special Interclub Second Eight-Oared Shells—Dead heat between New York A. C. and Undine Boat Club, Philadelphia. Time—6m. 57s.

Freshman Collegiate Eight-Oared Shells—Won by Princeton (bow, Eckerson; 2, Wilson; 3, Collins; 4, Magee; 5, Ballard; 6, Clark; 7, Goodman; stroke, Aitken; coxswain, Pine); U. S. Naval Academy, second; University of Pennsylvania, third. Time—6m. 55 1-5s.

Junior Collegiate Eight-Oared Shells—Won by University of Pennsylvania (bow, Ashton; 2, Johnson; 3, Swain; 4, Medholdt; 5, Bergen; 6, Heusel; 7, Jenkins; stroke, Bennett; coxswain, Shumway); U. S. Naval Academy, second; Syracuse, third; Harvard, fourth. Time—6m. 45 1-5s.

Special Collegiate 150-Pound Eight-Oared Shells—Won by University of Pennsylvania (bow, Olcott; 2, Chubbock; 3, Henn; 4, Laub; 5, Heintz; 6, Beattie; 7, Teaf; stroke, Beach; coxswain, Emling); Columbia University, second; Yale, third. Time—7m. 6s.

Second Single Sculls—Won by Fitzpatrick, Malta Boat Club, Philadelphia; Blessing, Undine Boat Club, Philadelphia, second; Hapgood, Bachelors' Barge Club, Philadelphia, third. Time—8m. 34 1-5s.

Third Varsity Collegiate Eight-Oared Shells—Won by Pennsylvania (bow, Johnson; 2, Elliott; 3, Martin jr.; 4, Shaffer; 5, Newcome; 6, Woodruff; 7, Fayle; stroke, Doyle; coxswain, Rose); Yale, second; Harvard, third; Princeton, fourth. Time—7m. 4s.

First Four-Oared Shells—Won by Pennsylvania Barge Club, Philadelphia (bow, Medd; 2, Maguire; 3, Regan; stroke, Meyers; coxswain, Armstrong); Penn A. C., Philadelphia, second; Bachelors' Barge Club, Philadelphia, third. Time—7m. 57 2-5s.

Eight-Oared Shell Race for University of Pennsylvania Crews—Won by Delphian (bow, Rennie; 2, Nevis; 3, Gilson; 4, Mason; 5, Spigles; 6, Perfect; 7, Mitchell; stroke, Jordan; coxswain, Judd); Halcyon Club, second; Isthmian Club, third. Time—7m. 15 2-5s.

Eight-Oared Shells, for Stewards' Challenge Cup—Won by the University of Pennsylvania (bow, Redway; 2, Grashof jr.; 3, MacDonald; 4, Wilson; 5, Goetz; 6, Reeve; 7, Jordan; stroke, Irmiger; coxswain, Pfugfelder); U. S. Naval Academy, second; Columbia, third; Syracuse, fourth; Princeton, fifth. Pennsylvania by its victory also won the Childs Cup. Time—7m. 4 1-5s.

First Four Sculls—Won by Pennsylvania A. C. (bow, Hannes; 2, McIlvaine; 3, Costello; 4, Kelly); Bachelors' B. C., second. Time—7m. 18s.

MOTOR BOAT RACING.

Until 1921 the Gold Cup Trophy was for boats under 40 feet in length, with unlimited power. Very costly racing craft were developed under those rules. Under the new rules the boats must be not less than 25 feet in length and the cubic capacity of the engine is limited to 625 cubic inches. Such engines average 100 horse power, and the average speed of a boat is not much over 40 miles an hour, as against 70 miles an hour under the old rules.

There were no races for the Harmsworth Trophy, emblematic of the world's speed championship, in 1924. The National Gold Cup Trophy race, the International Sweepstakes and the Junior Gold Cup race held at Detroit, Aug. 20-Sept. 1, were the leading events of the season. Results:

GOLD CUP RACE.

Distance 90 miles, run in three heats of 30 miles each over three mile course, ten laps to a heat:

CHESS.

(Compiled by H. Helms.)

1924 was an outstanding year in the history of chess in America for the reason that one of the greatest of international tournaments of modern times took place in New York City during March and April. The competition, which was of two rounds and limited to eleven picked experts representing ten different countries, was won by Dr. Emanuel Lasker of Germany after twenty-two rounds lasting thirty days. Jose R. Capablanca of Cuba, the world's champion, was placed second, he being the only player to win a game from the leader. Alexander Alekhine of Russia won the third prize, Frank J. Marshall, United States champion, the fourth, and Richard Reti of Czechoslovakia, the fifth. Chess attendance records were broken at this tournament. A week after the tournament, Alekhine set a new record (26 games) for blindfold play.

Thirty-first "C. H. Y. P." Chess League Tourney, New York, Dec. 27-29, 1923—Won by Columbia, total of 11-1. Other scores: Princeton, 6-6; Yale, 4-8; Harvard, 3-9. The winning team: Columbia —I, O. Frink jr., '23; L. Samuels, '24; C. Friedberg, '25; M. Monsky, '25. The record: Columbia, 18 wins; Harvard, 9; Yale, 2, Princeton, 1. In addition, Harvard and Yale tied in 1909. It was not played off.

Twenty-fifth Intercollegiate Chess League Tourney, New York, Dec. 26-28, 1923—Won by City College, total of 11½-½. Other scores: N. Y. University, 7-5; Pennsylvania, 4½-7½; Cornell, 1-11. The winning team: A. E. Santasiere, '23; E. Tholfsen, '23; A. Pinkus, '26; H. Koslan, '26. The record: Pennsylvania, 11 wins; Cornell, 8; City College, 3; Massachusetts Institute of Technology, 1. In addition, Pennsylvania tied once with Cornell and once with Brown.

Manhattan C. C. Championship—Won by Oscar Chajes, 8½-2½. Other leading scores: A. Kupchik, 8-3; O. Frink jr., and D. Janowski, each 7½-3½; O. Tenner, 7-4; S. Katz, 6-5.

New Jersey State Championship, Newark, Feb. 22—Won by J. W. Brunnemar, of Westwood, 4-0 (fourth time in succession); J. Cohen, Newark, 3-1, second. Class A—H. Schleckser, 3½-½. Class B—J. Krueger, 4-0. Class C—F. A. Voos, 3-0.

New York International Chess Masters' Tournament, Hotel Alamac, March 16 to April 17—Won by Dr. Emanuel Lasker, of Germany, 16-4. Other scores: Jose R. Capablanca, Cuba, 14½-5½; Alexander Alekhine, Russia, 12-8; Frank J. Marshall, United States, 11-9; Richard Reti, Czechoslovakia, 10½-9½; G. Maroczy, Hungary, 10-10; E. Bogoljubow, Ukrainia, 9½-10½; Dr. S. Tartakower, Austria, 8-12; F. D. Yates, Great Britain, 7-13; Edward Lasker, Chicago, 6½-13½; D. Janowski, France, 5-15.

International College Cable Match, April 29 (New York and London)—America, 3½; Great Britain, 2½. America was represented by Columbia, Harvard, Yale and Princeton, and Great Britain by Oxford, Cambridge and the University of London. The record: America, 5 matches; Great Britain, 3; drawn, 3. Total games: America, 36; Great Britain, 30.

Simultaneous blindfold exhibition (world's record) —By Alexander Alekhine, of Russia, at New York, April 27. Played 26 games, winning 16, drawing 5, and losing 5. Time, twelve hours.

New York State Championship, Rochester, August 18-22—Won by Carlos Torre, New York, after a tie with H. E. Jennings, of Rochester (7-1). Torre won in the play-off by 3-1. Other scores: R. T. Black, Syracuse, 6-2; E. B. Adams, Brooklyn, 5-3; J. D. Lear, Buffalo, 4½-3½. General Tournament: First, Hyman Helfman, Niagara Falls, 8-2; second, L. P. Clarke, Rochester, 6-4; third, N. Weber, Utica, 5-5.

Western Championship, Detroit, Aug. 23 to Sept. 2—Won by Carlos Torre, New York, 14-2. Other scores: S. Factor, and H. Hahlbohm, Chicago, and N. T. Whitaker, Washington, each 11½-4½; Samuel Reshevsky, New York, 11-5; N. W. Banks, Detroit, 10½-5½; W. A. Ruth, Philadelphia, 10-6; S. Mlotkowski, Los Angeles, 9-7; L. D. Stolzenberg, Detroit, and R. S. Scrivener, Memphis, each 8-8.

Dominion Championship Tournament, Hamilton, Ont., Aug. 18—Won by J. S. Morrison, Toronto, 14-1; second, M. Fox, Peterboro, 13-2; third, S. Gale, Toronto, 12-3.

Schlechter Memorial Tournament, Vienna, Austria—Won by Dr. S. Tartakower, 9-2; second, R. Reti, 8½-2½; third, R. Spielmann, 7½-3½; fourth, and fifth, E. Gruenfeld and A. Steiner, each 7-4.

The Commercial Chess League of New York—This league was organized on January 14 last by the Western Electric Engineering Club, Western Union Telegraph Company, The World Chess Club, Tide Water Oil Company, Chase National Bank, Guaranty Trust Company, Mutual Life Insurance Company and Fairchild Publications. George Daley was elected president; G. R. Denton, secretary, and H. Helms, referee. William C. Potter, president of Guaranty Trust Company and donor of a silver trophy for the league championship, was made honorary president. The league's season opened Jan. 21 and closed April 26, after each club had played a double round of 14 matches. Western Electric won the tournament with a perfect score, 14-0. Other results were: Guaranty Trust, 10-4; The World, 9-5; Tide Water, 7-7; Western Union, 5½-8½ (40 games won, 44 lost); Fairchild, 5½-8½ (39 games won, 45 lost); Chase, 4½-9½; Mutual Life, ½-13½. Western Electric won 72½ out of the total of 84 games.

NATIONAL SWIMMING CHAMPIONSHIPS.

SENIOR, OUTDOOR—MEN

100 Metres, Free Style—440 Yards, Free Style—880 Yards, Free Style—Not held. *One Mile*—Held under the auspices of the Pitman Swimming Club, at Pitman, N. J., on Aug. 23, 1924, in the Alycon Park Pool—Won by Horace Weir, Germantown Boys' Club; John Petri, Philadelphia Swimming Club, second; Ray Elliott, Philadelphia Swimming Club, third; James Firman, unattached, fourth. Time—27m. 46 1-5s. *Long Distance*—Held under the auspices of the Bayville Aquatic Club, at Bayville, L. I., on Aug. 30, 1924, in the Sound—Won by C. Ross, New York A. C.; F. Beaurepaire, Australian Melbourne Swimming Club, second; H. Gelbel, New York A. C., third; F. Hadnot, Central S. C., fourth. Time—1h. 57m. 24 3-5s. *Fancy Diving*—Held under the auspices of the Detroit Boat Club, at Detroit, Mich., on Aug 23, 1924—Won by Al. White, Leland Stanford; Clarence Pinkston, Olympic Club, second; Pete Desjardines, Roman Pools Swimming Club, Miami, third; Walter Grandy, Detroit A. C., fourth. Points, 132.2. *High Diving*—Held under the auspices of the Stanford University, at Palo Alto, Cal., on May 11, 1924, in the University pool—Won by C. Pinkston, Olympic Club; A. C. White, Stanford University, second; Dave Fall, Stanford University, third; Tom McKee, Olympic Club, fourth. *220 Yards, Back Stroke*—Held under the auspices of the Edgewater Beach A. A., at Edgewater Beach, Chicago, Ill., on Aug. 24, 1924, in the Edgewater Beach Hotel pool—Won by Conrad Milo, Illinois A. C.; Omar Miller, Chicago A. A., second; Oliver Horn, Illinois A. C., third. Time—2m. 53 1-5s. *440 Yards, Breast Stroke*—Held under the auspices of the Edgewater Beach A. A., at Edgewater Beach, Chicago, Ill., on Aug. 24, 1924, in the Edgewater Beach Hotel pool—Won by Richard Peterson, Griffith Natatorium; Robert Skelton, Illinois A. C., second; Houlton Blank, Illinois A. C., third. Time—7m. 3s.

JUNIOR, OUTDOOR—MEN.

100 Metres, Free Style—440 Yards, Free Style—880 Yards, Free Style—One Mile—Not held. *Long Distance*—Held under the auspices of the Buffalo Launch Club, Buffalo, N. Y., on Sept. 1, 1924, in the Niagara River—Won by S. Mendelson, Queen City Swimming Club, Toronto, Can.; Carlton Adler, unattached, second; Geo. Morin, Detroit Central Y, third; H. Levene, unattached, fourth. Time—1h. 11m. 59s. *Fancy Dive*—Held under the auspices of the Detroit Boat Club, Detroit, Mich., on Aug. 23, 1924—Won by Pete Desjardines, Roman Pools Swimming Club, Miami; Kenneth Oxley, Detroit Yacht Club, second; Ed Smith, Leland Stanford University, third; Read Bontecou, unattached, fourth. Points—113.8. *High Dive*—Awarded Southern Pacific Assn.—Not held. *220 Yards, Back*—Held under the auspices of the Pitman Swimming Club, Pitman, N. J., on Aug. 23, 1924, in the Alycon Park pool—Won by Robert Hyde, Central S. C., Brooklyn; Jos. McQuillan, Philadelphia Turngemeinde, second; Geo. Campbell, Germantown Boys' Club, third; Frank Wharton, Philadelphia Swimming Club, fourth. Time—3m. 8 4-5s. *440 Yards, Breast*—Held under the auspices of the Buffalo Evening Times, Erie Beach, Buffalo, N. Y., on Aug. 14, 1924—Won by John Duerr, Central Y; Robert Rope, Central Y, second; Edward Spitzmiller, Buffalo Athletic Club, third. Time—7m. 42s. *880 Yards, Relay*—Not awarded.

SENIOR, OUTDOOR—WOMEN.

100 Yards, Free Style—Held under the auspices of the Maryland Swimming Club, Baltimore, Md., on Aug. 10, 1924, in the Patapsco River—Won by Ethel Lackie, Illinois A. C.; M. Wehselau, Outrigger Canoe Club, Honolulu, second; A. Lambert, W. S. A., N. Y., third; H. Briscoe, W. S. A., N. Y., fourth. Time—1m. 6s. *440 Yards, Free Style*—Held under the auspices of the Women's Swimming Assn., at Bay Shore, L. I., on Aug. 30, 1924—Won by Helen Wainwright, W. S. A.; Ethel McGary, W. S. A., second; Virginia Whitenack, W. S. A., third. Time—6m. 10 2-5s. *880 Yards, Free Style*—Held under the auspices of the New England Assn., Boston, Mass., Aug. 16, 1924, in the Charles River Basin—Won by G. Ederle, W. S. A.; E. McGary, W. S. A., second; D. Carlstrom, Worcester, Mass., third; O. Holland, Wollaston, Mass., fourth. Time—13m. 59s. *One Mile—Long Distance*—Awarded to New England Assn. Results not furnished. *Fancy Dive*—Held under the auspices of the Women's Swimming Assn., Long Beach, N. Y., on Sept. 1, 1924, in the Olympic pool—Won by Aileen Riggin, W. S. A.; H. Wainwright, W. S. A., second; Alma Mann, Bridgeport Board of Recreation, third. Points—130.93. *220 Yards, Back*—Held under the auspices of the Women's Swimming Assn., Bay Shore, L. I., on Aug. 30, 1924—Won by S. Bauer, Illinois A. C.; A. Riggin, W. S. A., second; Doris O'Mara, W. S. A., third. Time—3m. 9 2-5s. *220 Yards, Breast*—Held under the auspices of the Pitman Swimming Club, Pitman, N. J., on Aug. 23, 1924, in the Alycon Park pool—Won by A. Geraghty, W. S. A.; Matilda Scheurick, W. S. A., second; Eleanor Coleman, Milwaukee Athletic Club, third; Ruth Thomas, Ambassador Swimming Club, fourth. Time—3m. 35 1-5s. *880 Yards, Relay*—(Distance reduced to 800 yards on account size of pool)—Held under the auspices of the Saucon Valley Country Golf Club, at Bethlehem, Pa., on Sept. 14, 1924, in the club pool—Won by Women's Swimming Assn. of New York; H. Wainwright, V. Whitenack, E. McGary, A. Riggin; Women's Swimming Assn. of New York, second team, S. Lord, R. Morgan, Aileen O'Mara, D. O'Mara. Time—10m. 48 1-5s.

Y., on Aug. 9, 1924—Won by Eleanor Coleman, Milwaukee Athletic Club; Salome Brennesholtz, Buffalo Athletic Club, second; Alice Backus, unattached, third. Time—3m. 51s.

HOCKEY.

The Amateur Hockey Championship of the United States was won by the Pittsburgh team in a final series against Boston by a score of 4 games to 1. Pittsburgh represented the Western division of the United States Amateur Hockey Association and Boston the Eastern section. Each club was the winner of the winter series in its division. The scores follow:

First game—Pittsburgh, 3; Boston A. A. 2.
Second game—Pittsburgh, 4; Boston A. A., 2.
Third game—Boston A. A., 4; Pittsburgh, 1.
Fourth game—Pittsburgh, 2; Boston A. A., 1.
Fifth game—Pittsburgh, 6; Boston A. A., 1.

OTHER HOCKEY RESULTS.

Stanley Cup—Won by Montreal Canadians.
Canadian National Hockey League Championship—Won by Montreal Canadians.
Ontario Hockey Association Championship—Won by Hamilton Tigers.

MARBLE CHAMPIONSHIP.

George Lenox, of Catonsville, Ind., won the Boys' National Marble Shooting Championship, defeating Thomas Wright, of Chicopee, Mass., in the final round by 4 games to 3, at Atlantic City, June 6. The finalists were the survivors of some fifty entrants from all parts of the United States.

To the champion went a $100 gold watch, a $40 gold marbles emblem, transportation to the National League city winning the pennant, donated by President Heydler, and two seats at each of the World's Series games there, an annual pass to all American League games by Ban Johnson, the league President; a silver loving cup trophy, presented by Mayor Bader of Atlantic City, and two round-trip tickets to Atlantic City.

Wright received a $75 gold watch and fob as a runner-up, and the four other league champions each received watches and fobs.

HORSESHOE PITCHING.

The national horseshoe pitching championships held at Minneapolis, ending September 22, resulted as follows: National amateur champion, men—Warren Tuossman, Eldora, La.; women—Mrs. C. D. Samuell, Minneapolis; professional, men—"Putt" Tuossman, Eldora, La.; women—Mrs. C. A. Lanham, Bloomington, Ill.

PUGILISM.

The year 1924 in pugilism was notable for the lack of championship bouts in all classes and in the heavyweight class in particular. The title holder, Jack Dempsey, did not appear in a serious defense of his title and the same was true of several holders of lesser honors. The chief heavyweight bout was that between Harry Wills and Luis Firpo, fought Sept. 11, at Jersey City. The contest went the full twelve rounds and was won easily by Wills on popular verdict.

PUGILISTIC CHAMPIONS.

HEAVYWEIGHTS (over 158 lbs.)—1890-1892, John L. Sullivan; 1892-1897, James J. Corbett; 1897-1899, Robert Fitzsimmons; 1899-1906, James J. Jeffries; 1906-1908, Tommy Burns; 1908-1915, Jack Johnson; 1915-1918, Jess Willard; 1919-1924, Jack Dempsey.

MIDDLEWEIGHTS (158 lbs.) — 1890-1897, Robert Fitzsimmons; 1897-1907, Tommy Ryan; 1907-1908, Stanley Ketchel; 1908, Bill Papke and Stanley Ketchel; 1908-1910, Stanley Ketchel; 1911-1913, claimed by Frank Klaus, Mike Gibbons, Ed McGoorty and Geo. Chip; 1914-1917, Al. McCoy; 1917-1920 Mike O'Dowd; 1921-1923, Johnny Wilson, Harry Greb; 1924, Harry Greb.

WELTERWEIGHTS (145 lbs.)—1890-1893, no recognized champion; 1894-1896, Tommy Ryan; 1896-1897, Kid McCoy; 1898-1900, Billy Smith; 1900, Rube Ferns; 1901, Matty Matthews and Rube Ferns; 1901-1904, Joe Walcott; 1904-1908; Dixie Kid; 1914-1916, Kid Graves; 1916, Jack Britton; 1917-1918, Ted (Kid) Lewis; 1919-1922, Jack Britton; 1923-1924, Mickey Walker.

LIGHTWEIGHTS (133 lbs.)—1890-1893, Jack McAuliffe; 1893-1899, Kid Lavigne; 1899-1902, Frank Erne; 1902-1908, Joe Gans; 1908-1910, Battling Nelson; 1910-1912, Ad Wolgast; 1912-1914, Willie Ritchie; 1914-1917, Freddie Welsh; 1917-1924, Benny Leonard.

FEATHERWEIGHTS (122 lbs.)—1890-1892, no recognized champion; 1892-1897, George Dixon; 1897, Solly Smith; 1898, Solly Smith and Dave Sullivan; 1898-1900, George Dixon; 1900-1901, Terry McGovern; 1901-1904, Young Corbett; 1904-1908, Tommy Sullivan; 1908-1911, Abe Attell; 1911-1922, Johnny Kilbane; 1923, Johnny Kilbane, Eugene Criqui, Johnny Dundee; 1924, Dundee announced retirement. No successor.

BANTAMWEIGHTS (116 lbs.) — 1890-1892, George Dixon; 1892-1894, no recognized champion; 1894-1898, Jimmy Barry; 1898-1901, no recognized champion; 1901-1903, Harry Forbes; 1903-1905, Frankie Neil; 1905-1907, no recognized champion; 1907-1913, Johnny Coulon; 1914-1915, Kid Williams; 1916-1920, Pete Herman; 1920-1921, Joe Lynch; 1921, Pete Herman, Johnny Buff; 1922, Johnny Buff, Joe Lynch; 1923, Joe Lynch; 1924, Abe Goldstein.

BOXING.

Lack of space prevents the recording of other than important bouts. Abbreviations used follow: K. O., knock out; R. D., referee's decision; P. V., public verdict; D., draw. In case of a draw, the names of boxers in winners' and losers' columns have no significance. The letter "X" opposite date indicates such a draw.

Date.	Winner.	Loser.	Decision.	Rounds.	Place.

Germantown Cricket Club won the Halifax Cup.

The Incogniti Cricket Club from England visited New York and Philadelphia, won 5, lost 0, Drawn 2; J. L. Poyer for New York scored 101 not out.

Yorkshire won the English County Championship for 1924.

Cambridge University defeated Oxford in the Inter-University match.

H. Livingston of the Pittsburgh Field Club established a record for the United States by scoring three consecutive centuries in one week in a tournament held in Chicago in August, 1907; a similar feat was performed by H. N. R. Coblet in Canada, in a tournament held in Vancouver, British Columbia, in August, 1906. H. V. Hordern of the University of Pennsylvania established a record for the United States and Canada by securing 213 wickets during 1907. J. B. King, F. F. Kelly and H. Rushton are the only three bowlers who have taken over 2,000 wickets. A. C. MacLaren scored 424 for Lancashire vs. Somerset at Taunton, England, July, 1895—the record in a first-class match. A. F. J. Collins, playing at Clifton, June, 1899, for Clarke's House against North Town, scored 628, not out—the record in any match. Melbourne University scored 1,094 runs against Essenden at Melbourne (Australia), 1898—the highest authenticated record. In a match between A. E. Stoddart's English team and New South Wales, 1,739 runs were scored—a record in first-class cricket. The longest partnership on record was 623 runs by Capt. Oakes and Private Fitzgerald, First Royal Munster Fusiliers vs. Army Service Corps, at Curragh, 1895. In a small match in Australia F. R. Spofforth bowled down all 10 wickets of his opponents in each inning—a feat without parallel. F. R. Spofforth on the Australian tour in 1878 took 764 wickets—a world's record. Dr. W. G. Grace, the world's greatest cricketer, died Oct. 23, 1915. He hit up 217 centuries during his career, which will not likely ever be equalled.

Best records in the United States and Canada are by G. S. Patterson eleven playing against A. M. Woods eleven at Philadelphia, scoring 689 runs, in 1894. Australia against Vancouver scored 633 for 8 wickets in 1913. J. B. King scored 344 runs for Belmont against Merion B. in 1906. W. Robertson, 206, not out, and A. G. Sheath, 118, not out, scored 340 runs in partnership, without the loss of a wicket, at San Francisco in 1894. Smallest score, Americas 0 against Roseville at Guttenberg, N. J. in 1897. The smallest score in international match in United States, West Indians 13 against Australians, 1913. Smallest score in Canada, Winnipeg 6 against Australians, 1913. Largest score in the Metropolitan District Cricket League championship, New Jersey Athletic Club 385 runs for 5 wickets against Manhattan, at Bayonne, N. J., 1897.

Seven centuries in a season, P. J. Higgins of Los Angeles in 1912, 159, 100, 100, 121, 182, 110, 240.

G. S. Patterson of the Germantown C. C. scored 1,748 runs in season of 1892—a record for the United States. Rev. F. W. Terry of Toronto C. C. scored 1,509 runs in season of 1892—a record for Canada.

INTERNATIONAL AMATEUR ATHLETIC FEDERATION RECORDS.

Revised to July 16, 1924. New records since then cannot be official until approved in 1925.

WALKING.

Event.	Time or Measurement.	Holder.	Nation.	Date.	Place.

* Indoor record.

VAULTING.

Pole vault for height (outdoor)—13 ft. 3 9-16 in., Frank K. Foss, Chicago A. A., Chicago, Ill., Aug. 23, 1919; (indoor), 12 ft. 8 1-4 in., E. E. Myers, Chicago, March 11, 1922.

Pole vault for distance (indoor)—28 ft. 2 in., Platt Adams, New York City, Oct. 31, 1910.

THROWING THE HAMMER.

Regulation hammer, A. A. U. rules, weight (including handle) 16 lbs., entire length 4 feet, thrown from 7-ft. circle.

16-lb. hammer—189 ft. 6 1-2 in., P. Ryan, Celtic Park, L. I., Aug. 17, 1913.

SHOT PUTTING.

16-lb. shot—51 ft., Ralph Rose, San Francisco, Aug. 21, 1909.

16-lb. shot, right and left hand, with toe board —91 ft. 10 1-2 in. (right hand, 50 ft. 6 in.; left hand, 41 ft. 4 1-2 in.), Ralph Rose, Oakland, Cal., June 2, 1912; right and left hand, without toe board—91 ft. 10 in. (right hand, 49 ft. 10 in.; left hand, 42 ft.), Ralph Rose, American League Park, New York City, June 12, 1912.

RELAY RACING.

440 yards relay (outdoor)—4 men, each ran 110 yards)—42 2-5s., New York A. C. team (B. J. Wefers jr., F. K. Lovejoy, H. Ray, Edward Farrell), Pasadena, Cal., July 5, 1921.

880 yards relay (outdoor)—4 men, each ran 220 yards)—1m. 27 2-5s., New York A. C. team (B. J. Wefers jr., F. K. Lovejoy, H. Ray, Edward Farrell), Pasadena, Cal., July 5, 1921.

880 yards relay (indoor, with baton—4 men, each man ran 220 yards)—1m. 35 2-5s., Xavier A. A. team (C. B. Clark, H. Heiland, E. Lohse, W. J. Keating), New York City, Feb. 21, 1912; (outdoor) 1m. 29 2-5s., University of Chicago team (F. T. Ward, Wiismond, M. Baranak, D. Knight), Chicago, Ill., June 12, 1915.

1 mile (outdoor, with baton—4 men, each man ran 440 yards)—3m. 16 2-5s., American Legion, State of Pennsylvania, team (C. D. Rogers, Earl Eby, Larry Brown, R. S. Maxam), Philadelphia, June 11, 1921; (indoor) 3m. 21s., All-Buffalo team (J. W. Habberfield, W. F. Koppish, M. J. Sutton, C. H. Brandt), Buffalo, N. Y., April 17, 1920.

2 miles (4 men, each man ran 880 yards)—7m. 47 3-5s., Boston College (McKillop, Mahoney, Cavanaugh, Welch), Philadelphia, Pa., April 26, 1924. Indoor, 7m. 54 4-5s., Penn State College team, New York, Feb. 1, 1922.

4 miles (outdoor—4 men, each man ran 1 mile)—17m. 21 2-5s., Illinois A. C. (Krogh, Buker, Watson, Ray), Chicago, June 23, 1923.

4 miles (indoor—4 men, each man ran 1 mile)—17m. 43 2-5s., Cornell University team H. N. Putnam, L. Finch, T. S. Berna, J. P. Jones), Buffalo, N. Y., March 1, 1912.

Medley relay—(outdoor) 7m. 44 2-5s., Irish-American A. C. team (J. J. Archer, 220 yards; J. M. Rosenberger, 440 yards; A. R. Kiviat, 880 yards; J. Bromilow, 1 mile), Boston, Mass., July 24, 1909; (indoor) 7m. 38 2-5s., All-New York team (F. P. McNally, 220 yards; J. M. Rosenberger, 440 yards; J. P. Sullivan, 880 yards; A. R. Kiviat, 1 mile), Buffalo, N. Y., April 7, 1911.

HURDLE RACING.

70 yards (indoor)—6 hurdles, 3 ft. 6 in. high, 10 yards apart, 10 yards to first hurdle, 10 yards to finish—9 1-5s., E. F. Smalley, Univ. of Pennsylvania, at Buffalo, N. Y., Feb. 21, 1920; Walker Smith, Cornell Univ., at New York City, March 13, 1920; (indoor) 5 hurdles, 3 ft. 6 in. high, 10 yards apart, first hurdle 15 yards from starting point and last hurdle 15 yards before finishing line—8 4-5s., Waldo Ames, Chicago A. A., Chicago, March 26, 1921.

120 yards high hurdles (outdoor)—10 hurdles, 3 ft. 6 in. high, 10 yards apart, first hurdle 15 yards from starting point and last hurdle 15 yards before finishing line—14 2-5s., Earl J. Thompson, Dartmouth College, Philadelphia, Pa., May 29, 1920.

220 yards—10 hurdles, 2 ft. 6 in. high, 23s., C. R. Brookins, State College, Iowa, May 17, 1924.

440 yards (outdoor)—10 hurdles, 3 ft. high, first hurdle 40 yards from start, 40 yards between each hurdle and 40 yards to finish—54 1-5s., J. K. Norton, Olympic Club, San Francisco, at Pasadena, Cal. June 26, 1920.

JUMPING.

Standing high jump, without weights (outdoor)—5 ft. 4 3-5 in., Leo Goehring, Travers Island, N. Y., June 14, 1913; (indoor) 5 ft. 4 1-8 in., Platt Adams, New York City, Jan. 25, 1913.

Running high jump, without weights (outdoor)—6 ft. 8¼ in., H. M. Osborn, Urbana, Ill., May 27, 1924.

Running high jump (indoor), without weights—6 ft. 5¼ in., R. W. Landon, New York, Jan. 31, 1923. Also L. T. Brown, same time and place.

One standing broad jump, without weights—11 ft. 4 7-8 in., Ray C. Ewry, St. Louis, Aug. 29, 1904.

Running broad jump, without weights—25 ft. 3 in., Edward O. Gourdin, Cambridge, Mass., July 23, 1921.

Running hop, step and jump, without weights—50 ft. 11 in., D. F. Ahearn, Celtic Park, L. I., May 30, 1911.

THROWING THE DISCUS.

Throwing the discus, Olympic style, weight 4 lbs. 6½ oz. (8 ft. 2½ in. circle)—156 ft. 2½ in., Thomas Lieb, Chicago, Ill., Sept. 14, 1924.

Throwing the discus from 7-ft. circle—145 ft. 9½ in., James Duncan, Celtic Park, L. I., June 2, 1912.

Throwing the discus (8 ft. 2½ in. circle, right and left hand), 252 ft. 8 7-8 in., James Duncan, Celtic Park, L. I., May 27, 1912. Right hand, 156 ft. 1⅝ in.; left hand, 96 ft. 7½ in.

THROWING WEIGHTS.

56-lb. weight, thrown with both hands from a 7-ft. circle, without follow—40 ft. 6¾ in., M. J. McGrath, Montreal, Canada, Sept. 23, 1911.

56-lb. weight for height — 16 ft. 11¼ in., P. Donovan, Pastime A. C., San Francisco, Cal., Feb. 20, 1914.

THROWING THE JAVELIN.

203 ft. 9¼ in., M. Angier, Des Moines, Iowa, April 28, 1923.

NATIONAL INTERSCHOLASTIC RECORDS.

50-Yard Run—5 3-5s., E. C. Jessup, St. Louis, Mo., July 4, 1904.

60-Yard Run—6 2-5s., S. Butler, Hutchinson (Kan.) High School, Evanston, Ill., March 28, 1914.

100-Yard Run—9 4-5s., Ernest E. Nelson, Volkmann School, Cambridge, May 2, 1908; Charles Hoyt, Greenfield H. S., Chicago, Ill., June 7, 1913; W. J. Carter, Chicago Univ. H. S., Ann Arbor, Mich., March 23, 1914; Evan Pearson, North Central H. S., Spokane Wash., May 20, 1916.

60-Yard Run—6 2-5s., S. Butler, Hutchinson, Kan., H. S., Evanston, Ill., March 28, 1914.

220-Yard Run—21 2-5s., W. J. Carter Jr., Chicago Univ. H. S., Ann Arbor, Mich., May 23, 1914.

400-Yard Run—42 3-5s., Frank Sloman, Polytechnic H. S., San Francisco, Cal., Oct. 16, 1915.

440-Yard Run (around turn)—48 4-5s., James E. Meredith, Mercersburg, Acad., Philadelphia, Pa., May 18, 1912; 48 1-5s. (straightaway), Frank Sloman, Polytechnic H. S., San Francisco, Cal., Oct. 16, 1915.

880-Yard Run—1m. 55s., James E. Meredith, Mercersburg Acad., Princeton, N. J., May 4, 1912.

One-Mile Run—4m. 23 3-5s., Ed. Shields, Mercersburg Acad., Port Deposit, Md., May 20, 1916.

Two-Mile Run—9m. 51 2-5s., Allen Swede, Mercersburg Acad., Franklin Field, Philadelphia, Pa., May 4, 1918.

120-Yard Hurdles—15 2-5s., H. Whitted, Citrus Union, Stanford Cal., April 13, 1912; H. Whitted, Citrus Union, Chicago, Ill., June 8, 1912.

220-Yard Hurdles—24 2-5s., C. Cory, Chicago Univ. H. S., Ann Arbor, Mich., May 23 and 24, 1913; Frank Loomis, Oregon H. S., Minneapolis, Minn., May 27, 1916; David Kimball, Deerfield-Shields H. S., Champaign, Ill., May 22, 1920.

One Quarter Mile Relay—46 4-5s., University H. S., Chicago, Ill., June 11, 1910.

One-Half Mile Relay—1m. 32 2-5s., Lewis Institute, at Northwestern Univ., May 23, 1903.

One-Mile Relay—3m. 27 1-5s., Los Angeles H. S. team, Los Angeles, Cal., 1910.

Running High Jump—6 ft. 3⅝ in., W. M. Oler jr., Pawling School, Cambridge, Mass., May 25, 1912.

Running Broad Jump—23 ft. 7 1-5 in., P. G. Stiles, Culver Mil. Acad., Chicago, Ill., May 12, 1913.

Pole Vault—12 ft. 8 in., S. Landers, Oregon H. S., Minneapolis, Minn., May 27, 1916.

Pole Vault, Indoor—12 ft. 1 in., Eugene Schobinger, Harvard School, Chicago, Ill., Feb. 18, 1911.

Throwing 12-pound Hammer—197 ft. ½ in., L. J. Talbott, Washington, Pa., May 25, 1907.

Putting Eight-pound Shot, Indoor—59 ft. ⅜ in., George Bronder, Poly Prep., Brooklyn, N. Y., Jan. 16, 1915.

Putting 12-pound Shot—56 ft. 3 in., Clarence Houser, Oxnard H. S., Fillmore, Cal., Feb. 18, 1922.

Putting 16-pound Shot—46 ft. ½ in., Ralph G. Hills, Hill School, Pottstown, Pa., April 23, 1921.

Throwing Discus (7 ft. Circle)—141 ft. 7 in., Clarence Houser, Oxnard H. S., Fillmore, Cal., May 13, 1922

Throwing the Discus (8 ft. 2½ in. Circle)—147 ft. ½ in., Clarence Houser, Oxnard H. S., Los Angeles, Cal., April 22, 1922.

Throwing Junior Discus (7 ft. Circle)—173 ft., Clarence Houser, Oxnard H. S., Carpentina, Cal., March 25, 1922.

Throwing Junior Discus (8 ft. 2½ in. Circle)—181 ft., Clarence Houser, Oxnard H. S., Carpentina, Cal., March 25, 1922.

Throwing Javelin—184 ft. 9½ in., H. B. Liversedge, Stanford, Cal., April 11, 1914.

C. C. N. Y.	49	55	75	78	79	336

Quadrangular Championship, six miles, New York, Nov. 1. Result, first five: Kirby, Cornell, 33m. 8s., first; Theobald, Columbia, 33m. 8 1-5s., second; Osgood, Dartmouth, 33m. 20s., third; Horton, Columbia, 33m. 54s., fourth; Bailey, Pennsylvania, 34m. 4s., fifth.

Team Score—Dartmouth, 37; Columbia, 48; Cornell, 51; Pennsylvania, 93.

Middle Atlantic States Intercollegiate A. A. Championship, six miles, New York, Nov. 15. Result, first five: B. Lewis, Swarthmore, 32m. 31s., first; A. West, Lafayette, 32m. 40s., second; P. Farnham, Lafayette, 32m. 48s., third; C. E. Johnson, Union, 32m. 49s., fourth; C. E. Brennan, Rutgers, 33m. 21s., fifth.

Team Score—Union, 46; Rutgers, 49; Lafayette, 78; Lehigh, 89; Muhlenberg, 100; N. Y. U., 103.

FOOTBALL.

Intercollegiate football records for popularity and attendance during the season of 1924. Gatherings of 50,000 to 75,000 spectators were not uncommon both in the East and Middle West. What was probably the greatest attendance at any game played in the United States was an estimated 100,000 which witnessed the Stanford-California game on the Pacific Coast. The quality of play and the general strength of the teams competing were also features of the season. Several college teams playing hard schedules went through the autumn undefeated including Notre Dame, the University of Pennsylvania, and others. Tie games and games won exclusively by field goal kicking were frequent. The season scores of some of the leading college teams follow:

TRAPSHOOTING.

The Grand American Handicap Shoot held at Dayton, O., late in August, had 524 entrants and 404,000 targets were thrown during the championships. Results:

Permanent Home Introductory—Won by T. K. Lee, with 99x100 in shoot-off.

Championship of America—Won by Frank Hughes, 193x200.

Preliminary Handicap—Won by H. L. Weisman, 99x100 at 16 yards.

Grand American Handicap—Won by H. C. Decker, with 97x100 at 16 yards in shoot-off.

Doubles Championship—Won by Philip Miller, 191x200.

International Open—Won by Philip Miller, 97x100.

Nineteenth Annual Amateur Championship of America, held at New York Athletic Club, Travers Island, May 3. Results: First, H. W. Voorhies, 193x200; second, W. Posey, 192x200; third, F. Plum, 190x200. Long run cup—Won by Posey, with 111 targets straight.

GYMNASTICS.

AMATEUR ATHLETIC UNION CHAMPIONSHIPS.

Held under the auspices of the Gymnastic Championship Committee of the A. A. U., at the 23d St. Y. M. C. A., New York, May 16, 1924.

Free Calisthenics—Won by Frank Kriz, Bohemian Gymnastic Association Sokol, 285 points; C. Rottmann, N. Y. Turn Verein, 283 points, second; J. B. Pearson jr., U. S. Navy, 273 points, third; John C. Mais, Philadelphia Turngemeinde, and Adolph Zink, N. Y. Turn Verein, 261 points, fourth.

Long Horse—Won by Max Wandrer, Philadelphia Turngemeinde, 572 points; Adolph Zink, N. Y. Turn Verein, 570 points, second; V. Winsjansen, 566 points, third; Frank Kriz, Bohemian Gymnastic Association Sokol, 565 points, fourth.

Side Horse—Won by Joseph B. Richter, D. A. Sokol, 559 points; Adolph Zink, N. Y. Turn Verein, 541 points, second; Charles R. Weir, Bronx Union Y. M. C. A., 539 points, third; Curt Rottmann, N. Y. Turn Verein, and J. B. Pearson, U. S. Navy, 538 points, fourth.

Horizontal Bar—Won by Frank Kriz, Bohemian Gymnastic Association Sokol, 576 points; Curt Rottmann, N. Y. Turn Verein, 569 points, second; Walter Meyer, N. Y. Turn Verein, 554 points, third; Frank Safanda, D. A. Sokol, 536 points, fourth.

Rope Climb—Won by T. Andreasen, Norwegian Turn Soc., 7 3-5 seconds; William Reber, N. Y. Turn Verein, 8 seconds, second; Frank Vyborny, Bohemian Gymnastic Association Sokol, 9 seconds, third; Kukelick, 9 1-5 seconds, fourth.

Tumbling—Won by Joseph F. Dunn, N. Y. A. C., 554 points; William J. Herrmann jr., Herrmann's Phys. Tr. Inst., Philadelphia, 525 points, second; Kimball Atha, Newark, Y. M. C. A., 511 points, third; Wilbur Faulkner, 23d Street Y. M. C. A., 510 points, fourth.

Parallel Bars—Won by Walter Meyer, N. Y. Turn Verein, 584 points; Frank Kriz, Bohemian Gymnastic Association Sokol, 556 points, second; Jacob Hufner jr., N. Y. A. C., 532 points, third; Max Wandrer, Philadelphia Turngemeinde, 519 points, fourth.

Indian Club Swinging—Won by Ray W. Dutcher, N. Y. A. C., 286 points; Carl W. F. Hahner, Princeton Univ., 277 points, second; Merrill Anderson, Unattached, 275 points, third.

Flying Rings—Won by E. Kremla, Bronx Union Y. M. C. A., 560 points; Alfred Pfetsch, People's Palace, 513 points, second; Frank Kriz, Bohemian Gymnastic Association Sokol, 507 points, third; J. B. Pearson jr., U. S. Navy, 507 points, fourth.

All-around Championship—Won by Frank Kriz, Bohemian Gymnastic Association Sokol, 2,995 points; Curt Rottmann, N. Y. Turn Verein, 2,935 points, second; J. B. Pearson jr., U. S. Navy, 2,860 points, third; Adolph Zink, Philadelphia Turngemeinde, 2,828 points, fourth.

Point Score—N. Y. Turn Verein, 23½ points; Bohemian Gymnastic Association Sokol, 19 points, second; N. Y. A. C., 12 points, third; Bronx Union Y. M. C. A., 7 points, fourth; D. A. Sokol, 6 points, fifth; Philadelphia Turngemeinde, 6 points, sixth; Norwegian Turn Society, 5 points, seventh; U. S. Navy, 3½ points, eighth; Herrmann's Physical Training Inst., Philadelphia, 3 points, ninth; People's Palace, 3 points, tenth; Princeton Univ., 3 points, eleventh; Newark Y. M. C. A., 2 points, twelfth; Unattached, 2 points, thirteenth; 23d Street Y. M. C. A., 1 point, fourteenth.

INTERCOLLEGIATE CHAMPIONSHIPS.

Held at Princeton University, March 28. Won by Navy, 43 points; Princeton, 8; Pennsylvania, 7; Mass. Tech., 5. Summaries:

Horizontal Bar—Won by Wheelock, Navy; Ewing, Princeton, second; Long, Penn., third.

Side Horse—Won by Clark, Navy; Waller, Navy, second; Saunders, Navy, third.

Flying Rings—Won by McCoy, M. I. T.; Stoup, Navy, second; Cresson, Penn., third.

Parallel Bars—Won by Stowell, Navy; Forrest, Navy, second; Quay, Princeton, third.

Tumbling—Won by Traux, Navy; Parker, Princeton, second; Crouse, Princeton, third.

Rope Climb—Won by Durham, Navy; Stoup, Navy, second; Wheelock, Navy, third.

All-around Championship—Won by Long, Penn.; Wheelock, Navy, second; Danzig, Navy, third.

PROFESSIONAL WEIGHT LIFTING.

Carry—2,250 lbs. carried on back, eight steps, side-stepping, P. J. McCarthy, St. Louis, Aug. 4, 1898.

Back Lift—6,370 lbs. raised by using arms, legs and back, under platform loaded with stone, until it was clear of contact with trusses, P. J. McCarthy, St. Louis, Mo., Sept. 17, 1898.

WRESTLING.

PROFESSIONAL.

Shortage of space prevents the recording of more than a few of the more important bouts.

Jan. 7—Joe Stecher defeated Yusef Hussane in a one-fall match in 57m. 15s., at Philadelphia.

Jan. 25—Joe Stecher defeated S. Zbyszko, two out of three falls, at St. Louis.

Feb. 5—Ed Lewis defeated R. Gardini, two straight falls, at St. Louis.

Feb. 12—Ed Lewis defeated P. McGill in one-fall bout in 1 hr. 15m. 36s., at New York.

Mar. 25—Ed Lewis defeated S. Zbyszko, two out of three falls, at Chicago.

April 1—S. Zbyszko defeated Y. Hussane in a one-fall bout in 34m. 10s., at New York.

April 7—Ed Lewis defeated I. Madvas in two straight falls, at Wilmington, Del.

May 21—Ed Lewis defeated R. Gardini, two out of three falls, at Philadelphia.

May 29—Ed Lewis defeated S. Zbyszko, two out of three falls, at Chicago.

June 4—Ed Lewis defeated J. Yuska in straight falls, at Kansas City.

June 20—Ed Lewis defeated S. Stasiak, two out of three falls, at Boston.

AMATEUR WRESTLING.

National Amateur Athletic Union Championships held at New York City, May 28, 1924. Results:

112-lb. Class—Final—Robert Rowsey, Gary, Ind., threw Morris Spitz, Boys' Club, New York, in 5m. 10s., with a head chancery and a single bar hold.

125-lb. Class—Final—Howard Bryan Hines, Northwestern University, defeated C. M. MacWilliams, Cornell University.

134-lb. Class—Final—Howard Robin Reed, Oregon Agricultural College, threw Chester Newton, Portland, Ore., in 12m. 6s., with a double leg split hold.

145-lb. Class—Final—Russell Vis, Los Angeles A. C., threw Kenneth Truckenmiller, Cornell College, Mount Vernon, Iowa, with head chancery hold.

158-lb. Class—Final—Perry Martter, Los Angeles A. C., threw William B. Johnson, Columbia University, in 13m. 47s., with a bar nelson and a reverse chancery.

174-lb. Class—Final—W. D. Wright, Cornell University, defeated Omar C. Held, Indiana University.

191-lb. Class—Final—C. F. Strack, Colgate University, defeated Francis M. Green, United States Army.

Heavyweight Class—Final—R. L. Flanders, Northfield, Vt., defeated John J. McKay, New York A. C.

Intercollegiate Championships held at Yale University, New Haven, Conn., March 22, 1924. Penn. State College won with 22 points; Cornell, second, 17; Yale, 15; Lehigh, 14; Pennsylvania, 4; Princeton, 3. Results by bouts:

First Place Bouts.

115-lb. Class—Cary, Penn State, defeated McWilliam, Cornell. Referee's decision. *125-lb. Class*—Warriner, Lehigh, defeated Chotkin, Cornell. Time advantage of 10 m. 12s. *135-lb. Class*—Neito, Penn State, defeated Brennan, Cornell, in second extra period. Referee's decision. *145-lb. Class*—Black, Penn State, defeated Winters, Yale, in second extra period. Referee's decision. *158-lb. Class*—May, Cornell., defeated Roberts, Yale. Time advantage of 12m. 55s. *175-lb. Class*—Russell, Yale, threw Burke, Lehigh, in 11m. 45s. *Unlimited Class*—Batty, Yale, threw Burden, Penn State, in 14m. 40s.

Second Place Bouts.

115-lb. Class—McWilliam, Cornell, defeated Berenchea, Columbia. *125-lb. Class*—Charkin, Cornell, defeated Hunter, Penn State. *135-lb. Class*—Washburn, Lehigh, defeated Brennan, Columbia. *145-lb. Class*—Rogers, Lehigh, defeated Winters, Yale. *158-lb. Class*—Roberts, Yale, defeated Williams, Lehigh. *175-lb. Class*—Burks, Lehigh, defeated Rumbaugh, Penn State. *Unlimited Class*—affeld, Cornell, defeated Borden, Penn State.

Third Place Bouts.

115-lb. Class—Reynolds, Lehigh, defeated Berrenshea, Columbia. *125-lb. Class*—Kreh, Penn, defeated Hunter, Penn State. *135-lb. Class*—Curran, Cornell, won from Brennan, Columbia, by default. *145-lb. Class*—Winters, Yale, defeated Edelman, Columbia. *158-lb. Class*—Lutz, Penn, defeated Williamson, Lehigh. *175-lb. Class*—Platz, Princeton, defeated Burke, Lehigh. *Unlimited Class*—Berdan, Penn State, defeated Schler, Penn.

APPORTIONMENT OF CONGRESSIONAL REPRESENTATION.

NOTES ON THE ABOVE TABLE.

Since the taking of the Census of 1920 there have been several efforts in the House of Representatives to legislate toward an increase in membership, based on the growth of population. Up to the end of 1924 none of these efforts had succeeded. The chief objection to enlarging the House is that it would make that body too large and cumbersome.

Membership of House under census of 1850 was increased from 233 to 234 by act of July 30, 1852; membership under census of 1860 was increased from 233 to 241 by act of March 4, 1862; membership under census of 1870 was originally fixed at 283, but increased to 292 by act of May 30, 1872.

Representation such as shown in table was assigned after apportionment under censuses, as follows: (1790) Tenn.; (1800) Ohio; (1810) Ala., Del., Ind., La., Miss.; (1830) Ark., Mich.; (1840) Cal., Fla., Iowa, Texas, Wis.; (1850) Minn., Ore.; (1860) Neb., Nev.; (1870) Col.; (1880) Idaho, Mont., S. D, N. D., Wash., Wyo.; (1890) Utah; (1900) Okla.

Ariz. and N. Mex. were included in apportionment under 1910 census, in anticipation of becoming States.

Maine's apportionment of seven members under 1810 census was included in the 20 members originally assigned to Mass. but credited to Maine after it became a State, March 15, 1820.

The ratio under the Constitution was one Representative in Congress for each 30,000 of population. Thereafter, the ratios, as determined by the decennial censuses, were as follows: 1790 and 1800, one to each 33,000; 1810, one in each 35,000; 1820, one in each 40,000; 1830, one in each 47,700; 1840, one in each 70,680; 1850, one in each 93,423; 1860, one in each 127,381; 1870, one in each 131,425; 1880, one in each 151,911; 1890, one in each 173,901; 1900, one in each 194,182; 1910, one in each 211,877.

Of the thirteen Original States the present quotas are the same as under the Constitution in Connecticut, Delaware, Maryland, and Virginia. The original quotas in the other Original States were as follows: Georgia, 3; Massachusetts, 8; New Hampshire, 3; New Jersey, 4; New York, 6; North Carolina, 5; Pennsylvania, 8; Rhode Island, 1; and South Carolina, 5.

QUALIFICATIONS FOR VOTING, BY STATES.

The literacy test for voters in New York State is: Ability to read fifty-word extract from State Constitution, and write legibly in English ten words from the passage read.

Literacy tests for voters were authorized by the Legislatures of the various States in the following years:

Alabama, 1900; Arizona, 1913; California, 1894; Colorado, 1876 (the law was in effect in 1890). Connecticut, 1897; Delaware, 1897; Georgia, 1908; Louisiana, 1898; Maine, 1892.

Massachusetts, 1857; Mississippi, 1890; New Hampshire, 1902; New York, 1921; North Carolina, 1900.

North Dakota, 1896; Oklahoma, 1911; South Carolina, 1895; Virginia, 1902; Washington, 1896; Wyoming, 1889.

Election Returns by States.

Lee	1,103	596	4	1,108	354						

Governor (1924) Terral, Dem., 100,606; Grabiel, Rep., 25,154.

All of the proposed 1924 amendments to the Constitution received a majority of the votes cast for and against them, but all were defeated under a ruling of the State Supreme Court that amendments must have a majority of the total vote for Governor. This they lacked.

Governor (1922)—McRae, Dem., 99,987; Grabiel, Rep., 28,056.

The voters (1922) defeated all three of the proposed amendments to the State Constitution. One provided for maintaining free public schools at least six months a year; another called for taxing personal property for improvements; and the third would have changed the Constitution by reserving to the people the power to propose legislative measures, laws, and amendments to the Constitution of the State of Arkansas, and to enact or reject the same at the polls, independent of the General Assembly; and reserving the power, at their own option, to approve or reject at the polls any entire act or any item of an appropriation bill.

EARLIER PRESIDENTIAL ELECTIONS IN ARKANSAS.

The first Presidential election was held in Arkansas in 1836, the year in which the State was admitted to the Union.

Van Buren, Dem., carried Arkansas 1836 and 1840; Polk, Dem., in 1844; Cass, Dem., in 1848; Pierce, Dem., in 1852; Buchanan, Dem., in 1856; Breckenridge, Dem., in 1860.

The State left the Union and joined the Confederacy in 1861 and no Presidential election was held there in 1864, the Commonwealth being under the military control of the North.

In 1868 Grant carried the State against Seymour by about 3,000 majority; and the Republicans won again in 1872.

Those were the Reconstruction days, the period of so-called carpet-bag political rule in the South. At their close, Arkansas re-entered the Democratic Presidential column and has been there ever since.

The State was originally a part of French Louisiana and next was included in Missouri Territory, and it got its political inclinations from both these sources.

President (1924)—Johns, Soc. Lab., 2,334; Foster, Workers', 2,622; Wallace, Commonwealth Land, 421; Faris, Pro., 2,367.

Governor (1924)—Small, Rep., 1,366,436; Jones, Dem., 1,021,408; Laflin, Soc., 15,191; Koch, Soc. Lab., 2,312; Dunne, Workers', 2,329; Lynchenhein, Com. Land, 414; Logan, Ind. Rep., 1,023.

United States Senator (1924)—Deneen, Rep., 1,449,180; Sprague, Dem., 806,702; Koop, Soc., 18,708; Wirth, Soc. Lab., 2,966; Engdahl, Workers,' 2,518; Spaulding, Com. Land, 391.

Cook County voters (1923) elected Miss Mary M. Barteime, Rep., to be a Judge of the Circut (State) Court. The Republicans in Chicago elected 11 and the Democrats 9 Judges of the Superior Court. The voters defeated a proposal for a Zoo, which was to cost $7,500,000.

Illinois, in 1922, voted (1,065,242 to 512,111) in favor of beer and light wines; voted (1,220,815 to 502,-372) for a soldier bonus.

The vote as to beer and light wines was thus divided: Cook County (Chicago), for, 552,003; against, 138,109; State, outside of Cook County, for, 513,239; against, 374,002. The vote for the bonus was 3 to 1, in Cook County and almost 2 to 1 in the rest of the State.

PAST VOTE OF ILLINOIS.

Governor (1924)—Paulen, Rep., 323,403; Davis, Dem., 182,861; Phillips, Soc., 3,606; William Allen White, Ind., (anti-Ku Klux Klan), 149,696.

Governor (1922)—Davis, Dem., 271,058; Morgan, Rep., 252,602; Phillips, Soc., 9,138.

U. S. Senator (1924)—Capper, Rep., 428,494; Malone, Dem., 154,189; Fraley, Ind., 23,266; Colbe, 5,340.

Kansas voters in 1924 amended the tax article in the Constitution to read: "The Legislature shall provide for a uniform and equal rate of assessment and taxation, except that mineral products, money, mortgages, notes and other evidences of debt may be classified and taxed uniformly as to class as the Legislature shall provide.

"All property used exclusively for State, County, municipal, literary, educational, scientific, religious, benevolent and charitable, and personal property to the amount of at least two hundred dollars for each family, shall be exempted from taxation."

Kansas, in 1922, voted a Soldier Bonus.

PAST VOTE OF KANSAS.

Governor (1924)—Fuller, Rep., 650,817; Curley, Dem., 490,010.

U. S. Senator (1924)—Gillett, Rep., 566,188; Walsh, Dem., 547,600.

Massachusetts voters, in 1924, rejected (697,563 to 241,461) the proposed Child Labor Amendment to the U. S. Constitution.

The voters retained Daylight Saving by 492,239 to 426,759; they rejected a gasoline tax, (547,460 to 281,631).

They authorized, (454,656 to 446,473), a State Prohibition Enforcement Law.

Governor (1922)—Fitzgerald, Dem., 404,192; Cox, Rep., 464,873; Hutchins, Soc., 9,205; Hess, Soc. Lab., 4,713; Lewis, Proh., 6,870.

U. S. Senator (1922)—Gaston, Dem., 406,776; Lodge, Rep., 414,130; Nichols, Proh.-Prog., 24,866; Sherman, Soc., 11,678; Cook, Ind., 7,836; Weeks, Prog., 4,862.

Massachusetts voters, in 1922, rejected (427,840 to 323,964) a measure providing for more stringent Prohibition enforcement.

The voters also rejected (553,173 to 208,252) a proposal that the State regulate motion pictures.

PAST VOTE OF MASSACHUSETTS.

Lake	1,069	313	160	933	263						

President (1924)—Faris, Proh., 6,071; Johns, Soc. Lab., 5,179.

U. S. Senator (1924)—Couzens, Rep., 858,934; Cooley, Dem., 284,609; Titus, Proh., 8,330; Cunninghan, Soc. Lab., 3,080; Day, Soc., 1,619.

Governor (1924)—Groesbeck, Rep., 799,225; Frendsdorf, Dem., 343,577; Krieghoff, Soc., 2,725; Dinger, Soc. Lab., 4,079; Johnston, Proh., 11,118.

Michigan voters in 1924 defeated, for the second time, a proposed amendment to the State Constitution requiring children to attend public schools. If carried, the amendment would have wiped out private and parish schools.

Governor (1922)—Cummins, Dem., 218,252; Groesbeck, Rep., 356,933; Blumenberg, Soc., 4,452; Hoyt, Proh., 2,744; Markley, Soc. Lab., 1,279.

U. S. Senator (1922)—Ferris, Dem., 294,932; Townsend, Rep., 281,843; Krieghoff, Soc., 4,249; Titus, Proh., 1,936.

Michigan voters, in 1922, defeated the income tax proposal.

The 1920 Presidential vote for Jackson County includes Kansas City; the 1924 vote for Jackson County excludes Kansas City.

President (1924)—La Follette total on his two tickets, 84,160; Faris, Proh., 1,463; Johns, Soc. Lab., 883; Wallace, Commonwealth Land, 258.

Six proposed constitutional amendments and two initiative propositions were submitted to Missouri voters in 1924. One amendment and one initiative proposition carried and the remainder were defeated.

An initiative proposition to provide revenue for completion of the 7,640-mile State highway system was adopted. It carries a 50 per cent. increase in State motor vehicle license fees and imposes a tax of two cents a gallon on gasoline used for motor vehicle fuel. The vote was: Yes, 742,836; no, 348,007.

A constitutional amendment was adopted which would permit voters of St. Louis County and the City of St. Louis to vote on one of three alternative methods for expansion by the city into present county territory.

Governor (1924)—Baker, Rep., 640,135; Nelson, Dem., 634,263; Brandt, Soc., 21,043; Cox, Soc. Lab., 678.

U. S. Senator (1922)—Reed, Dem., 506,264; Brewster, Rep., 462,009; Brandt, Soc., 7,119; Cox, Soc. Lab., 970.

PAST VOTE OF MISSOURI.

Governor (1924)—McLean, Dem., 294,441; Meekins, Rep., 185,627.

U. S. Senator (1924)—Simmons, Dem., 295,404; Whitener, Rep., 184,393.

State Constitution Amendments ratified in 1924 were: (1)—Providing that no portion of the sinking fund shall be used for any other purpose that that for which it was created; (2)—Limiting the State debt to 7.5 per cent. of the assessed valuations of property in the State; (3)—Exempting from taxation that portion of homes and homesteads on which there is debt.

Also, in 1924, a referendum was ratified authorizing a $2,000,000 loan to World War veterans for buying homes or farms.

The voters (1924) rejected a proposed amendment to the State Constitution increasing the pay of members of the Legislature from $4 to $10 a day. They had rejected it first in 1922 (138,765 to 72,297)

1920 (Gov.), Dem., 308,151; Rep., 230,175.

LIMITATION ON GOVERNOR'S TERM.

Under the North Carolina Constitution, the Governor is elected for a term of four years, and is not eligible for that office for more than four years in any term of eight years, unless he becomes Governor by having been Lieut.-Governor or President of the State Senate.

NORTH DAKOTA.

The 1924 totals include the Indian vote in the unorganized counties of Shannon, Todd, Washabaugh, and Washington, which amounted to 2,352 for Coolidge, 465 for Davis, and 289 for La Follette.

La Follette ran in South Dakota in 1924 as an "Independent."

Governor (1924)—Gunderson, Rep., 109,527; Bulow, Dem., 46,803; Putnam, Farm.-Lab., 27,035; Richards, Ind. (La Follette), 20,347.

U. S. Senator (1924)—McMaster, Rep., 90,310; Cherry, Dem., 63,818; Ayres, Farm.-Lab., 23,962; Egan, Ind., 14,390; Dillon, Ind., 3,930; Loucks, Ind., 1,380; Livingston, Ind., 1,122.

A proposal for a convention to revise the Constitution was defeated in 1924.

Governor (1922)—Crill, Dem., 50,409; McMaster, Rep., 78,984; Alice L. Daly, Non-Part., 46,033.

South Dakota, in 1922, refused (122,807 to 33,032), to engage in banking.

PAST VOTE OF SOUTH DAKOTA.

1892 (Pres.), Dem., 9,081; Rep., 34,888; Peop., 26,544.

1908 (Gov.), Dem., 44,837; Rep., 62,945; Pro., 3,536; Soc., 2,542.

1910 (Gov.), Dem., 36,937; Rep., 59,826.

1912 (Pres.), Dem., 48.942; Prog., 58,811; Soc., 4,662; Pro., 3,910.

1912 (Gov.), Dem., 53,850; Prog., 57,160; Soc., 3,479; Pro., 3,339.

1914 (Gov.), Dem ., 34,540; Rep., 49,138; Pro., 2,072; Soc., 2,684; Ind., 9,725.

1914 (U. S. Sen.), Dem., 48,076; Rep., 44,244; Pro., 2,406; Soc., 2,674; Ind., 2,104.

1916 (Pres.), Dem., 59,942; Rep., 64,217; Soc., 3,760; Pro., 1,774.

1916 (Gov.), Dem., 50,545; Rep., 72,789; Soc., 3,556; Pro., 1,630.

1918 (Gov.), Dem., 17,398; N. P., 25,269; Rep., 48,983; Soc., 714; Ind., 1,351.

1918 (U. S. Sen.), Dem., 36,210; Rep., 51,198; Ind., 5,560.

1920 (Pres.), Dem., 35,938; Rep., 110,692; F.-L., N. P., 34,707; Proh., 900.

1920 (Gov.), Dem., 31,870; Rep., 102,592; N. P., 48,426.

1920 (U. S. Sen.), Dem., 36,833; Rep., 92,267; N. P., 44,309; Ind., 10,032; Ind., 738.

The voters in 1922 also rejected a proposal that the State establish a hydro-electric plant; they refused to abolish the State Sheriff and the State Constabulary; they declined to remove the State university from Vermilion to Sioux Falls; they voted against allowing the Legislature to fix salaries of State officers; they defeated an amendment to change the initiative clause in the State Constitution, or the clause regarding organizing new counties, or the clause limiting power to levy special property assessments to pay for local improvements.

SOUTH DAKOTA SUNDAY BLUE LAW.

South Dakota voters, in 1922, refused (99,848 to 56,320), to repeal the existing law as to Sunday amusements, which (Section 3853 of the 1919 Revised Code) provides that the performance of any tragedy, comedy, opera, ballet, farce, Negro minstrelsy, sparring contest, trial of strength, or any part or parts therein, and any moving picture show of the same, or any circus, equestrian, dramatic performance or exercise, or any performance or exercise of jugglers, acrobats, club performers or rope dancers, or baseball games, where an admission fee is charged or anything of value is accepted by the manager or any of the players or any one connected with said game as a condition of witnessing the same by the public, on Sunday is prohibited. This law declares that any person aiding in such exhibition, performance, exercise or game, advertisement, posting or otherwise, and every owner of any garden, building or room, place or structure, ground or park, who leases or lets the same for the purpose of such exhibition or performance or exercise or game, or who assents to the use of the same for any such purpose on Sunday, is guilty of a misdemeanor.

TRIAL-BY-JURY AMENDMENT.

Wisconsin voters (1922), adopted an amendment to the State Constitution as follows: "The right of trial by jury shall remain inviolate, and shall extend to all cases at law without regard to the amount in controversy; but a jury trial may be waived by the parties in all cases in the manner prescribed by law. Provided, however, that the Legislature may, from time to time, by statute provide that a valid verdict, in civil cases, may be based on the votes of a specified number of the jury, not less than five-sixths thereof."

WYOMING.

(Presidential vote, 1924, 1920.)

36. Campbell, Rep., 27,157; Campbell, Dem., 4,196; Campbell, Soc., 1,906; Bright, Proh., 5,048; Campbell, Prog., 1,007; scattering, 3.

RHODE ISLAND.

1. Burdick, Rep., 44,556; Jones, Dem., 23,890.
2. Aldrich, Rep., 44,328; Hall, Dem., 25,406.
3. Monast, Rep., 32,732; O'Connell, Dem., 34,727.

SOUTH CAROLINA.

1. McMillan, Dem., 5,278; Beard, Rep., 253.
2. Hare, Dem., 6,695; unopposed.
3. Dominick, Dem., 8,331; unopposed.
4. McSwain, Dem., 7,718; unopposed.
5. Stevenson, Dem., 7,689; unopposed.
6. Gasque, Dem., 6,278; unopposed.
7. Fulmer, Dem., 7,249; unopposed.

SOUTH DAKOTA.

1. Christopherson, Rep., 39,138; Beck, Dem., 19,904; Jones, F.-L., 6,901; Bartling, Ind., 7,206.
2. Johnson, Rep., 44,769, Reinhard, Dem., 8,043; Wohleter, F.-L., 11,468, Hildebrand, Ind., 10,067.
3. Williamson, Rep., 28,150; Russell, Dem., 10,026; Watwood, F. L., 6,950; Bates, Ind., 1,538.

TENNESSEE

1. Reece, Rep., elected over Robinson, Ind. Rep.
2. Taylor, Rep., elected over Long, Dem.
3. McReynolds, Dem., elected over Howard, Rep.
4. Hull, Dem., unopposed.
5. Davis, Dem., elected over Davidson, Rep.
6. Byrns, Dem., unopposed
7. Eslick, Dem., unopposed.
8. Browning, Dem., unopposed.
9. Garrett, Dem., elected over Jones, Rep.
10. Fisher, Dem., elected over Spiers, Rep.

TEXAS.

(unofficial figures)

1. Black, Dem., 18,000; Johnson, Rep.
2. Box, Dem., 17,200; Sweatland, Rep.
3. Sanders, Dem., 17,900, Periman, Rep.
4. Rayburn, Dem., 18,200; Gray, Rep.
5. Sumners, Dem., 27,200; Atkinson, Rep.
6. Johnson, Dem., 15,000; Haswell, Rep.
7. Briggs, Dem., 11,300; Wheeler, Rep.
8. Garrett, Dem., 13,300; Miller, Rep.
9. Mansfield, Dem., 9,400; Franz, Rep.
10. Buchanan, Dem., 10,000; Stalley, Rep.
11. Connally, Dem., 15,300; Baker, Rep.
12. Lanham, Dem., 22,600; unopposed.
13. Williams, Dem., 24,700; Johnson jr., Rep.
14. Wurzbach, Rep., 19,100; Davenport, Dem., 14,800.
15. Garner, Dem., 18,600; unopposed.
16. Hudspeth, Dem., 9,800; Sullivan, Rep.
17. Blanton, Dem., 24,700; Glraud, Rep.
18. Jones, Dem., 11,700; Spencer, Rep.

All the first named in Texas list were elected.

UTAH.

1. Colton, Rep., 40,883; Francis, Dem., 33,644.
2. Leatherwood, Rep., 41,888; Waters, Dem., 32,045.

VERMONT.

1. Brigham, Rep., 35,083; Calhoun, Dem., 11,457; Bingham, Proh., 1,275.
2. Gibson, Rep., 39,492; Shurtleff, Dem., 8,479; Gibson, Proh., 1,601.

VIRGINIA.

1. Bland, Dem., 16,958; scattering, 12.
2. Deal, Dem., 11,795; Lankford, Ind. Dem., 6,145.
3. Montague, Dem., 20,864; unopposed.
4. Drewry, Dem., 12,106; unopposed.
5. Whitehead, Dem., 16,371; DeHart, Rep., 5,181.
6. Woodrum, Dem., 13,917; McWane, Rep., 6,251.
7. Harrison, Dem., 13,013; Ruebush, Rep., 7,294; Harrison, Ind. Dem., 1,692.
8. Moore, Dem., 14,113; Dudley, Rep., 3,551.
9. Peery, Dem., 31,407; Harman, Rep., 28,341.
10. Tucker, Dem., 14,472; Reid, Rep., 6,288.

WASHINGTON.

1. Miller, Rep., 53,152; Williams, Dem., 13,922; Hermann, Soc., 406.
2. Hadley, Rep., 37,636; Black, Dem., 27,154; Tollner, Soc., 751.
3. Johnson, Rep., 60,292; Nelson, Prog., 25,146; Cleveland, Dem., 134.
4. Summers, Rep., 37,008; Bohlke, Dem., 12,254; Hill, F.-L., 7,380.
5. Hill, Dem., 36,804; Rep., 35,815.

WEST VIRGINIA.

1. Bathmann, Rep., 47,318; Oldham, Dem., 38,417.
2. Bowman, Rep., 41,825; Allen, Dem., 40,477; Chase, Soc., 1,143.
3. Wolverton, Rep., 45,995; Kidd, Dem., 42,626.
4. Woodyard, Rep., 47,136; Johnson, Dem., 44,877.
5. Strother, Rep., 50,629; Lilly, Dem., 47,719.
6. Taylor, Dem., 56,570; Echols, Rep., 55,089; Plymale, Soc., 1,977.

WISCONSIN.

1. Cooper, Rep., 60,770; Stewart, Dem., 23,612.
2. Voigt, Rep., 44,617; Wrucke, Dem., 18,696.
3. Nelson, Rep., 56,868; Victoria, Dem., 16,968.
4. Schafer, Rep., 30,837; Krsycki, Soc., 19,770.
5. Berger, Soc., 32,211; Braun, Rep., 31,702.
6. Lampert, Rep., 45,982; Reilly, Dem., 19,128.
7. Beck, Rep., 47,075; Martin, Dem., 10,228.
8. Browne, Rep., 47,423; Walsh, Ind., 22.
9. Schneider, Rep., 45,159; Reinert, Dem., 18,449.
10. Frear, Rep., 46,563; Ryan, Dem., 10,481.
11. Peavey, Rep., 48,234; Cadigan, Dem., 13,455.

WYOMING.

At Large—Winter, Rep., 43,026; Wanerus, Dem. 28,357.

ELECTORAL VOTES FOR PRESIDENT, 1896-1924, BY PARTIES AND STATES.

Electoral colleges meet at the capitals of the several States on the second Monday in January. Congress meets in joint session to canvass the electoral vote on the second Wednesday in February.

The National Conventions of 1924.

THE REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention met in the new Public Auditorium (seating capacity, 12,000) at Cleveland, June 10, with 1,109 delegates, of whom 118 were women and 279 of the alternates were women. The National Committee in 1921 had so apportioned the delegates as to reduce the number from the Southern States, particularly Georgia, Louisiana, Mississippi, South Carolina and Texas. But this apportionment was rescinded by the National Committee in Washington, Dec. 12, 1923. The ten States of the Solid South had 147 delegates in the 1920 convention. Under the tentative roll this was cut to 118, but under the plan finally adopted, they had 156. The reapportionment was:

Four delegates at large from each State. Two additional delegates at large from each Representative at large in Congress from each State. Two delegates at large each for Alaska, District of Columbia, Porto Rico, Hawaii and the Philippine Islands. Three additional delegates at large from each State casting its electoral vote, or a majority thereof, for the Republican nominee for President in the last preceding Presidential election.

District delegates: One district delegate from each Congressional district. One additional district delegate from each Congressional district casting 10,000 votes or more for any Republican Elector in the last preceding Presidential election or for the Republican nominee for Congress in the last preceding Congressional election.

The roll of delegates for the 1924 Convention as compared with that of the 1920 Convention was as follows:

STATE.	Deleg'tes.		STATE.	Deleg'tes.	
	1920	1924		1920	1924

The Temporary Chairman, Representative Theodore E. Burton, of Ohio, laid stress on the support for invalid soldiers; favored the indorsement of the Child Labor Constitution amendment; the St. Lawrence Waterway project; the constitutional amendment changing the date for the beginning of the Presidential term and the new Congress; favored continuance of anti-trust legislation; made an unqualified declaration for membership in the present World Court of International Justice; declared Japanese immigrants "uncongenial to our industrial life;" objected to legislation for "subventions from the Treasury" as a remedy for the farmers' trouble; opposed high surtaxes; and called for the severest punishment for every individual found guilty as the result of Congressional investigations. He declared that 'truth compels me to say that by far the greater part of our citizenship looks to President Coolidge rather than to Congress for leadership."

Frank W. Mondell, of Wyoming, was made Permanent Chairman.

On June 12 the platform was reported and adopted without alteration after the Wisconsin delegation had presented Senator La Follette's substitute platform, which had no support outside that delegation. Dr. Marion Leroy Burton, President of the University of Michigan, made a notable speech nominating President Calvin Coolidge of Massachusetts for President. He was nominated on the first ballot, the vote being Coolidge, 1,065; La Follette, 34, and Hiram Johnson, 10. Senator Johnson had withdrawn his name after his defeat in the California primaries, the vote being, Coolidge, 311,826; Johnson, 261,715. La Follette received 28 of Wisconsin's 29 votes, and 6 of North Dakota's 13. Johnson received 10 of South Dakota's 13.

The first ballot for Vice President was Ex-Gov. Frank D. Lowden of Illinois, 222; Judge W. S. Kenyon of Iowa, 172; Theodore E. Burton of Ohio, 139; Gen. Charles G. Dawes of Illinois, 149. Lowden received 779 votes on the second ballot, but refused the nomination by telegraph. A third ballot consequently was taken at the night session, which resulted in the nomination of Gen. Charles Gates Dawes of Illinois for Vice President by a vote of 682½, to 334½ for Secretary Herbert Hoover, and 75 for Judge Kenyon, although William M. Butler, the new National Chairman, had thrown the weight of the Administration to Mr. Hoover.

President Coolidge was formally notified of his nomination in Memorial Continental Hall of the Daughters of the American Revolution, in Washington, on the night of Aug. 14. Gen. Charles G. Dawes was notified at his home in Evanston, Illinois, on Aug. 19.

For the first time in our history, the minute-to-minute proceedings of a National Convention were broadcast by radio over the country.

William M. Butler, of Massachusetts, in accordance with President Coolidge's wishes, was made Chairman of the National Committee on June 13, and on Aug. 25 announced a large advisory committee, on which all shades of Republicans were represented, as a board of strategy in conducting the campaign.

The platform is printed in full herewith.

THE REPUBLICAN NATIONAL PLATFORM.

The text of the Republican platform as adopted by the Republican National Convention at Cleveland on June 12, 1924, is as follows:

We, the delegates of the Republican Party, in National Convention assembled, bow our heads in reverent memory of Warren G. Harding.

We nominated him four years ago to be our candidate; the people of the Nation elected him their President. His human qualities gripped the affections of the American people. He was a public servant unswerving in his devotion to duty.

A stanch Republican, he was first of all a true patriot, who gave unstintingly of himself during a trying and critical period of our national life.

His conception and successful direction of the Limitation of Armament Conference in Washington was an achievement which advanced the world along the path toward peace.

As delegates of the Republican Party we share in the national thanksgiving that in the great emergency created by the death of our great leader there stood forth fully equipped to be his successor one whom we had nominated as Vice President—Calvin Coolidge, who as Vice President and President by his every act has justified the faith and confidence which he has won from the Nation.

He has put the public welfare above personal considerations. He has given to the people practical idealism in office. By his every act he has won without seeking the applause of the people of the country. The constantly accumulating evidence of his integrity, vision and single-minded devotion to the needs of the people of this Nation strengthens and inspires our confident faith in his continued leadership.

Situation in 1921.

When the Republican Administration took control of the Government in 1921 there were 4,500,000 unemployed; industry and commerce were stagnant; agriculture was prostrate; business was depressed; Government bonds were selling below their par value.

Peace was delayed; misunderstanding and friction characterized our relations abroad. There was a lack of faith in the administration of government resulting in a growing feeling of distrust in the very principles upon which our institutions are founded.

To-day industry and commerce are active; public and private credits are sound. We have made peace; we have taken the first step toward disarmament and strengthened our friendship with the

world powers; our relations with the rest of the world are on a firmer basis, our position was never better understood; our foreign policy never more definite and consistent. The tasks to which we have put our hands are completed. Time has been too short for the correction of all the ills we received as a heritage from the last Democratic Administration, and the notable accomplishments under Republican rule warrant us in appealing to the country with entire confidence.

Public Economy.

We demand, and the people of the United States have a right to demand, rigid economy in government. A policy of strict economy enforced by the Republican Administration since 1921 has made possible a reduction in taxation and has enabled the Government to reduce the public debt by two and a half billion dollars. This policy, vigorously enforced, has resulted in a progressive reduction of public expenditures until they are now two billion dollars per annum less than in 1921. The tax burdens of the people have been relieved to the extent of $1,250,000,000 per annum. Government securities have been increased in value more than three billion dollars. Deficits have been converted into surpluses. The budget system has been firmly established and the number of Federal employees has been reduced more than 100,000. We commend the firm insistence of President Coolidge upon rigid Government economy and pledge him our earnest support to this end.

Finance and Taxation.

We believe that the achievement of the Republican Administration in reducing taxation by $1,250,000,000 per annum, reducing of the public debt by $2,432,000,000; installing a budget system; reducing the public expenditures from $5,500,000,000 per annum to approximately $3,400,000,000 per annum, thus reducing the ordinary expenditures of the Government to substantially a pre-war basis, and the complete restoring of public credit; the payment or refunding of $7,500,000,000 of public obligations without disturbance of credit or industry—all during the short period of three years —presents a record unsurpassed in the history of public finance.

The assessment of taxes wisely and scientifically collected and the efficient and economical expenditure of the money received by the Government are essential to the prosperity of our Nation. Carelessness in levying taxes inevitably breeds extravagance in expenditures. The wisest of taxation rests most rightly on the individual and economic life of the country. The public demand for a sound tax policy is insistent.

Progressive tax reduction should be accomplished through tax reform. It should not be confined to less than 4,000,000 of our citizens who pay direct taxes, but is the right of the more than 100,000,000 who are daily paying their taxes through their living expenses. Congress has in the main confined its work to tax reduction. The matter of tax reform is still unsettled and is equally essential.

We pledge ourselves to the progressive reduction of taxes of all the people as rapidly as may be done with due regard for the essential expenditures of the Government administered with rigid economy, and to place our tax system on a sound, peacetime basis.

We indorse the plan of President Coolidge to call in November a national conference of Federal and State officials for the development of effective methods of lightening the tax burden of our citizens and adjusting questions of taxation as between National and State Governments.

We favor the creation by appropriate legislation of a non-partisan Federal commission to make a comprehensive study and report upon the tax systems of the States and Federal Government with a view to an intelligent reformation of our systems of taxation to a more equitable basis, and a proper adjustment of the suojects of taxation as between the National and State Governments, with justice to the taxpayer and in conformity with these sound economic principles.

Reorganization of Executive Departments.

We favor a comprehensive reorganization of the executive departments and bureaus along the line of the plan recently submitted by a joint committee of the Congress, which has the unqualified support of President Coolidge.

Civil Service.

The improvement in the enforcement of the merit system both by legislative enactment and executive action since March 4, 1921, has been marked and effective. By executive order the appointment of Presidential postmasters has been placed on the merit basis similar to that applying to the classified service.

We favor the classification of postmasters in first, second and third class post offices and the placing of the Prohibition enforcement forces within the classified civil service without necessarily incorporating the present personnel.

Foreign Relations.

The Republican Party reaffirms its stand for agreement among the nations to prevent war and preserve peace. As an important step in this direction we indorse the Permanent Court of International Justice and favor the adherence of the United States to this tribunal as recommended by President Coolidge. This Government has definitely refused membership in the League of Nations and to assume any obligations under the Covenant of the League. On this we stand.

While we are unwilling to enter into political commitments which would involve us in the conflict of European policies, it should be the purpose and high privilege of the United States to continue to co-operate with other nations in humanitarian efforts in accordance with our cherished traditions.

The basic principles of our foreign policy must be independence without indifference to the rights and necessities of others and co-operation without entangling alliances. This policy, overwhelmingly approved by the people, has been vindicated since the end of the great war.

America's participation in world affairs under the Administration of President Harding and President Coolidge has demonstrated the wisdom and prudence of the national judgment. A most impressive example of the capacity of the United States to serve the cause of world peace without political affiliations was shown in the effective and beneficent work of the Dawes commission toward the solution of the perplexing question of German reparations.

The first conference of great powers in Washington, called by President Harding, accomplished the limitation of armaments and the readjustment of the relations of the powers interested in the Far East. The conference resulted in an agreement to reduce armaments, relieved the competitive nations involved from the great burdens of taxation arising from the construction and maintenance of capital battleships, assured a new, broader and better understanding in the Far East; brought the assurance of peace in the region of the Pacific and formally adopted the policy of the open door for trade and commerce in the great markets of the Far East.

The historic conference paved the way to avert the danger of renewed hostilities in Europe and to restore the necessary economic stability. While the military forces of America have been reduced to a peace footing, there has been an increase in the land and air forces abroad which constitutes a continual menace to the peace of the world and a bar to the return of prosperity.

We firmly advocate the calling of a conference on the limitation of land forces, the use of submarines and poison gas, as proposed by President Coolidge, when, through the adoption of a permanent reparation plan, the conditions in Europe will make negotiations and co-operation opportune and possible.

By treaties of peace safeguarding our rights and without derogating those of our former associates in arms, the Republican Administration ended the war between this country and Germany and Austria. We have concluded and signed with other nations during the last three years more than fifty treaties and international agreements in the furtherance of peace and good-will.

New sanctions and new proofs of permanent accord have marked our relations with all Latin America. The long-standing controversy between Chile and Peru has been advanced toward settlement by its submission to the President of the United States as arbitrator and with the helpful cooperation of this country a treaty has been signed by the representatives of sixteen American republics, which will stabilize conditions on the American continent and minimize the opportunities for war.

Our difficulties with Mexico have happily yielded to a most friendly adjustment. Mutual confidence has been restored and a pathway for that friendliness and helpfulness which should exist between this Government and the Government of our neighboring republic has been marked. Agreements have been entered into for the determination by judicial commissions of the claims of the citizens of each country against the respective Governments. We can confidently look forward to more permanent and more stable relations with this republic that joins for so many miles our Southern border.

Our policy, now well defined, of giving practical aid to other peoples without assuming political obligations has been conspicuously demonstrated. The ready and generous response of America to the needs of Japan gave evidence of our helpful interest in the welfare of the distressed in other lands.

The work of our representatives in dealing with subjects of such universal concern as the traffic in women and children, the production and distribution of narcotic drugs, the sale of arms, and in matters affecting public health and morals demonstrated that we can effectively do our part for humanity and civilization without forfeiting, limiting or restricting our national freedom of action.

The American people do cherish their independence, but their sense of duty to all mankind will ever prompt them to give their support, service and leadership to every cause which makes for peace and amity among the nations of the world.

Foreign Debts.

In fulfilment of our solemn pledge in the national platform of 1920 we have steadfastly refused to consider the cancellation of foreign debts. Our attitude has not been that of an oppressive creditor seeking immediate return and ignoring existing financial conditions but has been based on the conviction that a moral obligation such as was incurred should not be disregarded.

We stand for settlements with all debtor countries similar in character to our debt agreement with Great Britain. That settlement, achieved under a Republican Administration, was the greatest international financial transaction in the history of the world. Under the terms of the agreement the United States now receives an annual return upon $4,600,000,000 owed to us by Great Britain with a definite obligation of ultimate payment in full.

The justness of the basis employed has been formally recognized by other debtor nations.

Great nations cannot recognize or admit the principle of repudiation. To do so would undermine the integrity essential for international trade, commerce and credit. Thirty-five per cent. of the total foreign debt is now in process of liquidation.

The Tariff.

We reaffirm our belief in the protective tariff to extend needed protection to our productive industries. We believe in protection as a national policy, with due and equal regard to all sections and to agriculture, industries and occupations. It is only by adherence to such a policy that the well-being of the consumers can be safeguarded and that there can be assured to American agriculture, to American labor and to American manufacturers a return to perpetuate American standards of life. A protective tariff is designed to support the high American economic level of life for the average family and to prevent a lowering to the levels of economic life prevailing in other lands.

It is the history of the Nation that the protective tariff system has ever justified itself by restoring confidence, promoting industrial activity and employment, enormously increasing our purchasing power and bringing increased prosperity to all our people.

The tariff protection to our industry works for increased consumption of domestic agricultural products by an employed population instead of one unable to purchase the necessaries of life. Without the strict maintenance of the tariff principle our farmers will need always to compete with cheap lands and cheap labor abroad and with lower standards of living.

The enormous value of the protective principle has once more been demonstrated by the Emergency Tariff Act of 1921 and the Tariff Act of 1922.

We assert our belief in the elastic provision adopted by Congress in the Tariff Act of 1922 providing for a method of readjusting the tariff rates and the classifications in order to meet changing economic conditions when such changed conditions are brought to the attention of the President by complaint or application.

We believe that the power to increase or decrease any rate of duty provided in the tariff furnishes a safeguard, on the one hand, against excessive taxes, and, on the other hand, against too high customs charges.

The wise provisions of this section of the Tariff Act afford ample opportunity for tariff duty to be adjusted after a hearing in order that they may cover the actual differences in the cost of production in the United States and the principal competing countries of the world.

We also believe that the application of this provision of the Tariff Act will contribute to business stability by making unnecessary general disturbances which are usually incident to general tariff revision.

Agriculture.

In dealing with agriculture the Republican Party recognizes that we are faced with a fundamental national problem and that the prosperity and welfare of the Nation as a whole is dependent upon the prosperity and welfare of our agricultural population.

We recognize our agricultural activities are still struggling with adverse conditions that have brought about distress. We pledge the party to take whatever steps are necessary to bring back a balanced condition between agriculture, industry and labor, which was destroyed by the Democratic Party through an unfortunate administration of legislation passed as wartime methods.

We affirm that under the Republican Administration the problems of the farmer have received more serious consideration than ever before, both by definite executive action and by Congressional action, not only in the field of general legislation but also in the enactment of laws to meet emergency situations.

The restoration of general prosperity and of the purchasing power of our people through tariff protection has resulted in an increased domestic consumption of farm products, while the prices of many agricultural commodities are above the war price level by reason of direct tariff protection.

Under the leadership of the President at the most critical time a corporation was organized by private capital, making available $100,000,000 to assist the farmers of the Northwest.

In realization of the disturbance in the agricultural export market, the result of the financial depression in Europe, and appreciating that the export field would be enormously improved by economic rehabilitation and the resulting increased consuming power, a sympathetic support and direction was given to the work of the American representatives on the European Reparation Commission.

The revival in 1921 of the War Finance Corporation with loans of over $300,000,000 averted in 1921 a complete collapse in the agricultural industry.

We have established a new intermediate credit banks for agriculture and increased the capital of the Federal Farm Loan System. Emergency loans have been granted to drought-stricken areas. We have enacted into law the Co-operative Marketing Act, the Grain Futures and Packer Control Acts; given to agriculture direct representation on the Federal Reserve Board and on the Federal Aid Commission. We have greatly strengthened our foreign marketing service for the disposal of our agricultural products.

The crux of the problem from the standpoint of the farmer is the net profit he receives after his outlay. The process of bringing the average prices of what he buys and what he sells closer together can be promptly expedited by reduction in taxes, steady employment in industry and stability in business.

This process can be expedited by lower freight rates, by better marketing through co-operative efforts and a more scientific organization of the physical human machinery of distribution and by a greater diversification of farm products.

We promise every assistance in the reorganization of the market system on sounder and more economical lines and, when diversification is needed, Government assistance during the period of transition. Vigorous efforts of this Administration toward broadening our exports market will be continued.

The Republican Party pledges itself to the development and enactment of measures which will place the agricultural interests of America on a basis of economic equality with other industry to assure its prosperity and success. We favor adequate tariff protection to such of our agricultural products as are threatened by competition. We favor, without putting the Government into business, the establishment of a Federal system of organization for co-operative marketing of food products.

Mining.

The mining industry has experienced a period of depression as the result of the abnormal economic conditions growing out of the war. This Administration has accomplished much in improving the conditions affecting this great fundamental industry and pledges itself to continue its effort in this direction.

Highways.

The Federal Aid Road Act, adopted by the Republican Congress in 1921, has been of inestimable value to the development of the highway system of the several States and of the Nation. We pledge

a continuation of this policy of Federal co-operation with the States in highway building.

We favor the construction of roads and trails in our national forests necessary to their protection and utilization. In appropriations, therefore, the taxes which these lands would pay if taxable should be considered as a controlling factor.

Labor.

The increasing stress of industrial life, the constant and necessary efforts, because of world competition, to increase production and decrease costs, have made it specially incumbent on those in authority to protect labor from undue exactions.

We commend Congress for having recognized this possibility in its prompt adoption of the recommendation of President Coolidge for a constitutional amendment authorizing Congress to legislate on the subject of child labor, and we urge the prompt consideration of that amendment by the Legislatures of the various States.

There is no success great enough to justify the employment of women in labor under conditions which will impair their natural functions.

We favor high standards for wage, working and living conditions among the women employed in industry.

We pledge a continuance of the successful efforts of the Republican Administration to eliminate the seven-day, twelve-hour work week in industry. We regard with satisfaction the elimination of the twelve-hour day in the steel industry, and the agreement of alternate thirteen and eleven hours, accomplished through the efforts of Presidents Harding and Coolidge. We declare our faith in the principle of the eight-hour day.

We pledge a continuation of the work of rehabilitating workers in industry as conducted by the Federal Board of Vocational Education, and favor adequate appropriations for this purpose.

We favor a broader and better system of vocational education, a more adequate system of Federal free employment agencies, with facilities for assisting the movements of seasonal and migratory labor, including farm labor, with ample organization for bringing the man and his job together.

Railroads.

The people demand and are entitled to have prompt and efficient transportation at the lowest rates consistent with good service and a reasonable return upon the value of the property devoted to public service.

We believe that the American people demand, and we favor, a careful and scientific readjustment of railroad rate schedules with a view to the encouragement of agriculture and basic industries, without impairment of railroad service.

The present laws regulating railroads, which were enacted to meet post-war conditions, should be modified from time to time as experience shows the necessity therefor.

The consolidation of railroads into fewer competitive systems, subject to the approval of the Interstate Commerce Commission, should be provided for.

The Labor Board provisions of the present law should be amended whenever it appears from experience that such action is necessary. Collective bargaining, mediation and voluntary arbitration are the most important steps in maintaining peaceful labor relations and should be encouraged. We do not believe in compulsory action at any time in the settlement of labor disputes.

Public opinion must be the final arbiter in any crisis which so vitally affects public welfare as the suspension of transportation.

Therefore the interests of the public require the maintenance of an impartial tribunal which can in an emergency make an investigation of the facts and publish its conclusions. This is essential as a basis for popular judgment.

We favor a stable, consistent and constructive policy toward our railroads.

Government Control.

The prosperity of the American Nation rests on the vigor of private initiative which has bred a spirit of independence and self-reliance. The Republican Party stands now, as always, against all attempts to put the Government into business.

American industry should not be compelled to struggle against Government competition. The right of the Government to regulate, supervise and control public utilities and public interests we believe should be strengthened, but we are firmly opposed to the nationalization or Government ownership of public utilities.

Coal.

The price and a constant supply of this essential commodity are of vital interest to the public. The Government has no constitutional power to regulate prices, but can bring its influence to bear by the powerful instrument afforded by full publicity.

When through industrial conflict its supply is threatened, the President should have authority to appoint a commission to act as mediators and as a medium for voluntary arbitration. In the event of a strike, the control of distribution must be invoked to prevent pr fiteering.

Merchant Marine.

The Republican Party stands for a strong and permanent merchant marine built by Americans, owned by Americans and manned by Americans, to secure the necessary contact with world markets for our surplus agricultural products and manufactures; to protect our shippers and importers from exorbitant ocean freight rates and to become a powerful arm of our national defense.

That part of the merchant marine now owned by the Government should continue to be improved in its economic and effi ient management, with reduction of the losses now paid by the Government through taxation until it is finally placed on so sound a basis that, with ocean freight rates becoming normal, due to improvement in international affairs, it can be sold to American citizens.

Waterways, Flood Control and Water Power.

Fully realizing the vital importance of transportation in both cost and service to all our people, we favor the construction of the most feasible waterways from the Great Lakes to the Atlantic Seaboard and the Gulf of Mexico and the improvement and development of rivers, harbors and waterways, inland and coastwise, to the fullest extent justified by the presence and potential tonnage available.

We favor a comprehensive survey of the conditions under which the flood waters of the Colorado River may be controlled and utilized for the benefit of the people of the States which border thereon.

The Federal Water Power Act establishes a national water-power policy and the way has thereby been opened for the greatest water-power development in history under conditions which preserve the initiative of our people, yet protect the public interests.

The World War Veterans.

We reaffirm the admiration and gratitude which we feel for soldiers and sailors; the Republican Party pledges a continually and increasing solicitude for all those suffering any disability as a result of service to the United States in time of war. No country and no Administration has ever shown a more generous disposition in the care of its disabled, or more thoughtful consideration in providing a sound administration for the solution of the many problems involved in making intended benefits fully, directly and promptly available to the veterans.

The confusion, inefficiency and maladministration existing heretofore since the establishment of this Government agency have been cured and plans are being actively made looking to a further improvement in the operation of the bureau by the passage of new legislation.

The basic statute has been so liberalized as to bring within its terms 100,000 additional beneficiaries. The privilege of hospitalization in Government hospitals, as recommended by President Coolidge, has been granted to all veterans irrespective of the origin of disability, and over $50,000,000 has been appropriated for hospital construction, which will provide sufficient beds to care for all.

Appropriations totaling over $1,100,000,000 made by the Republican Congress for the care of the disabled evidences the unmistakable purpose of the Government not to consider costs when the welfare of these men is at stake. No legislation for the benefit of the disabled soldier proposed during the last four years by veterans' organizations has failed to receive consideration.

We pledge ourselves to meet the problems of the future affecting the care of our wounded and disabled in a spirit of liberality and with that thoughtful consideration which will enable the Government to give to the individual veterans that full measure of care guaranteed by an effective administration machinery to which his patriotic services and sacrifices entitle him.

Conservation.

We believe in the development, effective and efficient, whether of oil, timber, coal or water power resources of this Government, only as needed and only after the public need has become a matter of public record, controlled with a scrupulous regard and ever vigilant safeguards against waste, speculation and monopoly.

The natural resources of the country belong to all the people and are a part of an estate belonging to generations yet unborn. The Government policy should be to safeguard, develop and utilize these possessions. The conservation policy of the Nation originated with the Republican Party, under the inspiration of Theodore Roosevelt. We hold it a privilege of the Republican Party to build as a memorial to him on the foundation which he laid.

Education and Relief.

The conservation of human resources is one of the most solemn responsibilities of Government. There is an obligation which cannot be ignored and which demands that the Federal Government shall, as far as lies in its power, give to the people and the States the benefit of its counsel.

The welfare activities of the Government connected with the various departments are already numerous and important, but lack the co-ordination which is essential to effective action. To meet these needs, we approve the suggestion for the creation of a Cabinet post of Education and Relief.

Universal Mobilization in War Time.

We believe that in time of war the Nation should draft for its defense not only its citizens, but also every resource which may contribute to success.

The country demands that should the United States ever again be called upon to defend itself by arms, the President be empowered to draft such material resources and such service as may be required and to stabilize the prices of services and essential commodities, whether used in actual warfare or private activities.

Immigration and Naturalization.

The unprecedented living conditions in Europe following the World War created a condition by which we were threatened with mass immigration that would have seriously disturbed our economic life. The law recently enacted is designed to protect the inhabitants of our country, not only the American citizen, but also the alien already with us who is seeking to secure an economic foothold for himself and family, from the competition that would come from unrestricted immigration. The administrative features of the law represent a great constructive advance and eliminate the hardships suffered by immigrants under the emergency statute.

We favor the adoption of methods which will exercise a helpful influence among the foreign-born population and provide for the education of the alien in our language, customs, ideals and standards of life. We favor the improvement of naturalization laws.

Hawaii—Alaska.

We favor a continuance for the Territory of Hawaii of Federal assistance in harbor improvements, the appropriation of its share of Federal funds, and the systematic extension of the settlement of public lands by the Hawaiian race.

We indorse the policy of the present Administration in reference to Alaska and favor a continuance of the constructive development of the Territory.

Philippines.

The Philippines policy of the Republican Party has been and is inspired by the belief that our duty toward the Filipino people is a national obligation which should remain entirely free from parties and politics.

In accepting the obligation which came to it with the control of the Philippine Islands the American people has only the wish to serve, advance and improve the conditions of the Filipino people. That thought will continue to be the dominating factor in the American consideration of the many problems which must inevitably grow out of our relationship to the people.

If the time comes when it is evident to Congress that independence would be better for the people of the Philippines with respect to both their domestic concerns and their status in the world, and the Filipino people then desire complete independence, the American Government will gladly accord it. A careful study of the conditions in the Philippine Islands has convinced us that the time for such action has not yet arrived.

Reclamation.

Federal reclamation of the arid and semi-arid lands in the West has been the subject of intensive study in the Department of the Interior during the past fiscal year. New policies and methods of operation have been adopted which promise to insure the successful accomplishment of the objects sought. The completion of this reorganization plan is regarded as one of the achievements of the present Administration in the interests of farmers immediately and of all the people ultimately.

Commercial Aviation.

We advocate the early enactment of such legislation and the taking of such steps by the Government as will tend to promote commercial aviation.

Army and Navy.

There must be no further weakening of our regular army, and we advocate appropriations sufficient to provide for the training of all members of the National Guard, the citizens' military training camps, the Reserve Officers' training camps and the reserves who may offer themselves for service. We pledge ourselves to round out and maintain the navy to the full strength provided the United States by the letter and spirit of the limitation of armament conference.

The Negro.

We urge the Congress to enact at the earliest possible date a Federal anti-lynching law, so that the full influence of the Federal Government may be wielded to exterminate this hideous crime. We believe that much of the misunderstanding which now exists can be eliminated by humane and sympathetic study of its causes. The President has recommended the creation of a commission for the investigation of social and economic conditions and the promotion of mutual understanding and confidence.

Orderly Government.

The Republican Party reaffirms its devotion to orderly government under the guarantees embodied in the Constitution of the United States. We recognize the duty of constant vigilance to preserve at all times a clean and honest government and to bring to the bar of justice every defiler of the public service in or out of office.

Dishonesty and corruption are not political attributes. The recent Congressional investigations have exposed instances in both parties of men in public office who are willing to sell official favors and men out of office who are willing to buy them in some cases with money and in others with influence.

The sale of influence resulting from the holding of public position or from association while in public office or the use of such influence for private gain or advantage is a perversion of public trust and prejudicial to good government. It should be condemned by public opinion and forbidden by law.

We demand the speedy, fearless and impartial prosecution of all wrongdoers, without regard for political affiliation or position, but we declare no greater wrong can be committed against the people than the attempt to destroy their trust in the great body of their public servants. Admitting the deep humiliation which all good citizens share, that our public life should have harbored some dishonest men, we assert that these undesirables do not represent the standard of our national integrity.

The Government at Washington is served to-day by thousands of earnest, conscientious and faithful officials and employees in every department. It is a grave wrong against these patriotic men and women to strive indiscriminately to besmirch the names of the innocent and undermine the confidence of the people in the Government under which they live. It is even a graver wrong when this is done for partisan purposes or for selfish exploitation.

The Republican Administration has already taken charge of the prosecution of official dereliction, and it will continue the work of discovering and punishing; but it will not confuse the innocent with the guilty, nor prostitute for party advantage the enforcement of the law.

Law and Order.

We must have respect for law. We must have observance of law. We must have enforcement of law. The very existence of the Government depends upon this. The substitution of private will for public law is only another name for oppression, disorder, anarchy and the mob rule.

Every Government depends upon the loyalty and respect of its citizens. Violations of the law weaken and threaten government itself. No honest Government can condone such actions on the part of its citizens. The Republican Party pledges the full strength of the Government for the maintenance of these principles by the enforcement of the Constitution and of all laws.

Women Delegates.

We extend our greeting to the women delegates who for the first time under Federal authorization sit with us in full equality. The Republican Party from the beginning has espoused the cause of Woman Suffrage, and the presence of these women delegates signifies to many here the completion of

a task undertaken years ago. We welcome them not as assistants or as auxiliary representatives, but as co-partners in the great political work in which we are engaged, and we believe that the actual partnership in party councils should be made more complete.

Constitutional Guarantee.

The Republican Party reaffirms its unyielding devotion to the Constitution and to the guarantees of civil, political and religious liberty therein contained.

Party Responsibility.

With us, parties are essential instrumentalities of government. Our Government functions best when the Chief Executive is supported by a majority in the Congress of the same political faith, united by party principles and able by concerted action to carry out in an orderly way a definite, consistent and well-balanced program. In urging the people to elect a Republican President and Vice President, we urge them to elect to the Senate and House of Representatives men and women who believe in the Republican principles, acknowledge party responsibility and who can be relied on to keep faith with the people by carrying out the program which the Republican Party presents and pledges itself to fulfil.

THE PROGRESSIVE AND SOCIALIST CONVENTIONS.

A Conference for Progressive Political Action convened in Cleveland on July 4, 1924. A prepared statement from United States Senator Robert M. La Follette of Wisconsin was read by his son, in which the Senator announced that he would submit his name, together with those of duly qualified electors, for filing on the ballot of every State in the Union, in a candidacy for the Presidency of the United States. He severely arraigned both the Republican Party and the Democratic Party for "betrayal of the trust," and said the action of the people in the November election would "insure the creation of a new party in which all progressors may unite."

Senator La Follette was indorsed by acclamation for the Presidency at a session on July 5, and a great demonstration followed. The National Committee of the Conference, acting with the La Follette-for-President Committee, were authorized to name a candidate for Vice President. There were no nominating speeches, but several seconding speeches, notably one by Morris Hillquit of New York on behalf of the Socialist Party, another by George W. Leftwich, pledging the support of the Farmer-Labor Party, which he said was now organized in thirty-five States and had a voting membership of more than one million. The last was made by a Negro, William Pickens of New York, who said that thousands of Negroes were ready to switch their allegiance to the new party. A platform was adopted. The conference repudiated the Communistic program of the St. Paul Convention and rejected its representative, William D. Mahoney. Following this rejection, William Z. Foster, Chairman and C. E. Ruthenberg, Executive Secretary, of the Workers' Party of America, issued a statement denouncing the La Follette Convention, as "the most reactionary political convention held this year."

Senator Burton K. Wheeler, Democrat, of Montana, who had refused to support the Democratic nominee for President, was, on July 18, named as the Vice Presidential candidate. Senator La Follette chose the name "Progressive" for the party. Representative John M. Nelson of Wisconsin was made Chairman of the Executive Committee. During the campaign the Senator received the support of the Steuben Society, a nation-wide organization of German-Americans, and was pledged the support of the American Federation of Labor by its Executive Council.

At the National Convention of the Socialist Party of America at Cleveland on July 7, a report offered by a majority of a Committee of Fifteen, recommending that the convention concur in the action of the Conference for Progressive Political Action, in indorsing the candidacy of Senator La Follette and his platform, was after debate, adopted by a vote of 106 to 17. Thus officially, the whole organization of the Socialist Party was thrown to the support of the candidacy of Senator La Follette. The Socialist Party maintained its organization, and in States like New York, where they had a place on the ballot, the La Follette electors were carried under their name and emblem, as well as in a separate column (with one change) under the name and emblem of the Progressive Party.

The La Follette platform, indorsed by the Socialists, is printed in full herewith.

LA FOLLETTE'S PROGRESSIVE PLATFORM.

The text of the La Follette platform, adopted on July 5 by the Progressive Convention, is as follows:

For 148 years the American people have been seeking to establish a government for the service of all and to prevent the establishment of a government for the mastery of the few. Free men of every generation must combat renewed efforts of organized force and greed to destroy liberty. Every generation must wage a new war for freedom against new forces that seek through new devices to enslave mankind.

Under our representative democracy the people protect their liberties through their public agents.

The test of public officials and public policies alike must be: Will they serve, or will they exploit, the common need?

The reactionary continues to put his faith in mastery for the solution of all problems. He seeks to have what he calls the "strong men and best minds" rule and impose their decision upon the masses of their weaker brethren.

The progressive, on the contrary, contends for less autocracy and more democracy in government, and for less power of privilege and greater obligation of service.

Under the principle of ruthless individualism and competition, that government is deemed best which offers to the few the greatest chance of individual gain.

Under the progressive principle of co-operation, that government is deemed best which offers to the many the highest level of average happiness and well-being.

It is our faith that we all go up or down together—that class gains are temporary delusions and that eternal laws of compensation make every man his brother's keeper.

PROGRAM OF PUBLIC SERVICE.

In that faith we present our program of public service:

(1) The use of power of the Federal Government to crush private monopoly, not to foster it.

(2) Unqualified enforcement of the constitutional guarantees of freedom of speech, press and assemblage.

(3) Public ownership of the Nation's waterpower and creation of a public superpower system. Strict public control and permanent conservation of all national resources, including coal, iron and other ores, oil and timber lands, in the interest of the people. Promotion of public works in times of business depression.

(4) Retention of surtaxes on swollen incomes; restoration of the tax on excess profits, on stock dividends, profits undistributed to evade taxes, rapidly progressive taxes on large estates and inheritances and repeal of excessive tariff duties, especially on trust-controlled necessities of life, and of nuisance taxes on consumption, to relieve the people of the present unjust burden of taxation and compel those who profited by the war to pay their share of the war's costs and to provide the funds for adjusted compensation solemnly pledged to the veterans of the World War.

(5) Reconstruction of the Federal Reserve and Federal Farm Loan System to provide for direct public control of the Nation's money and credit, to make it available on fair terms to all, and national and State Legislatures to permit and promote co-operative banking.

(6) Adequate laws to guarantee to farmers and industrial workers the right to organize and bargain collectively, through representatives of their own choosing, for the maintenance or improvement of their standards of life.

GOVERNMENT MARKETING.

(7) Creation of Government marketing corporation to provide a direct route between farm producer and city consumer, and to assure farmers fair prices for their products and protect consumers from the profiteers in foodstuffs and other necessaries of life. Legislation to conduct the meat packing industry.

(8) Protection and aid of co-operative enterprises by national and State legislation.

(9) Common international action to effect the economic recovery of the world from the effects of the World War.

(10) Repeal of the Esch-Cummins law. Public ownership of railroads, with democratic operation, with definite safeguards against bureaucratic control.

(11) Abolition of the tyranny and usurpation of the courts, including the practice of nullifying legislation in conflict with the political, social or economic theories of the judges. Abolition of injunctions in labor disputes and of the power to punish for contempt without trial by jury. Election of all Federal judges without party designation for limited terms.

(12) Prompt ratification of the Child Labor Amendment, and subsequent enactment of a Federal law to protect children in industry. Removal of legal discriminations against women by measures not prejudicial to legislation necessary for the protection of women and for the advancement of social welfare.

(13) A deep waterway from the Great Lakes to the sea.

WOULD OUTLAW WAR.

(14) We denounce the mercenary system of foreign policy under recent Administrations in the interests of financial imperialists, oil monopolists and international bankers; which has at times degraded our State Department from its high service as a strong and kindly intermediary of defenseless governments to a trading outpost for those interests and concession seekers engaged in the exploitation of weaker nations, as contrary to the will of the American people, destructive of domestic development and provocative of war. We favor an active foreign policy to bring about a revision of the Versailles Treaty in accordance with the terms of the Armistice, and to promote firm treaty agreements with all nations to outlaw wars, abolish conscription, drastically reduce land, air and naval armaments, and guarantee public referendums on peace and war.

In supporting this program we are applying to the needs of to-day the fundamental principles of American democracy, opposing equally the dictatorship of plutocracy and the dictatorship of the proletariat.

We appeal to all Americans without regard to partisan affiliation, and we raise the standards of our faith so that all of like purpose may rally and march in this campaign under the banners of progressive union.

The Nation may grow rich in the vision of greed. The Nation will grow great in the vision of service.

THE MINOR CONVENTIONS AND CANDIDATES.

The Farmer-Labor Progressive Convention met at St. Paul on June 17 and 18, on a call made by J A. H. Hopkins, Chairman of the Committee of Forty-eight. No organization was excluded from sending delegates, which was willing to subscribe to these five fundamental planks: Government ownership of railroads; public ownership of natural resources; control of money and credits by the people through Government and co-operative banks; restoration of civil rights guaranteed by the Constitution; and abolition of the use of injunction in labor disputes and other judicial abuses. No inquiry was made as to the philosophic views of the groups participating.

Before the convention met, Senator La Follette wrote a letter repudiating the Communists and other Radicals who were participating in that movement. His candidacy, therefore, was not indorsed, as the Communists, led by William Z. Foster of Chicago, succeeded in dominating the convention, which nominated for President, Duncan McDonald of Springfield, Ill., formerly President of the Illinois State Miners' Union, and for Vice President, William Bouck of Sedro Woolley, Wash., a fruit grower and farmers' organizer.

On July 10, however, after the other nominations had been made, the executive committee of the party consented to the withdrawal of these two candidates, and substituted William Z. Foster for President and Benjamin Gitlow of New York for Vice President, who had already been nominated by the Workers' (Communist) Party. McDonald supported La Follette.

The Farmer-Labor Party, in its platform, called for nationalization of mines, superpower plants, railroads, banks, grain exchanges and telephone and telegraph services, and participation of the workers employed in those industries in their management. It also called for Government loans to farmers without interest, guaranteed employment at a minimum wage with unemployment insurance at regular union rates, and use of police and soldiers in strikes on the side of strikers.

The Socialist-Labor Party Convention met at the Broadway Central Hotel, in New York on May 11 (Sunday) and 12, with 50 delegates in attendance. The convention readopted its platform for the last Presidential campaign, declaring that "the capitalistic system had fulfilled its historic function and the capitalistic class had become a class of parasites. To supplant the capitalistic system the Socialist-Labor Party proposes that the workers shall assume control and direction as well as operation of their industrial affairs. We therefore call upon the wage workers to organize themselves into a revolutionary political organization under the banner of Socialist-Labor and to organize themselves upon the industrial field into a Socialist Industrial Union in order to consolidate the material power necessary for the establishment of a Socialist Industrial Republic."

For President, Frank T. Johns of Portland, Ore., was nominated, and for Vice President, Verne L. Reynolds of Baltimore, Md.

The National Independent Party, meeting in Indianapolis, July 9, named for President, John Zahnd of Indianapolis, and for Vice President, Roy M. Harrop of Omaha, Neb. Mr. Zahnd, however, after conference with the executive committee of the party, withdrew, July 29, in favor of Senator La Follette.

The Commonwealth Land Party, formerly the Single Tax Party, held its second national convention in New York on Feb. 8 and 9, with delegates from 13 States. They adopted a platform setting forth single tax principles, the elimination of private ownership of land, and the demand that the full rent of the land be collected by the Government in place of all direct and indirect taxes, and that all buildings, machinery and improvements, all industry, all wages and incomes, be entirely exempt from taxation. The convention nominated William J. Wallace of New Jersey, for President, and J. C. Lincoln of Ohio, for Vice President.

The American Party held its national convention at Columbus, O., June 3, and adopted a platform dealing with law enforcement, immigration, outlawry of war, and polygamy. The convention named Judge Gilbert O. Nations of Washington, D. C., for President, and former Representative Charles H. Randall of Los Angeles, Cal., for Vice President. The support of the Ku Klux Klan was sought.

The Prohibition Party held its convention in Columbus, O., on June 6, and voted to continue the party machinery and make its usual campaign for principle. One hundred and forty-seven delegates were present. Herman P. Faris of Clinton, Mo., was nominated for President, and Miss Marie C. Brehm of California, for Vice President.

UNITED STATES GEOGRAPHIC BOARD.

Chairman—Dr. C. Hart Merriam, Department of Agriculture.

Will C. Barnes, Forest Service, Department of Agriculture.

Clarence E. Batschelet, Bureau of the Census, Department of Commerce.

Frank Bond, General Land Office, Department of the Interior.

Capt. Frederic B. Bassett, Hydrographer, Department of the Navy.

J. N. B. Hewitt, Ethnologist, Smithsonian Institution.

James McCormick, Geological Survey, Department of the Interior.

James W. McGuire, Coast and Geodetic Survey, Department of Commerce.

Col. Lawrence Martin, Library of Congress.

John S. Mills, Department of the Treasury.

L. N. Morgan, Division of Postmasters' Appointments Post Office Department.

Lieut. Col. Girard L. McEntee, General Staff, War Department.

George R. Putnam, Bureau of Lighthouses, Department of Commerce.

Lieut. Col. A. C. Roberts, Topographer, Post Office Department.

Edward A. Huse, Government Printing Office.

By executive order of Aug. 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determines, changes, and fixes place names within the United States and its insular possessions, and any name suggested by any officer of the Government must be referred to the board before publication. The decisions of the board are to be accepted by all the departments of the Government as standard authority.

THE DEMOCRATIC NATIONAL CONVENTION.

The Democratic National Convention met in Madison Square Garden, New York, on June 24, 1924, and did not conclude its labors until 2.30 A. M., July 10, holding twenty-nine sessions, the most protracted convention in the history of the country. It required 103 ballots to nominate John W. Davis of West Virginia; the largest previous number of ballots at a National Convention was fifty-nine at the Democratic National Convention at Baltimore, in 1860, when there was a split in the party on the Civil War issue. The Democratic Convention in 1912 at Baltimore nominated Woodrow Wilson for President on the 46th ballot, and the convention in San Francisco in 1920 nominated James M. Cox on the forty-fourth ballot.

The proceedings of the convention were broadcast by radio all over the country. It was the first convention held in New York since that of 1868, which nominated Governor Horatio Seymour.

There were 1,446 delegates, and an equal number of alternates, many with fractional votes only. The number of votes was 1,098, and the number necessary to nominate under the two-thirds rule was 732. Apportionment of the delegates and alternates was: Two delegates and two alternates for each United States Senator, and two delegates and two alternates for each Representative in Congress from the respective States; and from the District of Columbia, the Philippines, Hawaii, Porto Rico, Alaska and the Canal Zone, six delegates and six alternates each.

There were 182 women delegates and 292 women alternates. The Vice Chairman of the Convention and the Chairman of the Credentials Committee were women. Women in goodly numbers were members of other committees; women spoke from the platform on important issues, seconded nominations, and one woman, Mrs. Leroy Springs, of South Carolina, was placed in nomination for Vice President.

Of the delegations, twenty-one were uninstructed, and nineteen were by State conventions placed under the unit rule.

The Garden seated 12,200, and was crowded at nearly every session. Senator Pat Harrison of Mississippi, as Temporary Chairman, delivered the keynote speech, June 24, emphasizing the recent revelations in the oil scandal. He attacked the leadership of President Coolidge, the Republican tariff policy, the Mellon tax plan and the sugar subsidy, and severely criticised the Republican Party for its attitude toward the League of Nations and the World War. He claimed credit for the Democrats for the Disarmament Conference, and ascribed the distress of the farmers to Republican legislation.

Senator Thomas J. Walsh of Montana, was made Permanent Chairman.

The Platform Committee began deliberations June 24, and reported the platform at 3 P. M. on June 28. They agreed on all planks except on that on the League of Nations, and that on the question of religious liberty. Minority reports were brought in on both these planks and were debated with great vigor on the 28th. The final vote was declared at 2 A. M. on the 29th after both minority reports had been rejected and the platform as presented adopted by acclamation.

The minority report offering a plank containing a definite and unequivocal pledge of participation by this country in the League of Nations was presented in an eloquent speech by former Secretary of War Newton D. Baker of Ohio, supported by seven members of the Resolutions Committee. It read:

"INTERNATIONAL CO-OPERATION:

"The most important problem facing the nations of the world to-day is how to recover from the last war and remove the menace of future wars.

"The only hope for world peace and for economic recovery lies in the organized efforts of sovereign nations co-operating to remove the causes of war and to substitute law and order for violence. Only thus can we outlaw war, stop preparations for war and keep out of war.

"Under Democratic leadership a practical plan was devised, on which fifty-four nations are now operating and which has for its fundamental purpose the free co-operation of all nations in the works of peace. The leaders of the Republican Party opposed that plan by gross misrepresentations. They subordinated the peace of the world and the welfare of this nation to doubtful party advantage. They have not carried out their promise of a substitute. The Government of the United States, which has always taken the lead, has, for the last four years for the first time in its history, fallen behind in efforts for international peace and justice.

"This Republican Administration made one limited effort to reduce the instruments of war, but none to reduce the causes of war. It has not only failed to aid, but has delayed political and economic reconstruction in Europe. By shirking responsibility it has impaired our self-respect at home and injured our prestige abroad. It has reduced this great nation to the role of impotent observer.

It has found it necessary to use the League of Nations, and yet seems constrained to sneer at and misrepresent it. Their policy of isolation is as revolting in its spiritual aspects as it is harmful in its material consequences.

"The Republican Party has no foreign policy.

"We approve the proposal, so repeatedly trifled with by the Republican Party, that the United States directly adhere to the Permanent Court of International Justice established under the auspices of the League of Nations. This proposal, while sound and desirable, is, however, but a fragment of the complete plan which is necessary if we are to abolish war and have economic recovery and stability.

"It would better comport with the dignity and interest of this great nation to face the question of international co-operation frankly and manfully. There is no substitute for the League of Nations as an agency working for peace.

"The League of Nations never meant and the Democratic Party never favored any 'foreign entanglements,' any meddling in the domestic affairs of others, any impairment of sovereignty. The Democratic Party favors membership in that co-operative agency upon conditions which will make it clear that we are not committed to use force and such further conditions as the President, with the approval of the Senate, may deem appropriate to make our co-operation effective in fact and consistent with our constitutional practice. Under a Democratic Administration the Government will endeavor to lift this great question above partisanship and to reflect the best opinion of those who place the welfare of the nation above partisanship. It will pursue a course which safeguards American interests and conforms to American traditions, aspirations and ideals. It will co-operate with civilization to banish war.

"The Democratic Party has a foreign policy."

THE FIGHT OVER THE K. K. K.

The vote on the report after a two-hour debate was: For, 353½; against, 742½.

The minority report presented by W. R. Pattangail of Maine, and twelve other members, was an addition to the plank in the platform which deals with "freedom of religion, freedom of speech, freedom of press." Its purpose was to mention the Ku Klux Klan by name and added these paragraphs:

"We condemn political secret societies of all kinds as opposed to the exercise of free government

REPRESENTATION AT THE 1924 DEMOCRATIC NATIONAL CONVENTION.

The representation of the States and Territories in the 1924 Democratic National Convention was the same as in that of 1920, except that the Canal Zone had six delegates instead of two, and was as follows:

STATE.	Delegates.	STATE.	Delegates.	STATE.	Delegates.	STATE.	Delegates.
Alabama	24	Kentucky	26	New Mexico	6	Vermont	8
Arizona	6	Louisiana	20	New York	90	Virginia	24
Arkansas	18	Maine	12	North Carolina	24	Washington	14
California	26	Maryland	16	North Dakota	10	West Virginia	16
Colorado	12	Massachusetts	36	Ohio	48	Wisconsin	26
Connecticut	14	Michigan	20	Oklahoma	20	Wyoming	6
Delaware	6	Minnesota	24	Oregon	10	Alaska	6
Florida	12	Mississippi	20	Pennsylvania	76	District of Col	6
Georgia	28	Missouri	36	Rhode Island	10	Hawaii	6
Idaho	8	Montana	8	South Carolina	18	Philippines	6
Illinois	58	Nebraska	16	South Dakota	10	Porto Rico	6
Indiana	30	Nevada	6	Tennessee	24	Canal Zone	6
Iowa	26	New Hampshire	8	Texas	40		
Kansas	20	New Jersey	28	Utah	8	Total	1,098

and contrary to the spirit of the Declaration of Independence and the Constitution of the United States.'

"We pledge the Democratic Party to oppose any effort on the part of the Ku Klux Klan, or any organization, to interfere with the religious liberty or political freedom of any citizen, or to limit the civic rights of any citizen or body of citizens because of religion, birthplace or racial origin."

The debate, which lasted two hours, was very bitter. Other speakers advocating the naming of the Klan were Edmund H. Moore of Ohio, former secretary to Bainbridge Colby, Mrs. Carroll Miller of Pittsburgh, Andrew L. Erwin of Georgia, Senator David I. Walsh of Massachusetts, C. M. Bryan of Memphis, Tenn., and Francis X. Busch of Illinois.

The debaters opposed to mentioning the Klan by name were Senator Robert L. Owen of Oklahoma, Gov. Cameron Morrison of North Carolina, Gared Y. Saunders of Louisiana, and William Jennings Bryan, whose address in closing was interrupted by applause, hisses, and booing from both floor and gallery. The entire convention was thrown into an indescribable uproar and the vote taken amid great confusion in the early hours of the morning, with repeated polls of State delegations and the changing of votes as the closeness of the result became apparent. Great excitement was caused by a Georgia woman delegate changing her vote, having first voted to name the Klan. As then announced by the Secretary, the minority report was lost by one vote. The final check-up, however, announced on Monday was: For the minority report, 541.85; against, 546.15. The detailed vote on both planks is printed herewith.

While the Committee on Resolutions was at work on the platform the delegates, on June 25, 26 and 27, listened to the nominating and seconding speeches. Those placed in nomination for the Presidency on the 25th were Senators J. T. Robinson of Arkansas, O. W. Underwood of Alabama and ex-Secretary William G. McAdoo of California; on 26th, Gov. A. E. Smith of New York, Senator S. M. Ralston of Indiana, Gov. Jonathan M. Davis of Kansas, Gov. A. C. Ritchie of Maryland, ex-Secretary D. F. Houston of New York, ex-Senator Willard Saulsbury of Delaware and Senator W. N. Ferris of Michigan; and on the 27th, ex-Gov. J. M. Cox of Ohio. Senator Carter Glass of Virginia, former Ambassador John W. Davis of West Virginia, Gov. Charles W. Bryan of Nebraska, Gov. F. H. Brown of New Hampshire and Gov. G. S. Silzer of New Jersey.

The Committee on Rules, by a vote of 37 to 7, decided to retain the rule requiring a two-thirds vote of the delegates present and voting to nominate a candidate.

A resolution in memory of the late President Woodrow Wilson was adopted and, later, another in memory of the late President Harding.

BALLOTING FOR PRESIDENT.

The convention reassembled on Monday, June 30, and the first ballot for President was taken in the evening. It is given in full in another column. Fifteen ballots were cast without result before the convention adjourned. Fifteen ballots were taken on Tuesday, twelve on Wednesday, nineteen on Thursday, nine on Friday—Mr. McAdoo reaching his highest vote, 530 votes, a few less than a majority, on the sixty-ninth ballot, which is also printed in another column.

Six ballots were cast on Saturday, July 5, when Gov. A. E. Smith reached his high-water mark, 368, on the seventy-sixth ballot, which is also given in full. A resolution was adopted then calling for a conference of representatives of the sixteen candidates who had been placed in nomination "for the purpose of reaching an understanding so as to hasten the conclusion of this convention."

The conference was in session several hours and reported on Monday, July 7, to the convention a resolution signed by all the candidates except Mr. McAdoo agreeing to release all their delegates from any pledges, instructions or obligations of any nature whatsoever to vote for them. Mr. McAdoo refused to sign this pledge and wrote a letter to the Chairman of the convention stating that, though he declined to sign the proposed agreement, he was willing to abrogate the unit rule, provided that after each ballot the candidate receiving the lowest number of votes should be dropped and the delegates present from each State should cast a pro rata vote of such delegates as might be absent. The report was rejected by an overwhelming vote.

On Monday, July 7, a drive was made for Senator Ralston of Indiana, but he failed to develop sufficient strength. The McAdoo vote began to decline and that for Gov. Smith clung about its high-water mark of 368 votes. Ten ballots were cast.

Thirteen ballots were taken on July 8, the session continuing until 2.30 A. M. In the early evening Franklin D. Roosevelt announced that for the good of the party Gov. Smith authorized him to say he would withdraw if McAdoo would do likewise. This announcement created intense excitement, but the balloting continued showing that McAdoo had declined to withdraw. A proposal to abrogate the two-thirds rule was rejected by an overwhelming majority on a viva voce vote after the ninety-fifth ballot.

At 2.30 A. M. Wednesday, July 9, Mr. McAdoo presented a letter to the convention saying that, though he felt if he should withdraw his name he would betray the trust confided in him by the people of many States, he was nevertheless unwilling to contribute to a continuation of a hopeless deadlock. For that reason, he said, "I have determined to leave my friends and supporters free to take such action as in their judgment may best serve the interests of the party." This indefinite statement left the convention in doubt, but the effect of his letter was apparent on the following ballot, the 100th, when his vote dropped to 190 and that for John W. Davis rose from fifty-nine on the 88th ballot, the first that day, to 203½.

The convention reassembled on Wednesday, July 9, at 8.30 P. M. On the first ballot, the 101st, McAdoo received 52 votes; Smith, 121; John W. Davis, 316; Underwood, 229½; Senator Walsh, 98, and ex-Senator Meredith, 130. The next ballot gave Davis 99 more. As the rollcall proceeded on the 103d ballot it was clear Davis would receive the necessary two-thirds and a number of States changed their votes before the result was announced, the figures being finally as follows: John W. Davis, 839; Underwood, 102½; Walsh, 59; Smith, 12½; McAdoo, 12; Robinson, 20; Glass, 23; Meredith, 14; James W. Gerard, 7. The ballot is given in full herewith. Upon the conclusion of the rollcall the nomination was made unanimous.

A motion to nominate Senator Walsh of Montana for Vice President was then made and would have been carried if he, as presiding officer, had not adjourned the convention. On its reassembling, a letter was read from Senator Walsh declining the honor, and thereupon nominations were made, the principal candidates being: Major George Berry of Tennessee, Bennett Clark of Missouri, Mrs. Leroy Springs of South Carolina, Col. Alvin Owsley, Gov. George S. Silzer of New Jersey, Mayor John F. Hylan of New York, Gen. John C. Greenway of Arizona, Gov. Flynn of Rhode Island and James W. Gerard of New York.

After the nominating speeches a recess was taken at midnight for one hour to give the delegates an opportunity to confer, and it was then decided by the leaders, with the approval of Mr. Davis, that they would unite on Gov. Charles W. Bryan of Nebraska, who up to that time had not been nominated. On the reassembling of the convention he was placed in nomination and a ballot was taken. The result was: Bryan, 739; Berry, 212½; Owsley, 16; Silzer, 10; Mrs. Springs, 18 (all from South Carolina); Flynn, 10; Gerard, 10, and Clark, 49; with 33 scattering.

The convention adjourned at 2.25 A. M. Thursday, July 10.

DAVIS ON THE LEAGUE AND THE K. K. K.

Mr. John W. Davis immediately resigned from his law firm, Stetson, Jennings & Russell, and from his other business interests, and prepared for an active campaign. He was formally notified of his nomination at his birthplace, Clarksburg, West Virginia, on Aug. 11. During the campaign, speaking in Seagirt, N. J., he said:

"Whenever any organization, no matter what it chooses to be called, whether Ku Klux Klan or any other name, raises the standard of racial or religious prejudice as a test of fitness for public office, it does violence to the spirit of American institutions and must be condemned by all who believe in American ideals."

The Ohio Democrats put this plank into their State platform.

Replying to a direct question, whether he favored entrance of the United States into the League of Nations, he gave out, through the Democratic national headquarters, on Oct. 20, the following statement:

"In my speech of acceptance opening the Democratic campaign I expressed my attitude on this question with complete frankness. I said, speaking in the sheerest terms of national interest, it was not wise or prudent or safe that fifty-four nations of the world should sit together in conference on world affairs and America be absent.

"I said, while this nation could not join the League of Nations helpfully unless and until the common judgment of the American people supported such a step, the day will come, in my judgment, when we should see that both interest and duty dictated the step.

"I do not believe that the League of Nations is perfect, I do not believe that it has assumed its final form. I believe in life and growth and custom and habit. I am not concerned even about the terms on which we shall appear at the council table of the world.

"Out of that appearance and out of such conference in God's good time will grow a friendly habit among men, the custom of calm and reasonable discussion and a proper yielding, not to force, not to a superstate, not to command, but in the language of the Declaration of Independence itself: To a decent respect for the opinion of mankind."

The notification of Gov. Bryan took place at Lincoln, Neb., Aug. 18.

The Democratic national platform is printed in full herewith.

THE DEMOCRATIC NATIONAL PLATFORM.

The platform adopted by the Democratic National Convention in New York on June 28, 1924, is as follows:

We, the representatives of the Democratic Party, in National Convention assembled, pay our profound homage to the memory of Woodrow Wilson. Our hearts are filled with gratitude that American Democracy should have produced this man whose spirit and influence will live on through the ages; and that it was our privilege to have co-operated with him in the advancement of ideals of government which will serve as an example and inspiration for this and future generations. We affirm our abiding faith in those ideals and pledge ourselves to take up the standard which he bore and to strive for the full triumph of the principles of Democracy to which he dedicated his life.

Democratic Privileges.

The Democratic Party believes in equal rights to all and special privilege to none. The Republican Party holds that special privileges are essential to national prosperity. It believes that national prosperity must originate with the special interests and seep down through the channels of trade to the less favored industries, to the wage earners and small salaried employees. It has accordingly enthroned privilege and nurtured selfishness.

The Republican Party is concerned chiefly with material things; the Democratic Party is concerned chiefly with human rights. The masses, burdened by discriminating laws and unjust administration, are demanding relief. The favored special interests, represented by the Republican Party, contented with their unjust privileges, are demanding that no change be made. The Democratic Party stands for remedial legislation and progress. The Republican Party stands still.

Comparison of Parties.

We urge the American people to compare the record of eight unsullied years of Democratic Administration with that of the Republican Administration. In the former there was no corruption. Party pledges were faithfully fulfilled and a Democratic Congress enacted an extraordinary number of constructive and remedial laws.

The economic life of the Nation was quickened. Tariff taxes were reduced. A Federal Trade Commission was created. A Federal farm loan system was established. Child labor legislation was enacted. A Good Roads Bill was passed. Eight-hour laws were adopted. A Secretary of Labor was given a seat in the Cabinet of the President.

The Clayton amendment to the Sherman Anti-Trust Act was passed, freeing American labor and taking it from the category of commodities. By the Smith-Lever bill improvement of agriculture conditions was effected. A Corrupt Practices Act was adopted. A well-considered Warehouse Act was passed. Federal Employment Bureaus were created. Farm Loan Banks were organized and the Federal Reserve System was established.

Privilege was uprooted. A corrupt lobby was driven from the national capital. A higher sense of individual and national duty was aroused. America enjoyed an unprecedented period of social and material progress.

During the time which intervened between the inauguration of a Democratic Administration on March 4, 1913, and our entrance into the World War, we placed upon the statute books of our country more effective, constructive and remedial legislation than the Republican Party had placed there in a generation.

During the great struggle which followed we had a leadership that carried America to greater heights of honor and power and glory than she had ever known before in her entire history.

Transition from this period of exalted Democratic leadership to the sordid record of the last three and one-half years makes the Nation ashamed. It marks the contrast between a high conception of public service and an avid purpose to distribute spoils.

Republican Inefficiency and Corruption.

Never before in our history has the Government been so tainted by corruption and never has an Administration so utterly failed. The Nation has been appalled by the revelations of political depravity which have characterized the conduct of public affairs.

We arraign the Republican Party for attempting to limit inquiry into official delinquencies and to impede, if not to frustrate, the investigations to which in the beginning the Republican Party and leaders assented but which later they regarded with dismay.

These investigations sent the former Secretary of the Interior to Three Rivers in disgrace and dishonor. These investigations revealed the incapacity and indifference to public obligation of the Secretary of the Navy, compelling him, by force of public opinion, to quit the Cabinet. These investigations confirmed the general impression as to the unfitness of the Attorney General by exposing an official situation and personal contacts which shocked the conscience of the Nation and compelled his dismissal from the Cabinet.

These investigations disclosed the appalling conditions in the Veterans' Bureau with its fraud upon the Government and its cruel neglect of the sick and disabled soldiers of the World War. These investigations revealed the criminal and fraudulent

nature of the oil leases, which caused the Congress, despite the indifference of the Executive, to direct recovery of the public domain and the prosecution of the criminal.

Such are the exigencies of partisan politics that Republican leaders are teaching the strange doctrine of public censure should be directed against those who expose crime rather than against criminals who have committed the offenses. If only three Cabinet officers out of ten are disgraced the country is asked to marvel at how many are free from taint.

Long boastful that it was the only party "fit to govern," the Republican Party has proved its inability to govern even itself. It is at war with itself. As an agency of government it has ceased to function. This Nation cannot afford to intrust its welfare to a political organization that cannot master itself or to an Executive whose policies have been rejected by his own party. To retain in power an Administration of this character would inevitably result in four years more of continued disorder, internal dissension and governmental inefficiency.

A vote for Coolidge is a vote for chaos!

Issues.

The dominant issues of the campaign are created by existing conditions.

Dishonesty, discrimination, extravagance and inefficiency exist in government. The burdens of taxation have become unbearable. Distress and bankruptcy in agriculture, the basic industry of our country, is affecting the happiness and prosperity of the whole people. The high cost of living is causing hardship and unrest.

The slowing down of industry is adding to the general distress. The tariff, the destruction of our foreign markets and the high cost of transportation are taking the profit out of agriculture, mining and other raw-material industries. Large standing armies and the cost of preparing for war still cast their burdens upon humanity. These conditions the existing Republican Administration has proved itself unwilling or unable to redress.

The Democratic Party pledges itself to the following program:

Honest Government.

We pledge the Democratic Party to drive from public places all who make barter of our national honor, its resources or the administration of its laws; to punish those guilty of these offenses.

To put none but the honest in public office; to practice economy in the expenditure of public money; to reverence and respect the rights of all under the Constitution.

To condemn and destroy Government by the spy and the blackmailer, as by this Republican Administration was both encouraged and practiced.

Tariff and Taxation.

The Fordney-McCumber Tariff Act is the most unjust, unscientific and dishonest tariff tax measure ever enacted in our history. It is class legislation, which defrauds all the people for the benefit of a few; it heavily increases the cost of living, penalizes agriculture, corrupts the Government, fosters paternalism, and, in the long run, does not benefit the very interests for which it was enacted.

We denounce the Republican tariff laws, which are written in great part in aid of monopolies and thus prevent that reasonable exchange of commodities which would enable foreign countries to buy our surplus agricultural and manufactured products, with resultant benefit to the toilers and producers of America. Trade interchange, on the basis of reciprocal advantages to the countries participating, is a time-honored doctrine of Democratic faith. We declare our party's position to be in favor of a tax on commodities entering the Custom Houses that will promote effective competition, protect against monopoly and at the same time produce a fair revenue to support the Government.

The greatest contributing factor in the increase and unbalancing of prices is unscientific taxation. After having increased taxation and the cost of living by two billion dollars, under the Fordney-McCumber tariff, all that the Republican Party could suggest in the way of relief was a cut of $300,000,000 in direct taxes; and that was to be given principally to those with the largest incomes.

Although there was no evidence of a lack of capital for investment to meet the present requirements of all legitimate industrial enterprises, and although the farmers and general consumers were bearing the brunt of tariff favors already granted to special interests, the Administration was unable to devise any plan except one to grant further aid to the few.

Fortunately this plan of the Administration failed, and, under Democratic leadership, aided by progressive Republicans, a more equitable one was adopted which reduced direct taxes by about $450,000,000.

The issue between the President and the Democratic Party is not one of tax reduction or of the conservation of capital. It is an issue of the relative burden of taxation and of the distribution of capital as affected by the taxation of income. The President still stands on the so-called Mellon plan, which his party has just refused to indorse or mention in its platform.

The income tax was intended as a tax upon wealth. It was not intended to take from the poor any part of the necessaries of life. We hold that the fairest tax with which to raise revenues for the Federal Government is the income tax.

We favor a graduated tax upon incomes, so adjusted as to lay the burdens of government upon the taxpayers in proportion to the benefits they enjoy and their ability to pay.

We oppose the so-called nuisance taxes, sales taxes and all other forms of taxation that unfairly shift to the consumer the burdens of taxation.

We refer to the Democratic revenue measure passed by the last Congress, as distinguished from the Mellon tax plan, as an illustration of the policy of the Democratic Party. We first made a flat reduction of 25 per cent, upon the tax of all incomes payable this year, and then we so changed the proposed Mellon plan as to eliminate taxes upon the poor, reducing them upon moderate incomes and, in a lesser degree, upon the incomes of multimillionaires. We hold that all taxes are unnecessarily high, and pledge ourselves to further reductions.

We denounce the Mellon tax plan as a device to relieve multimillionaires at the expense of other taxpayers, and we accept the issue of taxation tendered by President Coolidge.

Agriculture.

During the four years of Republican government the economic condition of the American farmer has changed from comfort to bankruptcy, with all its attendant miseries. The chief causes of this are:

(a) The Republican policy of isolation in international affairs has prevented Europe from getting back to its normal balance, and, by leaving unsolved the economic problems abroad, has driven the European city population from industrial activities to the soil in large numbers in order to earn the mere necessities of life. This has deprived the American farmer of his normal export trade.

(b) The Republican policy of a prohibitive tariff, exemplified in the Fordney-McCumber law, which has forced the American farmer, with his export market debilitated, to buy manufactured goods at sustained high domestic levels, thereby making him the victim of the profiteer.

(c) The Republican policy of high transportation rates, both rail and water, which has made it impossible for the farmer to ship his produce to market at even a living profit.

To offset these policies and their disastrous results, and to restore the farmer again to economic equality with other industrialists, we pledge ourselves:

(a) To adopt an international policy of such co-operation, by direct official instead of indirect and evasive unofficial means, as will re-establish the farmers' export market by restoring the industrial balance in Europe and the normal flow of international trade with the settlement of Europe's economic problems.

(b) To adjust the tariff so that the farmer and all other classes can buy again in a competitive manufacturers' market.

(c) To readjust and lower rail and water rates, which will make our markets, both for the buyer and the seller, national and international instead of regional and local.

(d) To bring about the early completion of internal waterway systems for transportation, and to develop our water powers for cheaper fertilizer and use on our farms.

(e) To stimulate by every proper governmental activity the progress of the co-operative marketing movement and the establishment of an export marketing corporation or commission in order that the exportable surplus may not establish the price of the whole crop.

(f) To secure for the farmer credits suitable for his needs.

(g) By the establishment of these policies, and others naturally supplementary thereto, to reduce the margin between what the producer receives for his products and the consumer has to pay for his supplies, to the end that we secure an equality for agriculture.

Railroads.

The sponsors for the Esch-Cummins Transportation Act of 1920, at the times of its presen-

tation to Congress, stated that it had for its purpose the reduction of the cost of transportation, the improvement of service, the bettering of labor conditions, the promotion of peaceful co-operation between employer and employee, and, at the same time, the assurance of a fair and just return to the railroads upon their investment.

We are in accord with these announced purposes, but contend that the act has failed to accomplish them. It has failed to reduce the cost of transportation. The promised improvement in service has not been realized. The labor provisions of the act have proven unsatisfactory in settling differences between employer and employees. The so-called recapture clause has worked to the advantage of the strong and has been of no benefit to the weak.

The pronouncement in the act for the development of both rail and water transportation has proved futile. Water transportation upon our inland waterways has not been encouraged, and limitation of our coastwise trade is threatened by the administration of the act. It has unnecessarily interfered with the power of the States to regulate purely intrastate transportation. It must, therefore, be so rewritten that the high purposes which the public welfare demands may be accomplished.

Railroad freight rates should be so readjusted as to give the bulky, basic, low-priced raw commodities, such as agricultural products, coal and ores, the lowest rates, placing the higher rates upon more valuable and less bulky manufactured products.

Muscle Shoals and Fertilizers.

We reaffirm and pledge the fulfilment of the policy, with reference to Muscle Shoals, as declared and passed by the Democratic majority of the Sixty-fourth Congress in the National Defense Act of 1916, "for the production of nitrates or other products needed for munitions of war and useful in the manufacture of fertilizers."

We hold that the production of cheaper and higher grade fertilizers is essential to agricultural prosperity. We demand prompt action by Congress for the operation of Muscle Shoals plants to maximum capacity in the production, distribution and sale of commercial fertilizers to the farmers of the country, and we oppose any legislation that limits the production of fertilizers at Muscle Shoals by limiting the amount of power to be used in their manufacture.

Republican Contraction of Credit and Currency.

We denounce the recent cruel and unjust contraction of legitimate and necessary credit and currency, which was directly due to the so-called deflation policy of the Republican Party as declared in its national platform of June, 1920, and in the speech of acceptance of its candidate for the Presidency.

Within eighteen months after the election of 1920 this policy resulted in withdrawing bank loans and discounts by over $5,000,000,000 and in contracting our currency by over $1,500,000,000. This contraction bankrupted hundreds of thousands of farmers and stock growers in America and resulted in widespread industrial depression and unemployment.

We demand that the Federal Reserve System be so administered as to give stability to industry, commerce and finance, as was intended by the Democratic Party, which gave the Federal Reserve System to the Nation.

Reclamation.

The Democratic Party was foremost in urging immediate reclamation for the arid and semi-arid lands of the West. These lands are located in the public-land States and, therefore, it is the duty of the Government to utilize their resources by reclamation.

Homestead entrymen under reclamation projects have suffered from the extravagant inefficiencies and mistakes of the Federal Government.

The Reclamation Act of 1924, recommended by the Fact-Finding Commission and added as an amendment to the second deficiency appropriation bill at the last session of Congress, was eliminated from that bill by the Republican conferees in the report they presented to Congress one hour before adjournment. The Democratic Party pledges itself actively, efficiently and economically to carry on the reclamation projects and to make equitable adjustment for the mistakes the Government has made.

Conservation.

We pledge recovery of the navy's oil reserves and all other parts of the public domain which have been fraudulently or illegally leased or otherwise wrongfully transferred to the control of private interests; vigorous prosecution of all public officials, private citizens and corporations that participated in these transactions; revision of the Water Power Act, the General Leasing Act and all other legislation relating to the public domain that may be essential to its conservation and honest and efficient use on behalf of the people of the country.

We believe that the Nation should retain title to its water power, and we favor the expeditious creation and development of our water power. We favor strict public control and conservation of all the Nation's natural resources, such as coal, iron, oil and timber, and their use in such manner as may be to the best interest of our citizens.

The conservation of migratory birds, the establishment of game preserves and the protection and conservation of wild life are of importance to agriculturists as well as sportsmen.

Our disappearing natural resource of timber calls for a national policy of reforestation.

Improved Highways.

Improved roads are of vital importance, not only to commerce and industry but also to agriculture and rural life. We call attention to the record of the Democratic Party in this matter and favor a continuance of Federal aid under existing Federal and State agencies.

Mining.

Mining is one of the basic industries of this country. We produce more coal, iron, copper and silver than any other country. The value of our mineral production is second only to agriculture. Mining has suffered like agriculture, and from the same causes. It is the duty of our Government to foster this industry and to remove the restrictions that destroy its prosperity.

Regulation of Corporations Controlling Necessities of Life.

We pledge the Democratic Party to regulate by governmental agencies the anthracite coal industry and all other corporations controlling the necessaries of life, where public welfare has been subordinated to private interests.

Merchant Marine.

The Democratic Party condemns the vacillating policy of the Republican Administration in its failure to develop an American-flag shipping policy. There has been a marked decrease in the volume of American commerce carried in American vessels as compared to the record under a Democratic Administration.

We oppose as illogical and unsound all efforts to overcome by subsidies the handicaps to American shipping and commerce imposed by Republican policies.

We condemn the practice of certain American railroads in favoring foreign ships, and pledge ourselves to correct such discriminations. We declare for an American-owned merchant marine, American built, and manned by American crews, which is essential for naval security in war, and is a protection to the American farmer and manufacturer against excessive ocean freight charges on products of farm and factory.

We declare the Government should own and operate such ships as will insure the accomplishment of these purposes, and to continue such operation as long as it may be necessary without obstructing the development and growth of a privately owned American-flag shipping.

Education.

We believe with Thomas Jefferson and other founders of the Republic that ignorance is the enemy of freedom, and that each State, being responsible for the intellectual and moral qualifications of its citizens and for the expenditure of the moneys collected by taxation for the support of its schools, shall use its sovereign right in all matters pertaining to education.

The Federal Government should offer to the States such counsel, advice and aid as may be made available through the Federal agencies for the general improvement of our schools in view of our national needs.

Civil Service.

We denounce the action of the Republican Administration in its violations of the principles of civil service by its partisan removals and manipulation of the eligible lists in the Post Office Department and other governmental departments; by its packing the Civil Service Commission so that that commission became the servile instrument of the Administration in its wish to deny to the ex-service men their preferential rights under the law, and the evasion of the requirements of the law with reference to appointments in the department.

We pledge the Democratic Party faithfully to comply with the spirit as well as the regulation of

civil service; to extend its provisions to internal revenue officers and to other employees of the Government not in executive positions, and to secure to ex-service men preference in such appointments.

Postal Employees.

We declare in favor of adequate salaries to provide decent living conditions for postal employees.

Popular Elections.

We pledge the Democratic Party to a policy which will prevent members of either House who fail of re-election from participating in the subsequent sessions of Congress. This can be accomplished by fixing the days for convening the Congress immediately after the biennial national election; and to this end we favor granting the right to the people of the several States to vote on proposed constitutional amendments.

Probation.

We favor the extension of the probation principle to the courts of the United States.

Activities of Women.

We welcome the women of the Nation to their rightful place by the side of men in the control of the Government, whose burdens they have always shared.

The Democratic Party congratulates them upon the essential part which they have taken in the progress of our country, and the zeal with which they are using their political power to aid the enactment of beneficent laws and the exaction of fidelity in the public service.

Veterans of Wars.

We favor generous appropriations, honest management and sympathetic care and assistance in the hospitalization, rehabilitation and compensation of veterans of all wars and their dependants. The humanizing of the Veterans' Bureau is imperatively required.

Campaign Contributions.

The Nation now knows that the predatory interests have, by supplying Republican campaign funds, systematically purchased legislative favors and administrative immunity. The practice must stop; our Nation must return to honesty and decency in politics.

Elections are public affairs conducted for the sole purpose of ascertaining the will of the sovereign voters. Therefore, we demand that national elections shall hereafter be kept free from the poison of excessive private contributions.

To this end, we favor reasonable means of publicity, at public expense, so that candidates, properly before the people for Federal offices, may present their claims at a minimum of cost. Such publicity should precede the primary and the election.

We favor the prohibition of individual contributions, direct and indirect, to the campaign funds of Congressmen, Senators or Presidential candidates, beyond a reasonable sum to be fixed in the law, for both individual contributions and total expenditures, with requirements for full publicity.

We advocate a complete revision of the Corrupt Practices Act to prevent Newberryism and the election evils disclosed by recent investigations.

Narcotics.

Recognizing in narcotic addiction, especially the spreading of heroin addiction among the youth, a grave peril to America and to the human race, we pledge ourselves vigorously to take against it all legitimate and proper measures for education, for control and for suppression at home and abroad.

Law Enforcement.

The Republican Administration has failed to enforce the Prohibition Law, is guilty of trafficking in liquor permits and has become the protector of violators of this law.

The Democratic Party pledges itself to respect and enforce the Constitution and all laws.

The Rights of the States.

We demand that the States of the Union shall be preserved in all their vigor and power. They constitute a bulwark against the centralizing and destructive tendencies of the Republican Party.

We condemn the efforts of the Republican Party to nationalize the functions and duties of the States.

We oppose the extension of bureaucracy, the creation of unnecessary bureaus and Federal agencies, and the multiplication of offices and officeholders.

We demand a revival of the spirit of local self-government essential to the preservation of the free institutions of our Republic.

Asiatic Immigration.

We pledge ourselves to maintain our established position in favor of the exclusion of Asiatic immigration.

Philippine Independence.

The Filipino people have succeeded in maintaining a stable Government and have thus fulfilled the only condition laid down by Congress as a prerequisite to the granting of independence. We declare that it is now our liberty and our duty to keep our promise to these people by granting them immediately the independence which they so honorably covet.

Alaska.

The maladministration of affairs in Alaska is a matter of concern to all our people.

Under the Republican Administration in Alaska development has ceased and the fishing industry has been seriously impaired.

We pledge ourselves to correct the evils which have grown up in the development of that rich domain.

An adequate form of local self-government for Alaska must be provided, and to that end we favor the establishment of a full territorial form of government for that territory, similar to that enjoyed by all the Territories except Alaska during the last century of American history.

Territory of Hawaii.

We believe in a policy for continuing the improvements of the National Park, the harbors and breakwaters, and the Federal roads of the Territory of Hawaii.

Virgin Islands.

We recommend legislation for the welfare of the inhabitants of the Virgin Islands.

Armenia and the Lausanne Treaty.

We condemn the Lausanne Treaty. It barters legitimate American rights and betrays Armenia for the Chester oil concession.

We favor the protection of American rights in Turkey and the fulfillment of President Wilson's arbitral award respecting Armenia.

Republic of Greece.

We welcome to the sisterhood of republics the ancient land of Greece, which gave to our party its priceless name. We extend to her Government and people our cordial good wishes.

War.

War is a relic of barbarism, and it is justifiable only as a measure of defense.

In the event of war in which the man power of the Nation is drafted, all other resources should likewise be drafted. This will tend to discourage war by depriving it of its profits.

Disarmament, War Referendum and National Defense.

We demand a strict and sweeping reduction of armaments by land and sea, so that there shall be no competitive military program or naval building. Until agreements to this end have been made we advocate an army and navy adequate for our national safety.

Our Government should secure a joint agreement with all nations for world disarmament, and also for a referendum of war, except in case of actual or threatened attack.

Those who must furnish the blood and bear the burdens imposed by war should, whenever possible, be consulted before this supreme sacrifice is required of them.

League of Nations.

The Democratic Party pledges all its energies to the outlawing of the whole war system. We refuse to believe that the wholesale slaughter of human beings on the battlefield is any more necessary to man's highest development than is killing by individuals.

The only hope for world peace and for economic recovery lies in the organized efforts of sovereign nations co-operating to remove the causes of war and to substitute law and order for violence.

Under Democratic leadership a practical plan was devised under which fifty-four nations are now operating and which has for its fundamental purpose the free co-operation of all nations in the work of peace.

The Government of the United States for the last four years has had no foreign policy, and consequently it has delayed the restoration of the political and economic agencies of the world. It has impaired our self-respect at home and injured our prestige abroad. It has curtailed our foreign markets and ruined our agricultural prices.

It is of supreme importance to civilization and to mankind that America be placed and kept on the right side of the greatest moral question of all time, and, therefore, the Democratic Party renews its declaration of confidence in the ideals of world peace, the League of Nations and the World Court of Justice as together constituting the supreme

effort of the statesmanship and religious conviction of our time to organize the world for peace.

Further, the Democratic Party declares that it will be the purpose of the next Administration to do all in its power to secure for our country that moral leadership in the family of nations, which, in the providence of God, has been so clearly marked out for it.

There is no substitute for the League of Nations as an agency working for peace; therefore, we believe that, in the interest of permanent peace, and in the lifting of the great burdens of war from the backs of the people, and in order to establish a permanent foreign policy on these supreme questions, not subject to change with change of party Administrations, it is desirable, wise and necessary to lift this question out of party politics, and to that end to take the sense of the American people at a referendum election, advisory to the Government, to be held officially under act of Congress, free from all other questions and candidacies, after ample time for full consideration and discussion throughout the country, upon the question, in substance, as follows:

"Shall the United States become a member of the League of Nations upon such reservations or amendments to the covenant of the League as the President and the Senate of the United States may agree upon."

Immediately upon an affirmative vote we will carry out such mandate.

Deep Waterways.

We favor and will promote deep waterways from the Great Lakes to the Gulf and to the Atlantic Ocean.

Flood Control and Water Transportation.

We favor a policy for the fostering and building of inland waterways and the removal of discrimination against water transportation. Flood control and the lowering of flood levels is essential to the safety of life and property, the productivity of our lands, the navigability of our streams and the reclaiming of our wet and overflowed lands and the creation of hydroelectric power.

We favor the expeditious construction of flood relief works on the Mississippi and Colorado Rivers and also such reclamation and irrigation projects upon the Colorado River as may be found to be feasible and practicable.

We favor liberal appropriations for prompt coordinated surveys by the United States to determine the possibilities of general navigation improvements and water power development on navigable streams and their tributaries, to secure reliable information as to the most economical navigation improvement, in combination with the most efficient and complete development of water power.

We favor suspension of the granting of Federal water power licenses by the Federal Water Power Commission until Congress has received reports from the Water Power Commission with regard to applications for such licenses.

Fraudulent Stock Sales.

We favor the immediate passage of such legislation as may be necessary to enable the States efficiently to enforce their laws relating to the gradual financial strangling of innocent investors, workers and consumers, caused by the indiscriminate promotion, refinancing and reorganizing of corporations on an inflated and overcapitalized basis, resulting already in the undermining and collapse of many railroads, public service and industrial corporations, manifesting itself in unemployment, irreparable loss and waste, and which constitute a serious menace to the stability of our economic system.

Private Monopolies.

The Federal Trade Commission has submitted to the Republican Administration numerous reports showing the existence of monopolies and combinations in restraint of trade, and has recommended proceedings against these violators of the law.

The few prosecutions which have resulted from this abundant evidence furnished by this agency created by the Democratic Party, while proving the indifference of the Administration to the violations of law by trusts and monopolies and its friendship for them, nevertheless demonstrate the value of the Federal Trade Commission.

We declare that a private monopoly is indefensible and intolerable, and pledge the Democratic Party to vigorous enforcement of existing laws against monopoly and illegal combinations and to the enactment of such further measures as may be necessary.

Aviation.

We favor a sustained development of aviation, both by the Government and commercially.

Labor and Child Welfare.

Labor is not a commodity. It is human. We favor collective bargaining and laws regulating hours of labor and conditions under which labor is performed.

We favor the enactment of legislation providing that the product of convict labor shipped from one State to another shall be subject to the laws of the latter State, exactly as though they had been produced therein.

In order to mitigate unemployment attending business depression, we urge the enactment of legislation authorizing that the construction and repair of public works be initiated in periods of acute unemployment.

We pledge the party to co-operate with the State Governments for the welfare, education and protection of child life and all necessary safeguards against exhaustive, debilitating employment conditions for women.

Without the votes of Democratic members of the Congress the Child Labor Amendment would not have been submitted for ratification.

The Latin-American Republics.

From the day of their birth friendly relations have existed between the Latin-American republics and the United States. That friendship grows stronger as our relations become more intimate. The Democratic Party sends to these republics its cordial greetings. God has made us neighbors—justice shall keep us friends.

Freedom of Religion, Freedom of Speech, Freedom of Press.

The Democratic Party reaffirms its adherence and devotion to those cardinal principles contained in the Constitution and the precepts upon which our Government is founded, that Congress shall make no laws respecting the establishment of religion, or prohibiting the free exercise thereof, or abridging the freedom of speech or of the press, or the right of the people peaceably to assemble and to petition the Government for a redress of grievances; that the church and the state shall be and remain separate, and that no religious test shall ever be required as a qualification to any office of public trust under the United States. These principles we pledge ourselves ever to defend and maintain. We insist at all times upon obedience to the orderly processes of the law and deplore and condemn any effort to arouse religious or racial dissension.

Conclusion.

Affirming our faith in these principles, we submit our cause to the people.

SUMMARY OF ALL BALLOTS CAST IN THE DEMOCRATIC CONVENTION.

(Fractional votes omitted.)

BALLOTS BY STATES IN DEMOCRATIC NATIONAL CONVENTION.

The ballots by States in the Democratic National Convention here given are the first showing the "favorite sons' " vote, the 69th showing the highwater mark for W. G. McAdoo, the 76th showing the high-water mark for Gov. Smith, and the final (103d) ballot showing the total before the votes of States were changed to Mr. Davis in the movement to make his nomination unanimous.

Total Vote.	State.	First Ballot. Total vote, 1,098; necessary to nominate, 732.				69th Ballot. Total vote, 1,098; necessary to nominate, 732.				76th Ballot. Total vote, 1,097; necessary to nominate, 732.				103d (Final) Ballot. Total vote, 1,092; necessary to nominate, 728.			
		McAdoo.	Smith.	Underwood.	J. W. Davis.	McAdoo.	Smith.	J. W. Davis.	Underwood.	McAdoo.	Smith.	J. W. Davis.	Underwood.	McAdoo.	Smith.	J. W. Davis.	Underwood.

How wisely the world has learned to use life insurance! It has always been the preferred way of protecting the widow and the child.

Policies, originated by The Prudential Insurance Company of America, pay unchangeable monthly incomes. The same type of policy will take care of one's own old age and begin paying at any time, for any period. Prudential Life Insurance Policies are now used to protect business, and carry any company over the danger involved in the loss of any of its executives.

Industrial Insurance, in which the Founder of The Prudential pioneered in America, is the working man's method of providing for a decent burial.

Group Life Insurance is the wise, humane employer's instrument by which he protects his employees and their families.

In all these varied and valuable services of life insurance protection, the Prudential Agent is your information bureau, your helper, your guide, your friend. Send for him today.

THE PRUDENTIAL
INSURANCE COMPANY OF AMERICA
Edward D. Duffield, President
Home Office, Newark, New Jersey

Do *you* want to be a Good Boxer?

Do *you* want to be able to put the gloves on with any of your pals and more than hold your own? Do *you* want to be able to use the Benny Leonard Triple Blow, the Jack Dempsey Triple, the Mike Donovan Leverage Guard, etc. In short, do *you* want to be a **good** boxer in a very short time and at very little cost?

The Stillman Shortcut System makes it easy for you to learn boxing. We start you with simple movements you already know—reaching out your hand for a coin—the breast stroke in swimming, etc., and step by step lead you into similar movements in boxing. Before you realize it we have you striking scientifically, guarding, ducking, feinting, etc., just as though you had a real opponent before you.

After you've mastered the fundamentals, you next learn every good blow and guard used in the ring, and Shadow Boxing. To complete your knowledge of self defense, you are taught 15 jiu jitsu holds and 14 wrestling holds—how to disarm an opponent, how to break a strangle hold, etc.

The course also includes a "History of famous boxers with their pictures"—from famous Mike Donovan to the latest champion.

SEND NO MONEY

Simply fill in and mail the coupon for a 10-day trial. When you have the course in your hands, deposit $1.67, plus actual postage, with the postman. Use the course for 10 days. We're sure you'll go on with it, and there'll be nothing more to pay. But if, for any reason, you are not entirely satisfied, return the course and get your deposit back at once.

THE STILLMAN ASSOCIATION
Dept. 2025 247 Park Avenue, N. Y.

COUPON

THE STILLMAN ASSOCIATION
Dept. 2025, 247 Park Avenue, New York

Send me on approval the Stillman Course. When I have the course in my hands, I will deposit $1.67 (plus actual postage) with the postman, with the understanding that if, after 10 days, I wish to return the course, I may do so and my deposit will be instantly refunded. If I keep the course there is to be nothing further to pay.

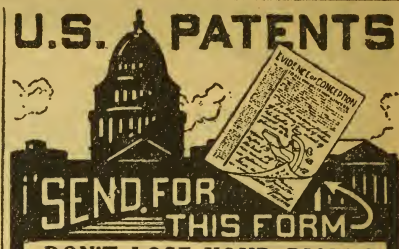
Address .....

Canadian and foreign orders must be accompanied by cash ($1.67 U. S. funds) subject to money back guarantee if not entirely satisfactory.



DON'T LOSE YOUR RIGHTS

TO PATENT PROTECTION

Before disclosing your invention to anyone send for blank form **"EVIDENCE OF CONCEPTION"** to be signed and witnessed. A sample form, together with printed instructions, will show you just how to work up your evidence and establish the same before filing application for patent. **We are Registered Patent Attorneys in United States and Canada.** Our schedule of fees will be found reasonable. The form "Evidence of Conception," sample, instructions relating to obtaining of patents and schedule of fees sent upon request. Ask for them—a post card will do.

A Business Opportunity

exists for the man who wishes to be his own boss and the owner of a permanent, ever-expanding, profitable merchandising service. It may start with $100 capital, or $10,000, but it cannot start without capital. The degree of success has no reasonable limit. It has attracted to it and has to-day engaged in it, men who are conspicuous successes and of long and wide experience in merchandising, with capital abundant for all their requirements; and the other extreme of men and women with limited business experience and qualifications, and very small capital.

No man is too big for the business.

Men of strong professional standing with splendid incomes have given up these incomes and their professional work to engage in this service, with success.

The business is merchandising, but it entails a service that is unique, intensely interesting—productive of great enthusiasm, and broadly constructive. It makes you the greatest benefactor in your community, town, city or district, and pays you a real profit for such benefaction.

Service is the foundation of all real success, and this service literally enables you to take time from eternity and put it into the life of man, and make legitimate profits in doing so.

Did You Ever Hold an Audience SPELLBOUND!

WHY is it that some men and women whom you have heard speak are able to hold an audience spellbound—are able to play upon the emotions of dozens or thousands of people as easily as the average musician plays upon his musical instrument? Why is that these people can so commandingly and so gracefully stand before an audience and convince their listeners even against their wills—can hold their rapt attention—can bring tears to their eyes—can make them shake the walls of the building with their laughter—with such evident ease?

What Makes a Successful Speaker?

Grenville Kleiser, the famous speech specialist, has found the answer.

He has trained thousands upon thousands of men and women in every part of the country to become successful public speakers—men and women in all walks of life—and he can train *you* without requiring you to step outside of your home.

This he can accomplish through his wonderfully interesting mail course in public speaking.

No man or woman who can read and speak the English language can fail to be benefited by this remarkable method of instruction.

Confidential Information FREE

Just send us a post card or a letter, or write your name and address in the coupon and forward it to us, and we will mail to you in a plain envelope, printed material explaining in full the marked advantages of, and your opportunities for success with Grenville Kleiser's famous mail course in public speaking. All replies are held in strictest confidence. No agent will call upon you.

ASTHMA

Vapo-Cresolene makes a strong appeal to those afflicted with Asthma or Hay Fever, because the little lamp, used at night, is at work vaporizing the soothing remedy while the patient sleeps, and the difficult breathing is quickly relieved. A patient calls it a boon to sufferers from Asthma.

Vapo-Cresolene *"Used While You Sleep"*

Cresolene has been recommended and used with great success for forty-five years for the relief of coughs, bronchitis, spasmodic croup and whooping cough.

Does Your Memory Need Mending?

Haven't you suffered from annoyance and humiliation because you tried your level best to remember something important—but you couldn't? You need not let it happen to you again. For—

You are now in touch with an easy system of memory culture. Take it up and it will bring to the tip end of your tongue the knowledge you store away in the back of your brain. This system—

The BEROL MAIL COURSE *in* MEMORY TRAINING *and* MENTAL EFFICIENCY

is taught in educational institutions in New York. It has been studied by thousands of students.

Mr. Berol, the founder of this system, was once one of those unfortunates that couldn't remember. His memory was "like a sieve." When the disadvantage he was under began to seriously affect his affairs, he set to work to try and mend his mind.

DEVELOPED A GOOD MEMORY!

And he did it! He developed his memory marvellously well. He was soon able to memorize with extraordinary power. As a test of ability he showed that he could—

Instantly give the population of any place in America over 5,000!

Give the dates of birth and death of the great men of history!

Give without hesitation every important incident and date in the world's history!

In fact, he acquired thousands of facts, ready for instant use. They came forward the moment he wanted them. His memory worked quick as a flash!

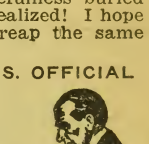
TAUGHT BY MAIL

Mr. Berol was so delighted with his success that he developed his system into a mail course of training. Since then thousands of men and women all over the country have studied the system by mail. So can you.

RECOVERS LOST FACTS

Dr. Fred J. Sperling, of Wilkes-Barre, Pa., a student, was so delighted with the course that he wrote: "Facts of usefulness buried years ago are now realized! I hope other students will reap the same harvest as I."

PRAISE FROM U. S. OFFICIAL



Dr. V. P. McIntosh, U. S. Public Health Service, Portland, Me.: "I regard your method of memory training as excellent."

IMPROVED HIS MEMORY

Harry W. Lewis, 44 S. 8th St., Columbia, Pa.: "The average man doesn't know how poor his memory really is until he is shown. I wish to thank you for the good your course has done me."

IS YOUR MEMORY FUNCTIONING RIGHT

If your memory doesn't function satisfactorily, fill out the coupon below and mail it. As soon as we receive it, we will send you full and free information as to how you can join our correspondence class in the study of The Berol Mail Course in memory training and mental efficiency. "Lest ye forget"—do it now.

BROWN'S BRONCHIAL TROCHES

were first introduced to the public in the year 1850 and are known over the entire world as a preparation of superior merit for the relief of coughs and throat troubles.

They give prompt and effective relief in the coughing spells and throat irritation incident to Bronchitis, Asthma and Lung troubles.

Of great value to singers, speakers, preachers and teachers, as a means to clear the voice, remove hoarseness and irritations caused by use of the voice.

As they contain no opiates or anything injurious, BROWN'S BRONCHIAL TROCHES may be used in all cases where cough or throat lozenges are employed, without the least danger.

Sold only in boxes. Not sold by weight.

Crooked Spines Straightened!

NO matter how old you are; no matter what caused your affliction; no matter how many years you have suffered or how hopeless you believe your case to be, there is hope for you in the Philo Burt Method.

Eminent specialists who have studied and treated spinal diseases and deformities for years are first astonished, then convinced and quickly become enthusiastic upon finding one success follow another when the Philo Burt Method is used. Ask us for the names of happy patrons right in your vicinity.

A young woman who was bed-ridden at 26 with spinal tuberculosis after suffering for 20 years, is married, happy and perfectly strong and vigorous at 29.

A boy of 8 was unable to walk or hold his head erect. After a few months every symptom disappeared and he walks daily three miles to school.

A man of 45, in cruel agony for six years, spent over $3,000 in a vain search for relief. Now works every day without the aid of any artificial support.

FREE—30 Days' Trial

The Philo Burt Method is new and different, not like anything you have tried. It has benefited or cured over 30,000 sufferers from spinal trouble caused by tuberculosis, Pott's disease, infantile paralysis, spinal meningitis, pleurisy, rheumatism, injuries, wrong sitting and standing postures, etc. Treat yourself at home. A 30-days' trial costs you nothing; no obligations of any kind if it fails.

The Philo Burt Appliance will positively cure any case that is curable and straighten any crooked spine that can be straightened. It gives firmer and more natural support to the spine than any torturing, unsanitary, old style brace made of steel, iron, leather, plaster of paris, etc. It is as yielding, soft and comfortable as a corset. Goes on and off like a coat and cannot be detected under the clothing. It relieves and strengthens and has accomplished many amazing cures. Let us send you sworn proof. Send no money. Simply describe your case fully. Get our liberal offer and helpful book on spinal troubles absolutely free.

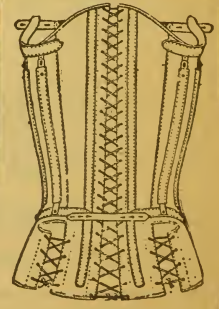
Department No. 1

412 Eighth Ave. **New York, N. Y.**

For 25 years manufacturers to the prominent hospitals of the country.



Beginner Earns $415 EASY IN 10 DAYS

He began making good money from the very start without previous experience. The profits paid are so liberal and the values so startlingly big that orders come easy. You or any ambitious young man who wants to earn more money has an equal chance to match Guy L. Williams' record of $415 earned in 10 days. He shot ahead from punching a time-clock at only $130 per month to many times that amount because we started him out right and showed him exactly how easy it can be done.

Mr. Williams says:

"I'm mighty grateful for the day I broke away from the inside job and I'm even more grateful that my first stab at the selling game was with a house that's right, that's making goods that's right. That means a lot in making good. I'm still not very old and this Gibson Agency looks like it's going to be worth more to me every year, so why should I worry? I'm going to start saving now for a rainy day and it's a mighty nice feeling to know that I can put more in the bank every week than I used to earn."

Guy L. Williams.

The Secret of Success

It is easy to sell if you offer folks something they know they need, at a price they are willing to pay. That is why the W. Z. Gibson, Inc., line of finely tailored all-wool suits at $31.50 can be sold by any man who will show our 100 different beautiful, real woolen samples to select from. Latest correct styles to suit every taste and all one price, only $31.50. We pay your profits in advance and deliver and collect. Besides, you can say to everyone, "You must be pleased or we guarantee to return every penny of your money." These suits are equal to $60.00 suits sold elsewhere and the unbeatable value gets you the orders quick. We explain everything simply and clearly and furnish complete selling instructions. You can't fail by our system if you really try—and we take all the risk. Hundreds of beginners have already made good with our winning plan. This work is permanent, dignified and **pays big.** Remember, you don't risk one penny, we start you out in business absolutely FREE. But you must mail this coupon at once, or you risk losing the territory you want.

W. Z. GIBSON, Inc., 161 W. Harrison St., Dept. A-575, Chicago

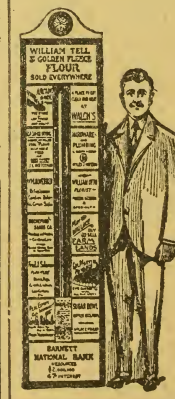
SOME THERMOMETER

18 inches wide, 80 inches long

Jumbo Thermometer, Barometer and Eight Day Clock



This is the biggest thing in advertising. It's not only big in feet and inches, but in dollars and cents. Scores of men are making big successes by selling advertising space on the "JUMBO."

$180.00 for a Day and a Half Work.

Display space in public places and on prominent corners is easily secured for the big "JUMBO" Thermometer. The fourteen advertising spaces go like hot cakes—some of our men sell out the thermometer in a day and a half or less.

You, Too, Can Get the Big Jobs

"Cooke" Trained Men Earn $3500 to $10000 Yearly in Electricity

Now you earn $20 or $30 or $40 a week. In the same six days as an Electrical Expert you can make $70 to $200 and make it easier—not work half so hard. Why then remain in the small-pay game, in a line of work that offers no chance, no big promotion, no big income? Fit yourself for a "Bossing" Job—be an "ELECTRICAL EXPERT."

Be An Electrical Expert

Today even ordinary Electricians—the "screwdriver" kind—are making money—big money. But it's the trained man—the man who knows the whys and wherefores of Electricity—the "Electrical Expert"—who is picked to "boss" the ordinary Electricians—to boss the Big Jobs—the jobs that pay.

$3,500 to $10,000 a Year

Get in line for one of these "Big-Pay Jobs" by enrolling now for my easily learned, quickly-grasped, right-up-to-the-minute, Spare-Time, Home-Study Course in Practical Electricity.

Age or Lack of Experience No Drawback

You don't have to be a High School Graduate—it isn't even necessary that you should have finished the grades. As Chief Engineer of the Chicago Engineering Works, I know exactly the kind of training you need, and I will give you that training. My Course in Electricity is the most simple, thorough, successful and practical in existence, and offers every man, regardless of age, education or previous experience, the chance to become, in a few short months, an "Electrical Expert" able to make from $70 to $200 a week.

Earn While You Learn—Outfit FREE

With me you do practical work—at once. In my first few lessons I show you how to make money doing Electrical work in your spare time. (Over half of my students are paying for their course in this way.) I show you, also, how to get started in business for yourself, and then I help you to get started. To do spare time work you'll need tools, etc. These I give you—FREE—a whole kit, including measuring instrument, a real electrical motor (no toy) and other things—the greatest value ever given by any School.

Your Satisfaction Guaranteed by a Million Dollar Institution

I absolutely guarantee to return every penny paid me in tuition if, when you have finished my Course, you are not satisfied in every way with my instructions. And back of me in my guarantee stands the Chicago Engineering Works, a million dollar institution.

Investigate! Mail Coupon

Get the Vital Facts. Let me send you free, my big new book on The Future of Electricity. Let me tell you more about the big demand for "Cooke" trained Electrical Experts. Sign and send me Coupon.

IF YOU ARE A BUSINESS MAN

you should know these facts

The worth of any undertaking must be measured by the men responsible for it. The Advisory Council of the Alexander Hamilton Institute includes:

Dr. Joseph French Johnson, Dean of the New York University School of Commerce; T. Coleman duPont, the well-known business executive; Percy H. Johnston, President of the Chemical National Bank of New York; Dexter S. Kimball, Dean College of Engineering, Cornell University; John Hays Hammond, the eminent consulting engineer; Frederick H. Hurdman, Certified Public Accountant and Business adviser; Dr. Jeremiah W. Jenks, the statistician and economist.

◈◈

A few Institute subscribers, representative of the 250,000 men who are enrolled:

E. E. Amick, *Vice President, First National Bank, Kansas City, Mo.*

William Candler, *Secretary and Treasurer, Coca-Cola Company.*

Francis A. Countway, *President, Lever Brothers Company (Mfrs. Lux, Lifebuoy Soap).*

Charles E. Hires, *President, Hires Root Beer Company.*

Roy W. Howard, *Chairman, Board of Directors, Scripps-Howard Newspapers.*

William Wrigley, Jr., *President, William Wrigley, Jr., Co. (Wrigley's Gum).*

[1]

THE ALEXANDER HAMILTON INSTITUTE has only one Course—the Modern Business Course and Service.

[2]

This Course and Service provides a thoro training in all the fundamental phases of business; not merely a grounding in some one special field.

[3]

Sixty per cent of the 250,000 subscribers to the Course and Service are Executives—Presidents, Vice Presidents, Secretaries, Treasurers, Managers and Business Heads.

[4]

The average age of Institute subscribers is 37. A man must be 21 years of age before he can enrol.

[5]

One out of every three Institute men is a university graduate. Ten per cent are graduate engineers.

[6]

The Modern Business Course is intended for two types of men: men who are Executives; men who are going to be Executives.

[7]

The Institute offers no cure-all for business troubles; it cannot increase incomes overnight or change failures into successes in a month. *But the Institute does supply a common-sense method of preparing ambitious men for greater business progress.*

THIS BOOK gives you all the facts about the Modern Business Course and Service. It will be sent without cost or obligation if you will mail the coupon.

The river has **over-flowed** its banks	You will **find** only one

2.

eve-ning	a-**me**-na-ble
as-cer-tain	**ac-cli**-mate
hos-pi-ta-ble	**pro-found**
ab-do-men	**ben-e-fish**-ary
may-or-al-ty	**cu**-li-na-ry

3.

supersede	repetition
receive	separate
reprieve	accommodate
donkeys	trafficking
factories	accessible

THOUSANDS of persons make little mistakes in their every-day English and don't know it. As a result of countless tests, Sherwin Cody found that the average person is only 61% efficient in the vital points of English. In a five-minute conversation or in an average one-page letter, five to fifty errors will appear. Try the test shown in the panel, now. See where you stand on these 30 simple questions.

New Invention Improves Your English in 15 Minutes a Day

Mr. Cody has specialized in English for the past twenty years. His wonderful self-correcting device is simple, fascinating, time-saving, and incomparably efficient. You can write the answers to 50 questions in 15 minutes and correct your work in 5 minutes more. You waste no time in going over the things you already know. Your efforts are automatically concentrated on the **mistakes** you are in the habit of making, and through constantly being shown the **right** way you soon acquire the **correct** habit, in place of the **incorrect** habit. There is no tedious copying. There is no heart-breaking drudgery.

FREE Book on English

Your English reveals you as nothing else can. When you use the wrong word, when you mispronounce a word, when you misspell a word, when you punctuate incorrectly, when you use flat, ordinary words, you handicap yourself. Write for our new book, "How to Speak and Write Masterly English." Merely mail the coupon, and it will be sent by return mail.

Can You Solve This Problem?

The following problem is taken from our Advanced Accounting:

Three brothers, A, B and C, own all the Capital Stock (each 1-3) of a certain corporation X. They own also, but not equally, 55% of the Capital Stock of a kindred corporation Y, which is capitalized for $100,000, the par value of the shares being $10.00. The assets of the Y corporation total $200,000, and the outside liabilities total $30,000. The holdings of each in the Y corporation are as follows.

A 2,222 shares. B 2,222 shares, C 1,056 shares.

The three brothers, acting as the corporation X, purchase out of the corporate funds the remaining 45% interest in the corporation Y, paying $100,000 therefor. Without further cost to X, they now wish to merge the two corporations under the corporate name of X, and to dissolve Y.

C purposes to make compensation to A and B individually for an equal interest in the 5,500 shares upon the same basis as the 45% interest was acquired, so that all may share equally in the merged properties.

How much should C pay to each of the other stockholders?

Outline the entries necessary to record all the above stated transactions on the books of X and Y.

Solution of the above, together with our free book, "The Walton Way to a Better Day," gladly sent on request without obligation to you.

Walton courses provide a thorough training in preparation for the profession of Accountancy. Three hundred and fifty-two (352) Walton students have successfully passed the C. P. A., C. A., or American Institute examinations (students successful in both C. P. A. and Institute examinations are counted only once), a record unequalled by any other educational institution. Sixteen times in the last eight years, Walton students have won Medals for high honors in the semi-annual Illinois C. P. A. examination. Walton-trained men, in competition with students from Schools, Colleges and Universities the country over, also won high honors in American Institute Examinations in May, 1917, 1918, 1919, 1920, 1921 and 1922. Send today for our free 128-page book, which tells more about the remarkable achievements of Walton students everywhere.

In present-day business it is only the trained men who can get and hold the high salaried positions. If you are satisfied to stay where you are we can do nothing for you. If you want to advance yourself we can train you without interfering with your present position, if you will use a portion of your spare time for study. There is no magic about it. It is simply a matter of industry under skilled guidance.

The Walton courses, taught by correspondence and in resident day and evening schools in Chicago and New York, cover Constructive Accounting, Cost Accounting, Advanced Accounting, Income Tax and Business Law.
